Call No. 351.20954/G.I.

P R E F A C E.

IN the lists of Officers serving in India, which are contained in pages 5 to 958 of this volume, only substantive appointments are, as a rule, shown; and, except in the case of members of the Indian Civil Service, the names of Officers drawing substantive pay of less than Rs. 700 a month are not included. The names shown in italics are those of Officers who are in foreign service, supernumerary, seconded, or employed outside their own departments.

To meet the difficulty that arises from the lack of uniformity in India in the use of surnames, Indian names are in doubtful cases twice indexed, and cross references are made in the Record of Services. Rulers of States are shown under the names of their States.

The principle of selection followed in the Record of Services (pages 401 to 714) is explained on page 401.

The "Index of Subjects and Appointments" is on pages iv to xvi, and the "Index of Names" on pages 728 to 795. Names in the Honours Lists and Record of Services are shown in the Index of Names by "H" and "R," with a note prefixed referring to the Alphabetical Lists on pages 139 to 186 and pages 401 to 714.

It is requested that intimations of errors in the lists, or of omissions, may be addressed to the Editor of the India Office List, India Office, Whitehall, London, S.W.

Extract from the Rules for the use of the Library :—

1. The use of the Library (including the Reading Room) is restricted to (a) members of the establishment of the India Office, (b) persons named in the India Office List, (c) gazetted officers of the Indian Army or of the British Army in India, and (d) such other persons as have previously obtained tickets for that purpose.
2. Books can be borrowed only with the sanction of the Librarian, who shall require from each person an acknowledgment for whatever work he may be permitted to consult or take away on loan. In the case of an Oriental manuscript, the approval of the authorities must first be obtained: and, except in special cases, a bond for the safe return of the manuscript will be required.

PRINTED BOOKS AND LITHOGRAPHS—continued.

3. No book thus borrowed shall be kept *more than three months*; but when returned, it may be borrowed again by the same reader, unless wanted by another reader, or required in the Library for any purpose. In the case, however, of scholars engaged in special investigations, it shall be in the power of the Librarian to extend the loan of any book without insisting on its being previously returned, provided that the borrower has certified in writing that the book is in good condition. No periodical shall be kept longer than one week. A work may be recalled at any time, at the discretion of the Librarian.
4. The Library is generally open on ordinary weekdays from 10 a.m. to 5 p.m., and on Saturdays till 1 p.m. It is closed on Good Friday and the day following, Christmas Day, His Majesty's Birthday, and the Bank Holidays; also during one month in each year for cleaning purposes. No book or MS. will be issued less than half-an-hour before the time of closing.

INDIAN AGRICULTURAL SERVICE.

1. The appointments in the Indian Agricultural Service include those of Deputy Director of Agriculture, Agricultural Chemist, Economic Botanist, Mycologist, Entomologist, Bacteriologist, Professors of Agriculture, Chemistry and Botany at Agricultural Colleges, and the like. Some of these are included in the Imperial Department of Agriculture under the direct control of the Government of India, but the majority are included in the Departments of Agriculture of the several provinces of India. In some cases Candidates will be appointed direct to these posts, but in most cases they will undergo a further course of training in India in Indian agriculture, and will be appointed to posts for which, in the opinion of the Government, they are considered suitable, on the regular establishment as vacancies occur.

2. Appointments are made by the Secretary of State for India as occasion may require, and enquiries regarding them should be addressed to the Revenue Secretary, India Office, London, S.W.1. Applications should be submitted upon the printed form provided for the purpose.

3. Candidates must, as a rule, be not less than 23, nor more than 30 years of age. Exceptions will be made as regards the maximum limit only in the case of appointments requiring special qualifications. Candidates must furnish evidence of having received a good general education, and of possessing a thorough knowledge of the science of agriculture or of the particular science required for the appointment applied for. Preference is given to distinguished graduates of Universities in the British Empire. Every Candidate must be a natural born British subject, and at the time of his birth his father must have been, and must since have continued to be, a British subject, but the Secretary of State for India reserves the power to relax this rule in special cases.

4. Preference will be given to Candidates who have served in His Majesty's Forces during the war. Completed years of such service rendered after the age of 23 will, subject to a maximum of four years, count for pay, promotion, and pension, but not for leave.

5. Candidates whose applications are selected for consideration will be required to present themselves for an interview at the India Office

at their own expense. In selecting Candidates for appointment to administrative posts (those of Deputy-Director of Agriculture), weight will be given to the possession of (a) a University degree in honours in science or the diploma of a recognised school of agriculture or other like distinction; (b) practical experience of farming. Candidates for research and teaching posts must possess a University degree or other similar qualification in the special science concerned, and preference will ordinarily be given to those who have spent a period of two years in research work under a scientist of established reputation and have studied the science from an agricultural point of view. Importance is also attached to bodily activity and ability to ride, and selected Candidates are required to undergo an examination by the Medical Board of the India Office as to their physical fitness for service in India.

6. Newly appointed officers are required, before leaving this country, to enter into an agreement with the Secretary of State embodying the conditions of their appointment. They are provided at the expense of Government with a first-class passage to India, the cost of which they will be required to refund if they voluntarily relinquish the service of Government before the close of three years from the date of appointment. If an officer's service be determined at the expiration of the term of three years, or if prior to the expiration of that term he be compelled by ill-health (certified to the satisfaction of Government) to give up the service, a first-class passage to England will be provided at the expense of Government. Pay commences from the date of arrival in India.

7. An officer appointed to the Agricultural Service will be on probation in India for three years. He will be required to pass an examination in a vernacular language within such period after his arrival in India as the Government of India may prescribe. His appointment may be cancelled for failure to pass this examination, or at any time for unfitness or misconduct. At the end of his three years' term of probation the Government of India will decide whether to retain or dispense with his services.

8. Officers of the Agricultural Service are expected to give their whole time to the duties of the service, and are liable to transfer from one appointment or province to another.

The overseas pay is admissible only in the case of officers of non-Indian domicile.

Officers are eligible for promotion to the selection grade as a reward of merit after 15 years' service.

This grade is limited to 15 per cent. of the Imperial Service officers on the provincial cadres. Officers are also eligible for Directorships of Agriculture on a scale of Rs. 2,000—30—2,250 a month, and for the post of Agricultural Adviser to the Government of India, which carries a salary of Rs. 2,750 a month, with a rent-free house at Pusa.

10. Officers holding appointments of heads of sections at Pusa or other permanently sanctioned posts in those sections receive local (or Pusa) allowances. These are classified as duty allowances, and, as such, count towards leave allowances and pension. The normal allowance is Rs. 150 a month, but heads of sections receive

Rs. 200 a month, which, on completion of 15 years' total service, is increased by annual increments of Rs. 50 a month, subject to a maximum of Rs. 400 a month. Officers of less than three years of completed service or on a scale of pay less than that of an officer in his fourth year of service under the normal time scale are not entitled to Pusa allowance.

The grant of local allowances is, in each case, conditional on approved service, and the Government reserves to itself full discretion as to granting, withholding, or withdrawing them.

11. Principals of Agricultural Colleges receive a duty allowance of Rs. 150 a month in addition to their pay under the time-scale. An officer serving in Burma is entitled to a local allowance varying from Rs. 90 to Rs. 165 a month according to salary, in addition to the other emoluments admissible to him.

12. Members of the Indian Agricultural Service draw travelling allowances for journeys on duty as officers of the first class under the Civil Service Regulations.

13. On being confirmed in his appointment, a probationer will become eligible, as from the date of his arrival in India, for leave allowances and pension, under the Regulations applicable to the Department. These regulations are liable to be modified by the Government of India from time to time.

14. Officers who are appointed after reaching 25 years of age may reckon as service for superannuation pension the actual period not exceeding five years by which their age on appointment exceeds 25 years. (The war service pension concession referred to in clause 4 is not in addition to this pensionary concession, but officers already recruited or to be recruited will receive whichever concession is the more favourable.)

15. Retirement is ordinarily required at 55 years of age, but an officer may, for special reasons, be retained after attaining that age.

Leave and Pensions.—The Rules under which leave and pensions may be granted are summarized on page 276 *et seq.* Officers are required to subscribe to the General Provident Fund.

INDIA OFFICE,

- (a) Educational work in veterinary colleges;
- (b) Horse and mule breeding ;
- (c) Cattle disease and cattle breeding.

2. Appointments are made, as vacancies occur, by the Secretary of State for India, and applications regarding them should be addressed to the Commerce and Revenue Secretary, India Office, London, S.W. 1.

3. Candidates must be British subjects, but the Secretary of State reserves the power to relax this rule in exceptional cases. Candidates must not (except on special grounds to be approved by the Secretary of State) be over 30 years of age, but this does not apply to Candidates who have served for at least one year during the war in His Majesty's Forces, or who have been discharged, after less than one year's service, on account of wounds or sickness resulting from such service. Candidates must possess a diploma from the Royal College of Veterinary Surgeons. Evidence of a knowledge of bacteriology, and of capacity for carrying out original research, will be specially taken into account in estimating the claims of Candidates. Good health, a sound constitution, and active habits are essential, and Candidates must be certified by the Medical Board of the India Office to be physically fit for service in India.

The overseas pay is admissible only in the case of officers of non-Indian domicile.

Officers are eligible for the selection grade as a reward of merit after 15 years' service. This grade is limited to 15 per cent. of the total strength. Officers who may be appointed Veterinary Advisers may, if otherwise eligible, be admitted to the selection grade, even though this limit is exceeded.

Candidates who have served with His Majesty's Forces, if appointed, will reckon for pay, pension and promotion (but not for leave) each completed year of their service with the Forces up to a maximum of four years. Thus a Candidate who had served four complete years would start on a monthly pay of Rs. 700 per month.

Extra allowances of Rs. 100 a month are attached to certain appointments, and house rent or free house accommodation is allowed in certain cases.

5. Appointments will be made on probation for three years. Officers may be required to qualify in the vernacular language of the province, within such period from the date of arrival in India, or of transfer from one province to another, as the Government of India may prescribe.

6. On appointment a free first-class passage to India will be granted, subject to the condition that its cost shall be refunded in the event of an officer resigning the service, on grounds other than certified ill-health, within three years from the date of his arrival in India. If on the expiry of the three years of probation the officer's service is determined, or if he is compelled by certified ill-health to resign the service before such expiry, he will be provided with a free first-class passage back to England.

7. Private practice may be allowed, unless Local Governments consider that it will interfere with the efficient performance of official duties.

INDIAN CIVIL VETERINARY DEPARTMENT—continued.

8. Each officer will be required, before leaving this country, to enter into an agreement with the Secretary of State for India embodying the conditions of his appointment.

9. Officers who, after satisfactory completion of the period of probation, remain in the service of the Government of India, will become entitled to the benefit of the Leave and Pension Rules for European Officers contained in the Indian Civil Service Regulations (regarding which information can be obtained from the Revenue Secretary, India Office, London, S.W. 1). Officers who are appointed after reaching 25 years of age may reckon as service

for superannuation pension the actual period not exceeding five years, by which their age on appointment exceeded 25 years. The war-service pension concession referred to in clause 4 is not in addition to this pensionary concession, but Officers will receive whichever concession is the more favourable. Retirement is obligatory at 55 years of age.

10. Officers will be required to make provision for their families by subscribing to a Provident Fund under such regulations as Government may from time to time lay down.

INDIA OFFICE,

November, 1921.

ECCLESIASTICAL ESTABLISHMENTS (CHURCH OF ENGLAND).

1. Appointments of Chaplains on Probation are made from time to time as vacancies occur.

2. Candidates for these appointments must be Priests who are between the ages of twenty-seven and thirty-four years, and have been for three years altogether in Holy Orders.

3. Applications for nominations should be submitted to the Indian Chaplaincies Board of the Church of England. The candidate should fill in the form of application, which may be obtained from—

(a) The Secretary to the Board (General Sir Robert I. Scallan, G.C.B., K.C.I.E., D.S.O., The Church House, The Avenue, Worcester).

(b) The Chairman of the Board (the Rev. Canon B. K. Cunningham, M.A., O.B.E., Chaplain to His Majesty The King, Westcott House, Cambridge).

(c) Any one of the Commissaries of the Bishops of the Indian Province.

(d) The Secretary, Judicial and Public Department, India Office, Whitehall, S.W. 1.

4. The form should be returned, as soon as possible, to the Secretary to the Board (see (a) above), together with the following, viz. :—

(a) Certificate of birth.

(b) A medical certificate from the candidate's medical adviser to the effect that he believes him to be fit for work in India.*

(c) A statement of war service (if any) with the Royal Navy, the Army, or the Royal Air Force.

5. If the Board are satisfied with the result of their enquiries, they will arrange for the candidate to appear before them at a date of which due notice will be given by the Secretary to the Board.†

* This certificate will not exempt the candidate from the necessity of examination by the Medical Board of the India Office nor guarantee him against rejection by that Board. It merely furnishes a *prima facie* ground for proceeding with his application.

† Third-class return railway fares will be refunded by the Secretary to the Board to candidates residing outside the London area.

ECCLESIASTICAL ESTABLISHMENTS (CHURCH OF ENGLAND)—continued.

6. On receiving from the India Office notice of a vacancy the Board will recommend to the Secretary of State, for nomination, the candidate whom they consider most suitable, and will forward with their recommendation the testimonials and replies to references which they have received concerning the candidate.

7. Candidates who at the time of their application are working in India should comply with the procedure indicated in paragraph 3 above, and in addition should forward a letter from the Bishop of the Diocese in which they are working, recommending them for appointment as Chaplain. They will not be required to appear before the Board.

8. *A Chaplain serves on probation for two years, at the end of which he is, if reported fit by a Medical Board in India, and considered qualified by the Bishop of his Diocese confirmed as a Junior Chaplain.

9. A free passage will be provided by the India Office; but if the Chaplain within three years, on grounds other than certified ill-health, relinquishes his appointment, or is removed from it for misconduct, he is liable to be called upon to refund the cost of such passage. The Indian Local Governments, however, have power to waive the claim to a refund in cases not involving misconduct, when satisfied that the circumstances justify the concession. A Chaplain who, having completed the period of probation, is not confirmed in his appointment, is not liable to refund the cost of his passage to India.

10. As soon as arrangements have been made for his passage the Chaplain will receive a certificate of appointment.

11. Chaplains must, except as stated below, proceed to their destination at some date within four months from the date of their first nomination for appointment by the Secretary of State, and if they fail to do so, without leave obtained from the Secretary of State, their appointments will lapse. Chaplains will not, as a general rule, be allowed to time their departure so as to arrive in India, for the first time, during the hot weather, *i.e.*, between the 1st April and the 1st October.

12. The payment of salary and service counting for leave and pension will not commence until the date on which the Chaplain reports his arrival either at the headquarters of the Diocese to which he is attached or at any other station to which he may be appointed and to which he may proceed direct.

13. A Chaplain will be required from the date of his appointment on probation to provide a pension for his family under the regulations of the Indian Military Widows' and Orphans' Fund, a copy of which can be obtained on application to the Government in India, or to the Director of Funds, India Office. This pension is in addition to any pensions or compassionate allowance granted under the Royal Pay Warrant for the time being in force.

14.—(i) The rates of pay are as follows:—

	Rs. p.m.		Rs. p.m.
1st year	600	11th year	900
2nd "	625	12th "	950
3rd "	650	13th "	1,000

8th "	775	18th "	1,250
9th "	800	19th "	and
10th "	850	thereafter...	1,300

(ii) No pay higher than Rs. 600 will be granted to any Chaplain appointed at an earlier age, until he has attained the age of 28 years. On attaining that age he will be entitled to draw pay at the rate of Rs. 625 per mensem, if he has already put in 12 months' service, and from that point will advance by the ordinary annual increments.

(iii) A Chaplain, who on appointment is over 30 years of age, will start in the time-scale one year in advance of the minimum for each completed year, up to a maximum of five years, by which his age on appointment exceeds 30 years.

(iv) Time spent in India on service under an Additional Clergy Society or on other approved service, will count for increments of pay up to a maximum of two years.

(v) The concessions announced in sub-para. (iii) and (iv) above will not be cumulative.

15. A Chaplain may be permitted to resign his appointment on completion of five years' service, provided he has given six months' notice of his wish to do so; and, provided his service has been satisfactory, he will be granted a bonus of £400, as well as a free return passage from India. In order to obtain the free return passage to England the Chaplain must preter his claim to such passage within three months after the determination of his service, and must leave India within such time as he may be directed by Government.

* A priest resident in India at the time of his nomination as a probationer will be allowed to count in his probationary period any service rendered by him under an Additional Clergy Society or other service approved by the Government in India, with the exception that service rendered before the probationer had attained the age of twenty-seven years, and before he had been in Holy Orders for three years, will not be counted. Probationary service which is not passed under the Government counts towards pension but not for leave or gratuity. No extension of the limit of age for nomination as a probationer is allowed on account of such service. Probationary service which is passed under the Government, counts in all cases towards leave, gratuity and pension.

ECCLESIASTICAL ESTABLISHMENTS (CHURCH OF ENGLAND)—continued.

17. Chaplains retiring on medical certificate after less than 10 years' residence in India receive a gratuity of £80 for each completed year of residence.

18. A Chaplain, who having completed the period of probation, is not confirmed in his appointment is eligible for the above-mentioned gratuity in respect of service passed subsequent to his nomination as a probationer (*vide* footnote on p. 219), provided that his non-confirmation is not due to misconduct on his part. A similar gratuity may also be granted to a Chaplain who resigns his appointment *during his probation* with the full approval of the Bishop of the Diocese, and for reasons considered as satisfactory by the Local Government, provided that the Chaplain has completed at least one year's actual residence in India subsequent to his appointment as a probationer.

19. A Local Government in India may require a Chaplain to retire at the age of 55 years, provided that he has rendered sufficient service to qualify for a retiring pension.

INDIA OFFICE,

29th April, 1921.

APPENDIX.

NOTE REGARDING THE TREATMENT OF MILITARY SERVICE DURING THE WAR.

1. War service of any kind, prior to appointment to the Indian Ecclesiastical Establishments, shall not dispense with the administrative necessity for a period of probation before confirmation in the grade of Junior Chaplain, nor shall it count as service for leave, invalid gratuity, or short-service gratuity.

2. War service in His Majesty's forces, whether as Chaplain or in a combatant capacity, may, up to a maximum of four years, count for increase of pay and for promotion to the grade of Senior Chaplain, provided that no service rendered before the age of 27 years—the minimum age limit for chaplaincies—shall so count. Increase of pay under this rule is admissible to a Chaplain on probation before confirmation as a Junior Chaplain.

3. All service rendered as a Chaplain in the British Army during the war may count as both service and residence for retiring pension and as residence for invalid pension, the War Office having agreed to accept pensionary liability for such service.

4. Service of other kinds in His Majesty's forces during the war, also service as Chaplain in the Dominions' forces, for which the War Office do not accept pensionary liability, may

count as under 3 above up to a maximum of two years, provided that no such service rendered before the age of 27 years shall so count.

5. War service will not count for retiring pension in any case in which the Chaplain, having been appointed to the Indian Ecclesiastical Establishments at an age exceeding 30 years, is entitled to an equal or greater concession under Article 599† (Note 2), Civil Service Regulations. In cases in which the concession admissible in respect of age on first appointment is less than that granted for war service, the latter concession only shall be granted.

6. In any case in which a Chaplain is eligible for concessions in respect of probationary service§ not passed under Government, and also for similar concessions in respect of war service under 2, 3, and 4 above, he shall be entitled to whichever concession is the greater, but not to both.

JUDICIAL AND PUBLIC DEPARTMENT,

INDIA OFFICE,

September, 1920.

* Pensions paid in India will be issued in rupees and converted at the rate of exchange declared to exist on the date on which payment falls due.

† A Chaplain appointed at an age exceeding 30 years, is entitled to add to the period of his residence and service for retiring pension, but not for invalid pension or gratuity, the period by which his age may have exceeded 30 years at the time of appointment, provided that five years shall be the maximum period which can be so added (Article 599 C.S.R., Note 2).

ECCLESIASTICAL ESTABLISHMENTS (CHURCH OF SCOTLAND).

1. The appointments of Chaplains of the Church of Scotland on probation are made from time to time by the Secretary of State for India, according as vacancies occur.

2. Candidates for these appointments must have been licensed for three years and be under thirty-four years of age.

3. Applications for nominations should be submitted to the General Assembly's Committee on Indian Churches along with testimonials based on a personal knowledge of the candidate's qualifications. Full particulars should be given as to the candidate's family, age, places of education (both school and college), and occupation since leaving college. The Committee on Indian Churches will recommend to the Secretary of State for nomination the candidate whom they consider most suitable, and will forward with the recommendation all the particulars stated above.

4. *A Chaplain serves on probation for two years, at the end of which he is, if reported fit by a Medical Board in India, and considered qualified by the Presidency Senior Chaplain of his Presidency, confirmed as a Junior Chaplain.

5. A free passage will be provided by the India Office, but if the Chaplain within three years, on grounds other than certified ill-health, relinquishes his appointment, or is removed from it for misconduct, he is liable to be called upon to refund the cost of such passage. The Indian Local Governments, however, have power to waive the claim to a refund in cases not involving misconduct, when satisfied that the circumstances justify the concession. A Chaplain who, having completed the period of probation, is not confirmed in his appointment, is not liable to refund the cost of his passage to India.

6. As soon as arrangements have been made for his passage the Chaplain will receive a Certificate of Appointment.

7. Chaplains must, except as stated below, proceed to their destination at some date within four months from the date of their first nomination for appointment by the Secretary of State; and if they fail to do so, without leave obtained from the Secretary of State, their appointments will lapse. Chaplains will not, as a general rule, be allowed to time their

departure so as to arrive in India, for the first time, during the hot weather, *i.e.*, between the 1st April and the 1st October.

8. The payment of salary, and service counting for leave and pension, will not commence until the date on which the Chaplain reports his arrival either at the headquarters of the Presidency to which he is attached, or at any other station to which he may be appointed and to which he may proceed direct.

9. A Chaplain will be required from the date of his appointment on probation to provide a pension for his family under the regulations of the Indian Military Widows' and Orphans' Fund, a copy of which can be obtained on application to the Government in India, or to the Director of Funds, India Office. This pension is in addition to any pensions or compassionate allowance granted under the Royal Pay Warrant for the time being in force.

10. (i) The rates of pay are as follows:—

	Rs. p.m.		Rs. p.m.
1st year	... 600	11th year	... 900

(ii) No pay higher than Rs. 600 will be granted to any Chaplain appointed at an earlier age, until he has attained the age of 28 years. On attaining that age he will be entitled to draw pay at the rate of Rs. 625 per mensem, if he has already put in 12 months' service, and from that point will advance by the ordinary annual increments.

(iii) A Chaplain who, on appointment, is over 30 years of age will start in the time-scale one year in advance of the minimum for each completed year, up to a maximum of five years, by which his age on appointment exceeds 30 years.

(iv) Time spent in India on service under an Additional Clergy Society or on other approved service, will count for increments of pay up to a maximum of two years.

(v) The concessions announced in sub-*paras.* (iii) and (iv) above will not be cumulative.

* A clergyman resident in India at the time of his nomination as a probationer will be allowed to count in his probationary period any service rendered by him under an Additional Clergy Society or other service approved by the Government in India. Probationary service which is not passed under the Government counts towards pension but not for leave or gratuity. No extension of the limit of age for nomination as a probationer is allowed on account of such service. Probationary service which is passed under the Government counts in all cases towards leave, gratuity and pension.

ECCLESIASTICAL ESTABLISHMENTS (CHURCH OF SCOTLAND)—*continued.*

11. A Chaplain may be permitted to resign his appointment on completion of five years' service, provided he has given six months' notice of his wish to do so; and provided his service has been satisfactory, he will be granted a bonus of £400, as well as a free return passage from India. In order to obtain the free return passage to England the Chaplain must prefer his claim to such passage within three months after the determination of his service and must leave India within such time as he may be directed by Government.

13. Chaplains retiring on medical certificate after less than 10 years' residence in India receive a gratuity of £80 for each completed year of residence.

14. A Chaplain who, having completed the period of probation, is not confirmed in his appointment, is eligible for the above-mentioned gratuity in respect of service passed subsequent to his nomination as a probationer (*vide* footnote on page 219), provided that his non-confirmation is not due to misconduct on his part. A similar gratuity may also be granted to a Chaplain who resigns his appointment *during his probation* with the full approval of the Local Government, provided that the Chaplain has completed at least one year's actual residence in India subsequent to his appointment as a probationer.

15. A Local Government in India may require a Chaplain to retire at the age of 55 years, provided that he has rendered sufficient service to qualify for a retiring pension.

APPENDIX II.

INSTRUCTIONS TO CANDIDATES AFTER THEIR NOMINATION BY THE SECRETARY OF STATE.

When a Candidate has received a Notification from the India Office that the Secretary of State is prepared to nominate him for appointment to a chaplaincy on probation, he should forward the following documents to the Clerk of the Presbytery of Edinburgh, which inducts to their office Chaplains nominated by the Secretary of State for India:—

1. Letter of acceptance of nomination.
2. Certificate of licence if a licentiate; of ordination if ordained.

3. Certificate of character from the Presbytery in which he has been residing; and in the case of the candidate residing out of Scotland, sufficient proof that he is of good moral character, and still retains his status as a Minister or licentiate of the Church of Scotland.

INDIA OFFICE,

April, 1921.

* Pensions paid in India will be issued in rupees and converted at the rate of exchange declared to exist on the date on which payment falls due.

† A Chaplain appointed at an age exceeding 30 years is entitled to add to the period of his residence and service for retiring pension, but not for invalid pension or gratuity, the period by which his age may have exceeded 30 years at the time of appointment, provided that five years shall be the maximum period which can be so added. (Article 599 C.S.R., Note 2.)

INDIAN EDUCATIONAL APPOINTMENTS.

1. The Indian Educational Service comprises those posts in the Educational Department to which appointments are made by the Secretary of State for India, and is thus distinguished from the Provincial Educational Services to which appointments are made by the Local Governments in India.

2. The Indian Educational Service consists of two main branches, the teaching, including Principalships and Professorships in the various Government Colleges and Head Masterships in certain High Schools; and the administrative, including Inspectorships of Schools; but officers may be transferred at the discretion of Government from one branch to the other, and the conditions of pay and service are the same for both. It also includes certain special appointments, such as those of Superintendents of Schools of Art, for which special qualifications are required and special terms of engagement are prescribed. Officers of the teaching branch may be required to undertake duties in connection with the supervision of students in hostels or boarding houses, and with the direction of their studies and recreations.

Appointments are occasionally made by the Secretary of State to posts that are not included in the Indian Educational Service. In such cases the rates of salary and conditions of appointment are notified separately, and the provisions of this memorandum do not apply to them.

SELECTION OF CANDIDATES FOR APPOINTMENT.

3. Appointments are made by the Secretary of State for India as occasion may require. Only laymen are eligible, and applications should be addressed in covers marked "C.A." to the Secretary, Board of Education, Whitehall, London, S.W. Scottish candidates should apply to the Secretary, Scottish Education Department, Whitehall, London, S.W. Indian candidates should apply to the Local Government of the province in India to which they belong, and not to the Board of Education.

4. Candidates must as a rule be not less than 23, nor more than 30 years of age, but exceptions are sometimes made as regards the maximum limit only. Candidates must be British subjects, and must furnish evidence of having received a liberal education.

5. The application should be submitted upon the form provided for the purpose, and should be accompanied by *copies* of not more than six testimonials, which will be retained.

