THE KALENDAR OF

THE ROYAL INSTITUTE OF BRITISH ARCHITECTS

PATRON: HIS MAJESTY THE KING

31719

720.5
K.R.I.B.A.

Seventy-first Session
November 1905—October 1906

LONDON
9 CONDUIT STREET, HANOVER SQUARE, W.
NOVEMBER 1905

FORM FOR BEQUEST OF LEGACY.

I GIVE AND BEQUEATH to The Royal Institute of British Architects, Incorporated by Royal Charter seventh William IV. and fiftieth Victoria, the sum of
free of duty,* to be applicable [in the discretion of the Council of the said Institute for the general purposes or for such special purposes as the said Council shall determine].†
AND I DIRECT and declare that the said Legacy shall be paid to the President for the time being of the said Institute, whose receipt shall be an effectual and sufficient discharge for the same.

* If it is not desired that the legacy be given free of duty the words "free of duty" should be omitted.

† If any special directions or conditions are to be attached to this legacy the part in brackets to be omitted and the special matter inserted.

FORM FOR BEQUEST OF RESIDUE.

I GIVE, DEVISE, AND BEQUEATH my residuary estate to the Royal Institute of British Architects, Incorporated by Royal Charter seventh William IV. and fiftieth Victoria, to be applied [in the discretion of the Council of the said Institute, to the general purposes thereof or to such special purposes as the said Council shall determine].‡

‡ NOTE.—If any special directions or conditions are to be attached to the residuary bequest, the part in brackets is to be omitted and the special matter inserted.

BOARD OF ARCHITECTURAL EDUCATION.

(For Officers and Members of the Board, see *infra*, page 2.)

REPORT.

Considerable dissatisfaction having been felt among architects as to the condition of architectural education, some informal conferences were held in the early months of 1903 to discuss the situation. It was found that there was a much greater agreement between men of varying schools of thought than had been anticipated, and finally, in May 1904, at the invitation of the Royal Institute of British Architects, a Board of Architectural Education was formed to consider the whole matter.

The Board was constituted as follows:—

- 8 Architects selected by the Council of the Institute, including its President;
- 11 Architects, at least 5 being members of the Institute, appointed in the first instance by the Council and afterwards to be co-opted by the Board;
- 3 Architects to be selected by the Architectural Association, including the President, two being members of the Institute.

These constitute the executive members of the Board. Representatives of various educational institutions have also been invited to act as advisory members of the Board. A list of the members of the Board as at present constituted is appended (*infra* p. 5).

The Board was empowered to draw up a uniform scheme of architectural education, and to negotiate with recognised institutions of architectural training throughout the country with a view to the general adoption of the scheme. Since the date of its constitution the Board has held several meetings, and it now offers the following recommendations on the matters submitted to its consideration.

It appears to be generally admitted that the points requiring consideration in the present methods of training are—

1. The relations between training in architectural schools and training in architects' offices.
2. The syllabus and training given in the schools.
3. The co-ordination of the schools themselves.

The proposals of the Board in connection with these points range themselves under five general heads:—

- A. Preliminary education.
- B. The length of proposed training.

Constitution
of the Board.

Duties of the
Board.

Proposals of
the Board.

C. The syllabus of training.

D. The laboratory, its organisation and purpose.

E. The steps to be taken to initiate and administer the proposed scheme.

Preliminary
Education.

A. Dealing with these in the order given, it is recommended that satisfactory evidence of general education, and of some capacity in drawing, should be produced by intending students.

Length of
Term of
Training.

B. In regard to the duration of the course: It is recommended that the total course should occupy at least four years—two years' preliminary work in the schools, followed by two years in an architect's office, either as pupil, improver, or assistant: that the training in the schools should continue during the term in an architect's office, and that the student's training should be kept under supervision by the Board or its delegates during the whole term; that certificates be granted to students at the end of the course in consideration of their satisfactory progress and capacity, as proved by their work in the schools attested by their teachers, and by a study embodying some architectural project, to include working drawings and specifications, and also an analytical account of the nature and intention of the architectural project. This study should be analogous to the thesis submitted for degrees in certain university courses. The complete study to be submitted to the Board of Architectural Education or to delegates appointed by the Board.

It is further suggested that the certificate should be endorsed by the architect in whose office the student has served his time.

Syllabus of
Training.

C. In regard to the syllabus of training it is recommended that this should be uniform for the various schools. It is recommended that the syllabus itself should be governed by the principle that construction is the basis of architecture, and its correlative principle that architecture is the interpretation of construction into forms of æsthetic value. The student should therefore be trained primarily in construction—that is, in the composition of form and the use of materials best adapted to meet a given problem without regard to distinctive styles. The problems would, in the first instance, be elementary, becoming more intricate as the student advances, and would be handled from the standpoint of the constructor, the object being to familiarise the student with the actual facts of building, and to train him to use his brains in dealing with building, as opposed to the æstheological method. As supplementary to this, however, and in order to furnish the student with materials on which his mind can work by analogy, he should also be introduced to forms of proved efficiency—that is, to examples of architectural form which illustrate the solution of building problems in the past in any form of architecture, classical, mediæval, or other. The genesis of these forms in constructional and social conditions should be explained to him, and he should be taught to understand that legitimate architectural form is the result of the

application of the intelligence to actual and specific problems. The teaching of design and the history of architecture should be undertaken in the preliminary course mainly from this point of view, rather than from the point of view of archaeology.

As the object of training is to educate the student's thinking faculties, it will be necessary to teach him so much of the theoretical basis of construction as will enable him to work out constructional problems. Rudimentary mathematics and applied science should therefore be included, but it is recommended that the course in these subjects be limited to the minimum indispensable for practical purposes.

Drawing, as the vehicle of architectural expression, should be dealt with in the preliminary course, to include geometrical, freehand, perspective, and graphic methods of working out problems. It is recommended that the aim of the drawing taught in the architectural school should be to enable the student to put his ideas on paper freely and accurately, but without regard to technically accomplished draughtsmanship.

Generally the object of the course should be to familiarise the student with the tools and materials of his calling, to concentrate his attention not so much upon paper work as on the actual facts of the problems which he will have to encounter in practice. The student should, however, be taught that it is the architect's province to see that his construction is not only scientifically sound, but also aesthetically beautiful. He should therefore be trained in the selection of form, and in the study of mass and proportion. His attention should early be directed to the study of abstract form as fulfilling definite functions.

The following subjects are recommended as all that are necessary for the course of training in the schools (see detailed syllabus below):—

Subjects of
Syllabus.

- I. The nature and property of building materials.
- II. Construction, including (a) applied mechanics and mathematics in so far as they are necessary to the solution of problems of construction; (b) the practical methods of the building trades.
- III. Architectural drawing as defined above.
- IV. The study of architectural forms that have been evolved in the architecture of the past out of constructional necessities, and exercised in the design of construction to meet definite problems.
- V. The study of the history of architecture in so far as it illustrates and explains the evolution of architecture through constructional material and social conditions.

D. Training in the workshop or laboratory is considered to be essential. It is recommended that this should be simultaneous with the course in the schools, and should take the shape of demonstration in the actual materials so far as possible, and, where the dimensions render this impracticable, of

The Labors
1077.

demonstration in model materials to scale. The establishment of a central laboratory or practical school is also recommended for the purpose of experimental work in methods of building. Training in the workshop should be supplemented by visits to buildings in course of construction under competent guidance.

Steps to be
taken to carry
out the
Scheme

E. In regard to the steps to be taken to initiate and administer the scheme it is recommended (1) that the scheme, with its syllabus, be submitted for acceptance in their schools to recognised architectural training institutions; (2) that the County Councils and other bodies be invited to co-operate by placing their technical workshops at the disposal of recognised training institutions for the purposes of practical demonstration in connection with the work in the architectural schools, as indicated above; (3) that the Board of Architectural Education be empowered to direct the administration of the scheme by means of visitors to the various schools, whose business it would be to report to the Board as to the work done in the schools; and it is recommended that the heads of the various schools be invited to refer to the Board as a general advisory body. It is further suggested that the foundation of prizes and scholarships should be aimed at.

The Syllabus

THE SYLLABUS.

In preparing the syllabus the Board has not attempted to draw up a minutely detailed curriculum. It has confined itself to a statement of the broad lines of the scheme.

First two
years

The proposed syllabus would be carried through in an introductory course of two years, followed by a course of more advanced studies developing the lines laid down in the introductory course. The introductory course would deal with elementary instruction in the following subjects:—

Building
Materials

I. Building materials, the nature and properties of sand, lime and cement; the composition of mortar and concrete and their application; the qualities of brick, stone, tile, slates, timber, illustrated by specimens; their right use in construction as limited by their respective properties.

Construction

II. Construction, simple foundations, the behaviour of various kinds of soils under pressure, and the safe loads in relation to area that can be placed on them; simple subsoil drainage, footings, brickwork, including the various bonds in walls, flues, and fireplaces (illustrated by models); arches, the operation of thrust in arches and methods of counteracting it, buttresses and counterweight, varieties of simple masonry, composite construction of brick and stone, plain carpentry, floors, partitions, roofs and their coverings, simple joinery, plastering, plumbing, painting, and glazing.

Applied mechanics, strictly in practical relation to construction; e.g. the concentration of loads on points of support, the effect on beams of concentrated and distributed loads, the triangle and polygon of forces, with simple exercises in graphic statics.

Applied
Mechanics.

III. Architectural drawing, the preparation of working drawings, solid geometry, with special reference to the setting out of masonry, the properties of the cone, the cylinder, prism, sphere, their sections, projections, and interpenetration. Geometrical projection and rudimentary perspective. The latter study should be undertaken as an aid to the shaping and modelling of buildings, not as a means of elaborating architectural drawings. The student should from the first be encouraged to supplement his studies by rough freehand sketches in the nature of marginal notes, in order that he may realise for himself the actual shape and form of his constructional details, and be trained in imagination to see all round a building.

Solid Geome-
try, Perspec-
tive.

Students should also be taught to measure and draw standard examples of architecture. Some training should be given in freehand drawing, but too much time should not be devoted to this.

Drawing.

IV. The teaching of design should deal with the solution of easy constructional problems in specified materials, proceeding to more advanced but simple exercises, such, for instance, as the various methods of covering a given space for a given purpose. In such exercises the student should be taught to aim at the best practical use of material and at abstract forms without attempting the introduction of ornament. Direct copy of known examples and deliberate attempts to reproduce specific phases of historical styles should be discouraged.

Design.

V. The teaching of the history of architecture should be supplemental to and elucidatory of the study of construction. The student should be familiarised with historical examples of the methods of architecture in order that his mind may have something to work upon and some clue to follow. The introductory course should therefore include lectures showing the growth of architecture through constructional and actual necessities, the use of the lintel, the column, the arch, the dome and vaulting, the modifications due to conditions of place and materials, the rise and development of historical schools of building, together with studies of individual buildings considered as examples of actual methods of dealing with difficulties of construction. In lectures on the history of architecture the attention of the student should be directed to the historical development of plan and construction in the successive periods of architecture, rather than to accidents of style, such as tracery, mouldings, or details of ornament, which at this stage need not be considered, except in so far as they express or illustrate points of construction.

History.

Short written studies to be corrected by the teacher are recommended as a means of training the student in clear thought and logical expression.

Workshop Training.

The study of materials, construction, and applied mechanics should from the first proceed simultaneously in the schools and in the laboratory or workshop, where practical demonstrations would be given of the subjects studied in the schools, and the student would be familiarised with the materials of construction and the various processes of the building trades.

Each architectural school should be provided with specimen materials and models of details of construction and of buildings. These are regarded as indispensable to the proper equipment of architectural training schools.

The Advanced Course.

The advanced course would follow on the completion of the two years' introductory course, and would be taken during the term of training in an architect's office. The studies would be in continuation of those undertaken in the introductory course, but the student's attention should now be drawn to more complex problems of construction and design. The following subjects are recommended for the advanced course:—

Materials and Construction.

I*.—The further study of materials, including iron and steel, their properties and application, strength, weight, and preservation. The further study of construction to include foundations in bad ground, retaining walls, inverted arches, subsoil drainage, drains and sewers, brickwork and masonry of all kinds, skew-arches, stone stairs, and their setting out, vaults and domes. Fire-resisting construction, shoring and underpinning, and methods of dealing with dangerous structures, centering, concrete construction, including concrete domes and vaulting, methods of forming built-up girders and stanchions in steel and iron, trussed steel and iron construction, methods of constructing wooden spires, domes, cupolas and lanterns; advanced joinery of staircases and the like; internal plumbing, hot and cold water supply, heating and ventilation, sanitary plumbing, and methods of ventilating drains and sewers; elementary instruction in electric-light installations.

Design.

II*.—(a) Designs to specified programmes, e.g. cottages, farm buildings, houses of a given cost, schools, churches, hospitals, municipal buildings; (b) designs in civil architecture, that is, schemes for the laying out of streets, squares, public spaces, parks and gardens.

It is recommended that designs in class (a) should be carried through as complete schemes to scale with details, specifications, and report.

The student's attention should be particularly directed to the study of scale and proportion, the critical selection of methods, and the spacing and disposition of buildings and parts of buildings, rather than to the elaboration of details of ornament.

History.

III*.—More advanced studies in the history of architecture,

It is recommended that these should deal with such subjects as the development of specific schools of building, the analysis of various uses of materials and methods of construction as exemplified in historical buildings, the critical study of proportion and composition. The student should be trained in the preparation of short written studies as recommended above.

IV.—Architectural drawing of a more advanced kind. Where facilities exist for drawing from the antique and the life it is recommended that the student should avail himself of the instruction given under fully competent teachers. Such studies should not interfere with the time allotted to the subjects already enumerated. Drawing.

V.—It is recommended that students should receive such training in modelling as will enable them to block out the general mass, outline, and proportion of buildings, and to indicate to workmen the general character and weight of ornamentation without going into elaborate finish in detail. Modelling.

Such subjects as professional practice and building legislation are more conveniently studied in an architect's office, and the course given in the schools should be limited to a thorough training in the groundwork of architecture.

In putting forward the above syllabus the Board desires to point out that its object is to lay a sound foundation on which the student can continue his training in later years. The Board cannot contemplate the complete equipment of an architect as possible in a four years' course. Its object is to start the student on those lines of study which will best enable him to attain to some proficiency in the art and practice of architecture. Intention of the Syllabus.

REGINALD BLOMFIELD, A.R.A.,
JOHN SLATER, Hon. Secretaries.

June 1905.

THE ROYAL INSTITUTE OF BRITISH ARCHITECTS

INCORPORATED BY ROYAL CHARTER UNDER WILLIAM IV. AND VICTORIA

71st Session

1905-1906

THE COUNCIL

JULY 1905—JUNE 1906.

14. There shall always be a Council of the Royal Institute, which Council shall consist of the President, the Vice-Presidents, the six or more Honorary Secretaries, and of other Members to be elected at a General Meeting of the Royal Institute in such manner and at such times as By-laws may from time to time prescribe.—*Extract from the Charter.*

1904 JOHN BELCHER, A.R.A., President.

Vice-Presidents.

1904 HENRY T. HAILE.

1905 LEONARD STOKES.

1905 EDWIN T. HALL.

1906 SIR JOHN TAYLOR, K.C.B.

Honorary Secretary.

ALEX. GRAHAM, F.S.A.

Members of Council.

W. H. ATKIN BERRY.

ED. W. MOUNTFORD.

J. J. BURNET, A.R.S.A.

Professor HERSFORD PITH.

W. D. CAROE, M.A.Cantab., F.S.A.

A. N. PRENTICE.

E. E. COLLCUTT.

G. H. FELLOWES PRYNNE.

A. W. S. CROSS, M.A.Cantab.

JOHN W. SIMPSON.

ERNEST GEORGE.

JOHN SLATER, R.A.Lond.

JAMES R. GIBSON.

C. HARRISON TOWNSEND.

J. ALFRED GOTCH, F.S.A.

PAUL WATERHOUSE, M.A.Oxon.

E. A. GRUKING.

ED. WOODTHORPE, M.A.Oxon.

Associate-Members of Council.

R. S. BALFOUR.

AT the time of the foundation of the Royal Institute of British Architects there existed in Lincoln's Inn Fields the Architectural Society, the primary objects of which were the advancement and diffusion of architectural knowledge, and its ultimate intent to form a British School, with Library, Museum, Professorships, and periodical exhibitions, the want of which was then beginning to be greatly felt by students. Instituted in 1831, the Architectural Society had for its governing body in 1834-35 William Barnard Clarke as President, Thomas Henry Wyatt as one of the Vice-Presidents, George Mair as Hon. Secretary, with Benjamin Ferrey among the ordinary members. In 1834 it became evident to a few architects of established reputation that the profession required a more influential representative institution than that which already existed. Ignoring the existence of the Architectural Society, an Address was circulated among the profession pointing out that though few of the arts and sciences were left without a Body associated for their promotion and cultivation, Architecture, as an art embracing the whole circle of the sciences, was in this country destitute of such an establishment.

The first meeting of the founders* was held at the Thatched House Tavern, St. James's Street, on the 2nd July 1834, when the Address setting forth the aims and objects of the proposed Institute was adopted. Endeavour was made to secure as members architects of

* The last surviving original member of the Institute, Professor Donaldson, died in 1885. He took a prominent part in the foundation. His letter convening the preliminary Meeting is thus worded:—

7, Hart Street, Bloomsbury Square: 26th May, 1834.

DEAR SIR,—Some of the following gentlemen, all of whom, as well as yourself, have received a circular from Mr. Robinson, are anxious to have a preliminary Meeting to talk over and consider the objects and prospects of the proposed institution of British Architects, and will meet at Mr. Baily's room, 11, Regent Street, on Tuesday evening next, at half-past seven o'clock, when the favour of your attendance is earnestly desired. The chair will be taken at eight o'clock precisely.—I am, my dear Sir, yours very faithfully,

THOS. L. DONALDSON.

The names appended were Moore, Atkinson, Barry, Bascari, Bellamy, Blore, Decimus Burton, Cressy, Fowler, Goldcutt, Gwilt, Harcourt, Kay, Kendall, Lee, Papworth, Parker, Sir John Rennie, Robinson, Rhodes, Seaward, Taylor, and Wallis. The italics denote those who attended.

prominent position and unimpeachable character, educated for and following their profession as an art, and free from those conflicting relations with trade which frequently existed in the early part of this century and prevented that implicit confidence on the part of the public which should enable a client to regard his architect not only as his agent, but as his friend and adviser. A second meeting, for the enrolment of members, was held on the 6th August 1834; and the Council, elected by ballot on the 3rd December following, and consisting of Messrs. Robinson, Kay, and Gwilt as Vice-Presidents, Messrs. Donaldson and Goldcutt as Hon. Secretaries, and Messrs. Barry (afterwards Sir Charles), Bazevi, Decimus Burton, Fowler, Philip Hardwick, Kendall, J. B. Papworth, and Rhodes, met for the first time on the 10th December at the Thatched House Tavern. A few weeks afterwards the Earl de Grey was elected President. The junction of the Architectural Society with the Institute was effected in 1842.

The Opening General Meeting of the new Institute was held on Monday 15th June 1835, with the President, Earl de Grey, in the chair. His Address, together with an Address afterwards delivered by Professor Donaldson, will be found among the *Transactions* of the Institute. At this meeting Sir John Soane, Professor of Architecture at the Royal Academy, expressed by letter his sympathy with the newly established body, and gave a donation of £750 for such purposes as might appear most conducive to its advantage.

The Royal Charter was granted by King William IV. on the 11th January 1837. On the 8th August of the same year, Queen Victoria became Patron, and was subsequently associated with the Prince Consort, who at all times manifested his concern for the well-being of the Institute, on one occasion, in 1842, taking the chair both at the Council and the General Meeting.

A further and lasting mark of the Royal favour was shown in 1848 by the foundation of the Royal Gold Medal, since annually conferred by the Sovereign on some distinguished architect, or man of science or letters, on the recommendation of the Institute.

On the 18th May 1855 the Institute, by Royal command, was enrolled among the Royal Societies of the United Kingdom, and thenceforth styled the "Royal" Institute of British Architects.

His present Majesty King Edward VII., who as Prince of Wales had been joint Patron since 1863, on his Acces-

sion in January 1901 graciously intimated his pleasure to continue his patronage and also the presentation of the Annual Gold Medal for Architecture instituted by Queen Victoria.

In 1887, in order to bring the powers of the Institute more into line with the work it aspired to accomplish, and to render the fact of membership to a certain extent a test of proficiency, the Supplemental Charter of the 50th Victoria, conferring among other privileges power to hold examinations and issue certificates or diplomas, was granted, the document receiving the Royal Sign Manual on the 28th March 1887.

THE COUNCIL DINNER CLUB.

The Council Dinner Club was founded during the presidency of the late Mr. Charles Barry (1876-79), to give Members of Council an opportunity of dining together in the interval between the close of a Council meeting and the opening of a General Meeting of the Institute. It consists of all members of the Council for the time being, past Presidents, past Vice-Presidents, and such other past Members of Council as the Club desires to elect. The meetings are held at the Burlington Hotel, between 6 p.m. and 8 p.m., on all occasions during the Session when there is an evening meeting. One of the functions of the Club is to entertain foreign architects of distinction visiting England, readers of Papers at General Meetings, and others whom the Institute would desire to honour. The Club is entirely self-supporting.

TEA AND SMOKING ROOM.

For the convenience of members the large front room on the second floor is furnished as a Tea and Smoking Room, and provided with periodicals and writing materials. Country members visiting London are especially invited to use the room for appointments and interviews with clients and others with whom they may have business in London. Refreshments, at moderate charges, are served between the hours of 2 and 7 p.m.

THE R.I.B.A. TRAVELLING CARD.

Members, Students, and Probationers of the Institute, and others who have qualified for candidature as Associate, can obtain from the Institute a travelling card, or credential for travel abroad, available for a stated period. The face of the card is in English, and on the back are translations in French, German, Italian, and Spanish. Persons requiring the cards for use in Italy must have them vided by the Italian Consul of their district. Applications for the card must be made in writing to *The Secretary R.I.B.A.*, at the Office of the Institute; and, in the case of those who are neither Probationers nor Students, the application must be accompanied by a letter from a member.

ASSESSORS IN COMPETITIONS.

Members of the Institute who have been requested to act as Assessors subsequent to the conditions of the Competition having been drawn, should obtain a copy of the conditions and consider their conformity with the Regulations issued by the Royal Institute, and should also notify the Secretary of the Institute that they have been asked to act.

REGISTER FOR ASSISTANTS SEEKING EMPLOYMENT.

This Register, kept at the office of the Institute, contains applications for varieties of work connected with the profession. The Book is always open to architects' assistants, improvers, pupils, and clerks-of-works; also to young architects desirous of becoming known to members of the Institute through their drawings or other work. Applicants desirous of being registered should give the following particulars:—(1) name and address; (2) age; (3) salary per week; (4) qualifications; (5) references. On obtaining an engagement the applicant should at once inform the Secretary, in order that the fact may be noted in the Register.

Architects, whether members of the Institute or not, will be furnished on application with the names and addresses of persons desiring employment as assistants, improvers, or clerks-of-works, as the case may be. Architects applying for assistants should give the following particulars of their requirements:—(1) whether temporary or permanent engagement; (2) junior or senior assistants; (3) particulars of duties and style of work; (4) salary offered.

The registration fee to non-members is One Shilling; but to members of the Institute, to Students, and Probationers, the Register is free. Communications should be addressed *The Secretary R.I.B.A.*, 9, Conduit Street, London, W.

PROFESSIONAL ADVERTISING, ETC.

The attention of members is directed to the following resolutions passed by the Council:—

That it is not derogatory to the profession for an architect to sign his buildings in an unostentatious manner, similar to that adopted by painters and sculptors.

That it is undesirable for architects to place their names on boards or boardings in front of buildings during course of construction for purposes of self-advertisement.

That the Council is of opinion that Members of the Royal Institute of British Architects should not publicly designate themselves otherwise than as "*Architect*" or "*Architect and Surveyor*."

SUBSCRIPTIONS.

Subscriptions are due on the 1st January. Cheques should be made payable to "*The Secretary R.I.B.A.*"

CONSTITUTION.

PATRON.

HIS MOST GRACIOUS MAJESTY THE KING

William the Fourth by the Grace of God of the United Kingdom of Great Britain and Ireland King Defender of the Faith To all to whom THESE PRESENTS SHALL COME GREETING Whereas our right trusty and right well beloved Cousin and Counsellor THOMAS PHILIP EARL DE GREY hath by his petition humbly represented unto us That he and divers other of our loving subjects have associated together for the purpose of forming an Institution for the general advancement of Civil Architecture and for promoting and facilitating the acquirement of the knowledge of the various Arts and Sciences connected therewith It being an Art esteemed and encouraged in all enlightened nations as tending greatly to promote the domestic convenience of Citizens and the Public improvement and embellishment of Towns and Cities and have subscribed and paid considerable sums of money for those purposes and have formed a collection of Books and Works of Art and have established a Correspondence with Learned and Scientific Men in Foreign Countries for the purpose of Inquiry and Information upon

Recital of the objects of the Institute.

I. The Institute incorporated.

Name of the Corporation.

May use a common seal.
May sue and be sued.

May purchase land, &c., to a limited extent.

II. Land may be given to the Institute.

the subject of the said Act And that they have been advised that the object of their undertaking would be more effectually attained were the same to receive our Royal Sanction and Confirmation and they have besought us to grant to them and to those who shall hereafter become Members of the same Society our Royal Charter of Incorporation for the purposes aforesaid *Not known* That we being desirous of encouraging a design so laudable and salutary of our especial grace certain knowledge and mere motion HAVE willed granted and declared and DO by these presents for us our heirs and successors will grant and declare That the said Thomas Philip Earl de Grey and such others of our loving subjects as have formed themselves into and are now Members of the said Society or who shall at any time hereafter become Members thereof according to such Regulations or Bye Laws as shall be hereafter framed or enacted shall by virtue of these presents be the Members of and form one Body Politic and Corporate for the purposes aforesaid by the name of "THE INSTITUTE OF BRITISH ARCHITECTS" by which name they shall have perpetual succession and a Common Seal with full power and authority to alter vary break and renew the same at their discretion and by the same name to sue and be sued implead and be impleaded answer and be answered unto in every Court of us our heirs and successors and be for ever able and capable in the Law to purchase receive possess and enjoy to them and their successors any Goods and Chattels whatsoever and also be able and capable in the Law (notwithstanding the Statutes of Mortmain) to take purchase possess hold and enjoy to them and their successors a Hall and any messuages lands tenements or hereditaments whatsoever the yearly value of which including the site of the said Hall shall not exceed in the whole the sum of Two thousand pounds computing the same respectively at the Rack Rent which might have been had or gotten for the same respectively at the time of the purchase or acquisition thereof and to act in all the concerns of the said Body Politic and Corporate for the purposes aforesaid as fully and effectually to all intents effects constructions and purposes whatsoever as any other of our liege subjects or any other Body Politic or Corporate in our United Kingdom of Great Britain and Ireland not being under any disability might do in their respective concerns And we do hereby grant our especial license and authority unto all and every person and persons Bodies Politic and Corporate (otherwise competent) to grant sell alien and

convey in Mortmain unto and to the use of the said Society and their successors any messuages lands tenements or hereditaments not exceeding such annual value as aforesaid In Witness whereof We have caused these our Letters to be made Patent Witness Ourself at our Palace at Westminster the eleventh day of January in the seventh year of Our Reign

By Writ of Privy Seal

Edmunds.

THE CHARTER.

Victoria, by the Grace of God of the United Kingdom of Great Britain and Ireland Queen Defender of the Faith. To all to whom THESE PRESENTS SHALL COME GREETING. Whereas Thomas Philip Earl de Grey did by a Petition to His Majesty King William the Fourth humbly represent among other things that he and divers others had associated together for the purpose of forming an Institution for the general advancement of Civil Architecture and for promoting and facilitating the acquirement of the knowledge of the various arts and sciences connected therewith it being an art esteemed and encouraged in all enlightened nations as tending greatly to promote the domestic convenience of citizens and the public improvement and embellishment of towns and cities. And whereas His said Majesty being desirous of encouraging a design so laudable and salutary did by a Royal Charter of Incorporation (hereinafter called the Original Charter) dated eleventh day of January One thousand eight hundred and thirty seven and given by Writ of Privy Seal grant and declare that the said Thomas Philip Earl de Grey and such other persons who were then members of the Society therein mentioned or who should at any time afterwards become members thereof should form one Body Politic and Corporate for the purposes recited in the said Charter by the name of The Institute of British Architects with perpetual succession and a common seal with full power and authority to alter vary break and renew the same at its discretion and by the same name to sue and be sued implead and be impleaded answer and be answered unto in every Royal Court and be for ever able and capable in the law to purchase receive possess and enjoy to it and its successors any goods and chattels whatsoever and also be able and capable in the law (notwithstanding the Statutes of Mortmain) to take purchase possess hold and enjoy to it and its successors a Hall and any messuages lands tenements or hereditaments

Remains of the
Original
Charter.

whatsoever the yearly value of which including the site of the said Hall should not exceed in the whole the sum of Two thousand pounds computing the same respectively at the rack rent which might have been had or gotten for the same respectively at the time of the purchase or acquisition thereof and to act in all the concerns of the said Body Politic and Corporate for the purposes aforesaid as fully and effectually to all intents effects constructions and purposes whatsoever as any other of the liege Subjects of the Crown or any other Body Politic or Corporate in the United Kingdom of Great Britain and Ireland not being under any disability might do in their respective concerns. **And whereas** His said Majesty did thereby grant especial license and authority unto all and every person and persons Bodies Politic and Corporate (otherwise competent) to grant sell alien and convey in Mortmain unto and to the use of the said Society and its successors any messuages lands tenements or hereditaments not exceeding such annual value as aforesaid. **And whereas** the Original Charter contained further provisions for the constitution and management of the said Institute and its affairs. **And whereas** on the eighth day of August One thousand eight hundred and thirty seven in the first year of Our Reign We graciously consented to become the Patron of the said Institute and did afterwards grant and do annually grant and confer at the recommendation of the said Institute a Royal Gold Medal for the promotion of Architecture. **And whereas** on the eighteenth day of May One thousand eight hundred and sixty six We were graciously pleased to command that the said Institute should thenceforth be styled THE ROYAL INSTITUTE OF BRITISH ARCHITECTS (hereinafter called the Royal Institute). **And whereas** a humble Petition has been presented to Us on behalf of the said Royal Institute setting forth among other things that it is expedient to amend the provisions of the Original Charter to the effect and in the manner hereinafter expressed and that such further powers and privileges should be granted to the Royal Institute as are hereinafter contained. **Now THEREFORE** We having taken the said Petition into Our Royal consideration and being desirous of furthering the gracious intent of Our Royal Predecessor and of promoting the advancement of the interests of the Royal Institute have willed granted and declared and We by Our Prerogative Royal and of Our especial grace certain knowledge and mere motion by these Presents for Us and Our Royal Successors do will grant declare and ordain as follows (that is to say) :—

The Queen as
Patron.

Royal Gold
Medal.

Title of Royal.

Petition for
amendment of
Charter.

I. Transition.

1. The Royal Institute and the property thereof shall be administered in conformity in all respects with the Original Charter and the Bye-laws in force at the date of this Our Charter until the Bye-laws to be prepared as ordained by this Our Charter shall have been adopted by the Royal Institute as hereinafter provided. When and as soon as the said Bye-laws have been adopted as aforesaid the provisions of the Original Charter which are described in the Schedule to this Our Charter and the Bye-laws in force at the date of this Our Charter shall be repealed and the Royal Institute and the property thereof shall be thenceforth administered in conformity in all respects with this Our Charter and the Bye-laws made or to be made thereunder.

Repeal of certain provisions of the Original Charter and of the Bye-laws.

II. Classes AND QUALIFICATIONS OF MEMBERS &c.

2. THE Royal Institute shall consist of three classes of subscribing Members namely Fellows Associates and Honorary Associates and two classes of non-subscribing Members namely, Honorary Fellows and Honorary Corresponding Members and such other classes either subscribing or non-subscribing as may be hereafter established by the Royal Institute.

Classes of members.

After the expiration of five years from the date of this Our Charter the Royal Institute shall have power to declare that every person desiring to be admitted a Fellow shall be required to have passed such Examination or Examinations as may be directed by the Royal Institute. But in special cases the Council shall have power to dispense with such Examination or Examinations.

Fellows

4. ASSOCIATES shall be persons engaged in the study or practice of Architecture who have attained the age of twenty-one years. From the date of this Our Charter every person desiring to be admitted an Associate shall be required to pass or have passed such Examination or Examinations as may be directed by the Royal Institute.

Associates.

5. HONORARY ASSOCIATES shall be persons not professionally engaged in practice as Architects who by reason of their position or of their eminence in art science or literature or their experience in matters relating to Architecture may appear to the Council to be able to render assistance in promoting the objects of the Royal Institute.

Honorary Association.

Honorary
Fellows.

6. HONORARY FELLOWS shall be Members of the Royal Family persons who hold or have held high office in the Government of the United Kingdom or of India or of any Colony or Dependency of the United Kingdom and other illustrious or distinguished persons to be selected as the Royal Institute may from time to time determine.

Honorary
Corresponding
Members.

7. HONORARY CORRESPONDING MEMBERS shall be persons not being British Subjects and not residing within the United Kingdom nor practising as Architects in India or in any Colony or Dependency of the United Kingdom who by reason of their eminence as Architects or as Archaeologists or for artistic scientific or literary acquirements may appear to the Council able to render assistance in promoting the objects of the Royal Institute.

Designated as to
admission as
candidates.

8. THE Council shall have power to decide conclusively respecting the admission as a Candidate for election of each person proposed as a Member of the Royal Institute.

Certificate of
membership.

9. EVERY Fellow and every Associate and such other subscribing Members as the Royal Institute may hereafter determine shall be entitled to obtain a Certificate of Membership subject to such conditions and on payment of such subscriptions or other sums as Bye-laws may from time to time prescribe and any such person ceasing to be a Member shall on demand deliver back to the Council his Certificate of Membership.

Affixes used
by Fellows
and Associates.

10. A FELLOW may use after his name the initials F.R.I.B.A. and an Associate the initials A.R.I.B.A.

III. President, Vice-Presidents, &c.

Qualification
and Election
of President,
&c.

11. THERE shall be a President and Vice-Presidents and one or more Honorary Secretaries of the Royal Institute.

12. The President shall be elected from the class of Fellows or from the class of Honorary Fellows.

13. THE Vice-Presidents and the one or more Honorary Secretaries shall be elected from the class of Fellows.

IV. Council.

Constitution
of Council.

AT General Meetings Honorary Associates shall be entitled to be present and to take part in the discussions on any subject brought before the Meetings and subject to such limitations or restrictions as Bye-laws may from time to time prescribe to vote at such Meetings provided always that no Honorary Associate shall be entitled to vote in respect of the making and adopting altering revising suspending or rescinding of any Bye-law. Rights of Hon. Associates.

30. AT General Meetings Honorary Fellows shall be entitled to be present and to take part in the discussions on any subject brought before the Meetings but unless holding the office of President shall not be entitled to vote. Rights of Hon. Fellows.

31. AT General Meetings Honorary Corresponding Members shall be entitled to be present and to take part in the discussions on any subject brought before the Meetings but shall not be entitled to vote. Rights of Hon. Corr. Members.

32. AT General Meetings any Resolution adopted by such a majority as Bye-laws may from time to time prescribe of those Members having a right to vote and voting at such Meetings shall be deemed and is hereby declared to be a Resolution of the Royal Institute. In the case of an equality of numbers the person presiding shall have a second or casting vote. Resolutions of the Royal Institute.

VIII. Bye-Laws AND INTERPRETATION.

33. THE Royal Institute may from time to time by Resolution of a General Meeting confirmed at a subsequent General Meeting which shall be held not less than seven and not more than twenty-eight days after the former Meeting make and adopt such Bye-laws as may be deemed expedient and may in the same manner vary suspend and rescind any Bye-laws and make and adopt others in their stead but so that the Bye-laws for the time being be not in any respect repugnant to the law of England or inconsistent with this Our Charter. Provided always that no such Bye-laws shall be of any force or validity whatever unless and until they have been approved by The Lords of Our Most Honourable Privy Council. Power to make Bye-laws.

Matters to be
prescribed by
Bye-laws.

34. SUBJECT to the provisions of this Our Charter Bye-laws shall define regulate and prescribe

- (a) The conditions of Membership and the mode of election and admission and the privileges obligations and benefits of the several classes of members of the Royal Institute and the payments to be made by members.
- (b) The cases and manner in which a member of the Royal Institute may be excluded or suspended from membership.
- (c) The mode time and place of summoning and adjourning General Meetings whether Ordinary Business Special Annual or otherwise and the quorum for and the mode of voting at such meetings whether in person or by proxy or by ballot or by voting papers or otherwise and the number of Votes which shall form an effective majority at such meetings and the conduct of proceedings thereat.
- (d) The qualification and mode of election of the President and the number qualification and mode of election of the Vice-Presidents and of the one or more Honorary Secretaries and the number qualification and mode of election of the other members of the Council and their respective tenures of office and the mode of filling casual vacancies in the Council and the quorum for Meetings of the Council.
- (e) The mode of election tenure of office and duties of two Auditors of the accounts of the Royal Institute.
- (f) The appointment of Standing Committees and the proceedings thereof.
- (g) The terms and conditions for such Prizes Medals Exhibitions Studentships or Scholarships as have been or may from time to time be established by the Royal Institute.
- (h) The relations of the Royal Institute to such branches thereof as may be established within the United Kingdom or India or any Colony or Dependency of the United Kingdom and to other Societies having kindred aims and purposes.

Interpreta-
tion.

35. IN this our Charter the expression "the Council" means the Council of the Royal Institute and the expression "the United Kingdom" includes the Channel Islands and the Isle of Man.

Saving for
purposes of
Original
Charter.

And We do also further will and ordain that subject to the provisions contained in this Our Charter the Original Charter shall so far as unrepealed have full effect and validity and We do hereby confirm the same accordingly.

In Witness whereof We have caused these Our Letters to be made Patent. Witness Ourself at Westminster the twenty-eighth day of March in the fiftieth year of Our Reign.

Schedule REFERRED TO IN SECT. I., CLAUSE I.

THE portions of the Original Charter repealed are—
From Section Three beginning with the words "*And Our will and pleasure is and We further grant and declare that the Institute of British Architects*" to the end of Section Ten which ends with the words "*construction and purposes whatsoever.*"

By Warrant under the Queen's Sign Manual
Muir Mackenzie.

THE BYE-LAWS.

At the Council Chamber, Whitehall.
The 7th day of February 1889.

By a Committee of the Lords of Her Majesty's Most Honourable Privy Council.

PRESENT:

LORD PRESIDENT.
DUKE OF RICHMOND AND GORDON,
MARQUESS OF LOTHIAN.

WHEREAS there was this day read at the Board a letter, dated the 30th day of January 1889, from Messrs. Markby, Stewart, and Co., submitting certain Bye-Laws of the Royal Institute of British Architects:

And whereas by Section 93 of the Supplemental Charter of the Institute it is provided that no Bye-Laws made by the Institute shall be of any force or validity whatever unless and until they have been approved by the Lords of the Council:

NOW, THEREFORE, their Lordships, having taken in consideration the said Bye-Laws (a copy whereof is hereunto annexed), are pleased to approve the same. G. L. PERL.

* * Amendments in Bye-laws 7, 8, and 9, agreed to at the Meeting of 27th March 1893, were approved by the Privy Council in the following August. Additions to Bye-laws 9 and 15, clause a, and variations in Bye-laws 30 and 31, agreed to at meetings in 1897 and 1898, were approved by the Privy Council in May 1898. Alterations in Bye-laws 25, 29, and 30, agreed to at the meeting of 3th March 1900, were approved by the Privy Council in the following May.

I. MEMBERSHIP.

1. Every candidate for admission to the Royal Institute shall make and subscribe a statement:—1st. That he is eligible under the Charter and Bye-laws; 2nd. That he is willing, if elected, to be bound by the Charter and Bye-laws, and by Regulations made as hereinafter provided [p. 56].

EXAMINATIONS.

Associates.

2. Every person desirous of qualifying for candidature as Associate must pass or have passed the Examination or Examinations required by the Royal Institute under the provisions of the Charter and Bye-laws; and according to a standard fixed, and Regulations made, from time to time by the Council. The Examination for candidates for Associateship, which shall be held at such times and places as may be appointed or approved by the Council, shall be written, graphic, and oral; and shall relate to the history of architecture; the characteristics and details of architectural styles; the nature, properties, and application of building materials; sanitary science; the principles and practice of construction; the design and arrangement of buildings; professional practice; and such other subjects as the Council may from time to time determine.

NOMINATIONS.

Fellows and
Associates.

3. Every person, desirous of being admitted as Fellow or Associate, must be proposed according to the Nomination Form for his Class. The Christian name, surname, and place of residence and place or places of business of each candidate, shall be inserted in his Nomination Form; and this Form must be subscribed by him, and, except as hereinafter otherwise provided, by at least three Fellows, who shall certify their personal knowledge of him. The Nomination Form must be accompanied by a separate written statement by the candidate, giving particulars of his professional education and, in the case of a candidate for Fellowship, of his works*; and also by a separate written statement by one Fellow who has signed the Nomination Form, giving particulars of his acquaintance with the candidate as to his professional education and, in the case of a candidate for Fellowship, with his works. A candidate for Associateship must have passed, and must in his separate written statement declare that he has passed, the Examina-

* See Regulations and Forms, p. 56 et seq.

tion or Examinations required by the Royal Institute under the provisions of the Charter and By-laws.*

- (a) In the case of a Non-Metropolitan architect who, being desirous of admission, is a member of any Society in alliance with the Royal Institute as hereinafter provided, the Nomination Form may be signed by one Fellow of the Royal Institute, and by the President and Secretary of the Allied Society of which the candidate is a member. Non-Metropolitan architects.
- (b) In the case of members of The Architectural Association (London) desirous of being admitted as Associates, the Nomination Form may be signed by one Fellow of the Royal Institute, and by the President and Secretary of The Architectural Association. Members of The Architectural Association (see Association).
- (c) In the case of a British architect not residing in the United Kingdom, the candidate for election may be proposed according to the Form A i [page 59], the Nomination Form being accompanied by testimonials from well-known persons as to his professional position and character. British architects not residing in the United Kingdom.
- (d) In the case of any candidate for membership not being personally acquainted with the number of Fellows herein required to propose him, the Council shall, if satisfied with his qualifications, have power to nominate him, and to dispense with the separate written statement to be made by a Fellow as herein provided. By the Council in certain cases.

4. Every nomination of a candidate as Honorary Associate must state his Christian name, surname, and place of residence, and must be subscribed by him, and by at least three Fellows who shall certify their personal knowledge of him. Hon. Associates.

5. Every proposal for the election of an Honorary Fellow must be made either by the Council or on the nomination of any twelve Fellows, and must give the Christian name, surname, titles, and address of the candidate, with a statement of the grounds on which he is recommended. Hon. Fellows.

6. Every proposal for the election of an Honorary Corresponding Member must be made either by the Council or on Hon. Corr. Members.

* The following addition to this clause, agreed to at the meeting of the 6th June 1904, awaits the sanction of the Privy Council:—After the 31st December 1906 every person desiring to be admitted a Fellow shall be required to have passed the Examination or Examinations qualifying him as an Associate, or shall be elected from the ranks of the Associates. But in special cases the Council by the vote of three-fourths of such Members of the Council as are present and voting at a meeting of the Council shall have power to dispense with such Examination or Examinations.

the nomination of at least three Fellows, and must give the Christian name, surname, titles, and address of the candidate, with a statement of the grounds on which he is recommended.

7. The nomination of every applicant for admission to any class of membership must be forwarded to the Secretary for submission to the Council, who shall inquire into the fitness and qualifications of the applicant so nominated; and, in the case of a nomination of any person residing in a district or province where there is an Allied Society as hereinafter defined, but whose nomination has not been forwarded through such Society, the Secretary shall send notice thereof to such Allied Society, and invite observations thereon. The name and address of every applicant for candidature shall be suspended in the Meeting-room and published in the *Journal* of the Royal Institute, with a notification that any objection or other communication must be sent to the Secretary for submission to the Council within a period from the date of such publication to be fixed by Regulation. If, after due investigation of the claim of such applicant and of any objection thereto, the Council approve him and find him to be eligible and qualified according to the Charter and By-laws, he shall be admitted to candidature, and his nomination shall be signed by the Chairman of the Council Meeting at which such nomination is approved. The nomination shall be read at a General Meeting and forthwith suspended in the Meeting-room of the Royal Institute until the day of election. The name and address of the candidate, with the names of his proposers, shall be printed in full in the circular convening the Meeting at which such election is to take place. Any communication respecting applicants for admission to candidature, or respecting candidates for election, received by the Council shall be treated as confidential. [See page 56 for the Regulations to carry this By-law into effect.]

ELECTIONS.

8. The election of candidates shall (except in the case in which special provision is made in By-law 9) take place at Business Meetings only, and in no case until due notice thereof has been given in the circular convening the Meeting.

9. The voting at elections shall be by show of hands, and a candidate shall be elected if supported by a majority of those present having a right to vote and voting at such election. Provided always that if a requisition in writing signed by seven or more Fellows and Associates (the majority of whom shall be Fellows) be delivered to the

Interval between nomination and election.

Notice of election.

Method of election.

Secretary not less than fourteen clear days before the Meeting at which such election is to take place, that the votes for the whole of the candidates, or for one or more specified candidates, be taken by voting papers, then the election or elections of such candidates shall be so conducted. Voting papers shall then be issued to all Fellows and Associates resident in the United Kingdom, and shall be returned to the Secretary, so that the same shall be received by him at the latest on the Thursday evening before such Business Meeting as aforesaid, folded and enclosed in a sealed envelope, bearing on the outside the signature and Royal Institute serial number of the member voting. The Council shall appoint not less than three Scrutineers, the majority of whom shall be Fellows, and of whom two shall form a quorum, and such Scrutineers shall be summoned by the Secretary to meet at the premises of the Royal Institute, and at such Meeting he shall deliver to them the said envelopes, which shall be opened and the voting papers taken therefrom without being unfolded, the Scrutineers adopting such further measures as they may deem fit to prevent the identification of the voters. The Scrutineers shall then examine the voting papers, count the votes, and report to the Royal Institute at any General Meeting the names of the Candidates elected—negative votes in the proportion of one negative vote to four affirmative votes excluding from election. The decision of the Scrutineers, or a majority of them, shall in all matters relating to an election be final.

Provided always that when the Council of the Institute receive a unanimous recommendation formally submitted by the Council of any Allied Society that a practising member of the profession is eligible and worthy of being elected as a Fellow, the Council shall, during the five years from the date of approval of this provision by the Privy Council,* have power to elect him, if in their opinion his work be of sufficient merit. The Council shall also have the power to elect annually to the Fellowship without ballot the President or President-elect of any of the Allied Societies who may be eligible and apply for admission.

Unanimous
Recommendation by
Allied
Societies.

President
of Allied
Societies.

Non-election.

[The Regulation to carry this By-law into effect, page 56.]

10. In case of the non-election of any candidate proposed to be elected by a show of hands, no notice shall be taken thereof in the Minutes of the Meeting. No candidate who has been excluded from election shall again be proposed within a period of twelve calendar months.

* This period expired on the 19th May 1901.

Acquiescence
in election
and the De-
clarations.

11. When a candidate is elected, the Secretary shall inform him of his election and shall send him a copy of the Charter and By-laws, and no elected candidate shall be entitled to the rights and privileges of membership until he shall have signified his acquiescence in the election. No candidate for subscribing membership shall be entitled to such rights and privileges until he has also signed and returned to the Secretary the Declaration A, B, or C [see pp. 56-57], and has paid his entrance fee or contribution and first annual subscription.

Formal ad-
mission.

12. Every member who has complied with the preceding By-law 11 shall be formally admitted, at the first General Meeting at which he may be present, by the President, or the Chairman of the Meeting, who, addressing him by name, shall say—"As President [or Chairman of this Meeting] I HEREBY ADMIT YOU A FELLOW [or otherwise as the case may be] OF THE ROYAL INSTITUTE OF BRITISH ARCHITECTS." And every such member shall at such Meeting sign, according to his Class, the Register of the Royal Institute.

Retired Fel-
lows.

13. Any Fellow who has been a member for not less than thirty years, and has retired from practice, may, subject to the approval of the Council, be transferred without election to the non-subscribing Class of "Retired Fellows of the Royal Institute;" and in such case his interest in, or claim against, the property of the Royal Institute shall cease. A Retired Fellow shall be entitled to be present at, and to take part in, the discussions on any subject brought before the Meetings, but shall not be entitled to vote.

Fellows eli-
gible as Hon.
Associates.

14. Any Fellow who has retired from practice may, on his request, by Resolution of the Council, be transferred without election or entrance contribution to the Class of Honorary Associates. In the Register of Honorary Associates the names of such transferred Fellows shall be printed in italics.

ENTRANCE FEES AND SUBSCRIPTIONS.

15. The amounts of entrance fees and subscriptions shall be from time to time determined by Resolution of the Royal Institute.

Fellows.

- (a) The entrance fee of each Fellow shall not exceed five guineas, nor his annual subscription four guineas. In the case of a Fellow elected from the Class of Associates, his entrance fee shall not exceed two guineas. Provided always that the Council may during their pleasure dispense with

the payment of an Entrance Fee in the case of Non-Metropolitan Fellows.

