(b) Other casualties and their dependants.

(c) Those who are in need of relief or assistance by reason of poverty, disability, sickness, infirmity or otherwise,

The Fund exists for a service which trains as well as fights in the air, and so provides relief not only for cases arising from casualties in war but also for those arising from flying accidents and ordinary distress in peace. It must, therefore, be prepared to render help indefinitely and not merely to meet temporary emergencies.

Donations and subscriptions will be gratefully received and should be sent to:

PREFACE

Some occurrences notified at a date later than the end of October 1954, when the early pages of this edition had to go to press, could not be recorded in the body of the book; a number of these, of the most general interest, are listed in a supplement preceding the first page of the biographies. This includes also a list of those who, having no entry as yet in the body of the book, received titles gazetted on 1 January 1955. The obituary on pages 34–47 includes deaths reported up to the middle of December 1954.

A proof of each entry is posted to its subject every year for personal revision, but this cannot be sent unless an address is given. It should be pointed out that the numbers given of the children of a marriage are, unless otherwise indicated, those of the sons and daughters now living; also, that it is the practice to print the names of London clubs unaccompanied by the word London.

It cannot be stated too emphatically that inclusion in Who’s Who has never at any time been a matter for payment or of obligation to purchase the volume.

THE TRUTH ABOUT VIVISECTION

The following facts about painful scientific experiments on animals ("vivisection") as conducted in this country are disputed by none but the ignorant and those who deliberately seek to mislead the public:

1. Well over two million experiments are performed in Britain each year—the vast majority without anaesthetics.

2. The Home Office regulations which govern the practice explicitly sanction the infliction of "severe pain" and "considerable pain".

3. From time to time the medical and other scientific periodicals publish accounts of experiments which can fairly be described as revoltingly cruel.

4. A number of fully qualified doctors who (unlike the majority of their profession) have closely studied the subject declare that experiments on animals, when their results are applied to human beings, are often misleading and therefore dangerous and that, on balance, they retard the progress of medical science.

Ample documentary evidence is available for all the above statements. Write for free literature and give your practical support to the

The Association of Certified and Corporate Accountants

The Association is one of the largest of the statutorily recognised bodies of accountants in the United Kingdom and Ireland, and has Branches and District Societies in the principal towns thereof as well as in various overseas countries.

The designation of members is Certified Accountant. Fellows are denoted by the letters F.A.C.C.A. and Associates by the letters A.A.C.C.A.

Membership of the Association is over 9300.

Members are not allowed to advertise or issue circulars for business.

Admission can be obtained only by passing the necessary examinations and satisfying the Council as to practical experience and character.

Examinations are held twice yearly in the principal towns of Great Britain, Northern Ireland, Eire, and once yearly in selected centres abroad.

Students taking the Accountants' University Course can obtain certain concessions in relation to their professional examinations.

Enquiries should be addressed to the Secretary of the Association at:

Please HELP these children!

Since its foundation in 1827, several thousand orphans of Merchant Seamen have been cared for, educated, and set up in life; and there are now over 300 boys and girls at the school, more than half of whom lost their fathers during the late war. The assured income does not meet the expenditure. New subscribers are urgently needed to bridge the gap. Please show your appreciation of our Merchant Seamen by sending donations or subscriptions to the Secretary, The Royal Merchant Navy School, 28 St. Mary Axe, London, E.C.3

IMPERIAL CANCER RESEARCH FUND
Incorporated by Royal Charter, 1939

President—Her MOST Gracious Majesty THE QUEEN

Dependent upon voluntary gifts, without State aid, the Fund is under the direction of the Royal College of Physicians of London and the Royal College of Surgeons of England and is governed by representatives of many medical and scientific institutions. Money is needed quickly to assist the developments now being made in the conquest of cancer. In addition to the continuous and systematic research in up-to-date laboratories at Mill Hill, London, the work is being extended in new laboratories at Lincoln’s Inn Fields. Will you please help?

LEGACIES, DONATIONS AND SUBSCRIPTIONS
are urgently needed for the maintenance and extension of our work. Subscriptions should be sent to the Hon. Treasurer, Mr. Dickson Wright, F.R.C.S., at Royal College of Surgeons, Lincoln’s Inn Fields, W.C.2.

Hands to dinner

The ways of the sailor's world are strange to the landsman—so he likes to think that Jack ashore is equally at sea. It isn't true, of course. And, when problems and anxieties do arise, he knows he can turn to one of the numerous societies that exist to help him.

King George's Fund for Sailors—the central fund for all sea services—makes grants to more than 120 welfare and benevolent societies. Your gift to K.G.F.S. will help all seamen—serving or retired—and their families everywhere.

* Send it today to Captain Stuart Paton, C.B.E., R.N.

The Welfare of the Deaf

THE N.I.D. is the only national body in the British Isles dealing with every aspect of deafness—there are Welfare Societies or Missions concerned with the deaf and dumb, and Lip-reading Classes and Social Clubs for the hard of hearing.