6. When a vacancy occurs that is to be filled by recruitment in England, the normal procedure now is that it is referred in the first instance to the Board of Education, who communicate it to the Scottish Education Department. Both Departments take steps to make the initial appointment known, not only to persons likely to know of suitable candidates but also to such applicants already on their lists as appear to possess the necessary qualifications. All the applications which are received are examined

by the Board of Education, or in the case of Scottish candidates by the Scottish Education Department, and the candidates who seem to be the most suitable are asked to appear before the Selection Committee which has been constituted by the Secretary of State for India in Council. After all the selected candidates have been interviewed by this Selection Committee, a recommendation is submitted by the Committee to the Secretary of State for India.

7. In selecting candidates for appointment, experience in teaching will be regarded as indispensable, and weight will be given to the possession of (a) a University degree in Honours, or equivalent distinction; and (b) qualifications in special subjects, depending on the nature of the vacancy to be filled. In selecting candidates for inspecting appointments, weight is given to linguistic talent, capacity for organisation and knowledge, practical or theoretical, of educational methods.

GENERAL CONDITIONS OF ENGAGEMENT.

8. A candidate selected for an appointment will have to be examined by the Medical Board of the India Office, or, if he is in India, to undergo such medical examination as may be prescribed. If the result of this examination is satisfactory, he will be required to sign an agreement to serve the Government of India for two years. In the course of that period, during which he will be regarded as on probation, he will be required to pass such examination or examinations as for the time being may be prescribed in the recognized vernaculars of the Presidency or Province in which he is stationed. If during his probation he is transferred to another Province and is required to take up the study of a different vernacular, the two years allowed for passing will reckon from the date of transfer. If he has given satisfaction during the probationary period his services will in all probability be retained. His appointment may be cancelled at the end of the period for failure to pass the examinations above mentioned, or at any time during his service for unfitness or misconduct.

In the case of candidates not in India at the time of appointment, a free first-class passage to India will be provided, and the cost of the journey from the port of debarkation in India to the place of duty will be refunded on application in India. If for any cause other than physical or mental infirmity the officer resigns his appointment, either during his two years of probation or during the three years immediately subsequent thereto, he will be liable to be called upon to refund the cost of his passage to India. If, on the other hand, he should during the first two years of his service be compelled by ill-health to quit the service while in India, he will be provided with a free first-class passage from India to England, and if on the termination of the period of probation he decides not to remain in India, or if on the termination of that period Government decides not to retain his services, a first-class passage to England will be granted. In the last event three months'

EDUCATIONAL APPOINTMENTS—continued.

notice will be given, and the resignation of an officer on the expiry of the term covered by his agreement is regulated by a similar condition. Except as provided above, an officer may not resign his appointment without previous sanction in writing.

9. Officers of the Indian Educational Service are expected to give their whole time to the duties of the Service. The salaries paid are as shown in Appendix I, and commence on the date on which an officer reports his arrival to the Government of the province to which he is posted. The posts of Director of Public Instruction are normally held by members of the Indian Educational Service, but power is reserved to appoint to a vacancy from outside the Department in exceptional circumstances when the requirements of the post cannot otherwise be met. Head Masters are eligible for subsequent transfer to inspectorships or, if qualified, professorships. In all cases, increments of salary are given for approved service only.

Quarters are provided for a few of the Head Masters, Professors, and Principals, but usually an officer has to arrange for his own board and lodging. Members of the Indian Educational Service draw travelling allowances for journeys on duty as officers of the first class under the Civil Service Regulations.

For some years the exchange value of the rupee was about sixteen pence, but has recently fluctuated. No guarantee as to exchange value in the future can be given.

10. Officers of the Indian Educational Service recruited from the United Kingdom are eligible

for leave and pension under the rules in the Civil Service Regulations ordinarily applicable to the European civil officers of Government. A summary of these rules, and also of those relating to the Provident Fund, will be found on page 276 *et seq.* In the case of an officer who is engaged in the first instance on probation, but whose services are permanently retained, the period for which he was on probation counts as service for pension. An officer does not contribute towards pension, but he is required to contribute to the Provident Fund.

TEMPORARY APPOINTMENTS.

11. The Secretary of State is sometimes requested by the Government of India to supply persons to fill temporary vacancies in the Indian Educational Service, generally professorships in Colleges.

Such appointments are made for not less than a university year (about nine months), with a prospect, in the case of thoroughly approved service, of future selection to fill either a temporary or a permanent appointment.

The salary ordinarily follows the time-scale given in Appendix I.

A free passage (first-class) to India is given, and a free return passage on the termination of the engagement, provided it is claimed within six months from that date.

26th January, 1920.

INDIAN FOREST SERVICE.

ORDINARY REGULATIONS AS TO THE APPOINTMENT OF PROBATIONERS.

1. *Appointments.*—In making appointments, the Secretary of State for India in Council acts with the advice of a Selection Committee.

2. *Applications for Appointment.*—Applications for appointment must be made on a printed form to be obtained from the Secretary, Commerce and Revenue Department, India Office, Whitehall, London, S.W., and cannot be considered unless received not later than 1st July, 1922.

3. *Age Limit.*—Candidates must be not less than 19 but under 22 years of age on the 1st January, 1921.

4. *Nationality, &c.*—No person will be deemed qualified who shall not satisfy the Secretary of State:—

(i) That, save as hereinafter provided he is a British subject.

(ii) That if he (being a British subject) or his father or his mother was not born within his majesty's Dominions and allegiance, then at the time of his birth his father was a British subject or a subject of a State in India, and that such father still is or continued to be until his death a British subject or the subject of such State in India.

Provided that a ruler or subject of any State in India in respect of whom the Governor-General in Council has made

a declaration under section 96-A of the Government of India Act, 1915, as amended by section 3 of the Government of India (Amendment) Act, 1916, may be considered eligible.

An European candidate must be prepared to give an undertaking, if selected, that he will not marry before he reaches India. If he marries, after giving such an undertaking, he forfeits his appointment. Every candidate must be of good physique, and must produce evidence of character to satisfy the Secretary of State for India in Council that he is suited for the Indian Forest Service.

5. *Qualifications.*—Candidates must have obtained a degree with Honours in some branch of Natural Science* in a University of England, Wales, or Ireland, or have passed the Final Bachelor of Science Examination in Pure Science in one of the Universities of Scotland.† A degree in Applied Science will not be considered as fulfilling these conditions. Candidates are required to produce evidence that they have a fair knowledge of either German or French. Weight will be attached to the possession of a diploma or degree in Forestry.

Note.—Applications for appointments will be accepted from candidates who, on the 1st July, 1922, have already sat at an examination for a degree as mentioned above, but who have not learned the result of the examination.

* A Moderatorship in Natural Science or Experimental Science at the University of Dublin will be considered as fulfilling these conditions.

† Graduates in Forestry at the University of Edinburgh are regarded as satisfying the requirements of this paragraph if they pass the Final Examination of that University in some one branch of Natural Science embraced in the degree in Pure Science.

INDIAN FOREST SERVICE—continued.

6. Should there in any year be more candidates considered to be qualified in every respect than vacancies to be filled, the Secretary of State reserves the right to require them to pass a competitive examination conducted by the Civil Service Commissioners, on the results of which their final selection would depend. Particulars of this examination will be found in Appendix I.

7. *Medical Examination.*—Selected candidates are required to undergo a strict examination by a Medical Board at the India Office, at which particular stress is laid on good vision and hearing, and to satisfy the Secretary of State for India that they are physically fit for service in the Indian Forest Department.

Candidates who do not satisfy the Secretary of State for India that they are physically fit for appointment to the Indian Forest Service are not admitted to the competitive examination mentioned in Regulation 6.

8. *Period of Probation.*—Before appointment to the Indian Forest Department, a probationer is required:—

- (i) to have obtained, either before selection as probationer, or within the period of two years' probation, the degree or diploma in Forestry at Cambridge, Edinburgh or Oxford University. Probationers may elect to spend the probationary period at any one of these Universities;
- (ii) to have undergone a special course of instruction in Forestry, under the direction and supervision of the Director of Indian Forest Studies appointed by the Secretary of State for India in Council;
- (iii) to have passed an examination in Forest Engineering, and in certain special subjects, namely, Systematic Botany of Indian Trees, Indian Geology, Forest Law, Indian Working Plans, and, if required, an Indian vernacular language;
- (iv) to have undergone a final competitive examination in Forestry. (See Appendix II);
- (v) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation is in ordinary cases two years. The Director of Indian Forest Studies instructs probationers in each case as to the order and manner in which they should fulfil these various requirements.

9. *Charges.*—The Probationers are required to defray all expenses of lodging, board, tuition, and excursions to forest centres in the United Kingdom while at the University.

10. *Allowances.**—The Secretary of State for India in Council makes payments to each Probationer at the rate of £300 a year, not

exceeding a total of £600. In the case of probationers of Indian domicile the rate will be £350 a year, not exceeding a total of £700. These payments are ordinarily made on the following dates:—

	Europeans.	Indians.
<i>First Year—</i>		
On the 15th October ...	£ 50	£ 75
On the 15th December ...	75	100
On the 15th March ...	75	75
On the 1st July ...	100	100
	—300	—350
<i>Second Year—</i>		
On the 15th December ...	75	100
On the 15th March ...	75	75
On the 1st July ...	100	100
On the 15th October ...	50	75
	—300	—350
	600	700

The cases of Probationers whose probation does not extend over the full period of two years will be specially considered.

For tours made on the Continent under the instructions of the Director of Forest Studies, subsistence and travelling allowance will be paid by the Secretary of State for India in Council, at such rates as he may from time to time fix. The fees of the local forest officers at the centres visited will also be paid by the Secretary of State.

The grant of the allowances is subject to the following conditions:—

- (a) that the progress of the Probationer in his studies is satisfactory;
- (b) that the Probationer gives security to refund the payments in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 13, or failing to join the Indian Forest Service at the end of the period of probation.
- (c) That the probationer undertakes to refund, in proportions fixed under the terms of his agreement, the payments, together with the cost of his first-class passage to India, in the event of his leaving the Service during the first five years from the date of his appointment.

11. *Conduct.*—Every Probationer is required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State, and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he is liable to have his name removed from the list of Probationers.

12. *Appointment and Seniority.*—Probationers who comply with the requirements of Regulation 8 within the sanctioned period of time

* The Secretary of State for India gives notice that the amount of these allowances will be reconsidered in 1923 with a view to possible reduction with effect from the instalment payable in October 1924.

INDIAN FOREST SERVICE—continued.

and also satisfy such other tests as may be prescribed, are appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. No Probationer will be confirmed as a member of the Indian Forest Service who fails to profit by the course of training, or who appears, in the light of the experience acquired as to his capacity and qualifications during the probationary period, to be unsuited for the work of a forest officer. The position of the Assistant Conservators in the provincial Forest Lists is determined by the Secretary of State for India in Council on the Report of the Director of Indian Forest Studies.

Probationers are allowed at the end of the period of probation to state their preference in respect of the Provinces to which they desire to be allotted; but the distribution is made to the several Provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

Probationers are informed that officers of the Provincial Forest Service, if promoted to the Imperial Forest Service, may be given rank in the latter service according to the pay they receive; and it is therefore possible that probationers recruited under these regulations may find that Provincial officers are, on such promotion, placed above them on the general seniority list. Pay is, however, on a time scale to the 22nd year in the Imperial Forest Service, and promotion beyond the

time scale period will be strictly by selection, without reference to seniority.

13. *Articles of Agreement.*—A Probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

INDIAN GEOLOGICAL SURVEY.

CONDITIONS FOR APPOINTMENTS.

1. Applications for appointment should be made on a printed form to be obtained from the Industries Secretary, India Office, London, S.W. 1. Appointments are made as occasion may require by the Secretary of State for India on the recommendation of a Committee including one or more geologists. Candidates must, if required, attend at the India Office, at their own expense, for a personal interview. Every candidate must be a British subject, and at the time of his birth his father must have been, and must have since continued to be, a British subject; but power is reserved to the Secretary of State to make exceptions in special cases.

2. The age of candidates should ordinarily not exceed 25, but this rule may be relaxed in exceptional cases. Every candidate must be in sound bodily health, and will be required to satisfy the Medical Board at the India Office of his physical fitness in all respects to perform the duties of the Geological Survey, which involve considerable fatigue and exposure.* Unmarried candidates are preferred.

3. Preference will be given to candidates who have served in His Majesty's Forces during the war. Completed years of combatant service will, subject to a maximum of four years, count for pay and promotion, but not for leave, while, as to pension, officers retiring after 20 and less than 25 years' service will be allowed to count a maximum of two years, and those retiring after 25 years' service a maximum of three years.

4. Besides a good general education, a sound education in geology is essential: a University degree and a knowledge of French or German will be regarded as important qualifications; and certificates of good character will be required. Candidates must also have had one or two years' practical training in mines, or in technical laboratories, as may be required by the Government of India.

The overseas pay is admissible only in the case of officers of non-Indian domicile.

A local allowance of Rs. 150 per mensem is granted to the officer doing the work of Palaeontologist at headquarters. The officer holding the appointment of Museum Curator also receives allowance of Rs. 150 per mensem. The allowances are classed as duty allowances.

No allowance of the nature of exchange compensation is given.

6. Pay commences from the date of arrival in India. Travelling allowances regulated by the rules applicable to the Department are allowed at a rate calculated to cover actual expenses of tentage and locomotion.

7. A first-class passage to India is given subject to the condition that its cost shall be refunded in the event of an officer resigning the service, on grounds other than certified ill-health, before the expiry of the period of probation.

8. First appointments are probationary for two years, at the end of which time the probationer, if found qualified and retained in the Department, will reckon his service for leave and pension from the date of arrival in India. If, on the expiry of the period of probation, the officer's service is determined, or if he is compelled by certified ill-health to resign the service before such expiry, he will be provided with a free first-class passage back to England.

9. Under ordinary circumstances all Assistants, unless they have special claims from previous training and experience elsewhere, will enter the Department in the lowest class. The first increase of pay takes effect from the date on which the Assistant shall be declared to have passed the ordinary examination in the language of the country by the first or lower standard, according to the general rules provided for such examinations.

This annual increase will in all cases be granted only on the certificate of the Head of the Department, that the Assistants so recommended have fully deserved it by the intelligence and zeal with which their duties have been performed.

* See Regulations as to Physical Examination, page 273A *et seq.*

INDIAN GEOLOGICAL SURVEY—continued.

10. Promotion to the grade of Superintendent will depend on qualification and merit and on the existence of vacancies in that grade. While local experience and training must always hold a very prominent place in estimating the position or the promotion of Assistants, it must be distinctly understood that mere seniority of service, unaccompanied by proved ability and steady devotion to duty, gives no claim to promotion into the higher grades of the staff of the Survey.

11. The leave and leave allowances of officers of the Department are governed by the provisions of Fundamental Rules, and pensions by the Civil Service Regulations applicable thereto.* These regulations are liable to be modified by the Government of India from time to time. A copy of an abstract of them may be obtained from the Industries and Overseas Secretary, India Office, London, S.W. 1.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

In the case of Selected Candidates on probation for two years the allowance will be payable in eight equal instalments, the first on December 24th, after selection, the second to the seventh on the six following quarter days, and the eighth after signature of Covenant on appointment to the Service.

The payment of the various instalments of the allowance except the final instalment, and, in the case of the two-year probationers, the instalment payable at the end of the first year of probation, will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners, of a Certificate that the Candidate has fulfilled up to date the requirements of the Authorities, and shown satisfactory conduct at the approved Institution.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

N.B.—The Secretary of State for India gives notice that the amount of the allowances will be re-considered in 1923, with a view to a possible reduction with effect from the instalment payable in December, 1924.

(3) *A 1st Class passage to India will be engaged for Selected Candidates with a view to their proceeding to India during the November following their Final Examination.*

(4) *Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety, jointly and severally, to refund all monies he may have received from the Secretary of State for India in the event of—*

(i) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or*

(ii) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*

(5) *All Candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as, under the Rules and Regulations for the time being in force, they may be required to make for the pensions of their families. The stamps payable on these covenants amount to £1.*

(6) *The seniority in the Indian Civil Service will be determined by the results of the examinations taken and the reports on law cases submitted during the course of probation.*

(7) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the Candidate.*

The 1st grade judges on Rs. 3,000 and the other appointments on fixed rates of pay mentioned in paragraph 3 below will, however, be outside the time-scale.

If a candidate takes up both French and German, the language for which he obtains the higher marks will be reckoned as his obligatory language.

In addition to the above-named subjects candidates may take up freehand drawing, to which 400 marks will be allotted.

3. *Place of Examination.*—The examination will be conducted by the Civil Service Commissioners. Candidates may undergo the written part of their examination in London, Edinburgh, or at any of the provincial centres at which the simultaneous examination of candidates for admission to the Royal Military College, Sandhurst, is to be held. by means of stamps of the specified amount. Instructions on this point will be issued to candidates by the Civil Service Commissioners about ten days before the examination.

5. *Number of Appointments.*—The number of candidates to be selected cannot yet be stated.

6. *Conditions of Eligibility.*—No person shall be deemed eligible for admission to the examination who shall not satisfy the Secretary of State for India in Council—

(a) That save as hereinafter provided he is a European British subject.

(b) That if he (being a European British subject) or his father or his mother was not born within His Majesty's Dominions and allegiance, then at the time of his birth his father was a British subject and that such father still is or continued to be until his death a British subject.

Provided that a ruler or subject of any State in India in respect of whom the Governor-General in Council has made a declaration under Section 96A of the Government of India Act may be admitted to the examination if eligible under (c) below.

(c) *Exception* :—Indian and Burmese candidates will be deemed eligible for admission to the examination provided that they satisfy the Secretary of State for India in Council that by the 1st August of the year of the examination they will have been resident in the United Kingdom for not less than five years.

Candidates must, *without exception on any ground*, be above 19 and under 22½ years of age on the 1st August, 1922. They must be unmarried, and if they marry before reaching India they will forfeit their appointments.

7. *Form of Application.*—Application to compete at the examination must be made on a printed form to be obtained from the Secretary, Judicial and Public Department, India Office, Whitehall, London, S.W. 1, and to be returned to him, with the necessary documents, not later than Saturday, 29th April, 1922.

No applications received after that date can be considered.

Candidates must be prepared to attend at the India Office if required, at their own expense, to reply to any enquiries which may be considered necessary in connection with their application.

8. *Medical Examination.*—Those Candidates who are successful in the literary examination will be required, shortly after the result of that examination is declared, to undergo a strict examination by a Medical Board,† at the India Office, as to their physique and capacity for active out-door work in the plains of India. Instructions as to the date and time of this examination will be issued to successful candidates by the India Office.

9. *Appointment of Probationers.*—The Secretary of State will nominate as probationers such competitors as attain the highest aggregate of marks (provided that they obtain the minimum aggregate of 6,000 marks (see para. 2) and that they pass the medical examination and satisfy the requisite conditions in other respects).

10. *Riding Test.*—Selected candidates will be examined by the Civil Service Commissioners as to their ability to ride, and will be required to obtain—

(a) a certificate from the Civil Service Commissioners that they are able to ride well and to perform journeys on horseback; or

* The higher age limit will be reduced from 22 to 21 years at any examination held in 1922 and subsequent years.

† With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates who may be physically unfit for the Police Service, it is suggested that, before any such preparation is begun, candidates be submitted to examination by the medical adviser of the family, or any other qualified medical practitioner, with regard to the points which are indicated in Appendix III.

It is to be understood that this private examination is merely suggested to lessen the chances of disappointment, and that it is by no means intended to take the place of, or to influence in any way, the official examination.

Candidates may, if they wish it, not more than two years before they are qualified to compete, undergo a preliminary examination as to their physical fitness by the Medical Board, which meets at the India Office every Tuesday, under the following conditions :—

(a) Applications must be addressed to the Under Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas and by a statement of the candidate's age.

(b) Candidates must pay their travelling expenses.

(c) It must be understood that the opinion of the Medical Board which will be communicated by the Board to the candidate at the end of the examination is solely for the candidate's own information and is not an official finding. The Board, if they consider a candidate unfit, will exercise their discretion as to informing him of the particular grounds on which their opinion is based. No further information can in any case be given as to the Medical Board's opinion which will be confined solely to the physical fitness of the candidate; and any question as to the eligibility of the candidate, if found physically fit, to be admitted to the Indian Police, should be addressed in writing to the Under Secretary of State.

(d) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, at their own risk continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board prior to the examination or to their appointment.

(e) As the preliminary examination by the Medical Board is held solely for the candidate's information, a candidate who is informed after such an examination that he is physically fit will have on that account no claim to be accepted as physically fit when he presents himself for the final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

INDIAN POLICE FORCE—continued.

(b) a certificate from the Civil Service Commissioners of minimum proficiency* in riding.

In the latter case they will be subjected, on their arrival in India, to such further tests in riding as may be prescribed by their Government, and will not be appointed Assistant Superintendents of Police until they shall have passed such tests to the satisfaction of their Government.

11. *Allotment to Provinces.*—Selected candidates who have successfully passed the above-mentioned tests will be allotted, as probationers, to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the public service will rank before every other consideration. The allotment will also be subject to the right of the Government of India to make transfers if necessary.

12. (a) *Uniform.*—It is an ordinary condition of appointment that a successful candidate shall provide himself, or be provided by his parents or guardians, with his uniform or the cost thereof. The India Office makes a contributory grant of £30 towards the cost of uniform.

(b) *Horse and Saddlery.*—A successful candidate must, when required to do so by Government, provide himself with a suitable horse and saddlery at his own expense. Local Governments in India are authorised to make to a newly appointed officer a grant of a sum not exceeding Rs. 600 towards the cost of such horse and saddlery.

13. *Departure for India.*—The probationers will be required to start for India not later than October, 1922, so as to arrive in the course of

November. Failure to embark in time will, in the absence of satisfactory explanation, lead to forfeiture of appointment. Free passages to India will be provided by the India Office, but any probationer resigning his appointment within three years on any ground but that of health supported by a medical certificate will be required to refund the cost of his passage.

14. *Period of Probation.*—Probationers will be required to qualify by passing the necessary departmental examinations (as well as the riding test, if necessary, see Rule 10) within two years of their arrival in India.

15. *Liability of Probationers to Removal.*—Any probationer who may fail to pass the prescribed examinations within two years or be found unfit for police duties will be liable to removal from the Service. Any probationer so removed from the Service will be furnished with a free passage to England provided he utilises such passage within three months from date of such removal.

16. *Promotion after Probation.*—No probationer will be eligible for promotion either acting or substantive, until he has passed the prescribed departmental examinations, including the riding test.

Note.—The Secretary of State is unable to give any undertaking that the Regulations will remain unaltered in the future.

1. Until further notice, the Secretary of State for India in Council will, during each year, make a number of appointments of Assistant Executive Engineers in the Public Works and State Railway Departments of the Government of India.

In making these appointments he will act with the advice of a Selection Committee, including at least one eminent representative of the engineering profession.

In 1922 it is intended that 11 appointments shall be made.

The Selection Committee will probably sit in May.

2. Applications must be made on a printed form, which may be obtained from the Secretary, Public Works Department, India Office, Whitehall, S.W. 1, and should reach the India Office not later than 1st April.

3. Every European candidate must have been born on or after the 2nd August, 1896, and on or before the 1st August, 1900.*

An Indian candidate must have attained the age of 21 and not attained the age of 24† years on the first day of July of the year in which he offers himself for appointment, except that in the case of an Indian who has rendered service of the nature defined in Regulation 4, the same maximum age limit as for Europeans will apply.

[N.B.—Indians must obtain a certificate of age and nationality in the form explained in Appendix II. As the production of this certificate is a necessary condition of appointment, intending candidates are advised to procure it without delay. The certificate should be forwarded to the India Office together with the candidate's form of application or at the earliest subsequent opportunity.]

4. Every European candidate in 1922, subject to the exception stated below, must have served in His Majesty's Naval, Military, or Air Forces during the war for at least one year, or if his service be less than one year, have been discharged on account of wounds or sickness resulting from such service.

The decision of the Secretary of State in Council whether a candidate satisfies these conditions shall be final. A candidate must also be of good moral character and sound bodily health and, in the opinion of the Secretary of State for India in Council, in all respects suitable to hold an appointment in the Indian Public Works Department or State Railway Department.

†6. Indians who, save as hereinafter provided are British subjects, and are not qualified under Regulation 5, are eligible for appointment and shall be selected to the extent of 10 per cent. of the total number of Assistant Executive Engineers thus recruited, if otherwise duly qualified.

It is preferred that candidates should have taken a college course and obtained one of the degrees mentioned in Appendix I. They should in addition have had at least one full year's practical experience of civil engineering under a qualified civil engineer at the time when they appear before the Selection Committee. Those whose qualifying diploma has been obtained without a college course should have had a full three years of such practical experience.

8. European applicants eligible under Rule 4 who can produce evidence of the above qualifications will be admitted as candidates; others not holding one of the recognised degrees or diplomas must produce evidence—

10. Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee.

11. Candidates will further be required, before final appointment by the Secretary of State in Council, to appear, at their own expense, before the Medical Board at the India Office for examination as to their physical fitness for service in India.

The Regulations governing the physical examination of candidates for the Public Works and State Railway Departments of the Government of India are given in Appendix III.

*12. Selected candidates will also be required to satisfy the Secretary of State of their ability to ride.

13. They will on appointment be provided with a free first-class passage to India, and they will be expected to proceed thither about the end of September or later in the year in which they are appointed.

For officers retiring after 20 but with less than 25 years' service, a maximum of two years to count for pension;

For officers retiring after 25 years' service, a maximum of three years to count for pension.

- (b) a certificate from the Civil Service Commissioners of minimum proficiency in riding.

In the latter case they will be subjected, on their arrival in India, to such further tests in riding as may be prescribed by their Government.

Candidates are warned that the certificate of minimum proficiency in riding, without which they will not be allowed to proceed to India, is only granted to those who can qualify in a series of tests, which includes jumping.

The chief tests will be saddling and bridling; mounting and dismounting; trotting and cantering; riding at a trot without stirrups; riding at a trot with stirrups but without reins; jumping a hedge hurdle about 3 feet in height.

VACANCIES IN THE MINES INSPECTION STAFF IN INDIA.

The following particulars relate to appointment of Junior Inspectors of Mines in the Mines Inspection Staff in India. Vacancies are advertised as they occur. Candidates should not be under 25 and not over 30 years of age, and should have had a good general education. They should hold a first-class certificate of competency under the English Coal Mines Regulation Act, and should either possess a degree in mining at a recognised college in England, or should have served a regular pupilage under a recognized Consulting Mining Engineer or Colliery Owner. Applications should be addressed to the Secretary, Industries and Overseas Department, India Office.

The pay of a Junior Inspector of Mines is Rs. 750 a month, rising by annual increments of Rs. 30 to 1,200 a month. War service rendered after attaining the age of 25 years is permitted up to a maximum of 4 years to count for increment and, under certain conditions, for pension. The Staff consists of a Chief Inspector, on Rs. 2,000—100—2,500, two Inspectors on Rs. 1,500—50—1,750, and four Junior Inspectors. A Junior Inspector is required to officiate for Inspectors who are on leave, and when not so employed to work in one of the circles, under the Inspector of that circle.

In addition to the rate of pay set forth above, a Junior Inspector of Mines is entitled to travelling allowances under the conditions laid down in the Civil Service Regulations, in respect of journeys performed on duty, but he is not entitled to house allowance, and in accordance with recent practice he is not granted exchange compensation allowance. Officers appointed are on probation for two years. If at the end of the period the appointment is confirmed, service in India will count for leave and pension, with effect from the beginning of the probationary period.

Free first-class passage to India is provided, and a return passage in the event of the appointment being terminated at the end of the probationary period, or in the event of the officer being compelled to quit the service in India at an earlier date owing to ill-health certified to the satisfaction of the Government.