- (b) The entrance fee of each Associate shall not exceed three guineas, nor his annual subscription two guineas. Associates.
- (c) The entrance contribution of each Honorary Associate shall be at least two guineas, which shall be appropriated to the Library Fund, and his annual subscription shall be two guineas. Hon. Associates.

16. Every subscribing member shall pay his entrance fee or contribution and first annual subscription within two months of the day of his election; otherwise, unless the delay be explained to the satisfaction of the Council, his election shall be void. Elections void.

17. Annual subscriptions shall be paid in advance; and, except as provided by By-law 16, shall be due on the first day of January in each year. Every subscribing member elected after the thirty-first day of October in any year shall not, after having paid his entrance fee or contribution and first annual subscription as hereinbefore provided, be required to pay any further subscription before the first day of the January twelvemonth subsequent to his election. Subscriptions: when due, &c.

18. Every subscribing member shall be liable for the payment of his annual subscription until he has either ceased to be a member under By-laws 20 to 23 inclusive, or has signified in writing to the Secretary his intention to resign, and has paid all arrears. Liability of members.

19. Any member whose annual subscription, due on the first day of January, is unpaid on the first Monday in March following shall receive notice thereof; and in the event of the said subscription not being paid on or before the first Monday in April following, the name of such member shall be forthwith posted in the Meeting-room of the Royal Institute, with a statement of the amount due; and shall remain there until the arrears shall have been paid, or until the member shall have become a defaulter under By-law 20. A registered letter, in the Form VI, shall be forthwith sent to every member whose name has been so posted [see p. 61]. Subscriptions in arrear.

20. Whenever any member shall permit his annual subscription to remain in arrear for a period exceeding one year, he shall become a defaulter, and a registered letter, in the Form VII, shall be sent to him; and, if the arrears be not paid within six weeks after the forwarding of such letter, the name of such defaulter shall be posted for six weeks in the Meeting-room of the Royal Institute; Defaulters.

and if the arrears be not paid within that time, the defaulter shall be suspended or expelled by Resolution of the Council, in manner provided by By-law 23. Should any member be expelled for non-payment of his subscription, the Council shall have power, upon the defaulter giving to their satisfaction an explanation of the non-payment, to reinstate him in his former position as a member; and in such case to require the payment of all subscriptions which would be due had he continued a member up to the date of such reinstatement, and any costs to which the Royal Institute may have been put in consequence of the default.

Remission of
subscription.

21. In the case of any Fellow or Associate being disabled from ill-health, advanced age, or unable from other sufficient cause to continue to practise his profession, the Council may remit his annual subscription and any arrears due from him, and may further, if they thereafter find good reason for so doing, reinstate such Fellow or Associate in his former position as a member.

Grounds for
suspension or
expulsion.

22. Any member contravening the Declaration A, B, or C,* signed by him, or conducting himself in a manner which, in the opinion of the Council, is derogatory to his professional character, or who shall engage in any occupation which, in the opinion of the Council, is inconsistent with the profession of an architect, shall be liable to suspension or expulsion in manner hereinafter provided. Any member who may be convicted of felony shall, *ipso facto*, cease to be a member of the Royal Institute.

Investigation
of charges
and procedure
for suspension
or expulsion.

23. Any charge under the preceding By-law 22 preferred against a member must be in writing, duly signed, and forwarded to the Secretary, who shall lay it before the Council at their next Meeting. Such charge shall be entertained, considered, and determined by the Council only, but the Council shall have power to appoint a Committee of not less than three of their own body to investigate it, and to report to them thereon. Should the Council find *prima facie* grounds for further proceedings, the Secretary shall send, in a registered letter, to the member against whom the charge is preferred, a copy of the same, calling upon him to answer such charge in writing within fourteen days of the date of such letter, and, at their discretion, to appear in person before a Meeting of the Council or of a Committee of the Council. In default of the member's compliance with the request in such letter, or if his explanation be, in the judgment of the Council, unsatisfactory,

* See the Declarations, pp. 54-55.

the Council shall have power to decree the suspension of such member for a period not exceeding twelve months, or his expulsion. No member shall be suspended or expelled unless the Council so decide by a majority of at least two-thirds of those present, and in any case by the vote of at least twelve of those present. If they so decide, the member shall be suspended, or expelled, and cease either temporarily, or permanently, as the case may be, to be a member, on the Chairman at the next General Meeting announcing such decision of the Council to the members present; and the Secretary shall thereupon communicate the fact by registered letter to such member.* Provided always that, should any facts be subsequently brought to the knowledge of the Council which, in their opinion, shall justify them in rescinding their previous decision, they shall have power to do so with the concurrence of at least the number of votes required for the suspension or expulsion as herein provided, and in such case the Chairman at the next General Meeting shall announce the decision of the Council to the members present. In any case of such expulsion or rescission, as herein mentioned, the fact shall be forthwith recorded in the *JOURNAL of Proceedings*.

24. The Certificate of Membership shall bear the Common Seal of the Royal Institute, and be signed as provided by By-law 39. It shall remain the property of the Royal Institute, but shall be tenable by the member so long as he shall remain a member. When the holder shall cease to be a member, he shall, within seven days of demand being made in writing by the Secretary, return the Certificate; but should he or his legal representatives fail to do so, or to explain his or their inability to do so to the satisfaction of the Council, the Council are hereby empowered to cancel the said Certificate, and to sue for and recover the same with costs; and a notice of such cancelling shall be given by the Chairman at the next General Meeting, and shall be forthwith inserted in the *JOURNAL of Proceedings*.

Certificate of
Membership.

II. THE COUNCIL.

25. The Council shall consist of not more than thirty-eight members, viz. :—

Constitution.

- (a) The President, four Vice-Presidents, an Honorary Secretary, eighteen Members of Council, and four Associate Members of Council.

* Letter Form, p. 61.

- (b) Chairmen for the time being of Branches of the Royal Institute within the United Kingdom, established as hereinafter provided.
- (c) Presidents for the time being of Societies within the United Kingdom in alliance with the Royal Institute, as hereinafter provided, such Presidents being Fellows of the Royal Institute.
- (d) One Fellow or Associate of the Royal Institute as representative of The Architectural Association (London).

Restriction on eligibility to the office of President.

26. No President who has filled the office for two successive years shall be again eligible for the Presidency until the expiration of two years from the termination of his tenure of office.

Eligibility to the office of Vice-President and restriction thereon.

27. Any Fellow who is or has been a Member of Council shall be eligible to serve as Vice-President, but no Vice-President who has filled the office for four successive years shall be eligible for re-election as Vice-President until the expiration of two years from the termination of his tenure of office.

The Honorary Secretary.

28. The Honorary Secretary shall be eligible to be re-elected from year to year. He shall, subject to the direction and control of the Council, have the management of the affairs of the Royal Institute, and shall cause Minutes to be taken of the proceedings of General Meetings, and of Meetings of the Council, of the Boards of Examiners, and of the Standing and all other Committees of the Royal Institute.

Eligibility to serve on the Council.

29. Any Fellow shall be eligible to serve as a Member of Council. Any Associate shall be eligible to serve as an Associate-Member of Council.

Annual Elections.

30. Two weeks prior to the Annual General Meeting in May, the Council shall issue to every subscribing member in the United Kingdom a list of members whom they nominate to the offices of President, Vice-Presidents, Honorary Secretary, Members of Council, and Associate-Members of Council, for the ensuing year of office. Such list shall contain the names of at least twenty-two Fellows and six Associates as nominated for election as Members of Council and Associate-Members of Council respectively, and the names of Chairmen of Branches, of Presidents of Allied Societies, and of a member as representative of The Architectural Association (London). Any seven subscribing members, of whom the majority shall be Fellows, may nominate any other member for any of the above-named offices, by delivering such nomination to the Secretary before the close

of the Annual General Meeting, accompanied by a written undertaking by the nominee to serve if elected. The name of every member so nominated shall be added to the said list, which, with such added names (if any), shall be the voting list for the election. The names of all candidates for election shall be printed in the same type, and in alphabetical order. On the back of this list shall be printed directions for its use by the members; and any list which fails to comply with such directions shall be rejected by the Scrutineers, and the votes shall be lost. At the Annual General Meeting the Members present shall elect by show of hands at least three Scrutineers, the majority of whom shall be Fellows. The Scrutineers shall have the direction of the election, their decision on any matter relating thereto being final, and a majority of them shall be a quorum. The voting list shall be issued to all subscribing members in the United Kingdom within one week after the Annual General Meeting, and shall be returned to the Secretary, at least seven days before the first General Meeting in June, folded and enclosed in a sealed envelope, bearing on the outside the signature and Royal Institute serial number of the member voting. The Scrutineers shall, as soon thereafter as may be convenient, be summoned by the Secretary to meet at the premises of the Royal Institute, and at such meeting he shall deliver to them the said envelopes. They shall then proceed to open the said envelopes and take the voting lists therefrom, without unfolding them, adopting such measures as in their discretion they shall deem fit to prevent the identification of the voters. The Scrutineers shall then open the said voting lists and count the votes, and shall report the result to the first General Meeting in June. The members who receive the most votes shall be declared to be elected at the said first General Meeting in June to the respective offices for which they were nominated, and shall enter upon their respective duties after the close of the last General Meeting in June. In the event of an equality of votes, the election of the members so receiving such equality shall be determined by ballot of the members present having a right to vote and voting. The Council so elected shall remain in office until the close of the last General Meeting in June of the year following that in which they were elected.

81. In the event of the death or resignation of the President, the senior Vice-President shall become President.

*Vacancies
and By-elections.*

In the event of the death or resignation of the Honorary Secretary, the Council shall issue to every subscribing member within the United Kingdom a notice thereof, containing the name of such member or members whom they nominate for the vacant office. Within two weeks of such issue, any seven subscribing members, of whom the majority shall be Fellows, may nominate to the vacant office any other eligible member, by forwarding his name to the Secretary, accompanied by a written undertaking by the nominee to serve if elected. The Council shall, within one further week, issue to every such subscribing member a voting list for the election, accompanied by a notice convening a Special General Meeting as provided in By-law 60, to be held within not less than seven or more than fourteen days of such notice. Such lists shall be returned to the Secretary at least three days before the date of such Meeting. The Council shall appoint one Fellow and one Associate to act as Scrutineers, and the Scrutineers, whose decision shall be final, shall count the votes, and report the result to the Special General Meeting. The form of voting list and the mode of procedure shall be similar to those provided in the case of the annual election. The member so elected at the said Special General Meeting shall enter forthwith on his office.

In the event of the number of members of the Council being reduced, by death, resignation, or otherwise, below one-half of the full number prescribed in By-law 25, the Royal Institute shall proceed to elect other eligible members to the vacancies: the procedure being the same as herein described for the by-election of the Honorary Secretary.

All members of the Council appointed as herein provided shall remain in office until the close of the last General Meeting in the following June.

32. The Council shall meet at the premises of the Royal Institute at least once in every month during the Session. Six members of the Council shall form a quorum. The President or any five members of the Council may, by letter to the Secretary, require an Extraordinary Meeting thereof to be called.

33. Any Regulation made by the Council for carrying into effect the Charter and By-laws, and for the general management of the affairs of the Royal Institute, except as otherwise provided by the Charter, shall after notice given be reported to a General Meeting for confirmation by Resolution of the Royal Institute, and such Regulation shall be subject to repeal or alteration only at a Special General Meeting, to be summoned in the manner described

Meetings and
quorum.

Regulations
by the Council.

in By-law 60, for the consideration of such repeal or alteration.

34. Any appointment by the Council of the Secretary, or other officer or servant of the Royal Institute, shall reserve to the Council the right to terminate such appointment on giving such notice, not exceeding six months, as may be fixed by the Council at the time of the appointment, and no appointment without such reservation shall be valid.

Power to determine the appointment of officers and servants.

35. The Council shall present a report on the state of the property and affairs of the Royal Institute to the Annual General Meeting, which report shall give an abstract of the proceedings during the official year, an account of the funds (including a balance-sheet of the receipts and disbursements for the past year properly audited), and an estimate of the income and expenditure for the current year. A copy of the report shall be issued to every subscribing member within the United Kingdom, at least one week before the Annual General Meeting.

Annual Report, Balance-sheet, and Estimate.

36. The Council shall, unless otherwise directed by any deed of trust, have the power to invest any entrance fees, surplus income, funds, donations, or endowments, in such securities as trustees are permitted by the High Court of Justice to invest in, and in the stock or shares of the Architectural Union Company (Limited); and such investments shall form part of the property of the Royal Institute.

Investment of moneys.

37. All money belonging to the Royal Institute and not invested shall be deposited by the Council, on account of and for the use of the Royal Institute, with a Banker in London or Westminster.

Banker.

38. No sum of money exceeding £10 shall be paid on account of the Royal Institute except by a cheque of the Council, signed by three members thereof, and countersigned by the Secretary or other officer nominated by the Council.

Payments.

39. The Common Seal shall not be affixed to any deed or writing except at a Meeting of the Council, and then only by their authority; and such deed or writing shall after the Seal has been affixed be signed by the President or the Chairman of the Meeting, by two other Members of Council present, and by the Honorary Secretary, or in his absence by another Member of Council, and countersigned by the Secretary.

Use of the Common Seal.

III. THE AUDITORS.

40. The Royal Institute shall annually elect as Auditors one Fellow and one Associate, not members of the Council. Candidates shall be nominated for the office at the Annual General Meeting on the first Monday in May, and their names shall be appended to the list of the Council nominated for election. The Auditors shall have access at all reasonable times to the accounts and securities. They shall examine the securities and the annual accounts before the latter are submitted to the Annual General Meeting, and shall report thereon to the Royal Institute. In the event of the decease or resignation of an Auditor, another member of the Royal Institute shall be elected to the office by Resolution of the Royal Institute after notice given.

IV. THE SECRETARY.

41. The Council shall appoint an officer who shall be "The Secretary of the Royal Institute," and who shall be responsible to the Council and, subject thereto, shall have the management of the establishment and the conduct of the executive business of the Royal Institute.

V. THE BOARD OF EXAMINERS (ARCHITECTURE).

42. The Council shall annually appoint a Board of Examiners in Architecture, the members of which shall consist of Fellows of not less than five years' standing; and the Council may from time to time appoint such other persons as they may consider necessary, whether members of the Royal Institute or not, to assist the Board in the conduct of such Examination or Examinations as are required by the Royal Institute, under the provisions of the Charter and By-laws, to be passed by candidates for admission to the Royal Institute.

VI. THE STATUTORY BOARD OF EXAMINERS.

43. The Statutory Board or Boards of Examiners appointed by the Royal Institute under the provisions of the Metropolitan Building Act 1855 (*now the London Building Act 1894*), and other Acts of Parliament, shall consist of Fellows of not less than seven years' standing, to be annually elected by Resolution of the Royal Institute; and the Council may from time to time appoint such other persons as they may consider necessary, whether members of the Royal Institute or not, to assist such Board or Boards in the conduct of the Statutory Examinations.

VII. ORDINARY COMMITTEES.

44. The Council shall have power to appoint Committees, for the purpose of investigating specific subjects connected with the objects of the Royal Institute; and the reports of such Committees shall be submitted to the Council in writing. Such Committees may respectively appoint one of themselves to act as Chairman and one or more as Hon. Secretary.

VIII. THE STANDING COMMITTEES.

45. Standing Committees for the promotion of the art, science, literature, and practice of the profession of Architecture shall be appointed annually.

46. The Standing Committees shall each consist of not more than twenty-one members, namely:—Ten Fellows and six Associates, to be elected annually in the manner hereinafter provided; and other members to be subsequently appointed by the Council.

Constitution.

47. The functions of the Standing Committees shall be to consider and investigate any subject appertaining to the branches of the profession of Architecture with which they are respectively entrusted, and to make reports and suggestions thereon to the Council. The publication of such reports or suggestions, or abstracts thereof, shall be left to the discretion and management of the Council. The Standing Committees may make communications at a General Meeting by the direction or leave of the Council or Chairman of the said Meeting.

Functions.

48. The Standing Committees shall each have the right to appoint from their own members a Chairman, Vice-Chairman, and one or more Honorary Secretaries, and shall meet at the premises of the Royal Institute at such intervals as they may deem desirable; and such Chairman or Vice-Chairman shall have power to summon a Meeting of his Standing Committee at any time he may think fit, subject in all cases to the convenience of the Council. Five members shall be a quorum.

Officers, Meetings, and Quorum.

49. Four weeks prior to the Annual General Meeting in May, the Standing Committees shall each send to the Council a list of Fellows and Associates whom they suggest as suitable and eligible to serve on their respective Committees for the ensuing year of office. The procedure for the election, including the issue of a voting list by the Council, the nomination of other candidates, the preparation, issue, and return of the voting list, and the duration

Annual election.

of the Committee, shall be as provided in By-law 30 for the annual election of the Council, so far as such provisions are applicable; and Scrutineers appointed as therein provided shall have the conduct of the election. The voting list shall be printed on paper of a colour distinctive from that of the voting list for the election of the Council.

Conduct of
proceedings.

50. The Standing Committees may conduct their own correspondence and business respectively, but shall take no public action nor incur any pecuniary responsibility.

Annual Re-
port.

51. In the first week of April in each year the Standing Committees shall each forward to the Council a report of their proceedings during the official year, which report, or a summary thereof, shall be incorporated in the Council's report to the Annual General Meeting.

IX. GENERAL MEETINGS.

The Session.

52. The Session shall commence on the first Monday in November in each year, and shall terminate in the following June, but it shall be in the power of the Council to vary the commencement and duration of the Session.

Time and
place of Meet-
ing and
Quorum.

53. All General Meetings, excepting Special General Meetings, shall be held on Monday evenings at the premises of the Royal Institute. The chair at such Meetings shall be taken as soon after 8 o'clock p.m. as there shall be a quorum of twenty subscribing members present, of whom at least eleven shall be Fellows. If such quorum be not constituted before 8.30 p.m. the Meeting shall not take place, and all notices in respect thereof shall be held to have lapsed. The Council shall, at or before the beginning of the Session, fix the dates for General Meetings (excepting Special General Meetings), and a card containing such dates shall be forwarded to every member. The Royal Institute may by Resolution after notice given vary the day, time, date, and place of Meeting.

The Chair.

54. The Chair at General Meetings shall be taken by the President, or in his absence by one of the Vice-Presidents, or in their absence by a Member of Council; failing whom, any Fellow whom the Meeting may elect shall take the Chair.

Adjourning
and adjourn-
ing and
conduct of
proceedings.

55. A printed notice of every General Meeting, stating the date and hour at which it is to be held and the business to be transacted thereat, shall be sent to every member within the United Kingdom at least seven days previously. Any General Meeting may by Resolution adjourn from time to time, but unless the adjournment be for a period

exceeding seven days no printed notice shall be necessary. The proceedings at General Meetings shall be conducted in accordance with Regulations to be made from time to time by the Council.

56. At least four Business Meetings, exclusive of the Annual General Meeting in May, shall be held during the Session at, as nearly as possible, equal intervals. At these Meetings elections for membership shall be taken, and any questions relating to the property or the management of the Royal Institute, or to any professional question, may be discussed thereat; but notice of any motion intended to be submitted to a Business Meeting must be given to the Secretary at least fourteen days before the date of such Meeting.

Business Meetings.

57. No Honorary Associate shall be entitled to vote in the election of any candidate for admission to the Royal Institute, or on any professional question.

Restriction on the rights of Hon. Associates.
Questions and professional questions.

58. Questions relating to the property or the management of the Royal Institute or to any professional question shall be brought forward at Business or Special General Meetings only.

59. The Annual General Meeting shall be held on the first Monday in May, to receive and consider the Report of the Council, and to appoint the Statutory Board or Boards of Examiners under the Metropolitan Building Act 1855 [*now the London Building Act 1894*], and other Acts of Parliament. A list of the attendances at the Meetings of the Council, of the Statutory Board or Boards of Examiners, and of the Standing Committees, shall be submitted to the Annual General Meeting.

The Annual General Meeting.

60. The Council may at any time call a Special General Meeting for a specific purpose, and they shall at any time during the Session be bound to do so on the written requisition of twelve subscribing members, of whom the majority shall be Fellows, which shall specify the nature of the business to be transacted, and no other business shall be discussed at such Meeting. A Special General Meeting shall be held within three weeks after the delivery of such requisition to the Secretary. If within half an hour of the time appointed for such Meeting there be not twenty subscribing members present, of whom eleven shall be Fellows, no Meeting shall take place, and all notices in respect thereof shall be held to have lapsed.

Special General Meetings.

61. The adoption of any new By-law, or the alteration, suspension, or repeal of any existing By-law, may be proposed by the Council or by any twelve Fellows. In

Alteration of By-laws.

either case a Special General Meeting shall be convened in the manner prescribed in By-law 60 to consider the proposal.

*Resolutions of
the Royal
Institute.*

62. A Resolution respecting the adoption of a proposed new By-law, or the alteration, suspension, or repeal of any existing one, or on any proposal affecting the property or management of the Royal Institute, or any professional question, shall only be carried at a General Meeting if there shall be present and voting at least twenty subscribing members, of whom not less than eleven shall be Fellows; and if the same be supported by a majority of at least two-thirds of those present having a right to vote and voting thereon. Provided always that when any such Resolution shall have been carried as aforesaid, it shall be suspended on a demand being made in writing, at or previously to the Meeting, by any six Fellows, that a poll thereon shall be taken by voting papers. Three Scrutineers, of whom the majority shall be Fellows, shall then be appointed by the Meeting, and the Meeting shall be adjourned for a period of not less than fourteen or more than twenty-eight days. A voting paper containing the proposal submitted, together with an official report of the discussion, shall be printed and sent to all members having a right to vote thereon. Each voting paper shall be filled up, signed by the member, and returned to the Secretary, at least three days before the said adjourned Meeting. The voting papers shall be handed by the Secretary to the Scrutineers, of whom two shall be a quorum, and whose decision shall be final; they shall then count the votes and announce the result at the said adjourned Meeting. The said Resolution shall be declared to be carried if supported by a majority of the voting papers so returned; otherwise it shall be declared to be negative.

A Resolution declared to be carried, and requiring under the provisions of the Charter to be confirmed at a subsequent General Meeting, shall be deemed to be so confirmed provided it be by a majority of those present having a right to vote and voting thereon at the said subsequent General Meeting; or if a poll be demanded, then by votes to be taken as herein provided.

The demand of a poll at a General Meeting shall not prevent the continuance of the Meeting for the transaction of business other than that on which such poll has been demanded.

In all cases, except as otherwise provided, the voting shall be by show of hands; and a Resolution of the Royal

Institute so voted shall be declared to be carried if supported by a majority of those present having a right to vote and voting thereon.

X. GENERAL CONFERENCES.

63. The Council shall make arrangements for Conferences, for the consideration of subjects of interest to the profession of Architecture, to be held sometimes in London and sometimes in the provinces.

XI. THE ROYAL GOLD MEDAL.*

64. In the case of the Royal Gold Medal the Council shall announce to the members, at a General Meeting, at least four weeks before the Special General Meeting at which the election is to be made, the name of the person they propose to submit to His Majesty as a fit recipient of that Honour; and any twelve Fellows, desiring to substitute any other name, shall deliver in writing to the Secretary a proposal signed by them, containing the name to be substituted, at least fourteen days before the day of election. If no name be so proposed for substitution before the said time, the nomination of the Council shall be submitted on the day of election to the Special General Meeting. If, however, any such substituted nominations be made, and be not accepted by the Council, the name proposed by the Council shall be first submitted to the Meeting; and if such name be not approved by Resolution, then the other names proposed as above, in the order of the date of nomination, shall be submitted. In any case the award shall be by Resolution of the Royal Institute.

XII. STUDENTS.

65. Every Student † who has passed the examination for that grade, instituted or to be instituted by Resolution of the Royal Institute, and shall have satisfied such other requirements as the Council may from time to time prescribe as applying to Students, shall be entitled to be registered as "Student of the Royal Institute of British Architects," subject to such conditions and to such restrictions as to continuance as the Council may determine; and a Register of such Students shall be kept, setting forth their names in the chronological order in which they have passed.

* See roll of recipients since its foundation in 1848, p. 62.

† See Register of Students R.I.B.A. p. 181.

XIII. STUDENTSHIPS AND PRIZES.*

Terms, Conditions, and Adjudication.

66. The Council shall, subject to the terms and conditions of any deed of gift or trust, define the programmes and conditions of competition for such Prizes, Medals, Exhibitions, Studentships or Scholarships, as have been or may from time to time be established by the Royal Institute, or which have been or may hereafter be founded by private munificence and held in trust by the Royal Institute; and shall by a deed or writing under the Common Seal, award the same, and shall announce such awards at the next General Meeting after the adjudication.

The Royal Institute Silver Medals.

67. The Silver Medal of the Royal Institute for the best Essay on some specific subject relating to professional study or practice, and the Silver Medal of the Royal Institute for the best Illustrations drawn from actual measurement of any important building in the United Kingdom or abroad, shall be offered annually, and shall, subject to such restrictions as may from time to time be determined, be open to all British subjects; and the said Medals may be accompanied by a sum or sums of money, in each case to be fixed by Regulations made by the Council.

The Soane Medallion.

68. The Soane Medallion for the best Architectural Design for some specific subject, with a sum of money for foreign travel, to be fixed by Regulations made by the Council, and paid in such manner as they may consider expedient, shall be offered annually, and shall, subject to such restrictions as may from time to time be determined, be open to all British subjects who are members of the profession of Architecture and under the age of thirty years.

XIV. DIPLOMAS.

69. Diplomas or Certificates, of such forms and designs as the Council may prescribe, shall be granted to every Fellow and Associate who is or shall be entitled thereto under Regulations to be made from time to time by Resolution of the Royal Institute.

XV. MISCELLANEOUS.

Privilege of introducing one visitor.

70. Each member shall have the privilege of introducing at any Ordinary Meeting, one Visitor, who shall enter his name in a book provided for that purpose, but the Council

* See Registers of Prisoners and Travelling Students under the respective headings, p. 349 et seq.

shall have power, on special occasions, to suspend this privilege on giving notice in the circular convening the Meeting.

71. The name of every person who shall contribute to the Collection, the Library, or the general funds of the Royal Institute, shall be published in the *JOURNAL* of Proceedings.

*Donations
and Bequests.*

72. Every Paper read or taken as read at General Meetings by any person shall be considered to be presented, and shall in consequence of such presentation become the property of the Royal Institute; and the Council may publish the same in any way and at any time that they may think proper, unless there shall have been a previous engagement with its author to the contrary. But should the Council not publish such Paper within eighteen months from its reception, the author shall have a right to publish it.

*Publications
Copyright.*

73. The Charter, Deeds, and Securities of the Royal Institute shall be kept in the custody of the Banker on behalf of the Council, in an iron chest, with three separate locks, each having a different key; and the keys thereof respectively shall be kept by the President, the Honorary Secretary, and the Secretary, one by each.

*Custody of
Charters,
Deeds, and
Securities.*

74. The Common Seal shall be kept in an iron chest or safe at the offices of the Royal Institute; the two keys of the chest or safe being kept respectively by the Honorary Secretary and the Secretary, one by each.

*Custody of
the Common
Seal.*

75. The Presidential chain and badge of office shall be placed in the custody of the President for the time being, who shall be responsible for their safety.

*Custody of
the Presi-
dential Chain
and Badge.*

XVI. BRANCHES.

76. Branches of the Royal Institute may be established according to Regulations to be made from time to time by the Council.

XVII. ALLIED SOCIETIES.

77. Any Non-Metropolitan Architectural Society* in the United Kingdom, in India, or in any Colony or Dependency of the United Kingdom, consisting in whole or in part of professional members, may, subject to such regulations, limitations, and restrictions, as may from time to time be prescribed by Resolution of the Royal Institute, be allied with the Royal Institute.

*Societies
eligible for
alliance.*

78. The constitutional rules or by-laws of Allied Societies shall be subject to the approval of the Council, and no addition thereto, or variation thereof, shall be made without previous notice to and approval by the Council.

*By-laws of Al-
lied Societies
to be approved
by the Royal
Institute.*

* See Allied Societies, p. 213.

Disclaimer of
responsibility.

79. The Royal Institute shall not be responsible for any acts, expenses, or other liabilities which may be done or incurred by any Allied Society.

Voluntary
Resolution.

80. If any Society in alliance with the Royal Institute desire to withdraw therefrom, such Allied Society shall be at liberty to do so after three months' notice, and the Royal Institute may in like manner determine the alliance.

Contribution
by the Royal
Institute.

81. The Royal Institute shall, in each year, contribute to any Allied Society not more than one-fourth of the annual subscription paid to the Royal Institute by each member thereof who is also a member of such Allied Society, in respect of and for his subscription thereto; but in no event shall such contribution apply in the case of any one member to more than one Allied Society.

XVIII. INTERPRETATION.

82. "The Royal Institute" shall mean The Royal Institute of British Architects. "The Charter" shall mean the Original Charter so far as unrepealed, together with the Supplemental Charter. "The Council" shall mean the Council of the Royal Institute of British Architects. "The Honorary Secretary" shall mean the one or more Honorary Secretaries of the Royal Institute as may from time to time be determined at any annual election, and in the event of there being more than one, any duty imposed on the Honorary Secretary shall be effectual if performed by any one of them. "The Secretary" shall mean "The Secretary of the Royal Institute," as defined in By-law 41. "Non-Metropolitan Architect" shall mean an architect who has no office or place of residence within a radius of twelve miles of Charing Cross in the City of Westminster. "Non-Metropolitan Architectural Society" shall mean a Society having no place of meeting within the said radius of twelve miles.

XIX. THE FORMS OF DECLARATION.

83. A. FORM TO BE SIGNED BY A FELLOW.

I, the undersigned, having been elected a Fellow of The Royal Institute of British Architects, do hereby declare that I have attained the age of thirty years, and have been engaged as principal for at least seven successive years in the practice of Architecture; and, in consideration of my having been so elected, I promise and agree that I will not accept any trade or other discounts, or illicit or surreptitious commissions or allowances, in connection with any works the execution of which I may be engaged to superintend, or

with any other professional business which may be intrusted to me; that, having read the Charters of Incorporation and By-laws of the said Royal Institute, I will be governed and bound thereby, and by any alteration thereof which may hereafter be made, until I shall have ceased to be a Fellow; and that, by every lawful means in my power, I will advance the interests and objects of the Royal Institute.

B. FORM TO BE SIGNED BY AN ASSOCIATE.

I, the undersigned, _____ having been elected an Associate of The Royal Institute of British Architects, do hereby declare that I am engaged in the study [or practice] of Architecture, and have attained the age of twenty-one years; and, in consideration of my having been so elected, I promise and agree that I will not accept any trade or other discounts, or illicit or surreptitious commissions or allowances, in connection with any works the execution of which I may be engaged to superintend, or with any other professional business which may be intrusted to me: that, having read the Charters of Incorporation and By-laws of the said Royal Institute, I will be governed and bound thereby, and by any alteration thereof which may hereafter be made, until I shall have ceased to be an Associate; and that, by every lawful means in my power, I will advance the interests and objects of the Royal Institute.

C. FORM TO BE SIGNED BY AN HONORARY ASSOCIATE.

I, the undersigned, _____ having been elected an Honorary Associate of The Royal Institute of British Architects, do hereby declare that I am not following the profession of an Architect, but am interested in the study of Architecture; and, in consideration of my having been so elected, I promise and agree that I will be governed and bound by the Charters of Incorporation and By-laws of the said Royal Institute, which I hereby acknowledge to have read, and by any alteration thereof which may hereafter be made, until I shall have ceased to be an Honorary Associate; and that, by every lawful means in my power, I will advance the interests and objects of the Royal Institute.

REGULATIONS * (BY-LAWS 3, 7, AND 9).

As regards By-law 3 [p. 34]—

Every person desiring to be admitted a Fellow shall in all cases † submit for examination by the Council, as evidence of his abilities as a practising Architect, working drawings, and, if practicable, photographs of his executed works, with such further evidence, if any, as the Council may require. Such drawings and photographs shall be accompanied by a declaration, signed by the applicant, that the buildings to which they relate have been designed by himself.

As regards By-law 7 [p. 36]—

1. Any objection to an applicant for candidature whose name and address are published in the *Journal* of the Royal Institute, or other communication respecting him, must be sent to the Secretary for submission to the Council within ten clear days from the date of issue of that number of the *Journal*.

2. No nomination of any applicant for candidature shall be approved by the Council until after the lapse of at least fourteen days from the date of the publication of his name and address in the *Journal* of the Royal Institute.

3. The day of election shall be the first Business Meeting held after the expiration of twenty-one days from the General Meeting at which the nomination was read.

As regards By-law 9 [p. 36]—

The voting papers shall state the name and address of every candidate, with the names of his respective proposers, and be divided into columns for affirmative and negative votes, such votes only to be counted as are marked in such columns.

APPENDICES.

THE FORM OF PRELIMINARY STATEMENT.‡

A. B. & C. FELLOW, ASSOCIATE, AND HON. ASSOCIATE.

I, the undersigned, being desirous of admission to The Royal Institute of British Architects, do hereby state that I am eligible under the Charter and By-laws of the said Royal Institute, and am willing, if elected, to be bound thereby, and by Regulations made in accordance therewith for carrying them into effect.

Name, Address, and Date.

FORMS OF NOMINATION & SEPARATE STATEMENTS.

A. FELLOW: PERSONAL KNOWLEDGE.

A. B. of _____, having read the Charters of Incorporation and By-laws of The Royal Institute of British Architects, and being duly qualified thereunder, is desirous of being admitted as

* Approved at a Special General Meeting held 27th March 1903.

† Except in that of the President or President-Elect of an Allied Society applying for admission under By-law 8.

‡ This Statement must be subscribed by every candidate for admission to subscribing membership, prior to his nomination.

a Fellow. A separate written statement by the candidate, giving particulars of his professional education and works, with the working drawings and photographs of some of his executed works, and a separate written statement by one of the undersigned, giving particulars of his acquaintance with the candidate's professional education and works, accompany this Nomination. We the undersigned do, from our personal knowledge of him, propose and recommend him for election. Witness our hands this day of 190 .

Signature of Candidate.

[Signatures of three Fellows.]

A I. FELLOW: RESIDENT ABROAD.

A. B. of , having read the Charters of Incorporation and By-laws of The Royal Institute of British Architects, and being duly qualified thereunder, is desirous of being admitted as a Fellow. A separate written statement by the candidate, giving particulars of his professional education and works, with the working drawings and photographs of some of his executed works, and a separate written statement by one of the undersigned, giving particulars of his acquaintance with the candidate's professional education and works, accompany this Nomination. Witness our hands this day of 190 .

Signature of Candidate.

[Signatures of three Fellows.]

. Particulars as to the signatures required in the forms for nomination under By-law 3, sections (a), (b), and (d), are given on page 61.

A II. FELLOW: UNANIMOUS RECOMMENDATION BY THE COUNCIL OF AN ALLIED SOCIETY.

To the President and Council of the Royal Institute, &c.

GENTLEMEN.—We are formally instructed by the Council of the [here insert name of Society] to inform you that at their meeting held on the 190 , the following members being present
thereby constituting at least three-fourths of the number of this Council, it was unanimously resolved that Mr.
of who was nominated at a previous meeting, and whom we know to be an architect practising within the province of this Society and eligible under the Charter for admission as Fellow of the Royal Institute and deem to be worthy thereof, be recommended to you for election to the

Fellowship of the Royal Institute of British Architects, as provided by By-law 9.

We forward herewith :

- (1) The "Preliminary Statement" signed by Mr. _____
- (2) A separate written Statement by Mr. _____ giving particulars of his professional education and works.
- (3) Photographs and Working Drawings of some of Mr. _____'s executed works.

We are, &c.,

Signatures of Chairman of Meeting and Hon. Secretary.

Elected by the Council of the Royal Institute of British Architects at their Meeting, _____ 190 .

Signature of Chairman of Meeting.

A. FELLOW: CANDIDATE'S SEPARATE STATEMENT.

Every candidate desirous of being admitted a Fellow of the Royal Institute must furnish the Council with the information indicated in the following table :—

ITEMS	DATES	DESCRIPTION
I.—The manner in which he received his professional education, and the date of commencing same.		
II.—Particulars as to his engagements, time spent in travelling, &c., before he commenced practice.		
III.—The year in which he commenced practice, and the locality.		
IV.—A list of the principal buildings in the erection, alteration, restoration, decoration, &c., of which he has been engaged since he commenced practice, indicating those of which he submits working drawings, and, if practicable, photographs.		
V.—A list of any literary or artistic works of which he is the author.		

I hereby declare that the above statement made by me this _____ day of _____ 190 ., is a true account of my professional education and works; that I have attained the age of _____ years;* and that the buildings to which the working drawings and photographs I submit herewith relate have been designed by myself.

Signature and Address of Candidate.

* A candidate for Fellowship must have attained the age of thirty years, and he must here state his age at the date of application.

A. FELLOW: PROPOSER'S SEPARATE STATEMENT.

This Statement must be filled up, and subscribed by one of the Fellows who have signed the Candidate's Nomination.

To the President and Council of the Royal Institute, &c.

GENTLEMEN,—I have the honour to inform you that my acquaintance with *[here insert name and address of Candidate]*, who is desirous of being admitted a Fellow of the Royal Institute of British Architects, commenced in the year _____, and that *[here state what the Proposer knows about the Candidate's professional education]*. I am also acquainted with some of the works executed under the candidate's superintendence, viz. *[here mention some of the Candidate's works known to the Proposer, and describe one]*. Further, I believe that he is a fit and proper person to be admitted a Fellow of the Royal Institute.

B. ASSOCIATE: PERSONAL KNOWLEDGE.

A. B. of _____, having read the Charters of Incorporation and By-laws of The Royal Institute of British Architects, and being duly qualified thereunder, is desirous of being admitted as an Associate. A separate written statement by the candidate, giving particulars of his professional education, and a separate written statement by one of the undersigned, _____, giving particulars of his acquaintance with the candidate's professional education, accompany this Nomination. We the undersigned do, from our personal knowledge of him, propose and recommend him for election.

Witness our hands this _____ day of _____ 190 _____

Signature of Candidate.

[Signatures of three Fellows.]

* * There is another form, under By-law 3 (a) or (b), relating (a) to members of Allied Societies, or (b) to members of the Architectural Association, which must be signed (a) by one Fellow of the Royal Institute and by the President and Secretary of the Allied Society of which the candidate is a member, or (b) by one Fellow of the Royal Institute and by the President and Secretary of the Architectural Association; and another form under By-law 3 (d), for candidates not personally acquainted with the requisite number of Fellows, which must be signed by the Council.

B. ASSOCIATE: CANDIDATE'S SEPARATE STATEMENT.

Every candidate desirous of being admitted an Associate of The Royal Institute of British Architects must furnish the Council with the following information:—

ITEM	DATE	DESCRIPTION
I.—The manner in which he received his professional education, and the date of commencing same.		
II.—Any particulars as to his engagements, time spent in travelling, &c.		
III.—The date at which he passed the Examination in Architecture, and the locality.		

I hereby declare that the above statement made by me this day of 190 , is a full and true account of my professional education. [Signature and Address.]

B. ASSOCIATE: PROPOSER'S SEPARATE STATEMENT.

To be made and subscribed by one of the Fellows who have signed the Candidate's Nomination as Associate.

To the President and Council of the Royal Institute, &c.

GENTLEMEN,—I have the honour to inform you that my acquaintance with *[here insert name and address of Candidate]*, who is desirous of being admitted an Associate of the Royal Institute of British Architects, commenced in the year and that *[here state what the Proposer knows about the Candidate's professional education]*. Further, I believe that he is a fit and proper person to be admitted an Associate of the Royal Institute. [Signature and Address of Proposer.]

C. HONORARY ASSOCIATE.

A. B. of , having read the Charters of Incorporation and By-laws of the Royal Institute of British Architects, and being duly qualified thereunder, is desirous of being admitted as an Honorary Associate, he being, in our opinion, qualified to concur with Architects in the advancement of professional knowledge. We the undersigned do, from our personal knowledge of him, propose and recommend him for election. Witness our hands this day of 190 .

[Signature of Candidate.]

[Signatures of Proposers.]

NON-SUBSCRIBING MEMBER: HONORARY FELLOW.

A. B. of , being duly qualified under the Charters of Incorporation and By-laws of the Royal Institute of British Architects, We the undersigned do propose and hereby nominate him for election as Honorary Fellow, on the grounds that *[here state the grounds on which he is recommended]*. Witness our hands this day of 190 .

[Signature of Candidate.]

* * The nomination of a candidate for election as Hon. Fellow must be signed by twelve Fellows, or by the Council.

NON-SUBSCRIBING MEMBER: HON. CORR. MEMBER.

A. B. of _____, being duly qualified under the Charters of Incorporation and By-laws of the Royal Institute of British Architects, We the undersigned do propose and hereby nominate him for election as Honorary Corresponding Member, on the grounds that *(here state the grounds on which he is recommended)*. Witness our hands this _____ day of _____ 190 .

Signature of Candidate.

* * The nomination of a candidate for election as Hon. Corr. Member must be signed by at least three Fellows, or by the Council.

1874 GEO. EDMUND STREET.	
1875 EDMUND SHARPE.	
1876 JOSEPH LOUIS DUC, France.	
1877 CHARLES BARRY.	
1878 ALFRED WATERHOUSE.	
1879 CHARLES JEAN MELCHIOR, MARQUIS DE VOÛGE.	

. The names of those deceased are printed in Italics.

REGISTER OF MEMBERS.

[Additions and Corrections to 9th October 1903.]

* Marked thus have been previously members of Council. The names of members of the present Council are printed in full capitals.

† Marked thus have received the Certificate of Competency to act (1) as District Surveyor in London, granted by the Institute under the London Building Act, 37 & 38 Vict., cap. cxxiii, section 196; or (2) as Building Surveyor under Local Acts of Parliament.

‡ Marked thus have entered after passing an Examination qualifying for nomination as Associate.

(L) Marked thus are Life-members (Competitions were abolished in 1877).

The distinctive offices to which in this Register are restricted to Honorary titles and titles of honour; University degrees; membership of the Royal Academies of Arts of the English, Scotch and Irish, Royal Societies and Societies of Antiquaries, of the Institution of Civil Engineers and the Surveyors' Institution, and of the House of Commons.

FELLOWS (F.R.I.B.A.).

Fellows shall be Architects who have attained the age of thirty years and who have been selected as fellows for at least seven consecutive years in the practice of Architecture. After the expiration of five years from the date of this Charter (28 March 1867) the Royal Institute shall have power to declare that every person desirous to be admitted a Fellow shall be required to have passed such Examination or Examinations as may be directed by the Royal Institute. This in no way shall limit the Council's power to dispense with such Examination or Examinations. — *Extract from the Charter.*

Every person desiring to be admitted a Fellow shall in all cases submit for examination by the Council, as evidence of his abilities as a practising Architect, working drawings, and, if practicable, photographs of his executed works, with such further evidence, if any, as the Council may require. Such drawings and photographs shall be accompanied by a declaration, signed by the applicant, that the buildings to which they relate have been designed by himself. — *Regulations under By-Law 2.*

FELLOWS RETIRED FROM PRACTICE.

(NON-SUBSCRIBING CLASSES.)

Any Fellow who has been a member for not less than thirty years, and has retired from practice, may, subject to the approval of the Council, be considered without admission to the non-subscribing Class of "Retired Fellows of the Royal Institute," and in such case his interest in or claim against the property of the Royal Institute shall cease. A retired Fellow shall be entitled to be presented at, and to take part in, the discussion on any subject brought before the Meetings, but shall not be entitled to vote.—*Resolved from the By-Laws.*

Hon. Secretaries.

Henry Tanner, Jr. [A.], Carlton Chambers, 12, Regent St., S.W.

A. Maryon Watson [A.], 9, Nottingham Place, W.

Secretary.

D. G. Driver, 18, Tufton Street, Westminster, S.W.

The Architectural Association (London), of 18, Tufton Street, Westminster, S.W., is carried on under the authority of the Literary and Scientific Institutions Act 1854. The objects of the Association are to provide and afford facilities for the study of Architecture, and to serve as a medium of friendly communication between the members and others interested in the study and progress of Architecture. The fees for membership are £2, 2s. entrance fee, and £1. 1s. annual subscription.

The President for the time being of the Architectural Association is annually nominated as a member of the Council of the Royal Institute of British Architects, provided he be a Fellow or an Associate of the Institute.

A complete course of instruction is given to students by means of Lectures and Classes and a Studio, each under the management of a paid Instructor or Lecturer. The Curriculum also includes a School of Design and Handicraft held under the direction of Visitors. The course of study is spread over four years. The first Division, extending over two years, prepares Probationers who are members of the Association for the Intermediate Examination of the Institute; the second Division, also extending over two years, for the Final Examination qualifying for candidature as Associate R.I.B.A. Though the course may be completed

in four years, members are advised to devote a longer period to the studies indicated. The Evening Lectures and Classes are held between 6.30 and 8.30 p.m. Travelling studentships, scholarships, and prizes are awarded to successful students and competitors.

A Day School has now been established, with Mr. H. P. G. Maule as Master and a staff of Assistants, enabling a Student to acquire at a moderate cost the rudiments of his work before learning in an architect's office the practical details of his profession. The drawings prepared in the Architectural Association Day School during the first and second years may be submitted to the R.I.B.A. Board of Examiners by candidates for admission to the Intermediate Examination, in lieu of the Testimonies of Study as required by the conditions laid down in the programme of the Examination [p. 307], and, if these are satisfactory, the candidate may be admitted to the Examination.

Sir Aston Webb, R.A., and Mr. Basil Champneys, who have been appointed by the Board of Architectural Education to act as Special Visitors, will keep themselves in touch with the work of the Schools and confer with the Masters from time to time as to the progress made and the methods adopted.

An Evening Continuation School (Mr. T. F. Green [A.], Master) has also been opened for Students who have passed through the Day School.

THE DAY SCHOOL CURRICULUM.

Master: H. P. G. MAULE.

Assistant Masters: H. A. DOUGLASS [A.], J. H. SQUIRE, and H. L. SARGENT.

FIRST YEAR'S COURSE:

The Studio:—

- The use of instruments and scales.
- Freehand drawing.
- Elementary Perspective.
- Orders of Classic Architecture.
- Elements of the various styles of Architecture.
- Elementary Construction.
- Sketching and measuring details and portions of existing Buildings.

Lectures:—

- History of Architecture, 36 Lectures
(*Illustrated by visits to Buildings and Monuments*).
- Elementary Construction and Materials, 36 Lectures
(*Illustrated by visits to Workshops and Buildings in progress*).

Work in the Studio is carried on daily from 9.45 a.m. to 5 p.m., and is varied by visits to buildings, galleries, and works in progress.

The Studio is visited by the Master, whose assistants are in constant attendance during the working hours of the School.

The lectures are delivered by the Master on two afternoons in the week. There are 72 lectures, 36 on the History of Architecture, and 36 on Elementary Construction and Materials: twelve lectures on each subject during the term.

The work of the Association is carried on at 18, Tufton Street, Westminster, S.W., where the General Meetings are also held. The office of the Association is open for inquiries between 9.30 a.m. and 7 p.m., and the Loan Library is open for the exchange of books between 12 noon and 7 p.m., Saturdays 2 p.m. Members under the age of twenty-three years are allowed the use of the Library of the Institute, and are furnished with passes for that purpose.

The following is the programme of the Evening School for the four years, which run concurrently:—

THE EVENING SCHOOL CURRICULUM.

DIVISION I.

<i>Subjects.</i>	<i>Lecturer and Class.</i>	<i>No. of Meetings.</i>
The Orders of Greek and Roman Architecture, their origin, development, applications, and ornament.	Hugh Stamma [<i>F.</i>]	12
The Elementary Principles of Building Construction.	C. E. Varudell [<i>A.</i>]	16
English Architecture to a.d. 1500, and the successive developments of the Styles. The characteristic mouldings and ornament of each period.	Cole A. Adams [<i>F.</i>]	16
Outline of Mediæval and Renaissance Architecture in Europe.	Hanister F. Fletcher [<i>F.</i>]	12
Elementary Physics as applicable to building (Mechanics), and formulae for the calculation of strengths, stresses, and strains.	H. E. Ransom, Assoc. M.Inst.C.E.	14
Plane and Solid Geometry.	Prof. F. E. Hulme, F.R.S., F.S.A.	8

THE STUDIO.

Geometrical drawing of ancient examples. One example at least to be drawn from actual measurement.	W. G. B. Lewis. G. H. Jenkins (Assistant).	86
Freehand drawing Ornament, and Mouldings.		
Elementary Perspective, Geometry, Constructive Details.		

DIVISION II.

LECTURES AND CLASSES.

<i>Subjects.</i>	<i>Lecturers.</i>	<i>No. of Meetings.</i>
Materials, their nature and application.	H. A. Satchell [A.].	15
Construction.	C. E. Varndell [A.].	10
Uses of Iron in Construction.	Prof. H. Adams, M.Inst.C.E.	8
Hygiene (Drainage and Water Supply).	F. J. Osborne Smith [A.].	6
Hygiene (Materials and Construction, Ventilation, Lighting, and Heating).	F. J. Osborne Smith [A.].	6
Professional Practice, Specifications and Estimates.	A. O. Collard [F.].	6
Land Surveying and Levelling.	Prof. H. Adams, M.Inst.C.E.	8

THE BRIDGE: W. G. D. Lewis, Instructor: 80 Meetings.

Designs and working drawings of modern buildings.—Modelling, Geometry, Freehand Drawing, and Ornament.—Perspective.—Constructive Details.—Time sketches.

LECTURES AND CLASSES.

