Call No. 891.05 / J.M.B. R.A.S.

PREFACE.

The Index covers the Journals issued during the whole period of the Straits Branch Royal Asiatic Society's existence from its foundation until its change of title to Malaya Branch Royal Asiatic Society. It also includes papers in Notes and Queries of which four volumes were issued.

It is based as far as Volumes I—L are concerned on the Index for those volumes compiled by W. D. Barnes and published as a separate journal, No. LI.

The subject headings in that index have however not all been adhered to and papers have now been placed in alphabetical order under their respective headings, which was not done previously.

As a general rule papers appear under the key word of their title, under the name of the author and under such special subject headings as their contents make desirable.

The following are the principal subject headings:—