Particulars of leave and pension rules will be supplied on application.

APPOINTMENTS TO THE INDIAN ARMY.

REGULATIONS FOR ADMISSION.

Candidates competing for commissions in the Indian Army are required to pass the Army Entrance Examination held by the Civil Service Commissioners. Forms of application for permission to attend the Examination may be obtained from the Secretary, Civil Service Commission, Burlington Gardens, W. 1. These examinations are to be held twice a year (in June and November) at various centres in the United Kingdom. Candidates must be between 17½ and 19 years of age (except in the case of candidates who have served in the Army, for whom the upper limit of age will be 21) at a date specified in the notice of the examination, and must be of good health and character. The obligatory subjects are the English Language, English History and Geography, Elementary Mathematics and a modern language, either French or German. Candidates may also

take not more than two of the following optional subjects: Intermediate or Higher Mathematics; another modern language; Latin; Greek; Science (Physics and Chemistry). In addition to these subjects candidates may be examined in Freehand Drawing. Additional marks are given to candidates who have obtained certificate "A," or its equivalent, in the Officers' Training Corps, and to candidates who have completed not less than four months' service in the Army or Navy. Further particulars regarding the examination are contained in the Regulations for admission to the Royal Military College, Sandhurst (price 3d.), which may be obtained from His Majesty's Stationery Office, Imperial House, Kingsway, London, W.C. Specimens of papers set at past examinations, with tables of marks (price 1s.), may also be obtained from the Stationery Office.

INDIAN ARMY—continued.

INDIAN ARMY CADETSHIPS AT SANDHURST.

The notice of the examination issued by the War Office specifies the number of cadetships offered at the examination which are tenable at the Royal Military College, Sandhurst. Of these the greater number are for the British Army; but a limited number are also usually offered for the Indian Army. Cadetships carrying appointment to the Indian Army are offered at Sandhurst in the course of a year, and as the examinations are held twice a year, the number of these cadetships offered in connection with any examination is limited to 25, but this depends on the requirements of the Indian Army at the time. Not more than 10 of these will be allotted at each examination to King's India Cadets nominated by the Secretary of State for India (*see below*) and one or two to King's Cadets nominated by the Army Council, the balance to be allotted by open competition. After the King's Cadets and King's India Cadets have been provided for, the other available appointments to the Indian Army are offered to the Sandhurst cadets in the order of merit on passing out of the College.

A certain number of "Prize Cadetships" are offered at the Army Entrance Examination, and are open both to candidates for the British Service, and to those who desire to obtain appointments in the Indian Army.

Under present conditions the course at Sandhurst lasts for two years. At the end of the period of training the Indian Army cadets who are recommended for commissions will be gazetted to the Unattached List for the Indian Army, and will be sent out to India for attachment to a British unit in that country for one year. On the conclusion of a year's service with a British unit, they will, if recommended, be posted to a unit of the Indian Army.

King's India Cadetships.

Twenty King's India Cadetships at the Royal Military College, Sandhurst, are offered every year. These King's India Cadetships are confined by statute to the sons of persons who have served the Crown in India. To be eligible for these cadetships, candidates must attain a qualifying standard at the Army Entrance Examination. The nominations are made by the Secretary of State for India in Council according to definite rules, the length and distinction of the father's service being the primary consideration. Special consideration is, however, given to the sons of deceased officers. The services of relatives other than the father cannot be taken into consideration in allotting these cadetships.

A King's India Cadetship carries the right of appointment to the Indian Army, but it does not carry any pecuniary concession except in special cases.

Three Honorary King's India Cadetships at the Royal Military College are offered annually to the sons of officers of the Indian Army or Indian Medical Service, who have reached the

rank of Major, and who have died in the Service or have had distinguished war service.

Forms of application for King's India Cadetships can be obtained from the Secretary, Military Department, India Office.

UNIVERSITY CANDIDATES.

A few direct appointments to the Unattached List for the Indian Army are made by the War Office, from candidates nominated by the principal Universities in the United Kingdom. The Regulations for University Candidates can be obtained from the Stationery Office.

FEES.

The fees ordinarily payable by cadets range from 20*l.* to 75*l.* a year according to the rank and circumstances of the cadet's father. In addition to this fee a contribution of 65*l.* will be required from the parent or guardian of each cadet in aid of uniform, books, and other incidentals for the first two terms, and 25*l.* and 10*l.* for the third and fourth terms respectively. The sums due must be paid to the College Accountant immediately the cadet enters the Royal Military College. It is to be clearly understood that any expenditure on uniform, books, and incidentals in excess of this 100*l.* must be paid by the parent or guardian of the cadet at the end of the course.

While under instruction cadets are expected to be supplied with pocket money by their parents or guardians at the rate of 4*l.* a month.

The ordinary fee and the contribution of 100*l.* may be remitted in the case of those King's India Cadets whose financial circumstances are considered to justify its remission.

Free issues of binoculars and prismatic compasses will be made to the cadets on joining the Royal Military College, and on being commissioned they will receive an outfit allowance of 50*l.* A free issue of a revolver will be made when the cadet joins his unit.

In the case of all cadets a contribution is made by Government which is intended to cover the cost of messing, laundry, and servants at the Colleges, but any expense incurred beyond the amount of this Government contribution must be paid by the cadet or his parent.

PAY ON BEING COMMISSIONED.

Cadets from Sandhurst who are gazetted to the Unattached List for the Indian Army receive pay at the rate of 13*s.* a day (pay of a Second Lieutenant of British Infantry), from the date of their commission to the date of their arrival in India; ration allowance of 2*s.* 5*d.* a day is also payable up to date of embarkation. On attachment to a British unit in India Second Lieutenants of the Unattached List will receive pay at Rs. 425 per mensem. On appointment to an Indian regiment they will receive the Indian Army pay of a Second Lieutenant, viz., Rs. 425 per mensem, plus regimental staff pay of Rs. 100.

The amount of leave granted to officers of the Indian Army depends on the exigencies of the service. In times of peace an officer can generally be granted a period of eight months leave about once in three years.

"Privilege leave" is also granted for 60 days annually or 90 days for officers in certain frontier districts.

PROMOTION.

Promotion to the ranks of Lieutenant, Captain, and Major will take place after 2½, 9, and 18 years' respectively.

In special cases the promotion of an officer may be retarded or accelerated.

An officer of the Indian Army can retire on a pension of 24*l.* a year after 18 years' service, with the addition of 12*l.* a year for each year's service in the substantive rank of Major. The rate of pension for longer periods of service depends on the rank of the officer and the length of his service, and the maxima for the higher ranks are as follows:—Lieutenant-Colonel, 800*l.*; Colonel, 900*l.*; Major-General, 1,000*l.*; Lieutenant-General, 1,200*l.*; General, 1,400*l.* Officers invalided from the service with less than 18 years' service may be granted special rates of invalid pension.

FAMILY PENSIONS.

All candidates appointed to permanent commissions in the Indian Army are required, as a condition of their appointment, to subscribe to the "Indian Military Widows' and Orphans' Fund." The rules* of this Fund can be obtained on application to the Accountant-General, India Office. In addition to these pensions the families of officers of the Indian Army are eligible for the pensions laid down in the Royal Warrant for the pay of the British Army.

These conditions are subject to such alterations at any time as may be determined by the Secretary of State for India in Council.

NOTIFICATION No. 727 (MEDICAL), DATED 4TH APRIL, 1910.

In supersession of the Notification of the Government of India, Military (Medical) Department, No. 477, dated 22nd May, 1903, the Governor-General in Council is pleased to publish the following rules under which certificates of age and nationality will be issued to natives of India who are candidates for the examinations for the Indian Medical Service held in England:—

GENERAL RULES APPLICABLE TO ALL CANDIDATES.

I. A candidate for admission to compete in England for the Indian Medical Service is required before leaving India to obtain a certificate of age and nationality, signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides; or, should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides.

NOTE.—In the case of a candidate who has proceeded to England without obtaining a certificate, the certificate may be granted to his father or guardian, provided that the latter produces the requisite evidence, and, when making the application, states when the candidate went to England and where he has been residing during his stay in that country.

II. In order to obtain a certificate, a candidate is required, if resident in British India, to prove the date and place of his birth before the Magistrate of the district in which his family resides, or, if resident in a Native State, before the Political Officer of the State in which his family resides.

III. A candidate must, if resident in British India, signify to the Secretary to Government of the Province or the Commissioner of the Division in which his family resides, his desire to compete not less than three months before the date on which he proposes to go to England. If resident within a Native State, he must signify his desire in like manner to the highest Political Officer accredited to the State within which his family resides.

The officer to whom the application is made shall forward it for the purpose of enquiry to the Magistrate of the district or Political Officer of the State in which the applicant's family resides.

IV. The Magistrate or Political Officer to whom such application has been forwarded shall call upon the candidate to appear and give evidence of the date and place of his birth, and of his nationality, within one month. He will carefully examine into the value of the evidence given, and forward a summary of it with certified

copies of all documents tendered, and his comments and opinion, to the officer who forwarded the application to him for enquiry.

V. The documentary evidence which a candidate may be expected to produce comprises—

- a. The horoscope.
- b. Family books.
- c. Tradesmen's account books showing entries relating to the birth.
- d. The record of admission in the registers of the school in which the candidate was educated, and the record of the candidate's age at various periodical school examinations.
- e. If the candidate is matriculated, a certified copy of his application to the Registrar.

Oral testimony of persons acquainted with the candidate's family or otherwise able to give relevant evidence, will also be taken; and the candidate is required to comply to the best of his power, with any requisition the Magistrate or Political Officer, as the case may be, may make in order to clear up any doubt as to the purport of the documentary proof.

VI. Any declaration of age made after the application of these rules on the occasion of seeking admission to any university examination, educational institution, or Government office, or otherwise recorded in a formal and deliberate manner, will be taken as conclusive evidence in disproof of the subsequent assertion by the same person that he is of different age to that so declared or recorded.

RULES TO APPLY TO CANDIDATES BORN IN HIS MAJESTY'S DOMINIONS.

VII. Where the date and place of the birth have been formally registered in a register kept by any public officer in British India, an extract from the register, duly certified by the proper official, shall be accepted as sufficient proof of the date and place of the birth.

VIII. In the case of a candidate who and whose father were born in His Majesty's Dominions.—If the Secretary to Government, Commissioner of a Division, or the highest Political Officer accredited to the State, as the case may be, is satisfied by the papers submitted, he will issue a certificate in the following form, setting out the nature of the evidence produced by the candidate:—

X. If the Secretary to Government, Commissioner of a Division, or the highest Political

XI. In the case of a candidate who is a subject of a Native State.—If the Secretary to Government, Commissioner of a Division, or the highest Political Officer accredited to the State, as the case may be, is satisfied by the papers submitted, that the candidate has stated the date and place of his birth and nationality correctly, he will forward the papers with his observations, including any as to the nationality of the candidate's father, to the Government of India, who will consider whether a declaration of eligibility shall, with the approval of the Secretary of State, be issued under Section 96A of the Government of India Act, 1915.

QUEEN ALEXANDRA'S MILITARY NURSING SERVICE FOR INDIA.

Conditions of Appointment, &c.

Applications for admission to the Service, if made in England, should be addressed to the Military Secretary, India Office, London, S.W.; if made in India, to the Director, Medical Services, Army Headquarters, India.

(N.B.—The rules shown below are under revision.)

1. The Nursing Establishment is employed in the responsible superintendence of nursing arrangements and in the control of the subordinate staff in hospitals for British troops. It consists at present of:—

- 4 Lady Superintendents;
- 16 Senior Nursing Sisters; and
- 71 Nursing Sisters.

The numbers in these three grades are subject to alteration.

Note.—The term "lady nurse" as used in the following paragraphs includes all three grades.

2. Nursing Sisters, at the time of appointment, must be over 27 and under 32 years of age. Candidates for the Service must be British subjects, and must have had at least three years' preliminary training and service combined in the wards of a British general hospital or hospitals of not less than 100 beds in which adult male patients receive medical and surgical treatment, and in which a staff of Nursing Sisters is maintained. Three years' training and service in the wards of a Colonial Hospital, followed by one year in the wards of a general hospital in the United Kingdom, will be accepted as an equivalent qualification, provided that both hospitals fulfil the foregoing requirements. Candidates must satisfy the Nursing Board at the India Office (or such persons in India as may be selected for the purpose), in a personal interview, as to their general suitability, and when selected for appointment they must be certified by a Military Medical Board to be physically fit for service in India.

3. On production of evidence of qualification under the above conditions an application for admission to the register of candidates may be accepted. But no application is likely to be favourably considered until the candidate produces evidence of capacity for hospital management acquired by experience in some hospital appointment or appointments of responsibility. Employment in private nursing is not by itself considered sufficient test of such capacity.

4. The duration of a term of service, for all grades of lady nurses, is five years. A lady nurse who has been pronounced by a Medical Board to be physically fit for further service in India may be permitted to re-engage for a second and third term at the option of Government, and again for a fourth term, or until the age for compulsory retirement, if in all respects efficient and if specially recommended by the Commander-in-Chief in India. But a lady nurse will not under any circum-

stances be permitted to remain in the service in the grade of Lady Superintendent beyond the age of 55 years, or in either of the other grades beyond the age of 50 years.

5. Except as provided hereafter the engagement is terminable at or before the expiry of the term of five years by six months' notice on either side from the date of the receipt of such notice (but see paragraphs 11 and 12).

The Government of India reserve the right of suspending, in time of war, retirements and resignations, for a period of twelve months from the date on which they would otherwise have taken effect, or until the end of the war, if that event should happen before the expiry of such period.

The Government of India may dispense with the services of a lady nurse at once and grant her a gratuity not exceeding six months' pay.

The marriage of a lady nurse shall immediately terminate her period of service.

6. Nursing Sisters are recommended, before proceeding to India, to be inoculated against enteric fever. Particulars as to treatment are furnished to successful candidates on their appointment.

Rates of Pay.

(In addition to free quarters, fuel, light, and punkah-pullers.)

QUEEN ALEXANDRA'S MILITARY NURSING SERVICE FOR INDIA—continued.

Allowances for Outfit, Uniform, &c.

8. An outfit allowance of £20 is granted to each Nursing Sister on appointment.

An allowance of Rs. 120* for the provision of uniform is admissible at the end of each completed year of service, provided that, in any such year, no period in excess of six months has been spent on sick leave; and a grant in aid for the provision and maintenance of mess property is made at the rate of Rs. 50 for each lady nurse on appointment and Rs. 12 annually afterwards.

Passage.

9. Lady nurses must be prepared to embark, if required, not later than 30 days from date of appointment.

10. Passage at the public expense is granted to a lady nurse when proceeding to India on appointment; and also when returning home (to England or to any British Colony in which she may be domiciled) on completion of a term of service, whether on leave (under paragraph 13) or on retirement, or if invalidated home before the completion of a term, provided that she avails herself of it within one year of the completion of her term or of the orders permitting her retirement. She is entitled to take 12 cwt. of baggage. She is also entitled to travelling expenses on the above occasions from her place of residence to port of embarkation, and from port of disembarkation in India to destination in that country, and *vice versa*. Claims for conveyance of baggage must be supported by vouchers. Agency charges are inadmissible.

11. A lady nurse who resigns (except on account of ill-health), with less than five years' Indian service will forthwith refund the sum of £20 in respect of her passage out (or £30 if she has failed to give the notice required by para. 5), and will not be entitled to a passage home.

12. A lady nurse who, having completed a term of service, has re-engaged will be subject to no penalty on resignation except a fine of £10

if she fails to give six months' notice; and whether she gives notice or not, she will receive free passage home.

Leave.

13. After engagement for a second, third, or fourth term of service, a lady nurse may be granted not more than one year's leave from duty, on two-thirds pay, with free passage by sea and land from her station to her home and back again. Such period will not reckon as service in any way.

Such leave may be extended on medical certificate for a period not exceeding one year, on two-thirds pay, provided that, in the opinion of the India Office Medical Board, there is a reasonable prospect of return to duty. Such extensions of leave will not reckon as service.

14. Special leave out of India, without pay, may also be granted, subject to the exigencies of the Service.

15. Leave on medical certificate, either in or out of India, may be granted within the period of each term of service to a lady nurse up to a maximum of twelve months in any one five years' term of service, and six months only in every other term. During such leave, which will reckon as service towards engagement and pension, she will receive two-thirds of the salary of her grade. These periods of six months' leave may be extended on the recommendation of a Medical Board for a further period not exceeding six months, on the condition that the period of extension shall not be deducted from the five years' term of engagement, but shall be reckoned as part of the one year's leave referred to in para. 13 on completion of a term of five years' service, should the lady nurse eventually become entitled to such leave.

16. If leave is taken in Europe, or in a British Colony in which the lady nurse is domiciled, free passage by sea and land is granted from her station to her home and back again.

17. Short leave and privilege leave may be granted at the discretion of the local authorities as circumstances may admit.

Gratuities.

18. The following gratuities are payable to lady nurses on leaving the Service in the circumstances specified:—

	Rs.
For a completed term of five years	500
For a completed term of ten years	1,500
For those compelled by sickness to leave India before completion of a five years' term, for each complete year's service	75

INDIA OFFICE,
January, 1916.*

No candidate can be considered for appointment as Midshipman or Sub-Lieutenant who on the date of application is under 17 or over 22 years of age. Preference will ordinarily be given to candidates trained on the "Conway" or the "Worcester," or at the Pangbourne Nautical College. Candidates must have had sea service outside the Indian Ocean.

Applications will be recorded and considered by the Board at its next meeting, but no appointment will be made until a vacancy occurs. The names of candidates are ordinarily removed from the list on their attaining the age of 22 years.

The appointment of candidates is not affected by absence from England, but a candidate who has been appointed will be required to report himself to the Secretary, Military Department, India Office, London, S.W. 1, or to the Director, Royal Indian Marine, Bombay, before the expiry of six calendar months from the date of the letter notifying his appointment.

A selected candidate will not be appointed to the service unless a Medical Board certifies his fitness for service in India.

On appointment a first-class passage to Bombay

* With amendments of a later date.

† Under the Board of Trade Regulations, time served on board a training ship will be allowed to count as equivalent to one-half the same time spent in service at sea, up to a limit of two years (*i.e.*, no length of service will be allowed to count as more than one year at sea), subject to the production of satisfactory certificates from the Committee or Captain Superintendent of the Ship.

‡ In general the selected candidate will be examined by the Medical Board at the India Office, but arrangements can be made, if desired, for the medical examination to be held in India if the candidate at the time of selection is in Indian waters, or if his homeward route would be via India.

PROMOTION.

1. On completing the sea service necessary in each case, Engineer Officers of the Royal Indian Marine must apply through their Commanding Officer to the Director, Royal Indian Marine, for examination as to their qualifications for promotion to a higher grade.

2. Should an officer fail to present himself for examination for Engineer Lieutenant within three years of the date of his joining the Service, or for Engineer Commander within three years of the date of his promotion to Engineer Lieutenant, or attain the age of 26 years without having obtained a certificate as Engineer Lieutenant, his case will be submitted to the Government of India in order that it may be considered whether his further retention in the service is desirable. Failure on the second time to obtain any one of the certificates required will involve a loss of three months' seniority, and the case of an officer who fails a third time will be submitted for the orders of the Government of India as to his dismissal. Failure under any circumstances will involve supersession in the event of promotion taking place, and an officer failing will be required to present himself for re-examination as soon after three months from the date of failure as a Board of Examiners can be assembled.

3. To qualify an Engineer Sub-Lieutenant for

promotion to the grade of Engineer Lieutenant, he must have completed at least 18 months' sea service as an Engineer Sub-Lieutenant in the Royal Indian Marine, and have passed satisfactorily the examination for promotion to Engineer Lieutenant. On qualifying for promotion to the grade of Engineer Lieutenant he will be required to serve in the Royal Indian Marine for 18 months before he is actually promoted to Engineer Lieutenant.

4. To qualify an Engineer Lieutenant for promotion to Engineer Commander, or for any increase of pay as Engineer Lieutenant, he must have obtained, by passing the necessary qualifying Service examination, an Engineer Commander's certificate. Before appearing for this examination, he must have completed at least two years' service in the Royal Indian Marine as an Engineer Lieutenant.

6. The Government of India reserve the right, which they have always exercised, of admitting officers from other services or departments to any class of the establishment, or of making promotions on public grounds irrespective of seniority.

BENGAL COVENANTED PILOT SERVICE.

APPOINTMENTS BY THE SECRETARY OF STATE FOR INDIA.

Conditions of Admission.—1. Appointments to the Bengal Pilot Service are made by the Secretary of State and by the Government of Bengal. In the case of appointments made by the Secretary of State, preference will be given, *ceteris paribus*, to candidates who have passed through one of the training ships "Worcester" or "Conway," or the Pangbourne Nautical College.

Candidates are not appointed before the age of 18, but applications from candidates under that age may be considered if they have completed their course at any of the above institutions, and have undergone a course of training either with the Royal Naval Reserve or on a seagoing training ship, or both.

2. Every candidate must produce satisfactory evidence as to age and character, and selected candidates are required to appear before the Medical Board at the India Office for examination as to their physical fitness for the work of a Pilot in a tropical climate.

Regulations.—3. A selected candidate, if passed by the Medical Board, will receive a first-class passage to Calcutta and an allowance of £30 for outfit. If he resigns or leaves the service before he has served five years he will be required to refund the cost of his passage to India and the outfit allowance, unless his resignation is due to ill-health certified in the manner prescribed by the Government of India.

BENGAL COVENANTED PILOT SERVICE—continued.

He will have to give an undertaking with two sureties for such refund.

4. A Leadsman Apprentice, on arriving at Calcutta, will report himself to the Port Officer, and will receive Rs. 200 a month from the date of his arrival, to enable him to support himself in Calcutta and to pay his mess money when on board the pilot brigs.

5. A Leadsman Apprentice will go through such a course of training and pass such examinations as the Government of Bengal may from time to time prescribe. The rates of pay and allowances of Leadsman Apprentices while on the running list are as follows, without exchange compensation allowance:—

While on the running list:—

	Rs.	
Junior Leads- men	200 a month	* Plus 50 per cent. of the lead money collected from the ships on which they do duty.
Second Mate Leadsman ...	250 a month	
First Mate Leadsman ...	300 a month	

Special rates of pay are given to Leadsman Apprentices employed as Chief or Second Officer.

6. After five years' service as a Leadsman Apprentice, of which one year must be as a Mate Leadsman, he will be allowed to appear at an examination to qualify for appointment as Mate Pilot, but if he shows exceptional ability, and has passed each previous examination on his first attempt, bears a very good character, and is otherwise well reported on, this period may, with the special sanction of Government, be reduced to $4\frac{1}{2}$ years, when, if successful in the examination, he will be promoted to the grade of Mate Pilot on the occurrence of a vacancy.

7. After three years' service as Mate Pilot he will be permitted to go up for an examination to qualify for appointment as Master Pilot, and, if successful, he will be promoted to that grade on the occurrence of a vacancy.

8. Vacancies which occur in the grade of Branch Pilot will be filled up by promotion, from the Master Pilots' grade, of men who have passed the Branch Pilots' examination.

9. Branch Pilots and Pilots who have passed the Branch Pilots' examination, on attaining the age of 40, will, while under 55 years of age, be examined at intervals of three years by the Marine Surgeon with respect to their eyesight and general physical fitness for the per-

formance of their duties. All pilots who continue in the service after attaining the age of 55 years will be similarly examined every year.

10. If the Local Government has reason to believe that a Pilot is, owing to physical unfitness of any kind, incapable of discharging his duties properly, it shall arrange for his medical examination, and shall take such action as may seem desirable when the results of that examination are communicated. In particular, Pilots shall be medically examined after the occurrence of any accident to the vessel in their pilotage charge, if the circumstances tend to show that the accident was in any way attributable to physical unfitness on the part of the Pilot.

11. Pilots are not entitled to any salary while on pilotage duty, but receive as their remuneration a share, at present 50 per cent., but liable to alteration at the discretion of the Government of Bengal, of the pilotage dues paid by ships piloted by them. At present a minimum rate of remuneration is guaranteed, as follows:—

	Rs. a month.
Branch Pilots	1,800
Senior Master Pilots	1,200
Junior Master Pilots	800
Mate Pilots	600

12. The Government of Bengal reserves to itself the right to require all Pilots to obtain a Home Trade Master Mariner's Certificate before they are promoted to be Senior Master Pilots.

13. Special Leave Rules.

This and the following memorandum are merely intended to show the principal leave and pension rules without going into minute details, and do not profess to cover every case that may arise. The rules are subject to alteration, and any disputed questions are decided with reference to the authorised text of the Fundamental Rules* in the case of leave and of the Civil Service Regulations† in the case of pensions for the time being.

1. Leave is calculated in terms of "leave on average pay," and the amount of "leave on average pay" for which an officer is eligible is $\frac{5}{2}$ days of the period spent on duty.

2. Subject to certain maxima and minima, an officer may draw, at his option, leave salary equal to the average pay of the last twelve months of completed duty or to half such average pay. All leave on average and half the period on half average pay is counted against the leave earned. An officer may take his leave on average pay, on half average pay, or on a combination of the two, provided that his continuous absence from duty does not exceed 28 months, and that the amount of leave taken on average pay does not exceed eight months at any one time. The maximum amount of leave admissible during an officer's career is the equivalent of leave on average pay for three years plus $\frac{1}{11}$ th of the period spent on duty, of which not more than one year plus $\frac{1}{11}$ th

of the period spent on duty may actually consist of leave on average pay. Leave not due and carrying half average pay may be granted on medical certificate and, within certain limits, for other reasons, but, with the exception of members of the Indian Civil Service who are permitted to take leave not due up to the equivalent of three months' leave on average salary without having it counted against the leave earned, an officer will not again commence to earn leave until the expiration of a fresh period of duty sufficient to earn a credit of leave equal to the leave he has taken before it was due. After 28 months' absence from duty a member of the Indian Civil Service draws a subsistence allowance and members of other services quarter average salary, subject to certain maxima and minima.

3. Leave salary is ordinarily payable in rupees if the officer spends his leave in India or Ceylon, and in sterling if he spends it elsewhere. The rate of exchange for the conversion of leave salary is prescribed from time to time by the Secretary of State. At present it is the current rate of exchange subject to a minimum of 1s. 4d. during the first four months of leave and of 1s. 6d. during the remainder.

4. It should be noted that leave can never be claimed as of right, but is given or refused at the discretion of Government.

Pensions.

1. The following is a summary of the pension rules.

2. Subject to the absolute right, which will not ordinarily be exercised, of the Government of India to decline to permit any officer to retire before reaching the age for superannuation, should it be necessary in the public interest to retain his services, officers will be allowed to retire optionally after 25 (20 years in the Indian Service of Engineers and in the Indian Forest Service) or more years' service.

3. Retirement is ordinarily required at the age of 55 years, but for special reasons an officer is sometimes retained after attaining that age, except in the Indian Service of Engineers, where retirement at the age of 55 is compulsory.

4. An officer becomes eligible for full retiring pension on completing 30 years' qualifying service.

5. If before completing this period of service an officer is permitted to retire voluntarily after completion of 25 or more years' qualifying service (para. 2), or is compelled to retire on attaining the age of 55 (para. 3), or through ill-health not occasioned by irregular or intemperate habits, he will be eligible for a pension or gratuity as shown in para. 6.

6. The amount of pension or gratuity is regulated as follows:—

(1) Indian Service of Engineers and Indian Forest Service:—

(a) *Retiring and Superannuation Pensions*:—

Years of Completed Service.	Sixtieths of Average Emoluments.	Maximum Limit of Pension.