EXTRA SUBJECTS.

The Elements of Quantity Surveying.	S. Leaning.	6
Modelling.	F. W. Pomeroy.	12
Water-Colour Class.	P. L. Forbes.	7
Sketching and Measuring.	Voluntary Visitors.	6
Perspective.	W. G. D. Lewis.	10

DISCUSSION SECTION.

Chairman, E. W. M. Wonnacott [A.]; Vice-Chairman, F. Lishman.
Hon. Secretaries, E. Gamwell [A.] and M. G. Peckell.

The object of this Section is to afford opportunities for the study and discussion of those subjects and difficulties which occur in actual practice. Any member meeting with difficulties in the course of his practice is invited to bring the matter before the Section, with a view to obtaining a solution. Gentlemen of special experience in the subject to be discussed attend each meeting and sum up the discussion. Meetings are held on alternate Wednesday evenings.

SCHOOL OF DESIGN, ELEMENTARY AND ADVANCED.

The Classes meet on the dates stated below, under the direction of an architect visitor. A course of Workshop Demonstrations, illustrating the practical requirements of materials, is held in connection with these classes.

ELEMENTARY.

<i>1888.</i>	<i>List of Subjects.</i>	<i>Visitors.</i>
Oct. 10. Preliminary Meeting.	...	—
" 31. Group of Three Cottages in a Village Street.	...	Ernest Newton.
Nov. 28. Details of Chimney.	...	

ELEMENTARY—CONTINUED.

1905.	List of Subjects	Visitors.
Jan. 2.	Motor House, with Bed-sitting room for Chauffeur	C. Harrison Townsend.
" 23.	Details of ditto	
Feb. 13.	Entrance Gates	W. J. N. Millard.
Mar. 6.	Details of ditto	
April 3.	Shop front for a London Street, suitable for the Business of a Bookseller	W. A. Forsyth.
May 1.	Details of ditto	

1906.

ADVANCED

Oct. 10.	Preliminary Meeting	Henry T. Hare.
Nov. 7.	Entrance to a Public Park, consisting of Carriage and Foot-gates with Lodge	
Dec. 5.	Details of ditto	

1906.

Jan. 9.	Roadside Inn	E. Prieoleau Warren.
Feb. 6.	Details of ditto	
Feb. 27.	Stone Chimney-pieces for a Hall	E. J. May.
Mar. 27.	Details of ditto	
April 24.	Small Building to accommodate a Collection of Specimens in Kew Gardens	Arthur Keen.
May 8.	Details of ditto	

Full particulars of each subject, plans of sites, levels, &c., will be furnished to each student joining the class.

All designs to be sent to 16, Tufon Street, Westminster, S.W., one week before each meeting.

In all the above subjects a Sketch Design has to be submitted at one meeting for criticism. The design must then be completed for final criticism at the ensuing meeting.

PRIZES.—OPEN TO ALL MEMBERS OF THE ASSOCIATION.

The Association Travelling Studentship, value £25 per annum with silver medal.—Candidates must be members of the Association under the age of twenty-five years, and have passed satisfactorily through the Advanced Class of Design. The drawings to be submitted comprise two sketches from existing buildings; three sheets of measured drawings from buildings, to include one drawn to $\frac{1}{2}$ inch scale, and one drawn to half-inch scale; one sheet of full-size details, and three designs worked out in the Advanced Class of Design in any Session. (If the measured drawings are not those made upon the spot the original sketches must be submitted in addition.) A second prize, value £5, is awarded should the drawings be deemed of sufficient merit.

The Association Medal, together with Prize value Ten Guineas.—Subject: "A Village Library and Reading Room."

The Essay Prize, value Ten Guineas, with Silver Medal.—Subject: "The History and Development of Chimneys."

The Andrew Oliver Prize, value Five Guineas.—This prize is offered annually by Mr. Andrew Oliver in connection with the class for Sketching and Measuring, with a view to encourage the measuring of old work among the younger members.

The Architectural Union Company's Prize for Measured Drawings, value £10.

Class & Studio Prizes, consisting of medals, travelling studentship value £15, scholarship value five guineas, books, and certificates.

The **Banister Fletcher Bursary**, value Twenty-five Guineas, and a Medal, is given by Mrs. Banister Fletcher for the promotion of the study of London architecture since the Great Fire, and for the preservation of records of buildings likely to be destroyed. It will be awarded to any member of the profession (including non-members of the Architectural Association), without limit of age, who shall submit the best selection of measured drawings, not necessarily prepared for the purpose of this Bursary, together with a short descriptive report of the buildings to which they refer, and accompanied by three testimonials. The successful candidate will be required to prepare a set of accurate measured drawings of one of the buildings of the prescribed period to be selected for study.

The **Henry Saxon Snell Scholarship (Triennial)**—Subject: “*A Home for Aged Soldiers.*”

THE ROYAL ARCHITECTURAL MUSEUM.

The Royal Architectural Museum, which, with its valuable collection of casts, is under the direction and control of the Architectural Association, is open to the public daily between the hours of 10 a.m. and 4 p.m.

OTHER EDUCATIONAL FACILITIES IN AND NEAR LONDON.

THE ROYAL ACADEMY OF ARTS.

Master of the Architectural School:—R. PUNKE SCHEER [F.], F.S.A.

Instruction is given gratuitously in the Architectural School. Students seeking to avail themselves of it must produce proof of having attained a fair degree of proficiency in architectural study and drawing, submit specimens of their ability, and pass an examination in Perspective and the History of Architecture. Successful applicants are admitted as "Probationers," and after satisfying further tests are entered as "Students" of the Royal Academy for a first term of three years. At the end of the three years, subject to the fulfilment of certain conditions and the passing an examination, students are admitted for a further period of two years. The full period of studentship is limited to five years. Students in the Upper Division are privileged to study in the Antique School, and, on certain conditions, in the School of Drawing from the Life. There is a Modelling Class for architects, and a class for Architectural Ornament, both of which are open to R.A. Students in Architecture. Among the prizes open to architectural students are a Gold Medal, carrying with it a Travelling Studentship for travel and study abroad, of the value of £200, tenable for one year; a £25 prize for Design; £10 for an original composition in Ornament; £15 and £10 for drawings of an Architectural Design.

UNIVERSITY COLLEGE, LONDON.

*Vice-chancellor: REGINALD BLOMFIELD, M.A., A.R.A., LEONARD STOKES [F.],
Professor of Architecture: F. M. SIMMONS [F.]; Assistant: A. G. JAMES.
Evening Instructors: Design: R. P. OULSHAM; Measuring: E. G. BURN;
Building Construction: A. BUCHANAN.*

There are two architectural day courses: (a) The Diploma course (three years); (b) the Certificate course (two years). The courses are intended primarily for students wishing to become architects, and should be taken by them before they enter an architect's office. They are framed to provide a systematic training in the practical and æsthetic sides of Architecture and in subjects closely allied to it, and to encourage students to continue their general education, and so bring them into touch with students in other departments who are pursuing different courses of study. The College possesses in its Slade School of Fine Arts, its large Engineering Laboratories, and its comprehensive

Arts and Sciences classes, valuable aids to a School of Architecture. The Donaldson Silver Medal is awarded to the most successful student at the end of the course.

The following is the curriculum:—

DIPLOMA (THREE YEARS) AND CERTIFICATE (TWO YEARS) COURSE.

First Year.

DIPLOMA.—(a) Three of the following: (a) History (Ancient or Modern); English; French; German; Mathematics; Chemistry; Mechanics; Junior Graphics.

CERTIFICATE.—(a) Mechanics and (optional) Mathematics.

DIPLOMA AND CERTIFICATE.—(b) Drawing from the Antique. (c) Building Construction. (d) History of Architectural Development. (e) Practical Demonstrations.

Second Year.

(a) Engineering Class Special Course, delivered by the Professor of Mechanical Engineering. (b) Drawing from Antique or Life. (c) Building Construction. (d) History of Architectural Development. (e) Practical Demonstrations.

Third Year.

(a) Hygiene. (b) Modelling, or Life-Drawing. (c) Architectural Planning and Design. (d) History of Architectural Development. (e) Surveying. (f) (optional) Quantity Surveying.

Third-year students might with advantage attend the lectures on Greek and Egyptian Art.

Special arrangements have been made for students to attend Practical Demonstration classes in the Trades' Training School, Great Titchfield Street.

(a) BUILDING CONSTRUCTION AND DESIGN.

First Year.

Lecture. Wednesday, at 11. Brickwork, masonry, chimneys and flues; prevention of damp, soils and foundations; carpentry, slating, tiling, external plumbing; and the materials.

Studio Work: Exercises are set bearing on the subjects lectured upon.

Second Year.

Lecture. Tuesday, at 10. Joinery, plastering, internal plumbing, painting, glazing, drainage, sheeting, underpinning, and the materials.

Studio Work: Exercises.

Third Year.

Lecture. Wednesday, at 10. The planning and designing of simple buildings. Foundations. Stone and concrete stairs. Fire-resisting construction. Steel structures, re-inforced concrete. Specifications, &c. Designs will be worked out and detail drawings made.

Visits to buildings in course of erection, to workshops, &c.

(b) HISTORY OF ARCHITECTURAL DEVELOPMENT.

First Year.

Lecture. Friday, at 11. (Third Term only.) Lintel and column; Greek buildings, their plans, materials, construction, proportions, refinements and other characteristics.

Studio Work: The Greek and Roman orders.

Visits to the British Museum.

Second Year.

Lecture. Friday, at 10. The pier, arch and vault. Roman buildings. Early Christian Churches. Mediæval Architecture in Italy, France, England, Germany, &c.; the development of groining, plans, materials, construction, &c.

Studio Work: The plans, detail, and construction of the above.

Third Year.

Lecture. Tuesday, at 11. The Dome. Byzantine Churches. The Architecture of the Renaissance in Italy, France, England, Germany, &c. In the Summer Term each Student will specialise in a subject selected by him.

Studio Work: Dome construction. Sketching plans, details, &c.

In the second and third years visits will be paid to buildings of interest in and near London.

Students in offices not wishing to go through a complete Course can attend separate Lectures and Classes. Evening Classes for Design, Building Construction, and Measuring and Estimating, at very moderate fees (the expense being borne by the Carpenters' Company), are held under the direction of Professor Simpson.

KING'S COLLEGE, LONDON.—DIVISION OF ARCHITECTURE.

Professor of Architecture:—R. EMERY SMITH (F.R.S.). *Lecturers:*—ARTHUR STRATTON (A.) and JAMES BASTIEN. *Assistant Lecturer:*—RONALD P. JONES, M.A.

Day School.—The Division of Architecture is arranged to give Students who are prepared to devote the necessary time to it a thorough and systematic course of instruction in preparation for the practice of the profession of an architect. The requirements of the examining boards of the Royal Institute of British Architects and kindred bodies have been carefully considered, and the curriculum approved by the Board of Architectural Education has been adopted. Any student taking up the course should be able to pass the R.I.B.A. Intermediate at the end of his second year, and the R.I.B.A. Final on the completion of his third year or soon after.

Matriculated Students are those admitted to the full prescribed course of study, and are eligible for the College Certificate in Architecture and the Associateship of the College.

Non-Matriculated Students are those who do not desire to take up the full course; they may join the Architectural Division for any period not shorter than one term, and can arrange with the Professor to pursue any course of study they desire, and such students need not necessarily devote all their time to work at the College. They may take up work in the Studio only, or one or more courses of lectures.

Students attending a two years' course, and who receive the

first-class certificate, are exempted from the R.I.B.A. Intermediate Examination.

A Special Course has been arranged with a view to meeting the requirements of students who have already had training in an architect's office and desire to devote a session to prepare themselves for examination, enabling them to take all the necessary lectures in a single year, and to use the Studio for the preparation of their testimonies of study. This course will be found of special value by students coming to London from the country or the colonies with a view to passing the Intermediate and Final Examinations of the R.I.B.A. Students not taking the regular course are at liberty to extend their period of study to the full term of three years. Matriculated and non-matriculated students alike have access to the Architectural Library and to the Museum of Building Materials and Models. There is an Architectural Students' Society, for which all students are eligible. Students may enter at the beginning of any term, or at other times by arrangement with the Professor, but all students are advised if possible to enter at the Michaelmas Term, when the various courses of lectures are commenced.

The full curriculum is arranged as follows:—

FIRST YEAR: Architectural History; Building Construction; Drawing in the Studio (15 hours per week); Carpenters' Workshop, Mathematics, Mechanics, Physics, Geology.

SECOND YEAR: Architectural History; Building Construction; Strength of Materials, Theory of Structures, Drawing in the Studio (24 hours per week), Chemistry, Land Surveying.

THIRD YEAR: Architectural History (Ornament); Specifications, Sanitary Science, Professional Practice, Architectural Modelling, Drawing in the Studio.

The academical year is divided into three terms of about eleven weeks each; in 1905-6 the terms are as follows:—Michaelmas Term, beginning 4th October; Lent Term, beginning 9th January; Easter Term, beginning 30th April.

EVENING CLASSES.—Under the auspices of the Carpenters Company, Evening Lectures are given on Architecture (Wednesdays, 7 to 8), Building Construction (Mondays, 7 to 8), and Quantities (Mondays, 8 to 9), and Classes are held for Constructional Drawing on Fridays, 6.50 to 9. The studio is open every evening, except Monday and Saturday, 6 to 9.

Full particulars from the Secretary, at the College, or from Professor R. Elsey Smith, 180, Temple Chambers, Whitefriars, E.C.

**LONDON COUNTY COUNCIL CENTRAL SCHOOL OF
ARTS AND CRAFTS, 310, REGENT STREET, W.**

Principal : Professor W. B. LEITHY. *Lecturer and Instructor in Architecture* : HARRY RICHARDS (assisted by SIDNEY B. CARLISLE). *Building Construction* : F. H. MANSFORD. *Curator* : C. W. BUCKETT.

The instruction offered in this School is adapted to the needs, amongst others, of those engaged in the different departments of building work. All classes are held in the evening. There are classes in Drawing, Architectural Design, Building Construction, Colour and Decoration, Furniture and Metal Work Design, Wallpaper and Textile Design, Heraldic Drawing, &c. : Modelling and Ornament as applied to Architecture and the allied crafts ; Drawing and Modelling from the Life ; Ornamental Leadwork ; Stoneworking for Architects. The subject of Architectural Design is treated by lecture and at the drawing board, from the point of view that architecture should respond to the facts of modern life. Concurrently with instruction in this subject demonstrations are given of the mechanics of construction. Classes in the Theory and Practice of Stained Glasswork are conducted by Mr. Christopher Whall. Among the principal prizes are thirty School of Art Scholarships and thirty Artisan Art Scholarships. The Technical Education Board offer prizes, two of £15, two of £10, and two of £5, for carefully executed drawings of buildings, churches, or artistic objects in museums.

UNIVERSITY COLLEGE, READING, BERKS.

The needs of students preparing for the R.I.B.A. Preliminary and Intermediate Examinations are met by the classes held in the various departments of the College. The Department of Fine Arts provides courses of study in Drawing—(a) Elementary, (b) from the Antique, (c) from Life, (d) Geometry and Perspective ; Modelling ; Painting ; Design ; Crafts. Special stress is laid upon Design teaching, the subject being treated in its relations with (a) Constructive Principles, (b) Historic Styles of Ornament, (c) Execution in Wood, Metals, &c. The work done is under the special guidance of Mr. W. G. Collingwood, M.A. Oxon., F.S.A. Classes are also held in Elementary and Experimental Mechanics for Architectural Students. The Technical side of the College provides a complete course of instruction in Building Construction (Elementary, Advanced, and Honours) and Quantities Surveying under the direction of Mr. Harry Hutt (A.I.) of Reading. Mr. Hutt also takes classes in Architectural Drawing and the Historic Styles of Architecture. Evening classes are held in connection with all the subjects mentioned. The Calendar of the College can be obtained on application to the Registrar, Mr. F. H. Wright.

THE ALLIED SOCIETIES.

THE non-Metropolitan Societies allied to the Royal Institute of British Architects [see By-laws 77-81, p. 53 *ante*] are eighteen in number, seventeen being located in the United Kingdom and one in Australia. Each Allied Society is the accredited centre of a district [see *maps facing title-page*], and the agent of that district in its relations with the heart of the system in London.*

THE NORTHERN ARCHITECTURAL ASSOCIATION has Newcastle for its centre (A),† and Northumberland and Durham for its province [p. 282].

THE LEEDS AND YORKSHIRE ARCHITECTURAL SOCIETY has Leeds for its centre (B), and the greater part of Yorkshire for its province [p. 258].

THE YORK ARCHITECTURAL SOCIETY has York for its centre (C), and the greater part of the North Riding and the parliamentary division of York for its province [p. 294].

THE SHEFFIELD SOCIETY OF ARCHITECTS AND SURVEYORS has Sheffield for its centre (D), and Derbyshire, northern Lincolnshire, and a part of South Yorkshire for its province [p. 291].

THE MANCHESTER SOCIETY OF ARCHITECTS has Manchester for its centre (E), and Cumberland, Westmorland, part of Lancashire and part of Cheshire for its province [p. 271].

THE LIVERPOOL ARCHITECTURAL SOCIETY has Liverpool for its centre (F), and parts of Lancashire and Cheshire, with the counties of Flint, Denbigh, Carnarvon, Anglesea, Merioneth, and Montgomery, and the Isle of Man for its province [p. 264].

THE NOTTINGHAM ARCHITECTURAL SOCIETY has Nottingham for its centre (G), and Nottinghamshire and part of Lincolnshire, including Lincoln, for its province [p. 287].

THE BIRMINGHAM ARCHITECTURAL ASSOCIATION has Birmingham for its centre (H), and Warwickshire, Staffordshire, Shropshire, Herefordshire, and Worcestershire for its province [p. 216].

THE LEICESTER AND LEICESTERSHIRE SOCIETY OF ARCHITECTS has Leicester for its centre (I), and Leicestershire and Rutlandshire for its province [p. 259].

* See PRESIDENTIAL ADDRESS, 1893-94: JOURNAL, Vol. I. Third Series, p. 4.

† The various centres are distinguished in the maps by capital letters corresponding to those in this description.

THE BRISTOL SOCIETY OF ARCHITECTS has Bristol for its centre (K), and Gloucestershire, Wiltshire, Somerset, and Dorset for its province [p. 223].

THE CARDIFF, SOUTH WALES, AND MONMOUTHSHIRE ARCHITECTS' SOCIETY has Cardiff for its centre (L), and Glamorgan, Brecknock, Radnor, Cardigan, Pembroke, Carmarthen, and Monmouth for its province [p. 226].

THE DEVON AND EXETER ARCHITECTURAL SOCIETY has Exeter for its centre (M), and Devonshire and Cornwall for its province [p. 229].

In Scotland the GLASGOW INSTITUTE OF ARCHITECTS has Glasgow for its centre (O), with the counties of Dumbarton, Stirling, Renfrew, Lanark, Ayr, Kirkcaldie, Wigtown, Argyll and the Isles for its province [p. 242]. The DUNDEE INSTITUTE OF ARCHITECTURE, SCIENCE, AND ART has Dundee for its centre (P), and the counties of Forfar, Perth, Fife, Kinross, and Clackmannan for its province [p. 233]. THE ABERDEEN SOCIETY OF ARCHITECTS has Aberdeen for its centre (Q), and the counties of Aberdeen, Kincardine, Inverness, and the northern part of Scotland for its province [p. 215]. THE EDINBURGH ARCHITECTURAL ASSOCIATION has Edinburgh for its centre (R), and the counties of Linlithgow, Edinburgh, Haddington, Berwick, Roxburgh, Dumfries, Selkirk, and Peebles for its province [p. 235].

In Ireland the ROYAL INSTITUTE OF THE ARCHITECTS OF IRELAND has Dublin for its centre (Z), and the whole of Ireland for its province [p. 248].

The Home District of the Royal Institute of British Architects comprises, with London for its centre (X), Middlesex, Essex, Hertfordshire, Bedfordshire, Northamptonshire, Oxfordshire, Buckinghamshire, Berkshire, Surrey, Hampshire, Sussex, and Kent; and, until the formation of a Society in Cambridge, the counties of Cambridge, Huntingdon, Norfolk, and Suffolk. The Society which it is proposed should be established in the Eastern Counties would have Cambridge for its centre (N), and Cambridgeshire, Huntingdonshire, Norfolk, and Suffolk for its province.

In Australia the INSTITUTE OF ARCHITECTS OF NEW SOUTH WALES, located in Sydney, is the accredited representative and agent of that colony in its relations with the Institute [p. 279].

THE ABERDEEN SOCIETY OF ARCHITECTS.

[*Province:* Aberdeenshire, Kincardine, Inverness, and the northern part of Scotland. *Centre:* Aberdeen.]

Hon. Secretary.

A. H. L. Mackinnon [A.], 245, Union Street.

This Society was formed in 1898, the objects being to support and protect the character, status, and interests of architects practising in Aberdeen; to promote personal acquaintance and good feeling among members of the profession in Aberdeen; and to establish and maintain an acknowledged code of professional practice and charges. The Society consists of Members who, having served an apprenticeship with an architect or firm of architects, have been employed as assistants or have practised as architects for a period altogether (including apprenticeship) of not less than eight years, and who, at the time of their application for admission to the Society, are practising on their own account as architects in Aberdeen. One general meeting is held annually on the first Tuesday of March, besides general meetings which the Society may periodically hold.

Officers and Council.

Robert G. Wilson, *President*.

Arthur Clyde [F.],	Harbourside Mackinnon.
William Kelly, <i>Treasurer</i> .	G. Bennett Mitchell.
A. Marshall Mackenzie, A.R.S.A. [F.],	James B. Nicol.
A. H. L. Mackinnon [A.], <i>Hon. Sec.</i>	John Rust, <i>Vice-President</i> .

Assoc. Fellow
A.R.S.A., R.I.B.A.

Members of the Aberdeen Society.

* * The names of members of the Royal Institute in the foregoing list are printed in small capitals; and all the addresses are in Aberdeen.

EDUCATIONAL FACILITIES IN ABERDEEN.

Robert Gordon's College and Gray's School of Art—In the Day Classes of both institutions there are classes suitable for lads about to enter upon apprenticeship in Architects' offices:—Drawing (Freehand and Plant Form), Geometry, Study of Design and Ornament, Modelling, Building Construction and Drawing, Mathematics, and Mechanics.

The Evening Classes of the city of Aberdeen are now carried on under the joint management of the Aberdeen School Board and the Governors of Robert Gordon's College. The general plan is to arrange courses of instruction bearing upon the leading branches of industry and commerce existing in the city. Such a course for architects, extending to five years, has been arranged in co-operation with the Aberdeen Society of Architects, as follows:—

FIRST YEAR.—Practical Geometry, Building Construction, and Drawing.
SECOND YEAR.—The same subjects in more advanced stages, and Modelling.

THIRD YEAR.—Building Construction and Drawing, Drawing from the Antique, Sanitary Science, History of Architecture.

FOURTH AND FIFTH YEARS.—Theory of Structures, Drawing from the Antique, Architecture, Drawing from Life.

The classes in History of Architecture and Architectural Design are under the charge of George J. Irvin [A.]. The Aberdeen Society of Architects offer prizes, and members of the Society visit the classes.

THE BIRMINGHAM ASSOCIATION.

Notwick Union Chambers, Congreve Street, Birmingham.

[Province: Warwickshire, Staffordshire, Shropshire, Herefordshire, Worcestershire. Centre: Birmingham.]

Hon. Secretaries:

Gerald McMichael [A.], 105, Colmore Row.

A. Dennis Thacker, 34, Newhall Street.

The Birmingham Architectural Association was founded in 1873, for the promotion of union and professional integrity among its several classes of members; the establishment,

as far as possible, of uniformity of practice; the general advancement of Architecture, and of the arts and sciences connected therewith. The Association consists of Members—architects who have been in practice at least two years; Associates—architects not eligible as Members, architects' assistants and pupils; Honorary Members—persons who are not architects, but interested in architecture and the allied arts; Associated Craftsmen—persons engaged in the various crafts connected with architectural art. The Annual General Meeting is held in March.

A Class of Construction and a Sketching Class are held once a month from November to March at the rooms of the Association. Mr. W. H. Bidlake [A.], M.A., lectures at the School of Art on Architectural History. A Class of Design, Elementary and Advanced, is held in conjunction with the School of Art. The following subjects are set for the Class of Design next session:—

Advanced section (Mr. H. T. Buckland).—Subjects: 1. A small town church; 2. Portion of a street front in a city; 3. A clock tower; 4. A detached house to cost £1,500.

Elementary section (Mr. E. F. Reynolds).—Subjects: 1. A terrace of houses with 20 feet frontage; 2. A small house in a country suburb; 3. A village hall; 4. A billiard-room addition to a house.

The meetings of the Construction Class are attended by a practical man engaged in the trade under consideration. Sketching excursions are arranged for students, visits made to old buildings and to buildings in progress, and prizes offered for reports and sketches of the buildings visited. A permanent room has been taken for meetings and classes, which is open during the day as a club.

EDUCATIONAL FACILITIES IN BIRMINGHAM.

Municipal School of Art.—An Architectural Curriculum, approved by the Museum and School of Art Committee and by the Birmingham Association, is in operation as below. The course extends over four years, the yearly session being divided into two terms of about five months each. For the first, second, and third years the course includes subjects which occupy five lessons a week; and for the fourth year three lessons a week. Mr. Herbert T. Buckland is the special lecturer on architectural design (advanced), and Mr. W. H. Bidlake [A.], M.A. [Inst. Medallist 1885], on architectural history. Mr. Edwin F. Reynolds also gives instruction in architectural design (elementary), and Mr. Francis B. Andrews [A.], assisted by Mr. Ralph Berrill [A.], in building construction. The following is the syllabus:—

FIRST YEAR.—1. Freehand and outline from cast; model drawing; plant drawing in outline.—2. Geometry; perspective.—3. Elementary light and shade in line, and flat washing.—4. Architectural history—elementary lectures.—5. Design, ornament (elementary).

SECOND YEAR.—1. Modelled ornament.—2. Architectural history and architectural design.—3. Design, ornament (advanced); sciography.—4. Building construction.—5. Sketch drawing of ornament in line, light and shade, and wash; or, working out the designs of the special lectures.

THIRD YEAR.—1. Ornamental design (modelled).—2. Antique or life.—3. Architectural history and architectural design.—4. Building construction.—5. Colour.

FOURTH YEAR.—1. Antique or life.—2. Architectural history and architectural design, by Mr. Bidlake and Mr. Buckland (special lecturers) respectively.

There is also a course of evening classes, which includes most of the above-named studies; fee for attendance on five evenings a week, 5s. per term of twenty weeks for students under eighteen years of age, and 7s. 6d. per term for other

students. Morning, afternoon, and evening classes are held on five days a week. Class lectures are delivered throughout the session on geometrical drawing, perspective, practical plane and solid geometry (Stages 1 and 2), building construction and drawing (Stages 1, 2, and 3, and honours), architecture, architectural history, architectural design (elementary and advanced stages), history of art, and anatomy. The school has a good library, and a large collection of casts and other examples. There is a special room for drawing from living animals and birds. Valuable prizes are offered for architectural work. Secretary: Mr. E. Preston Hytch, Central Municipal School of Art, Margaret Street, Birmingham.

Birmingham Municipal Technical School (Suffolk Street, Birmingham).—Evening lectures are delivered at the Technical School in all stages of building construction and allied engineering subjects, such as practical geometry, applied mechanics, graphic statics, practical mathematics, materials of engineering, and structural design, plane and solid geometry (Stages 1, 2, and 3), and also on building construction (Stages 1, 2, and 3). The Stage 1 course in building construction includes brickwork, masonry, girders, joints in carpentry, floors, partitions, roof trusses, joinery, plumbing, slating; and the Stage 2 and Stage 3 Courses, more difficult and complex examples of the same, and, in addition, such subjects as the prevention of damp in walls, brick drains and sewers, chimneys, larger roof trusses in wood or iron, riveted joints, stairs in wood or stone, fire-proof floors, shoring, scaffolding, and foundations. A special section of the work consists of the practical study of builders' quantities. Fees: Stage 1 Course, 2s. 6d. for one night per week; Stage 2 and Stage 3 Course, 10s. respectively for two nights' work per week. A class in masonry is also held, the course including drawing to scale, and practical instruction: setting out and cutting the moulds, and preparing the various parts of mason's work. Fee for the course, 5s.

THE BRISTOL SOCIETY.

Fine Arts Academy, Queen's Road, Clifton.

(Province: Gloucestershire, Wiltshire, Somerset, and Dorset.
Centre: Bristol.)

Hon. Secretary and Treasurer:

Richard C. James [A.], Eagle Insurance Buildings, Baldwin Street,
Bristol.

The Bristol Society of Architects was established in 1850, and reorganised in 1888. The Society exists for the purpose of maintaining the interests of the profession; for the educational advancement of local students; for the formation of a Library; and for insuring a uniformity and respectability of practice. The Members consist of Fellows—architects who have attained the age of thirty years, and who have been engaged as principals for at least five successive years in the practice of architecture; Associates—persons engaged in the study or practice of architecture who have attained the age of twenty-one years; Honorary Associates—persons not professionally engaged in practice as architects, who by reason of their interest or ability in art, science, literature, or archaeology, or their experience in matters relating to architecture or building, may appear to the Council to be able to render assistance in promoting the objects of the Society; Students—persons engaged in the study of architecture, and who are not less than 16 years of age. Students have the privilege of attending ordinary meetings of the Society and of joining in discussions, but have no voice in the control of the Society's affairs. All Students are expected to qualify themselves for passing the Examinations of the R.I.B.A. The Annual General Meeting is held the second Monday in April, and monthly meetings are held at the Society's rooms from October to May, at which Papers are read and the business of the Society transacted. As an outcome of the Society's efforts to improve and encourage architectural education in the district, the classes in the Merchant Venturers' College, referred to below under "Educational Facilities," have been started, together with a Prize scheme for Measured Drawings open to Students of the Society. The Library of the Society has been recently restored and the Catalogue revised under the direction of Mr. Harold Smith [A.], Hon. Librarian. The Catalogue shows at a glance the works recommended to Students by the R.I.B.A. for the Examinations.

EDUCATIONAL FACILITIES IN BRISTOL.

University College, Bristol.—A special course for youths intending to become architects is offered at the College, the object being to provide a preparatory training in the interval between leaving school and entering the office. The classes are held every day in the week from 9 a.m. to 4.15 p.m. except Saturday, when workshop instruction is given from 10 a.m. to 1 p.m. The course is complete in three terms, and comprises instruction in mathematics, chemistry, physics, building construction, mechanics, geometrical drawing, surveying, and technical work. This scheme of instruction has the support of the Bristol Society, and students who pass satisfactorily are received as pupils upon more favourable terms than those without such preparatory training. Students from a distance are accommodated in suitable rooms in Clifton or the neighbourhood.

Merchant Venturers' Technical College, Bristol.—The Architects, Surveyors, and Building Trades' Department of

this College provides special courses of day lectures for first and second year students on building construction and drawing; architectural drawing and designing; freehand, model, and perspective drawing; graphic calculations and graphic statics, practical plane and solid geometry, mathematics and mechanics, architectural ornament, surveying, &c. In addition to these courses there are special classes which have been arranged with the countenance and support of the Bristol Society, and intended mainly for architects' pupils, in the subjects required for the Intermediate Examination R.I.B.A. During the summer term there is a Course in Surveying. The composition fee for the R.I.B.A. course, inclusive of the Surveying Class, is £7 7s. for the Session. Evening classes in the same subjects are held, as well as in Builders' Quantities. The lecturer on Architecture is Mr. R. Harold Smith [F.R.I.B.A.], who also conducts the evening classes in Builders' Quantities. The College possesses a reference library containing many books on Architecture, and a drawing office, and has recently opened extensive workshops and laboratories; these include large shops for carpentry and joinery, plumbers' work, painting and decorating, brickwork and masonry.

THE CARDIFF, SOUTH WALES, & MONMOUTHSHIRE SOCIETY.

(Previous: Glamorgan, Brecknock, Radnor, Cardigan, Pembroke, Carmarthen, and Monmouth. Centre: Cardiff.)

Hon. Secretaries:

Edgar G. C. Dwyer [A.] 81, High Street, Hon. Secretary.
H. R. C. Munchewick, 9, Theobald Road, Hon. Assistant Secretary.

The Cardiff, South Wales, and Monmouthshire Architects' Society was founded in 1890. The objects of the Society are—To advance the Art and Profession of Architecture; to consider questions of professional practice; to promote and afford facilities for the study of architecture; and to serve as a medium of friendly communication between the members and others interested in the progress of architecture. The Society consists of Members, Associates, and Honorary Members. Members must be practising architects, not combining any other business with their profession of architecture, except those of land and quantity surveying, land agency and valuing, and civil engineering, and must either have served articles to architects of recognised qualifications, or be members of the

Royal Institute of British Architects, or be elected at a meeting at which three-quarters of the members of the Society are present. Honorary Members of the Society may be architects of distinction, not practising in South Wales and Monmouthshire, and also gentlemen of recognised knowledge and taste in architecture and the kindred arts. Associates of the Society may be architects' assistants, or pupils who have served or are under articles to qualified architects. Associates elect one of their number as their representative on the Council. The Council meet for the transaction of business whenever necessary, which should be as near as possible monthly. Meetings are convened by the Hon. Secretary.

The Society offers several prizes, to be competed for by Associates, for the best specimens of work done in sketching, measuring, and designing during the year ending 31st October next.

EDUCATIONAL FACILITIES IN CARDIFF.

Cardiff Technical School (in association with the University College of South Wales and Monmouthshire).—The Art Department of this School provides tuition for continuing the instruction in drawing of pupils who have gone through the elementary course of a primary school and are desirous of a systematic higher art training. It also specialises for the various occupations in which art can be applied.

Special courses of instruction are given in the principles of ornament, and in elementary architecture, at nominal

fees. In the Department of Pure and Applied Science, the following course of building construction is offered :—

Elementary stage.—Use of drawing instruments—construction and use of scales; to draw plans, elevations, and sections of details of the parts of an ordinary house, and to understand the principles of construction of such parts. The work has to be done to scale, and inked in and lightly tinted.

Advanced stage.—The work is similar to the Elementary, but subjects of a more complicated nature are dealt with; also stresses of simple structures, and the nature, application, and characteristic peculiarities of building material in ordinary use.

Honours.—To design a building or part of a building in accordance with given conditions. Stresses of complicated structures—complete knowledge of building material.

The School affords special facilities for students studying for the R.I.B.A. Examinations. For the *Preliminary Examination*, arithmetic, algebra, plane geometry, and mechanics may be studied in the Science Department; French and geography in the Commercial; and geometrical drawing, perspective, and freehand drawing from the flat or casts of ornament and antique in the School of Art. Students preparing for the *Intermediate* have the benefit of the course of lectures on architecture (classic and mediæval) given in the Schools of Art. Instruction in applied mechanics, mensuration, strength of materials, and projection of solids, &c., is provided in the Science Department in the various classes on those subjects. Candidates for the *Final* should attend the class in building construction (advanced and honours). The collection of architectural casts, the numerous and carefully selected works on architecture in the technical library, together with the teaching of the staff, are of valuable assistance to candidates preparing the studies required for admission to the Examinations.

THE DEVON AND EXETER SOCIETY.

[Province: Devon and Cornwall. Centre: Exeter.]

Hon. Secretary.

Allan J. Pinn [A.], Castle Chambers, Castle Street, Exeter.

The Devon and Exeter Architectural Society was founded in 1890. The objects of the Society are:—

a. The promotion of union and professional integrity among its several classes of members; the establishment as far as possible of uniformity of practice; and the general advancement of Architecture and the various Arts and Sciences connected therewith. b. To secure an honourable adherence to the practice of the Architectural profession. c. To establish and maintain an acknowledged code of pro-

financial charges and rules of practice. *d.* To obtain and consider information respecting Competitions and other matters affecting the profession, and, where practicable, to advise Committees or others desiring professional aid, and to endeavour to secure equitable terms and awards, upon the Regulations for Competitions issued by the Royal Institute. *e.* To afford mutual assistance by advice or mediation, in cases of misunderstanding. *f.* A Library for the use of the members.

The Society consists of three classes of members, viz., Members, Associate Members, and Associates, wholly engaged as architects and surveyors, and not connected with any of the building trades. Members are architects in practice on their own account or in partnership. Associate Members must have qualified as Associate R.I.B.A., or have served as assistants for not less than five years in the office of an architect eligible as a Member; except at the election of the Council, they have full voting powers, but are not eligible for election on the Council. Associates include assistants who have duly served articles, and premiated pupils in articles. Associates enjoy all the privileges of membership except that of voting. The Council have the entire management and direction of all the affairs of the Society. The Meetings of the Society are held at various dates. Special Meetings may be convened by the President on the requisition of four Members of the Society; or by the wish of the Council. Prizes are offered to the pupil Associates for measured drawings. Arrangements have been made for members to join the Architectural Association Class of Design. The Society possesses a Library for the use of members.

EDUCATIONAL FACILITIES IN EXETER

Royal Albert Memorial College.—Instruction is given at the Science and Art Schools of the College to supplement the training acquired by architectural pupils in the offices where they are employed, and to prepare for the successive stages of the R.I.B.A. Examinations. The subjects taught in the Science Section include building construction, perspective geometry, and projection, mechanics and physics, mathematics, hygiene. In the Art Section: freehand drawing, drawing in light and shade, modelling and carving, design, and modelling design as applied to architectural detail, principles of ornament, historic ornament, lectures on the various styles of architecture, and their ornaments, mouldings, and enrichments; drawing from the antique and the life. There is a reference library containing a good collection of standard works on architecture. Particulars may be obtained of the Principal of the College, A. W. Claydon, Esq., M.A.

THE DUNDEE INSTITUTE.

(Provinces : The Counties of Forfar, Perth, Fife, Kinross, and
 Clackmannan. Centre : Dundee.)

Hon. Secretary :

David L. Allan, 41, Reform Street, Dundee.

The Dundee Institute of Architecture, Science, and Art was founded on the 9th June 1884. The object of the Institute is to afford facilities for the study of Architecture, the applied sciences, and the fine arts by means of Papers and discussions, sectional meetings, classes for study, prizes, visits to public works and buildings both ancient and modern, excursions for sketching, and such other means as the Council may determine. The Institute is composed of residents in Dundee and vicinity, in four classes, viz.: Members—gentlemen who have been engaged professionally in the practice of architecture, the applied sciences, or the fine arts for a period of not less than seven years; Associates—gentlemen not eligible as Members, and ladies, who are studying architecture or who take an interest in the objects of the Institute; Honorary Members, who may be elected by the Council; and Students—architects' assistants and pupils. Members only are eligible to vote at General Meetings. Two Associates are annually elected to serve as Members of Council, and while holding office are entitled to the privileges of Members. The Council have the entire control and management of the affairs of the Institute, subject to the approval of the general body. Members who are practising architects constitute a special section of the Institute, with full power to frame their own laws and regulations and to deal with all questions affecting professional practice. The Session begins in October and ends in June. Ordinary General Meetings are held once a month; Special General Meetings may be convened by the President on the requisition of four Members. The Annual General Meeting is held at the end of June.

EDUCATIONAL FACILITIES IN DUNDEE

Dundee Technical Institute.—Special evening classes for junior architects and apprentices are held at the Dundee Technical Institute, and facilities are afforded students preparing for the R.I.B.A. Examinations, including the necessary drawings for admission. Lectures, illustrated by means of lantern slides, diagrams, models, casts, &c., are given on Historic Architecture, Architectural Design, and Historic Ornament; and there are special courses in Building Construction and Drawing, and in the various science subjects essential to the proper equipment of the qualified architect.

The following four years' course for Architects is in

operation and recommended by the authorities of the Technical Institute:—

First Year.—Mensuration, Geometry, Freehand Drawing I. and II., Building Construction I.

Second Year.—Building Construction II., Solid Geometry I., Mathematics I., Freehand Drawing III., Architecture.

Third Year.—Mechanics I., Historic Ornament, Architectural Design I., Perspective.

Fourth Year.—Architectural Design II., Graphic Statics, Plumbers' Work (Theory) II., Surveying and Levelling. Any other Art Classes.

The following is the syllabus of lectures for next session on Historic Architecture:—

Architecture amongst primitive nations. The Greek orders of architecture: their general proportions and characteristics. Greek architectural ornament. The Roman orders. Comparison of Greek and Roman orders. The combination of arches and columns. Roman architectural ornament. Typical examples of Roman architecture. Early Christian architecture. Basilicas. Symbolic ornament. Byzantine architecture: characteristics and development. The use of the dome. Ornament and decoration of the style. Romanesque architecture: its influence in Western Europe. Development of the pointed arch. Characteristic mouldings and ornament. Mohammedan architecture and ornament: its influence on Europe and Asia. Gothic Architecture. The great Monastic orders. Comparison of plans, and characteristic arrangements. The characteristics of styles during the late Norman, Early English Decorated, and Perpendicular periods. Comparison of Continental and English Gothic. The Renaissance of classic architecture in Italy, France, Germany, Belgium, England, and Scotland. Later Renaissance. The revival of Gothic. Examples of modern architecture.

The work of the classes in Architectural Design chiefly consists in the preparation of designs for buildings and criticism of these by the teacher, with a short lecture each evening. The lectures deal with the materials used in construction; the advantages of studying and sketching old work; the use of a knowledge of historical architecture, and its application to modern designs. The principles of planning: fitness, stability, beauty. The grouping of details to give contrast, dignity, and picturesqueness to a structure. The choice of a site for a building; draining, ventilating, heating, and lighting. Special requirements in planning and construction in connection with hospitals, schools, baths, &c.

THE EDINBURGH ASSOCIATION.

(Provinces: Counties of Linlithgow, Edinburgh, Haddington, Berwick, Roxburgh, Dumfries, Selkirk, and Peebles. Centre: Edinburgh.)

Hon. Secretary:

Colin B. Cowan, 17, York Place, Edinburgh.

The Edinburgh Architectural Association was founded in 1858, its object being to promote and afford facilities for

the study of Architecture, and to serve as a medium of friendly communication between the members and others interested in Architecture. It comprises *Honorary Members*, and four classes of subscribing members—viz. *Fellows*, who are practising architects of three years' standing; *Members*, who are persons engaged in artistic or collateral pursuits or interested in the study of Architecture; *Associates*, who are assistants, pupils, and apprentices of architects, civil engineers or surveyors, and junior designers; *Corresponding Associates*, who are Associates residing more than fifteen miles from Edinburgh. *Fellows* and *Members* constitute the Senior Section of the Association, and *Associates* the Associate Section. Only members of the Senior Section vote for the admission of members into their section, and only Associates for the admission of members into theirs. Honorary Members may be nominated by the office-bearers, and the election proceeds as for other members. The Council, which is composed of the Fellows, and deals with all matters relating to the profession or art of Architecture, must meet at least three times a year, and the Chairman, or any three members, may require an extraordinary meeting of the Council to be called. The Committee of Management consists of the Office-bearers, Conveners of the Publication and Sketch-book Committees, and three members from the Senior Section and Associate Section respectively. The Associate Section has its own Chairman, Secretary, Treasurer, and other Office-bearers, and has power to make by-laws for the Section, which must have the approval of the Committee of Management.

The Council:

The Fellows constitute the Council.

Officers and Committee of Management:

Harold O. Trenchard [F.], *President*.

* * * The names of Members of the Royal Institute in the foregoing list are printed in small capitals; and, except when otherwise stated, all the addresses are in Edinburgh.

EDUCATIONAL FACILITIES IN EDINBURGH.

University of Edinburgh.—The Fine Art course of one hundred lectures (Professor Baldwin Brown, M.A. [H.A.]), qualifying for the M.A. degree, is designed, the syllabus states, (1) To bring before students, by critical descriptions and illustrations, the chief ancient and modern works of Architecture, Sculpture, Painting, and the Decorative or Industrial Arts; (2) To show how these works are connected in origin and use with the national and social life of successive epochs, and, conversely, how artistic monuments illustrate Classical and Biblical literature, and bear on historical investigation in general; (3) To explain as far as practicable the technicalities of the various Arts, and to open up those aspects of Art which present themselves naturally to the artist, but are sometimes overlooked by the literary student. On the historical side the characteristics of different styles and schools of Art are broadly

indicated, but, as these can be studied in books, they are not dwelt upon at length. On the artistic side particular stress is laid on the explanation of different materials and technical processes, as upon these largely depend the particular forms in which beauty is realised in the various works of human hands. There are lectures daily at 3 p.m. Museums, &c., are visited from time to time on Saturdays. Students have the use of class library, reading-room, and collections of examples. There is also an additional (Honours) course of fifty lectures on the subject of Classical Archaeology and Art. The Science classes at the University include a course of Surveying, Levelling, Setting out and Calculation of Quantities, instruction being given by lectures, practical work in the field, and plotting work in the drawing-office. There is a two years' course in Engineering Drawing, recommended to students proposing to become architects or surveyors; and courses of lectures on Sanitary Engineering and Building Construction.

Heriot-Watt College, Edinburgh.—The College has evening classes in Architecture and Building Construction (Lecturer, Mr. James Jerdan, architect). Before joining the elementary class students must pass an examination in Geometrical Drawing. The following is a synopsis of the current session's lectures:—

First Stage, or Elementary Course.—Brickwork: object of bond; English bond; Flemish bond; the six bonds of common materials; cement mortar; lime mortar; quality of good bricks; varieties of noble masonry; Portland cement and lime; about slates and roofing tiles, and the different methods of fastening; concrete floors; roofs, walls, &c.; plain floor tiling; spacing of joists and rafters; usual scantlings of timber; iron and wood rafter up to 40 feet span; proportions of doors and windows; doors; skirtings; simple ironmongery; round doors and windows; elementary ventilation and heating; plain plastering; plain painting and glazing; plumber's work: rain-water pipes and gutters, &c.; elementary drainage, connections with sewers and cesspools.

Second Stage, or Advanced Course.—Excavations for foundations, sewers, &c.; nature of soil; damp-proof courses; exclusion of vermin; dampness of wall, connection of walls with ground; purpose made brickwork; terra-cotta; artificial stone and stone cutting; various drainages for gutters and eaves; stone stairs; Portland cement concrete; fire-proof construction of floors; varieties of timber; sources and characteristics; piling; advanced carpentry and joinery; wood and iron roofs up to 60 feet span; purling; stair building and casement and French windows; axed windows; sub-roofs; window sashings; sound deadening; ventilation; preservation of iron, timber, &c.; glazing; lead work in wood frames; grates; mantelpieces; furniture of doors; advanced plumber work, and pipe ventilation; paper inspection chamber; scaffolding; shoring and strutting; effects of wind and rain on buildings.

Howers Stage—Part I.—Copying from the antiques. Students in this stage should also have a knowledge of physics, and be able to design roof trusses and beams of every kind, and draw stress diagrams of every kind of loading, method of taking quantities and prices of work and

materials, describe tests of all the important building materials, also architectural construction of masonry and timber work, the mode of manufacture of building materials, with an intimate knowledge of the matters enumerated for the lower grades.

Honours Stage—Part II.—(This Class meets on Tuesdays and Thursdays, 6.40 to 8).—Coping and designing of Classic facades, also practice of architecture; drawing up contracts and dealing with contractors; preparing sketch designs and giving instructions to assistants to prepare scale drawings; preparing specifications for the different trades connected with buildings.

Students taking the Honours Stages in Building Construction are recommended to attend the Class in Strength of Materials on Fridays.

Architectural Perspective Drawing.—Lecturer—Mr. JAMES JENNAN, Architect.—Perspective Drawings of Buildings from Plans and Elevations, exterior and interior, showing the methods of setting up, finding vanishing points, height lines, &c., also the finishing of drawings in pencil, ink, and colour. Students attending this class must either attend Part I. or Part II. Honours Building Construction.

Students taking Honours Stages in Building Construction are recommended to attend the Class in Strength of Materials on Fridays.

The College has also classes in Masonry and Brickwork, Quantity Surveying, Strength of Materials, Sanitary Science, Municipal Engineering, and Mechanics of Structures, and is provided with well-equipped mechanical and engineering laboratories, and iron and wood workshops.

Edinburgh School of Art, Royal Institution.—The complete curriculum of the Architectural Section of this School of Art extends over five years, and the basis of the teaching is an education in common in the study of Classic Renaissance and Medieval Arts, Colour, Decoration, Modelling, Figure Drawing, Perspective and Scenography, and their application. With a view to enabling students to pass the examinations of the Royal Institute of British Architects, a course of about twenty lectures on Architecture will be delivered in the school during the winter months. Money awards are made to students who merit encouragement, the money to be spent in visiting and making studies of work in Scotland illustrating the Art the student follows. Two Scholarships for the study of Scottish National Art, of the value of £52 each per annum, are open for competition to students of the school. Travelling Bursaries are awarded to meritorious students.

THE GLASGOW INSTITUTE* (INCORPORATED).

[*Provinces:* Counties of Dumbarton, Stirling, Haddington, Lanark, Ayr, Kirkcaldy, Wigtown, Argyll and the Isles. *Centre:* Glasgow.]

Secretary:

C. J. MacLean, 115, St. Vincent Street, Glasgow.

The Glasgow Institute of Architects was registered on the 18th September 1868, under Section 23 of the Companies Act 1867. The objects of the Institute as given in the Memorandum of Association are:—

(1) The advancement of the art and science of Architecture; (2) The consideration and discussion of all subjects and questions connected, directly or indirectly, with the profession of architects, and the concentrated expression of opinion upon the same; (3) The elevation of the attainments, the promotion of the efficiency, and the protection of the interests of the architects of Glasgow; (4) The establishment of a uniform rate of charge by the members for professional business, in cases where no special agreement as to remuneration is made by the parties; (5) The doing all such other things as are incidental or conducive to the attainment of the above objects.