Certain homes for deaf and deaf-blind people, and a hostel for deaf working lads and young men, are administered by the N.I.D. Extensions to them and the provision of further homes are an urgent need and are under constant consideration.

The work of the National Benevolent Society and Deafened Ex-Servicemen’s Fund has now been taken over and assistance is given in every problem concerning the welfare of the deafened ex-serviceman and woman.

Voluntary Gifts and Legacies are earnestly sought.

Service... with no strings

When every door seems closed—The Salvation Army is always open. No distinction is made in class, creed or colour and the welcome is always the same—"How can we help?"

This selfless service is given in the name of Christ. It is free and carries no obligation. The Army still depends on voluntary generosity. Please send whatever you can afford to General Wilfred Kitching, 113 Queen Victoria Street, E.C.4.

SERVING ALL FORCES

The constant task of the British Legion is the care of all those who served and now suffer. All the year round throughout the land, the Legion carries on indispensable benevolent work among men and women of all ranks and services and their dependants.

The Legion runs Country and Convalescent Homes that it has established in the last 30 years, and maintains Factories and Industries to employ the otherwise unemployable. It gives advice and legal aid in disputed pension cases, and conducts vital “on the spot” work through its 5000 local Service Committees.

And once every year, on Poppy Day, the Nation shares in the Legion’s task with unreserved generosity. But, despite the utmost efficiency and economy in administration, the Funds derived from this annual appeal cannot alone meet costs. To maintain British Legion benevolent activities at the necessary level, individual generosity in the form of donations and legacies is at all times urgently needed.

For Sale
by Order of
the Executors

A stamp collector or trustee may often read these words and may wonder which is the best method to adopt when making provision for the satisfactory disposal of their own stamp collection or one which may be entrusted to them for sale.

A method has been proved by thirty years' experience which will ensure that the maximum benefit from the sale of stamp collections will accrue to the estate, especially when the heirs to a deceased estate have no knowledge of philately or postal history.

Any philatelist or trustee who needs to make such provision for the disposal of stamps may consult us in confidence, both as to the nature of his enquiry and the advice which we can give.

The major proportion of the outstanding philatelic properties offered in the London market are entrusted to us for sale by order of stamp collectors, executors and trustees of deceased estates, and by present owners of old family and business letters and archives.

THE SOCIETY
of
INCORPORATED ACCOUNTANTS

President: Bertram Nelson
Vice-President: Sir Richard Yeabsley, C.B.E.

THE SOCIETY OF INCORPORATED ACCOUNTANTS was founded in 1885 and its membership now exceeds 10,000. Members have the exclusive right to use the designation INCORPORATED ACCOUNTANT. Fellows may also use the initial letters F.S.A.A. and Associates A.S.A.A.

TRAINING. The normal method of training is by service under articles of clerkship for five years with an Incorporated Accountant in public practice (three years for university graduates). Subject to certain special conditions a longer period of non-articled service may be accepted in lieu of articles. A scholarship (value £100 per annum), tenable at certain universities in the United Kingdom, is awarded annually by the Council.

PUBLICATIONS. The Society sponsors the publication of two journals — Accountancy (monthly, £1.1.6d. per annum or 2s. per issue), and Accounting Research (quarterly, £1.5.6d. per annum or 7/6d. per issue). In addition books and pamphlets are published by the Incorporated Accountants' Research Committee on accounting and allied subjects. These works include a "Current Digest of the Law affecting Accountancy" which is published three times a year.

East of Suez

East of Suez! A phrase that quickens the imaginative pulse, evoking images of a strange, exciting world—the mysterious Orient, the exotic East of Stevenson, Kipling’s India. Life would be dull, indeed, without fiction, and Kipling and Stevenson will always find a welcome from the armchair traveller; but for those concerned with the sternest stuff of eastern commerce, information of a more realistic nature is required. This explains why so many businessmen and traders consult the National Bank of India for accurate and dependable information on conditions in the East. Through their long-standing associations the National Bank of India have established an unrivalled knowledge of the many problems peculiar to eastern trading, and can supply up-to-date information on the prevailing conditions and trends in your particular market.

A comprehensive service is available at the Bank’s branches in:

The glorious wines of South Africa

Quite recently—within less than a dozen years—connoisseurs and admirers of good wine rediscovered something that had long lain dormant; the potentiality of the Union of South Africa for fine Viticulture. The fine wines and brandies specially selected and matured for the British market by the Ko-operatieve Wijnbouwers Vereniging and shipped by the South African Wine Farmers Association (London) Ltd, have a higher reputation and are more eagerly in demand than ever before.

Owing to war's aftermath these specially selected wines were temporarily in short supply, but South African sheries, brandies, vermouths and certain types of table wines of real merit are now readily available to wine lovers.