29	30	5,800 "
30 and over	30	6,000 "

Note.—The regulations also provide for superannuation pensions for officers who attain the age of 55 before having completed 20 years' service.

(b) *Invalid Pensions.*—Invalid pensions and gratuities are admissible on the same scale as to officers of other services (see para. 2 (b) below).

* See p. 276

† See p. 292.

28	30	5,600 "
29	30	5,800 "
30 and over	30	6,000 "

Average emoluments are calculated over the last three years of service.

Pensions drawn in this country are converted at a minimum rate of exchange of 1s. 9d. to the rupee.

7. Government may retire any officer after he has completed 25 years' service without giving reasons, and without admitting any claim to compensation in addition to pension, and in that event the pension admissible to him will ordinarily be regulated on a scale not exceeding that laid down above. Government also reserves the general power to reduce the pension ordinarily admissible in all cases where an officer's service has been unsatisfactory.

Additional Pensions.

8. The Government of India have classified certain high appointments, into two grades, the lower comprising those posts which involve high but intermediate responsibility, the higher consisting of those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments in the lower grade will be entitled to an additional pension at the rate of Rs. 300 per year of service in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 1,500 in respect of service classed in the lower grade. Officers who have held appointments classed in the upper grade will be entitled to an additional pension at the rate of Rs. 500 for each year of service rendered in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined or in the upper grade alone.

9. These additional pensions will be awarded only to officers who have given proof of special energy and efficiency, and will be subject to the condition that an officer must not retire voluntarily before the age of 55 with less than 28 years' service.

Provident Fund.

(Applicable to officers as explained in the foregoing pages.)

A general Provident Fund has also been established on the following basis :—

- (1) The contribution is compulsory in the case of Europeans and Anglo-Indians and voluntary in other cases. The rate of subscription is not less than 6½ per cent. or more than 9½ per cent. on salaries. Subscriptions on leave of any kind are optional.
- (2) Compound interest on such payments is annually credited by Government to each officer subscribing.

- (3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and, subject to any assignment or liability created by him, will be handed over to him unconditionally on quitting the service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under, and subject to, the Rules of the Fund for the time being in force, may be entitled thereto.

Regulations as to the PHYSICAL EXAMINATION of Candidates for Appointments under the Government of India.

NOTE.

These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.

The Regulations for the physical examination of Candidates for the Indian Civil Service are made by the Civil Service Commissioners, to whom any inquiry should be addressed.

GENERAL PHYSICAL REQUIREMENTS.

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth:—

Age.	Height with- out Shoes.	Chest.	
		Girth when ex- panded.	Range of Ex- pansion.
	Inches.	Inches.	Inches.
18 to 19	62 and under 65	34½	2
	65 " 68	35	2
	68 " 72	35½	2
	72 and upwards	36	2½
19 to 20	62½ and under 65	35	2
	65 " 68	35	2
	68 " 70	35½	2
	70 " 72	36	2
21 and up- wards.	72 and upwards	36½	2½
	62½ and under 65	35	2
	65 " 68	35½	2
	68 " 70	36	2
	70 " 72	36½	2½
	72 and upwards	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths. In the Indian Police Force a minimum height of 5 ft. 4 ins. is required, but in other Departments no fixed limit of height is imposed.

4. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the

chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocoele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

14. The Regulations as to the standard of vision required are shown separately for each department.

REGULATIONS AS TO THE STANDARD OF VISION.

THE ECCLESIASTICAL, EDUCATION, GEOLOGICAL SURVEY, AGRICULTURAL, INDIAN FINANCE, CUSTOMS, CIVIL VETERINARY AND OTHER DEPARTMENTS NOT SPECIALLY PROVIDED FOR IN THE FOLLOWING PAGES:—

1. A candidate may be admitted into the Civil Services of the Government of India if ametropic in one or both eyes, provided that, with correcting lenses, the acuteness of vision be not less than $\frac{5}{6}$ in one eye and $\frac{4}{5}$ in the other; there being no morbid changes in the fundus of either eye.

2. Cases of myopia, however, with a posterior staphyloma, may be admitted into the service, provided the ametropia in either eye does not exceed 2.5 D, and no active morbid changes of choroid or retina be present.

3. A candidate who has a defect of vision arising from nebula of the cornea is disqualified if the sight of either eye be less than $\frac{1}{12}$; and in such a case the acuteness of vision in the better eye must equal $\frac{5}{6}$, with or without glasses.

4. Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. The existence of imperfection of colour sense will be noted on the candidate's papers.

THE DEPARTMENTS OF FOREST, SURVEY, TELEGRAPH, FACTORIES, AND FOR VARIOUS ARTIFICERS.*

1. If myopia in one or both eyes exists, a candidate may be passed, provided the ametropia does not exceed 2.5 D, and if with correcting glasses, not exceeding 2.5 D, the acuteness of vision in one eye equals $\frac{5}{6}$ and in the other $\frac{4}{5}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate for service provided the lens or the combined spherical and cylindrical lenses required to correct the error of refraction do not exceed 2.5 D; the acuteness of vision in one eye, when corrected, being equal to $\frac{5}{6}$, and in the other eye $\frac{4}{5}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{5}{6}$, and in the other eye equals $\frac{4}{5}$, with + 4 D or any lower power.

4. Hypermetropic astigmatism does not disqualify a candidate for the service, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{5}{6}$ and of the other $\frac{4}{5}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{1}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either

eye, which are not referred to in the above rules, may exclude a candidate for admission into the service.

6. Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. The existence of imperfection of colour sense will be noted on the candidate's papers.

PUBLIC WORKS DEPARTMENT AND SUPERIOR ESTABLISHMENTS, RAILWAY DEPARTMENT.

1. If myopia in one or both eyes exists, a candidate may be passed, provided the ametropia does not exceed 3.5 D, and if, with correcting glasses not exceeding 3.5 D, the acuteness of vision in one eye equals $\frac{5}{6}$ and in the other $\frac{4}{5}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate, provided the lens, or the combined spherical and cylindrical lenses, required to correct the error of refraction, does not exceed 3.5 D; the acuteness of vision in one eye, when corrected, being equal to $\frac{5}{6}$, and in the other $\frac{4}{5}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{5}{6}$, and in the other eye equals $\frac{4}{5}$, with + 4 D glasses, or any lower power.

4. Hypermetropic astigmatism does not disqualify, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{5}{6}$, and of the other $\frac{4}{5}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{1}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in these rules, may exclude a candidate.

6. Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. Any imperfection of the colour sense is a disqualification for appointment to the Engineering Branch of the Railway Department, or as Assistant Superintendent in the Traffic Department. In all other cases a note as to any imperfection of colour sense will be made on the candidate's papers.

THE INDIAN MEDICAL SERVICE AND THE POLICE DEPARTMENT.

1. Squint, or any morbid condition of the eyes or of the lids of either eye liable to the risk of aggravation or recurrence, will cause the rejection of the candidate.

2. The examination for determining the

* Artificers engaged in map and plan drawing may be considered separately, and this standard relaxed if it appears to be desirable.

REGULATIONS AS TO THE STANDARD OF VISION—continued.

acuteness of vision includes two tests, one for distant, the other for near vision. The Army test types will be used for the test for distant vision, without glasses, except where otherwise stated below, at a distance of 20 feet; and Snellen's Optotypi for the test for near vision, without glasses, at any distance selected by the candidate. Each eye will be examined separately, and the lids must be kept wide open during the test. The candidate must be able to read the tests without hesitation in ordinary daylight.

3. A candidate possessing acuteness of vision, according to one of the standards herein laid down, will not be rejected on account of an error of refraction, provided that the error of refraction, in the following cases, does not exceed the limits mentioned, viz.:—(a) in the case of *myopia*, that the error of refraction does not exceed 2½ D; (b) that any correction for *astigmatism* does not exceed 2½ D; and, in the case of *myopic astigmatism*, that the total error of refraction does not exceed 2½ D.

4. Subject to the foregoing conditions, the standards of the minimum acuteness of vision with which a candidate will be accepted are as follows:—

Standard I.

Right Eye.	Left Eye.
Distant vision.—V = 6/6.	V = 6/6.
Near vision.—Reads o, 6.	Reads o, 6.

Standard II.

Better Eye.	Worse Eye.
Distant vision.—V = 6/6.	V. without glasses, = not below 6/60; and after correction with glasses, = not below 6/24.
Near vision.—Reads o, 6.	Reads 1.

Standard III.

Better Eye.	Worse Eye.

Near vision.—Reads o, 8.

N.B.—In all other respects, candidates for these two branches of the service must come up to the standard of physical requirements laid down for candidates for commissions in the Army.

THE INDIAN PILOT SERVICE, AND CANDIDATES FOR APPOINTMENT AS GUARDS, ENGINE-DRIVERS, SIGNALMEN, AND POINTSMEN ON RAILWAYS.

1. A candidate is disqualified unless both eyes are emmetropic, his acuteness of vision and range of accommodation being perfect.

2. A candidate is disqualified by any imperfection of his colour sense.

3. Strabismus, or any defective action of the exterior muscles of the eyeball, disqualifies a candidate for these branches of service.

THE INDIAN MARINE SERVICE, INCLUDING ENGINEERS AND FIREMEN.

1. A candidate is disqualified if he have an error of refraction in one or both eyes which is not neutralised by a concave or by a convex 1 D lens, or some lower power.

2. A candidate is disqualified by any imperfection of his colour sense.

3. Strabismus, or any defective action of the exterior muscles of the eyeball, disqualifies a candidate for this branch of service.

SPECIAL DUTY.

Candidates for special duty under Government must possess such an amount of acuteness of vision as will, without hindrance, enable them to perform the work of their office for the period their appointment may last. In all cases of imperfection of colour sense a note will be made on the candidate's paper.

Preliminary Examination of Candidates by the India Office Medical Board.*

Candidates for appointments referred to on pages 273B-4 may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions:—

(a) Applications must be addressed to the Under Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement as to the particular appointment which the candidate desires to obtain.

(b) Candidates must pay their travelling expenses.

(c) It must be understood that the opinion of the Medical Board, which will be communicated by the Board to the candidate at the end of the examination, is solely for the candidate's own information and is not an official finding. The Board, if they consider a candidate unfit, will exercise their discretion as to informing him of the particular grounds on which their opinion is based. No further information can in any case be given as to the Medical Board's opinion, which will be confined solely to the physical fitness of the candidate; and any question as to the eligibility of the candidate, if found physically fit, to be admitted to the particular Indian service which he desires to enter, should be addressed in writing to the Under Secretary of State.

(d) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board prior to the examination or to their appointment.

(e) As the preliminary examination by the Medical Board is held solely for the candidate's information, a candidate who is informed after such an examination that he is physically fit will have on that account no claim to be accepted as physically fit when he presents himself for the final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

INDIA OFFICE, May, 1914.

Inoculation for Enteric Fever and Revaccination against Small-pox.

1. All persons appointed to the service of the Government of India from this country should undergo, before starting for India, (a) Inoculation for enteric fever; (b) Vaccination against small-pox.

(a) Statistics show that although inoculation does not confer complete immunity, the risk of infection is much diminished by it, and that when infection does occur after inoculation, the attack is not usually severe. All up-to-date experience goes to confirm the value of inoculation. The treatment does not usually cause any marked disturbance of health. Inoculation can be carried out by a private medical adviser, and should invariably be followed by a period of complete rest of 24 to 48 hours. Application should be made by letter to the Commandant, Royal Army Medical College, Grosvenor Road, S.W., stating whether it is wished that the inoculation should take place at the Royal Army Medical College or whether it is preferred that the vaccine should be sent to the applicant's private medical adviser, who should be named in the letter. The vaccine is free of cost in any case, and no charge will be made for vaccination if done at the Royal Army Medical College. The most suitable time for having the treatment carried out is about four weeks before sailing, and if it cannot be done at least three weeks before sailing, it should be left until arrival in India. Application should be made in India to the Chief Medical Officer, Military or Civil, of the Division in which the applicant is stationed. It is not advisable to have the operation carried out on board ship.

(b) With regard to vaccination against small-pox, all persons going to India for the first time who have not been successfully vaccinated within the last seven years should have this operation performed either before sailing or soon after arrival in India. It should be understood that the Royal Army Medical College do not undertake to perform vaccination, or to supply the vaccine as in the case of inoculation, and arrangements must be made with private medical advisers.

2. An interval of at least two weeks should be allowed between the above-mentioned operations.

INDIA OFFICE, July, 1918.

* These rules do not apply to candidates for appointment to the Indian Civil Service (*see* note on page 273A) and His Majesty's Indian Army.

CIVIL SERVICE FUNDAMENTAL RULES.

PART I.

CHAPTER I.—EXTENT OF APPLICATION.

1. These rules may be called the Fundamental Rules. They shall come into force with effect from the 1st January, 1922:

2. The fundamental rules apply, subject to the provisions of Rule 3, to all Government servants whose pay is debitable to civil estimates in India, and to any other class of Government servants in India to which the Secretary of State in Council may, by general or special order, declare them to be applicable. In relation to services under its administrative control, other than all-India services, a local Government may make rules modifying or replacing any of the fundamental rules; provided that:—

- (a) No such rule shall adversely affect any person who is in Government service at the time when the fundamental rules come into force, and
- (b) Any such rule which grants any privilege or concession not admissible under the terms of the fundamental rules, or of the Civil Service Regulations as they stand at the time when the fundamental rules are introduced, shall require the sanction of the Secretary of State in Council.

3. Unless in any case it be otherwise distinctly provided by or under these rules, these rules do not apply to Government servants whose conditions of service are governed by Army or Marine Regulations.

4. The powers specifically granted by these rules to local Governments may be exercised by them in relation to those Government servants only who are under their administrative control. These powers may be exercised by the Governor-General in Council in respect of all other Government servants, and may be delegated by him, without regard to the limitations of Rule 6, and subject to any conditions which he may think fit to impose, to a Chief Commissioner.

5. The power to make rules or general orders conferred upon local Governments by any of these rules shall be exercised after consideration by the Governor with his Executive Council and Ministers sitting together, but the rules and orders so made shall be made by the Governor in Council or by the Governor and Ministers according as the service affected is attached to a department dealing with reserved, or a department dealing with transferred, subjects. In the case of services performing duties both in a department dealing with reserved subjects and in a department dealing with transferred subjects, the Governor shall decide by which authority the rules shall be made.

6. A local Government may delegate to any of its officers, subject to any conditions which it may think fit to impose, any power conferred upon it by these rules, with the following exceptions:—

- (a) All powers to make rules;

7. No powers may be exercised or delegated under these rules except after consultation with the Finance Department. It shall be open to that Department to prescribe, by general or special order, cases in which its consent may be presumed to have been given, and to require that its opinion on any matter on which it has been consulted shall be submitted to the Governor by the consulting department.

8. The power of interpreting these rules is reserved to the Governor-General in Council.

PART II.

CHAPTER III.—GENERAL CONDITIONS OF SERVICE.

10. Except as provided by this rule, no person may be substantively appointed in India to a permanent post in Government service without a medical certificate of health, which must be affixed to his first pay bill. A local Government may make rules prescribing the form in which medical certificates should be prepared, and the particular medical or other officers by whom they should be signed. It may in individual cases, dispense with the production of a certificate, and may by general order exempt any specified class of Government servants from the operation of this rule.

11. Unless in any case it be otherwise distinctly provided, the whole time of a Government servant is at the disposal of the Government which pays him, and he may be employed in any manner required by proper authority, without claim for additional remuneration, whether the services required of him are such as would ordinarily be remunerated from general revenues, from a local fund, or from the revenues of an Indian State.

12.—(a) Two or more Government servants cannot be appointed substantively to the same permanent post at the same time.

(b) A Government servant cannot be appointed substantively, except as a temporary measure, to two or more permanent posts at the same time.

(c) A Government servant cannot be appointed substantively to a post on which another Government servant holds a lien.

13. If a Government servant is transferred to duty which there is reason to believe will not terminate within three years, and retains no connection with his substantive post, a local Government may suspend his lien upon that post and fill it substantively, reserving only the right to reverse the arrangements thus made on the return of the Government servant in question. When the Government servant transferred draws pay in a selection grade of a cadre, another Government servant may, subject to the same reservation, be promoted to the selection grade, even if no change of duties is involved.

14. Unless his lien is formally transferred or suspended by the local Government, a Government servant holding substantively a permanent post retains a lien on that post or on a post of the same character in the same cadre :—

- (a) subject to the exception in Rule 97, while on leave ;
- (b) while on foreign service or holding a temporary post or officiating in another post ;
- (c) during joining-time on transfer to another post, unless he is transferred substantively to a post on lower pay, in which case his lien is transferred to the new post from the date on which he is relieved of his duties in the old post ; and
- (d) while under suspension.

Note.—In the case of a chaplain, the acceptance during leave of a benefice in the United Kingdom is not acceptance of foreign service for the purpose of sub-clause (b) above.

15. A Government servant shall not, save in cases of inefficiency or misbehaviour, be transferred substantively to a post carrying less pay than his relative position in the cadre of the service to which he belongs would justify.

16. A Government servant may be required to subscribe to a provident fund, a family pension fund or other similar fund in accordance with such rules as the Secretary of State in Council may by order prescribe.

17. Subject to any exceptions specifically made in these rules, an officer shall begin to draw the pay and allowances attached to his tenure of a post with effect from the date when he assumes the duties of that post, and shall cease to draw them as soon as he ceases to discharge those duties.

18. After five years' continuous absence from duty, elsewhere than on foreign service in India, whether with or without leave, a Government servant ceases to be in Government employ.

PART III.

CHAPTER IV.—PAY.

19. Subject to the provisions of rules made under Section 45A of the Act and to any restrictions which the Secretary of State in Council may by order impose upon the powers of the Governor-General in Council, or the Governor in Council, as the case may be, the fixation of pay is within the competence of a local Government ; provided that, except in the case of personal pay granted in the circumstances defined in Rule 9 (23) (a), the pay of a Government servant shall not be so increased as to exceed the pay sanctioned for his post, without the sanction of an authority competent to create a post in the same cadre on a rate of pay equal to his pay when increased.

20. When a Government servant is treated as on duty under Rule 9 (6) (b) above, the local Government may, if it thinks fit, by general or special order reduce the amount of his pay and allowances.

21. *Time-scale Pay.*—Rules 22 to 29 inclusive, and Rule 32, apply to time-scales of pay generally. They do not, however, apply to any time-scale sanctioned by the Secretary of State in Council in so far as they are inconsistent with terms specially so sanctioned for such time-scale.

22. When a Government servant is appointed substantively to a post on a time-scale of pay :—

- (a) (i) if he has not previously officiated in the post, or
- (ii) if he has officiated in it but his present substantive pay exceeds the pay which he last drew in it,

he will draw as initial pay the pay of the stage in the time-scale next above his present substantive pay, if any, and will draw increments after the periods usually required ; and

- (b) if he has previously officiated in the post, but his present substantive pay does not exceed the pay which he drew when last officiating,

he will draw initial pay equal to that pay, and will count for increment in that stage the period during which he was drawing the said pay.

23. The holder of a post, the pay of which is changed, shall be treated as if he were transferred to a new post on the new pay ; provided that he may at his option retain his old pay until the date on which he has earned his next or any subsequent increment on the old scale, or until he vacates his post or ceases to draw pay on that time-scale. The option once exercised is final.

24. An increment shall ordinarily be drawn as a matter of course unless it is withheld. An increment may be withheld from a Government

servant by a local Government, or by any authority to whom the local Government may delegate this power under Rule 6, if his conduct has not been good or his work has not been satisfactory. In ordering the withholding of an increment, the withholding authority shall state the period for which it is withheld, and whether the postponement shall have the effect of postponing future increments.

25. Where an efficiency bar is prescribed in a time-scale, the increment next above the bar shall not be given to a Government servant without the specific sanction of the authority empowered to withhold increments.

26. The following provisions prescribe the conditions on which service counts for increments in a time-scale :—

- (a) All duty in a post to which a time-scale applies counts for increments in that time-scale.
- (b) Officiating service in another post, service in a temporary post, and leave, other than extraordinary leave, count for increments in the time-scale applicable to the post on which the Government servant concerned holds a lien, or would hold a lien had his lien not been suspended under Rule 13.
- (c) If a Government servant's tenure of a temporary post is interrupted by duty in another post or by leave, other than extraordinary leave, or by foreign service, such duty, leave, or foreign service counts for increments in the time-scale applicable to the temporary post if the Government servant returns to the temporary post.
- (d) Foreign service counts for increments in the time-scale applicable to :—
 - (i) the post in Government service on which the Government servant concerned holds a lien, or would hold a lien had his lien not been suspended under Rule 13; and
 - (ii) any post to which he may receive officiating promotion under Rule 113 below, for the duration of such promotion.

27. An authority may grant a premature increment to a Government servant on a time-scale of pay if it has power to create a post in the same cadre on the same scale of pay.

28. The authority which orders the transfer of a Government servant, as a penalty from a higher to a lower grade or post may allow him to draw any pay, not exceeding the maximum of the lower grade or post, which he may think proper.

29. If a Government servant who has been reduced to a lower grade or post on account of misconduct or inefficiency is subsequently promoted or reinstated, his previous service in the grade or post from which he was reduced counts for increments, unless the authority

promoting or reinstating him declares that it shall not so count either in whole or in part.

30. *Pay of Officiating Government Servants.*—Subject to the provisions of Chapter VI, a Government servant holding one post substantively if appointed to officiate in another may not draw enhanced pay on account of the appointment unless the officiating appointment involves the assumption of duties or responsibilities of greater importance or of a different character. This condition is not fulfilled if the two posts are on the same scale of pay.

NOTE.—Two posts are said to be on the same scale of pay when they fall within a cadre or a class in a cadre, such cadre or class having been created in order to fill all posts involving duties of approximately the same character or degree of responsibility in a service or establishment or group of establishments; so that the pay of the holder of any particular post is determined by his position in the cadre or class and not by the fact that he holds that post.

EXCEPTION.—In the case of any service, other than an all-India service, which is not organised on a time-scale basis, and in which a system of acting promotion from grade to grade is in force at the time of introduction of these fundamental rules, a local Government may waive this condition until such time as the service is next reorganised.

31. Subject to the provisions of Rules 30 and 35, a Government servant officiating in a post will draw the presumptive pay of that post. If however, the presumptive pay of the post, whether permanent or temporary, which he holds substantively is greater than the presumptive pay of the new post, he will draw pay equal to the presumptive pay of his substantive post.

NOTE.—If the post in which a Government servant officiates is tenable by a Government servant of any one of several grades or classes in a cadre, and the fixation of the pay of all such grades or classes is within the competence of the local Government, the local Government may permit the officiating Government servant to draw the pay of any one of such grades or classes.

32. A Government servant officiating in a post on a time-scale draws as initial pay the stage of the time-scale next above his substantive pay, if any; provided that if he has previously officiated in the post or in a post in the same cadre on the same time-scale, his initial pay shall not be less than the pay which he drew when last officiating. All officiating service in any stage of the time-scale, whether continuous or not, counts for increment in that stage. If the presumptive pay of the Government servant's substantive post at any time exceeds the pay calculated under this rule, he will draw pay equal to that presumptive pay.

NOTE.—In cases where the fixation of the time-scale of pay is in the competence of the local Government, the local Government may permit the officiating Government servant to draw as initial pay any stage of the time-scale.

33. When a Government servant officiates in a post, the pay of which has been fixed at a rate personal to another Government servant, a local Government may permit him to draw pay at any rate not exceeding the rate so fixed, or, if the rate so fixed be a time-scale, not exceeding the lowest stage of that time-scale.

34. If a military officer holding substantively a post in a civil department officiates in a military post, he will draw in the military department the emoluments to which he would have been entitled under military rules had his substantive post been a post under the military department.

35. A local Government may fix the pay of an officiating Government servant at an amount less than that admissible under these rules.

36. A local Government may issue general or special orders allowing acting promotions to be made in the place of Government servants who are treated as on duty under Rule 9 (6) (b).

37. *Personal Pay.*—Except when the authority sanctioning it orders otherwise, personal pay shall be reduced by any amount by which the recipient's pay may be increased, and shall cease as soon as his pay is increased by an amount equal to his personal pay.

38. *Pay of Official Members of the Indian Legislature.*—A Government servant nominated as a member of the Legislative Assembly or the Council of State shall receive while serving on the Assembly or the Council, the pay which he would from time to time have drawn had he not been so serving. He shall also receive, in addition, such travelling allowance as the Governor-General in Council may fix.

39. *Pay of Temporary Posts.*—When a temporary post is created which may have to be filled by a person not already in Government service, the pay of the post shall be fixed with reference to the minimum that is necessary to secure the services of a person capable of discharging efficiently the duties of the post.

40. When a temporary post is created which will probably be filled by a person who is already a Government servant, its pay should be fixed by the local Government with due regard to—

- (a) the character and responsibility of the work to be performed, and
- (b) the existing pay of Government servants of a status sufficient to warrant their selection for the post.

41. A person appointed to a temporary post will draw the pay of that post.

42. *Subsistence Grants.*—A local Government may make a subsistence grant to a Government servant in the following circumstances :—

- (a) To any Government servant other than a military officer, while under suspension.
- (b) To any Government servant appointed in the United Kingdom, up to a maximum of two months, if, on first arrival in India, he is prevented by illness from proceeding to the seat of the Government to which he is attached, or to any other station to which he is ordered to proceed direct.

43. The amount of subsistence grant shall be regulated as follows :—

- (a) In the case of—
 - (i) a member of the Indian Civil Service, a statutory civil servant or a military commissioned officer subject to the civil leave rules; or
 - (ii) any other Government servant receiving subsistence grant under Rule 42 (b), it shall be such as the Secretary of State in Council may by general order prescribe.
- (b) In the case of any Government servant under suspension, other than a member of the Indian Civil Service or a military commissioned officer subject to the civil leave rules, it shall be such as the suspending authority may direct, but shall in no case exceed one-fourth of the pay of the suspended Government servant.

CHAPTER V.—ADDITIONS TO PAY.

44. *Compensatory Allowances.*—Subject to any restrictions which the Secretary of State in Council may by order impose upon the powers of the Governor-General in Council or the Governor in Council, as the case may be, and to the general rule that the amount of a compensatory allowance should be so regulated that the allowance is not on the whole a source of profit to the recipient, a local Government may grant such allowances to any Government servant under its control, and may make rules prescribing their amounts and the conditions under which they may be drawn.

NOTE.—Compensatory allowance does not include the grant of a free passage to or from the United Kingdom, which requires the general or special sanction of the Secretary of State in Council, nor, for the purpose of this rule, does it include a sumptuary allowance.

45. *Provision of Residences.*—When a Government supplies a Government servant with a residence, leased, acquired or constructed at Government expense, the following conditions shall be observed :—

- (a) The scale of accommodation supplied shall not exceed that which is appropriate to the status of the occupant.

- (b) Save in the circumstances mentioned in clause (e) below, the occupant shall pay rent for the residence, and such rent shall not exceed the standard rent which the local Government may fix for the residence, or 10 per cent. of the occupant's emoluments, whichever is less. Emoluments, for the purpose of this rule, include compensatory allowance other than travelling allowance, whether drawn from general revenues or from a local fund, and pension, if the occupant is in receipt of pension.