Every person applying for admission should at the time of application be engaged in carrying on the business or profession of an architect on his own account within the city of Glasgow or elsewhere, and should besides belong to one or other of the following categories: (1) Persons who have served for six years, at least, as apprentices or assistants with members of the Institute or with persons eligible to become such; (2) members of other architectural institutes, associations, or societies. They must be nominated by two Members, be approved by the Council, and sign a form of Declaration as to their professional training and practice. It is also competent to the Institute on the recommendation of at least two-thirds of the members present at a meeting of the Council, and by a resolution to that effect passed at a succeeding general meeting of the Institute, to admit as a member any applicant, although not eligible under the foregoing provisions, who has complied with the other requirements of the articles of association. The dates of Ordinary Meetings are periodically fixed by the Institute; and Extraordinary General Meetings may be convened by the Council on the requisition of five or more members. The Annual General Meeting is held the third Tuesday in April.

Officers and Council.

John Keppie [F.], President [Member R.I.B.A. Council].

Thos. Baird, jun.

David Barclay [F.], Auditor.

A. Baldom.

George Bell.

EDUCATIONAL FACILITIES IN GLASGOW.

The Glasgow Institute of Architects is closely identified with the recently established School of Architecture in Glasgow, which holds its classes in the Glasgow School of Art (Mr. Fra. H. Newbery, Director and Headmaster), and the Glasgow and West of Scotland Technical College (Mr. H. F. Stockdale, Director). The President of the Glasgow Institute, Mr. John Kennie [F.], has been elected a Governor of the School of Art, and the Joint Committee on Architecture includes the following members of the Glasgow Institute:—W. Forrest Salmon [F.], T. L. Watson [F.], J. J. Burnet, A.R.S.A. [F.]

GLASGOW SCHOOL OF ARCHITECTURE.

M. Eugène Bourdon, B.A., Director of Architectural Studies and Professor of Architectural Design.

TECHNICAL COLLEGE.

Subjects.	Teachers.
History of Architecture	— [Charles Gurney, B.Sc. [A.], Lecturer—James G. Boyd.
Architectural Measuring	
Architectural Construction	
Mathematics	— George A. Gibbo, M.A., LL.D., F.R.S.E.
Descriptive Geometry	— John Harry Aitken, M.Instn. M.I.M.E.

Subjects.				Professors.
Mechanics				John Gordon Loughbottom, A.R.C.S.
Mechanics of Structure				
Natural Philosophy				James Blyth, M.A., LL.D., F.R.S.E.
Chemistry				Gordon Gerald Henderson, M.A., D.Sc.
Geology				Daniel Burns, M.I.M.E.
Librarian				Peter Beumatt.

SCHOOL OF ART.

Architectural Design (Senior) and Lectures				Alexander McGibbon (Jr.).
Architectural Design (Junior)				Instructor—Walter H. Watson.
Drawing from the Life				Jean Delville, A.R.N.B.A.
Drawing from the Antique (Advanced)				Paul Arin.
Drawing from the Antique (Preliminary)				James H. Dunlop, A.R.C.A.
Drawing Ornament and from Nature				D. Forrester Wilson.
Modelling				John Keller.
Decorative Design				Adolphe Girardon, M.S.A.F.
Librarian				J. F. X. King, F.E.S.

The following description of the educational scheme is extracted from the Calendar of the Glasgow School of Architecture:—

The courses of instruction provided by the Glasgow School of Architecture, which are given in both the Technical College and the School of Art, aim at the preparation of the student for the profession of Architecture. This education and the practical training of the pupil or apprentice in an architect's office are necessarily complementary.

A Joint-Diploma or a Joint-Certificate is granted to those students who successfully complete the respective courses of study as required by the School.

(A) The Diploma Course may be taken either in:—(1) The Day Course; (2) the Alternate Course; (3) the Evening Course; (4) the Combination Course. The Joint-Diploma is granted by the Technical College and the School of Art. (B) The Certificate Course is taken in Evening Classes only. The Joint-Certificate is issued by these two Institutions.

The Diploma Course ensures a complete architectural education, and is strongly recommended to all students really desirous of qualifying as Architects. A sound general education, such as that provided in a good secondary school, is assumed. This education and some elementary technical knowledge are tested in a preliminary examination. The scientific and artistic classes of the School continue this general education. The History of Architecture and Architectural Construction impart a thorough technical knowledge, and Architectural Design, the essential part of the studies, is the direct preparation for professional life.

The Certificate Course is of a lower standard, and is arranged for those who cannot follow the Diploma Course. It yet provides a fairly sufficient architectural education.

The Glasgow Institute of Architects recommends the Diploma Course, and particularly the Day Classes. After passing the preliminary examination and joining an Architect's office the student will either:

(1) Enter the full Day Course (say for four years) resuming office attendance during the vacations. When the School Course is finished, the pupil will complete his pupillage, which will probably be reduced to a minimum because of the progress made in the School. Or:

(2) Enter the Alternate Course: i.e. full Day Classes in the Lower

Division (say for two years), with attendance in his office during the vacations; Evening Classes in the Upper Division (for three or four years), with service in his office, which will be reduced to a minimum as above.

Both Diploma and Certificate Courses prepare for the examinations of the Royal Institute of British Architects. The terminations of study are worked out as School work. The more important National and Local prizes may also be completed for while following the same courses.

Preliminary (and Entrance) Examinations.—Students before entering upon the Diploma Course are required to pass a Preliminary Examination in—(1) English; (2) Mathematics; (3) Drawing; (4) Latin, or a Modern Language; (5) The Elements of Architecture and Building Construction. A part of subject (2), and subject (4) may be deferred. Subject (5) is optional for Day Students. It is desirable that students, before entering upon the Certificate Course, should pass the full Preliminary Examination as shown, but the Entrance Examination only includes the subjects (2), (3), and (5), and a part of subject (4) as above may be deferred. Candidates will be exempted on producing satisfactory Certificates of having passed an equivalent examination elsewhere or giving other proofs of their knowledge.

DIPLOMA COURSE.

This course is arranged in two divisions, a Lower and an Upper. It is not rigidly divided into years, but by a system of marks, and according to progress made the student is admitted to the higher stage or to the Upper division and finally is eligible for the Diploma, whenever the class certificates in Technical subjects and the minimum number of marks in Artistic work are obtained.

Certificates and marks being granted on the same footing for day or for evening work, the student may take any of the following courses:

(1) *Full Day Course.*—The full Day Course is strongly recommended. The work is not only more easily performed but is far more profitable; and further, the evenings are left free to the Student to obtain that general culture so necessary to an architect. Although there is no fixed duration for this course, it may be assumed that the average student will spend two sessions in each Division, Lower and Upper, making a total of four sessions.

(2) *Alternate Course.*—This course is followed by students attending alternately the Day Course and the Evening Course. Failing the full Day Course, the Alternate Course offers the next best plan of studies: Students join the Day Course in the Lower Division (say for two years) and thereafter attend the Evening Classes in the Upper Division (some three or four sessions). This course would be improved by the addition of some period of Day work towards its close.

(3) *Evening Course.*—This course is intended for those who cannot avail themselves of either of the two above courses. It may be said, approximately, that the work in the Lower Division may be taken in three years and that in the Upper Division in three or four years. (The minimum of three years is possible to the abler students, attending the school five evenings a week; the four sessions to those of less ability, or to those giving fewer attendances.)

(4) *Combination Course.*—Students who have joined for the Evening Classes, but find themselves able to attend the School at certain times during the day (say for two or three afternoons, or in the morning, or any other combination) in addition to Evening work or in place of some part of it, will follow a course combining Day and Evening Classes. This Combination Course will be arranged for any applicant by the Director of Architectural Studies.

CERTIFICATE COURSE.

The Certificate Course follows the same system of marks and does not depend on a fixed number of lessons. It may, however, be assumed that it requires from average students some four years of evening work, at the rate of at least four nights a week. Each mark given in this course being of the

same value as those granted in the Diploma Classes. It is possible for a Certificate student to be admitted, with his marks at an early stage of his studies to the Diploma Course. Should it be his intention to enter the Diploma Course, he should do so as soon as possible, certainly before Stage II. A special permission must be obtained and the regulations must be observed. *Vice versa*, a Student dropping the Diploma Course, and joining the Certificate Course, will retain the marks he has gained.

Exemptions.—Equivalent work done either in the School or elsewhere is accepted. Any student presenting Certificates or other evidence which, in the opinion of the School Authorities, show he has obtained a satisfactory knowledge of any subject in the earlier stages of the courses may be exempted from the corresponding class; if satisfactory proofs be produced he may be entirely exempted from the junior sections of the course.

SPECIAL COURSES.

Architect Students who think it necessary to take only some particular subject in Architecture may, as *special students*, enter the corresponding class or classes and be granted marks, which will count, if they are afterwards permitted to enter the Diploma or the Certificate Course.

The School is also open to non-Architect Students, individually or grouped in classes. They will follow special courses. An appreciation and knowledge of Architectural forms, rules, and modes will be imparted to Painters, Sculptors, Designers, &c. Engineers, and to any other students. Such tuition is essential to the full completion of their studies.

A Special Class for Design Students in the School of Art was organized during the Session 1904-5, under Mr. Mitchell's direction, and will continue next Session, 1905-6.

The Glasgow School of Art.—The School is divided into four departments of work, namely:—Drawing and Painting, Architecture, Modelling, Design and Decorative Art, as well as Classes for the Training of Teachers. The prospectus states that Students are educated as Painters of Landscape and the Figure, Architects, Modellers, Sculptors, Designers, and Decorative Artists. Teachers are also trained to take charge of the Art Instruction in Continuation Classes and in the Art Departments of Higher Grade and Secondary Schools.

Among the arts and crafts dealt with are Stained Glass, Decoration of Interiors, Ceramic Decoration, Enamels, Mosaics, Sgraffito, Gesso, Black and White Processes, Metal Work, Wood Carving, Stone Carving, Furniture, and the instructors are practical workmen daily engaged in business. It is proposed beginning with the ensuing Session to develop the work of the Technical Studios. The prize list includes valuable Maintenance Scholarships and Bursaries. Special prizes are given by the Glasgow Institute of Architects.

THE ROYAL INSTITUTE OF THE ARCHITECTS
OF IRELAND.

[Province: The whole of Ireland. Centre: Dublin.]

Hon. Secretary:

R. Caulfield Orpen, B.A., 12, South Frederick Street, Dublin.

The Royal Institute of the Architects of Ireland was founded in 1839. The objects of the Institute are—(1) The general advancement of Architecture; (2) The maintenance of the interests, status, and uniformity of practice of the profession; and (3) The maintenance of communication and friendly relations with other bodies associated for similar purposes. The Institute consists of four classes of members—viz. Fellows and Ordinary Members, and Honorary Fellows and Honorary and Corresponding Members. Fellows must be architects of good repute, being Members of the Royal Institute of the Architects of Ireland, and engaged in the practice of architecture for at least seven years; they must be elected to the rank of Fellows by general vote of the Members on the recommendation of the Council. Members must be architects of good repute who have attained the age of twenty-three years, and (a) who have been engaged for at least seven years in practice as principals; or (b) seven years in the study of Architecture with a view to practice, including apprenticeship of not less than three years to a Member of the Institute, or of the Royal Institute of British Architects, or of the Societies allied to it; or (c) who shall have passed the Associate Examination of the R.I.B.A. for the time being; Honorary Members; and Honorary Corresponding Members—persons eminent for their works or scientific acquirements, not being British architects. Meetings of the Council are held the first Monday in the month, at 11 a.m., except during July, August, and September. The Ordinary General Meetings are held on the first Thursday in February, May, October, and November. The Annual General Meeting is held in December, at which Meeting the Council for the ensuing year is elected.*

* As the *KALENDAR* goes to press previous to this Meeting the names of Council and Officers for 1906 cannot be here published.

EDUCATIONAL FACILITIES IN DUBLIN.

[See ARCHITECTURAL ASSOCIATION OF IRELAND, p. 252.]

Metropolitan School of Art, Kildare Street.—The Department of Agriculture and Technical Instruction for Ireland offers through this School instruction in drawing, painting, modelling, and designing for architecture, decoration, &c. Day and evening class lectures are delivered on freehand drawing, practical geometry, model drawing, perspective, and principles of ornament and design. A technical class for Stained Glass Painting meets during the session, and Craft classes have also been established for enamelling, metal-work, and mosaic work. Special lectures on Architecture are delivered each session. The session extends from the first Monday in October to the 31st July following.

Royal College of Science, Stephen's Green.—This College provides a complete course of lectures on building construction, surveying, mechanical drawing, freehand and model drawing, mechanical and electrical engineering, applied physics and chemistry, natural science, &c. Scholarships in science and technology, tenable for three years, are given every year by the College. Particulars to be obtained from the Registrar.

Technical School, Kevin Street.—Classes in the following subjects are held at the School: Practical plane and solid geometry, mathematics, freehand, geometrical and model drawing, design, and modelling in clay; a course of building construction and drawing, and the nature and application of building materials; building surveying and estimating, carpentry and joinery, painters' and decorators' work, plumbing, art metal-work, applied mechanics, &c.; fibrous plasterers' work, wood-carving, decorative applied art.

The Architectural Association of Ireland.

Officers and Committee.

H. Allibury [A.], *President.*

C. H. Ashworth.

G. F. Beckett, *Vice-President.*

Edwin Bradbury, 38, South Frederick Street, *Hon. Treasurer.*

B. M. Butler.

Frederick Hayes, *Vice-President.*

F. G. Hicks.

Joseph Holloway.

G. G. Lyons, *Hon. Librarian and Registrar.*

C. J. MacCarthy.

A. G. C. Millar.

C. H. Mitchell.

H. G. Lusk, 25, Suffolk Street, Dublin.

Lucius O'Callaghan,

23, Fleet Street, Dublin.

Geo. P. Sheridan [A.],

J. H. Webb.

Hon. Secretaries.

The Architectural Association of Ireland have arranged classes for Architectural History, Building Construction, and Design, to be held twice a week at 15, South Frederick Lane, Dublin. During the session a course of lectures on Architectural History will be delivered by Mr. Edwin Bradbury, M.R.I.A.I. The Association has a Designing Club and a Saturday Afternoon Club, which pays visits to buildings of interest for the purpose of measuring or sketching, or of observing methods of construction, &c. Fortnightly lectures on subjects of interest to the Profession are held during the winter in the hall of the Association. Among the prizes are the Association Travelling Studentship, value £10, and the Institute Prize, value £10 10s. The Association possesses a Lending Library and Reference

Library, the latter comprising Sir Thomas Drew's collection of books, which he has placed at the disposal of members. Art books from his private collection are also lent by Sir Thomas Drew for use in the Library on application.

LEEDS & YORKSHIRE SOCIETY (INCORPORATED).

10, Park Street, Leeds.

[Province: The greater part of Yorkshire. Centre: Leeds.]

Hon. Secretary:

Albert E. Kirk [A.], 18, Bond Street, Leeds.

The Leeds and Yorkshire Architectural Society was founded in 1876, and registered on the 10th November 1885, under Section 23 of the Companies Act 1867. The chief objects of the Society are:—(1) To afford facilities for the study of Architecture; (2) To advance and protect the professional character, status, and interest of architects, to promote honourable practice, to settle disputed points of practice in which architects practising in the County of York are concerned. The Society consists of Members—architects who have been in practice at least two years prior to election; Associates—architects' assistants, pupils, or architects who are not eligible as Members, or who have not been nominated as Members; and Honorary Members—persons interested in the arts and sciences associated with Architecture. The Annual General Meeting is held in November.

Officers and Council.

*. * The names of members of the Royal Institute in the foregoing list are printed in small capitals; and, except when otherwise stated, all the addresses are in Leeds.

EDUCATIONAL FACILITIES IN LEEDS.

School of Architecture in connection with the Leeds and Yorkshire Architectural Society.—The classes are conducted by arrangement with the University of Leeds and the Leeds Institute at their respective institutions. A curriculum has been arranged to cover nearly the whole of the subjects required for the Institute Preliminary, Intermediate, and Final Examinations, as follows:—

Preliminary.—Elements of plane geometry; geometrical drawing; elements of perspective; elementary mechanics and physics; freehand drawing from the round.

Intermediate.—History of Medieval and Renaissance architecture; theoretical construction; descriptive geometry; elementary applied construction.

Final.—Design (subjects quarterly adjudicated upon by the Council of the Society). The nature and properties of building materials (this class is held at the Society's rooms and conducted by its own lecturer). The arrangement and construction of buildings in relation to health; specifications and estimating.

In addition to the above courses the University of Leeds gives instruction in mathematics, mechanics, civil engineering, sanitary law, drainage and engineering problems, and the Leeds Institute in drawing, painting, designing, modelling, and carving. The Society arranges visits of inspection to old and new buildings periodically during the summer months, and a course of evening lectures is given during the winter session.

The Society's library, comprising 584 volumes, is located at the reference department of the Leeds Central Public Library, and members of the Society can obtain the loan of books on production of certificate of membership.

The following prizes are offered annually by the Leeds and Yorkshire Society: the Society's Silver Medal and Five Guineas (given by the President) for measured drawings of old work; Three Guineas for drawings illustrating construction; Three Guineas for sketches of old work; Three Guineas for original design for a building. Two Guineas second prize; Two Guineas for an essay; One Guinea for best classwork at the Leeds Institute. Half-a-guinea second prize.

University of Leeds.—Students desirous of qualifying for the Associateship R.I.B.A. may have a special course arranged by consultation with the Art Lecturer and the Professor of Engineering at the University, such course to include facilities for executing the Testimonies of Study, and preparing for the required examinations in both the Art and Science Sections of the programme. Day instruction is given in freehand drawing, sketching from natural

objects, general art study, and design for the decorative arts; also in mathematics, mechanics, and civil engineering, with lectures on materials and building construction. There is a course of evening lectures on geology applied to sanitary and civil engineering.

The Leeds Institute of Science, Art, and Literature.—The new School of Art buildings being now completed, the Architecture classes will be carried on in the special classroom provided for the purpose. Instruction in freehand drawing, geometry, perspective, modelling, and decorative design in all its branches is provided under the ordinary School of Art staff, who also superintend the day classes for architectural students held on Wednesday and Friday afternoons. The classes in architecture, which are held with the approval and support of the Leeds and Yorkshire Architectural Society, and conducted by Mr. F. Maslo [A.], have been framed with the definite object of preparing students for the Preliminary, Intermediate, and Final Examinations of the R.I.B.A. Classes are held for the professional subjects of the Final Examination; but the curriculum is mainly drawn up to cover in a two years' course the work required for the Intermediate Examination of the Institute. Greek and Roman Architecture, with the Renaissance in Italy, is taken on Tuesday evenings, and in alternate years Medieval English Architecture, with the Renaissance in England, thus covering the whole ground thoroughly in a two years' course. This class, with that in Architectural Design, is intended also to meet the requirements of candidates for the R.I.B.A. Final Examination. At the class in Architectural Design the subjects set are done rapidly on Wednesday evenings, and completed at home more at leisure, being afterwards criticised by visitors nominated by the Leeds and Yorkshire Society. Visits to buildings of note in the district and sketching are included in the course. Classes in Building Construction and Quantity Surveying are also held with the approval and support of the Leeds and Yorkshire Society. The building construction classes are under the direction of Mr. James Neill, F.S.I., and lectures in all stages are given on Monday, Wednesday, and Friday evenings in general building construction, and also in steel and concrete construction, covering all the construction subjects of the Intermediate and Final Examinations. A class in quantities and specifications is conducted by Mr. Joseph Priestley on Wednesdays. Fees: Building Construction, 5s. per session; Architecture, 21s. per session;

Details and Ornament, 4*ss.*; Quantity Surveying, 7*s.* 6*d.* per session. *Secretary*, Mr. Arthur Tait.

City of Bradford School of Art: Special Classes for Architecture. — The day class is a combined one, and is carried on in conjunction with the Engineering Department of the Technical College. The subjects include freehand drawing, light and shade, sketching, measurement drawing, drawing of architectural details, architectural design; and surveying, building construction, materials, sanitation, chemistry, mathematics, mechanics. The course is a three-years' one, and the fee is £15 per annum. The evening classes consist of lectures on architectural design, dealing with subjects in a practical manner by means of demonstrations where the various points of style and construction are explained. The work done by the students is criticised by leading local architects. Lectures on historical architecture are given once a week throughout the session. Special attention is given to the preparation of students for the R.I.B.A. Examinations, including preparation of the "testimonies of study" required for admission to these examinations. There are also classes for building construction, chemistry, and mechanics. The architectural demonstrations and lectures are given by Mr. F. Musto [4.]. It is intended, now that the new School of Art is completed, to bring the teaching still more into line with the R.I.B.A. Examination programme, but continuing to give special attention to the teaching of architectural design. There is a special room for architecture well supplied with casts, photographs, and books.

THE LEICESTER & LEICESTERSHIRE SOCIETY.

[Province : Leicestershire and Rutlandshire. Centre : Leicester.]

Hon. Secretary :

Walter K. Beddingfield, 20 Market Street, Leicester.

The Leicester and Leicestershire Society of Architects was founded in 1872. The objects of the Society are :—

(1) To maintain the alliance to the Royal Institute of British Architects; (2) To establish and maintain an acknowledged code of professional charges and practice; (3) To obtain and consider information respecting competitions and other matters affecting the profession, and, where practicable, to advise with committees or others desiring professional aid, and to endeavour to ensure equitable terms and awards; (4) To afford mutual assistance, by advice or mediation, in cases of misunderstanding, either among members themselves, or between

them and their employers, or between the members and those employed in works under their superintendence, and generally to promote personal acquaintance and good feeling among members of the Society; (b) To establish an architectural reference library and model room for the use of the various constituent members of the Society, and to advance the professional knowledge and interests of members of the Society in any way that may from time to time be deemed expedient.

The members consist of four classes, viz.: Hon. Members—retired architects and others; Full Members—architects who have been engaged for not less than three years as principals; Associate-Members—architects in practice, but not eligible as Full Members, or Associates R.I.B.A.; and Assistant and Pupil Members—assistants and pupils not less than 16 years of age, in the office of an architect, surveyor, or civil engineer in practice in the counties of Leicester or Rutland. The Society possesses a Library to which all its members have access, and has issued a schedule of professional charges and practice. Prizes are awarded by the Council of the Society to pupils and others for the best Architectural Sketches and Measured Drawings.

General meetings are held at various dates, due notice of which is issued to all members by the Honorary Secretary. The Annual General Meeting is held in March.

EDUCATIONAL FACILITIES IN LEICESTER.

The Leicester Municipal Technical and Art School.—A course of instruction in Architecture has been arranged at this School in conjunction with the Leicester and Leicestershire Society of Architects, in accordance with the syllabus drawn up by the Board of Architectural Education (*supra*).

p. ix.]. The course provides for a preliminary training in Day Classes for two years, together with further training at Evening Classes during pupilage.

The Council of the Leicester and Leicestershire Society of Architects recommends all candidates for the profession to pass through this two years' preliminary course, and it is understood that the members of the Society will give preference to such Students as have taken this course, or have received an equivalent training. The Council also recommends, as an article of apprenticeship, that the further training, mainly of Evening Classes, should be continued during pupilage, and that facilities should be given for pupils to do this.

The Student, previous to entering upon the course, will be required to show such qualification as would enable him to pass, or obtain exemption from, the Preliminary Examination of the Royal Institute of British Architects.

The following is the Syllabus of the Course of Instruction :

FIRST YEAR.

Session of 40 weeks at the Municipal School of Art, September 12th to June 30th. Day Classes : 10.0-12.30 and 2.30-4.30. Three Evening Classes : 7.30-9.00.

Day Classes.—Freehand Drawing, according to ability, and Water Colour Practice, Modelling, Advanced Geometry, Workshop Practice (Woodwork).

Evening Classes.—Elementary Building Construction, Tuesday Evenings. Lectures on History of Architecture, Monday Evenings. Study of Construction with relation to Design, Friday Evenings. Sketching Class, Saturday Afternoons in May and June. July, some Special Measured work set by Teacher.

An Examination in Geometry to be taken at the end of the first year.

At the end of this year the student's work will be reviewed by the Education and Prizes Committee, with a view to deciding whether it would be advisable for the student to continue his training for the Architectural Profession.

SECOND YEAR.

Municipal Art School, times stated above.

Day Classes.—Exercises set at the Evening Lectures in Building Construction and History of Architecture; Drawing from Casts of Architectural Work, and from the Life; Modelling, Architectural Perspective, Advanced Geometry, and the Projection of Shadows; Studies of Colour from Natural Objects; Workshop Training, Carpentry and Finishing, &c.

Evening Classes.—Elementary Building Construction, 1st Stage, Tuesday Evenings. History of Architecture, Monday Evenings. Study of Construction in relation to Design, Friday Evenings. Sketching Class, Saturday Afternoons in May and June. July, Sketching and Measuring of Special Subjects set by Teacher.

THIRD YEAR.

In this, the third year of the student's training, he should be articled to an Architect in practice, and continue his work at the School of Art, attending at least three evenings per week during this and the following three years.

The Testimonials of Study for the Intermediate Examination of the R.I.B.A. should be made and the Examination in Building Construction

TABLE SHOWING CO-ORDINATION OF ARCHITECTURAL COURSE—DESIGN AND BUILDING CONSTRUCTION—AT THE LEICESTER MUNICIPAL TECHNICAL AND ART SCHOOL.

YEAR	1 and 2	3	4	5 and 6
MASONRY	Exercises in Exercises— Mr. F. J. J. J.	Designs in Construction with a Vertical Wall. Mr. H. J. J.	Designs in Construction with a Vertical Wall. Mr. H. J. J.	The Practical Construction of a Building. Exercises in Masonry Design. Mr. H. J. J.
BRICKWORK	Tracing of plans from wall with plan.	Stone arches, buttresses, and other parts of stone windows.	Stone arches, buttresses, and other parts of stone windows.	General construction of plan of building, and construction of tracing, and construction of masonry of building. First subject in design—Masonry.
GAUDETARY ZONING	Plans in brick.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.
GART AND WHOLE HOUSE	Exercises in planelling, based on old samples.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.
CONSTRUCTION OF ARCHITECTURE	Plans for exterior decoration, and design for a house.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.
CONSTRUCTION OF HOUSE	Plans for exterior decoration, and design for a house.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.
BUILDING CONSTRUCTION	Plans for exterior decoration, and design for a house.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.	Plans and elevations of stone arches, buttresses, and other parts of stone windows.

(Stage II.) taken. The student should also present himself for the R.I.B.A. Intermediate Examination in June.

Evening Classes.—Advanced Building Construction, 2nd Stage. Wednesday evenings. Architectural Studies, Design and Measured Drawings of Historic Examples of Architecture. Testimonies of Study for Intermediate R.I.B.A. Two evenings a week, of which Friday is one. Saturday Afternoon, Sketching in May and June.

FOURTH YEAR.

Evening Classes.—Building Construction, Stage III, Thursday Evenings. Design in Specific Subjects and History of Architecture, supplemental and subsidiary of the Study of Construction. Two evenings a week, of which Friday is one. Measured Drawings and Testimonies of Study for Final R.I.B.A. Sketching Class, Saturday Afternoons in May and June.

FIFTH AND SIXTH YEARS.

Evening Classes.—Building Construction, Honours Stage, Tuesday Evenings. Architectural Design continued, with Examination in this subject at the end of the sixth year. Two evenings a week, of which Friday is one. Measured Drawing continued, and Testimonies of Study for Final R.I.B.A.

A special series of Lectures by Professor Beresford Pite has been arranged at the School in conjunction with the Leicester and Leicestershire Society of Architects. All students of Architecture and Building Construction are invited to attend. Subjects in design will be set and criticised by Professor Pite after each succeeding lecture.

The above courses, and the Classes for Design, Professor Pite's Lectures and the Classes for Building Construction are co-ordinated, as shown in the table on preceding page. The School also provides courses in Architectural Perspective and Modelling for Architectural Students.

THE LIVERPOOL SOCIETY.

[INCORPORATED.]

(Provinces: Parts of Lancashire and Cheshire, with the counties of Flint, Denbigh, Carnarvon, Angleson, Merioneth, and Montgomery, and the Isle of Man. Centre: Liverpool.)

Rooms: 11, Harrington Street.

Hon. Secretaries:

Gilbert Fraser [A.], 67, Lord Street; and Ernest C. Aldridge,
14, Castle Street.

The Liverpool Architectural Society was established in 1848, and incorporated in 1901 under the Companies Acts 1862-1900 as a limited company, the Certificate of Incorporation bearing date 22nd August 1901.

The objects of the Society are: (a) To undertake and encourage the general advancement of civil Architecture, and to promote and facilitate the acquirement of the knowledge of the various arts and sciences connected therewith, (b) To promote professional integrity and honourable

practice, and generally to promote honourable relations in the profession. (c) To obtain information and to consider and discuss all subjects and questions connected directly or indirectly with the art, science, and professional practice of Architecture. (d) To support and protect the status of architects and of surveyors practising in, or in the vicinity of, the city of Liverpool, and for that purpose to confer with and advise public bodies and others on all matters affecting the interests of the profession, and, if necessary, to take active means to protect such interests. (e) To establish and maintain a library of architectural books and a collection of designs, prints, and other articles of interest to the profession. (f) To advance and encourage professional study by organising classes for study, competitions for prizes to be given by the Society, and the delivery of lectures, and by such other means as may be thought expedient.

The Society consists of two classes of members—*via*, Fellows and Associates. The Fellows are architects or surveyors who have attained the age of twenty-eight years, and who for not less than three years have been engaged as principals in professional practice. The Associates are persons who have attained the age of twenty-one years, and are engaged in the study or practice of Architecture or Surveying. There are also honorary classes for Honorary Fellows and Honorary Associates and a class for Students.

The Society has a Library and Reading Room which is open daily for the use of the members and students.

The Education Committee this year offer for competition to the students and members of the Society, whose age does not exceed thirty years, a Travelling Studentship, value £30. The subject is a design for a Guildhall for a local site, the drawings to be submitted by 28th February 1906.

Sessional Meetings are held from October to April inclusive. The Annual General Meeting is held in April.

EDUCATIONAL FACILITIES IN LIVERPOOL

University of Liverpool: Architectural School.—Complete details of the scheme of education in operation appeared in the JOURNAL R.I.B.A., 3rd Series, Vol. II., pp. 601, 635. This scheme has been in existence, with complete success, for eleven years. Four years ago a Degree scheme was started at the University, and a student can now obtain a degree (B.A. with Honours) in which a knowledge of architecture is combined with a knowledge of general subjects (JOURNAL, Vol. VIII., p. 217). The School is under the direction of Professor C. H. Reilly [A.], M.A. Cantab., Reader Professor of Art. Its Architectural Studio is arranged to meet the wants of two classes of students—(1) those already engaged in architects' offices as pupils and

assistants; (2) those who, intending to become architects, wish to pass through a course of architectural training before entering an architect's office.

For the latter class there are three courses open:—

(a) The *three years'* course leading to the degree of B.A., with Honours in Architecture.

(b) The *two years'* course, at the end of which the College certificate is granted to successful students. Students who receive a first-class certificate are exempt from the R.I.B.A. Intermediate Examination. The Chairman of the R.I.B.A. Board of Examiners acts as External Examiner in the College final examination.

(c) A *four years'* course leading to a certificate carrying with it the certificate of the Board of Architectural Education, the first two years' work in which is similar to that of the two years' course (b), and the last two consists of attendance at special times, while the student is engaged in office work, and the production under direction of a series of designs.

The leading architects of Liverpool have agreed to shorten the term of pupilage and reduce the ordinary premium for students who have been awarded the University certificates or have taken their degree. The courses are framed to prevent the waste of time which ordinarily results when a student enters an office without any previous knowledge of drawing, building construction, and the elements of architectural design.

A. THE DEGREE SCHEME.—Candidates for the B.A. degree are required to pass:

(a) The *Matriculation Examination* of the University in five subjects: (1) English Language and English History, (2) Mathematics, (3) Latin, (4) Elementary Mechanics, (5) one of the following: Greek, German, French.

(b) The *Intermediate Examination* for the ordinary degree (after attendance on courses approved for that examination) in three subjects, one of which must be selected from each of the following groups: (1) Greek, Latin, French, German, Italian; (2) Ancient History, Modern History, English Literature; (3) Pure Mathematics, Applied Mathematics, Physics.

Final Examination.—Candidates are required to present (a) an Architectural Design, under conditions to be specified from time to time, of a subject prescribed before the last day of March in each year by the examiners; and (b) measured drawings of a building approved by the Professor of Architecture, accompanied by a written and illustrated thesis on the building and on cognate work. The measured drawings and thesis must be sent in to the Dean not later than the first day of June next preceding the examination. Copies of the measured drawings are to be deposited with the University. The examination will consist of: (1) Design; (2) Oral examination; (3) History of Early Christian and Medieval Architecture (one paper); (4) History of Classical and Renaissance Architecture (one paper); (5) Construction and planning of buildings (two papers); (6) Two of the following: Applied Mechanics (one paper), Drawing, Modelling, Decorative Design, Art and Theory of Painting, Art and Theory of Sculpture. In any of the five last-mentioned subjects candidates may be required to

give evidence of proficiency in a manner to be prescribed by the examiners in writing the subject for the Architectural Design. In the Art and Theory of Painting and the Art and Theory of Sculpture candidates are also required to present a thesis on some School of Painting or Sculpture to be previously approved by the Professor of Architecture, and to present certificates of attendance upon approved courses in these subjects. Theses must be sent in to the Dean not later than the first day of June next preceding the examination.

Attendance in the subjects of the School is prescribed as follows: five hours a week during the first year, fifteen during the second, and fifteen during the third.

B. THE TWO YEARS' COURSE.—The two years' course includes freehand and architectural drawing and design, construction, and building materials and sanitation, the history of ancient, mediæval, and renaissance architecture, perspective and scenography, applied mechanics and graphic statics, specification and contracts.

C. THE FOUR YEARS' COURSE.—The first two years of this course are identical with the two years' course (B.).

D. LECTURES AND CLASSES.—Students and assistants, already engaged in offices, and others may join any of the lectures and classes which form part of the regular curriculum.

A scheme for a Pass Degree in Architecture is under consideration.

In all cases students are requested to consult with the professor before starting on any course of study. Students taking the three years' course leading to a degree are obliged, and students reading for a two or four years' course are strongly recommended, to pass the Matriculation Examination before commencing their course. The Matriculation examination exempts students from the literary portion of the Preliminary Examination of the Royal Institute of British Architects.

These courses provide for about thirty hours a week each session; students can also work in the studio in the evenings.

All lectures are followed by a class in the studio, in which exercises are set bearing on the subjects lectured upon. The lectures are illustrated by lantern slides, drawings, and photographs.

The following lectures will be delivered:—

HISTORY OF ARCHITECTURE (COURSE FOR 1904-5) (Wednesday, 10.0-11.0).
Autumn Term.—Greek and Roman mouldings and details; evolution and description of Greek buildings; their materials and construction; temple planning.—*First Term.*—Roman buildings; their plans, materials and construction; their development and decline. The early Renaissance in Italy.—*Summer Term.*—The Renaissance in Italy, France, and England; its development and changes exemplified by the principal buildings erected.

HISTORY OF ARCHITECTURE (COURSE FOR 1905-6) (Wednesday, 10.0-11.0).
Autumn Term.—The evolution of Christian architecture, and the Byzantine work in the East and in Italy. The development of painting, and the constructive reasons which led to the universal adoption of the pointed arch.—*First Term.*—Romanesque and Gothic architecture in France, England, Germany, and Italy; a comparison of the plans, proportions, and details of the work of the different countries.—*Summer Term.*—The details and parts of English Gothic buildings; their plans, mouldings, and carving; their construction and design in piers, arches, doorways, windows, towers, spires, &c.

SEVENTH CLASS.—All lectures on Architectural History are followed by a class for sketching from the lecture diagrams.

BUILDING MATERIALS AND CONSTRUCTION (FIRST YEAR) (Monday, 10.30-11.30).
Autumn Term.—Brickwork and masonry; concrete and mortar; walls, foundations, openings, arches, chimneys, and materials.—*First Term.*—Carpentry, slating, tiling, and external plumbing; joints, centres, floors, partitions, roofs; and the materials, timber, slates, tiles, lead, and zinc.—*Summer Term.*—Joinery: joints, doors, windows, skylights, lanterns, staircases, panelling; and the materials.

BUILDING MATERIALS AND CONSTRUCTION (SECOND YEAR) (Friday, 10.30-

11.30). *Autumn Term*.—Iron roofs; soils and foundations; fireproof floors, hollow walls, and prevention of damp in buildings, damp courses, cement and rough cast; stone and concrete stairs; and the materials, iron, lime, cement, concrete, &c. — *Leat Term*.—Plastering, painting, glazing, and the materials; shoring, under-pinning, and planing. — *Summer Term*.—Internal plumbing, heating, ventilation, drainage, and specifications. *Note*.—These lectures in both years are arranged to coincide with the design of small buildings executed by the student in the studio.

SEMINARIALS AND CONTRACTS (SECOND YEAR) (Tuesdays, 10.30-11.30). Autumn and Leat Terms.

DEMONSTRATIONS OF BUILDING MATERIALS AND TOOLS (FIRST YEAR).—Given every Tuesday morning at 10.30-11.30 in the Autumn and Leat Terms.

PERSPECTIVE AND SCIOGRAPHY (FIRST YEAR) (LECTURE AND CLASS) (Thursday, 2.0-4.0). Leat Term only.

STRUCTURE AND DETAILS OF TIMBER (SECOND YEAR), for Degree Students (LECTURE AND CLASS) (Thursday, 2.0-3.0). Leat Term.

DAY DESIGN CLASS (FIRST AND SECOND YEARS).—At this class the designs of students are hung up and publicly criticised by the Professor.

ARCHITECTURAL SOCIETY.—A voluntary society of the students has been formed which meets at regular intervals during the term to read papers, to visit buildings of interest, and to hold small competitions in design, for which the Professor gives an annual prize. Members have the privilege of attending the meetings and lectures of the Liverpool Society of Architects.

Two evening design classes are held—one elementary, the other advanced—in the Autumn and Leat terms.

THE MANCHESTER SOCIETY (INCORPORATED).

[Province: Cumberland, Westmorland, part of Lancashire, and part of Cheshire. Centre: Manchester.]

Secretary:

Arthur S. Brevin, Canada Chambers, 36, Spring Gardens.

The Manchester Society of Architects (originally founded in 1865, and consisting exclusively of architects who at the time of their election had been in practice at least three years) was reconstructed in 1891 and incorporated under Section 23 of the Companies Act 1867 as a limited company, the articles of association bearing date the 16th June 1891. The objects are:—

a. To support and protect the character, status, and interests of architects practising in, or in the vicinity of, Manchester, and to promote personal acquaintance and good feeling between members of the Society. b. To establish and maintain an acknowledged Code of professional practice and charges, &c. c. To advance and encourage professional knowledge and study in the younger members of the profession by the foundation of classes for study, competition for prizes given by the Society, delivering of lectures and other means. d. To obtain and consider information respecting competitions and all other matters affecting the profession, &c. e. To afford mutual assistance by advice and mediation in case of misunderstanding between members, or between members and their employers or those employed under them, and in any other way to promote honourable conduct in the profession generally. . . . g. To establish, form, and maintain a library or other collection of architectural works, and to acquire, by purchase or donation, books, designs, drawings, and other articles of interest in connection with the profession.

The members consist of Fellows, who have been engaged in practice at least five years, and who are entitled to use the affix F.M.S.A.; Associates, who are at least 23 years of age, engaged in the study or practice of Architecture as a profession, and who are entitled to use the affix A.M.S.A.; Students, who are under 23 years of age and are engaged in the study of Architecture either as assistants or pupils.

The Society possesses a Loan and Reference Library, containing some six hundred volumes, which is open to students, other than members, on certain conditions. Senior and Junior Classes in Design, open to members whose professional studies have not exceeded ten years, are held by the Society.

The Students' Committee have made arrangements to hold meetings of Student members of the Society during the Session 1905-06, when Papers on various architectural subjects will be read.

The Society offer prizes in connection with the summer sketching visits, to be competed for by draughtsmen and architectural students under 25 years of age. The Society also offer prizes to M.S.A. Students at the Manchester School of Architecture whose work is most successful and satisfactory to the Council.

The Education (in Architecture) Committee offer in the coming session to architectural students connected with the Society a prize, value £5 5s., given by Mr. John Holden, for the best design for the Court of Approach to a Government Building. A prize of £5 5s. is offered by Mr. J. W. Beaumont for measured drawings and sketches, and a prize of £3 8s. by the President for an Architect's Note-book.

Prizes are offered to students in the classes of preparation for the R.I.B.A. Examinations whose work in the classes is most successful and satisfactory to the Council.

The Council meet every month, and General Meetings of the Society are held every three months. The Annual General Meeting is held in April.

*. The names of members of the Royal Institute in the foregoing list are printed in small capitals; and, except when otherwise stated, all the addresses are in Manchester.

EDUCATIONAL FACILITIES, MANCHESTER DISTRICT.

The Manchester School of Architecture, established pursuant to arrangements made between the Owens College, the Manchester Municipal School of Technology, the Municipal School of Art, and the Manchester Society of Architects. Professor S. H. Capper, M.A. (A.), *Director*.

The following courses have been arranged:—

1. *History of Architecture* (Monday and Thursday, 5.15 to 6.15).—A general survey of architectural history from ancient to modern times, with special reference to the evolution of styles and to constructional forms and methods. The course includes: Ancient Egypt and Assyria; Greece; Rome; Byzantine and Early Christian Architecture; Renaissance; Gothic; Baroque.

2. *Renaissance and Modern Architecture* (Tuesday and Wednesday, 5.15 to 6.15).—The rise of the Italian Renaissance; the architecture of the Renaissance in Italy, Spain; Plateresque and Greek-Roman; Late Gothic and Transition architecture in France; the efflorescence of the sixteenth century; the early Renaissance and later styles. English Transition work; the monuments of the sixteenth and early seventeenth centuries; Inigo Jones; Sir Christopher Wren; the eighteenth century. Modern work, especially in France and England.

3. *Elements of Architecture* (Thursday, 2 to 5).—The classical orders. Greek and Roman, their mouldings and details; arading, moulded and puffed; public mouldings and details, their construction and design; elements of architectural effect; composition and style.

4. *General Art History*.—Sculpture; painting; the industrial arts. The complete course covers two sessions. For Session 1903-04.—Sculpture: Ancient Egypt and Greece; The Renaissance.

5. *Architecture: Domestic, Public, Ecclesiastical*.—The complete course covers two sessions.

6. *Architectural Drawing and Design*.—Studies of the orders; render, etc. with pen and brush. Elementary and advanced design.

7. *Technical Drawing and Modelling*.

Candidates for the Degree in Architecture are required to take the following classes, which are arranged to give complete preparation for the R.I.B.A. Final Examination :

Junior Year.—(1) History of Architecture; (2) Elements of Architecture, with the Drawing Class in connection; (3) Freehand Drawing. Candidates are recommended to take also:—(4) Architectural Design; (5) Mathematics (if not already taken); or (6) Applied Mathematics (if not already taken); (7) Descriptive Engineering (Earthwork, Masonry, Timberwork, Foundations, &c.).

Senior Year.—(1) Renaissance and Modern Architecture; (2) Architecture, Domestic, Public, and Ecclesiastical; (3) Designing; (4) Freehand Drawing; (5) Modelling. Candidates are recommended to take also:—(6) Art History; (7) Applied Mathematics; (8) Theory of Structures. Optional (for candidates desiring to take the subject):—(9) Surveying.

Final Year.—(1) Architecture, Domestic, Public, and Ecclesiastical; (2) Theory of Structures (if not already taken); (3) Testing Laboratory Course; (4) Designing; (5) Freehand Drawing; (6) Modelling; (7) Art History; (8) Sanitation.

The Special Courses, held at the Municipal School of Technology, include (in addition to a Junior Course) the R.I.B.A. course in Architecture, Building Construction, under the direction of Professor Capper and Mr. A. E. Corbett [A.]. These courses are arranged in co-operation with the Manchester Society of Architects, and are intended expressly for Architects' Pupils, Improvers and Assistants desirous of presenting themselves for the R.I.B.A. Intermediate Examinations, and in preparation for the final grade of Associate, the "Testimonies of Studies" required by the R.I.B.A. being prepared in this course.

The courses extend over one Session of three terms, and are as follows:—

COURSE I.—PLANE AND SOLID GEOMETRY (Lecturer: Mr. W. Leister).—Plane Geometry applied to Actual Work: Definition of Terms; Projection and Interpenetration of Solids; Isometrical Projection; Development of Surfaces.

COURSE II.—BUILDING CONSTRUCTION (Lecturer: Mr. W. Leister).—Nature, Qualities, and Defects of Ordinary Building Materials; Calculation of Strength of Materials and Resistance; Elementary Principles of Construction; Details of Construction.

COURSE III.—ARCHITECTURE (Lecturer: Mr. A. E. Corbett [A.]).—The Orders of Greek and Roman Architecture: their Origin, Development, and Application; The Several Varieties of Classic Ornament; The Characteristic Moldings and Ornaments of each Period of English Architecture from A.D. 1000 to A.D. 1500; Outlines of Mediaeval and Renaissance Architecture in Europe. In this course the "Testimonies of Study" will be prepared under Mr. Corbett's direction.

Second year students take Professor Capper's course on "Elements of Architecture."

In addition to the above courses instruction is given at the Manchester Municipal School of Art in designing, drawing, painting, and modelling, more especially in the various forms of their decorative application in association with

Architecture, &c. The teaching staff includes Mr. R. Glazier [A.], Head Master, and eight assistant masters and teachers. Two lectures weekly are given on the following subjects:—

Freehand drawing of ornament; Model drawing; Perspective; Geometrical drawing; Practical plane and solid geometry; Elementary modelling in clay; Light and shade; Preparatory antique drawing; Anatomy; Figures composition; The principles of ornament; Design in its technical applications; Plants in their relation to design; Historic ornament; History of painting.

Two lectures on Architecture are delivered by Mr. A. E. Corbett [A.] weekly, of which the following is a synopsis:—

The Orders of Architecture; Early Greek temples and their proportions; Later Greek Architecture; Roman Architecture and the use of the arch; Roman temples, amphitheatres, and basilicas; Domestic Architecture of the Romans; Byzantine Architecture—St. Sophia, the churches of Ravenna and Venice; Colour in relation to Architecture; Romanesque Architecture; English Gothic Architecture: The development of vaulting, window tracery, &c., and planning; The Gothic style in the rest of Europe; English and French cathedrals; Renaissance Architecture in Rome, Florence, Venice, France, and England; Mouldings and their enrichments.

A class for Architectural Design will be held on Monday evenings to work out the following subjects:—

- I.—City Gateway.
- II.—Assembly Room.
- III.—Chapel for a Convalescent Home.
- IV.—Design and Decoration of a Board Room of a Shipping Company in competition for the Heywood Prize (selected students only).

Complete arrangements exist for Drawing and Modelling from the Life. The School Museum contains a good collection of casts of French Gothic Architecture selected from the examples in the Trocadéro, Paris, and of Assyrian, Greek, and Roman Architecture, some fine examples of monumental Italian Architecture, and a large collection of decorative objects. Students may attend the School of Art every day from 9 to 12.30, and from 1.30 to 4, for an inclusive fee of £7 for the session of three terms; lower fees in proportion to the number of attendances daily or evening.

Bury Municipal Technical School.—Instruction is given at moderate fees in freehand and model drawing, shading from the cast, perspective, principles of decorative art and design, historic ornament architecture, modelling in clay, drawing from the antique, wood-carving and painting from life, still life, and flowers. There are also classes in practical plane and solid geometry, building construction and drawing, carpentry, joinery, and woodwork, builders' quantities, plumbing. (Mr. Robert Wilkinson, B.A., *Principal*.)

Blackburn Municipal Technical School.—In addition to a full curriculum of drawing subjects, this School offers

instruction in advanced perspective, principles of ornament, historic ornament, principles of architecture, architectural design, and the history of architecture. Courses of instruction are given in elementary and advanced building construction, and students are prepared for the Board of Education Honours examination in the same subject; also in sanitation, graphic statics, builders' measurements, brickwork and masonry; carpentry and joinery; practical electricity, the best methods of lighting buildings.

Accrington Municipal Technical School.—At this School there are classes and lectures in theoretical mechanics, applied mechanics, building construction, geometry and mathematics, and art classes (including designing and architectural draughtsmanship), all under the control of the Board of Education.

Todmorden.—The Borough Education Committee have established Science, Art, and Technological classes, where instruction is given in all branches of drawing, in mathematics, practical plane and solid geometry, electrical engineering, chemistry, mechanics, wood-carving, &c. Clerk to the Governors: Mr. James Whitehead.

THE NEW SOUTH WALES INSTITUTE (INCORPORATED).

Victery's Chambers, 82, Pitt Street, Sydney.

Hon. Secretary:

Arthur William Anderson, 9, Bridge Street, Sydney.

The Institute of Architects of New South Wales, which was originally founded in 1871, was reconstructed in 1890, and formed into a corporate body with limited liability under section 54 of the Companies Act 1874, with the following among other objects:—

a. To represent generally the views of the profession; to preserve and maintain its integrity and status; to suppress dishonourable and unprofessional conduct or practices. b. To afford means of adjusting professional differences, and to decide all questions of usage or courtesy in connection with the profession. c. To promote good feeling and friendly intercourse among the members. d. To watch over, protect, and promote the interests of the profession generally. e. To increase the confidence of the public. f. To acquire, form, and maintain an art and scientific library and museum. g. To encourage the study of the profession by articled pupils, and, with a view thereto, to give prizes and rewards.

There are three classes of members, viz. (1) Fellows, who must have attained twenty-seven years of age, and been in practice as architects for at least five years; (2) Associates, who must be engaged in the study or practice of Architecture, and not less than twenty-one years old; (3) Honorary Members—persons of eminence in art, science, or literature, and others, who may be able to render assistance in promoting the objects of the Institute. A code of "Professional Practice and Charges," based upon that of the Royal Institute, but adapted to the different conditions of the colony, was adopted in General Meeting on the 12th August 1890. The Annual General Meeting is held the third Wednesday in October.

Officers and Council.

THE NORTHERN ASSOCIATION.

[Province: Northumberland and Durham. Centre: Newcastle.]

Hon. Secretary:

Arthur B. Plummer [F], 13, Grey Street, Newcastle-on-Tyne.
W. A. Chamberlin, Assistant Secretary.

The Northern Architectural Association was instituted in 1858, and the rules and constitution were revised in 1885, and again in 1894. The objects of the Association, as stated in the new rules, are to promote union amongst the members; the elevation of the profession of Architecture; the establishment of uniformity of practice and professional charges; and the general advancement of the art and science of Architecture. There are 225 members in the Association, consisting of four classes, viz.: Members—architects in practice as principals, or as town or county architects, who have so practised for not less than three consecutive years immediately preceding their nomination; Associates—architects not yet eligible as Members, or assistants (over twenty-one years of age) in the offices of gentlemen eligible as Members or Associates; Students—persons engaged in the study of Architecture in the offices of gentlemen eligible as Members or Associates, and shall not exceed the age of twenty-one years, except when they are still pupils and exceed that age; and Honorary Members—gentlemen eminent for distinguished attainments recommended by the Council; Members and Associates only have the right to vote. Prizes are offered by the Association for the best set of drawings, or "Testimonies of Study," required from Probationers, Students, and others, preparing for the Intermediate and Final Examinations of the Royal Institute of British Architects; also for other sketches or essays, &c., and a Travelling Studentship of the value of £10 a year. There is a Students' Sketching Club and Class in connection with the Association, and a library. The session commences the first week of November of each year; and meetings, at which Papers are read and professional questions discussed, are held in each month up to and including March of the following year. The Annual General Meeting is held in March.

Officers and Council.

EDUCATIONAL FACILITIES IN NEWCASTLE

Armstrong College, Newcastle.—The College has arranged classes for architectural students, with Mr. R. P. S. Twissell [J.] as teacher. These classes will meet in the evenings. Architecture and architectural design form the two main divisions into which the work falls. The classes are under the immediate supervision of Mr. W. H. Knowles, F.S.A. [F.], and Mr. Arthur B. Plummer [F.] (Hon. Secretary Northern Architectural Association), while the Committee includes also Mr. H. C. Charlewood and Mr.

F. W. Rich [F.]. Classes in building construction are held by Mr. J. P. Allen, P.A.S.I., and there are also classes in freehand, perspective, and all other subjects of art instruction. Lectures on Materials are given in the Engineering Department, where there is a 100-ton testing machine for testing materials of construction. The classes are arranged to meet the requirements of the R.I.B.A. and of the Board of Education.

Rutherford College, Bath Lane, Newcastle-upon-Tyne.—Courses of lectures on building construction are delivered in four stages—1, 2, 3, and Honours. There are also classes in practical plane and solid geometry, theoretical and applied mechanics; carpentry and joinery; brickwork and masonry; manual instruction in woodwork and metalwork. The Art Department includes drawing—elementary, intermediate, and advanced courses; drawing, modelling, and design with relation to architecture; lectures on the history of architecture; principles of ornament and perspective.

Elswick Works Technical School.—This School has courses of building construction, elementary and advanced; and instruction is given in freehand and model drawing, perspective, architectural drawing, the principles of ornament, &c.; practical plane and solid geometry, mechanics, and mathematics. A new Institute has just been completed, and greater accommodation and facilities for study provided for the students. Mr. Robert Wills, B.Sc., Head Master.

THE NOTTINGHAM SOCIETY.

(Province: Nottinghamshire, and part of Lincolnshire, including Lincoln.
Centre: Nottingham.)

Hon. Secretary and Treasurer:

W. Brandreth Savidge [A.], Woodland Buildings, 52, Long Row
Nottingham.

The Nottingham Architectural Society was instituted in 1862, and its rules were revised in the year 1888. The objects of the Society are the promotion of union and professional integrity amongst its several classes of members; the establishment as far as possible of uniformity of practice; and the general advancement of Architecture and the various arts and sciences connected therewith. The members consist of three classes, viz., Members—architects

engaged as principals not less than two years; Associates—architects not eligible as Members, architects' assistants, and articled pupils; and Honorary Members—gentlemen distinguished for their attainments. Three General Meetings are held during the year, viz., in the first week in November, the first week in February, and the last week in March, besides Special General Meetings which may be convened at any time. The Annual General Meeting is held in April.

EDUCATIONAL FACILITIES IN NOTTINGHAM.

Nottingham University College—An Architectural Course has been arranged at the University in conjunction with the Nottingham Architectural Society and the School of Art. It is designed for youths of about sixteen years of age who have just left school and intend to become architects. The curriculum extends over two years, and affords a scientific and technical training intended to prepare young men to enter an architect's office. The instruction comprises work in the drawing-office, lecture-room, and workshops from October to July in the first year, and from October to April in the second year. Practical instruction is also given in the

college workshops during the months of July and September. Students are recommended to make arrangements beforehand, so that they may enter an architect's office in the October following the satisfactory completion of their first year's course. The subjects dealt with cover part of the ground for the progressive Examinations of the Royal Institute of British Architects. A student who has passed the second year's course satisfactorily is recommended to present himself for the Intermediate Examination in order to be registered as a *Student R.I.B.A.* The first year's course embraces mathematics, mechanics, physics, drawing and practical geometry, building construction, and workshop practice at the College; freehand drawing, perspective, and Architecture at the School of Art. From October to April the second year students are engaged during every afternoon in an architect's office, and in the forenoon at the College and the School of Art. The subjects taken up at the College are: mathematics, solid geometry, building construction and nature of materials, strength of materials and graphic statics, workshop practice, land surveying and levelling. At the School of Art: freehand drawing, architectural details, including ornaments and mouldings, &c., history of architecture. Time-tables are arranged for these systematic courses of instruction in the Engineering Department at University College, so that the student's time is fully occupied. Composition fee for the whole course of day and evening classes:—First year, 26 per term; second year, 41 per term; summer term, 23 3s. Examinations are held at the end of each session, on the results of which College Certificates are awarded, as well as prizes offered by the Nottingham Architectural Society. The College also provides an architectural course for evening students as follows:—*Elementary Course*: Practical plane and solid geometry, elementary building construction, elementary mechanics, carpentry and joinery. *Advanced Course*: Advanced building construction, plumbing, heating and ventilation, strength of materials and graphic statics, and workshop practice.

THE SHEFFIELD SOCIETY.

[Province: Derbyshire, Northern Lincolnshire, and part of South Yorkshire.
Centre: Sheffield.]

Hon. Secretary.

James E. Wigfull [A.], 14, Parade Chambers, East Parade, Sheffield.

The Sheffield Society of Architects and Surveyors was founded in 1886, for the advancement of the profession of architect and surveyor; for promoting and facilitating the acquisition of a knowledge of the various arts and sciences connected therewith, and the education of the junior members thereof; and for the consideration of questions of professional practice. The members consist of five classes:—Fellows, Associates, Students, Honorary Members, and Lay Members. The Fellows are practitioners who have been engaged as principals for not less than five years in their profession; the Associates are principals or assistants, over twenty-one years of age; the Students are articulated pupils; the Honorary Members are persons distinguished for their connection with Art and Science; the Lay Members are gentlemen not practising but interested in Architecture or Surveying, and not following any of the building trades. Papers are read, and professional questions discussed, on the second Thursday in each month from October to April, both inclusive. Classes are held for the study of specific subjects under regulations framed by the members of each class, subject to the sanction of the Society's Council. The Annual General Meeting is held in April.

EDUCATIONAL FACILITIES IN SHEFFIELD.

Sheffield Technical School of Art, Arundel Street.—The syllabus includes all art classes, both elementary and advanced. Students can qualify to become teachers, pictorial or decorative artists, sculptors, illustrators, &c. Art and technical classes are also held for the systematic training of pupils in various trades and crafts, silver-smithing in all its branches, enamelling on metals, embroidery, painting and decorating, wood carving, &c. The school possesses a fine library containing many valuable works on art, together with a fine collection of architectural casts, electrotypes, and a loan collection from the Victoria and Albert Museum, South Kensington.

Department of Applied Science, University of Sheffield.—At this institution full courses of instruction are given to day students in civil engineering, including lectures on surveying, supplemented by field practice and the use of instruments. There are also evening classes for the study of building construction and allied subjects, and separate classes are held for elementary, advanced, and honours students.

THE YORK SOCIETY.

[*Province*: The greater part of the North Riding and the Parliamentary Division of York. *Centre*: York.]

Hon. Secretary:

Frank Raney, 30, Stonegate, York.

The York Architectural Society was founded in 1882, the objects being to afford facilities for the study of Architecture, sanitary engineering, and other subjects identified with the architectural profession; and to advance the professional interests of the members. It is endeavoured to carry out these objects by means of (1) Papers and discussions upon all subjects and questions connected directly and indirectly with Architecture; (2) A lending library of standard works on Architecture and cognate subjects; (3) The advancement and encouragement of professional knowledge and study in the younger members of the profession by the foundation of classes for study and the award of prizes for satisfactory work; visits to works in progress, and to buildings ancient and modern; sketching, and such other methods as may be determined from time to time. Further, by supporting and protecting the character and uniformity of practice of the profession, and promoting personal acquaintance and good feeling between the members and honourable conduct in the profession generally. The members consist of three classes, viz., Members—architects who have been in practice more than two years, or hold chief public appointments; Associates—students of Architecture, assistants, or others in the profession who are not eligible as Members; Honorary Members—gentlemen distinguished for their attainments, and those who have an indirect interest in Architecture, or in some of the collateral arts and sciences. The Annual General Meeting is held in April.

CITY OF YORK EDUCATION COMMITTEE.

York School of Arts and Crafts, St. Leonard's Place; York Technical Classes, Clifford Street; and York Railway Institute, Queen Street.—At the above-named schools instruction is provided, by means of lectures and classes, in geometrical drawing, perspective, principles of ornament, freehand drawing, model drawing, drawing in light and shade,

historic ornament, architecture, architectural design, anatomy, design, drawing and painting from the antique, drawing and painting from the life, memory drawing from common objects, memory drawing from plants, memory drawing from the antique, modelling from life, heads, and whole figures, modelling from the antique, modelling design, painters' and decorators' work; also in mathematics, applied mechanics, building construction, brickwork, masonry, carpentry, joinery, wood carving, &c.
Secretary: Mr. C. G. Rushworth, Education Offices, York.

THE EXAMINATIONS (ARCHITECTURE).

QUALIFYING FOR REGISTRATION AS PROBATIONER AND STUDENT, AND FOR CANDIDATURE AS ASSOCIATE.*

THE Royal Institute of British Architects desires to obtain for all those entering the profession a systematic course of education tested by progressive examinations, the passing of which forms the primary qualification for admission to its class of Associates. By careful preparation on the proper lines, a youth, even before entering an office, may acquire enough of the rudiments of professional education to submit to an examination testing his capacity for the career of an architect; and if he pass it, he may then follow a continuous series of studies, in accordance with a definite programme, thereby laying a foundation of artistic and scientific knowledge upon which to cultivate any natural gifts and develop any aptitude for invention or design he may possess.

The Examinations are in three stages: I. *Preliminary* [see p. 302]; II. *Intermediate* [see p. 306]; and III. *Final* [p. 310], qualifying for the grade of Probationer, Student, and Associate respectively. They have been so arranged as to induce the gradual development of artistic and scientific powers—to secure a systematic training in the art and science of Architecture from the entry into an office until the commencement of actual practice. They afford guidance in professional studies, and opportunities for testing at well-marked intervals the progress made. A minimum standard of knowledge may be thus attained by all who enter the profession, serving as a basis for further studies essential to the fuller development of architectural ability.

I. The *Preliminary Examination* (Written and Graphic) is to test the general knowledge of candidates in ordinary subjects of school education, and subjects of a technical character, such as Elementary Mechanics and Physics, Geometrical Drawing, Perspective, and Freehand Drawing from the Round. Exemption from attending this Examination is granted to applicants who submit satisfactory drawings, and certificates from well-known educational bodies. A youth who is thus officially exempted or who passes the Preliminary Examination is registered as a *Probationer* of the Royal Institute of British Architects.

* See Sections 20 and 21 of Charter, and By-law 2.

II. The *Intermediate Examination* (Written, Graphic, and Oral) is to test the Probationer's progress in Architecture, while engaged as pupil, improver, or assistant in an office. During the period following his registration as a Probationer he has to prepare nine sheets of carefully finished drawings, with an illustrated memoir. If these "Testimonies of Study" be approved, and if he afterward pass the *Intermediate Examination*, he is registered as a *Student* of the Royal Institute of British Architects, and his name and address are published in the Register of Students in the KALENDAR [p. 181].

III. The *Final Examination* (Written, Graphic, and Oral) is to test the Student's further progress. The work to be done by the Student, and submitted by him before entering, necessitates good draughtsmanship and an acquaintance with ancient edifices, or other well-known executed works, to be gained by actual measurement of them. It requires a knowledge of Design and of the practical details of Construction, which latter can be best obtained by personal experience of buildings in progress. The "Testimonies of Study," with the concurrent work of preparation for this Examination, should occupy the Student not less than three years; and no one can be admitted to it under the age of twenty-one years, although in most cases it will probably be found desirable that he should have attained the age of at least twenty-two before presenting himself. If the Student pass, he becomes qualified for candidature as *Associate* of the Royal Institute of British Architects, and receives notification thereof. In the event of any Student failing to pass the *Final Examination* within four years of having passed the *Intermediate*, his name will be removed from the Register of Students, unless the Council are satisfied that good cause exists for allowing it to remain.

The Examinations are held by the Board of Examiners (Architecture) in June and November, or at such other times as may be appointed by the Council, and due notice thereof is given in the KALENDAR, the JOURNAL, and the Professional Papers.

The Testimonies of Study are examined by the Board, who decide whether an applicant shall be admitted.

The subjects for examination are distributed among individual members of the Board, who set the questions, examine the drawings and papers, and assign the marks in each subject.

The Oral Examinations are conducted by the Board, three members of which, being Examiners, form a quorum.

Moderators to superintend the Examinations are appointed by the Board from those Associates who have been admitted after examination under By-law 2, or who have passed the old Voluntary Examination in the Class of Proficiency. Their functions are to distribute the question papers; to take care that no assistance is given by one examinee to another, and that (except themselves) no persons hold communication with the examinees during the hours of examination; to allow no books to be used (except such as may be specially permitted); to verify the work produced in the room by each examinee; to see that the proper number is affixed thereto, and to hand over such productions to the Secretary of the Institute each day, and generally to see that the instructions of the Board are fulfilled.

The Board report to the Council the results of the Examinations, and the names of those who pass are published in the JOURNAL.

The Testimonies of Study are returned, but no drawings or answers produced in the presence of the Moderators are given up.

[For particulars of the *Special and Colonial Examinations*, see pp. 332, 333; *Statutory Examinations*, pp. 335, 338.]

ADVICE TO CANDIDATES.

I. *The Preliminary, qualifying for PROBATIONER.*—The subjects comprised in this Examination are those in which proficiency should be attained by the applicant before entering an architect's office, and it is desirable that special attention be given to them before he leaves school.

Clear and well-formed handwriting, correct spelling, grammar, and punctuation are indispensable.

Powers of observation and of graphic description, facility of composition and lucidity in the expression of ideas, should be sedulously cultivated, as being of the utmost value in the prosecution of further studies and in the work of later years.

Arithmetic, algebra, and plane geometry should be familiar to the applicant, and a knowledge of their application in the solution of simple problems in elementary mechanics and physics should be acquired.

The geography of Europe and the history of England from the Norman Conquest to the end of the Tudor dynasty should be well studied, regard being had to the connection between the history of the country and its Architecture.

A good knowledge of Latin or of one modern language is essential and of two modern languages very desirable.

A clear understanding of the Continental metrical system will also be useful.

Geometrical drawing and the elements of perspective are indispensable subjects of study, and should receive particular attention: while freehand drawing with rapidity and precision from the cast and the antique, and sketching with accuracy, should be carefully cultivated. Reasonable proficiency in these subjects is of the first importance.

II. *The Intermediate, qualifying for STUDENT*.—The first aim of the *Probationer* should be to acquire facility and accuracy in the geometrical and perspective drawing of architectural subjects, commencing with the Orders and the several periods of Mediæval Architecture, drawn out to a large scale and from figured dimensions.

This course should be followed by careful study of the ornament appropriate to each style, the enrichments of the mouldings being drawn full size, and sketched and measured, as far as possible, from actual work. A general knowledge of mouldings and details having been thus acquired, their practical application should be matured by making fully figured drawings of them, with details full size.

The elementary principles of Classic and Mediæval Architecture may be gleaned from the books mentioned on pp. 309 and 313.

The course of study necessitates the continuous use of a note-book (large quarto), in which important passages of the books under study should be written down in the *Probationer's* own words, and freely illustrated by careful sketches from all available sources (notes on one page, sketches on the opposite page); and the subjects, being systematically arranged, might be further illustrated by notes and sketches from other books and authorities. A sketch note-book—to be freely and continually used—should be the inseparable companion of the *Probationer*.

The drawing of set subjects from memory is a most useful exercise, impressing on the mind the general proportions and harmony of the several parts of the details. The art of accurately sketching plans, elevations, sections, features and details, from memory, should therefore be sedulously cultivated. Such a system of study proves of the greatest service, not only at the time of examination, but afterwards in actual practice.

The study of the scientific subjects in the programme should be followed out in a similar manner, knowledge of details of construction being acquired, as far as possible, by

actual measurement of work. Formulas for calculating the strength of beams, columns, &c., should be worked out, and the results compared with actual experience. The careful study of plane geometry as applied to actual work, and the acquisition of a thorough knowledge of the projection of solids and development of surfaces, are essential.

The admission of the *Probationer* to the Intermediate Examination will depend on the satisfactory execution of the Testimonies of Study, which are not to be considered merely as samples of drawing, although good drawing is required, but should be evidence of study of the subject represented. In all cases where it is possible to obtain the information, the jointing of both wood and stonework must be shown. Any additional information as to materials used and methods of construction should be given, and attention be called by notes or sketches (or both) to any peculiarities, and the reason for them explained. Different kinds of materials may be indicated by colour. Wherever possible, the subjects illustrated must be from old examples, and should be measured from the actual building; when the example is copied from any published drawings, the authorities from which the information is obtained should be stated, and it is desirable to add the date of erection of the work. An inside as well as an outside elevation of a door or window should be shown; and when, in consequence of the size of the subject chosen, space will not admit of this, half the elevation may be outside and half inside, or, if the subject be very elaborate, half of each may be in block. It is recommended that the Orders should be from an actual building, in which case a column of not less than about 18 feet in height may be shown. Some mouldings full size should be given, and they may form a separate sheet or sheets, and, if necessary, may be on a double-elephant sheet, folded. All drawings of ornament should have a section showing the projection, and, if not full size, should be figured or have a scale. Where possible, information is to be given as to its source, position in the building, and material in which it is executed, and notes as to how these have influenced its design or execution. To show that the design has been studied, a small scale sketch (perspective or elevation), with plan and, if necessary, sections, which may be in skeleton only, may be added, so that the relation of the part shown to the whole design may be seen. The written memoir must be prepared with care and neatness, and the illustrative sketches be well and accurately drawn.

III. *The Final, qualifying for candidature as Associate.*—The principles of study recommended for the Intermediate apply equally to the Final Examination.

Reading to be of permanent value should be supplemented by the taking of copious notes, fully illustrated by careful sketches, and by the collection of information under various heads from different authorities. Combined with the study of the best accessible examples of old work, the habit of accurately sketching Architecture in plan, elevation, detail, ornament, and construction, especially from memory, should be assiduously cultivated, eye, brain and hand being brought into common harmonious action.

When a knowledge of detail has been thoroughly acquired, the *Student* should take up the study of the general principles of design in both plan and elevation, and of the combination of parts to produce an effective and well-proportioned composition.

The *Student* should also master the principles and practice of the preparation of contract and working drawings and specifications, and of the control of actual work; he will thus qualify himself to deal with the ordinary and many of the difficult problems which arise in the designing and carrying out of modern buildings. He should miss no opportunity of visiting buildings in course of erection.

As in the Intermediate, the admission of the *Student* to the Final Examination will depend on the sufficiency and excellence of his Testimonies of Study; poor composition, careless or imperfect execution, lead to disqualification.*

The books mentioned [p. 318] will provide the *Student* with necessary information, but he is urged to take every opportunity to consult other standard works in the Library.

The *Student* having passed the "Final" will have shown himself to be possessed of a solid groundwork of knowledge, on which he may proceed with those more advanced studies in Design and Construction, proficiency in which will qualify him to engage in successful practice as an architect.

I. THE PRELIMINARY EXAMINATION:

To Qualify for Registration as Probationer R.I.B.A.

Examinations of persons intending to follow the profession of Architecture are held by the Royal Institute of British Architects, and some of the non-Metropolitan Societies allied to the Royal Institute, twice a year, in the months of June and November, in accordance

* For a further description of what is required in the Testimonies of Study, see preceding page.

with the particulars given on the official form.* Except for those who have passed certain Examinations (hereinafter specified), this Preliminary Examination embraces the following subjects, particulars of which are given in the Time-table, p. 304: I. Short English Composition. II. Writing from Dictation. III. Arithmetic, Algebra, and Elements of Plane Geometry. IV. Geography and History. V. Latin, Italian, French, or German: one language to be selected by the applicant. VI. Geometrical Drawing or Elements of Perspective: either subject to be selected by the applicant. VII. Elementary Mechanics and Physics. VIII. Freehand Drawing from the Board.

Persons preparing to follow the profession of Architecture who have passed any of the following Examinations:—The Matriculation Examination at any University in the British Empire, the Senior or Junior Honours Local Examinations conducted under the authority of any University in the British Empire, the Examinations held under the Central Welsh Board, the Examinations for the First Class Certificate of the College of Preceptors, or such other Examinations as may be satisfactory to the Board—are exempted from submitting themselves for examination in the first, second, third, fourth, fifth, and seventh subjects; but Candidates of having passed such Examinations only exempt applicants in the subjects covered thereby.

The following Certificates from the Science and Art Department are accepted as exempting from Subjects VI., VII., and VIII.:—

From Subject VI.—A first class in *both* the Science and Art Examinations: Geometrical Drawing (Subject 1a) and Perspective (Subject 1c)—Elementary Stage.

From Subject VII.—A first class in the two Science and Art Examinations: Subject 6, Theoretical Mechanics, A, Div. 1, Solids; B, Div. 2, Fluids—Elementary Stage.

From Subject VIII.—A first class in the Science and Art Examinations Subject 3b (Outline Drawing of Ornament from the Cast)—Advanced Stage.

An applicant claiming exemption from sitting in the first five and the seventh subjects, who submits, with his application and the evidence required in support of his claim for exemption, drawings (not exceeding four) which show his acquaintance with "Geometrical Drawing" or the "Elements of Perspective," and with "Freehand Drawing," is further exempted from examination in the sixth and eighth subjects, should his drawings be considered satisfactory by the Board of Examiners.

All drawings submitted by applicants claiming exemption must be delivered flat, in a portfolio 30 inches by 22 inches.

The carriage of the certificates, drawings, &c., to and from the office of the Royal Institute, and all expenses incidental thereto, must be defrayed by the owners. They will be delivered on demand to any person authorised by the owner to receive them, but the Royal Institute will not incur any expense in returning them. Due care will be taken of such drawings, certificates, &c., but the Royal Institute will not be responsible for any loss of or damage to them while they remain in its keeping. Partially exempted applicants are required to remove their certificates, drawings, &c., immediately after the examination; and those who are wholly exempted, on receiving notice of such exemption.

Every applicant desirous of qualifying for Registration as Probationer R.I.B.A., whether he claim exemption from submitting himself

* To be obtained at the office of the Institute, and also from the Allied Societies.

for examination or not, must make an application on the official form,* to be filled up as directed thereon, and to be accompanied by an admission fee of two guineas, which will be returned should the application be refused. If approved, the Secretary of the Royal Institute communicates in due course with the applicant in reference to the place at which he is expected to attend for the Examination. In the case of applicants claiming exemption, the evidence they have to submit in support of the claim must accompany their applications.† Applicants unsuccessful at their first sitting may present themselves again within twelve months without further fee; should they then fail to pass, a fresh fee must be paid for each subsequent attempt.

Relegated candidates who fail to obtain half marks at a subsequent examination will not be allowed to sit again for their relegated subjects only, but will be required to take the whole examination.

The Time-table for the Preliminary Examination to be held in London, and at some of the non-metropolitan centres in the United Kingdom, during November 1905 and June 1906 is as follows:—

TUESDAY, 7th November 1905 and 12th June 1906. Morning.

Hours. Subjects.		S.A. of Marks.	
10.0-11.0.	I. SHORT ENGLISH COMPOSITION.—Simple subjects will be given to test the candidate's powers of observation and description	40	
11.0-11.50.	II. WRITING FROM DICTATION.—A short passage from some standard English author will be given. Clear and well-formed writing, with accurate spelling and correct punctuation, should be aimed at	20	
11.50-1.30.	III. ARITHMETIC, ALGEBRA, AND ELEMENTS OF PLANE GEOMETRY.—The questions in arithmetic will include the first four rules, simple and compound proportion, and vulgar and decimal fractions, and will include such as have a practical bearing on the candidate's future work. The Algebra will include the elementary rules, with simple equations, and the use of symbolic and factors. In the Elements of Plane Geometry, a knowledge of the first two books of Euclid will be required, and of the subjects treated therein	100	
1.30-2.30.	INTERVAL.		
2.30-4.0.	IV. GEOGRAPHY AND HISTORY.—Short questions will be set to test the candidate's knowledge of the geography of Europe, especially the British Isles, and of the prominent events in English History from the Norman Conquest to the end of the Tudor period	60	
4.0-5.30.	V. LATIN, ITALIAN, FRENCH, OR GERMAN (ONE LANGUAGE ONLY).—One to be provisionally selected by the candidate. Short easy passages for translation into English will be set, with a few simple grammatical questions.	80	

* To be obtained at the office of the Institute, and also from the Allied Societies.

† Science and Art and South Kensington Examination Cards, with the exception of the Certificates specified on the preceding page, and ordinary certificates below the third grade not being required, it is particularly requested that such documents may not be sent.

WEDNESDAY, 8th November 1905 and 15th June 1906.

Hours.	Subjects.	Maximum No. of Marks.
10.0-1.30.	VI. GEOMETRICAL DRAWING, which will include the construction of scales, and the delineation to scale of some simple plan or elevation of a building; or ELEMENTS OF PERSPECTIVE, which will include simple problems in perspective. One of these two subjects to be previously selected by the candidate.....	80
1.30-2.30.	INTERVAL.	
2.30-3.30.	VII. ELEMENTARY MECHANICS AND PHYSICS.—Simple questions will be set on the resolution and composition of forces, the mechanical powers, centre of gravity, &c..... The questions will not be such as to involve any trigonometrical calculations.	80
3.30-5.30.	VIII. FREEHAND DRAWING FROM THE ROUGH.—Some simple subject.....	40
		<hr/> 500

* * The Questions set in June 1905 are printed on p. 315 *f*.

The results of these Examinations, whether held in London or at non-Metropolitan Centres, are reported to the Council by the Board of Examiners, who recommend as to the fitness of applicants for registration as Probationers, and return the names of those who pass in alphabetical order. On the approval by the Council of such recommendations, the name of every successful applicant is forthwith entered on the Register of Probationers of the Royal Institute of British Architects, and published in the JOURNAL; and he receives in due course a notification that he has been registered as Probationer.

A Probationer, on successfully passing the Intermediate Examination (to be passed by Probationers who have attained the age of at least 19 years), is qualified for registration as *Student R.I.B.A.*; and his name and address are then inserted in the KALENDAR of the Royal Institute of British Architects.

Every Probationer *R.I.B.A.* has the privilege of using the Library and Loan Collection of Books.

The following books are suggested as certain to be useful to a young man intending to follow the profession of architect, both before and after the period of his pupillage. Gwilt's *Encyclopædia of Architecture*, new edition, 1888, in which will be found concisely treated almost every subject comprised within the Programme of the Examination, should be in the hands of every architectural pupil; from his entry into the profession it will be of the greatest service to him, and become in later years a valuable book of reference. *The Dictionary of Architects* should be referred to by the pupil for information under each subject. *Hart's Architectural Surveyors' Handbook*, *Spon's Architects and Builders' Price Book*, and *Laxton's Builders' Price Book* will be found of service to the pupil at all stages.

II. THE INTERMEDIATE EXAMINATION:

To Qualify for Registration as Student R.I.B.A.

Examinations (Written, Graphic, and Oral) of Probationers are held by the Royal Institute, and some of the non-Metropolitan Societies allied thereto, twice a year, in the months of June and November, in accordance with the particulars given on the official form.*

A Probationer R.I.B.A., who has attained the age of at least 19 years, and who is desirous of qualifying for registration as Student R.I.B.A., must make an application on the official form,† to be filled up as directed thereon; and to be accompanied by an admission fee of Three Guineas, which will be returned should the application be refused. He must also send with his application Testimonies of Study as hereinafter set forth, accompanied by a certificate from a member of the Royal Institute, or other person of recognised position, that the Probationer is a proper person to be admitted to the Examination, and that the Testimonies of Study he submits are his own work.

The Examination, which is known as the Intermediate, embraces the following subjects:—

1. Classic Ornament. 2. The Characteristic Mouldings and Ornaments of each Period of English Architecture from A.D. 1000 to 1550, with their Application. 3. The Orders of Greek and Roman Architecture: their Origin, Development, and Application. 4. Outlines of the History of Medieval and Renaissance Architecture in Europe. 5. Theoretical Construction: Stress, Strain, and Strength of Materials. 6. Descriptive Geometry: the Projection of Solids. 7. Elementary Applied Construction: the Nature and Use of Ordinary Building Materials.

Probationers who have attended the full course at the School of Architecture, University College, London, and have obtained the College Certificate; or have attended the two years' course at King's College, London, and have obtained the College first-class certificate; or have attended the full course in Architecture at University College, Liverpool, and have obtained a first-class certificate at the College Final Examination; or have obtained either a first class in the Terminal Examinations of the Final year or have passed a University degree Examination in Architecture at the Victoria University, Manchester, may be exempted from sitting for this Intermediate Examination and be admitted as Students R.I.B.A., provided that the work done by them during the Session be submitted to and approved by the Board of Examiners as Testimonies of Study.

A First-class Certificate in the Elementary stage of the Science and Art Department Examination in Subject I. (Practical Plane and Solid Geometry), together with two sheets of studies illustrating the intersection of solids, will be accepted as exempting a candidate from sitting in Division VI. (Descriptive Geometry: the Projection of Solids), but he will be required to undergo an oral examination with respect to the two sheets of studies. The certificate mentioned must be forwarded to the Secretary at the time of making the application.

Applicants unsuccessful at their first sitting may present themselves again within twelve months without further fee; should they then fail to pass, a fresh fee must be paid for each subsequent attempt.

* To be obtained at the office of the Institute, and also from the Allied Societies.

† In the case of Probationers registered prior to the 31st December 1886, the admission fee is Two Guineas only.

The Testimonies of Study* required from Probationers R.I.B.A. must consist of nine sheets of drawings (half double elephant, i.e. 27 inches by 20 inches), neatly and carefully finished; and the sheets 1 to 6 must be accompanied by a written description, illustrated by sketches. The subjects of the nine sheets of drawings must be as follows:—

- 1 and 2. Two sheets, giving examples (one on each sheet) of any two of the Orders of Architecture here named—the Doric, the Ionic, or the Corinthian—drawn in outline, with the ornament and enrichments filled in; each sheet to contain two columns of one Order with entablature complete, drawn to scale (the columns being not less than 10 inches high on the paper), and details to three times the scale of the columns.
3. One sheet of details of Classic Ornament from the round.
- 4 and 5. Two sheets, containing examples (one on each sheet) of any two of the Periods here named—the Early English, the Decorated, or the Perpendicular—such as a door, a window, or an arcade, in plan, elevation, and section, with details of mouldings and ornament relating to such examples.
6. One sheet of Mediæval Ornament—freestone drawing from the round.

A concise description, giving such particulars as may be accessible, of the building or buildings from which the several subjects are taken, with the dates of erection and other details, illustrated by sketches of plan, general elevation, &c., and written on foolscap paper, on one side only—the whole to be the work of the Probationer's own hand.

* It is desirable that some of the drawings submitted should be from actual measurement by the Probationer.

Probationers R.I.B.A., who are Architectural Students of the Royal Academy are permitted, in lieu of the Testimonies of Study Nos. 1 to 6 above specified, to submit for the approval of the Board of Examiners their work done in and for the Royal Academy School, provided that the drawings so submitted comprise studies applicable to paragraphs Nos. 4 and 5, whether prepared for the Royal Academy or otherwise.

7. One sheet containing diagrams of timber-framed Roof Truss, not less than 30 feet span, with the nature of the strain on the several parts marked thereon, the ironwork and the junctions of the timbers drawn to a scale of one inch and a half to the foot, in isometrical projection and dissociated.
8. One sheet showing the construction of Floors—Framed timber, combined iron and timber, and fire-resisting materials, suitable for a room 30 feet by 20 feet, drawn to a scale of half-inch to the foot.
9. One sheet of details of Joiner's Work in doors, windows, and fittings, shown in plan, elevation, and section, to a scale of one inch to the foot; with details, to a large scale, of mouldings and framing.

* Each of the nine sheets must be carefully finished as a complete work. They must be delivered flat, in a portfolio 30 inches by 22 inches.

Drawings prepared in the Architectural Association Day School by Probationers R.I.B.A. may be submitted by such Probationers in

* In order to test the Probationer's knowledge of what he has drawn and described in his "Testimonies of Study," they are brought up at the Oral Examination, when he is required to answer questions respecting them.

tion of the Testimonies of Study above set out, and if the work be approved by the Board of Examiners, the candidates will be admitted to the Examination.

A certain number of marks (not exceeding ten) will be allocated to each sheet of Testimonies of Study, and allotted at the oral examination by the examiners taking the several subjects.

If the Testimonies of Study submitted by the Probationer be approved by the Board of Examiners, he will receive intimation from the Secretary as to the place at which he is expected to attend for the Examination. The carriage of the Testimonies of Study, Notebooks, Sketchbooks, Descriptions, &c., to and from the office of the Institute, and all expenses incidental thereto, must be defrayed by the owner. They will be delivered on demand to the owner or to any person authorised by him to receive them, but the Royal Institute will not incur any expense in returning them. Due care will be taken of such Testimonies of Study, Sketchbooks, Notebooks, Descriptions, &c., but the Royal Institute will not be responsible for any loss of or damage to them while they remain in its keeping.

The Intermediate Examination, to be held during November 1905 and June 1906, and to be passed by Probationers whose Testimonies of Study before described have been approved, consists of Written, Graphic, and Oral Work, the Time Table for which is as follows:—

THURSDAY, 7th November 1905 and 12th June 1906.

Hours. Subjects.	Maximum No. of Marks.
* 10.0-11.30. I. Classic Ornament	50
11.30-1.30. II. The Characteristic Mouldings and Ornament of each Period of English Architecture from A.D. 1000 to A.D. 1550, with their Application.	75
1.50-2.30. INTERVAL.	
2.30-4.0. III. The Orders of Greek and Roman Architecture, their origin, development, and application.	50
4.0-5.30. IV. Outlines of the History of Medieval and Renaissance Architecture in Europe.	75
. The papers to be illustrated by some perspective sketches.	
WEDNESDAY, 8th November 1905 and 13th June 1906.	
10.0-12.0. V. Theoretical Construction: Stresses, Strains, and Strength of Materials	75
12.0-1.30. VI. Descriptive Geometry: the Projection of Solids	50
1.30-2.30. INTERVAL.	
2.30-5.30. VII. Elementary Applied Construction: the Nature and Use of Ordinary Building Materials	125
Total number of marks.....	
600	

THURSDAY, 9th November 1905 and 14th June 1906.

Oral Examination on the various Papers and the Testimonies of Study.

. The Questions set in June 1905 are printed on p. 331 *f.*

The results of these Examinations are reported to the Council by the Board of Examiners, who recommend as to the fitness of the candidates for admission as Students, and return the names of those who pass in order of merit. On the approval by the Council of such recommendations the names and addresses of the successful candi-

dates are entered in the Register of Students and published in the JOURNAL and KALENDAR of the Royal Institute; and the candidates receive notification of the fact.

Every Student R.I.B.A. has the right to use the Library and Loan Collection of Books, and the right of admission to the Ordinary Meetings of the Royal Institute; and on successfully passing the Final Examination (to be passed by Students who have attained the age of at least 21 years) he is qualified, subject to the provisions of Section 8 of the Charter, for candidature as Associate.

Books recommended to Probationers.

The following List of Books, which is merely suggestive, must be taken as indicating generally the nature and limit of the course of study to be followed by Probationers:—

Classic Architecture and Ornament.—C. Normand: The Orders.—J. M. March: Die architektonischen Ordnungen.—R. Phené Spiers: The Orders.—C. H. Tatham: Etchings.—L. Valliomy: Ornamental Sculpture.—H. D'Espouy: Classic Ornament.—W. J. Anderson and R. Phené Spiers: Architecture of Greece and Rome.

Gothic Architecture: Mouldings and Ornament.—A. Pugin: Specimens; Examples; Normandy.—R. and J. A. Brandon: Analysis.—J. H. Parker: Glossary of Terms.—J. K. Colling: Details; Medieval Foliage.—Edmund Sharpe: Architectural Parallels; Mouldings.—T. Rickman: The Styles of Architecture in England.—R. Glaister: Historic Ornament.

The History of Architecture.—J. Ferguson: History of Architecture in all Countries.—E. L. Garbett: The Principles of Design (W.S.).—Sir G. G. Scott: Lectures on Medieval Architecture.—Professor Roger Smith and Slater: Classic, Gothic, and Renaissance.—Banister Fletcher: History of Architecture on the Comparative Method.—J. Gaillhabaud: Monuments Anciens et Modernes.—Lübke: Geschichte der Architektur, 8th edit.—A. C. Quatremère de Quincy: Histoire de la Vie et des Ouvrages des plus célèbres Architectes.—D. Bannier: Histoire générale de l'Architecture.—A. D. P. Hamlin: History of Architecture.—W. J. Anderson: Architecture of the Renaissance in Italy.—W. J. Anderson and R. Phené Spiers: Architecture of Greece and Rome.—J. A. Gatch: Early Renaissance in England.

Building Materials and Construction.—H. C. Seldon: Builders' Work.—Notes on Building Construction (Birmingham), Vols. I., II., III.—E. Dobson: Rudiments of the Art of Building (W.S.).—Tredgold's Elementary Principles of Carpentry (J. T. Hurst).—E. Dobson: Foundations and Concrete Works (W.S.).—E. W. Tarn: The Construction of Roofs of Wood and Iron (W.S.).—W. J. Christy: The Joists made and used by Builders (W.S.).—Sir John Anderson: The Strength of Materials and Structures.—W. R. Purchase: Practical Masonry.—J. P. Allen: Practical Building Construction.—C. F. Mitchell: Building Construction.—G. Ellis: Modern Practical Joinery.

Geometry and Projection.—E. Dobson: The Rudiments of Masonry and Stone Cutting (W.S.).—J. F. Heather: Practical Plane Geometry (W.S.).—J. F. Heather: Descriptive Geometry (W.S.).—E. W. Tarn: Practical Geometry.—E. A. Davidson: The Elements of Practical Perspective.

The books above mentioned being principally elementary, the Probationer may with advantage consult such other standard books and more advanced works as may be accessible to him.

* "W.S." signifies *Weale's Rudimentary Scientific Series*.

III. THE FINAL EXAMINATION:

To Qualify for Candidature as Associate R.I.B.A.

Examinations (Written, Graphic, and Oral) of Students of the Royal Institute of British Architects are held by the Royal Institute twice a year, in the months of June and November, in accordance with the particulars given on the official form.*

A Student R.I.B.A., who has attained the age of at least 21 years, and who is desirous of qualifying for candidature as Associate R.I.B.A., must make an application on the official form,† to be filled up as directed thereon; and to be accompanied by a remittance of Four Guineas, which will be returned should the application be refused, and be placed to his credit as his entrance fee should he be elected an Associate within eighteen months from the date of passing the Final Examination. He must also send with his application Testimonials of Study‡ as hereinafter set forth, accompanied by a certificate from a member of the Royal Institute, or other person of recognised position, that the Student is a proper person to be admitted to this Examination, and that the Testimonials of Study he submits are his own work. The admission fee to the Final Examination is Three Guineas for every applicant registered as a Probationer prior to the 31st December 1903, which will be placed to his credit as his entrance fee should he be elected an Associate within the period hereinbefore mentioned. Applicants unsuccessful at their first sitting may present themselves again within twelve months without further fee; should they then fail to pass, a fresh fee must be paid for each subsequent attempt.

The Testimonials of Study required from Students R.I.B.A. are:—

1. A study of Ornament from the round, shaded.
2. A design for a Building of moderate dimensions, such as a detached villa, parsonage, school, local institution, or cottage hospital, to be fully drawn out as working drawings to a scale of not less than one-eighth of an inch to the foot, in plans, elevations, and sections, duly figured and showing construction, drainage, with details of the construction and ornament, and a perspective view.
3. Drawings of some Historical Building, or part of a Building, made from actual measurement, with the jointing of the masonry &c. correctly shown, and the construction; the whole in plan, elevation, and section, carefully figured, with details at least one quarter full size. The original sketches measured and plotted on the spot are to be appended.
4. One sheet of diagrams of Constructive Masonry or Brickwork, such as arches or groined vaults, with the projection of arch and vault stones.
5. One sheet of diagrams of a Roof Truss of iron or steel, not less than 40 feet span, with details in a large scale, with all the calculations for strength at the various parts fully worked out and appended thereto.

* To be obtained at the Institute and from the Allied Societies.

† In order to test the Student's knowledge of what he has drawn and described in his "Testimonials of Study," they are brought up at the Oral Examination, when he is required to answer questions respecting them.

‡ Drawings prepared in competition for the following Institute Prizes—viz. the Scarce Medallion, the Tate Prize, and the Ormsell Gold Medal—may be submitted in place of the drawings enumerated in this paragraph.

The Candidates must also submit sketchbooks, or other evidence of study of buildings and of travel, and satisfactory evidence, with sketches, of having followed the carrying out of building works, and notes of the progress and conduct of such works.

Each of the sheets of drawings (half double-elephant, *i.e.* 27 inches by 20 inches) must be carefully finished as a complete work. They must be delivered flat, in a portfolio (30 inches by 22 inches).

A certain number of marks (not exceeding 10) will be allocated to each sheet of Testimonies of Study, and allotted at the Oral Examination by the Examiners taking the several subjects.

If the Testimonies of Study submitted by the Student be approved by the Board of Examiners, the Secretary of the Royal Institute communicates with him in reference to the place at which he is to attend for the Examination. The carriage of the Testimonies of Study, Notebooks, Sketchbooks, Descriptions, &c., to and from the office of the Royal Institute, and all expenses incidental thereto, must be defrayed by the owners. They will be delivered on demand to any person authorised by the owner to receive them, but the Institute will not incur any expense in returning them. Due care will be taken of such Testimonies of Study, Sketchbooks, Notebooks, Descriptions, &c., but the Royal Institute will not be responsible for any loss of or damage to them while they remain in its keeping.

The Student who successfully passes the Final Examination becomes qualified, subject to the provisions of Section 8 of the Charter, for candidature as Associate of the Royal Institute of British Architects; he receives, in due course, a notification to that effect, and his name is published in the Institute Journal. He is then eligible on certain conditions for the award of the Arthur Cayley Prize (*see next page*), and also for the Ashpitel Prize (p. 313), which is annually presented to the candidate who most highly distinguishes himself in the Final Examinations held during the year.

In the event of any Student failing to pass the Final Examination within four years of having passed the Intermediate, his name will be removed from the Register of Students, unless the Council are satisfied that good cause exists for allowing it to remain.

A Final Examination, to qualify for candidature as Associate, and to be passed by Students whose Testimonies of Study before described have been approved, will be held in November 1905 and June 1906, as follows:—

FRIDAY, 17th November 1905 and 22nd June 1906.

Morning Session.

Examiners
at 10 o'clock.

10.0-1.30. I. Design of a building of moderate dimensions, or a portion of a more important edifice, to be made from particulars given. The drawings to comprise plans, elevation, and section, to a scale of $\frac{1}{4}$ inch to the foot, some details to a large scale, with a sketch perspective. The subject will be communicated in general terms to the Student some days before the Examination.

350

1.30-2.30. INTERVAL.

2.30-5.30. I. Design continued.

SATURDAY, 18th November 1905 and 23rd June 1906.

10.0-1.30. I. Design continued.

1.30-2.30. INTERVAL.

2.30-4.0. I. Design continued.

MONDAY, 20th November 1905 and 25th June 1906.

Hours. Lessons.

Maximum
No. of Marks.

II. The Principal Styles of Architecture: their Features, Mouldings, and Ornament—		
10.0-1.30.	(i) The Characteristic Mouldings, &c., of the special style* selected by the Student ...	125
1.30-2.30.	INTERVAL.	
2.30-5.30.	(ii) The Characteristic Mouldings, &c., of the Principal Styles of Architecture.....	75
The Student will be expected to show a thorough acquaintance with the Style selected, also a competent acquaintance with the details of other Styles.		

TUESDAY, 21st November 1905 and 26th June 1906.

10.0-11.30.	III. The Nature and Properties of Building Materials: their decay, preservation, and quality, and their application in building...	75
11.30-1.30.	IV. The Arrangement and Construction of Buildings, in relation to health. Drainage, water supply, ventilation, lighting, and heating...	75
1.30-2.30.	INTERVAL.	
2.30-5.30.	V. Specifications and Estimating. A specification of the work in various trades. The Measurement and Cost of Building work. The Conditions for Building Contracts. Questions on Professional Practice will be included in this subject.	75

WEDNESDAY, 22nd November 1905 and 27th June 1906.

10.0-1.30.	VI. Construction. Foundations, walls, retaining walls, arches, vaults, floors, roofs, &c.; and constructive details in all trades	100
1.30-2.30.	INTERVAL.	
2.30-5.30.	VII. Construction. Construction in iron and steel. Shoring, underpinning, and dealing with ruinous and dangerous structures.....	125
Total number of marks.....		1,000

THURSDAY, 23rd November 1905 and 28th June 1906, and the following day if necessary.

Oral Examination on the various Papers and the Testimonies of Study.

* * * The Questions set in June 1905 are printed on p. 325 *q.*

The Arthur Cates Prize (Value Forty Guineas).—This Prize is open only to Students, British subjects, who have passed the Institute Final Examination at one sitting. Competitors must enter for the Prize within two years of having passed the Examination. The Prize is awarded to the Student who submits the best set of drawings, as follows:—1. The original "Testimonies of Study" which procured him admission to the Final Examination, provided that such Testimonies have been certified by the Board of Examiners as of sufficient excellence to be admitted into the Competition; 2. Not less than three sheets comprising studies of subjects

* The special styles from which candidates may choose are (A) Classic and Renaissance; (B) Mediæval; no further subdivision is allowed.

of Classical or Renaissance, and of Mediæval Architecture, accurately drawn in perspective and shaded by rule, and also detailed studies of a groined vault of any period between A.D. 1100 and 1600. (For fuller particulars see *Prizes and Studentships pamphlet*.)

The Ashpitel Prize.—This Prize, which consists of books to the value of about £10, is (subject to conditions) awarded annually by the Council to the Student who, in the opinion of the Board of Examiners, distinguishes himself most highly in any one of the Final Examinations held during the year, and whom the Board recommend as deserving of such honour.

Books recommended to Students.