NOTE.—The standard rent shall be calculated as follows :—

- (i) In the case of leased residences it shall be the sum paid to the lessor, plus such allowance for maintenance and repairs, if these are a charge on the local Government, as the latter may fix.
- (ii) In the case of residences acquired or constructed by Government, it shall be calculated on the cost of acquiring or constructing the residence, including any capital expenditure incurred after acquisition or construction, together with the cost or assessed value of the site, and shall be a percentage of its cost equal to the rate of interest at which Government is borrowing money in the open market at the time of acquisition or construction, plus such allowance for maintenance and repairs as the local Government may fix.
- (c) Nothing contained in clause (b) above shall operate to prevent a local Government from :—
 - (i) taking in any particular area a uniform percentage of emoluments, not exceeding 10 per cent., as rent from each Government servant supplied with a residence ; provided that, if the uniform percentage taken is less than 10 per cent., the total amount of the standard rent fixed for all residences supplied in that area is thereby recovered ; or
 - (ii) taking from any Government servant who is in receipt of a compensatory allowance granted on account of dearness of living, a rent in excess of 10 per cent. of his emoluments.
- (d) A local Government may make rules prescribing the principles on which rent shall be assessed in the case of Government servants who are supplied with residences in more than one station, or who, owing to the nature of their duties, occupy Government residences for a part only of the year ; provided that—
 - (i) a Government servant, to whom more residences than one are allotted, shall not pay less rent for the total period of occupation in any one year than 10 per cent. of his emoluments for that

period, or the total of the standard rents for the period of occupation of each house, whichever is less, and

- (ii) a Government servant to whom a Government residence is allotted for a part only of the year shall not pay less rent than the amount calculated on that residence under clause (b) above for the period of occupation.
- (e) A local Government may, in very special circumstances, for reasons which should be recorded, waive or reduce the amount of rent to be recovered, or grant rent-free accommodation to Government servants who are required to occupy particular houses in order to insure the proper performance of their duties.
- (f) The limit of 10 per cent. prescribed under clause (b) and the uniform percentage of emoluments mentioned in clause (c) above have reference to the rent of the building only. Adequate additional rent should be charged for furniture, water supply and sanitary heating and electric installations, if these are supplied. Such charges should not be forgone, except in very special circumstances, for reasons which should be recorded.

46. *Honoraria*.—A Government servant may be granted a honorarium from general revenues, or permitted to receive an honorarium or a recurring or non-recurring fee from a private person or body, or from a public body, including a body administering a local fund, or from an Indian State, in return for work performed either within or outside the course of his ordinary duties, when the work is of such exceptional merit or of such an arduous or peculiar nature as to justify a special reward. The reasons for the grant of the honorarium or fee shall be recorded in writing by the sanctioning authority.

47. A local Government may make rules fixing the amounts which may be sanctioned as honoraria or fee by the authorities subordinate to it and specifying the conditions under which they may be granted or accepted.

NOTE.—This rule does not apply to the acceptance of honoraria or fees by medical officers in civil employ, which shall be governed by such orders as the Secretary of State in Council may issue in this behalf.

48. Any Government Servant is eligible to receive without special permission (a) the premium awarded for an essay or plan in public competition, or (b) any reward offered for the arrest of a criminal or for information or special services in connection with the administration of justice ; and also any remuneration or reward payable under any special or local law or in accordance with the provisions of any Act or regulation or rules framed thereunder.

CHAPTER VI.—COMBINATION OF APPOINTMENTS.

49. A local Government may appoint one Government servant to hold substantively as a temporary measure, or to officiate in, two or more independent posts at one time. In such cases his pay is regulated as follows :—

- (a) The highest pay, to which he would be entitled if his appointment to one of the posts stood alone, may be drawn on account of his tenure of that post ;
- (b) For each other post he draws such reasonable pay, in no case exceeding half the presumptive pay of the post, as the local Government may fix ; and
- (c) If a compensatory allowance is attached to one or more of the posts, he draws such compensatory allowance as the local Government may fix, provided that such allowance shall not exceed the total of the compensatory allowances attached to all the posts.

CHAPTER VII.—DEPUTATION OUT OF INDIA.

50. Unless the Secretary of State in Council by general or special order otherwise direct, no deputation of a Government servant out of India shall be sanctioned without previous reference to the Secretary of State in Council.

51. When a Government servant is with proper sanction so deputed, his pay and allowance shall, unless the Secretary of State in Council in any particular case otherwise direct, be regulated by the Governor-General in Council as follows :—

- (a) If the deputation is declared by the Governor-General in Council to be under quasi-European conditions, the Government servant deputed shall be granted not more than two-thirds of the pay which he would draw if he were on duty in India. The Governor-General in Council may relax the limit of two-thirds in the case of a Government servant of Indian domicile. A compensatory allowance also may be granted by the Secretary of State in Council if the deputation is to Europe or America, or in other cases by the Governor-General in Council.
- (b) If the deputation is declared not to be under quasi-European conditions, the emoluments of the Government servant deputed shall be determined by the Governor-General in Council with due regard to the provisions of rule 40 above as though a temporary post had been created.

CHAPTER VIII.—DISMISSAL AND SUSPENSION.

52. The pay and allowances of a Government servant who is dismissed from service cease from the date of such dismissal.

53. A Government servant under suspension is entitled to the following payments :—

- (a) If a military officer in civil employ, to the pay and allowances of his military rank.
- (b) In any other case, to subsistence grant.

54.—(a) When the suspension of a Government servant as a penalty for misconduct is, upon reconsideration or appeal, held to have been unjustifiable or not wholly justifiable ; or

(b) When a Government servant dismissed or suspended pending inquiry into alleged misconduct is, upon reconsideration or appeal, reinstated :

the revising or appellate authority may grant to him for the period of his absence from duty—

- (i) if he is honourably acquitted, the full pay to which he would have been entitled if he had not been dismissed or suspended and, by an order to be separately recorded, any allowance of which he was in receipt prior to his dismissal or suspension ; or
- (ii) if otherwise, such proportion of such pay and allowances as the revising or appellate authority may prescribe.

In a case falling under sub-clause (i), the period of suspension or dismissal will be treated as a period spent on duty. In a case falling under sub-clause (ii), it will not be treated as a period spent on duty unless the revising or appellate authority so direct.

55. Leave may not be granted to a Government servant under suspension.

CHAPTER IX.—COMPULSORY RETIREMENT AND RESIGNATION OF OFFICE.

56.—(a) Except as otherwise provided in this rule a Government servant, other than a ministerial servant, is required to retire on attaining the age of 55 years. He may be retained in service after that age with the sanction of the local Government on public grounds, which must be recorded in writing ; but he must not be retained after the age of 60 years except in very special circumstances.

(b) A ministerial servant may be required to retire at the age of 55 years, but should ordinarily be retained in service, if he continues efficient, up to the age of 60 years. He must not be retained after that age except in very special circumstances, which must be recorded in writing, and with the sanction of the local Government.

(c) The following are special rules applicable to particular services :—

- (i) A member of the Indian Civil Service, who is not a judge of a Chief Court, must retire after 35 years' service counted from the date of his arrival in India ; provided that, if he has held his post for less than five years, he may, with the sanction of the Governor-General

in Council, be permitted to retain it until he has held it for that period.

- (ii) A member of the Indian Civil Service, who is a judge of a Chief Court, must retire on attaining the age of 60 years.
- (iii) In the case of the officers specified in rule 98 below and of the Legal Remembrancer and Secretary to the Legislative Council of the Punjab, if he fulfils the conditions prescribed in that rule, the age limit is 60 years.
- (iv) A civil engineer in the Public Works or Railway Department must retire on reaching the age of 55 years, and may be required by the Governor-General in Council to retire on reaching the age of 50 years if he has not attained to the rank of Superintending Engineer; provided that, in the case of Chief Engineers, the local Government may in special circumstances, which should be recorded in writing, grant an extension of service not exceeding three months.
- (v) A civilian in the Superior Railway Revenue Establishment or the Superior Establishment of the Telegraph Department must retire on reaching the age of 55 years.

This sub-clause does not apply to members of the first and second divisions of the Superior Telegraph Traffic Branch (other than officers of the old Superior Telegraph Establishment), nor to those of the second division of the Superior Telegraph Engineering and Technical Branches whose retirement is governed by clause (a) of this rule.

- (vi) The following provisions are applicable to military officers in civil employ:—

- (1) Officers of the Indian Medical Service must retire from civil employ at the age of 55 years, provided that—
 - 1. A Director-General of the Indian Medical Service may remain in service up to the age of 60 years;
 - 2. Surgeons-General and Inspectors-General of Civil Hospitals may remain in civil employ up to the age of 57 years; and
 - 3. Lieutenant-Colonels, specially selected for increased pay, who entered the service before the 1st April, 1911, may remain in civil employ until they complete 30 years' service.

- (2) Military officers in the Survey of India Department cease to be in civil employ on reaching the age of 55 years unless granted an extension by the Secretary of State in Council.

- (3) Military commissioned officers serving in the Public Works or Railway Department cease to be in civil employ

under the same conditions as govern the retirement of civil engineers of those departments. In addition, an officer of the Royal Engineers must retire on attaining the rank of General Officer, provided that, if he is holding a post of Chief Engineer, he may, with the sanction of the Governor-General in Council, be permitted to complete a five years' tenure of the post, unless in the meantime he is required to vacate office under some other regulation.

- (4) Military officers serving in any department, other than those mentioned in (1) to (3) of this sub-clause, cease to be in civil employ on reaching the age of 55 years; but any such officer, being a military commissioned officer and having held his post for less than five years, may for special reasons, with the sanction of the Governor-General in Council, be permitted to retain it until he has held it for that period.

NOTE 1.—This rule does not apply to a Government servant who is appointed to any post by His Majesty the King Emperor of India, or by the Governor-General in Council with His Majesty's approval.

NOTE 2.—For the purposes of sub-clauses (i), (vi) (3) and (vi) (4) of clause (c) of this rule, officiating tenure of a post shall be included in calculating the period of five years.

57. The resignation of his office by a member of the Executive Council of the Governor-General, of a Governor or a Lieutenant-Governor shall take effect from the date following that of his embarkation at any port in India other than Aden, or from the date of expiry of five years' tenure of office, or from the date of his successor's entry upon office, whichever of these dates be earliest. His five years' tenure shall begin from the date on which he first entered upon office, whether as a temporary member appointed in India or after the issue of His Majesty's warrant of appointment, but shall not include any period, other than a period spent on leave, during which he draws less than full pay.

PART IV.

CHAPTER X.—LEAVE.

Section I.—Extent of Application.

58. Unless in any case it be otherwise distinctly provided in Section VI. of this chapter, the rules in Section I. to V. of this chapter apply to all Government servants to whom the fundamental rules as a whole apply; provided that it shall be open to any person who is in Government service at the time when the fundamental rules come into force to exercise the option of remaining under the leave rules to which he has hitherto been subject. The intention of exercising this option must be specifically declared

to the local Government or the Governor-General in Council, as the case may be, within six months of the date on which the fundamental rules come into force, or, if the Government servant be on leave on that date, within six months of his return from leave. Every Government servant who does not make such a declaration will become subject to the rules in Sections I. to V. of this chapter. The option once exercised is final.

NOTE.—A similar option may be exercised by the Government servants mentioned in Rules 97 and 98.

59. Leave is earned under Sections I. to V. of this chapter by a Government servant holding substantively a permanent post in civil employ, or holding a lien on such a post.

60. Leave is earned by duty only. For the purpose of this rule a period spent in foreign service counts as duty if contribution towards leave salary is paid on account of such period.

61. A military commissioned officer appointed to a post in civil employ becomes subject to these rules under the following conditions :—

(a)—(i) An officer subject, before such appointment, to the Indian Army Leave Rules becomes subject to these rules from the date of first substantive appointment to a post in civil employ or from the date of completion of three years' continuous officiating duty in such service, whichever is earlier. In reckoning continuous duty—

- (1) Any period of foreign service, to which transfer was made direct from a civil post, may be included, and
- (2) Leave does not operate to break continuity unless the officer has to revert to military employ in order to obtain such leave.

NOTE.—This rule also applies to commissioned officers transferred from the Army Veterinary Department to the Civil Veterinary Department.

- (ii) A continuous service officer of the Royal Engineers becomes subject to these rules from the date of his entry into permanent civil employ or from the date of his election for continuous Indian service, whichever is later.
- (iii) A non-continuous service officer of the Royal Engineers, if he elects for these rules, becomes subject to them from the date of his entry into permanent civil employ or from the date of completion of five years' Indian service, whichever is later.
- (b) Transfer from military service to a post in civil employ, the tenure of which is limited to a definite period, does not entitle an officer to leave under these rules.

62. Except as provided in rule 61, a military officer in civil employ remains subject to military leave rules.

63. When a military commissioned officer subject to these rules is temporarily transferred to military duty, but retains a lien on his post in civil employ, the period of his absence counts as duty for leave under these rules.

64. Unless in any case it be otherwise expressly provided by or under these rules, a Government servant transferred to a service or post to which these rules apply from a service or post to which they do not apply is not ordinarily entitled to leave under these rules in respect of duty performed before such transfer; but a Government servant reverting from duty as Judge of a High Court, or as one of the officers specified in rule 98 below, may count such duty for leave as though it were duty performed in a vacation department; all leave taken during the service concerned being treated as taken under these rules.

65.—(a.) A Government servant who resigns the public service or is discharged from it on reduction of establishment cannot, if re-employed after an interval, count his former service towards leave without the permission of the authority sanctioning the re-employment.

(b) A Government servant who is dismissed or removed from the public service, but is reinstated on appeal or revision, is entitled to count his former service for leave, unless the appellate or reviewing authority declares that he shall not so count it in whole or in part.

Section II.—General Conditions.

66. A local Government may make rules specifying the authorities by whom leave, other than special disability leave under Rule 83, may be granted.

67. Leave cannot be claimed as of right. When the exigencies of the public service so require, discretion to refuse or revoke leave of any description is reserved to the authority empowered to grant it.

68. Leave ordinarily begins on the day on which transfer of charge is effected and ends on the day preceding that on which charge is resumed. When joining time is allowed to a Government servant returning from leave out of India, the last day of his leave is the day before the arrival of the vessel in which he returns at her moorings or anchorage in the port of debarkation. A local Government may, however, make rules defining the circumstances in, and the conditions on, which Sundays or other recognised holidays may be prefixed to leave or affixed to leave or joining time.

69. A Government servant on leave may not take any service or accept any employment without obtaining the previous sanction of—

- (a) The Secretary of State, if the Government servant is residing in Europe, North Africa, America or the West Indies; and

- (b) The Governor-General in Council, or any lower authority empowered to appoint him, if he is residing elsewhere.

NOTE.—This rule does not apply to casual literary work, or to service as an examiner or similar employment; nor does it apply to acceptance of foreign service, which is governed by rule 110.

70. All orders recalling a Government servant to duty before the expiry of his leave should state whether the return to duty is optional or compulsory. If the return is optional, the Government servant is entitled to no concession. If it is compulsory, he is entitled—

- (a) If the leave from which he is recalled is out of India—

(i) To receive a free passage to India;

(ii) To count the time spent on the voyage to India as duty for purposes of calculating leave; and

(iii) To receive leave-salary during the voyage to India and for the period from the date of landing in India to the date of joining his post to be paid leave-salary at the same rate at which he would have drawn it had he not been recalled but returned in the ordinary course on the termination of his leave.

- (b) If the leave from which he is recalled is in India, to be treated as on duty from the date on which he starts for the station to which he is ordered, and to draw travelling allowance for the journey, but to draw until he joins his post leave-salary only.

71. No Government servant who has been granted leave on medical certificate may return to duty without first producing a medical certificate of fitness in such form as the Governor-General in Council, in the case of a Government servant on leave in Asia, or the Secretary of State in Council, in the case of a Government servant on leave elsewhere, may by order prescribe. A local Government may require a similar certificate in the case of any Government servant who has been granted leave for reasons of health, even though such leave was not actually granted on a medical certificate.

72. Unless he is permitted to do so by the authority which granted his leave, a Government servant on leave may not return to duty more than fourteen days before the expiry of the period of leave granted to him.

73. A Government servant who remains absent after the end of his leave is entitled to no leave-salary for the period of such absence, and that period will be debited against his leave-account as though it were leave on half average pay, unless his leave is extended by the local Government. Wilful absence from duty after the expiry of leave may be treated as misbehaviour for the purpose of rule 15.

74.—(a) Subject to any instructions which may be given by the Governor-General in Council in connection with the control of the issue of money from treasuries or by the Auditor-General in India in order to secure efficiency and uniformity of audit, a local Government may make rules prescribing the procedure to be followed in India—

- (i) in making application for leave and for permission to return from leave,
- (ii) in granting leave,
- (iii) in the payment of leave-salary; and
- (iv) in the maintenance of records of service.

(b) The procedure to be followed elsewhere than in India will be prescribed by the Governor-General in Council.

Section III.—*Special and ordinary Leave Rules.*

75. The conditions governing admission to the benefits of the special leave rules shall be such as the Secretary of State in Council may by general order prescribe. All Government servants not so admitted shall be subject to the ordinary leave rules.

Section IV.—*Grant of Leave.*

76. A leave account shall be maintained for each Government servant in terms of leave on average pay.

77. (a) In the leave account of a Government servant who on his entry into Government service becomes subject to these rules, shall be credited:—

- (i) If he be under the special leave rules, five-twenty-seconds of the period spent on duty;
- (ii) If he be under ordinary leave rules, two-elevenths of the period spent on duty.

(b) In the leave account of a Government servant who is already in Government service when he becomes subject to these rules shall be credited:—

- (i) If he be under the special leave rules—
 - (1) the privilege leave which it would, on the date on which he becomes subject to these rules, be permissible to grant to him under the rule, in force prior to that date: *plus*
 - (2) one-eighth of the period spent on duty or on privilege leave prior to that date: *plus*
 - (3) five-twenty-seconds of the period spent on duty subsequent to that date.
- (ii) If he be under the ordinary leave rules—

- (1) the privilege leave which it would, on the date on which he becomes subject to these rules, be permissible to grant to him under the rules in force prior to that date: *plus*.

- (2) one-twelfth of the period spent on duty or on privilege leave prior to that date : *plus*
 (3) two-elevenths of the period spent on duty subsequent to that date.

(c) In the case of a military commissioned officer who becomes subject to these rules, the credit under (b) (i) (2) above shall be in respect of the period of his service in India.

NOTE.—A commissioned officer transferred from the Army Veterinary Department to the Civil Veterinary Department shall be considered, for the purposes of this rule, to have been subject to the Indian Army leave rules from the date of his arrival in India on his last tour of service.

(d) Any other Government servant transferred permanently from military to civil employ is entitled to a credit to his leave account based on such portion of his military duty as, under the rules for the time being in force, is permitted to count for pension.

(e) A statutory civil servant or a Government servant who is subject, at the time when these rules come into force, to the Indian Service Leave Rules which were in force in January 1920, is entitled to credit to his leave account, in addition to the periods admissible under Clause (b) above, one-third of any period of leave on medical certificate taken under former rules.

78. The amount of leave debited against a Government servant's leave account is—

- (a) the actual period of leave on average pay ; and
 (b) half the period of leave on half or quarter average pay or on leave salary equal to subsistence grant under the Note to rule 88.

NOTE (i)—No privilege leave taken under the former Civil Leave Rules, or by a military officer under the British or Indian Army Leave Rules before coming under civil rules, is to be debited under (a) above.

NOTE—(ii) (1)—Under (b) above are to be debited—

- (a) Furlough, leave on medical certificate and special leave with allowances taken under either the European Service Leave Rules or the Indian Service Leave Rules as they stood before these rules came into force.
 (b) In the case of a military officer, leave in and out of India on less than full pay earned by service in India under the British or Indian Army Leave Rules, but the debit shall not exceed the credit given under rule 77 (c) above.
 (2) In the case of a member of the Indian Civil Service or military commissioned officer subject to these rules, special leave with allowances taken under rules previously

in force, and leave not due taken under these rules, up to a combined maximum of three months, reckoned in terms of leave on average pay, shall not be so debited.

NOTE (iii)—In cases covered by rule 77 (d), the leave taken during the period of duty on which the credit to the leave account is based is to be debited as prescribed in notes (i) and (ii) above.

79. When a Government servant who has previously been subject to the ordinary leave rules, is admitted to the benefits of the special leave rules no change shall be made in the amount of leave previously credited and debited to his account, but he shall be entitled to the maximum amount of leave prescribed in rule 81 (a) (i).

80. The amount of leave due to a Government servant is the balance of leave at his credit in the leave account.

81. Leave may be granted to a Government servant at the discretion of the Authority entitled to grant the leave, subject to the following restrictions :—

- (a) The maximum amount of leave which may be granted, expressed in terms of leave on average pay, is the privilege leave which it would be permissible to grant to the Government servant in question on the date on which he becomes subject to these rules, under the rules applicable to him prior to that date, *plus*
 one-eleventh of the period spent on duty subsequent to that date, *plus*
 (i) In the case of Government servants under the special leave rules—three years ; or
 (ii) In the case of Government servants under the ordinary leave rules—two and a-half years.
 (b) The maximum amount of leave on average pay which may be granted is—
 (i) To a Government servant under the special leave rules—eight months at any one time, and, in all :—
 the privilege leave which it would, on the date on which he comes under these rules, be permissible to grant to him under the rules applicable to him prior to that date, *plus*
 one-eleventh of the period spent on duty subsequent to that date, *plus*
 one year.
 (ii) To a Government servant under the ordinary leave rules—four months at any one time, and, in all :—
 the privilege leave which it would, on the date on which he comes under these rules, be permissible to grant to him under the rules in force prior to that date, *plus*
 one-eleventh of the period spent on duty subsequent to that date, *plus*
 one year ;

provided that, in the case of a Government servant subject to the ordinary leave rules, who either takes leave on medical certificate or spends his leave elsewhere than in India or Ceylon, the maxima prescribed in sub-clause (i) of this clause shall apply.

NOTE.—In the case of a Government servant who is entitled under orders previously in force, to privilege leave for more than four months, the number of months to be taken at one time as prescribed in sub-clauses (i) and (ii) above may be increased, on the first occasion when leave is taken under these rules, by the number of months by which the amount of privilege leave due exceeds four months.

(c) Leave not due may be granted subject to the following conditions:—

- (i) On medical certificate, without limit of amount; and
- (ii) Otherwise than on medical certificate, for not more than three months at any one time and six months in all reckoned in terms of leave on average pay.

(d) The maximum period of continuous absence from duty on leave granted otherwise than on medical certificate is twenty-eight months.

(e) When a Government servant returns from leave which was not due and which was debited against his leave account, no leave will become due to him until the expiration of a fresh period spent on duty sufficient to earn a credit of leave equal to the period of leave which he took before it was due.

82. The following provisions apply to vacation departments only:—

(a) A local Government may make rules specifying the departments or parts of departments which should be treated as vacation departments, and the conditions in which a Government servant should be considered to have availed himself of a vacation.

(b) Vacation counts as duty, but the periods of total leave in rules 77, 81 (a) and 81 (b) should ordinarily be reduced by one month for each year of duty in which the Government servant has availed himself of the vacation. If a part only of the vacation has been taken in any year, the period to be deducted will be a fraction of a month equal to the proportion which the part of the vacation taken bears to the full period of the vacation.

(c) In cases of urgent necessity, when a Government servant requires leave and no leave is due to him, the periods in rule 77 and 81 (a), as reduced by clause (b) of this rule, may be increased by one month for every two years of duty in a vacation department.

(d) When a Government servant combines vacation with leave, the period of vacation shall be reckoned as leave in calculating the maximum amount of leave on average pay which may be included in the particular period of leave.

83. (a) On the conditions specified in clauses (b), (c) and (d) of this rule, a local Government may grant special disability leave to a Government servant who is disabled by injury or illness:—

(i) in the performance of any particular duty which has the effect of increasing his liability to injury or illness beyond the ordinary risk attaching to the civil post which he holds; or

(ii) in, or in consequence of, the due performance of his official duties or in consequence of his official position.

(b) The grant of special disability leave is subject to the following conditions:—

(i) The disability must be certified by a medical board to be directly due to the performance of the particular duties or to the holding of an official position.

(ii) The disability must ordinarily have manifested itself within three months of the performance of the duties or of the occurrence to which it is attributed, and the person disabled must have acted with due promptitude in bringing it to notice. The period of three months may be extended by the Governor-General in Council if he is completely satisfied as to the cause of the disability.

(iii) The period of leave granted shall be such as is certified by a medical board to be necessary and shall in no case exceed two years. If leave for less than two years is granted in the first instance, it shall not be extended except on the certificate of a medical board.

(iv) Special disability leave may be combined with leave on average pay if due, up to a maximum of four months of such leave, and with leave on half average pay if due and certified by a medical board to be necessary.

(c) If a Government servant has contracted such disability while serving with a military force, he shall, in the event of his discharge as unfit for further military service, be eligible for special disability leave on the conditions specified in clause (b) of this rule, provided that—

(i) he is not reported to be completely and permanently incapacitated for further civil service, and

(ii) any period of leave on medical certificate granted to him under military rules on account of the disability is reckoned as part of the period of two years up to which special disability leave may be granted.

(d) If a Government servant has contracted such disability during service otherwise than with a military force, special disability leave may not be given unless the injury or illness is, in the opinion of the local Government, so exceptional in character or in the circumstances of its occurrence as to justify such unusual treatment as the grant of this form of leave.

(e) Special disability leave may be granted if a disability contracted as in clause (a) of this rule is aggravated or reproduced in similar circumstances at a later date, but not more than two years of such leave shall be granted in consequence of any one disability.

(f) The period of leave will not be debited against the leave account and will count as duty in calculating service for pension.

(g) Leave salary on such leave will be equal to half average pay, subject to the maxima and minima prescribed in rules 89 and 90.

84. Leave may be granted to Government servants, on such terms as the Secretary of State in Council may by general order prescribe, to enable them to study scientific, technical or similar problems or to undergo special courses of instruction. Such leave is not debited against the leave account.

85. (a) In special circumstances and when no other leave is by rule admissible, extraordinary leave may be granted. Such leave is not debited against the leave account. No leave salary is admissible during such leave.

(b) The authority which has the power to sanction leave may grant extraordinary leave as in clause (a), in combination with, or in continuation of, any leave that is admissible, and may commute retrospectively periods of absence without leave into extraordinary leave.

(c) When extraordinary leave is granted to a military officer subject to these rules, he will continue to be treated as in civil employ for all purposes until he is placed on military temporary non-effective pay by the order of a medical board. If, after being placed on

military temporary non-effective pay, he returns to duty in India, he will have no claim to reinstatement in civil employ.

86. Leave granted to a Government servant should in no case extend more than six months beyond the date on which the Government servant must compulsorily retire, or, if a Government servant is retained in service after that date, more than six months beyond the date on which he ceases to discharge his duties.

SECTION V.—Leave-Salary.

87. Subject to the conditions in rules 81, 88, 89 and 90, a Government servant on leave shall, during leave, draw leave-salary as follows:—

(a) If the leave is due, leave-salary equal to average pay, or half average pay, or to average pay during a portion of the leave and half average pay during the remainder, as he may elect; and

(b) if the leave is not due, leave-salary equal to half average pay.

NOTE.—When a non-gazetted Government servant takes leave, his pay at the time of taking leave may be treated as his average pay for the purpose of this rule, if

(i) his pay is less than Rs. 300, or

(ii) the leave taken does not exceed one month.

88. After continuous absence from duty on leave for a period of 28 months, a Government servant will draw leave-salary equal to quarter average pay, subject to the maxima and minima prescribed in rules 89 and 90.

NOTE.—A member of the Indian Civil Service or a military commissioned officer subject to these rules is entitled to leave-salary equal to subsistence grant after this period.