The following list of Books, which is merely suggestive, must be taken as indicating generally the nature and limit of the course of study to be followed by Students:

Mouldings, Features and Ornament. Classic, &c.—C. R. Cockerell: *Temples at Egina and Bassæ*.—F. C. Petrosè: *Principles of Athenian Architecture*.—John Pennellhorne: *The Geometry and Optics of Ancient Architecture*.—Stuart and Revett: *N. Antiquities of Athens*.—Dilettanti Society: *Antiquities of Ionia*.—W. Wilkins: *Magna Græcia*.—H. W. Inwood: *Erechtheion*.—B. Adams: *Palace of Diocletian at Spalatro*.—Wood and Hawkins: *Palmira and Baalbec*.—L. Vulliamy: *Ornamental Sculpture in Architecture*.—W. Salzenburg: *Constantinople*.—Texier and Pullan: *Byzantine Architecture*.—Taylor and Cressy: *Architectural Antiquities of Rome*.—J. M. Mauch: *Die architektonischen Ornamente*.—R. Phené Spiers: *The Orders*.—A. Palladio: *Architecture*.—F. de Durtain: *L'Architecture Lombarde*.—P. Lefarouilly: *Edifices de Rome moderne*.—L. Cicognara: *Le Fabbriche e i Monumenti di Venezia*.—C. Sauvageot: *Palais, Châteaux, Hôtels et Maisons de France du XV^e au XVIII^e Siècle*.—A. Berty: *Renaissance in France*.—C. Daly: *Motifs Historiques*.—G. E. Street: *Brick and Marble*.—Sir G. G. Scott: *Lectures on Mediæval Architecture*.—B. Willis: *Vaulting* (*Transactions R.I.B.A.* 1842).—T. Hickman: *Gothic Architecture*.—J. H. Parker: *Glossary of Terms used in Grecian, Roman, Italian, and Gothic Architecture*.—F. A. Paley: *Gothic Mouldings*.—E. Sharpe: *Decorated Window Tracery*.—Architectural Parallels. —E. S. Prior: *History of Gothic Architecture*.—J. A. Gatch: *Renaissance in England*.—Early Renaissance Architecture in England. —Belcher and Macartney: *Later Renaissance Architecture in England*.—J. Ward: *Historic Ornament*.—G. J. Oakeshott: *Italian Renaissance*.—R. Blomfield: *Renaissance Architecture in England*.—The Vitruvius Britannicus. —G. H. Birch: *London Churches*.—Bamister F. Fletcher: *History of Architecture on the Comparative Method*.—W. J. Anderson and H. Phené Spiers: *Architecture of Greece and Rome*.—H. Tanner: *English Interior Woodwork*.—Inigo Triggs and H. Tanner: *Architectural Works of Inigo Jones*.

Idem, Mediæval.—Bowman and Crowther: *Churches of the Middle Ages*.—Dollman and Jobbins: *Analysis of Ancient Domestic Architecture*.—E. Sharpe: *Architectural Parallels*.—E. E. Viollet-Le-Duc: *Dictionnaire Raisonné de l'Architecture Française*.—J. E. Colling: *Details of Gothic Architecture (and other Works)*.—B. and J. A. Brandon: *The Open Timber Roofs of the Middle Ages*.—J. Gullishand: *Architecture du V^e au XVII^e siècle*.—T. H. King: *Study Book of Mediæval Architecture*.—A. Pugin: *Specimens and Examples of Gothic Architecture*.—Architectural Antiquities of Normandy. —E. J. Johnson: *Specimens of Early French Architecture*.—V. M. C. Roprich-Robert: *L'Architecture Normande aux XI^e et XII^e Siècles*.—A. Choisy: *Histoire de l'Architecture*.

Materials: Their Nature and Application.—G. F. Mitchell: Building Construction: Elementary and Advanced.—H. C. Seddon: Builders' work, and the Building Trades.—Notes on Building Construction (Rivington).—E. Hull: Treatise on Building and Ornamental Stones.—C. H. Smith: Lithology; or, Observations on Stone used for Building (R.I.B.A. TRANSACTIONS, 1842, p. 129).—C. H. Smith: Weight of Building Stones in most General Use (R.I.B.A. TRANSACTIONS, 1859, 60, p. 178).—C. H. Smith: Purbeck and Peasworth Marbles (R.I.B.A. TRANSACTIONS, 1868).—H. Falgout: Portland Cement for Users (W.S.).—H. Reid: A Practical Treatise on Portland Cement; On Concrete and how to make it.—T. Laslett: Timber and Timber Trees; H. Marshall Ward: Timber and some of its Diseases.

Principles of Hygiene and Sanitary Science.—E. C. S. Moore: Sanitary Engineering.—Knight: Annotated Model Byelaws.—Clark: Plumbing Practice.—Health Exhibition Literature, Vols. I, II, and III.—Dr. F. de Chaumont: The Habitation in relation to Health.—Miers and Crosskey: The Soil in relation to Health.—Sir Douglas Galton: Healthy Dwellings.—S. S. Hellyer: Plumber and Sanitary House.—T. E. Coleman: Sanitary House Drainage.—E. A. Parson: Practical Hygiene.—Walter Jones: Heating by Hot Water.—Banister F. Fletcher and H. Phillips Fletcher: Architectural Hygiene.

Strength of Materials and Construction.—T. Box: Practical Treatise on the Strength of Materials.—C. H. Stock: Sliding and Underpinning.—J. Newlands: Carpenter's and Joiner's Assistant.—T. Tredgould: Elementary Principles of Carpentry.—E. W. Tarn: The Science of Building.—Adams: Strains in Ironwork: Practical Designing of Structural Ironwork.—Notes on Building Construction, Vol. IV. (Rivington).—T. Timmins: Examples of Iron Roofs.—W. Griffiths: Trusses of Wood and Iron.—P. Carrigan: Materials and Construction.—G. S. Clarke: The Principles of Graphic Statics.—W. C. Unwin: Testing of Materials.—G. Ellis: Modern Practical Joinery.

Specifications and Contracts.—The London Building Act.—The Metropolis Local Management Act and Amending Acts.—(Knowledge of Specifications must be acquired from office work).—Jenkins and Raymond: The Architect's Legal Handbook.—Schedule of Conditions for Building Contracts, issued by the R.I.B.A.—A. Eruden: Building Leases and Building Contracts.—Dobson and Tarn: Student's Guide to Measuring and Valuing Artificer's Works.—J. Leaning: Quantity Surveying; Specifications.—F. W. Macey: Specifications in Detail; Conditions of Contract.—J. T. Reid: How to Estimate.

Planning and Design.—R. O. Allsop: Public Baths and Wash-houses.—J. B. Denton: Farm Homesteads.—H. Stephens: Farm Buildings.—H. C. Burdett: Cottage Hospitals.—Sir D. Galton: Hospital Construction.—Mott and Snell: Hospital Construction and Management.—E. R. Robson: School Architecture.—F. L. Marks: Principles of Planning.—Felix Clay: Modern School Buildings.

❖❖ For particulars of the Special, Colonial, and Statutory Examinations see p. 332 *sup*.

QUESTIONS SET FOR THE JUNE EXAMINATIONS 1905.

I. THE PRELIMINARY.

Tuesday Morning: three hours and a half.

1. SHORT ENGLISH COMPOSITION.

One hour.

Write a short essay on *one only* of the following subjects:—

1. The importance of exercising self-denial.
2. A summer holiday with special reference to public buildings seen.
3. Architecture in the Tudor period.
4. "If you wish for peace, prepare for war."

[Maximum of Marks: 40.]

II. WRITING FROM DICTATION.

Half an hour.

Write out and punctuate a short passage read by the Examiner.

[Maximum of Marks: 20.]

III. ARITHMETIC, ALGEBRA, AND ELEMENTS OF PLANE GEOMETRY.

Two hours.

Candidates were required to attempt at least one question in each branch of the subject.

1. Find, to the nearest penny, the cost of papering a room 21 feet long by 15 feet broad and 11 feet high, which has two windows, each 9 feet high and 3 feet wide, a door 7 feet high and 3 feet 6 inches wide, and a fireplace 4 feet high by 4 feet 6 inches wide, with paper 27 inches wide at nine shillings a piece, the cost of putting it on being sixpence per piece, and each piece containing 12 yards.

2. Simplify $\frac{1\frac{1}{2} + 2\frac{1}{4}}{2\frac{1}{2} + 3\frac{1}{4}} \div \frac{\frac{2}{3} - \frac{1}{6}}{1 + \frac{1}{24}} - \frac{.06}{.9}$. (Answer in the form of a vulgar fraction.)

3. The strength of iron wire and copper wire may be decided by the numbers 5.86 and 4.14 respectively. If 27.854 is the greatest weight that can be supported by an iron wire, find approximately the greatest weight that can be supported by a similar wire of copper.

4. Divide $ab(x^2 + y^2) + xy(a^2 + b^2)$ by $ax + by$.

5. If $a = 0$, $b = 2$, $c = 4$, find the numerical value of

$$3a + (2b - c^2) + \{a^2 - (2a + 3b)\} + \{3a - (2a + 3b)\}^2.$$

6. Solve the following equation: $4acx - 6bcd = 12dx + abc$.

7. If from the ends of a side of a triangle there be drawn two straight lines to a point within the triangle, these shall be less than the other two sides of the triangle, but shall contain a greater angle.

8. To a given straight line apply a parallelogram which shall be equal to a given triangle, and have one of its angles equal to a given rectilineal angle.

9. Divide a given straight line so that the square on one part may be equal to the rectangle contained by the whole line and the other part.

[Maximum of Marks: 100.]

Tuesday Afternoon: three hours.

IV. GEOGRAPHY AND HISTORY.

One hour and a half.

Answers were not required to more than six of the questions, viz. three in each section, A and B.

SECTION A.

1. What do you understand by *peninsula*, *isthmus*, *delta*, *table-land*, *tidal harbour*, *glacier*? Give an example of each from European geography.
2. Where in the British Isles are the following industries carried on?—Cotton manufacturing, hardware manufacturing, flax growing, hop growing. In each case give, if you can, some special reason why the industry is conducted in that locality.
3. Respecting one main line of railway in Britain (a) trace its course, giving its approximate length in miles; (b) name the chief towns, and industries which it serves.
4. Name the position of each of the following towns, and state for what it is noted:—Dundee, Limerick, Marseilles, Rotterdam, Odessa, Palermo, Valletta.
5. Draw an outline map of Ireland or Italy, showing the chief physical features, and the position of six large towns.

SECTION B.

1. Explain the circumstances under which the representatives of the towns first had a place in Parliament.
2. Write short notes on three of the following:—John's quarrel with the Pope, the battle of Lewes, the Confirmation Cartarum, the Reformation.
3. Give an account of three of the following:—Sir William Wallace, John Wiclif, Warwick the King-maker, Cardinal Pole.
4. Explain by what right Henry IV. and Henry VII. respectively claimed the Crown, and state fully the circumstances under which each succeeded in obtaining it.
5. Trace the principal events in the reign of Henry VIII. before the fall of Wolsey.

[Maximum of Marks: 60.]

V. LATIN, FRENCH, OR GERMAN.

One hour and a half.

Candidates were to attempt only one language—Latin, or French, or German—as previously selected.

LATIN.

Translate *one only* of the following passages:—

A. Indi, qui crassum arctis incolant, et si nulla erant et nova

animalia in suis finibus, equorum genus nondum cognoverunt. Hi igitur quum primam bellum gesserunt cum Hispanis, qui ex equis plerumque pugnavant, nova spectacula quam maxime territi sunt. Equum enim cum suo equite unum animal putabant. Primo impetu hanc ob causam ab equilibus perturbati sunt, brevi tamen, quod copae sunt multo plures erant, praelium renovabant. Denique quidam ex Hispanis, cuius equus a funditore vulneratus est, super caput animalis effusa est. Is igitur pedes pugnavit. At Indi, ubi ex uno animali duos hostes viderunt, perterriti terga verterunt.

B. Hanc vidit, et visam patris velociter anserit :

Regnaque caerulea in sua porta equis.
Illa quidam clamabat, " In, carissima mater,
Auferor," ipse suos abscederatque sinu.
Fanditur intorea Dei via: namque diurnum
Lumen inausciti vix patiuntur equi,
At chorus aequalis, cumulat florae caestria,
" Persephone," clamant, " ad tua dona veni."
Ut clauda silet, tacentes uulnibus implent;
Et ferunt morsa pectora nulla manu.

GRAMMATICAL QUESTIONS.

1. Decline in the singular, *leceus apus*; and in the plural *ille rex* and *haec femina*;
2. Write in Latin, 16, 27, 106, 1215, 11th, 57th, 98th, twice, one-fourth.
3. Give the principal parts of *attingo*, *caveo*, *diligo*, *extraho*, *hortor*, *nascor*, *nubo*, *parco*, *repino*, *sperno*.
4. Write in Latin sentences exemplifying the use of *ex*, *ex*, *de*, *sub* (one sentence for each of these words).

FRENCH.

Translate *one only* of the following passages:—

- A. Hoche cependant était lui-même dans une situation très critique; derrière lui et autour de lui tout le pays était hostile à son armée et à sa cause: il fallait faire venir des vivres de loin sous escorte; les arrivages étaient lents, et plus ses troupes grossissaient en nombre, plus les difficultés de les nourrir étaient grandes. Les soldats se répandirent de nouveau dans les campagnes pour y vivre à discrétion et s'abandonnèrent au pillage et à toute sorte de crimes. Hoche, épuisé, les congédia dans le camp dont il leur interdit de franchir l'enceinte. Pénalisés alors par les privations au murmure et à la révolte, les soldats se mutinèrent; Hoche accourut, et marchant rapidement à l'un des plus mutins, il le frappa de son sabre et comprima la rébellion.

- B. Je n'ai plus d'appui sur la terre;
Je suis errant, abandonné;
Mon seul espoir était mon père,
Et les combats l'ont moissonné!
Mais avec orgueil je m'écrie:
Il tomba fidèle et vaillant!
Ah! secourrez le pauvre enfant
Du soldat mort pour sa patrie!

An malheur son destin me livre,
Et j'implore en vain la pitié;
Quand le brave a cessé de vivre,
Serait-il si tôt oublié?
Songez, vous que ma voix supplie,
Qu'il mourut en vous défendant!
Ah! secourrez le pauvre enfant
Du soldat mort pour sa patrie!

GRAMMATICAL QUESTIONS.

1. Give the feminine of *bon; trompeur, public, franc, empereur*; and the plural of *dropeau, portail, feu, travail, grand-père, arc-en-ciel*.
2. Explain the difference in use between the *imperfect* and the *past definite* (or *preterite*). Write in French sentences in illustration.
3. Write out (a) the third person, singular and plural, of the present and past definite (simple tense) indicative of *jeter, naître, savoir, mourir*; (b) the past participles, masculine singular and feminine plural, of *acquiescer, associer, devoir, s'avancer*.
4. Give the French for 19, 75, 40th, *Henry VIII., June 1st, three hundred and fifty men, the 17th page of the book*.

GERMAN.

Translate *one only* of the following passages:—

- A. Eine arme Frau kam einmal zu Friedrich dem Grossen mit der Bitte, dass er einen ihrer zwei Söhne, die bei der Armee waren, freigebe. Der König versprach ihr, in einigen Monaten einen derselben zu entlassen. Mit dem Versprechen war aber die Frau nicht zufrieden. "Es wäre doch besser," sagte sie, "wenn Sie mir die schriftlich gäben; man sagt, grosse Herren haben ein kleines Gedächtnis!" Dem König gefiel diese Antwort, und Reichard sagte er: "Kommet morgen früh wieder und holt Euch das Schreibheft." Die Frau sagte, "Nun," fragte der König, "wollt Ihr mir nicht glauben?" "Ja," sagte die Frau, "Sie haben noch nicht einmal nach dem Namen meiner Söhne und dem Regimente gefragt, in welchem sie stehen; wie können Sie denn einen freigeben, ohne zu wissen, wie er heisst und wo er ist?" "Ihr habt wahrlich Recht!" rief er aus und schrieb Alles genau auf, las es ihr vor und fragte: "Ist es so richtig?" "Ja, Majestät," sagte sie, "aber verlieren Sie nur das Papier nicht."

- B. Tiefe Stille herrscht im Wasser,
Ohne Bewegung ruht das Meer,
Und beständig nicht der Schiffer
Glatte Fläche rings umher.
Keine Luft von keiner Seite!
Todesstille fürchterlich!
In der unphosphorischen Welt
Reget keine Welle sich.

GRAMMATICAL QUESTIONS.

1. Decline, in singular and plural, *derjenige*—*Open*; *meine schönste Kunst*; *welches Blatt*.

2. Form diminutives from *Frau*, *Haus*, *Kind*, *Buch*.
3. Give the second person singular of the present, imperfect and perfect indicative, of *schreiben*, *fallen*, *müssen*, *kommen*.
4. Give the comparative and superlative of *klein*, *teuer*, *alt*, *grau*, *jung*.

[Maximum of Marks: 80.]

Wednesday Morning: three hours and a half.

VI. GEOMETRICAL DRAWING, OR ELEMENTS OF PERSPECTIVE.

Questions were to be answered in A or B as previously selected.

A. GEOMETRICAL DRAWING.

1. Inscribe an equilateral triangle in a square.
2. Draw a circle tangential to the two given circles and containing them both.
3. A line A B represents 7 feet 9 inches. Construct a scale reading inches and showing 6 feet.
4. A hexagonal prism lying on one of its rectangular faces is intersected by a plane at an angle of 30° . Draw the section, showing the method.
5. Draw to $\frac{1}{4}$ -inch scale the plan of a staircase consisting of two flights, each 4 feet wide and having a well-hole 1 foot wide between them, the width between the enclosing walls, which are 9 inches thick, being 9 feet. Each tread to be 12 inches in width, and to show a half space the same width as the stairs.
6. Draw to $\frac{1}{4}$ -inch scale the plan of a stable building, the width being 18 feet and the length 30 feet 10 inches, and enclosed with walls 1 foot 2 inches thick. One side of the building to be arranged for six stalls, each stall being 6 feet 6 inches wide and 10 feet 6 inches long, and to have manglers the full width of each stall and 2 feet wide, the divisions between the stalls to be 2 inches thick. The wall opposite the stalls to have a door in the centre 4 feet wide, and a window, 3 feet 6 inches in width, on either side of door. Show a portion of the floor of stable paved with 9-inch by $4\frac{1}{2}$ -inch bricks.

B. ELEMENTS OF PERSPECTIVE.

1. Define and illustrate by sketches:—
(i) Intersecting points. (ii) Angle of vision. (iii) Picture plane.
2. Show by a diagram plan an example where more than two vanishing points would be required in a perspective, the vanishing points to be shown.
3. How would you put in perspective planes which are parallel to the picture?
4. Draw in perspective a portion of a hexagonal pavement, one side of the hexagon to be parallel to the base of the picture.
5. Draw in perspective a square tower each side of which measures 34 feet at the base and 18 feet under the eaves, the height from the ground to the eaves being 42 feet. The roof to be a pyramid 19 feet high from eaves to apex, and the eaves to project 2 feet from face of wall and to have a flat soffit. Each side to have an opening 2 feet 6 inches square immediately under the eaves, and

a door 3 feet wide and 7 feet high to be on one side. The walls of tower to be 2 feet 3 inches thick. The plan and elevation to be set out to $\frac{1}{2}$ -inch scale, and the picture plane to pass through the building.

The finishing points to Questions 4 and 5 to be upon the paper.

[Maximum of Marks: 80.]

Wednesday Afternoon: three hours.

VII. ELEMENTARY MECHANICS AND PHYSICS.

One hour.

Answers were not required to more than six of the questions.

1. Enunciate the proposition known as the parallelogram of forces. Two forces, one of which is 5 lb., act at an angle of 60° , and their resultant is 7 lb. Find the other weight.
2. Explain the construction of a hydrometer. If a quart of water weighs 40 oz., and the specific gravity of petroleum is .88, how many gallons of petroleum will weigh 38.4 lb.?
3. Two men, A and B, of the same height, carry a weight of 120 lb. between them upon a pole 5 feet long, weighing 12 lb., the ends of the pole resting on their shoulders. If the weight is 3 feet from A, find the total weight supported by each.
4. Explain the term *confuser*. A wooden beam, 12 inches deep, 6 inches wide, and 12 feet long, is embedded in a wall at one end. What weight will the beam carry at the other end if the breaking weight of a beam, 1 foot longer, 1 inch broad, and 1 inch deep, supported at the ends and loaded at the centre, is 500 lb.?
5. Draw a system of pulleys with a single string going twice round each of the blocks, and find the force needed to sustain a weight of 1 ton.
6. Describe the construction of an ordinary screw jack with a lever handle and screw. If the pitch of the screw is $\frac{1}{4}$ inch, the length of the lever handle 22 inches, what is the greatest load that can be lifted, neglecting friction, by a force of 10 lb. applied to the end of the lever?
7. Describe the construction of a mercurial thermometer. Draw and describe the maximum, minimum, and differential thermometers.
8. Draw and describe (a) the common pump; (b) the forcing pump. What limits the height to which the water will rise in each case?

[Maximum of Marks: 80.]

VIII. FREEHAND DRAWING FROM THE ROUND.

Two hours.

Hon. Examiner: H. P. DUNN DOWNING.

The candidate was required to make a drawing of a cast of ornament placed before him.

[Maximum of Marks: 40.]

II. THE INTERMEDIATE: QUESTIONS SET AT THE JUNE EXAMINATION 1905.

Tuesday Morning: three hours and a half.

I. THE SEVERAL VARIETIES OF CLASSIC ORNAMENT.

One hour and a half.

Hon. Examiners: { COLE A. ARNER.
E. GUY DAWBER.
W. H. SMITH-SMITH.

1. Give bold sketches of the section, and show the enrichment usually employed upon the following mouldings:—The ovolo, torus, bead, cyma recta.
2. Give bold outlines sketches and description of the different treatment of the acanthus leaf by the Greek and Roman sculptors.
3. Make a plan of the corner of an Ionic entablature, looking up at the underside of it, showing the column which comes at the angle and one each side, so as specially to illustrate the treatment of the volutes on the different capitals as usually adopted by the ancients.
4. Make a sketch of the capital (about three inches high) of a Greek anta, illustrating the usual enrichments.

[Maximum of Marks: 50.]

II. THE CHARACTERISTIC MOUNDINGS AND ORNAMENT OF EACH PERIOD OF ENGLISH ARCHITECTURE FROM A.D. 1066 TO 1550, WITH THEIR APPLICATION.

Two hours.

Hon. Examiners: { ARTHUR MITCHELL.
WALTER MILNER.

Candidates were expected to attempt the first two questions, and not more than two others. The joining was required to be clearly indicated in all answers.

1. Illustrate the application of characteristic mouldings and ornament to an arch springing from solid walling—such as a chancel arch—of the thirteenth, fourteenth, or fifteenth century, stating to which century the work belongs. Draw a large-scale section through the entire arch-mould, just above the springing, with a plan of the jamb below shown in proper relation to the arch-mould, indicating also on plan the abacus outline of a capital.
2. Draw, full size, vertical sections of capital and base to the jamb of the above-mentioned arch; any ornament being further shown sketched in elevation.
3. By a series of four full-size sections illustrate the characteristic moulding of an external stone string-course, about 4 inches deep, in each of the following centuries—viz. the twelfth, thirteenth, fourteenth, and fifteenth.
4. Draw to large scale, in plan, elevation, and section, a so-called cushion capital of the first half of the twelfth century, illustrating clearly how the change in form is effected from the circular plan of the shaft to the square plan of the abacus.

5. Draw, full size, in elevation and section, a characteristic piece of diaper ornament, carved on a wall-surface, of the thirteenth or the fourteenth century, stating to which century it belongs.
6. Sketch a moulded chimney cap, earlier in date than 1550, of either stone or brick; giving also a section through it, to large scale, and stating the approximate date of the work.

[Maximum of Marks : 75.]

Tuesday Afternoon : three hours.

III. THE ORDERS OF GREEK AND ROMAN ARCHITECTURE—THEIR ORIGIN, DEVELOPMENT, AND APPLICATION.

One hour and a half.

Hon. Examiners : { W. FLOREY.
A. C. HOUSTON.

All Candidates were expected to attempt the first two questions, and not more than two others.

1. Sketch to 1-inch scale—omitting all detail, but showing the relative proportions of the principal parts of the entablatures and columns—one bay of a two-storied Roman arcade of the type of the Colosseum. The lower order to be Doric, and the columns to be 2 feet diameter and 10 feet from centre to centre.
2. Give details of either of the orders of the above, including a section of the entablature to 1½-inch scale.
3. Draw the section of a Greek Doric capital, and give sketch of same in perspective looking upwards.
4. Define "abacus," and illustrate and describe the forms appropriate to the Greek and Roman orders.
5. Name the order used in each of the following buildings :—
The Temple of Fortuna Virilis at Rome.
The Temple of Thesmos at Athens.
The Temple of Vesta at Tivoli.
The Temple of Apollo at Marmaria.
The Maison Carrée at Nîmes.
Give some further particulars of any one of these.
6. Define and illustrate :—"In Antia," "Præstyle," "Attic Base," "Basis," "Alcornoque."

[Maximum of Marks : 50.]

IV. OUTLINES OF THE HISTORY OF MEDÆVAL AND RENAISSANCE ARCHITECTURE IN EUROPE.

One hour and a half.

Hon. Examiner : H. F. BURKE DOWNING.

Candidates were not required to attempt more than four questions.

1. Trace briefly the development of architecture in the Eastern and Western Empires in the six centuries from A.D. 300 to A.D. 900.
2. Draw outline plans and, if possible, sections of any well-known Byzantine building erected between A.D. 300 and 900, and add notes as to the dimensions and descriptive of the methods of construction employed.

3. Give a sketch and description of either an Italian civic building or a French domestic building of the Medieval period.
4. Describe the influences under which the Italian Renaissance architecture arose, how it differed in principle from the architecture of the earlier style, and how far it differed in forms and treatment from Imperial Roman architecture.
5. Draw careful sketch plans of the apses of Westminster Abbey and Rheims Cathedral, and describe in what respects the one differs from the other.
6. Name some leading architects in England in the seventeenth and eighteenth centuries, and mention some of their principal works.

[Maximum of Marks: 75.]

Wednesday Morning: three hours and a half.

V. THEORETICAL CONSTRUCTION: STRESSES, STRAINS, AND STRENGTH OF MATERIALS.

Two hours.

Hon. Examiners: { ARTHUR ARMBRIDGE.
MATT. GIBBUTT.

1. What would be a safe load upon a cylindrical column of Baltic fir 6 inches diameter and 6 feet long? Base your answer upon the load per unit of area that you would generally use; the formulas for columns need not be used.
2. State, comparatively, the maximum bending moments upon (1) a beam supported at both ends and loaded with a uniformly distributed load; (2) the same beam similarly supported but loaded with a concentrated load at the centre; and (3) the same beam fixed as a cantilever and loaded with a uniformly distributed load.
3. What is a usual factor of safety for a rolled steel joist used as a girder in an ordinary floor? Using the factor you name, calculate the load that may safely be uniformly distributed upon a rolled steel joist, 16 inches by 5 inches, and having flanges averaging 1 inch thick, with a span of 20 feet.
4. Draw a stress diagram for a king-post roof truss, 26 feet span, with its principal rafters inclined at 30° to the horizontal. The load upon the roof to be taken as $\frac{1}{2}$ cwt. per foot superficial. Show which members are in tension and which in compression, and figure the amount of the stress in each member.
5. What sized fir beam would you use to carry 2 tons distributed over a span of 14 feet?
6. What are the chief physical characteristics of cast and wrought iron respectively? Which would you prefer to use for
(1) A very short and heavy column.
(2) A very long column.
(3) The sides of a deep circular tank.
7. What practical purpose is served by a pinnacle at the outer end of a flying buttress? Make a rough sketch to illustrate your meaning.
8. If you wished to construct a thin partition to prevent the transmission of sound how would you do it? And do you know of any partitions in ordinary use that transmit sound readily? If so, describe them.

9. Give any three of the following—

- (a) Safe load per foot superficial on good blue brickwork in cement.
- (b) Safe load per foot superficial on good stock brickwork in lime mortar.
- (c) Weight of a cubic foot of wrought iron.
- (d) Weight of a cubic foot of stock brickwork.
- (e) Weight of a cubic foot of water.
- (f) Weight of an ordinary London stock brick.

[Maximum of Marks: 75.]

VI. DESCRIPTIVE GEOMETRY: THE PROJECTION OF SOLIDS.

One hour and a half.

Hon. Examiners: { LESLIE WATERHOUSE, M.A.
D. B. STYER.

Answers were to be given on a sheet of drawing-paper.

1. Illustrate four different kinds of arch (not pointed) for masonry over a span of 10 feet, showing the joints. Scale $\frac{1}{2}$ inch to a foot.
2. Draw isometrically, to a scale of 2 inches to a foot, a portion of a double floor, with hinder joists 12 inches by 8 inches, single or bridging joists 7 inches by 2 inches, and ceiling joists 5 inches by 2 inches.
3. A building 24 feet wide has two flank walls, 35 and 42 feet long respectively, at right angles to its frontage. The roof, with a central ridge, has a pitch of 60° , and is hipped at each end at a pitch of 45° . Show how to determine the position and length of the hip rafters. Scale $\frac{1}{2}$ inch to a foot.
4. A pyramid 5 inches high, upon a base 24 inches square, has the top cut off by a plane parallel to the horizontal plane, 2 inches below the apex. The remaining portion is filled until its base forms an angle of 60° with the horizontal plane. Draw the plan and elevation.
5. Two semi-cylindrical vaults, 24 feet and 18 feet respectively in diameter, spring from the same level and intersect at right angles. Draw the plan, and show the method of obtaining the curves of intersection. Scale, one inch to a foot.

[Maximum of Marks: 50.]

Wednesday Afternoon: three hours.

VII. ELEMENTARY APPLIED CONSTRUCTION: THE NATURE AND USE OF ORDINARY BUILDING MATERIALS.

Hon. Examiners: { R. STEPHEN AYLING.
T. DAVIES.

1. Describe and sketch where necessary the following:—(a) Grouting; (b) vissear; (c) offset; (d) gaskin; (e) flying shore; (f) fish plate; (g) dentil; (h) caulker; (i) underpinning; (j) screw cap.
2. Sketch the following joints used in joinery work:—(a) Floughed and tongued; (b) grooved and tongued; (c) rebated; (d) filleted; (e) homed; (f) grooved, tongued and mitred; (g) mitred and rebated; (h) mitre and feather.
3. What weight per foot superficial would you allow on the following floors:—(a) A stable over a cart shed; (b) a bedroom in a dwelling-house; (c) a concert hall; (d) a warehouse? Draw, to the scale

- of 1 inch to the foot, one half-section of any fire-resisting floor when fireclay lintels are employed. Clear span 20 feet. Floor to be covered with oak in narrow widths. Figures all scantlings.
4. What sizes are the following slates:—Princess, Duchess, Countess, Viscountess, and Ladies? Draw, to the scale of 1 inch to the foot, a section through an eaves gutter, showing how the slates are finished and fixed. State the lap you consider sufficient.
 5. Draw, to the scale of $\frac{1}{2}$ inch to the foot, a plan and section of a deal staircase from the ground to first floor of a dwelling-house. Height from floor to floor 11 feet. Clear width between walls 8 feet. No winders to be used. Sketch all details to a larger scale.
 6. What is the technical distinction between a "bressummer" and a "girder"? It is assumed a compound steel girder and steel stanchion are both to be plastered. How would you treat the steelwork to ensure a good ground for the plastering?

[Maximum of Marks: 125.]

III. THE FINAL: QUESTIONS SET AT THE JUNE EXAMINATION 1905.

Friday (six hours and a half) and Saturday (five hours).

I. DESIGN.

Hon. Examiners: (H. SALTER, WORMS,
W. A. PITT.

Subject:—DISTRICT COUNCIL OFFICES on an isolated site. It is suggested that the following requirements can be obtained within an area of 5,200 superficial feet.

First Floor.—

Council chamber, 40 feet by 30 feet, 14 feet high at sides, with seating for 18 members of Council, exclusive of Chairman, Vice-Chairman, clerk, and ten officials.

Two committee rooms, about 20 feet by 15 feet.

Voting lobbies.

Waiting room.

Clerk room.

Principal staircase.

Back stairs to caretaker.

Ground Floor.—

Clerk to Council	General office with strong room, 21 feet by 15 feet.
	Collector's office, 21 feet by 15 feet.
	Council Clerk, 14 feet by 12 feet.
	General office, 16 feet by 15 feet.
Surveyor's Department.	Public office surveyor, 20 feet by 14 feet.
	Waiting room, 11 feet by 7 feet.
	Private office, 14 feet by 12 feet.
	Strong room.
Sanitary Medical Department.	General office, 16 feet by 15 feet.
	Private office, 13 feet by 10 feet.
	Registrar, 16 feet by 15 feet.

Vestibule; hall; principal staircase; stairs to caretaker's rooms in roof.

Lavatories.

Ground floor to be 11 feet high.

The foregoing dimensions are suggested only.

The drawings required are:—

1. Ground plan.

First floor plan.

A front elevation and a side elevation.

One section through building, which shall include the Council chamber.

(All to be drawn to a scale of one eighth of an inch to a foot.)

2. A portion of the front elevation to be drawn to a scale of half an inch to a foot.

3. A rough perspective sketch of the building.

[Maximum of Marks: 350.]

Monday Morning: three hours and a half.

II. THE PRINCIPAL STYLES OF ARCHITECTURE: THEIR FEATURES, MOULDINGS, AND ORNAMENT.

Hon. Examiners: { R. INGELW.
JOHN W. SIMPSON.

Candidates were required to work in the style selected by them.

A.—CLASSIC AND RENAISSANCE.

1. Name the principal characteristics of Roman and Grecian mouldings. Draw some of each approximately full size, and indicate the essential differences of their design in the two styles.
2. Sketch a Grecian and a Roman (a) triglyph; (b) egg-and-dart enrichment; (c) dentil and modillion.
3. Explain with sketches the following terms: Cella, Entasis, Gutter, Corona, Opisthodomus, Peristyle.
4. Draw to $\frac{1}{2}$ -inch scale a doorway between two principal apartments of a public building, the opening to be six feet wide and twelve feet high; thickness of wall two feet six inches. Give plan, elevation, and section. Draw profiles of the mouldings full size, and sketch their enrichments, if any.

B.—MEDIEVAL.

5. Describe and sketch the following:—Lierne, Miserere, Respond, Stoup.
6. Draw to inch scale a gable cross for a church roof, front and side elevations to be given, and the junction with the coping to be shown.
7. Draw to $\frac{1}{2}$ -inch scale a triplet, or three-light window; draw plan, elevation (half outside and half inside), and section; carefully show the jointing of the masonry; give some of the chief details half full size.
8. Draw full size in the Norman, Early English, Decorated, and Perpendicular styles an external wall-string.

[Maximum of Marks: 125.]

Monday Afternoon: three hours.

II. THE PRINCIPAL STYLES OF ARCHITECTURE: THEIR FEATURES, MOULDINGS, AND ORNAMENT (*continued*).

Hon. Examiners: { B. INGHAM.
JOHN W. SIMPSON.

A.—CLASSIC AND RENAISSANCE.

Every Candidate in Division A was expected to give an answer to Question No. 12.

9. Describe, with sketches, the leading features of Byzantine architecture.
10. Give a sketch elevation, about six inches in height, of the Banqueting Hall at Whitehall, or of Bow Church, Cheapside.
11. Draw to a large scale some profiles of cornices suitable for the exterior of a public building.

B.—MIDWATER.

Every Candidate in Division B was expected to give an answer to Question No. 11.

12. Sketch two or three examples of stone or brick chimney shafts.
13. Draw to inch scale the external plinth of a cathedral or abbey church.
14. Draw to $\frac{1}{2}$ -inch scale the principal doorway of a large church; give plan, elevations, and section, and some of the details half full size. The jointing of the masonry must be shown, but the drawings need only be completed sufficiently to show the design.

[Maximum of Marks: 75.]

Tuesday Morning: three hours and a half.

III. THE NATURE AND PROPERTIES OF BUILDING MATERIALS, THEIR DECAY, PRESERVATION, AND QUALITY, AND THEIR APPLICATION IN BUILDING.

One hour and a half.

Hon. Examiners: { H. D. SEARLES-WOOD.
A. H. KERSEY.

Candidates were not expected to attempt more than six questions.

1. What are the materials you would employ in making foundations in the following soils? Give the tests you would apply in selecting each material and the weight per foot super you would put on each site:—(a) peat on the banks of a river, (b) gravel with running sand, (c) wet clay, (d) chalk.
2. What tests do you apply when selecting bricks? To what causes is the presence of fine lime in bricks due? What effect has it on brickwork?

3. What are the chief defects timber is liable to? Give a description of each, illustrated with sketches, and describe the best methods of preventing each.
4. What are the principal divisions into which building stones are grouped? Give a list of three examples of each kind, arranged in order of strength, and the following particulars: (a) colour; (b) weathering; (c) method of dressing; (d) building where used; (e) purpose for which best suited.
5. Give list of roofing materials arranged in order of cost, and the tests you apply in selecting each, the method of laying, and least angle at which they can be laid, and the purpose for which each is best suited.
6. Describe the most suitable materials for flooring the following: (a) Hospital ward; (b) shops; (c) factories; (d) stables; (e) dwelling houses. Give your reasons for selecting each, and the tests you would employ.
7. What is the proper method of applying Sir Angus Smith's solution, and how do you test ironwork coated with it? What other methods of treating metal to prevent rusting are you acquainted with, and for what purposes are they best suited?
8. What is the best treatment for constructional ironwork to prevent rusting—(a) when it will be encased in concrete; (b) when it will be protected with terra-cotta?
9. What are the tests you would specify for Portland cement for the following purposes? Give your reasons for varying the tests in each case: (a) for concrete foundations under water; (b) for reinforced concrete; (c) for cement rendering on brickwork.

[Maximum of Marks: 75.]

IV. THE ARRANGEMENT AND CONSTRUCTION OF BUILDINGS IN RELATION TO HEALTH—DRAINAGE, WATER SUPPLY, VENTILATION, LIGHTING, AND HEATING.

Two hours.

Hon. Examiners: { ARTHUR ASHBIDGE,
F. T. W. GOLLERTH.

Candidates were not expected to attempt more than five questions, but all were to attempt the first.

1. The accompanying plan comprises a town house (not detached), with a stable and coach-house in rear. Show on same how in your opinion the buildings should be drained. It is to be assumed that there is a sewer in the centre of the road in front of the house, also in centre of the roadway of the narrow lane dotted lines on plan.
2. Draw section to $\frac{1}{2}$ scale through wall of house, showing soil-pipe with branches from W.C.'s, &c., also showing how the soil-pipe should be connected with the drain and how finished at the top. It is to be assumed that the house consists of six stories, and that there are W.C.'s in basement and on ground, first, and second floors.
3. Draw section through wall of house to $\frac{1}{2}$ scale, showing waste-pipe, with pipes from baths, lavatories, &c. It is to be assumed that there is a sink in basement, also a lavatory basin on

ground floor, also a lavatory basin and bath on the first and second floors.

4. In building a hospital for infectious diseases how many superficial feet of ward floor space would you allow for each patient; and how many cubic feet of ward space would you allow for each patient?
5. If you were asked to convert an ordinary dwelling-house into a private nursing home what points would you take into consideration in determining which room should be used for the operating room? Having selected the room, what in your opinion would be necessary to be done to render it suitable from a sanitary point of view and otherwise?
6. What are the principal systems of ventilation? State what you know of each.
7. In building a stable with living rooms over, what precautions would you take to prevent the latter becoming contaminated by the *Extrus*?

[Maximum of Marks: 75.]

V. SPECIFICATIONS, ESTIMATING, AND PROFESSIONAL PRACTICE.

Tuesday Afternoon: three hours.

Hon. Examiners: { A. BURNELL BURNELL.
R. J. ASUEL.

1. Write a complete specification in all trades for four ornamental stone gate piers, together with wrought and hammered iron gates for the principal entrance to a gentleman's estate. The central opening for vehicles to be 12 feet wide, and the two side openings for pedestrian traffic to be 3 feet wide each. Give a rough sketch with figured dimensions.
2. Write a specification for a timber-framed dome of an ornamental character, 30 feet diameter, covered with lead. The wall supporting the dome to be of stone.
3. (a) Explain precisely the precautions you would take when preparing the conditions of contract to deal with the possibility of the contractor becoming bankrupt during the progress of the work.
(b) What do you understand by the expressions—"prime cost value" and "allow the sum of —," as contained in a specification? Explain the difference between them.
4. Specify the clauses of external plumbers' work for a well-built residence (say £3,000 to £4,000), the roof being tiled, having gables, dormer windows, lead flats, and bay windows with curved roofs.

Also specify the internal plumbers' work in connection with the baths, scullery and pantry sinks, w.c.'s, and specify the value you would allow for the various fittings.

5. Write the clauses under joiners' work, for a staircase of a moderate-sized hotel, to be executed in hardwood, width 5 feet, and in three flights. The candidates can give rough marginal sketch to show their reading of the question to satisfy the examiner. Also write a short specification for the oak panelling round the hall of the said hotel, and also the hardwood flooring.

[Maximum of Marks: 75.]

Wednesday Morning : three hours and a half.

VI. CONSTRUCTION: FOUNDATIONS, WALLS, RETAINING WALLS, ARCHES, VAULTS, FLOORS, ROOFS, &c., AND CONSTRUCTIVE DETAILS IN ALL TRADES.

Hon. Examiners: { ALFRED CONDER.
GEORGE HUBBARD, F.S.A.

Candidates were not expected to answer more than four questions, but all were to attempt the first.

1. A one-story factory, 70 feet by 20 feet, is to be constructed with 14-inch brick walls upon a site which has a marshy subsoil capable of sustaining safely a weight of only 10 cwt. to the foot superficial. No firmer foundation is obtainable until a depth of 35 feet is reached. The factory is to contain a steam hammer weighing 5 tons, and delivering a blow equal to 10 tons.

Draw to a scale of 2 feet to 1 inch a section of the foundations of the building, constructed as inexpensively as would be safe, and show the special precautions necessary for the foundation of the steam hammer; also state how the building would be kept dry.

2. The cellar of a house, 35 feet by 18 feet, the floor of which is 5 feet below the bottom of the sewer of the adjoining street, is flooded after a rainy season with water coming up through the brick floor to a height of 2 feet 6 inches. Show by sketches, and describe fully, the means which could be adopted to remedy the complaint.

Also show by sketches how the flooding could have been guarded against if it had been known before the building was commenced to what height the subsoil water was liable to rise, assuming that the levels of the floors could not have been altered.

3. Draw to scale, 1 inch to a foot, elevation, section, and plan of the masonry for a window opening 12 feet by 8 feet, constructed in a stone building, and formed into three lights with mullions and tracery, fitted with metal casements. The joints to be shown. Sketch a detail section of the sill to a quarter full size.

4. The roof of a house made in one span and covered with plain tiles at an angle of 45° is to be supported upon substantial brick walls 40 feet apart from front to back, and to contain two stories, the rooms of which are to be lighted by dormer windows covered with lead. The floors are to be constructed with joists carried upon wrought-iron trusses, also supporting the roof timbers.

Draw to scale, 2 feet to 1 inch, a cross-section through the upper part of the building, showing the construction, and state the precautions to be adopted for guarding against variations of external temperature.

5. A brick chimney-shaft containing 3 flues, each 14 inches by 9 inches, passes through a slated roof midway up the slope, with its longest side parallel to the ridge.

Draw to scale, 1 inch to a foot, all the details of the carpenters', plumbers', and slaters' work connected with this part of the building.

Draw to a scale of 1 inch to a foot a half-plan and a section of an octagonal lantern light, 8 feet in diameter, constructed with wood upon a lead flat, the height being 5 feet.

The lights to be hung at the top and to open outwards. The roof to be covered with lead.

(Maximum of Marks: 100.)

Wednesday Afternoon: three hours.

VII. CONSTRUCTION: CONSTRUCTION IN IRON AND STEEL; SHORING, UNDERPINNING, AND DEALING WITH RUINOUS AND DANGEROUS STRUCTURES.

Hon. Examiners: (LEWIS SOLOMON.
W. E. V. CHAMPTON.

1. An iron and glass shelter is required over the entrance to a public hall: the width is to be 10 feet, and the total projection 13 feet, of which 3 feet is over the forecourt and 8 feet over the public way. The structure is to be carried by cantilevers over the foot-way at a height of 10 feet, but columns can be placed at A and B.

The area of metal in cantilevers to stand a maximum bending moment of 42 inch tons.

Make a sketch design in plan, section, and elevation to $\frac{1}{4}$ -inch scale, showing the shelter in relation to its supports at A and B and the forecourt railings, and with details of the construction to $\frac{1}{4}$ -inch scale.

What system of glazing would you adopt, and why?

Explain the nature of the stresses in that part of the cantilever between A or B and the wall.

2. A steel stanchion to carry 100 tons is fixed upon a cast-iron base, which in its turn rests upon a foundation of lime brick in cement: draw a detail of the whole to $\frac{1}{4}$ -inch scale and give the working out of the various dimensions, the safe working stress on steel in this case being taken at 2 tons per square inch.

Indicate by sketches any alternative method for forming a foundation to receive such a stanchion, and mention any advantages or disadvantages it may have compared with the first-named method.

3. Explain shortly what you know about reinforced concrete.

4. If you were instructed to remove the buildings at the corner of two streets prior to rebuilding, explain in detail what precautions you would take to ensure the security of the various structures in view of the rebuilding, thus protecting your client's interests, that of the adjoining owners, and the safety of the public.
5. In removing the above buildings you lay bare in a party-wall an oak story post of large scantling which runs up through two stories and receives large bressummers carrying each floor of the adjoining house. The post is rotten, and so are the bressummers for a length of 12 inches from the bearing on the post. Explain carefully what you would propose to do.

[Maximum of Marks: 125.]

SPECIAL EXAMINATION:

To Qualify for Candidature as Associate R.I.B.A.

[For applicants exempted, by Special Resolution of the Council, from the Preliminary and Intermediate Examinations, and from submitting Testimonies of Study.]

The attention of architects in practice, not less than 25 years of age, and of chief assistants over 30 years of age, who may contemplate applying for admission to the Royal Institute of British Architects, is directed to the Regulations of the Special Examination qualifying for candidature as Associate, which is held twice a year, in the months of June and November, in accordance with the particulars given on the official Application Form.

Architects in practice, and chief assistants as above stated, who desire to be admitted as Associates, can be exempted from passing the *Preliminary* and *Intermediate* Examinations and from sending in "Testimonies of Study." They can be admitted, by resolution of the Council in each case, to a Qualifying Examination (namely, the *Final* [p. 310] of the three Examinations), which is conducted with especial regard to the requirements of such architects, their professional works and position being duly taken into account by the Board of Examiners.

The probationary work required to be submitted and approved prior to the applicant's admission to the Examination may consist of the working drawings of a building, executed or otherwise, of his own design, with a perspective view, and a drawing of some ornament from the round. All practitioners of architecture who have been in the active exercise of their profession for twelve years are exempted from submitting any probationary work. An applicant who has not been twelve full years in practice may submit the working drawings of any building erected from his design and under his superintendence; with a drawing of a building in perspective, and a sheet of ornament. Due care will be taken of

probationary work submitted by applicants, but the Royal Institute will not be responsible for any loss of or damage to the drawings while they remain in its keeping; and applicants are expected to remove their probationary work immediately after the close of their examination.

A fee of Six Guineas for the Special Examination must be paid by each applicant on sending in his formal application. Applicants unsuccessful at their first sitting may present themselves again within twelve months without further fee; should they then fail to pass, a fresh fee must be paid for each subsequent attempt. Should an applicant be admitted and pass he will be qualified, subject to Section 8 of the Charter, for candidature as Associate. The names of those who pass are returned alphabetically, and they are at once informed thereof, with a view to their presenting themselves for election as Associates—the entrance fee to which class is Three Guineas, and the annual subscription Two Guineas. Should an applicant fail to pass he will be informed of the fact, but the names of unsuccessful candidates are not published.

Applicants availing themselves of the foregoing special concessions are not eligible for the Asbpitel Prize.

COLONIAL EXAMINATIONS:

To Qualify for Candidature as Associate R.I.B.A.

Architects of not less than 25 years of age working in the Colonies, either as architects in practice or as assistants, can be admitted to the "Special Examination" [p. 332] qualifying for candidature as Associate, which is held at such colonial centres as the Council may from time to time determine. All applications must be made on the official form, to be obtained from the Secretary R.I.B.A., or at the colonial centres indicated below.

Prior to the applicant's admission to the Examination, probationary work must be submitted to, and approved by, the Board of Examiners sitting in London. Such probationary work must consist of the working drawings of a building, executed or otherwise, of the applicant's own design, with a perspective view, and a drawing of some ornament from the round. All practitioners of architecture who have been in the active exercise of their profession for twelve years are exempted from sending in probationary work. Probationary work must be forwarded to London at the expense of the applicant, but will be returned at the expense of the Institute.

A fee of Six Guineas for the Special Examination must be paid by each applicant on sending in his formal application. Should the application be refused, this fee will be returned. If the application be approved, the candidate will receive intimation from the Secretary as to the place he will be required to attend for the Examination. Successful candidates are qualified, subject to Section 8 of the Charter, for candidature as Associate. The names of those who pass are returned alphabetically, and they are at once informed thereof, with a view to their presenting themselves for election as Associates—the entrance fee to which class is Three Guineas and the annual subscription Two Guineas. Should an applicant not be passed by the Board, he will be informed of the fact; the names of unsuccessful candidates are not published. Candidates unsuccessful at their first sitting may present themselves once more for examination without further fee. Should they then fail to pass, a fresh fee will be required for each subsequent attempt.

R.I.B.A. Colonial Examinations, 1906: Canada and Australia.—*Preliminary and Intermediate.*—The Institute of Architects of New South Wales and the Victorian Institute of Architects are empowered by the Council of the R.I.B.A. to grant at their discretion exemption from the Preliminary Examination to candidates who desire to enter for the Intermediate.

The Preliminary and the Intermediate Examinations are held in Sydney under the direction of the Institute of Architects of New South Wales.

Final and Special.—Examinations under the direction of the Institute will be held in Melbourne from the 22nd to the 29th June inclusive, and in Toronto from the 16th to the 23rd November inclusive, simultaneously with the Final and Special Examinations to be held in Great Britain. Application forms, fees, and probationary work must reach London from Melbourne by the first mail arriving after the 7th April 1906, and from Toronto by the first mail arriving after the 1st September 1906.

Application forms may be obtained from the Secretary R.I.B.A., at the offices of the Institute in London; from Mr. F. S. Baker, Hon. Sec. R.I.B.A. for Canada, Mail Building, Toronto; and from Mr. G. C. Insip, Hon. Sec. R.I.B.A. for Australia, 375, Collins Street, Melbourne.

* * * Abstracts of the year's Examinations are given in the Annual Report of the Council published in the Journal in May. The results of each Examination are published in the Journal.

BUILDING SURVEYING.

EXAMINATION QUALIFYING FOR CANDIDATURE AS
DISTRICT SURVEYOR IN LONDON.*

Section 140 of the London Building Act 1894 provides :

The Royal Institute of British Architects may cause to be examined by such persons and in such manner as they think fit all candidates presenting themselves for the purpose of being examined as to their competency to perform the duties of District Surveyor, and shall grant certificates of competency to the candidates found deserving of the same, and a person who has not already filled the office of District Surveyor shall not be qualified to be appointed to that office unless he has received a certificate of competency from the said Institute or has been examined in such other manner as the Council may direct and been found competent in such examination.

The Candidate must be prepared to answer orally, in writing, or by means of architectural drawing, questions upon the following points, in order to satisfy the Board as to his competency for the office of a District Surveyor :—

1. The materials most in use in building; their strength under various stresses, their excellences, defects, weight, decay, and other properties, and the indications of their being of good or bad quality. The rough methods of testing them on the spot. The bonding of masonry and brickwork, use of mortar and cement, framing of carpentry, and the testing of trusses and timber girders.

2. The loads and stresses affecting structures, and the modes of estimating them and calculating arches and the different parts of timber and iron structures; especially such rapid modes of calculating as can be employed on the spot readily.

3. Cast iron, wrought iron, and steel. The design, testing, and fixing of constructional iron and steel work.

4. Foundations in various kinds of soil, and precautions to be taken in digging them; expedients when the bottom is bad or under water. The risks of accident due to interference with foundations after they have been put in, or to increasing the load on them. The foundations of high chimney shafts. Indications of the failure of foundations.

5. Usual defects in construction and materials. Decay of structures. Neglected and dangerous structures. Shoring, underpinning, repairs of walls, tying buildings together, forming openings in existing walls. The force of storms and stability of high structures.

6. The behaviour of various materials and modes of construction with reference to fire. Fire-resisting construction. Precautions necessary in heating and lighting buildings. Precautions to be taken in the storage of water.

7. The London Building Act of 1894 and the by-laws in force; and the ordinary procedure thereunder, including the mode of valuing a party wall.

8. Defects or deficiencies in plans for a proposed building.

The Examination is held once a year—viz. in the month of October. For particulars as to attendance, fees, &c., see page 339.

* Application forms, to be filled up by persons desirous of being examined, can be obtained free of charge at the office of the Institute.

List of persons to whom The Royal Institute of British Architects has granted Certificates of Competency to act as District Surveyor in London.

- 1856.—Thomas Meyer; Robert Booth; George Elkington; Sidney Godwin; William R. Gatten; Henry Pagson; Henry Hart; Charles J. Badger; Henry A. Darbishire; W. H. Knippels; H. S. Badley; John J. Cole; Samuel S. Markham; Henry Simpson Legg; Daniel Cubitt Nichols; Charles Stephenson; William Young.
- 1857.—John Woody Papworth; Chas. Farmer Haywood; Sydney Howell; Sir M. Digby Wyatt; Joseph Lavender; George Atchison; T. E. Knightley.

- 1902.—Thomas Hand Bishop, jun.; Arthur Maryon Watson, B.A.; William George Perkins; Arthur Halcrow Vantage.
- 1903.—Walter Godfrey Green; Ernest William Lees; Arthur George Morris; Albert Perkins Stokes.
- 1904.—Percy John Black; John Meir Kennard; John Todd.

CONDITIONS OF THE APPOINTMENT.

No person is accepted as a candidate for the appointment of District Surveyor unless he shall have attained twenty-eight years of age and be under fifty years of age, and every candidate must deliver with his application satisfactory evidence of his age.

Every candidate is required to sign a declaration and deliver it with his application that he becomes a candidate, and will accept the appointment if he should be appointed, on the following understanding:—

- That he will personally discharge the duties of his office, subject to section 142 of the London Building Act 1894.
- That he will give his whole time to the duties of the office.
- That he will not during his continuance in office (except in the discharge of the duties thereof) carry on business as an architect, surveyor, or builder, or directly or indirectly, as a partner or otherwise, be interested in such business.

- (d) That he will make no claim for compensation in case a diminution of his income shall at any time hereafter arise.
- (e) That he will keep his District Office open from Monday to Friday (both inclusive) between the hours of 9.30 a.m. and 5 p.m., and on Saturday from 9.30 a.m. until 1 p.m., and give his personal attendance there daily from 9.30 to 10.30 a.m.
- (f) That he will retire, if required to do so, on attaining the age of 65, or at any date subsequent to his attaining that age.

The County Council reserves to itself the exercise of its powers of dismissal if the District Surveyor so appointed should not act consistently with the understanding above set forth in any of the matters referred to therein, or for other sufficient reason.

See List of District Surveyors now holding office, page 340; particulars as to fees, page 344.

EXAMINATION QUALIFYING FOR CANDIDATURE AS BUILDING SURVEYOR UNDER LOCAL AUTHORITIES.

The Candidate must be prepared to answer orally, in writing, and by means of architectural drawing, questions upon the following points, in order to satisfy the Board as to his competency for the office of a Building Surveyor:—

1. The materials most in use in building; their strength under various stresses, their excellence, defects, weight, decay, and other properties, and the indications of their being of good or bad quality. The rough methods of testing them on the spot. The bonding of masonry and brickwork, use of mortar and cement, framing of carpentry, and the loading of trusses and timber girders.
2. The loads and stresses affecting structures and the modes of estimating them and calculating arches and the different parts of timber and iron structures; especially such rapid modes of calculating as can be employed on the spot readily.
3. Cast iron, wrought iron, and steel. The design, testing, and fitting of constructional iron and steel work.
4. Foundations in various kinds of soil, and precautions to be taken in digging them; expedients when the bottom is bad or under water. The risks of accident due to interference with foundations after they have been put in, or to increasing the load on them; the weight different soils will carry. The foundations of high chimney shafts. Indications of the failure of foundations.
5. Usual defects in construction and materials. Decay of structures. Neglected and dangerous structures. Shoring, underpinning, repair of walls, tying buildings together, forming openings in existing walls. The laws of storms and stability of high structures.
6. The behaviour of various materials and modes of construction with reference to fire. Fire-resisting construction. Precautions necessary in heating and lighting buildings. Precautions to be taken in the storage of water.
7. The sanitary precautions needed to secure healthiness of sites. The materials used in and the mode of executing house drainage works, and the ventilation of houses and drains.
8. The "Model Bye-Laws."

List of persons to whom The Royal Institute of British Architects has granted Certificates of Competency to act as Building Surveyor.

- 1886.—John C. Lebon Bettridge.
 1887.—William Chapman Field.
 1888.—Cecil Orr; William Ward, jun.
 1889.—Henry Haugh Tasker; Robert Williams.
 1890.—Watson Hall; William Mortimer Paton.
 1895.—Francis Haugh Andrews; Hugh Davies.
 1896.—John Hay Donn.
 1901.—James Edwin Webb.
 1903.—William David Jenkins.

Particulars applicable to both Examinations.

Candidates must, on the first of the two days appointed for the Examination, attend punctually at 9.15 a.m. at the Rooms of the Institute for the written and graphic examination, which occupies two sittings, namely, from 10 till 1 and from 2 till 5. Candidates are not allowed to bring or refer to any books or written memoranda. Each candidate must provide his own drawing-board and instruments.

At 11 o'clock on the following day, the Board of Examiners meet to inspect the papers and drawings, and to put such questions as they may think advisable to be answered orally by the Candidates; and they will ask for further particulars in those cases where the written answers are imperfect, insufficient, or incorrect.

Each Candidate, on sending in his paper (a form to be previously obtained at the office of the Institute), duly filled up, must pay a fee of Two Guineas. Afterwards, on receiving his Certificate of Competency, should the same be granted to him, he must pay a further sum of Three Guineas.

* * Statutory Examinations for the Office of District Surveyor and Building Surveyor: October 18-19, 1906.

DISTRICT SURVEYORS UNDER THE LONDON BUILDING ACT 1894,

With their offices and hours of attendance.

DISTRICT SURVEYORS' FEES.

The districts are re-arranged by the Committee of the London County Council as opportunities may occur, so that the average of the fees received may in no case amount to less than £500 per annum.

The following fees are paid by the London County Council to district surveyors, in accordance with section 155 of the London Building Act 1894:—

	£	s.	d.
On reporting that the roadway of a street sanctioned by the Council has been defined and made throughout as regards levels, direction, width and gradient to comply with any statutes and by-laws for the time being in force regulating such streets and to comply with the plans and sections attached to the Council's order sanctioning such street, and that all conditions (if any) attached to such sanction have been complied with	2	2	0
On reporting that a way has been adapted as a street, or that a street or way has been widened in accordance with a sanction given by the Council on an application made under section 10, and that all conditions (if any) annexed to such sanction have been complied with	1	1	0
On reporting that a building, forecourt boundary or fence has been set back to the distance from the centre of the street sanctioned by the Council under section 13 or 17, and all conditions (if any) annexed to such sanction have been complied with, and all land (if any) that should have been, has been added to the public way	0	5	0
On reporting that a building, other than a building sanctioned by the Council under section 13 or 17, and upon which the district surveyor is entitled to a fee under those standing orders, has been erected to the line of frontage for which the consent of the Council was given under section 22, and all conditions (if any) annexed to such consent have been complied with	0	5	0
For attending a Police Court to give evidence on behalf of the Council in relation to any of the above matters; for each attendance	0	10	0

THE TRIBUNAL OF APPEAL.

The London Building Acts 1894 to 1905.

Clerk of the Tribunal: Mr. CHARLES HERBERT LOVE.

Office: 13, Great George Street, Westminster, S.W.

THE Tribunal of Appeal, as constituted under sections 175 and 178 of the London Building Act 1894, is composed of three members—one appointed by a Secretary of State, one by the Council of the Royal Institute of British Architects, and one by the Council of the Surveyors' Institution. The members are appointed for a term of five years, and are eligible for re-appointment. Appeal may be made to the Tribunal under the several sections set out in the London Building Act 1894 (57 & 58 Vict., c. ccciii.) and in the London Building Acts (Amendment) Act 1905 (6 Edw. 7, c. ccix.), the Tribunal having power to hear the parties interested in person, or by counsel, solicitor, or agent; to administer oaths; to hear and receive evidence; to require the production of documents or books; and to confirm, reverse, or vary any decision appealed against, and to make any such order as they may think fit, also to award costs in their discretion.

When any question of law is involved in any appeal submitted to them, the Tribunal may, on the request of the parties, and if ordered by the High Court, or a Judge thereof, on an application in a summary manner made by any party to the appeal, shall state a case for the opinion of the High Court, which shall hear and determine such question of law, and thereupon reverse, affirm, or amend the decision of the Tribunal, or remit the matter to them with the opinion of the Court on the case stated, or make such other order as to the matter and as to the costs of the case as the Court sees fit.

Any order of the Tribunal may be enforced by the High Court as if it had been an order of that Court.

Subject to the approval of the Lord Chancellor, Regulations as to the procedure to be followed in cases of appeal, and as to fees to be paid to the Tribunal by the Appellants and other parties, amended as necessary to meet the requirements of the Act of 1905, will shortly be made, copies of which may be obtained (after publication) from the Clerk to the Tribunal on application.

Appeals are to be lodged (by hand) at the Office of the Tribunal, and the fee thereon paid, within the period (if any) prescribed by the Act, and where no period is so prescribed, within the time required by the Regulations.

The Tribunal consists of the following members:—

Mr. JOHN WORSHAM PENFOLD [F.], appointed by the Council of the Surveyors' Institution (*Chairman of the Tribunal*).

Mr. ALFRED ARTHUR HUDSON [H.A.], Barrister-at-Law, appointed by the Secretary of State for the Home Department.

Mr. EDWARD AUGUSTUS GRISING [F.], appointed by the Council of the Royal Institute of British Architects.

All communications should be addressed to the Clerk to the Tribunal. All payments to be made in cash. Office hours, 10 to 4 (Saturdays, 10 to 2).

THE LIBRARY.

THE Library of the Royal Institute of British Architects consists principally of books presented by their authors, members of the corporate body. Many have been received in large donations, others by bequest. From time to time standard works of reference are purchased, to meet the requirements of the professional student, as well as to maintain the special character and historic value of the collection. Not the least interesting portion of the Library is that which includes rare and valuable editions of Foreign Works, mostly presented by Hon. Corr. Members.

For convenience of reference the Catalogue is kept up to date with printed slips inserted as they appear in the announcements in the Supplement to the JOURNAL, together with cross-references. A Catalogue published in 1869, which was printed at the cost of the late David Brandon, contains all the works presented and purchased up to June 1887, with an Appendix comprising all the publications acquired up to the 31st December 1888. A Supplement to this Catalogue comprises additions from June 1887 to December 1898. Copies of the Catalogue complete, strongly bound in buckram, gilt lettered, may be purchased at the Institute, price 10s. 6d. The Supplement above mentioned may be had separately, price 1s.

From the 1st October till the end of June the Library is open from 10 a.m. to 8 p.m. (Saturdays 6 p.m.); in July and September it closes at 7 p.m. (Saturdays 6 p.m.). The Reference Library is closed during the whole of August, but Loan books may be received or issued between the hours of 12 and 2 daily.

All Probationers, Students, and Qualified Candidates for Associateship, on registration in the books of the Institute, are furnished with a card of admission, and such card must be shown by the reader at every visit. Members of the Architectural Association under the age of 23 years must be provided with a specially stamped card, to be annually renewed, signed by the Hon. Secretaries of the Association. Cards are also granted on the recommendation of members of the Institute, professors of colleges, schoolmasters, and others, who are required to certify, on a form to be obtained at the Institute, that the persons they recommend are fit to be admitted to the privileges of the Reference Library and the Loan Collection.

The Council, after due application has been made and inquired into, afford facilities to architects and others, not members of the Institute, to consult books in the Reference Library, and to have the use of the Loan Collection. Applications should be made in writing to *The Secretary R.I.B.A.* at the office of the Institute.

The Loan Library.—Books borrowed by members from the Loan Library are despatched at the cost of the Institute, but the return postage must be paid by the borrower.

RULES TO BE OBSERVED IN THE LIBRARY.

THE REFERENCE LIBRARY.

1. Every one using the Library must sign the Attendance Book placed at the entrance.

2. The front and back rooms are reserved for members of the Institute, but non-members are allowed access to any special books of reference there on application to the officer in charge.

3. No book or other work forming part of the Reference Library is allowed to be taken from the premises of the Institute, except by special resolution of the Council.

4. Readers desiring to trace are required to apply to the Librarian or officer in charge for a form, which must be duly filled up, giving particulars of the work and specifying the portion it is intended to trace. Soft pencils only may be used in tracing. In the case of rare and other valuable works, in order to preserve the print from injury, binoculars will be supplied for the purpose of tracing.

5. No compasses of any kind may be applied to any of the works, and the use of ink is prohibited at any table on which rare or costly works are placed.

6. Readers are requested to inform the officer in charge when they have finished with any work, in order that it may be restored to its place.

7. Silence is necessary in the Library, and all oral communications should be conducted in an undertone.

THE LOAN LIBRARY.

8. The Loan Library is open for the issue and return of books during the same hours as those appointed for the Reference Library.

9. Not more than one volume at a time is issued to any one borrower, except by permission of the Librarian, and no volume may be retained longer than fourteen days, unless a written renewal from the Librarian has been obtained (see No. 12).

10. Application for works must be made personally, except in the case of members of the Institute, who may send a written request by a person authorised to receive and sign for them, or

may apply in writing to the Librarian for the volume to be sent by post or rail.

11. A borrower is required to sign a voucher for each book he takes out, and is responsible for the work so long as the voucher remains uncanceled. A book will not be accepted as returned unless it be delivered by hand to the officer in charge at the Library during Library hours, and the borrower's receipt obtained in exchange. In the case, however, of a member of the Institute borrowing through the post, his letter of request shall be counter-signed by the Librarian on the day when the volume is despatched, and shall be regarded as the member's voucher. Volumes shall be despatched at the cost of the Institute and returned at the cost of borrowers. On the return of a book the Librarian shall at once send the member a receipt. Books due for return on days when the Library is closed must be returned on the first following day when it is open.

12. Application for renewal must be made personally or by postcard in sufficient time to allow of the book being punctually returned if it cannot be renewed; if renewed or otherwise, a notice from the Librarian will be sent.

13. A fine of sixpence must be paid for every day or portion of a day during which any volume is retained beyond the time allowed, unless the borrower can show a written renewal from the Librarian. And a fine of one shilling must be paid for every day or portion of a day during which any volume is retained after delivery at the borrower's address of a notice from the Librarian for its return (the day of delivery of such notice not included).

14. Borrowers are not to trace with ink or with a hard pencil, nor apply compasses of any kind to the works. Marking any book by writing, turning down leaves, &c., is strictly prohibited: this applies even to correction of a misprint, or to a single additional mark in a book, however much previously disfigured. Infringement of this rule will render the borrower liable to suspension from the use of the Loan Library. A borrower is liable to be called upon to replace at his own expense any work lost, marked, or injured while in his possession, or to pay a fine.

15. A borrower whose fines are unpaid will not be permitted to use the Loan Library; and if not a member of the Institute, he will also be debarred the use of the Reference Library.

THE LOAN LIBRARY CATALOGUE.

A Catalogue of works in the Loan Library up to November 1896, with Supplements comprising additions down to December 1904, may be obtained at the office of the Institute, price Sixpence.

PRIZES AND STUDENTSHIPS 1905-1906.

FULL particulars of the subjects set for the Prizes and Studentships 1905-1906, with Conditions of Competition and Award, will be found in the pamphlet issued to members last March. Copies of the pamphlet may be obtained at the Institute, price 3d., by post 3½d. The following is a list of the Prizes, with subjects set for the current year, and complete Registers of Prize-winners.

THE TRANSACTIONS, NEW SERIES (1885-1892).

This Series of the TRANSACTIONS, complete in eight volumes, comprises all the Papers read before the Institute during the Sessions from 1884-85 to 1891-92, Abstracts of Presidential Addresses, the Institute Prize Essays, Travelling Students' Reports, and other Papers, with Notes and Addenda. For a limited period the charge for a complete set bound in paper or linen

covers will be £6 only, instead of £9 5s. as heretofore; cloth boards, leather backs, 30s. extra. Reduced prices of single volumes are quoted on page xvi.

Complete sets of the *Original Series* of the *Transactions* are out of print, but several odd volumes are for disposal at prices varying from 5s. to 21s. according to the rarity of the volume. Copies of the 1842 volume, containing Professor Willis's valuable treatise on the Construction of the Vaults of the Middle Ages, may be had for 7s. 6d. a copy.

FORM OF AGREEMENT AND SCHEDULE OF CONDITIONS FOR BUILDING CONTRACTS.*

[COPYRIGHT.]

Issued under the sanction of the Royal Institute of British Architects, in agreement with the Institute of Builders and the National Federation of Building Trade Employers of Great Britain and Ireland.

NOTE.—The following form is applicable WHERE QUANTITIES DO NOT FORM PART OF THE CONTRACT, and requires to be varied and to have the blanks filled in to meet the special circumstances of each contract.

[There is another Form for use where Quantities form part of the Contract. Except for the additional clause, 12A, this document is practically identical with that set out below, the variations being only such as are necessary to make the Agreement and Contract clauses applicable where Quantities are to form part of the Contract.*]

Articles of Agreement made the day of
100 BETWEEN of in the
County of (hereinafter called "the Employer") of

of in the County of Builder†
(hereinafter called "the Contractor") of the other part.
WHEREAS the Employer is desirous of at
and has caused Drawings and a Specification
describing the work to be done to be prepared by
of his Architect: AND WHEREAS the said Draw-
ings numbered 1 to inclusive and the Specification
marked "A" have been signed by or on behalf of the parties
hereto: AND WHEREAS the Contractor has agreed to execute
upon and subject to the Conditions set forth in the Schedule
hereto (hereinafter referred to as "the said Conditions") the
works shown upon the said Drawings and described in the
said Specification for the sum of £ : NOW IT IS HEREBY
AGREED AS FOLLOWS:—

* To be obtained at the office of the Institute, 9, Conduit Street, W.; at the Institute of Builders, 31, Bedford Street, Strand, W.C.; and at the National Federation of Building Trade Employers, 6, Lord Street, Liverpool. Price One Shilling.

† Insert "s and co-partners" if such is the fact.

‡ State nature of intended works.

1. In consideration of the sum of £ to be paid at the times and in the manner set forth in the said Conditions, the Contractor will upon and subject to the said Conditions execute and complete the works shown upon the said Drawings and described in the said Specification.

2. The Employer will pay the Contractor the said sum of £ or such other sum as shall become payable hereunder at the times and in the manner specified in the said Conditions.

3. The term "the Architect" in the said Conditions shall mean the said or, in the event of his death or ceasing to be the Architect for the purpose of this Contract, such other person as shall be nominated for that purpose by the Employer, not being a person to whom the Contractor shall object for reasons considered to be sufficient by the Arbitrator mentioned in the said Conditions. Provided always that no person subsequently appointed to be Architect under this Contract shall be entitled to disregard or overrule any decision or approval or direction given or expressed by the Architect for the time being.

4. Any reference in the said Conditions to the Bills of Quantities shall not have the effect of constituting them part of this Contract.

5. The said Conditions shall be read and construed as forming part of this Agreement, and the parties hereto will respectively abide by and submit themselves to the conditions and stipulations and perform the agreements on their parts respectively in such Conditions contained.

As witness our hands this day of 190 .

Signed by the said
in the presence of

SCHEDULE OF CONDITIONS OF CONTRACT.

1.—The works shall be carried out in accordance with the directions and to the reasonable satisfaction of the Architect, in accordance with the signed Drawings and Specification, and in accordance with such further drawings, details, instructions, directions, and explanations as may from time to time be given by the Architect. If the work shown on any such further drawings or details, or necessary to comply with any such instructions, directions, or explanations be, in the opinion of the Contractor, extra to that comprised in the Contract, he shall, before proceeding with such work, give notice in writing to this effect to the Architect. In the event of the Architect and Contractor failing to agree as to whether or not there is any extra, and of the Architect deciding that the Contractor is to carry out the said work, the Contractor shall accordingly do so, and the question whether or not there is any extra, and if so the amount thereof, shall, failing agreement, be settled by the Arbitrator as provided in Clause 32, and the Contractor shall be paid accordingly. The Contract Drawings and Specification shall remain in the custody of the Architect, and shall be produced by him at

his office as and when required by the Employer or by the Contractor.

2.—One complete copy of all Drawings and of the Specification shall be furnished by the Architect free of cost to the Contractor for his own use. The Architect shall furnish to the Contractor, within days after the receipt by him of a request for the same, any details which in the opinion of the Architect are necessary for the execution of any part of the work, such request to be made only within a reasonable time before it is necessary to execute such work in order to fulfil the Contract. Such copies and details shall be kept on the works until the completion thereof, and the Architect or his representative shall at all reasonable times have access to the same, and they shall be returned to the Architect by the Contractor on the completion of the Contract.

3.—The Contractor shall on the signing hereof furnish the Architect with a verified * copy of the original estimate for his sole use or that of the Surveyor appointed as in Clause 18 hereof, and for the purposes only of this Agreement.

4.—The Contractor shall provide everything necessary for the proper execution of the works, according to the true intent and meaning of the Drawings and Specification taken together, whether the same may or may not be particularly shown on the Drawings or described in the Specification, provided that the same is reasonably to be inferred therefrom; and if the Contractor find any discrepancy in the Drawings, or between the Drawings and Specification, he shall immediately refer the same to the Architect, who shall decide which shall be followed. Figured dimensions are to be followed in preference to the scale.

5.—The Contractor shall conform to the provisions of any Acts of Parliament relating to the works, and to the regulations and by-laws of any Local Authority, and of any Water and Lighting Companies with whose systems the structure is proposed to be connected, and shall, before making any variation from the Drawings or Specification that may be necessitated by so conforming, give to the Architect written notice, specifying the variation proposed to be made, and the reason for making it, and apply for instructions thereon. In case the Contractor shall not in due course receive such instructions he shall proceed with the work, conforming to the provision, regulation, or by-law in question, and any variation so necessitated shall be dealt with under Clause 18. The Contractor shall give all notices required by the said Acts, regulations, or by-laws to be given to any Local Authority, and pay all fees payable to any such Authority, or to any public officer in respect of the works.

6.—The Contractor shall set out the works, and during the progress of the building shall amend at his own cost any errors arising from inaccurate setting out, unless the Architect shall decide to the contrary.

* The word "sealed" to be inserted if so agreed.

7.—All materials and workmanship shall be of the respective kinds described in the Specification, and the Contractor shall upon the request of the Architect furnish him with vouchers to prove that the materials are such as are specified.

8.—The Contractor shall keep constantly on the works a competent general foreman, and any directions or explanations given by the Architect to such foreman shall be held to have been given to the Contractor.

9.—The Contractor shall, on the request of the Architect, immediately dismiss from the works any person employed thereon by him who may, in the opinion of the Architect, be incompetent or misconduct himself, and such person shall not be again employed on the works without the permission of the Architect.

10.—The Architect and any person authorised by him shall at all reasonable times have access to the works, and the Architect and his representatives shall at like times have access to the workshops of the Contractor or other places where work is being prepared for the building.

11.—The Clerk of Works shall be considered to act solely as inspector and under the Architect, and the Contractor shall afford him every facility for examining the works and materials.

12.—The Contractor shall, when authorised by the Architect, or as provided by Clause 5, vary by way of extra or omission from the Drawings or Specification; such authorisation is to be sufficiently proved by any writing or drawing signed by the Architect or by any subsequent written approval by him, but the Contractor shall make no variation without such authorisation. No claim for an extra shall be allowed unless it shall have been executed under the provisions of Clause 5, or by the authority of the Architect as herein mentioned. Any such extra is hereinafter referred to as an authorised extra.*

13.—No variation shall vitiate the Contract; but all authorised extras for which a price may not have been previously agreed, and any omission which may have been made with the knowledge of the Architect, or without his knowledge, provided he subsequently give a written sanction to such omission, shall be measured and valued, as hereinafter provided, by †

; and a copy of the bill or statement of such measurement and valuation shall be given to the Contractor. The fees for so measuring and valuing the variations shall be added to the contract sum. If in the opinion of the Architect the work cannot be properly measured and valued, day-work prices shall be allowed therefor, provided that vouchers specifying the time

* In the form for use where Quantities form part of the Contract, the following additional clause is inserted:—

11a. Should any error appear in the Bills of Quantities other than in the Contractor's prices and calculations, it shall be rectified, and such rectification shall constitute a variation of the Contract, and shall be dealt with as hereinafter provided.

† Insert "the Architect," or the name of a Surveyor.

and materials employed shall have been delivered for verification to the Architect, or his nominee, at or before the expiration of the week following that in which such work shall have been done. The variations shall be valued at the rates contained in the Contractor's original estimate, or, where the same may not apply, at rates proportionate to the prices therein contained. The amount to be allowed on either side in respect of the variations so ascertained shall be added to or deducted from the contract sum as the case may be.

14.*—The fees for the Bills of Quantities and the Surveyor's expenses (if any) stated therein shall be paid by the Contractor to the Surveyor named therein out of and immediately after receiving the amount of the certificate or certificates in which they shall be included. The fees chargeable under Clause 13 shall be paid by the Contractor before the issue by the Architect of the certificate for the final payment. If the Contractor fails or neglects to pay as herein provided, then the Employer shall be at liberty, and is hereby authorised, to do so on the certificate of the Architect, and the amount so paid by the Employer shall be deducted from the amount otherwise due to the Contractor.

15.—When the Contractor shall have received payment of any certificate in which the Architect shall have stated that he has taken into account the value of any unfixed materials intended for the works, and placed by the Contractor thereon, or upon ground adjacent thereto, all such materials shall become the property of the Employer, and shall not be taken away, except for the purpose of being used on the building, without the written authority of the Architect; and the Contractor shall be liable for any loss of or damage to such materials.

16.—The Architect shall, during the progress of the works, have power to order in writing from time to time the removal from the works, within such reasonable time or times as may be specified in the order, of any materials which in the opinion of the Architect are not in accordance with the Specification or the Instructions of the Architect, the substitution of proper materials, and the removal and proper re-execution of any work executed with materials or workmanship not in accordance with the Drawings and Specification or instructions; and the Contractor shall forthwith carry out such order at his own cost. In case of default on the part of the Contractor to carry out such order, the Employer shall have power to employ and pay other persons to carry out the same; and all expenses consequent thereon or incidental thereto shall be borne by the Contractor, and shall be recoverable from him by the Employer, or may be deducted by the Employer from any moneys due or that may become due to the Contractor.

17.—Any defects, shrinkage, or other faults which may appear within months from the completion of the works, arising

* In cases where the Surveyor is engaged by the Employer to be paid direct by him this clause will come out.

in the opinion of the Architect from materials or workmanship not in accordance with the Drawings and Specification or the instructions of the Architect, or any damage to pointing by frost appearing within the like period, shall upon the directions in writing of the Architect, and within such reasonable time as shall be specified therein, be amended and made good by the Contractor at his own cost, unless the Architect shall decide that he ought to be paid for the same; and in case of default the Employer may employ and pay other persons to amend and make good such defects, shrinkage, or other faults or damage, and all expenses consequent thereon or incidental thereto shall be borne by the Contractor and shall be recoverable from him by the Employer, or may be deducted by the Employer from any moneys due or that may become due to the Contractor. Should any defective work have been done or material supplied by any sub-contractor employed on the works who has been nominated or approved by the Architect, as provided in Clause 20, the Contractor shall be liable to make good in the same manner as if such work or material had been done or supplied by the Contractor, and been subject to the provisions of this and the preceding clause.

18.—The Contractor shall, at the request of the Architect, within such time as the Architect shall name, open for inspection any work covered up; and should the Contractor refuse or neglect to comply with such request, the Architect may employ other workmen to open up the same. If the said work has been covered up in contravention of the Architect's instructions, or if on being opened up it be found not in accordance with the Drawings and Specification or the instructions of the Architect, the expenses of opening and covering it up again, whether done by the Contractor or such other workmen, shall be borne by, and recoverable from, the Contractor, or may be deducted as aforesaid. If the work has not been covered up in contravention of such instructions, and be found in accordance with the said Drawings and Specification or instructions, then the expenses aforesaid shall be borne by the Employer and be added to the Contract sum: provided always that in the case of foundations, or of any other urgent work so opened up and requiring immediate attention, the Architect shall, within a reasonable time after receipt of notice from the Contractor that the work has been so opened, make or cause the inspection thereof to be made, and at the expiration of such time, if such inspection shall not have been made, the Contractor may cover up the same, and shall not be required to open it up again for inspection except at the expense of the Employer.

19.—The Contractor shall not, without the written consent of the Architect, assign this Agreement or sublet any portion of the works.

20.—All specialists, merchants, tradesmen, or others executing any work, or supplying any goods for which prime cost prices or provisional sums are included in the Specification, who may at any time be nominated, selected or approved by the Architect are hereby declared to be sub-contractors employed

by the Contractor; but no such sub-contractor shall be employed upon the works against whom the Contractor shall make what the Architect considers reasonable objection, or who will not enter into a contract with the Contractor upon terms and conditions consistent with those in this Contract, and securing the due performance and maintenance of the work supplied or executed by such sub-contractor, and indemnifying the Contractor against any claims arising out of the misuse by the sub-contractor or his workmen of any scaffold erected or plant employed by the Contractor, or that may be made against the Contractor in consequence of any act, omission, or default of the sub-contractor, his servants or agents, and against any liability under the Workmen's Compensation Act 1897, or any amendment thereof.

21.—The Contractor shall be responsible for all structural and decorative damage to property, and for injury caused by the works or workmen to persons, animals, or things, and shall hold the Employer harmless in respect thereof, and also in respect of any claim made under the Workmen's Compensation Act 1897, or any amendment thereof, by any person in the employ of the Contractor. He shall also be responsible for all injuries caused to the buildings, the subject of this Contract, by frost or other inclemency of weather, and shall reinstate all damage caused by the same, and thoroughly complete the whole of the works.

22.—(a)* The Contractor shall insure the works, and keep them insured until they are delivered up, against loss or damage by fire, in an office to be approved by the Architect, in the joint names of the Employer and Contractor, for the full value of the works executed, and shall deposit with the Architect the policies and receipts for the premiums paid for such insurance; and in default the Employer may insure the works and deduct the premium paid from any moneys due or which may become due. All moneys received under any such policies are to be paid to the Contractor by instalments on the certificates of the Architect, and to be applied in or towards the rebuilding or reparation of the works destroyed or injured. The Contractor shall, as soon as the claim under the policy is settled, proceed with all due diligence with the rebuilding or reparation, and shall not be entitled to any payment in respect thereof other than the said moneys received, but such extension of the time hereinafter mentioned for completion shall be made as shall be just and reasonable. (b) The whole building and the works executed under this Contract shall be at the sole risk of the Employer as regards any loss or damage by fire, and in the event of any such loss or damage being so occasioned which affects the original building or structure in addition to the new work, the Contractor shall be entitled to receive from the Employer the full value of all work

* In this clause division (a) applies to a new building and division (b) to an existing building to be altered. (a) or (b) should be struck out to suit circumstances.

then executed and materials then delivered, calculated in the manner provided for by Clause 13 hereof, and this Contract, so far as it relates to any subsequent work, may at the option of either party be determined if in the opinion of the Arbitrator such determination shall be just and equitable.

23.—Possession of the site (or premises) shall be given to the Contractor on or before the day of . He shall begin the works immediately after such possession, shall regularly proceed with them, and shall complete the same (except painting and papering or other decorative work which in the opinion of the Architect it may be desirable to delay) by the day of , subject nevertheless to the provisions for extension of time hereinafter contained.

24.—If the Contractor fail to complete the works by the date named in Clause 23, or within any extended time allowed by the Architect under these presents, and the Architect shall certify in writing that the works could reasonably have been completed by the said date, or within the said extended time, the Contractor shall pay or allow to the Employer the sum of £ sterling per* as liquidated and ascertained damages for every beyond the said date or extended time, as the case may be, during which the works shall remain unfinished, except as provided by Clause 23, and such damages may be deducted by the Employer from any moneys due to the Contractor.

25.—If in the opinion of the Architect the works be delayed by *force majeure* or by reason of any exceptionally inclement weather, or by reason of instructions from the Architect in consequence of proceedings taken or threatened by or disputes with adjoining or neighbouring owners, or by the works or delay of other Contractors or tradesmen engaged or nominated by the Employer or the Architect, and not referred to in the Specification, or by reason of authorised extras or additions, or in consequence of any notice reasonably given by the Contractor in pursuance of Clause 10, or by reason of any local combination of workmen or strikes or lock-out affecting any of the Building trades, or in consequence of the Contractor not having received in due time necessary instructions from the Architect for which he shall have specifically applied in writing, the Architect shall make a fair and reasonable extension of time for completion in respect thereof. In case of such strike or lock-out the Contractor shall, as soon as may be, give to the Architect written notice thereof. But the Contractor shall nevertheless use his best endeavours to prevent delay, and shall do all that may reasonably be required to the satisfaction of the Architect to proceed with the works.

26.—If the Contractor, except on account of any legal restraint upon the Employer preventing the continuance of the works, or on account of any of the causes mentioned in Clause 25, or in case of a certificate being withheld or not paid when due shall

* Insert "day" or "week" as may be agreed.

suspend the works, or in the opinion of the Architect shall neglect or fail to proceed with due diligence in the performance of his part of the Contract, or if he shall more than once make default in the respects mentioned in Clause 16, the Employer by the Architect shall have power to give notice in writing to the Contractor requiring that the works be proceeded with in a reasonable manner and with reasonable dispatch. Such notice shall not be unreasonably or vexatiously given, and must signify that it purports to be a notice under the provisions of this clause, and must specify the act or default on the part of the Contractor upon which it is based. After such notice shall have been given, the Contractor shall not be at liberty to remove from the site or works, or from any ground contiguous thereto, any plant or materials belonging to him which shall have been placed thereon for the purposes of the works; and the Employer shall have a lien upon all such plant and materials, to subsist from the date of such notice being given until the notice shall have been complied with. Provided always that such lien shall not under any circumstances subsist after the expiration of thirty-one days from the date of such notice being given unless the Employer shall have entered upon and taken possession of the works and site as hereinafter provided. If the Contractor shall fail for

days after such notice has been given to proceed with the works as therein prescribed, the Employer may enter upon and take possession of the works and site, and of all such plant and materials thereon (or on any ground contiguous thereto) intended to be used for the works, and all such materials as above mentioned shall thereupon become the property of the Employer absolutely, and the Employer shall retain and hold a lien upon all such plant until the works shall have been completed under the powers hereinafter conferred upon him. If the Employer shall exercise the above power he may engage any other person to complete the works, and exclude the Contractor, his agents and servants, from entry upon or access to the same, except that the Contractor or any one person nominated by him may have access at all reasonable times to inspect, survey, and measure the works. And the Employer shall take such steps as in the opinion of the Architect may be reasonably necessary for completing the works without undue delay or expense, using for that purpose the plant and materials above mentioned in so far as they are suitable and adapted to such use. Upon the completion of the works the Architect shall certify the amount of the expenses properly incurred consequent on and incidental to the default of the Contractor as aforesaid, and in completing the works by other persons. Should the amount so certified as the expenses properly incurred be less than the amount which would have been due to the Contractor upon the completion of the works by him, the difference shall be paid to the Contractor by the Employer; should the amount of the former exceed the latter, the difference shall be paid by the Contractor to the Employer. The Employer shall not be liable to make any further payment or compensation

to the Contractor for or on account of the proper use of the plant for the completion of the works under the provisions hereinbefore contained other than such payment as is included in the contract price. After the works shall have been so completed by persons other than the Contractor under the provisions hereinbefore contained, the Employer shall give notice to the Contractor of such completion and may require him from time to time, before and after such completion, to remove his plant and all such materials as aforesaid as may not have been used in the completion of the works from the site. If such plant and materials are not removed within a reasonable time after notice shall have been given, the Employer may remove and sell the same, holding the proceeds, less the cost of the removal and sale, to the credit of the Contractor. Any notice to be given to the Contractor under this clause shall be given by leaving the same at the place of business of the Contractor, or by registered letter sent to him at that address.

27.—The words "Prime Cost" or the initials P.C. applied in the Specification to goods to be obtained and fixed by the Contractor, shall mean, unless otherwise stated in the Specification, the sum paid to the merchant after deducting all trade discount for such goods in the ordinary course of delivery, but not deducting discount for cash, and such sum shall be exclusive of special carriage, the cost of fixing, and Contractor's profit.

28.—The provisional sums mentioned in the Specification for materials to be supplied or for work to be performed by special artists or tradesmen, or for other works or fittings to the building, shall be paid and expended at such times and in such amounts and to and in favour of such persons as the Architect shall direct, and sums so expended shall be payable by the Contractor without discount or deduction, or (without prejudice to any rights of the Contractor existing under the Contract referred to in Clause No. 20) by the Employer to the said artists or tradesmen. The value of works which are executed by the Contractor in respect of provisional sums, or in additional works, shall be ascertained as provided by Clause 13. At the settlement of the accounts the amount paid by the Contractor to the said artists or tradesmen, and the said value of such works executed by the Contractor, shall be set against all such provisional sums or any sum provided for additional works, and the balance, after allowing *pro rata* for the Contractor's profits at the rates contained in the Contractor's original estimate, shall be added to or deducted from the contract sum, provided that in estimating the amounts paid as last herein provided no deductions shall be made by or on behalf of the Employer in respect of any damages paid by the sub-contractor to the Contractor, the intention being that the Contractor and not the Employer shall have the benefit of any such damages.

29.—The Contractor shall permit the execution of work by any other artists or tradesmen who may be engaged by the Employer.

30.—The Contractor shall be entitled under the certificates to

be issued by the Architect to the Contractor, and within days of the date of each certificate, to payment by the Employer from time to time by instalments, when in the opinion of the Architect work to the value of (or less at the reasonable discretion of the Architect) has been executed in accordance with the Contract, at the rate of per cent. of the value of work so executed in the building, until the balance retained in hand amounts to the sum of after which time the instalments shall be up to the full value of the work subsequently executed. The Contractor shall be entitled, under the Certificate to be issued by the Architect, to receive payment of being a part of the said sum of when the works are practically completed, and in like manner to payment of the balance within a further period of months, or as soon after the expiration of such period of months as the works shall have been finally completed, and all defects made good according to the true intent and meaning hereof, whichever shall last happen. The Architect shall issue his certificates in accordance with this clause. No certificate of the Architect shall be considered conclusive evidence as to the sufficiency of any work or materials to which it relates, nor shall it relieve the Contractor from his liability to make good all defects as provided by this Agreement. The Contractor when applying for a certificate shall, if required, as far as practicable, furnish to the Architect an approximate statement of the work executed, based on the original estimate.

81.—Should the Employer not pay the Contractor any sum certified by the Architect within the times respectively named in Clause 80, the Contractor shall give written notice to the Employer of the non-payment, and should the Employer not pay any such sum within the period of days from the date of delivery of such notice at the Employer's address or sent to him there in the ordinary course of post by registered letter, or if the Employer shall become bankrupt or file any petition for liquidation of his affairs, and if his Trustee in Bankruptcy shall repudiate this Contract, or if the Trustee shall be unable to show within days to the reasonable satisfaction of the Contractor his ability to carry out the Contract, and to make all payments due, or to become due thereunder, or if the works be stopped for months under an order of the Architect or any Court of Law, the Contractor shall be at liberty to determine the Contract by notice in writing to the Architect, and to recover from the Employer payment for all work executed and for any loss he may sustain upon any plant or material supplied or purchased or prepared for the purpose of the Contract. In arriving at the amount of such payment the rates contained in the Contractor's original estimate shall be followed, or, where the same may not apply, rates proportionate to the prices therein contained.

82.—Provided always that in case any dispute or difference shall arise between the Employer or the Architect on his behalf and the Contractor, either during the progress of the works or

after the determination, abandonment, or breach of the Contract, as to the construction of the Contract or as to any matter or thing arising thereunder (except as to the matters left to the sole discretion of the Architect under Clauses 4, 9, 16, and 19, and the exercise by him under Clause 18 of the right to have any work opened up), or as to the withholding by the Architect of any certificate to which the Contractor may claim to be entitled, then either party shall forthwith give to the other notice of such dispute or difference, and such dispute or difference shall be and is hereby referred to the arbitration and final decision of

or, in the event of his death or unwillingness or inability to act, of

or, in the event of his death or unwillingness or inability to act, of a person to be appointed on the request of either party by the President for the time being of The Royal Institute of British Architects, and the award of such Arbitrator shall be final and binding on the parties. Such reference, except on the question of certificate, shall not be opened until after the completion or alleged completion of the works, unless with the written consent of the Employer or Architect and the Contractor. The Arbitrator shall have power to open up, review, and revise any certificate, opinion, decision, requisition, or notice, save in regard to the said matters expressly excepted above, and to determine all matters in dispute which shall be submitted to him, and of which notice shall have been given as aforesaid, in the same manner as if no such certificate, opinion, decision, requisition, or notice had been given. Upon every or any such reference the costs of and incidental to the reference and award respectively shall be in the discretion of the Arbitrator, who may determine the amount thereof, or direct the same to be taxed as between solicitor and client or as between party and party, and shall direct by whom and to whom and in what manner the same shall be borne and paid. This submission shall be deemed to be a submission to arbitration within the meaning of the Arbitration Act 1889.

**NOTICE FORMS, &c., FOR USE UNDER PART VIII. OF
THE LONDON BUILDING ACT 1894.***

[COPYRIGHT.]

The following Forms, A, B, C, D, E, prepared by the Practice Standing Committee, and approved by the Council of the Institute, are for use under Part VIII. ("Rights of Adjoining Owner") of the London Building Act 1894. The Forms are the copyright of the Institute, and copies may be obtained, printed on hand-made foolscap paper, at the office, price Threepence each.

* To be obtained at the office of the Institute, price Threepence each.

FORM A.

PARTY STRUCTURES.

The London Building Act 1894.

57 & 58 VICTORIA, c. cxxiii., Part VIII., Sections 88 to 92 inclusive.

To _____ of _____
 Re Building Owner of the Premises known as _____
 and with reference to the Party _____
 separating the said Premises from the adjoining Premises on
 the _____ side thereof known as _____
 hereby give you notice that after the expiration of _____
 month from the date of service hereof
 intend to exercise the rights given to _____ by the London
 Building Act 1894, Section _____ Subsection _____
 by executing the works undermentioned, viz. :—

and proposes to commence the work on or about _____
 hereby appoint _____

Mr. _____ of _____
 to act as Surveyor.

(Signature)

Building Owner.

(Address)

Said this _____ day of _____ 190 _____

If the adjoining Owner do not within 14 days after the service of this notice express his consent thereto, he will be considered to have dissented therefrom (see Section 90), and in such case the Act requires him to appoint a Surveyor—Section 91 (1).

DEFINITIONS (Sections 5 to 8 Act).

16. The expression "party wall" means—

- (a) A wall forming part of a building and used or constructed to be used for separation of adjoining buildings belonging to different owners or occupied or constructed or adapted to be occupied by different persons; or
- (b) A wall forming part of a building and standing to a greater extent than the projection of the footings on lands of different owners.

18. The expression "party fence wall" means a wall used or constructed to be used as a separation of adjoining lands of different owners, and standing on lands of different owners, and not being part of a building; but does not include a wall constructed on the land of one owner the footings of which project into the land of another owner.

19. The expression "party arch" means an arch separating adjoining buildings, storeys or rooms belonging to different owners or occupied or constructed or adapted to be occupied by different persons or separating a building from a public way or a private way leading to premises in other occupation.

20. The expression "party structure" means a party wall and also a partition floor or other structure separating vertically or horizontally buildings,

storeys, or rooms approached by distinct staircases or separate entrances from without.

31. The expression "building owner" means such one of the owners of adjoining land as is desirous of building, or such one of the owners of buildings, storeys, or rooms separated from one another by a party wall or party structure, as does, or is desirous of doing, a work affecting that party wall or party structure.

32. The expression "adjoining owner" means the owner or one of the owners, and "adjoining occupier" means the occupier or one of the occupiers of land, buildings, storeys, or rooms adjoining those of the building owner.

NOTES.

This, as the primary notice, must be given in the case of party structures at least two months, and in the case of party fence walls at least one month, before the commencement of the work, and may be served by delivering a copy thereof at, or by sending a copy thereof by post in a registered letter to, the usual or last known residence in the United Kingdom of the person to whom it is addressed; or by delivering the same to some person on the premises to which it relates, or, if no person be found on the premises, then by fixing a copy thereof on some conspicuous part of the building to which it relates, and in the case of a railway company, by delivering a copy thereof to the secretary at the principal office of the said company.

Any notice by this Act required to be given to or served on the owner or occupier of any premises may be addressed by the description of the "owner" or "occupier" of the premises (naming the premises) in respect of which the notice is given or served without further name or description.

It is desirable to add a sketch or drawing to scale to assist the description of the situation, &c.

The proposed work may be particularised in some of the following terms (see Section 88):—

1. To make good, underpin, and repair the party structure if defective or out of repair.

2. To pull down and rebuild the party structure if so far defective or out of repair as to make such operation necessary or desirable.

3. To pull down the timber or other partition, and to build instead thereof a party wall.

4. To pull down the intermixed rooms or storeys, or part thereof, and to rebuild the same in conformity with this Act.

5. To pull down the arch or communication over the public way, or over the passage

and to rebuild the same in conformity with this Act.

6. To raise and underpin the party structure.

7. To underpin the external wall built against the party structure.

8. To pull down the party structure which is of insufficient strength for the building intended to be built, and to rebuild the same of sufficient strength for such purpose.

9. To cut into the party structure for the purpose of

10. To cut away the footings or chimney breasts, jambs, and flues, or projecting from the party structure.

11. To cut away or take down such parts of the wall or building as may be necessary in consequence of such wall or building overhanging the ground of the building owner, in order to erect an upright wall against the same.

12. To perform any other necessary works incident to the connection of a party structure with the premises adjoining thereto. But the rights in relation to the above works shall be subject to this qualification, that any building which has been erected previously to the date of the commencement of the Act shall be deemed to be conformable with the provisions of the Act if it be conformable with the provisions of the Acts of Parliament regulating buildings in London before the commencement of the Act.

12. To raise the party fence wall
 To pull down the party fence wall, and to rebuild the same as a party wall.
 And to perform any other necessary works incident to any of the above-mentioned works.

Should the Building Owner propose to erect or re-erect with the party wall any portion of his building within 10 feet of and at a greater depth than the foundations of the building belonging to the adjoining Owner, then an additional notice under Section 93 should accompany this notice (see Form B).

FORM B.

INTENTION TO BUILD WITHIN TEN FEET OF, AND AT A LOWER LEVEL THAN, ADJOINING OWNER'S BUILDING.