89. Except during the first four months of any period of leave on average pay, leave-salary is subject to the monthly maxima shown in the following table:—

	Average.		Half Average.		Quarter Average.	
	Outside Asia.	In Asia.	Outside Asia.	In Asia.	Outside Asia.	In Asia.
Indian Civil Service and military commissioned officers subject to the special leave rules.	£ 222	Rs. 2,222	£ 111	Rs. 1,111	£ ...	Rs. ...
Other Government servants subject to the special leave rules.	200	2,000	100	1,000	60	600
Government servants subject to the ordinary leave rules.	150	1,500	75	750	60	600

NOTE 1.—The maximum of average pay does not apply in the case of a Government servant who is entitled, under orders previously in force, to privilege leave for more than four months, during a period equal to that for which he is entitled to privilege leave.

NOTE 2.—The maximum for average pay does not apply to a Government servant serving in a vacation department during a period of leave on average pay equivalent to one month for each year since his last leave during which he has not availed himself of the vacation, and to a proportionate fraction of a month during which he has taken a part only of the vacation; provided that, in the case of a Government servant who is transferred with leave to his credit from a non-vacation to a vacation department, the local Government shall decide, on the first occasion on which he takes leave after such transfer, the period not exceeding four months for which the maximum limit of leave-salary shall not be applied to him.

90. Subject to the condition that the leave-salary of a Government servant shall in no case exceed his average pay, leave-salary is subject to the monthly minima shown in the following table:—

	Half Average.		Quarter Average.	
	Outside Asia.	In Asia.	Outside Asia.	In Asia.
Indian Civil Service and military commissioned officers subject to the special leave rules.	£ 55½	Rs. 555	£ ...	Rs. ...
Other Government servants subject to the special leave rules.	33	332	16½	166
Government servants subject to the ordinary leave rules.	25	250	12½	125

NOTE 1.—The minima specified above for Government servants other than members of the Indian Civil Service and military commissioned officers apply only when leave is taken or extended out of India.

NOTE 2.—In the case of a military commissioned officer, the minimum leave-salary during such leave as may be added under rule 77 (b) to the leave earned by duty under these rules shall be that prescribed by the military rules to which the officer was subject immediately before he came under these rules; and for an officer of the Royal Engineers who was serving under the Indian Army leave rules immediately before he became subject to these rules, the minimum shall be the rate prescribed by the leave rules for the Indian Army according to the length of

his service for Indian pension. In the case, however, of an officer of the Royal Engineers who was serving under British Army leave rules immediately before he became subject to these rules, the minimum for so much of the leave credited as has been earned by service in civil employment shall be at the rate of—

- (i) £55½ out of Asia and 555 rupees in Asia if he elected for continuous service in India before the 1st February, 1898; or
- (ii) the amount shown in sub-clause (i) or the pay last drawn by him on duty, whichever is less, if he elects to come under civil leave rules after completing five years' service.

NOTE 3.—A military commissioned officer subject to these rules, who is granted leave on medical certificate in excess of the amount earned by him under both the civil and military rules, may be allowed the civil minimum rate of leave-salary for the period of leave taken in excess of the amount so earned.

91. A Government servant will ordinarily draw leave-salary in rupees if residing in Asia and in sterling if residing out of Asia. Leave-salary drawn in rupees must be drawn in India or, by a Government servant residing in Ceylon, in Ceylon. Leave-salary drawn in sterling must be drawn in London or, at the Government servant's option, in any British Dominion or Colony which the Secretary of State in Council may by order prescribe; provided that during the first part of any period of leave on average pay, up to a maximum of four months, a Government servant may, at his option, draw leave-salary in rupees in India, even if he be residing out of India. Leave-salary will be converted into sterling at such rate of exchange as the Secretary of State in Council may by order prescribe.

92. The rupee maxima and minima detailed in rules 89 and 90 are applicable to those Government servants only who reside in Asia during their leave, and the sterling maxima and minima to those who reside elsewhere.

93. A compensatory allowance should ordinarily be drawn only by a Government servant actually on duty, but a local Government may make rules specifying the conditions under which a Government servant on leave on average pay may continue to draw a compensatory allowance, or a portion thereof, in addition to leave-salary during the first four months of his leave; one of these conditions should be that the whole or a considerable part of the expense to meet which the allowance was given continues during leave.

Section VI.—*Exceptions and Special Concessions.*

94. The rules in Sections I to V are not applicable to the following Government servants, whose leave is governed by the Act or by rules made under other sections of the Act:—

- (a.) Members of the executive council of the

Governor-General or of a Governor or Lieutenant-Governor.

- (b.) The Chief Justices and other Judges of the several High Courts.
- (c.) The Bishops of Calcutta, Madras and Bombay.
- (d.) The Auditor-General in India.

95. Chaplains, including the Bishops of Lahore, Rangoon, Lucknow and Nagpur, are not subject to the rules in Sections I to V of this Chapter. Leave is granted to them under such rules as may be made in this behalf by the Secretary of State in Council.

96. The only form of leave which may be granted to a Lieutenant-Governor, whether substantive or officiating, is leave on medical certificate for not more than six months. On resuming his duties after such leave, he may receive leave-salary equal to half his pay for the period of absence. If he does not resume his duties he may draw the leave-salary to which he would have been entitled under rule 97 had he vacated his post before taking leave.

97. When a member of the Indian Civil Service takes leave on vacating the post of Governor, Lieutenant-Governor or Chief Commissioner or of member of the executive council of the Governor-General, or of a Governor or Lieutenant-Governor, his average pay shall be held to be subject to a maximum of 4,000 rupees. Such an officer will not retain, while on leave, a lien on the post which he has vacated.

98. The following provisions apply to pleader judges of the Chief Court of Lower Burma, and to barristers holding the posts enumerated below; provided that, in the case of barristers, they were, on first admission to Government service, appointed to some post in which the local Government has declared it to be necessary on public grounds to employ a barrister:—

- (1) Judges of the Chief Court of Lower Burma.
- (2) First Judges of Small Cause Courts of presidency towns.
- (3) The Secretary to the Government of India in the Legislative Department.
- (4) A Judicial Commissioner or additional Judicial Commissioner of Oudh or of the Central provinces.
- (5) The Administrator-General and Official Trustee in Bengal, Madras or Bombay.
- (6) The Administrator-General, Official Trustee, Official Assignee and Official Receiver in Burma.
- (7) A Chief Judge of the Court of Small Causes in Rangoon.
- (8) An additional Judicial Commissioner of Sind.

Such Government servants are entitled to leave on terms similar to those applied to Judges

of High Courts by rules made under Section 104 of the Act; provided that—

- (a) Their leave-salary, while on furlough or on subsidiary leave, shall not exceed one-half of the pay which they drew at the time of taking leave; and
- (b) If holding one of the posts specified in items (3) to (7) above, they are entitled to leave on average pay, in lieu of the privilege leave admissible under the rules made under Section 104, up to one-eleventh of the period of duty performed, on the same conditions as a Government servant serving in a vacation department.

99. The following law officers are entitled to leave under the rules applicable to members of the Indian Civil Service, provided that their pay as Government servants is fixed at a definite rate and that their whole time is retained for the service of Government:—

An Advocate-General.

A Standing Council.

An Official Trustee or Assignee.

A Receiver of a High Court.

An officer of a High Court holding a post which by law can be held by a barrister only.

A Secretary or Assistant-Secretary in the Legislative Department of a local Government.

A Remembrancer, Deputy Remembrancer or Assistant Remembrancer of Legal Affairs.

A Government Advocate or Assistant Government Advocate.

A Clerk of the Crown.

A Government Solicitor.

100. The following provisions apply to military officers in civil employment who remain subject to military leave rules:—

- (a.) Provided that it is prepared to re-employ him immediately upon the termination of the leave, a local Government may grant to such an officer leave of the following kinds:—

- (i) Leave on average pay, for four months at a time, up to one-eleventh of the period of duty performed, including uninterrupted duty in military service; provided that, if privilege leave under military rules has been taken in any calendar year, duty counting for leave on average pay will not commence until the beginning of the following year or from the expiry of six months after the conclusion of such leave, whichever is earlier;

- (ii) Any leave, other than privilege leave, admissible under military rules, either alone or in combination with leave on average pay.

- (b) The total period of leave should be regulated by the limits in force under the military rules to which the officer is subject.
- (c) Leave may be retrospectively commuted by the authority which granted it into any other kind of leave which was admissible to the officer concerned at the time when it was granted.

101. A local Government may make rules regulating the grant to Government servants under its control of:—

- (a) Maternity leave to female Government servants; and
- (b) Leave on account of ill-health to members of subordinate services specified in such rules whose duties expose them to special risk of accident or illness.

Such leave is not debited against the leave account.

102. A local Government may make rules regulating the grant of leave on account of ill-health to officers and seamen of Government vessels. Such leave is not debited against the leave account.

103. A local Government may make rules regulating the leave which may be earned by:—

- (a) Temporary and officiating service;
- (b) Service which is not continuous; and
- (c) Part-time service, or service which is remunerated wholly or partially by the payment of fees or daily wages;

provided that such rules shall not grant more favourable terms than would be admissible if the service were substantive, permanent and continuous.

104. During their period of probation or apprenticeship, probationers and apprentices are entitled to leave as follows:—

- (a) If appointed under contract in the United Kingdom with a view to permanent service in India, or if appointed in the United Kingdom to posts created temporarily with the prospect, more or less definite, of becoming permanent;
- (i) To such leave as is prescribed in their contracts, or, when no such prescription is made;
- (ii) (1) When the period of probation is not less than three years, to the same leave which would be admissible if they held permanent posts; or
- (2) When the period of probation is less than three years, to leave on average pay up to one-eleventh of the period spent on duty, to which may be added, on medical certificate, leave on half average pay: provided that the total leave granted under this clause shall

not exceed three months reckoned in terms of leave on average pay:

- (b) If appointed otherwise, to such leave as is admissible under rules framed on this behalf by the local Government, subject to the proviso in rule 103.

CHAPTER XI.—JOINING TIME.

105. Joining time may be granted to a Government servant to enable him:—

- (a) To join a new post to which he is appointed while on duty in his old post; or
- (b) To join a new post,
- (i) On return from leave of less than four months' duration, or
- (ii) When he has not had sufficient notice of his appointment to the new post, on return from leave other than that specified in sub-clause (i); or
- (c) To travel from the port of debarkation and organise his domestic establishment when he returns from leave out of India of more than four months' duration; or
- (d) On departure on or return from leave, to proceed from or to the place at which he is posted to or from specified stations, when the place concerned is in a remote locality which is not easy of access.

106. A local Government may make rules regulating the joining time admissible in each of the cases mentioned in rule 105 and specifying the places and stations to which clause (d) of that rule shall apply. Such rules shall be framed with due regard to the time required for actual transit and for the organisation of domestic establishment.

107. A Government servant on joining time shall be regarded as on duty and shall be entitled to be paid as follows:—

- (a) If on joining time under clause (a) of rule 105, he is entitled to the pay which he drew prior to relinquishing charge of his old post, or the pay which he will draw on taking charge of his new post, whichever is less.
- (b) If on joining time under clause (b) or (c) of rule 105 he is entitled—
- (i) when returning from extraordinary leave other than extraordinary leave not exceeding fourteen days granted in continuation of other leave; if a member of the Indian Civil Service or a military commissioned officer subject to the civil leave rules to subsistence grant; otherwise to no payments at all;
- (ii) when returning from leave of any other kind; to the leave-salary which he last drew on leave at the rate prescribed for the payment of leave-salary in India;

Provided that the amount of half average pay to be drawn during joining time by a member of

the Indian Civil Service or a military commissioned officer subject to the civil leave rules returning from leave on half average pay shall be calculated without regard to the limits prescribed in rule 89.

NOTE 1.—A military officer subject to the military leave rules who retains a lien on his civil post is entitled, on joining time under sub-clause (ii) above, to draw the same amount of leave-salary which he would have drawn had he taken leave under civil leave rules: provided that such leave-salary shall not be less than that which he actually drew during the last portion of his leave.

- (c) If on joining time under clause (d) of rule 105, he is entitled to pay as though he were on duty in his post.

NOTE 2.—A ministerial servant on transfer is not entitled to be paid while on joining time unless his transfer is made in the public interests. A transfer made in consequence of his own misbehaviour does not fulfil this condition.

108. A Government servant who does not join his post within his joining time is entitled to no pay or leave salary after the end of the joining time. Wilful absence from duty after the expiry of joining time may be treated as misbehaviour for the purpose of Rule 15.

PART VII.

CHAPTER XII.—FOREIGN SERVICE.

109. The rules in this chapter apply to those Government servants only who are transferred to foreign service after these rules come into force. Government servants transferred previously will remain subject to the rules in force at the time of transfer.

110.—(a) No Government servant may be transferred to foreign service against his will.

(b) A transfer to foreign service outside India may be sanctioned by the Governor-General in Council.

NOTE.—The Government of Madras is authorised to transfer to service in Ceylon any Government servant other than a member of an all-India service.

(c) Subject to any restrictions which the Governor-General in Council may by general order impose in the case of transfer to the service of an Indian State, a transfer to foreign service in India may be sanctioned by the local Government under which the Government servant transferred is serving.

111. A transfer to foreign service is not admissible unless:—

- (a) The duties to be performed after the transfer are such as should, for public

reasons, be rendered by a Government servant, and

- (b) The Government servant transferred holds, at the time of transfer, a post paid from general revenues or hold a lien on such a post.

112. If a Government servant is transferred to foreign service while on leave he ceases, from the date of such transfer, to be on leave and to draw leave-salary.

113. A Government servant transferred to foreign service will remain in the cadre in which he held a post prior to his transfer, and may be given such substantive or officiating promotion in that cadre as the authority competent to order promotion may decide. In giving promotion, such authority will take into account—

- (a) The nature of the work performed in foreign service, and
(b) The promotion given to juniors in the cadre.

114. A Government servant in foreign service will draw pay from the foreign employer from the date on which he relinquishes charge of his post in Government service. Subject to any restrictions which the Governor-General in Council may by general order impose, the amount of his pay, the amount of joining time admissible to him and his pay during such joining time will be fixed by the authority sanctioning the transfer in consultation with the foreign employer.

115. While a Government servant is in foreign service, contributions towards the cost of his pension must be paid to general revenues on his behalf. If the foreign service is in India, contributions must be paid on account of the cost of leave-salary also. Such contributions shall be paid by the Government servant himself, unless the foreign employer consents to pay them. They shall not be payable during leave taken while in foreign service.

NOTE 1.—Pensions, throughout this chapter include bonus, if any, payable to a Government servant's credit in a provident fund.

NOTE 2.—In the case of Government servants lent to His Majesty's Government, or to British colonies or protectorates, the contribution is payable by the employer, except in the case of Government servants lent to the War Office, whose contributions are paid in accordance with special arrangements with the War Office.

116. Contributions will be calculated on the pay drawn in foreign service. In return for the contributions the Governor-General in Council or the local Government, as the case may be, accepts the charge for the pension, and if the foreign service is in India the leave salary of the Government servant. In calculating leave salary and pension, the pay drawn in foreign service, less such part of it as may be paid as contribution, will count as pay for the purpose of rule 5 (2).

117. The rate of contributions payable on account of pension and leave-salary shall be such as the Governor-General in Council may by general order prescribe.

118. In addition to the contributions prescribed under Rule 117, subscribers to any of the following pension funds must pay to Government a contribution equal to one-fourth or one-sixth of the premium paid to the fund:—

- | | |
|---|-------------|
| (i) Bengal Uncovenanted Service Family Pension Fund | One fourth. |
| (ii) Bombay Uncovenanted Service Family Pension Fund— | |
| (1) Subscribers who joined the fund on or before the 12th November, 1900 | One-fourth. |
| (2) Those who joined after that date | One-sixth. |
| (iii) Bengal and Madras Service Family Pension Fund | One-sixth. |

119. Subject to any general orders of the Governor-General in Council, a local Government sanctioning a transfer to foreign service may—

- Remit the contributions due in any specified case or class of cases, and
- Make rules prescribing the rate of interest, if any, to be levied on overdue contributions.

120. A Government servant in foreign service may not elect to withhold contributions and to forfeit the right to count as duty in Government service the time spent in foreign employ. The contribution paid on his behalf maintains his claim to pension or to pension and leave-salary, as the case may be, in accordance with the rules of the service of which he is a member. Neither he nor the foreign employer has any right of property in a contribution paid, and no claim for refund can be entertained.

121. A Government servant transferred to foreign service may not, without the sanction of the local Government, accept a pension or gratuity from his foreign employer in respect of such service.

122. A Government servant in foreign service out of India may not be granted leave otherwise than in accordance with the rules applicable to the service of which he is a member, and may not

take leave or receive leave-salary from Government unless he actually quits duty and goes on leave.

123. A Government servant in foreign service in India may, unless special arrangements as to leave have been made on his behalf by the authority sanctioning his transfer, be granted leave by his employer on such conditions as the employer may determine. The leave-salary on such leave will be paid by the employer, and the leave will not be debited against the Government servant's leave account.

124. A Government servant in foreign service, if appointed to officiate in a post in Government service, will draw pay calculated on the pay of the post in Government service on which he holds a lien and that of the post in which he officiates. His pay in foreign service will not be taken into account in fixing his pay.

125. A Government servant reverts from foreign service to Government service on the date at which he takes charge of his post in Government service; provided that, if he takes leave on the conclusion of foreign service before rejoining his post, his reversion shall take effect from such date as the local Government on whose establishment he is borne may decide.

126. When a Government servant reverts from foreign service to Government service, his pay will cease to be paid by the foreign employer, and his contributions will be discontinued, with effect from the date of reversion.

127. When an addition is made to a regular establishment on the condition that its cost, or a definite portion of its cost, shall be recovered from the persons for whose benefit the additional establishment is created, recoveries be made under the following rules:—

- The amount to be recovered shall be the gross sanctioned cost of the service, or of the portion of the service, as the case may be, and shall not vary with the actual expenditure of any month.
- The cost of the service shall include contributions at such rates as may be laid down under rule 117, and the contributions shall be calculated on the sanctioned rates of pay of the members of the establishment.
- A local Government may reduce the amount of recoveries, or may entirely forgo them.

350. The Pensions of all other Officers are regulated by the rules in this Part: Provided that it is open to a Local Government to rule that the service of any class of officers serving under it does not qualify for pension.

351. Future good conduct is an implied condition of every grant of a pension. The Local Government, the Government of India, and the Secretary of State in Council, reserve to themselves the right of withholding or withdrawing a pension, or any part of it, if the pensioner be convicted of serious crime or be guilty of grave misconduct.

The decision of the Secretary of State in Council on any question of withholding or withdrawing the whole or any part of a pension under this Regulation shall be final and conclusive.

Note.—[This rule is applicable to all the officers enumerated in Article 349 except Judges of the High Courts, Bishops, Army Veterinary Officers of the Civil Veterinary Department and members of the Indian Civil Service appointed before 16th January, 1904.]

CASES IN WHICH CLAIMS ARE INADMISSIBLE.

352. In the following cases, no claim to pension is admitted:—

- (a) When an Officer is appointed for a limited time only, or for a specified duty, on the completion of which he is to be discharged.
- (b) When a person is employed temporarily on monthly wages without specified limit of time or duty; but a month's notice of discharge should be given to such a person, and his wages must be paid for any period by which such notice falls short of a month.
- (c) When a person's whole time is not retained for the public service, but he is merely paid for work done for the State.
- f. This clause applies, among others, to the following officers:—Advocate General, Solicitor to Government, Government Pleaders and Law Officers not debarred from private practice, Sheriffs in Presidency Towns, Coroners, Roman Catholic Priests.
- (d) When a public servant holds some other pensionable office, he earns no pension in respect of an office of the kind mentioned in Clause (c) or in respect of duties paid for by a Local Allowance.
- (e) When an Officer serves under a covenant which contains no stipulation regarding pension, unless the Government of India specially authorises an Officer to count such service towards pension.

CHAPTER XV.—GENERAL RULES—continued.

353. No pension may be granted to an officer removed for misconduct, insolvency or inefficiency; but to officers so removed compassionate allowances may be granted by the Government of India in cases where the pay of the officer does not exceed Rs. 800 a month, or by a Provincial Government in the case of officers serving under it whose pay does not exceed Rs. 500 a month, when they are deserving of special consideration; provided that, without the sanction of the Secretary of State:—

- (1) No allowance shall be granted to an officer appointed in England, and
- (2) The allowance granted to any officer shall not exceed two-thirds of the pension which would have been admissible to him if he had retired on medical certificate.

Note.—[The Government of India may delegate the powers of a Provincial Government under this Article to Minor Local Governments and Heads of Departments in respect of officers whom such subordinate authorities are competent to dismiss and who are under the orders of such subordinate authorities.]

353A. When an officer, belonging to one of the following services, who is proved to be unfit for further advancement, is removed from service by the Secretary of State on the recommendation of the Local Government and the Government of India, he may, with the sanction of the Secretary of State, be granted a pension not usually exceeding, and not necessarily so great as, that which would have been admissible to the officer if he had been invalided on medical certificate. In making their recommendations in such cases, the Government of India and the Local Government will be guided by the circumstances of each case and are not debarred from proposing, if the circumstances justify it, a pension lower or (in exceptional cases) higher in amount than that which would be admissible to the officer if he was invalided on medical certificate:—

- (a) The Indian Civil Service.
- (b) The Indian Political Department.
- (c) The Indian Finance Department (General List, including the Public Works List).

- (d) The Imperial Police Service.
- (e) The Imperial Customs Service.
- (f) The Post Office of India and the Indian Telegraph Department.
- (g) The Geological Survey of India.
- (h) The Engineer establishment of the Indian Public Works and State Railway Departments.

Note 1.—[In the case of military officers belonging to the Indian Political Department the pension recommended will be based on the amount of retiring pension which an officer might have earned at the time under the Army Regulations.]

Note 2.—[In the case of officers belonging to a class which is neither wholly nor partly recruited by the Secretary of State, the removing authority will be the Government of India.]

Note 3.—[In the case of Royal Engineer officers of the Public Works and State Railway Departments the enforcement of the rule will take the form of requiring the officers to vacate their civil appointments and revert to military duty.]

354. *Claims of Widow.*—(a) It being the duty of every Government Officer himself to provide for his family, the Government recognises no claim by a widow on account of the services of her husband, and is almost invariably under the painful necessity of rejecting recommendations made in contravention of this rule.

(b) The submission of such recommendations, save under very extraordinary circumstances, is disapproved, as calculated only to give rise to hopes which cannot be fulfilled.

355. *Limitations.*—(a) An Officer cannot earn two pensions in the same office at the same time, or by the same continuous service.

(b) Two Officers may not simultaneously count service in respect of the same office.

356. *Military Service.*—Service which is pensionable under Military Rules does not count, and an Officer who is counting service for Military Pension, cannot simultaneously count service for Civil Pension.

CHAPTER XVI.—CONDITIONS OF QUALIFYING SERVICE.

BEGINNING OF SERVICE.

358. (a) Except for compensation gratuity, an Officer's service does not in the case of superior service qualify till he has completed twenty years of age.

(b) In other cases, unless it be otherwise provided by special Rule or Contract, the service of every Officer begins when he takes charge of the office to which he is first appointed.

Note.—[In every covenant with an Officer appointed in England by the Secretary of State, not being a Member of the Indian Civil Service or a Civil Engineer or Telegraph Officer educated at the Royal Engineering College,

Cooper's Hill, or a Forest Officer, a clause is inserted to the effect that service for leave and pension begins only from the date on which the Officer joins his first appointment in India.]

359. The following exceptions are admitted to the Twenty Years' Rule:—

- (i) All Officers appointed in England by the Secretary of State: 'Indian College Engineers' (see Article 627 (e)); and Police probationers appointed in India under the orders contained in the despatch of the Secretary of State No. 14 (Judicial), dated 15th March, 1894.

PART IV.—ORDINARY PENSIONS—continued.

CONDITIONS OF QUALIFICATION.

361. The service of an Officer does not qualify for pension unless it conforms to the following three conditions:—

First. The service must be under Government.

Second. The employment must be substantive and permanent.

Third. The service must be paid by Government.

These three conditions are fully explained in the following sections:—

361A. The Government of India may, however, in the case of service paid from General Revenues, even though either or both of conditions (1) and (2) are not fulfilled—

- (1) Declare that any specified kind of service rendered in a non-gazetted capacity shall qualify for pension.
- (2) In individual cases, and subject to such conditions as it may think fit to impose in each case, allow service rendered by an Officer to count for pension.

Subject to such conditions as it may think fit to impose, the Government of India may delegate its powers under this Article to Provincial Governments, Minor Local Governments and Heads of Departments.

Note.—(a) Provincial Governments exercise the powers of the Government of India under clauses (1) and (2) of this Article in respect to Officers serving under them if the pension does not exceed Rs. 50 a month. In individual cases where the pension exceeds Rs. 50 a month they may allow half the actual non-qualifying service paid from General Revenues to count for pension, subject to a maximum of twelve months in all.

(b) Minor Local Governments exercise the powers of the Government of India under clause (2) of this Article in respect of Officers serving under them, if the pension does not exceed Rs. 10 a month.]

362. *First Condition.*—The service of an Officer does not qualify unless he is appointed and his duties and pay are regulated by the Government, or under conditions determined by the Government.

363. *Second Condition.*—Service does not qualify unless the Officer holds a substantive office on a permanent establishment.

369. An establishment, the duties of which are not continuous, but are limited to certain fixed periods in each year, is not a temporary establishment. Service in such an establishment, including the period during which the establishment is not employed, qualifies; but the concession of counting as service the period during which the establishment is not employed does not apply to an Officer who was not on actual duty when the establishment was discharged, after completion of its work, or to an Officer who was not on actual duty on the first day on which the establishment was again re-employed.

370. An Officer transferred from a temporary to a permanent appointment can count his service in the temporary office, if, though at first created experimentally, or temporarily, it eventually becomes permanent.

371. An Officer without a substantive appointment officiating in an office which is vacant, or the permanent incumbent of which does not draw any part of the pay or count service, may, if he is confirmed without interruption in his service, count his officiating service.

373. The service of a probationer who holds a substantive office, and draws substantive pay, qualifies. So does that of an Officer who is on probation for a substantive office, if he is employed in a vacancy reserved for him, pending probation, and in which no other Officer simultaneously counts service.

374. Police probationers and temporary and officiating Assistant Superintendents of Police in all provinces count their service as follows:—

- (1) If recruited in England—from the date on which they report their arrival in India.
- (2) If recruited in India under the orders in Secretary of State's Despatch No. 14, dated the 15th March, 1894—from the date of assuming charge of their appointments.
- (3) If recruited in India before the date of the orders of 1894 mentioned in (2) above—from the date either of attaining the age of 20 years or of assuming charge of their appointments, whichever is later provided that the service has been continuous.

385. *Third Condition.*—Service which satisfies the conditions prescribed in Sections II. and III. qualifies, or does not qualify, according to the source from which it is paid; with reference to this Article service is classified as follows:—

- (a) Paid from the General Revenues.
- (b) Paid from Local Funds.
- (c) Paid from funds in respect to which the Government holds the position of trustee.
- (d) Paid by fees levied by law, or under the authority of the Government, or by Commission.
- (e) Paid by the grant, in accordance with law or custom, of a tenure in land, or of any source of income, or right to collect money.

386. Service paid from the General Revenues qualifies. The fact that arrangements are made for the recovery on the part of the Government of the whole or part of the cost of an establishment or Officer, does not affect the operation of this principle: Provided that the establishment or Officer is appointed, controlled, and paid by the Government.

390. Service paid from a Local Fund qualifies, or does not qualify, according to the rules laid down in Chapter XLII.

CHAPTER XVI.—CONDITIONS OF QUALIFYING SERVICE—*continued*.

391. *Trust Funds*.—Service paid from funds which Government holds only as a trustee, such as under a Court of Wards or in an Attached Estate, does not qualify.