The London Building Act 1894.

57 & 58 VICTORIA, c. 55, s. 55, Part VIII., Section 93.

To _____ of _____
As Building Owner of the Premises known as _____
 hereby give you notice that after the expiration of two months from the date of the service hereof _____ intend to erect within ten feet of the building belonging to you on the _____ side of _____ own premises, and situate and being

a building or structure some part of which within the said ten feet and as shown on the plans and sections annexed hereto will extend to a lower level than the foundations of your building, and to exercise the rights given to _____ by the London Building Act 1894, by executing the works undermentioned, viz. :—

and _____ propose to commence the work on or about the _____

_____ hereby appoint _____

Mr. _____ of _____
 to act as _____ Surveyor.

(Signature)

Building Owner.

(Address)

Dated this _____ day of _____ 190 _____

If the adjoining Owner shall within fourteen days after being served with the above notice give a counter notice in writing that he disputes the necessity of or requires such underpinning or strengthening, a difference shall be deemed to have arisen—Section 93 (5)—and in such case the Act requires him to appoint a Surveyor—Section 91 (1).

DEFINITIONS (SECTION 5 OF ACT).

31. The expression "building owner" means such one of the owners of adjoining land as is desirous of building, or such one of the owners of buildings, stores, or rooms separated from one another by a party wall or party structure, as does, or is desirous of doing, a work affecting that party wall or party structure.

34. The expression "adjoining owner" means the owner or one of the owners, and "adjoining occupier" means the occupier or one of the occupiers of land, buildings, storeys, or rooms adjoining those of the building owner.

NOTES.

This, as the primary notice, must be given at least two months before the commencement of the work, and may be served by delivering a copy thereof at, or by sending a copy thereof by post in a registered letter to, the usual or last known residence in the United Kingdom of the person to whom it is addressed, or by delivering the same to some person on the premises to which it relates, or if no person be found on the premises, then by fixing a copy thereof on some conspicuous part of the building to which it relates, and in the case of a railway company, by delivering a copy thereof to the secretary at the principal office of the said company.

Any notice by this Act required to be given to or served on the owner or occupier of any premises may be addressed by the description of the "owner" or "occupier" of the premises (naming the premises) in respect of which the notice is given or served without further name or description.

This notice must state whether the building owner proposes to underpin or otherwise strengthen the foundations of the building belonging to the adjoining owner.

The notice must be accompanied, see Section 95 (1), by a plan and sections showing the site of the proposed building, and the depth to which the building owner proposes to excavate.

It is desirable when the building owner proposes to underpin or otherwise strengthen the foundations that he should send with the notice a further drawing, showing in detail such underpinning or strengthening.

FORM C.

EXTERNAL WALLS WITH FOOTINGS PROJECTING INTO ADJOINING OWNERS' PREMISES.

The London Building Act 1894.

57 & 58 VICTORIA, c. cccxlii, Part VIII., Section 87 (5 and 8).

To _____ of _____
As Building Owner of the Premises known as _____
 hereby give you notice that after the expiration of one month from the date of service hereof _____ intend to erect an external wall on _____ own land adjoining your land situate and being _____ on the _____ side of the said external wall, and to exercise the right given to _____ by the London Building Act 1894, by erecting a wall of the following description:—

and by placing the projecting footings and foundations of said external wall on your land.

_____ hereby appoint

Mr. _____ of _____
 to act as _____ Surveyor.

(Signature)

(Address)

Building Owner.

Dated this _____ day of _____ 190 _____

DEFINITIONS (Section 5 of Act).

31. The expression "building owner" means such one of the owners of adjoining land as is desirous of building, or such one of the owners of buildings, storeys, or rooms separated from one another by a party wall or party structure, as does, or is desirous of doing, a work affecting that party wall or party structure.

32. The expression "adjoining owner" means the owner or one of the owners, and "adjoining occupier" means the occupier or one of the occupiers of land adjacent to that of the building owner.

NOTES.

This, as the primary notice, must be given at least one month before the commencement of the work, and may be served by delivering a copy thereof at, or by sending a copy thereof by post in a registered letter to, the usual or last known residence in the United Kingdom of the person to whom it is addressed, or by delivering the same to some person on the premises to which it relates, or, if no person be found on the premises, then by fixing a copy thereof on some conspicuous part of the building to which it relates, and in the case of a railway company, by delivering a copy thereof to the secretary at the principal office of the said company.

Any notice by this Act required to be given to or served on the owner or occupier of any premises may be addressed by the description of the "owner" or "occupier" of the premises (naming the premises) in respect of which the notice is given or served without further name or description.

• It is desirable to add a sketch or drawing to scale to assist the description of the situation, &c.

Where the building owner proceeds to build an external wall on his own land, he has a right, at his own expense, at any time after the expiration of one month from the service of the notice, to place on the land of the adjoining owner, below the level of the lowest floor, the projecting footings of the external wall, with concrete or other solid substructure thereunder, making compensation to the adjoining owner or occupier for any damage occasioned thereby, the amount of such compensation, if any difference arise, to be determined in the manner in which differences between building owners and adjoining owners are directed by the Act to be determined. See Sections 87 (6) and 91 (1).

FORM D.

PARTY WALLS ON LINE OF JUNCTION OF
ADJOINING LANDS.

The London Building Act 1894.

57 & 58 VICTORIA, c. 23111, Part VIII., Section 87 (1, 2, 3, and 4).

To

of

As Building Owner of the Premises known as
hereby give you notice that desire to build a party
wall partly on own land adjoining your vacant land situate
and being
and to the of own said land.

The said party wall is desired to be of the following description:—

shall be obliged by your consent and by your furnishing
with the name of your Surveyor.

hereby appoint
 Mr. _____ of _____
 to act as Surveyor.
 (Signature) _____ Building Owner.
 (Address) _____
 Dated this _____ day of _____ 190__

DEFINITIONS (Section 5 of Act).

16. The expression "party wall" means:—

(a) A wall forming part of a building and used or constructed to be used for separation of adjoining buildings belonging to different owners or occupied or constructed or adapted to be occupied by different persons: or

(b) A wall forming part of a building and standing to a greater extent than the projection of the footings on lands of different owners.

31. The expression "building owner" means each one of the owners of adjoining land as is desirous of building, or such one of the owners of buildings, stores, or rooms separated from one another by a party wall or party structure, as does, or is desirous of doing, a work affecting that party wall or party structure.

32. The expression "adjoining owner" means the owner or one of the owners, and "adjoining occupier" means the occupier or one of the occupiers of land, buildings, stores, or rooms adjoining those of the building owner.

NOTES.

This, as the primary notice, must be given at least two months before the commencement of the work, and may be served by delivering a copy thereof at, or by sending a copy thereof by post in a registered letter to, the usual or last known residence in the United Kingdom of the person to whom it is addressed, or by delivering the same to some person on the premises to which it relates; or, if no person be found on the premises, then by fixing a copy thereof on some conspicuous part of the building to which it relates, and in the case of a railway company, by delivering a copy thereof to the secretary at the principal office of the said company.

Any notice by this Act required to be given to or served on the owner or occupier of any premises may be addressed by the description of the "owner" or "occupier" of the premises (naming the premises) in respect of which the notice is given or served without further name or description.

A sketch or drawing to scale showing the intended wall and its situation should accompany this notice, and the description should specify its thickness or thicknesses.

FORM E.

APPOINTMENT OF THIRD SURVEYOR.

The London Building Act 1894.

57 & 58 VICTORIA, c. cxxiii., Part VIII., Section 91.

WE, the undersigned Surveyors, duly appointed to act respectively on behalf of

M _____ of _____
 the Building Owner of Premises known as _____
 and for M _____ of _____
 the adjoining Owner of Premises known as _____

both of the said premises being referred to in the notice served by the said Building Owner on the said Adjoining Owner on the _____ day of _____ 190____

 Mr. _____ of _____
 as Third Surveyor.

Surveyor to the _____ (Signature)
 Building Owner _____ (Address)

Surveyor to the _____ (Signature)
 Adjoining Owner _____ (Address)

Dated this _____ day of _____ 190____

THE PROFESSIONAL PRACTICE AS TO THE CHARGES OF ARCHITECTS.*

Schedule sanctioned by the Royal Institute of British Architects, confirmed at a General Conference of Architects of the United Kingdom 1879, and revised by the Royal Institute 1898.

1. The usual remuneration for an architect's services, except as hereinafter mentioned, is a commission of 5 per cent. on the total cost of works executed under his directions. Such total cost is to be valued as though executed by a builder with new materials. This commission is for the necessary preliminary conferences and sketches, approximate estimate when required (such, for instance, as may be obtained by cubing out the contents), the necessary general and detailed drawings and specifications, one set of tracings, duplicate specification, general superintendence of works, and examining and passing the accounts, exclusive of measuring and making out extras and omissions.

2. This commission does not include the payment for services rendered in connection with negotiations relating to the site or premises, or in supplying drawings to ground or other landlords, or in surveying the site or premises and taking levels, making surveys and plans of buildings to be altered, making arrangements in respect of party-walls and rights of light, or for drawings for and correspondence with local and other authorities, or for services consequent on the failure of builders to carry out the works, or for services in connection with litigation or arbitration, or in the measurement and valuation of extras and omissions. For such services additional charges proportionate to the trouble involved and time spent are made. The clerk of the works should be appointed by the architect, his salary being paid by the client.

3. In all works of less cost than £1,000, and in works requiring designs for furniture and fittings of buildings, or for their decora-

* To be obtained at the office of the Institute, price Sixpence a copy.

tion with painting, mosaics, sculpture, stained glass, or other like works, and in cases of alterations and additions to buildings, 5 per cent. is not remunerative, and the architect's charge is regulated by special circumstances and conditions.

4. When several distinct buildings, being repetitions of one design, are erected at the same time from a single specification and one set of drawings and under one contract, the usual commission is charged on the cost of one such building, and a modified arrangement made in respect of the others; but this arrangement does not apply to the reduplication of parts in one building undertaking, in which case the full commission is charged on the total cost.

5. If the architect should have drawn out the approved design, with plans, elevations, sections, and specification, the charge is 2½ per cent. upon the estimated cost. If he should have procured tenders in accordance with the instruction of his employer, the charge is 1 per cent. in addition. Two and a half per cent. is charged upon any works originally included in the contract or tender, but subsequently omitted in execution. These charges are exclusive of the charge for taking out quantities. Preliminary sketches and interviews, where the drawings are not further proceeded with, are charged for according to the trouble involved and time expended.

6. Should the client, having approved the design and after the contract drawings have been prepared, require material alterations to be made, whether before or after the contract has been entered into, an extra charge is made in proportion to the time occupied in such alterations.

7. The architect is entitled during the progress of the works to payment by instalments on account at the rate of 5 per cent. on the amount of the certificates when granted, or alternatively on the signing of the contract, to half the commission on the amount thereof, and the remainder by instalments during their progress.

8. The charge per day depends upon an architect's professional position, the minimum charge being three guineas.

9. The charge for taking a plan of an estate, laying it out and arranging for building upon it, is regulated by the time, skill, and trouble involved.

10. For setting out on an estate the position of the proposed road or roads, taking levels, and preparing drawings for roads and sewers, applying for the sanction of local authorities, and supplying all necessary tracings for this purpose, the charge is 2 per cent. on the estimated cost. For subsequently preparing working drawings and specifications of roads and sewers, obtaining tenders, supplying one copy of drawings and specification to the contractor, superintending works, examining and passing accounts (exclusive of measuring and valuing extras and omissions), the charge is 4 per cent. on the cost of the works executed, in addition to the 2 per cent. previously mentioned.

11. For letting the several plots in ordinary cases the charge

18. When an architect takes out and supplies to builders quantities on which to form estimates for executing his designs, he should do so with the concurrence of his client, and it is desirable that the architect should be paid by him rather than by the builder, the cost of such quantities not being included in the commission of 5 per cent.

REGULATIONS FOR ARCHITECTURAL COMPETITIONS.*

APPROVED BY THE ROYAL INSTITUTE OF BRITISH ARCHITECTS.

(Revised after revision July 1905.)

If the Promoters of an intended Competition desire members of the Royal Institute of British Architects to take part therein, the conditions should be based on the following suggestions:—

1. The Promoters of an intended Competition should, as their first step, appoint one or more professional Assessors, architects of established reputation, whose appointment should be published in the original advertisements and instructions. The selection of an Assessor should be made with the greatest possible care, as the successful result of the Competition will depend very largely upon his experience and ability.

The President of the Royal Institute of British Architects is always prepared to act as honorary adviser to Promoters in their appointment of Assessors.

All the designs sent in should be submitted to the Assessors.

2. The duty of Assessors should be, after conference with the Promoters—

(a) to draw up the particulars, conditions, and suggestions, in accordance with these Regulations, as Instructions to Competitors, such documents to be so drawn up as to form an agreement between the Promoters and the Competitors, and also to advise the Promoters upon the question of cost and the amount and apportionment of the premium or premiums.

(b) to determine whether the designs conform to the Instructions, and to exclude any which do not.

(c) to advise the Promoters on the relative merits of the designs admitted to the Competition, and to make a selection in accordance with the Instructions.

Note.—It is essential in drawing up the Instructions to state definitely which of the conditions must be strictly adhered to, and which of them are merely optional or of a suggestive character.

3. No Promoter of a Competition, and no Assessor engaged upon it, nor any employé of either, should compete, or act as architect, for the proposed work.

4. The number, scale, and method of finishing of the required drawings should be distinctly set forth, and they should not be more in number, or to a larger scale, than necessary clearly to explain the design, and such drawings should be uniform in size, number, mode of colouring, and mounting. If the Assessor advises that perspective drawings are desirable, it should be so stated.

5. Competitions should be conducted in one of the following ways:—

* To be obtained at the office of the Royal Institute.

(A) By advertisement, inviting architects willing to compete for the intended work to send in designs. The Promoters, with the advice of the Assessor or Assessors, should make their selection from such designs. The author of the design awarded the first place should be employed to carry out the work.

(B) By advertisement, inviting architects willing to compete for the intended work to send in their names by a given day; with such other information as the candidate may think likely to advance his claim to be admitted to the Competition. From these names the Promoters, with the advice of the Assessor or Assessors, should select a limited number to compete, and each competitor thus selected should receive a specified sum for the preparation of his design. The author of the design awarded the first place should be employed to carry out the work.

(C) By personal invitation to a limited number of selected architects, to join in a Competition for the intended work. Each Competitor should receive a specified sum for the preparation of his design. The author of the design awarded the first place should be employed to carry out the work.

6. No design should bear any motto, device, or distinguishing mark; but all designs should be numbered by the Promoters in order of receipt. Any attempt to influence the decision of the Promoters, or of the Assessor or Assessors, should disqualify a Competitor.

7. The author of the design placed first by the Assessor or Assessors should be employed to carry out the work, and he should be paid in accordance with the Schedule of Charges sanctioned and published by the Royal Institute. If no instructions are given to him to proceed within twelve months from the date of selection, or if the proposed works are abandoned by the Promoters, then the selected architect should receive payment for his services in connection with the preparation of the competition drawings of a sum equal to 1½ per cent. on the amount of the estimated expenditure. If the said author should be subsequently employed, the 1½ per cent. previously paid to him should merge in his ultimate commission.

8. In every case the amount of premium or remuneration for the competitive designs should be fixed under the advice of the Assessor or Assessors.

9. Where a deposit is required for supplying the Instructions, it should be returned on the receipt of a *bond fide* design; or if the applicant declines to compete and returns the said Instructions, within a month after the receipt of replies to Competitor's questions. The deposit required should not exceed the sum of one guinea.

10. Each design should be accompanied by a declaration, signed by the Competitor, stating that the design is his own personal work, and that the drawings have been prepared under his own supervision.

11. A design should be excluded from a Competition—

(a) if sent in after the period named (accidents in transit excepted);

(b) if it does not substantially give the accommodation asked for;

(c) if it exceeds the limits of site as shown on the plan issued by the Promoters, the figured dimensions on which should be adhered to;

(d) if the Assessor or Assessors should determine that its probable cost will exceed by 10 per cent. the outlay stated in the Instructions, or the estimate of the Competitor should no outlay be stated. If the Assessor or Assessors be of opinion that the outlay stated in the Instructions is inadequate, he or they shall not be bound in the selection of a design by the amount named in such Instructions, but the question of cost shall nevertheless be a material element in the consideration of the award;

(e) if any of the other Instructions are violated.

12. It is desirable that all designs and reports submitted in a Competition, except any excluded under Clause 11. should, with the consent of their authors, be publicly exhibited after the award has been made, which award should be published at the time of exhibition.

13. It is essential to the success of any Competition that the Promoters should agree in their Instructions that the award of the Assessor should be adhered to unless there is some valid objection to the employment of the author of the design placed first, as to which the Assessor should be satisfied.

14. In the case of works of considerable magnitude it is desirable that three Assessors should be appointed. As stated above, the President of the Institute is always ready to advise on this or other points.

* * *The usual R.I.B.A. Scale of Charges for Assessing Competitions is the sum of Thirty Guineas plus one-fifth per cent. upon the estimated cost of the proposed building.**

But if any of the aforesaid events shall happen after the last of such payments, then no sum shall be returnable, nor shall any claim be made on the Principal or his estate in respect thereof. And the Principal doth covenant with the Father or Guardian* and the Pupil that, on

* Strike out the words "Father or" or the words "or Guardian," as the case may be.

† These will be the two further instalments above mentioned.

completion of the said term of service, or on the sooner determination of these presents as aforesaid, these presents shall be handed over to the Pupil, with a certificate of service endorsed thereon. In Witness whereof the said parties have hereunto set their hands and seals.

Signed, sealed, and delivered, &c.

CONSERVATION OF ANCIENT MONUMENTS.*

GENERAL ADVICE TO PROMOTERS OF RESTORATIONS.

[First issued in 1865; revised and enlarged in 1888.]

1. Before any alteration is decided on, a competent architect should be consulted and be requested to make careful drawings of the building, with accurate measurements. Photographs should then be taken of all objects of interest, especially such as are so dilapidated and decayed that it becomes absolutely necessary to renew them either wholly or in part. In the case of Churches, these photographs and copies of the drawings should be deposited in the Vestry, Parish Registry, or any public office in the Diocese suitable for the purpose, and the date of their consignment noted.

Any clearance of wall linings, pavements, flooring, galleries, high pews, modern wall partitions, or other encumbrances (provided that they be clearly modern), necessary before detailed arrangements are made for the restoration, should only be carried out under the direction of the architect, and after his inspection of the church; and such clearance should not include works of artistic or other interest which it is often most important to preserve. No memorial slabs, tiles, steps, or other pavements, should be removed without his special permission.

2. Careful enquiry should be made for any portions of church furniture—stained glass, sculpture, brasses—or other old work which may at any time have been removed from the building, with a view to their restoration to their proper place.

3. Buildings of the same style and character in the neighbourhood should be examined when any doubts arise as to the original design in any part.

4. Diligent search should be made for indications of ancient doorways, window openings, rearedoses, aumbries, piscinae, sedilia, Easter sepulchres, altar stones, stoups, rood staircases, hagioscopes, low side-windows, recessed tombs,

* To be obtained at the office of the Institute, price Sixpence a copy.

brasses, incised stones, encaustic tiles, or any other features of ancient character. Should any part be altogether destroyed, careful search should be made for any traces of old foundations or any detached pieces of masonry, &c., built in with the modern walls, so as to obtain a key to the original design of parts which have been defaced or destroyed. When any such stones are discovered the architect should be at once informed, in order that he may personally visit and examine the work.

5. All plastered surfaces should be carefully examined with a view to discover any remains of painting upon them, and all painted or whitewashed stone or wood work cautiously cleaned, so that no injury may be done to any painting, diapering, powdering, or other coloured design, if such exist. Where it is proposed to renew the roofs, all cleaning of the walls should be deferred until after they are protected from the weather by the erection of new roofs. Plastered surfaces of ancient date are often found, and should be preserved if possible.

6. Ancient painted glass, with the original leading and iron framework, should be carefully preserved, and never allowed to be taken out of the building, save for the purpose of re-leading when absolutely necessary, and this only by competent workmen. It is not generally desirable to remove ancient stained glass, even when small fragments only remain, from the place it occupies, without first of all learning with certainty that it is not in its original position. If new stained glass be inserted in old windows, care should be taken that the glass be fitted to the old tracery, and that the latter be not replaced by new, as is too often the case. Old clear glass may, for the sake of its superiority of tint, often be re-used with advantage.

The external halves of mullions, sills, tracery, and jambs should, where practicable, have such parts as are decayed restored by dowelling new stone on to the old internal halves, which may be frequently done without taking down the uninjured part of the window.

The ancient ironwork of windows should not be taken out, even when the outer half of the stonework is removed, and it should be retained when new stained glass is put in: the glass, if needful, being designed with regard to it. So much mischief has been done by the destruction of old ironwork throughout the country that this requirement should be most rigidly enforced.

7. Any remains of churchyard walls, with their buttresses, copings, or piers, churchyard or other crosses, heligates,

external monumenta, head-stones, stone coffins, &c., should be preserved.

Marks of foundations, trenches, moats, &c., should be examined and noted.

8. Where it appears certain upon investigation that the earth has accumulated above the ancient level it should be removed; but even this should not be done without professional supervision, as it is often attended with risk. Great care must be exercised where several ancient levels exist, in determining which shall be retained, and when the floors are set on a slant, as is often the case, the original lines should, as far as possible, be carefully maintained.

9. In the restoration of stonework, no scraping or tooling of the surface of the stone should take place under any circumstances. As a general rule, no new stonework should be inserted, unless under very strong evidence that it is a renewal of the ancient design and necessary to be done. If any part of the masonry be damaged or decayed, it should not necessarily on that account be wholly rebuilt or renewed, but those parts only which are thoroughly defective should be cut out and carefully renewed with stone of similar character, and always the best of its kind.

No wholesale pulling down should be done unless unavoidable.

In many cases walls which are in themselves sound, but out of plumb, may be restored to the perpendicular without difficulty by use of screwjacks, and without disturbance of the external face.

10. If it be found absolutely necessary to construct a new roof, owing to the existing roof being extremely decayed or modern, one of the two following courses should be adopted: either the old roof where it exists should be carefully reproduced, or the new roof should be made of the same pitch as the original roof, which may generally be discovered by the dripstone against the tower or other walls. Where the dripstones of two or three periods exist against these walls, the question of the pitch of the roof will be one of some difficulty; but, as a rule, it may be said that where there is a clerestory it will be well to keep to the pitch of the roof erected at the time it was built, and where there is none, then to the pitch of the earliest roof. Where lead is taken off it ought in all cases to be replaced. Flat roofs are by no means always to be condemned.

The question of the pitch of a new roof depends on so many circumstances that it must be left to the judgment of the architect, but the shape of the old roof should not

be lightly altered. In some peculiar cases where there are objections to the external appearance of the flat pitch of an old roof, the flat roof may be retained internally, and the high pitch roof erected over it. Flat roofs are quite as worthy of preservation as any others.

In districts where stone slates are used for the old churches it is most desirable that they should be retained in preference to plain tiles or other covering.

Frequently the ends alone of beams and rafters are decayed through leakages of gutters. An old roof should not for this reason be discarded, but new ends should be scarfed on.

11. Ancient buildings will generally be found to have been altered at various periods; when this is the case the whole of the old work should be preserved and exposed to view, so as to show the history of the fabric, with its successive alterations, as distinctly as possible. This may often be accomplished by showing all the stone and rubble work internally, and leaving it unplastered. It should, however, be understood that this is for the purpose of showing constructional features of interest, and is not intended as a recommendation that old plaster should be stripped off, or that rough stone rubble work should be exposed to sight where originally plastered.

12. In no case should anything be done to monumental effigies, brasses, sculpture of figures and foliage, or other ornamental work, beyond carefully cleaning, or resetting, them if necessary, and taking care that they shall be protected from further injury and restored, where requisite, to their original place. In all church restorations one main object should be to get rid of modern additions put up without regard to architectural propriety; but on this account the church restorer should not set up an ideal model, but regard the productions of every age with as much respect as is compatible with the restoration and use of the building. Still, if monuments deface good old work, they should be refixed in some spot where they can mutilate nothing.

Fonts, piscines, &c., may be carefully repaired, if necessary, to fit them for use, but all features not involved in the stability of the building should be left as far as possible untouched. Fonts, for instance, should on no account be scraped, or re-tooled, as has been too often the case. Features not in use, such as stoups, aumbries, &c., should be left untouched.

13. Mediaeval chancel screens should on no account be moved from their old places, but be carefully restored. They seldom present any obstruction to sight or sound. Ancient

seats in the body of a church should, where practicable, be retained in their old arrangement. Jacobean and later wood-work is often quite as valuable artistically, and interesting historically, as mediæval work.

14. Where curiosities, fragments of sculpture or wrought stone or wood-work, of tiles or glass too small for re-use, are discovered in the course of the work, it is desirable that they should all be carefully kept in some case or chest in the church, arranged and labelled with a short description of their history. This case should be under lock and key. Care should be taken that the architect's Specification gives the contractor no claim upon any such things as old materials.

15. In the above suggestions it has been assumed that the promoters of the work have a proper appreciation of what is due to an ancient building, and are anxious to carry out its restoration in the most conservative manner possible; such, however, is unfortunately not always the case. The promoters of restorations, whether clergymen or laymen, are sometimes more bent upon carrying out new works than preserving old: it cannot be therefore too strongly insisted upon, that in dealing with an ancient church or other building, the object should be not simply to put it in good repair, but to preserve it as an authentic specimen of the ancient arts of our country. Every old building has historical value, and it should be remembered that this is gone when its authenticity is destroyed.

The duty, therefore, of all those having charge of ancient buildings should be not so much the renewal of what remains as its preservation; and this should embrace every portion of original work which it is in any way possible to save, for it must be remembered that new work is of no value or interest except so far as it serves to preserve the ancient design, and that no interest will ever be attached to it unless original parts remain to attest its authenticity.

There is ample scope for original design in additions which are necessarily made to the size of old buildings, and in these it is usually best to allow the architect to be independent. His work will then have its due historical value; whereas, if he only make a very good copy of the old work to which he is adding, great confusion will be felt hereafter as to which part of the work is old and which modern.

16. A vigilant guard should be kept against the indulgence of individual fancies for or against particular features or styles; and especially against the theory, sometimes held, that a restored church must be purged of all features sub-

sequent to some favourite period. All such ideal notions are in the highest degree dangerous, and have rendered many a restored church actually worthless as an historical monument.

17. In vain are all the efforts of Central or Diocesan Architectural or Archaeological bodies, with their several visits to buildings of historic interest, if those having charge of precious remains do not cordially embrace such advice as is here laid down for their conservation, embodying principles impossible to controvert, and the neglect of which has been the cause of many districts being robbed of their antiquities through rash and unskilful operations. Influential landed proprietors, the clergy, churchwardens, and others, are earnestly reminded of the responsibility which rests upon them to resist all needless destruction of ancient work, and to seek competent professional aid in cases of interference with an ancient building. Questions of considerable embarrassment constantly arise in connection with edifices of mixed dates, involving constructional and chronological difficulties, points requiring the judgment of the most experienced architect and antiquary. Moreover, the successful preservation of old work must largely depend upon the builder. Care, therefore, should be taken to select a man who will take an interest in the work, and who can be trusted to carry out faithfully the instructions of the architect. To prevent the mischief that may otherwise be done in the absence of the architect, it is always desirable, and generally essential, that there should be a resident clerk of the works, familiar with church restoration, appointed by the architect.

18. Vigilance is required to stop injuries to ancient buildings; the utmost watchfulness should be shown by those residing at or near the spot where even well-considered works are in operation, to see that they are really executed in a conservative manner. However frequently the architect may visit the works under his superintendence, he cannot at all times prevent his orders being disobeyed, and a daily and almost hourly inspection is often necessary. Intelligent interposition will always be welcome to a zealous architect, and, by gaining time, will often prevent irreparable mischief. Lovers of antiquities, ecclesiologists, and antiquaries, in the locality, will always do good service by carefully watching works in progress in old buildings.

19. The foregoing suggestions and remarks have been drawn up with special reference to the Restoration of Churches: the same spirit ought to actuate those who have

the care or ownership of ancient civil or military buildings, because from their comparative rarity they are even more valuable as historical monuments than the churches.

HINTS TO WORKMEN ENGAGED ON THE REPAIRS AND RESTORATION OF ANCIENT BUILDINGS*

[First issued in 1865; revised and enlarged in 1888.]

Excavator.—In making excavations in or about an ancient building, be careful to preserve every fragment of wrought stone, tiles, or other ancient objects, which you may meet with.

If you find old foundations, bases of pillars, ancient tombs, stone coffins, pavements, or other work, which appear to be in their original place, do not remove, but carefully expose them to view, in order that proper notes may be taken of them; and that, if possible, the work may be left permanently in its place.

In making drains or excavations around old buildings, do not cut off any of the projecting footings, however rough, and be careful how you expose them, unless they are examined and underplumbed by the mason. Do not permanently expose to view, or to the air, work which clearly was not intended to be so exposed. See that your drains are so managed as to draw the water from the foundations and not towards them.

Mason.—If directed to clean off whitewash, or paint, from internal or other stonework, recollect that the object of so doing is to bring to view the original surface, not to destroy it. You must, therefore, avoid the use of the tool, and study what is the best way of removing the whitewash without in any degree disturbing, much less removing, the ancient surface. Remember that the mode of tooling or working the ancient stone is a subject of interest and curiosity, and that the old tool-marks must therefore not be disturbed: more especially does this caution apply to early Romanesque work, where the very coarseness of the stone, and rudeness of execution, are important evidences of date. If indications of ancient colouring be found on the surface of the stone, they should be carefully preserved.

The mode of removing whitewash depends much on the nature of the material. With some materials nothing is so good as the Manchester card, but in each case experiments should be tried to ascertain the best mode. *It is better to leave the whitewash wholly or partially on the stone, than to use*

* To be obtained at the office of the Institute, price Sixpence each.

any tool which would disturb the surface of the stone itself; for it is far better to have the old surface with the white-wash than not at all.

When the removal of plaster shows the marks of ancient string-courses, weatherings, windows, &c., do not conceal these again, nor yet tool them off; indeed, as a general rule, *no tool should be used upon the surface of ancient stonework.*

In removing broken or decayed work, do not take out any but such as is so far gone as to have lost *all* its original form; better have broken or half-decayed original work than the smartest and most perfect new work.

Especially avoid using a brush with colours to harmonise the new and old work; the old work should be left in all its characteristic tone, and no attempt should be made to harmonise the hue in tint.

Never remove or clean the old mossed surfaces.

In obtaining the true sections of mouldings, &c., for new portions, the most scrupulous accuracy is necessary, as the more delicate features are often to be traced only in a few of the more protected parts.

In taking down portions of walls, be most careful of any old mouldings, or other wrought stone, found embedded in them, and note *where* they were found, as the fragments have usually been stowed away near to their original site. If any windows or other features are found which have been before concealed, do not disturb them till seen by the architect. Encaustic tiles, or other ancient paving, should be preserved where found, when possible, and the patterns should guide the design of new paving. Ancient monumental remains are never to give way to new encaustic tile flooring, but are in every case to retain their old position.

Carver.—The same principles as are laid down for the mason apply to the carver, but in a higher degree, inasmuch as ancient *carving* is still more valuable than ancient *masonry*. When engaged on an old building, bring your own talent and fancy wholly into subjection to the work in which you are engaged, and only seek to preserve and perpetuate the ancient design. Never attempt to dress up or restore old carving.

Plasterer.—If directed generally to remove the plastering, first examine it carefully by removing the whitewash here and there, and if it be found to contain oil painting, &c., do not disturb it without calling the attention of the architect, clerk of the works, or other persons capable of judging of it.

If it be absolutely necessary to take down the wall so covered with old paintings, it might be preserved in the following manner:—the backing of the wall might be carefully

taken away, leaving only a thin piece behind the painting; this might then be backed up with cement and pieces of large size enclosed in wooden frames. The painting might then be removed and deposited in a museum.

As a general rule, ancient plastering should not be removed, but only repaired where necessary. Let new plastering on old walls be thin, and carefully thinned off to meet the stone dressings, as in ancient work. All plasterings should be of a kind suited to receive decorative painting.

Carpenter.—Do not be too ready to condemn an ancient roof, or other piece of timber work. Remember that it has a value quite independent of the cost of renewing it. An ancient roof, carefully preserved by splicing and other means, is infinitely more valuable than a copy of the same in new timber. Very serious defects may be repaired, if you view the roof as a thing of value, and apply your mind to ascertain the best way of *securing* and *preserving* it. If you do not do this, very trifling defects may be made the excuses for destroying the finest ancient roof. Do not as a general rule *take an old roof off* to repair it, but rather repair it in its place, *bay by bay*; and only in the Spring or Summer months. By a good system of tarpaulins, or other means, keep the roof dry during the operation: exposure to wet is fatal to old timber.

Do not disturb ancient surfaces of timber, nor coat old timber with oil or varnish. Generally (as directed to the mason) remember that your great object is *preservation* rather than renewal. Preserve with the utmost care all remains of coloured decoration on old woodwork.

Joiner.—The same general rules as are laid down for the carpenter apply to the joiner.

Preserve ancient seating in its proper place if possible, and where practicable avoid removing it for repairs, except by special direction. Every remnant of old woodwork, of whatever description, should be carefully preserved, and, where possible, in its place; or, if it has already been removed, it should be brought back to its place if possible.

Glazier.—Be most careful in preserving ancient stained glass. Never remove it from the windows in which it is found (unless under special direction of the architect), but preserve it carefully in its place, however rough and imperfect, or however small the fragments.

Painter.—Preserve all remnants of ancient painting, but do not attempt their restoration unless under special direction.

Smith.—Preserve all remnants of metal-work in their places if possible; and never remove old saddle-bars or

stanchions from windows except under direct instructions from the architect.

To Contractors and Workmen in General.—Never forget that the reparation of an ancient church, or other remnant of ancient architecture, however humble, is a work to be entered upon with totally different feelings from a new work, or from the repairs of a modern building.

The object is not simply to put the work in good repair, but to *preserve* and *perpetuate* an authentic specimen of the ancient Arts of our country. Every ancient building has historical value, and though you may feel that its state of repair would at first sight suggest its renewal, or that you could execute the work better anew, never forget that all its value is gone when its authenticity is destroyed; and that your duty is not its *renewal* but its *preservation*.

Be careful, therefore, never lightly to condemn an ancient object as being too far gone to be preserved; as every such work destroyed is a national loss.

THE R.I.B.A. STANDARD SIZE OF BRICKS.

The following standard, agreed upon between the Institute and the Brick Makers' Association, and drafted in consultation with these Bodies and representatives of the Institution of Civil Engineers, came into force on the 1st May 1904.

The Council recommend that members should insert this standard in the specifications under the title of "The R.I.B.A. Standard Size of Bricks."

1. The length of the brick should be double the width, plus the thickness of one vertical joint.

2. Brickwork should measure four courses of bricks and four joints to a foot.

Joints should be $\frac{1}{8}$ inch thick and an extra $\frac{1}{8}$, making $\frac{1}{4}$ for the bed joints to cover irregularities in the bricks. This gives a standard length of $9\frac{1}{4}$ inches centre to centre of joints.

The bricks, laid dry, to be measured in the following manner:—

- A. Eight stretchers laid square end and splay end in contact in a straight line to measure 72 inches.
- B. Eight headers laid side to side, frog upwards, in a straight line to measure 85 inches.
- C. Eight bricks, the first brick frog downwards and then alternately frog to frog and back to back, to measure $21\frac{1}{4}$ inches.

A margin of one inch less will be allowed as to A, and a half-inch less as to B and C.

This is to apply to all classes of walling bricks, both machine- and hand-made.

SUMMARY OF PROCEEDINGS, 1904-1905.

GENERAL MEETINGS, &c.

1. (*Ordinary*) 7 Nov. 1904.—Decease announced of Edmund Knill Freeman (F.), Frank Mansoh Kent (F.), Arthur Green (F.), Percy William Barnett (F.), Ernest Simm (A.), William Henry Arber (F.), Edward Baldwin John Knox (A.), John Lewis Thomas (H.A.), and Professor Robert Kerr (F.). Vote of condolence.—Results of Statutory Examinations announced.—Nomination of Candidates for membership.—President's Opening Address: Vote of thanks.—*JOURNAL*, 12 Nov. 1904.
2. (*Ordinary*) 21 Nov.—Decease announced of John Norton (F.) and Henry Ernest Stillion (A.). Vote of condolence.—Paper by W. Dunn (F.), on CONSERVATION OF STRUCTURES OF HISTORICAL INTEREST, and Paper by L. G. Monbell, MODERN CONSERVATION IN HAMBURG'S FINE-ARTS.—Discussion.—*JOURNAL*, 29 Nov.
3. (*Business and Ordinary*) 5 Dec.—Decease announced of Charles John Foxworth (A.) and Francis William Bedford (F.).—Election of Members.—Resolution passed that election of provincial candidates be postponed pending carrying out of formalities prescribed by by-law.—Results announced of November Examinations.—Expulsion of Members under By-law 20.—Vote of thanks for donations to Library.—Resolution that the Institute Registration Committee be allowed to co-opt additional Members.—Proposition accepted on behalf of the Council that it be referred to the Council to consider the advisability of appointing an Official Assessor of Architectural Competitions.—Discussion: Award of Papers on Historical Consents.—*JOURNAL*, 10 Dec.
4. (*Ordinary*) 19 Dec.—Nomination of Candidates for Membership.—Paper by Lucy W. Hodge (F.), BUILDING BY-LAWS APPLICABLE TO RURAL DISTRICTS, and Paper by James S. Gibson (F.), ARCHITECTURAL DESIGN AND THE LONDON BUILDING ACT.—Discussion.—*JOURNAL*, 24 Dec.
5. (*Business and Ordinary*) 9 Jan. 1905.—Decease announced of Arthur Edmund Peckus (F.), John Thomas Wimperis (F.), and Arthur Charles Wilmshurst (A.).—Election of Members.—Discussion of Papers on BUILDING BY-LAWS read at previous meeting resumed.—Resolution expressing the opinion that the Local Government Board should obtain powers to reform by-laws now in force in rural districts, &c.—Proposals for Amendment of London Building Act discussed.—*JOURNAL*, 14 Jan. 1905.
6. (*Ordinary*) 23 Jan.—Motion re Amendment of Minutes lost.—Decease announced of Thomas Blashill (F.).—Vote of condolence.—Paper by James Ramsome on ECONOMIC ARCHITECTURE IN INDIA.—Discussion.—Deal of Award of Prizes and Scholarships read.—*JOURNAL*, 29 Jan.
7. (*Ordinary*) 6 Feb.—Decease announced of George Henry Stanger (F.) and Walter Aston (F.).—Announcement of Mr. J. T. Wimperis's bequest of £1,000 to the Institute.—Announcement of presentation to the Institute by Sir Aston Webb, B.A., and J. Macdonald Anderson, F.R.S., of shares in the Architectural Union Company for the purposes of Architectural Education.—Candidates nominated for membership.—Announcements of Council's nominees (Sir Aston Webb, B.A.) for the Royal Gold Medal.—President's Address to SOCIETY.—Criticism by A. U. Pritchard (F.), of Designs and Drawings submitted and Papers on STRUCTURES.—Presentation of Prizes.—*JOURNAL*, 11 Feb.

8. (*Ordinary*) 20 Feb.—Decease announced of James Thomson (F.) and James Barnes (F.).—Paper by Reginald Bloomfield, A.R.S., on ARCHITECTURAL EDUCATION.—Discussion: Speeches by Sir Arthur Hucker, F.R.S., Sir Aston Webb, R.S., T. G. Jackson, R.S., and others.—JOURNAL, 25 Feb.
9. (*Special Business, and Ordinary*) 6 March.—Election of Sir Aston Webb, R.A., as Royal Gold Medallist.—Decease announced of George Fowler Jones (F.).—Vote of thanks for donations to Library.—Poll for Election of Candidates to Fellowship: election negative.—Election of Members.—Paper by H. Phillips Fletcher (F.): "Some Impressions of Sir Lord Emsworey."—Discussion.—JOURNAL, 11 March.
10. (*Ordinary*) 20 March.—Decease announced of Charles Bennett Asling (A.) and Professor Ludwig Peter Fenger (H.G.M.).—Paper on DEMOCRATIC PRACTICE by Sir William Richmond, K.C.B., B.A. (H.A.), Alfred East, A.R.A. (H.A.), and Solomon J. Solomon, A.R.A. (H.A.).—Discussion.—JOURNAL, 25 March.
11. (*Ordinary*) 3 April.—Decease announced of Frederick S. Waller (R.F.), Charles Parryes (A.), and Samuel Joseph Nisall (A.).—Vote of condolence.—Papers on the PLANNING OF CITIES AND PUBLIC SPACES by John W. Shippam (F.) and Professor Derwent Pitt (F.).—Discussion: Speeches by C. Mallows Freeman, K.C. (H.A.), Walter Crane, and others.—JOURNAL, 8 April.
12. (*Ordinary*) 17 April.—Decease announced of Francis Edward Caws (F.): Vote of condolence.—Paper by Mervyn Macartney on GARDEN ARCHITECTURE.—Discussion.—JOURNAL, 22 April.
13. (*Seventy-first Annual General Meeting*) 1 May.—Decease announced of Hedley John Price.—References to the late Lord Grimthorpe.—Discussion of the Annual Report.—Appointment of Statutory Board of Examiners.—ARCHITECTURAL COMMITTEES: Revised Regulations and Discussion.—JOURNAL, 6 May.
14. (*Ordinary*) 15 May.—Expulsion of Member.—Nominations for membership.—Paper on SCULPTURE IN ITS RELATION TO ARCHITECTURE by C. Stirling Lee and W. Reynolds Stephens.—JOURNAL, 20 May.
15. (*Ordinary*) 6 June.—Decease announced of Robert Phillips Whellock.—Vote of thanks for donations to Library.—Scrutineers' Report re Election of Council and Standing Committees, 1905-6.—Election of Members.—Resumed Discussion on Regulations for Architectural Competitions.—Motion by Horace T. Bonner (A.) re Nomination by President of Council of Architects to compete negative.—JOURNAL, 10 June.
16. (*Ordinary*) 19 June.—Presentation of the Royal Gold Medal to Sir Aston Webb, R.A.—Addresses by the President and the recipient.—Presentation of the Portrait of Sir William Emerson, Past President, painted by J. J. Shannon, R.A.—Vote of Thanks to the Painter.
17. (*Special requisitioned by members*) 3 July.—Decease announced of Charles Henry Howell (R.F.) and Joseph Wood (F.).—Discussion of amendments to the REGULATIONS FOR ARCHITECTURAL COMMITTEES.—Adoption thereof as revised.—JOURNAL, 22 July.

Bankers.

Lloyds Bank (Harris Parquhar Branch), 18, St. James's Street, S.W.

The object of the Society is to afford assistance to those in necessitous circumstances who have been engaged as Architects, or Architects' Assistants, and to their Widows and Children.

Members consist of Subscribers, Annual and for Life.

An Annual Subscriber of One Guinea has the privilege of recommending annually two Applicants for relief, and one more for every additional Guinea annually subscribed.

A Donation of Ten Guineas constitutes a Life Member, who is entitled to the same privileges as an Annual Subscriber of One Guinea.

A Donor of Twenty Guineas is entitled to recommend four Applicants; a Donor of Thirty Guineas, six Applicants, and so on.

A Donor of Ten Guineas, or a Donor of Five Guineas being also an Annual Subscriber of One Guinea or more, is eligible to become a Member of the Council.

REPORT OF THE COUNCIL OF THE ARCHITECTS' BENEVOLENT SOCIETY.

Adopted at the Annual General Meeting held 9th March 1905.

The Council of the Architects' Benevolent Society in submitting their fifty-fourth Annual Report to members have to record a year in which possibly the existence of the Society was never more amply justified. Whatever may be the cause, the fact remains that more numerous applications for grants have been received than usual, and many of these applications have called for special sympathy and help. The Council fortunately have been able to meet the unusual demands made upon them, and have expended £950 10s. in the payment of pensions and in the relief of deserving cases—the largest sum ever distributed by the Society in one year. It is interesting to note, as indicating the steady progress of the work, that the sum granted to applicants ten years ago (1894) was £589. At the end of last year, however, the Income Account showed a deficit of £27 9s. 1d. The Council hope that, on a previous occasion when the Income had been exceeded, a generous donor may come forward to make good the deficit.

During the year £591 5s. was received in subscriptions and £298 10s. 8d. in dividends from invested capital. The sum of £46 14s. 2d. was also received from the Inland Revenue in response to a claim for the rebate of two years' Income tax.

With regard to the Capital Account, the Council have to report a falling-off in the donations, the sum of £17 16s. 10d. only having been received—the smallest for many years. In addition to this sum, there was, however, a balance brought forward from the preceding year of £212 11s. 3d., and legacies were received from the executors of the late Mr. H. Sarah Stoll of £100, and of Mr. Chester Foulsham of £5 5s. The Council were, therefore, enabled to add to the investments by the purchase of £200 New Zealand 3 per cent. Fixed Stock at a cost of £174 11s. The sum total of the Society's invested capital now amounts to £12,771 3s. 3d. Notwithstanding the depreciation in recent years in the value of Consols, of which the Society holds £4,700, the total investments retain their cost value at current market prices. There is a further sum of £181 6s. 8d. standing in the credit of the Capital Account in the hands of the bankers. Members are reminded that all donations are placed to the credit of this account, and that it has been the aim of successive Councils for many years to increase the stability of the Society by adding to the amount of its investments. It is much to be regretted, therefore, that the amount received in donations last year should be so much below the average.

As the majority of cases relieved by the Society come from the provinces, the Council note with much satisfaction that an appeal made in recent years to the Societies allied to the Royal Institute of British Architects has met with a sympathetic response. Last year the Leeds and Yorkshire Architectural Society (through their President, Mr. Hartman Buisson) gave a donation of £10 10s. and added their name to the list of annual subscribers. Towards the close of the year Mr. William Glover, a past President and liberal benefactor of the Northern Architects' Association, promised, through the honorary secretary of that association (Mr. W. B. Munster), a donation of £200, with an expression of the wish that the Northern Association might have the privilege of supporting the claims of applicants coming from the counties of Northumberland and Durham. The cordial thanks of the Society are due to Mr. William Glover for his handsome gift.

Sixty-six applicants have been assisted during the year, and ten pensioners have been paid their annual grants. One pensioner died during the year.

The Red Book was issued as usual in June, not only to members of the Society, but to every member of the Royal Institute of British Architects.

The expense incurred, however, was hardly justified by the result, the number of annual subscribers being only increased by seven. In view of the comparatively small number of architects in active practice who contribute to the Society, the Council make an earnest appeal for more liberal support.

Six meetings of the Council have been held during the year; the average attendance of members being eight.

The Council have to record with deep regret the death of Mr. Arthur Green, Mr. Thomas Blundell, and Mr. Henry A. Hunt, all of whom had taken an active interest in the work of the Society. Mr. Hunt was one of the Society's auditors, and Mr. Green its largest annual subscriber.

Owing to the death of Mr. Hunt it was necessary to nominate a second auditor. Mr. Henry Lovegrove kindly undertook to fill the vacancy, and, with Mr. John T. Christopher, audited the statement of accounts, which is submitted herewith.

The following gentlemen, being the five senior members, retire by rotation from the Council:—Mr. J. J. Burnet, Mr. J. H. Christian, Mr. B. St. A. Rounseau, Mr. G. Scammell, and Mr. E. A. Gruning. To fill the vacancies caused by these retirements the Council have the pleasure to nominate Colonel Robert W. Edis, C.B.; Mr. H. L. Florence, Mr. G. Bertram Palmer, Mr. F. W. Hunt, and Mr. Walter L. Spiers.

The cordial thanks of the Society are due to the Royal Institute of British Architects for office accommodation and for the use of rooms in which to hold their meetings, and to the Secretary (Mr. W. J. Locke) and his staff for their always helpful courtesy in any matter connected with the work of the Society.

The Chairman (Sir Aston Webb, B.A.), in moving the adoption of the Report and balance-sheet, said that, as in the past, there had been before them many sad cases during the last year, and all members of the Council knew how urgent were the needs of the Society to meet such cases. It was the duty year by year of every occupant of that Chair to tell the same sad tale, and to ask for help—a tale of sorrow and sadness which through ill-health or accident might at any time apply to those who worked with and relied by the use of their brains and hands as architects did. The officers of the Society carried out their work with the greatest possible care, and he had never heard that those who applied for help, who were often in a nervous and sensitive condition, and who were particularly liable to feel any slight or hurt, had ever received anything but the most sympathetic treatment at the hands of the Society. He must again mention the small amount of subscriptions received in comparison with the number of architects, and they must really try to increase the number of subscribers in some way. He happened to be connected with the Artists' General Benevolent Institution—which included all artists—whose income was about £4,000, and the subscriptions to the Architects' Benevolent Society compared very unfavourably with that. Only 5 or 6 per cent. of the members of the Royal Institute of British Architects subscribed to the funds, which seemed incredible. The Society did not go outside the profession for help; as they desired to do what they could for themselves amongst themselves. He was glad to see that Mr. William Morris had helped the Society in the way he had, and that he had done it in his lifetime, while he could receive their thanks and gratitude, and he hoped others might follow his example. Mr. T. E. Colclough had given a donation of £25, and he (the speaker) would be glad to follow his lead and subscribe the same amount.

The Report and balance-sheet having been adopted, promises of £25 from Mr. E. T. Hall and Mr. Wm. Woodward were made.