392. *Fees and Commission*.—Except when

fees or commission are drawn in addition to pay from the General Revenues, service in an office paid only by fees, whether levied by law or under the authority of Government, or by a commission, does not qualify.

CHAPTER XVII.—RULES FOR RECKONING SERVICE.

SPECIAL ADDITIONS.

403. Subject to the restriction specified against the first three offices, an incumbent of one of the offices enumerated below, appointed on account of professional or other special qualifications, whose whole pensionable service has been passed in one or other of such offices, shall, if appointed at an age exceeding 25, be entitled to reckon as service qualifying for superannuation pension (but not for any other class of pension) the actual period by which his age may, at the time of appointment, have exceeded 25 years, subject to the proviso that five years shall be the maximum period which can be so added.

No Officer can claim the benefit of this Article unless his actual qualifying service at the time he quits Government service is not less than ten years.

(vii) Members of the Indian Educational Service who entered that service after 23rd July, 1896. Note.—[The extra years conceded under this Article count towards the limit of 28 years' qualifying service prescribed in Article 475 in the case of the Officers mentioned in the latter rule, or to whom its provisions may be specially extended.]

Exception.—Subsequent promotion to an appointment which is not one of the offices enumerated in this Article, but is of similar nature and carries not less pay, does not deprive an officer of the concession prescribed above, provided that he has, when so promoted, completed not less than five years' qualifying service in one of the offices enumerated in this Article.

404. In the case of Officers who were in the Education Department on 23rd July, 1896, the following rule applies:—

For the purpose of calculating the amount of pension ordinarily admissible to an Officer, not being a Native of Asia, whose qualifying service began after 25 years of age, and whose service for which pension is claimed amounts to not less than ten years, and has been passed wholly in one or other of the following offices, three years shall be added to the qualifying service:—

- (i) Directors of Public Instruction.
- (ii) Inspectors of Schools.
- (iii) Principals and Professors of Colleges.
- (iv) Headmasters of Colleges and High Schools.

404A. For Officers mentioned in Article 349A, the concession of adding to qualifying service is as follows:—

In the case of the Agriculture (Imperial), Educational (Imperial and Provincial Services), Civil Veterinary (Imperial), Factory and Boiler Inspection, Indian Mines, Mint and Assay, Geological Survey, and Meteorological Departments, the Provincial Judicial Services, Distillery Experts in the Salt and Excise Departments, the Legal Assistant in the Legislative Department of the Government of India Secretariat, Officer of the Zoological and the Archaeological Departments, Superintendents of Government Presses, the Assistant Solicitor to the Government of India, the Resident Engineer, Government Dockyard, Dawbong, Rangoon, the Press and Forms Manager, Bengal, and of appointments mentioned in Article 403 not covered by the rule in this Article and of such other appointments as may be definitely specified in this behalf in other Departments, except those included in clause (f) of Article 474A, in which recruitment is likely to take place normally after 25 years of age, officers recruited over that age may add to their service qualifying for superannuation pension (but not for any other class of pension) the actual period not exceeding five years by which their age at recruitment exceeded 25 years. This concession will not be granted to individual Officers appointed at an age exceeding 25 years to Departments or appointments other than those included above. No officer can claim the benefit of this Article unless his actual qualifying service at the time he quits Government service is not less than 10 years.

Note.—[The extra years conceded in this Article count towards the limit of 28 years' qualifying service prescribed in Article 475A.]

PART IV.—ORDINARY PENSIONS—continued.

PERIODS OF LEAVE.

407. *Superior Service.*—Except as provided in Article 408, time passed on leave other than privilege leave or subsidiary leave does not count as superior service.

408. Time passed on leave with allowances counts as service as follows:—

<i>If the total service of the officer is not less than—</i>	<i>He counts as service a period of leave out of India not exceeding—</i>	<i>He counts as service a period of leave in India not exceeding—</i>
15 years ...	1 year ...	1 year.
20 " ...	2 years ...	"
25 " ...	3 " ...	"
30 " ...	4 " ...	2 years.
35 " ...	5 " ...	"

Note 1.—[The periods in columns 2 and 3 are not cumulative, that is, an Officer may not count two years' leave in 15 years' service, or more than four years' leave in 30 years' service. The maximum amount of leave both in and out of India which may be counted is that shown in column 2.]

Note 2.—[Total service in this Article means total service reckoning from the date of commencement of service qualifying for pension, and includes periods of leave.]

Note 3.—[For the purposes of this Article, Ceylon and the Straits Settlements are not held to be "out of India."]

412. *Deputation out of India.*—When an Officer is deputed out of India on duty, the whole period of his absence from India counts. When an Officer on leave out of India is employed, or is detained after the termination of his leave, on duty, the period of such employment or detention counts.

413. *Recall to duty.*—Time spent on the voyage to India by an Officer who is recalled to duty before the expiry of any recognised leave, and (if, within a year from the date on which he can be spared, the Officer takes the unexpired portion of the leave from which he was recalled) the time spent on the return voyage to Europe counts.

SUSPENSIONS, RESIGNATIONS, BREAKS AND DEFICIENCIES IN SERVICE.

416. *Time passed under Suspension pending inquiry into conduct counts,* if the suspension is immediately followed by reinstatement, but time passed under suspension adjudged as a specific penalty does not count.

418. *Resignations and Dismissals.*—(a) Resignation of the public service, or removal from it for misconduct, insolvency, inefficiency not due to age, or failure to pass a prescribed examination, entails forfeiture of past service (see also Appendix No. 7).

(b) Resignation of an appointment to take up another appointment, service in which counts, is not a resignation of the public service.

419. Any authority who, on revision or appeal, reverses an order dismissing an Officer, may declare that the Officer's past service counts.

420. An *interruption* in the service of an Officer entails forfeiture of his past service, except in the following cases:—

- (a) Authorised Leave of Absence.
- (b) Unauthorised absence in continuation of authorised leave of absence, so long as the office of the absentee is not substantively filled; if his office is substantively filled, the past service of the absentee is forfeited.
- (c) Suspension immediately followed by reinstatement, which need not be to the same office.
- (d) Abolition of office or loss of appointment owing to reduction of establishment.
- (e) Transfer to non-qualifying service in an establishment under Government control. The transfer must be made by competent authority; an Officer who voluntarily resigns qualifying service, cannot claim the benefit of this exception. Transfer to a grant-in-aid school entails forfeiture.
- (f) Transfer to service on the household establishment of the Viceroy.
- (g) Time occupied in transit from one appointment to another, provided that the Officer is transferred under the orders of competent authority, or, if he is a non-gazetted Officer, with the consent of the head of his old office.

421. The authority who sanctions the pension may commute retrospectively periods of absence without leave into leave without allowances.

422. *Condonation of Interruptions and Deficiencies.*—Upon such conditions as it may think fit, in each case, to impose, the authority competent to fill the appointment held by an Officer at the time condonation is applied for, were he to vacate that appointment.

Note.—[The powers under this Article shall be exercised subject to any rules which the Government of India may deem fit to prescribe.]

423. (1) Upon any conditions which it may think fit to impose, the authority competent to sanction the pension of an Officer may condone a deficiency of three months in his qualifying service.

(2) The Government of India and Provincial Governments may similarly condone a deficiency not exceeding twelve months.

(3) If an Officer claiming Superior service has also rendered Inferior service, the Government of India, or the Provincial Government under whom he is serving, may condone a deficiency in his qualifying service for pension on the superior scale not exceeding one-half his Inferior service, subject to a maximum of twelve months in all.

CHAPTER XVIII.—CONDITIONS OF GRANT OF PENSION.

CLASSIFICATION OF PENSIONS.

424. Pensions for 'Superior Service' are divided into four classes, the rules for which are prescribed in the following sections of this chapter:—

- (a) Compensation Pensions—see Section II.
- (b) Invalid Pensions—see Section III.
- (c) Superannuation Pensions—see Section IV.
- (d) Retiring Pensions—see Section V.

COMPENSATION PENSION.

426. A Compensation Pension is awarded to an Officer discharged from the public service because, on a reduction of establishment, his appointment is abolished, and other suitable employment cannot be found for him. An appointment, the pay of which is reduced as part of a general scheme of revision, is abolished within the meaning of this Article.

427. To pension an Officer still capable of useful service is a waste of public money; before a pension is granted to such an Officer discharged on abolition of appointment, it must be carefully considered whether he cannot be otherwise provided for.

INVALID PENSION.

441. An Invalid pension is awarded, on his retirement from the public service, to an Officer who by bodily or mental infirmity is permanently incapacitated for the public service, or for the particular branch of it to which he belongs.

442. *Rules regarding Medical Certificates.*—If an Officer applying for an Invalid pension is sixty years old or upwards, no certificate by a Medical Officer is necessary; it suffices for the head of the office to certify to the incapacity of the applicant. Otherwise incapacity for service must be established by a Medical Certificate.

444. A simple certificate that inefficiency is due to old age or natural decay from advancing years is not sufficient in the case of an Officer whose recorded age is less than fifty-five years, but a medical officer is at liberty, when certifying that the Officer is incapacitated for further service by general debility, to state his reasons for believing the age to be understated.

445. *Form of Medical Certificate in England.*—The form of the medical certificate given by the Medical Board attached to the India Office, respecting an Officer applying for pension in England, is as follows:—

We have carefully examined Mr.

Taking into account all the facts of the case as well as his present condition, we consider that he is incapable of discharging the duties of his situation, and that such incapability is likely to be permanent. We therefore recommend that he be permitted to retire from the service of Government on the pension or gratuity for which he may be eligible.

452. *Restrictions.*—An Officer discharged on other grounds has no claim under Article 441, even although he can produce medical evidence of incapacity for service.

454. If the incapacity is the result of irregular or intemperate habits, no pension can be granted.

455. *Applicant to be Discharged.*—An Officer who has submitted under Article 442 a Medical Certificate of incapacity for further service, must not (except for special reasons to be reported to the Local Government) be retained in active service pending a decision on his application for pension, nor can he obtain leave of absence, except subsidiary leave preparatory to retirement. Without the further special orders of the authority which has power to sanction the pension, service after the date of such Medical Certificate does not count for pension.

456. The object of Article 455 is to discourage tentative applications.

457. Article 455 refers only to the retention in active service of an Officer who has furnished a medical certificate in support of an application for invalid pension or gratuity while in India. The retirement of an Officer who is absent on leave other than Privilege Leave, when such certificate is submitted, may have effect from the termination of his leave, and the Officer may continue to draw leave allowance to the end of his leave.

SUPERANNUATION PENSION.

458. A Superannuation Pension is granted to an Officer in Superior service entitled or compelled, by Rule, to retire at a particular age.

459. (a) Ministerial Officers who have attained the age of fifty-five may be required to retire, but should ordinarily be retained in service so long as they remain efficient, until they come under the provisions of clause (c).

(b) Officers, other than Ministerial, who have attained the age of fifty-five, should ordinarily be required to retire, and should not be retained in service except where unquestionable public grounds for retention exist, and there is no doubt as to the physical fitness of the officer.

(c) Each Officer's case should be taken up when he is approaching the age of fifty-five and before the expiry of each extension of service. Extensions may not be granted for any period exceeding one year at one time.

(d) The powers given by the preceding clauses may be exercised by the authority competent to fill the appointment (if vacant) of the officer who is required to retire or retained in service.

(e) An Officer who has attained the age of sixty cannot be retained in the service of Government save in very exceptional circumstances, and with the sanction of the Local Government.

(f) No claim to compensation from an Officer who is required to retire under the provisions of this Article will be entertained.

461. Officers of the Imperial and Provincial Services of the Survey of India cease to be in employ on attaining the age of fifty-five years, unless specially permitted by the Secretary of State, in the interests of the public service, to remain in the Department for a further definite period.

PART IV.—ORDINARY PENSIONS—continued.

1. The Government of India may, however, grant an extension of service, without previous reference to the Secretary of State, to an Officer in charge of a survey party who attains the age of fifty-five years in the middle of the survey year, provided the extension in no case exceeds six months, and is granted solely in the interests of the public service. Cases in which such extensions of service are sanctioned by the Government of India should be reported to the Secretary of State for information.

464. *Optional Retirement at Fifty-five.*—An Officer in Superior Service, who has attained the age of fifty-five years, may, at his option, retire on a Superannuation pension.

RETIRING PENSION.

465. A Retiring Pension is granted to an Officer who voluntarily retires after completing qualifying superior service for thirty years, or such less time as may for any special class of officers be prescribed.

465A.—For Officers mentioned in Article 349A, the rule for the grant of retiring pension is as follows:—

- (1) A retiring pension is granted to an Officer who is permitted to retire after completing qualifying service of not less than 25 years or, in the case of Imperial Officers of the Forest, Geological Survey, Public Works, Railway, and Telegraph Departments and any others who would be covered by Article 635 of the Civil

Service Regulations, not less than twenty years.

- (2) A retiring pension is also granted to an Officer who is required by Government to retire after completing twenty-five years' service or more.

Note 1.—[Government retains an absolute right to retire any Officer after he has completed twenty-five years' service without giving any reasons and no claim to special compensation on this account will be entertained.]

Note 2.—[Government retains an absolute right to decline to permit an Officer to retire before reaching the age of superannuation should it be necessary in the public interest to retain his services.]

467. An Officer holding two or more separate appointments may not, save with the express sanction of the Government of India, in the Finance Department or, if pensions are a provincial charge, of the Provincial Government, resign one or more of such appointments on a pension, without retiring from the Public Service altogether. There is no objection to his being relieved from one or more of such appointments at any time, without being compelled to leave the service altogether, but in such case any pension admissible to him for service in the office or offices from which he is relieved will be deferred until he finally retires.

Note.—[The Government of India may delegate its power under this Article to Minor Local Governments and Heads of Departments. A Provincial Government also may delegate its power to Heads of Departments.]

CHAPTER XIX.—AMOUNT OF PENSIONS.

GENERAL RULES.

468. The amount of pension that may be granted is determined by length of service, as set forth in Articles 474 to 485. Fractions of a year are not taken into account in the calculation of any pension admissible to an Officer under this part of these regulations.

469. *Currency.*—A pension is fixed in rupees, and not in sterling money, even though it is to be paid in England.

470. (a) *The full pension* admissible under the Rules is not to be given as a matter of course, or unless the service rendered has been really approved.

(b) If the service has not been thoroughly satisfactory, the authority sanctioning the pension should make such reduction in the amount as it thinks proper.

471. *Limitations.*—An Officer entitled to pension may not take a gratuity instead of pension.

473. An Officer, not being a Military Officer, or a Member of the Indian Civil Service, transferred to service under a Colonial Government, on final retirement from the Colonial service on pension or compensation allowance receives, from Indian Revenues, for each completed year of qualifying and uninterrupted service in India, a pension of one-sixtieth of

his average emoluments at the time of his transfer, such average emoluments to be calculated for the last three years, or, if the whole service in India is less than three years, for the whole period of service. The pension is subject to a maximum limit of Rs. 2,000 a year for an Indian service not exceeding ten years, and Rs. 4,000 a year in any other case.

Note.—[The sanction of the Government of India is required to the transfer of an Officer to any service of the description mentioned in this article.]

AMOUNT OF SUPERIOR PENSION.

474. The amount of a pension is regulated as follows:—

- (a) After a service of less than ten years, a gratuity not exceeding (except in special cases and under the orders of the Government of India) one month's emoluments for each completed year of service. If the emoluments of the Officer have been reduced during the last three years of his service otherwise than as a penalty, average emoluments may, at the discretion of the authority which has power to sanction the gratuity, be substituted for emoluments.

CHAPTER XIX.—AMOUNT OF PENSIONS—*continue 1.*

475. Officers holding any of the appointments enumerated below, and belonging to what was formerly termed the Uncovenanted Service, may be allowed by the Local Government an additional pension of Rs. 1,000 a year, provided they have rendered not less than three years of effective service (that is, service of the same nature as that which, under the provisions of Article 644, counts for the special pensions admissible under Article 642), in such appointment, and provided also that in each case during such service the Officer has shown such special energy and efficiency as may be considered deserving of the concession. In the case of Officers entering Government service after the 31st December, 1909, the grant of the additional pension is subject to the further condition that they must, in the event of voluntary retirement, have completed twenty-eight years of qualifying service. The same rule applies to officers of the Forest Department who entered Government service on or before the 31st December, 1909 (including those who were appointed on probation on or before that date), with the exception of those who have, at the time of their retirement, rendered three years' active service in appointments on not less than the maximum pay of a Conservator. Voluntary retirement for the purpose of this rule should be taken as retirement under Articles 464 and 465.

- (2) Officers who have held appointments listed in the upper grade in the Schedule below may be allowed by the Local Government an additional pension of Rs. 500 a year for each completed year of effective service in any appointment included in that grade, provided that no Officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined, or in the upper grade alone. In the case of an Officer who has earned an additional pension both in the upper and lower grade, service for any broken period of a year in the upper grade may count as service in the lower grade if the pension of the Officer is increased thereby.
- (3) These pensions will be awarded only to Officers who have shown such special energy and efficiency as may be considered deserving of the concession.

- (4) In the case of Officers entering Government service after the 31st December, 1909, the grant of the additional pension is subject to the condition that they must in the event of voluntary retirement have completed 28 years of qualifying service. Voluntary retirement for the purpose of this rule should be taken as retirement under Articles 464 and 465A.

CHAPTER XXVIII.—MILITARY OFFICERS.

CHAPTER XXIX.—CIVIL VETERINARY DEPARTMENT.

623. The pension rules of the Civil Veterinary Department are as follow :—

- (a) No officer becomes qualified for pension under the scale fixed for the Department until he has rendered ten years' service in it.
- (b) Pensions are granted at the rates prescribed for the Army Veterinary Department by the Army Regulations in force for the time being, plus an addition made on the following scale :—

After ten years' service in the Civil Veterinary Department £72 a year ;
after fifteen years' service in the Civil Veterinary Department £96 a year ;
after twenty years' service in the Civil Veterinary Department £120 a year.

- (c) Leave, apart from privilege leave, counts as service qualifying towards pension to the extent of two months for every year of actual service.
- (d) Retirement is optional after twenty years' service and allowed on medical certificate after fifteen years' service. An officer, other than the Inspector-General, who resigns the Civil Veterinary Department before retirement, forfeits all claims to pension under the scale fixed for the Department.

The pension of the Insp.-Genl., if he has qualified under clause (a), is at the rate of £700 a

year after three years' tenure of office. Should an officer have completed five years' tenure of the post of Insp.-Genl. before having rendered ten years' service in the Department, he is eligible for a pension of £600 a year.

Officers retiring before having completed ten years' service in Civil employ are dealt with under military rules for pension or gratuity. In the case of an officer invalidated before completing ten years' service in the Civil Veterinary Department, the gratuity or pension earned by him under Military rules is increased in the same proportion as the total Civil allowances bear to the total Military allowances earned by him during his period of service in India.

Note 1.—[Previous service in an appointment absorbed into the Civil Veterinary Department counts as service rendered in that Department for the purposes of this rule.]

Note 2.—[This article does not apply to Officers of and above the rank of Deputy Superintendent who come under Article 349A.]

624. The rules in Chapter XXVIII. relating to the retirement of Military Officers in Civil employ upon attaining the age of fifty-five years, apply to Army Veterinary Officers in the Civil Veterinary Department.

625. *Family Pensions.*—The family of a Civil Veterinary Officer recruited from the Veterinary Staff of the Army are eligible for pension under the provisions of the Royal Warrant, 'Pay and Non-effective Pay,' applicable to the families of Army Veterinary Officers.

CHAPTER XXX.—CIVIL ENGINEERS AND TELEGRAPH OFFICERS.

PENSION RULES.

635. The rules in this section apply to all Officers of the classes described in clauses (a) to (c) of Article 627, and also to those Engineers whose names are given in Appendix 12.

636. The pensionary claims of Indian College Engineers, and of other Civil Engineers (whether of purely Asiatic descent or not) appointed in India, and of Telegraph Officers not included under Clauses (a) and (c) of Article 627, are governed by the ordinary rules in Part IV. But in the case of Officers of this class who may rise to the rank of Superintending Engineer, or in the Telegraph Department, of Superintendent 1st grade, or in the Indo-European Telegraph Department, of Director, the Government of India will be prepared to consider favourably their admission to the pension rules, including those contained in Article 642, applicable to the Officers specified in Article 635.

Provided that Civil Engineers and Telegraph Officers who are Members of the Provincial Services of the Public Works and Telegraph Departments are not eligible for the concession described in this Article.

1. The Public Works Department of the Government of India exercises the powers of the Government of India under this Article in respect of engineer officers of that Department.

2. The concessions made under this Article do not affect the operation of the rules which determine the age from which qualifying service begins.

637. The Government of India may, on special grounds, recommend for sanction of the Secretary of State the grant of an invalid pension, on the scale below to an Officer belonging to the classes referred to as appointed in India, in Article 627, provided that he be not of purely Asiatic descent. This Article does not apply to Officers of the Provincial Service.

Not less than Rs. 1,000 or more than Rs. 2,000 a year :—

644. (a) An officer who holds a qualifying appointment substantively counts all active service, whether in the appointment or in an appointment of corresponding rank and responsibility in foreign service, or on deputation on special duty or in a temporary appointment. He also counts periods of privilege leave taken by him during such service, but periods of leave, other than privilege leave, do not count.

(b) All officiating and temporary service in a qualifying appointment falling within any of the classes mentioned in clause (a), including periods of such service passed on privilege leave, counts.

CHAPTER XXXI. relates to LAW OFFICERS; CHAPTER XXXII. to STATE RAILWAY ESTABLISHMENTS; CHAPTER XXXIII. to the BENGAL COVENANTED PILOT SERVICE; CHAPTER XXXIV. to the PORT BLAIR POLICE; CHAPTER XXXV. to the ASSAM and DACCA MILITARY POLICE; CHAPTER XXXVI. to the CALCUTTA and SUBURBAN POLICE FORCES; and CHAPTER XXXVII. to the BURMA MILITARY POLICE.

PART VI.—Chapter XXXVIII. contains the RULES FOR THE GRANT OF WOUND AND OTHER EXTRAORDINARY PENSIONS.

PART VII.—FOREIGN SERVICE; REGULAR ESTABLISHMENTS, THE COST OF WHICH IS RECOVERED BY GOVERNMENT; SERVICE UNDER LOCAL FUNDS.

CHAPTER XXXIX.—FOREIGN SERVICE.

CHAPTER XLII.—SERVICE UNDER LOCAL FUNDS.

796. Apart from any special provisions, service paid for from a Local Fund does not qualify for pension.

PART X.—PROCEDURE RELATING TO PENSIONS.

CHAPTER XLVII.—APPLICATIONS FOR AND GRANTS OF PENSIONS.

905. The Rules in this Chapter apply to all Officers applying for pension under these Regulations, except—

- (a) Members of the Indian Civil Service—(Chapter XLIX.).
- (b) Chaplains—(Chapter L.).
- (c) Judges of the High Courts, for whom no special procedure is laid down.

906. There is no limitation on the period after retirement within which an application for pension or gratuity must be submitted; but, apart from special orders, a pension applied for after the Officer has retired begins from the date of application. (See also Article 930.) An Officer may be admitted to pension while absent on leave, whether in or out of India.

915. (a) The Government of India is ordinarily unwilling to pass orders on questions affecting the pension of an Officer until he actually retires, because their premature discussion

occupies valuable time almost always to no purpose and uselessly.

918. A pension which is certified by the responsible Audit Officer to be clearly and strictly admissible under rule may be sanctioned—

- (a) in any case, by the Local Government;
- (b) in the case of non-gazetted Officers, by the Officer who has the authority to fill the appointment vacated by the retiring Officer.

Note.—[A Local Government may delegate its powers under this Article to Heads of Departments and other subordinate Officers who are authorised to fill the appointment vacated by the retiring Officer.]

922. Should the amount granted to an Officer be afterwards found to be in excess of that to which he is entitled under the regulations, he will be called upon to refund such excess.

CHAPTER XLVIII.—PAYMENT OF PENSIONS.

GENERAL RULES.

933. When a pension is stated in rupees, it is payable at any treasury in India; or, at the pensioner's option, at the Home Treasury.

933A. When a pension is stated in sterling, it is payable at the Home Treasury, or, at the option of the pensioner, if he be residing in India, at any treasury in India converted into rupees at the rate of exchange declared to exist on the date on which payment falls due; provided that pensioners of the following classes may, at their option, convert their pensions into rupees at the rate of 1s. 4d., to the rupee so long as they continue to reside in India:—

- (i) Pensioners resident in India who were on the 1st February, 1921, in receipt of pensions converted at that rate.
- (ii) Pensioners of Indian domicile who were, on the 1st February, 1921, temporarily drawing their pensions in sterling.
- (iii) Pensioners of Indian domicile who were in Government service on the 1st February, 1921.

934. Pensions granted in rupees which are drawn at or through the Home Treasury or in a colony in which the Indian Government rupee is not legal tender are converted into sterling at the rate of exchange for remittances through Government on the date on which each payment becomes due, subject to a minimum rate of 1s. 9d. per rupee.

Note 1.—[This rule also applies to the issue of gratuities to persons residing in any country in which the rupee is not legal tender; but when the service of an officer to whom a gratuity is granted terminates in India, the gratuity should be paid in India.]

Note 2.—[When the minimum rate of exchange comes into operation the following concessions apply:—

1.—Ordinarily, a pensioner who has been residing in India or other country in which the Indian Government rupee is legal tender, and who proceeds to a country in which the rupee is not legal tender is entitled to draw his pension from or through the Home Treasury at the minimum rate of 1s. 9d. the rupee from the date only when he quitted the former country. But a pensioner who leaves India within six months of his retirement and proceeds to a country in which the rupee is not legal tender is entitled to draw his pension from or through the Home Treasury at the minimum rate of 1s. 9d. the rupee from the date to which it has been paid in India, or if no payment has been made there, from the date of its commencement.

2.—A pensioner who has been drawing his pension at the minimum rate of 1s. 9d. the rupee, if he proceeds to a country in which the rupee is legal tender and continues to draw his pension from the Home Treasury, is allowed the benefit of that minimum rate for six months from the date of his arrival in such country.]

Note 3.—[In the event of a case arising which appears not to be covered by the foregoing rules, reference must be made to the Secretary of State.]

Note 4.—[On warrants issued to persons drawing pensions stated in rupees it should be noted whether payment is subject to the minimum rate of 1s. 9d. the rupee.]

935. The rule in Article 934 applies to an Officer under covenant who is entitled by his covenant to pension; the covenanted rate of

CHAPTER XLVIII.—PAYMENT OF PENSIONS—continued.

exchange for his pay and allowances does not, unless it is expressly so stated, apply to his pension.

936. Transfer of a pension from an Indian Treasury to the Home Treasury and *vice versa* is permitted within reasonable limits whenever desired.

Note.—[Frequent transfers of a pension to and fro are not permissible.]

Procedure in Paying.

940. A gratuity is paid in a single sum, and not by instalments.

943. A pension is payable in India monthly on and after the first day of the following month.

Payment in England.

964. The annuities and pensions of all officers are issued at the Home Treasury monthly in arrear on the 16th day of each calendar month.

They are made up to the following quarterly dates, *viz.*, to the 15th March, 15th June, 15th September and 15th December; and they are paid in monthly instalments, the first two instalments in each quarter being the net amount accrued, omitting shillings and pence, and the third instalment being the balance due for the quarter.

Payment in a Colony.

966. The Rules in this Section apply to pensions granted under the Rules in any Chapter of these Regulations. The pension of a pensioner residing in any Colony named in Appendix 15 may be paid there.

972. *Transfer of Payment.*—(a) Transfer of a pension from an Indian Treasury to a Colony, the payments in which are adjusted in the accounts of the Home Treasury, is permitted only once; but a pensioner can at any time have payment transferred from a Colony to an Indian Treasury, or from a Colony the payments in which are adjusted in the accounts of the Home Treasury, to England, for direct payment from the Home Treasury.

(b) In case a Pensioner desires transfer of payment of his pension from one Colony to another, the Government of India will recognise the proceedings of the Colonial Authorities sanctioning such transfer, which should, however, be reported separately by the pensioner to the Government of India and to the Under-Secretary of State for India.

973. Upon his return to India, an Officer should deliver up his copy of the Warrant, which will serve the purpose of a last-pay certificate.

CHAPTER XLIX.—MEMBERS OF THE INDIAN CIVIL SERVICE.

APPLICATIONS.

977. *Retirement during leave to Europe.*—(a) An Officer who wishes to retire from the service while on leave in Europe, must submit his application to the Secretary of State.

(b) When an Officer makes his application under this Article, whether after completing his full period of service, or after having been declared by the Medical Board to be unfit for further service in India, his resignation is accepted, subject to the adjustment of any demands that may be standing against him in India; and he is directed to apply to the Government of India, the Government of Madras, the Government of Bombay, or the Government of Bengal, as the case may be, for the annuity or gratuity to which his length of service may entitle him.

PAYMENT.

979. The annuity of an Officer who leaves India by sea, when retiring from the service at the end of subsidiary leave, begins, and his subsidiary leave ends, on the day of the departure of the vessel in which he sails.

980. The annuity of a Member of Council who has not previously resigned his seat in Council, or whose successor has not entered upon his office, commences from the day following that on which the vessel in which he leaves India sails, or from the expiry of his five years' tenure of office, whichever date is earlier.

982. Annuities are payable in arrear, monthly, and to date of decease.

983. (a) When payment of annuities or gratuities is taken at the Home Treasury, it may be taken at the option of the recipient either in rupees converted into sterling at the rate of exchange declared to exist on the date on which payment falls due or at the fixed sterling minimum.

(b) When payment is taken in India, it may be taken at the option of the recipient either in rupees or at the fixed sterling minimum converted into rupees at the rate of exchange declared to exist on the date on which payment falls due; provided that annuitants of the following classes may, at their option, receive the fixed sterling minimum converted into rupees at the rate of 1s. 4d., to the rupee, so long as they continue to reside in India:—

- (i) Annuitants resident in India who were in receipt of annuities converted at this rate on the 1st February, 1921.
- (ii) Annuitants of Indian domicile who were, on the 1st February, 1921, temporarily drawing their annuities in sterling.
- (iii) Annuitants of Indian domicile who were serving in the Indian Civil Service on the 1st February, 1921.

984. Transfer from the Home Treasury to an Indian treasury, and *vice versa*, is permitted twice only.

987. Payment of annuities may be made in any Colony named in Appendix 15, in accordance with the procedure laid down in Articles 966 to 973.

PART X.—PROCEDURE RELATING TO PENSIONS—*continued*.

CHAPTER L.—CHAPLAINS.

988. Application may be made to, and pensions are granted by, the Government of India, Local Governments, or by the Secretary of State, as the case may be.

Note.—[A Chaplain who proceeds to Europe on leave should give four months' notice if he decides to retire without returning to India.]

At least six months before a Chaplain, whether of the Church of England or the Church of Scotland, completes his full period of service, a statement should be furnished by the Local Government concerned to the Government of India in the Department of Education, for transmission to the Secretary of State, showing the date on which the Chaplain completes such service, whether he is in England or in India. It should also be stated whether he is on duty or on leave, and, if the latter, for what period.

989. A Chaplain proceeding to England on retirement without applying for pension should procure a certificate in Form 30 :—

- (i) From the Accountant-General of the Province in which he is serving or has last served ;

The Archdeacon of Calcutta or the Presidency Senior Chaplain, Church of Scotland, Bengal, will submit his application to the Government of India in the Department of Education.

992. The Department of Education or the Local Government before accepting the resignation of a Chaplain should obtain a certificate from the Comptroller, India Treasuries, or the Accountant-General concerned, showing the Chaplain's service, residence and the amount of pension to which he is entitled.

993.—(a) In the case of the Archdeacon of Calcutta and the Presidency Senior Chaplain, Church of Scotland, Bengal, the case should be forwarded to the Finance Department of the Government of India, in which Department the pension to which the Chaplain is entitled will be sanctioned.

PART XII.—APPENDICES.

APPENDIX No. 28.

Referred to in Article 1087.

RULES REGARDING THE ALLOWANCES FOR EQUIPMENT AND VOYAGE OF CERTAIN OFFICERS.

RULES made under the Statutes 5 and 6 Geo. 5, cap. 61, by the Secretary of State for India in Council, fixing the Allowances for Equipment and Voyage of the Governor-General of India, Members of the Council of the Governor-General of India, the Governors of Madras, Bombay, and Bengal, the Commander-in-Chief of the Forces in India, and the Bishops of Calcutta, Madras, and Bombay. Dated the 7th March, 1916.

I.

1. The allowance for equipment and voyage of a Governor-General of India, resident in Europe at the time of his appointment, is fixed at £5,000. If a Governor-General at the time of his appointment is resident in India or Ceylon, he shall receive an allowance of £3,000 for equipment, but no allowance for voyage. If he is resident elsewhere than in Europe, India, or Ceylon, he shall receive an equipment allowance of £3,000, and such further allowance for voyage not exceeding £500, as shall be decided by the Secretary of State in Council according to the circumstances of the case.

2. Except as declared in these Rules, Government will make no arrangements for, and will defray none of the expenses connected with, the conveyance or passage of a Governor-General, his family, or suite, to or from India.

RULES REGARDING THE ALLOWANCES FOR EQUIPMENT AND VOYAGE OF CERTAIN OFFICERS—
continued.

3. A newly appointed Governor-General proceeding to India from Europe to enter upon his office may be accompanied by three combatant military officers for his personal staff, the expenses of whose passage to India or to Aden, as the case may be, will be defrayed by Government according to the rules in force in the Military Department as to military officers proceeding to India on duty. For such newly appointed Governor-General proceeding to India a steamer belonging to the Royal Indian Marine will (if consistent with the requirements of the public service, and in accordance with the wishes of such Governor-General) be provided to convey him and his family and suite from Aden to Bombay. Should he make use of this steamer, he will bear the cost of entertainment and messing incurred while on board in respect of himself and his party, according to the rules in force relating to the conveyance of passengers in Royal Indian Marine troopships, and his allowance will be issued at the rate of £2,500 only.

4. For an ex-Governor-General returning to Europe, on resignation, a steamer belonging to the Royal Indian Marine will (if consistent with the requirements of the public service and in accordance with his wishes) be gratuitously provided, to convey him and his family and suite to Suez; but the homeward voyage of the ship thus provided shall not be continued beyond Suez, and no grant from Indian revenues will be made to the ex-Governor-General for his homeward journey from Suez. Should he make use of the Royal Indian Marine steamer, the ex-Governor-General will bear the cost of entertainment and messing incurred while on board, in respect of himself and his party, according to the rules in force relating to the conveyance of passengers in Royal Indian Marine troopships.

5. If a steamer belonging to the Royal Indian Marine cannot, consistently with the requirements of the public service, be provided for the conveyance to Suez of an ex-Governor-General returning to Europe on resignation, or if he prefers not to make use of such steamer, an allowance of £500 will be made to him from Indian revenues in lieu thereof.

6. An ex-Governor-General returning to Europe may be accompanied by two officers of his personal staff, for whom free passages to England will be allowed according to the rules in the Military Department, and also free return passages to India, if they start on their return voyage within two months from the date of quitting India.

7. In the event of a Governor-General dying, and leaving a widow in India, a steamer belonging to the Royal Indian Marine will (if consistent with the requirements of the public service) be provided to convey her to Suez in like manner as in the case of an ex-Governor-General. The widow of a deceased Governor-General so returning to Europe may be accompanied by one officer of the personal staff, on the conditions mentioned in the preceding rule, and shall bear all such expenses as would, in ordinary course, be borne by an ex-Governor-General returning to Europe.

8. The allowance for equipment and voyage of a Governor of Madras, Bombay, or Bengal, is fixed at £1,000, and that of a Commander-in-Chief of the Forces in India at £500, if resident in Europe at the time of appointment. If resident in India or Ceylon at the time of his appointment, a Governor shall receive £750, and a Commander-in-Chief £400 for equipment, but no allowance for voyage. If at the time of his appointment a Governor or Commander-in-Chief is resident elsewhere than in Europe, India, or Ceylon, he shall receive the same equipment allowance of £750 or £400, as the case may be, and such further allowance for voyage, not exceeding in the one case £250, and in the other case £100, as shall be decided by the Secretary of State in Council, according to the circumstances of the case. A Governor, however, who having received on first appointment the allowance authorised by this rule, is subsequently transferred to another Presidency as Governor thereof, shall receive an allowance of £250 *plus* the amount of the actual expenses incurred on account of the journey of himself, his family, personal staff and servants, and on account of the carriage of his and their effects.

Note.—The following scale of equipment and voyage allowances for the holders of the newly created Governorships has been adopted:—

Governor of United Provinces	1,800
" Punjab	1,500
" Bihar and Orissa	1,500
" Central Provinces	1,200
" Assam	1,200

[Owing to changes in the value of money during and after the war, it has been found necessary to make certain concessions in connection with the scale of allowances laid down in paragraph 8 of this Appendix.]

9. A Commander-in-Chief of the Forces in India proceeding from Europe to assume his command may be accompanied by three combatant military officers for his personal staff, and newly appointed Governors of Madras, Bombay, or Bengal, similarly proceeding from Europe to take up their duties, may respectively be accompanied by two combatant military officers for their personal staff, the passages of these officers being provided at the expense of Government, according to the rules in force in the Military Department as to military officers proceeding to India on duty; but, with these exceptions, Government will make no arrangements for, and will defray none of the expenses connected with, the passage or conveyance of any of the officers mentioned in Rule 8, or of their families, to or from India.

PART XII.—APPENDICES—continued.

10. An ex-Governor of Madras, Bombay, or Bengal, or an ex-Commander-in-Chief of the Forces in India (or the widow of a Governor or of a Commander-in-Chief who may die in India leaving a widow there), returning to Europe, may be accompanied by one officer of his personal staff, for whom a free passage will be allowed by Government according to the rules in force in the Military Department, and also a free return passage if he starts on the return voyage within two months from the date of quitting India.

11. The allowance for equipment and voyage of Members of the Council of the Governor-General of India, if resident in Europe at the time of appointment, is fixed at £300. If resident in India or Ceylon at the time of his appointment, a Councillor shall receive £225 for equipment, but no allowance for voyage. If at the time of his appointment a Councillor is resident elsewhere than in Europe, India or Ceylon, he shall receive the same equipment allowance of £225, and such further allowance for voyage, not exceeding £75, as shall be decided by the Secretary of State in Council, according to the circumstances of the case. Provided that no such Councillor who is, when appointed, a member of the Government Services in India, shall receive any allowance wherever he may be at the time of his appointment.

12. An officer serving or residing out of Europe, but appointed during a temporary visit to Europe, shall not be deemed to be residing in Europe for the purpose of these rules.

II.

39. For the purposes of defraying the expenses of equipment and voyage from Europe on first appointment, there shall be allowed,—

RATE OF INTEREST.

6. Compound interest at 4 per cent. will be allowed on subscriptions; but Government reserve the right to reduce this rate at any time for officers who become subscribers to the fund after Government have announced their intention of reducing the rate.

RATES OF SUBSCRIPTION.

7. The monthly rate of subscription shall be an amount expressed in whole rupees, and shall remain fixed throughout the financial year. It may be any sum in whole rupees not less than $6\frac{1}{2}$ per cent. of salary (*i.e.*, one anna in the rupee) and not exceeding $15\frac{1}{2}$ per cent. (*i.e.*, 2 annas in the rupee), the rate of salary for this purpose being that drawn in respect of the 31st March of the financial year preceding.

The amount which a subscriber elects to subscribe monthly for each financial year shall be assumed to be represented by the deduction which he himself causes to be made in his salary bill for the preceding March: provided that if the sum so deducted is below the minimum or above the maximum limit above prescribed, the subscriber shall be assumed to have elected to subscribe the minimum or the maximum permissible amount, as the case may be. The amount thus elected shall not be variable later on in the year on account of any increase or decrease in the rate of salary which may ultimately be found to have been due in respect of the 31st March or which may take place during the year.

SUBSCRIPTION DURING LEAVE WITH ALLOWANCES.

8. Subscription during leave with allowances will be optional. The monthly amount subscribed shall be a sum expressed in whole rupees and not exceeding the amount at which the officer was subscribing under Rule 7 prior to proceeding on leave in the case of privilege leave, and half that amount in the case of other leave.

Subject to the limits above mentioned, an officer proceeding on combined leave may notify his intention to subscribe at one rate for the

privilege leave portion and at another rate for the remainder of the leave.

The subscription, if any, payable in respect of a month spent partly on duty and partly on leave will be calculated proportionately: *i.e.*, at the duty rate for the duty portion and at the leave rate, if any, for the leave portion, each separate amount being rounded to the nearest higher or lower rupee according as the broken portion does or does not exceed 8 annas.

The subscription, if any, payable in respect of a month spent partly on privilege leave and partly on other leave will be similarly calculated in those cases where the officer has notified his intention to subscribe at one rate during privilege leave and at another rate during other leave.

SUBSCRIPTION DURING LEAVE WITHOUT ALLOWANCES AND IN RESPECT OF TIME SPENT UNDER SUSPENSION.

8A. Subscription during leave without allowances will be optional.

An officer on reinstatement after a period passed under suspension may be allowed the option of subscribing for that period.

The monthly amount which may be subscribed shall be a sum expressed in whole rupees, not exceeding half the amount which the officer was subscribing under Rule 7 prior to proceeding on leave without allowances or being placed under suspension, as the case may be. In case, however, the officer is allowed full pay or salary for the period of suspension the maximum amount of subscription permissible is the amount which he was subscribing prior to being placed under suspension.

In the case of a month spent partly on duty and partly on leave without allowances or under suspension followed by reinstatement, the amount to be subscribed will be calculated proportionately, with reference to the duty rate and the leave or suspension rate, in the manner indicated in Rule 8, *mutatis mutandis*.

REALISATION OF SUBSCRIPTIONS.

9. Subscriptions will be recovered by deduction from pay-bills, but they may be made by remittance in cash to the Audit Office when an officer is in foreign service, or is on leave and draws his leave allowances from a Colonial Treasury.

When a subscriber draws his leave allowances from the Home Treasury of the Government of India, his subscriptions may be paid by deductions from leave allowances, the remittances to India being effected by means of the remittance account between England and India, and the credit to the officer's account in the Fund in respect of such remittances being given at the current rate for remittance through Government.

An officer who will draw his leave allowances through the Home Treasury of the Government of India, and who desires to subscribe during leave must notify his intention beforehand in order to allow of the deductions from his leave allowances being noted in his leave and pay certificate.

An officer who fails to notify his intention to continue to subscribe when proceeding on leave, can subsequently pay his subscription in cash.

WITHDRAWAL ON RETIREMENT.

10. The amount which accumulates to the credit of an officer in permanent employ will, when he quits the service, become his property and be handed over to him, unless the Account Officer has received notice of an attachment, assignment, or encumbrance affecting the disposal of the amount or any portion of it.

Should such notice have been received, the Account Officer will hand over to the subscriber only that portion of the amount which is not affected by the attachment, assignment, or encumbrance, and shall obtain the orders of the Comptroller and Auditor-General as Administrator of the Fund, regarding the disposal of the balance. An officer holding a temporary appointment may, subject to the same conditions, either withdraw the amount on the termination of his appointment, or leave it in the fund, to be withdrawn at the time he finally quits the service. Any sum so left in the fund may be withdrawn at any time after the cessation of service.

DISPOSAL ON SUBSCRIBER'S DEATH.

11. Each subscriber will, as soon after he joins the fund as possible, be called upon by the Account Officer to furnish a form of declaration showing how he wishes the amount of his accumulations to be disposed of on his death. A specimen of this form will be found at the end of these rules.

12. For the purposes of these rules, only the following survivors of a subscriber shall be held to constitute his family:—

- (i) widow or widows;
- (ii) children;
- (iii) widow or widows, and children of a deceased son.

An adopted child shall be considered to be a child within the meaning of this rule, when, under the personal law of the subscriber, adoption is legally recognised as conferring the status of a natural child, but in this case only.

If doubts arise in an individual case the Account Officer concerned will refer the matter to the Legal Remembrancer to the Local Government (or corresponding officer) and his opinion shall be final for the purposes of these rules. A declaration in favour of an adopted child is made at the subscriber's risk and can be challenged at any time.

For full particulars regarding disposal of balances on deaths of subscribers see articles 13, 14, 15 and 16 of the rules.

17. Government will not be bound by, or recognise, (1) any assignment or encumbrance executed or attempted to be created which affects the disposal of the accumulations of a subscriber who dies before retirement, (2) the accumulations of the subscriber are not liable to forfeiture on dismissal or on conviction by a Criminal Court except for an offence for which the penalty of forfeiture of the offender's property is prescribed by law.

19. Ordinarily, officers should make their own arrangements at retirement to draw in India their accumulations in the Fund. In the case, however, of subscribers who retire in

England, the Account Officer on receiving due intimation of the retirement, shall purchase sterling bills equivalent to the amount to be handed over to him and send the bills to the subscriber in England. Any further subscription paid by the subscriber in England, of which intimation is subsequently received by the Account Officer, shall be similarly remitted after the subscriber's account is finally made up under rule 25. Where the beneficiaries of a deceased subscriber [as determined by rule 15] are resident in England, the Account Officer in a similar manner, on receipt of due intimation, shall forward the amount payable to them by sterling bills.

Officers proceeding on furlough preparatory to retirement under a superannuation rule may be permitted to draw the deposits at their credit at any time between the date of their proceeding on leave and the date of retirement.

ADVANCES FOR SPECIAL PURPOSES.

20. (1) No final withdrawal will be allowed until the subscriber is quitting the service or dies. But when the pecuniary circumstances of a subscriber are such that the indulgence is absolutely necessary, a temporary advance not ordinarily exceeding three months' pay may be allowed from the sum at his credit at the discretion of the sanctioning authority, who shall be—

- (i) the Local Government, for gazetted officers, or such heads of departments as the Government of India or the Local Government, as the case may be, may authorise in this behalf from time to time;
- (ii) the head of the Department, for non-gazetted officers in receipt of Rs. 100 *per mensem* or over;
- (iii) the head of the office, for other officers.

(2) The following are cited as examples of occasions on which the grant of advances may be considered, provided the circumstances are exceptional:—

- (a) to pay expenses incurred in connection with the illness of a subscriber or a member of his family;
- (b) to pay for the passage over the sea of a subscriber or any member of his family;
- (c) to pay expenses in connection with marriages, funerals, or ceremonies which by the religion of the subscriber it is incumbent upon him to perform and in connection with which it is obligatory that expenditure should be incurred.

(3) When one or more advances have already been granted to a subscriber, a subsequent advance shall not be granted to him, except for strong reasons to be recorded in writing by the sanctioning authority, until at least 12 months have elapsed since the complete repayment of the last advance taken. The account officer should bring to notice instances in which the spirit of this instruction appears to be disregarded.

(4) (a) Advances will be recovered at the discretion of the sanctioning authority, in not less than twelve instalments or more than twenty-four. A subscriber may, however, at his option make repayment in less than 12 instalments or may repay two or more instalments at the same time.

(b) In determining the advance to be sanctioned, due regard should be paid to the amount of subscriptions lying to the credit of the applicant. The amount of the advance should be a sum expressed in whole rupees and ordinarily the monthly instalments should also be in whole rupees, the advance applied for being raised or reduced, if necessary, to enable instalments to be thus fixed.

(c) Recoveries will be made monthly, commencing from the first payment of a full month's salary after the advance is granted, but no recovery will be made from an officer while he is on leave of any kind. Recovery may also be postponed while an advance of pay granted to him on transfer or under Article 64 (a) of the Civil Service Regulations is being recovered.

(d) When two or more advances are made, each advance should be treated separately, and

the monthly deduction of not less than one twenty-fourth of each advance should be made until that advance is cleared.

(e) The instalments will be paid by compulsory deductions from salary, and will be in addition to the usual subscription.

21. Subscriptions to a recognised family pension fund or payments towards a policy of insurance may, at the option of subscribers, be substituted for subscriptions to the General Provident Fund, subject to certain conditions.

RESERVATION OF POWER TO GOVERNMENT TO ALTER RULES.

22. The Government reserve to themselves the power to amend or alter the rules as may be required.

THE INDIAN CIVIL SERVICE FAMILY PENSION REGULATIONS.

The following regulations are designed to secure suitable provision for the widows and orphans of members of the Covenanted Indian Civil Service not being subscribers to the Bengal, Madras, or Bombay Civil Funds.

The Secretary of State for India in Council reserves to himself the absolute right to regulate from time to time the contributions to be required from Civil Servants under these regulations, and to make any alterations in the regulations themselves that may appear to him equitable: provided always, that the scale of pensions fixed thereby shall not be reduced in the case of actual incumbents. The Secretary of State in Council will endeavour to adjust the contributions to be levied from members exactly, so that they shall neither be too large nor too small to supply the pensions provided by these regulations. But if it should appear on experience that they have been fixed too low, the Government will not require any supplementary retrospective payments; and if they are found to have been fixed too high, no claim to refund will be admitted.

No insurance fund is established by these regulations. The contributions will be credited and the pensions charged directly to Indian revenues as civil receipts and charges. But in order to adjust the rates of contribution from time to time to what is necessary to supply the pensions provided by these regulations and no more, a separate *pro forma* account will be kept of all contributions levied and all payments made under these regulations, and of the interest which would have been allowed upon such contributions if a mutual insurance fund had actually been established.

In accordance with the principle announced in this notification, that the Government does not intend that the pensions provided by these regulations shall bring any charge on Indian revenues in excess of the amount specially sanctioned in aid of the pensions and for the cost of management, the rate of interest to be allowed in this *pro forma* account, will be the rate which may be fixed from time to time by the Secretary of State in Council, upon a consideration of the market rates of the day. Conversion of sterling into rupees and of rupees into sterling in transactions under these regulations and in the *pro forma* account shall be made at the market rate of exchange except where otherwise indicated in Regulations.

All needful statistics of ages, births, marriages, and deaths, will be carefully registered, and these statistics, with the *pro forma* accounts, will be submitted at such periods as may be determined by the Secretary of State in Council to such actuary or actuaries as he may select, with instructions to investigate and ascertain whether the rates of contribution are such as will, at the rate of interest then to be reconsidered and refixed, supply the pensions payable under these regulations, and no more. The expense of such actuarial enquiries and reports shall be borne by the State.

Upon the report of the actuary or actuaries the Secretary of State in Council will order any necessary alterations in the rates of contribution.

The report of the actuary or actuaries, with the orders of the Secretary of State in Council thereupon, shall be published in the *Gazette of India*, and no alteration ordered in the rates of contribution will take effect before the beginning of the month following the date of such publication. No retrospective adjustments will be made.

The benefits provided at the cost of the State are shown in the regulations; but should it at any time appear from a valuation that the aggregate liabilities on account of those benefits, when the pension list shall have reached a normal state, will exceed £35,000 per annum, they will be subject to such reduction as may be necessary to restrict the assistance to £35,000 per annum, but the reduction shall in no case affect the benefits payable to incumbent annuitants.

REGULATIONS FOR THE PROVISION OF PENSIONS FOR THE WIDOWS AND ORPHANS OF COVENANTED CIVILIANS IN THE SERVICE OF THE GOVERNMENT OF INDIA.

1. Every covenanted civil servant (except non-Europeans admitted as probationers prior to August, 1914),* not being entitled to the benefits of any of the late Civil Funds, must, as a condition of his appointment, make the contributions and payments prescribed by these regulations according to his class, whether he is married or unmarried, and with or without children. Contributions commence from the date of arrival in India.

2. For the purposes of these regulations civil servants are classed as follows:—

- Class I.—From 18 years' completed service.
 " II.—From 15 to 18 years' completed service.
 " III.—From 12 to 15 years' completed service.
 " IV.—From 7 to 12 years' completed service.
 " V.—Up to 7 years' completed service.

3. The pensions provided under these regulations are payable quarterly in advance, on or after 1st January, 1st April, 1st July, and 1st October.

Pensioners residing in Europe receive payment from the High Commissioner for India, India Office, and those residing in India have the option of receiving payment either from the High Commissioner or in India as follows:—A pensioner who was receiving pension in India prior to the 1st February, 1921, at *rs. 4d.* the rupee may continue to receive it at that rate or at the current rate of exchange, whichever is more advantageous to the recipient; a pensioner who is a dependant of a subscriber in the service on the above date and who commences to receive payment in India after that date may receive payment at the current rate of exchange, subject to the proviso that the conversion will not be at a less favourable rate than *rs. 8d.* the rupee; a pensioner who is a dependant of a subscriber entering the service after the above date, shall, if the pension is drawn in India, receive payment there at the current rate of exchange. A pensioner who has exercised the option and receives payment in India is only permitted to change at the commencement of an official year.

4. The amounts of the pensions provided are as follows:—

* Non-Europeans admitted as probationers in August, 1912, and 1913, were allowed the option of becoming members.

† The pensions of sons admitted to pension with effect from a date prior to 1st April, 1914, continue till the age of 21 only (*vide* Article 18)

On marriage, daughters are granted a donation of £250, provided by the Government.

All pensions payable in respect of the period 1st January, 1920, to 31st December, 1924, are subject to a temporary increase of 25 per cent.; this increase having been granted on the distinct understanding that it will not necessarily be continued beyond the latter date. This temporary increase does not apply to the donations payable to daughters on marriage.

5. The pension of a minor orphan will be paid to his or her mother, or other duly appointed or recognized guardian.

Contributions.

6. The contributions for pensions under these regulations, and the pensions of widows, will be regulated by the class of the contributing member. A member cannot secure a higher pension for his widow by contributing as if he belonged to a higher class.

7. Contributions will be deducted from pay at the time of issue.

8. The circumstance that a member is not in receipt of pay does not relieve him from the necessity of paying his contributions.

9. Donations and disparity fines may be paid in one sum, or in twelve equal monthly instalments. If paid in instalments, interest on the unpaid portion will be levied at the rate of 5½ per cent. per annum. The balance of any contribution due at a member's death will be recovered rateably, without further interest, from the pensions of his widow and orphans in four quarterly instalments.

10. The following are the rates of donations, disparity fines, and monthly contributions prescribed for the present:—

The monthly contribution for sons continues until 24 years of age, and for daughters until marriage.

No monthly contribution under Tables VII and VIII is payable by a member after his retirement from the service on an annuity; but on marriage or re-marriage after retirement the provisions of Article 23 apply to him.

Arrears.

11. Interest at the rate of 5½ per cent. per annum is charged on arrears. Donations become due from the date on which the liability is incurred, viz., on marriage, or in the case of donations in Table VI, on the birth of a child; but interest is not charged on sums paid within one month from the date on which they become due.

Reports of Marriages, Births, and Deaths.

12. A Civil Servant who is married at the date of his admission into the service must report the fact of his marriage on his arrival in India, and the names and dates of birth of his children, if any have been born to him. A member in the service must report his marriage, or the birth of a child born in wedlock, or the death of his wife or child, within one month of the occurrence (1) to the Accountant-General, Central Revenues, Calcutta, when the member is drawing pay in India or in a Colony to which he has gone direct from India, (2) to the Director of Funds, India Office, Whitehall, London, S.W., if the member is drawing his pay in England or in a Colony to which he has gone direct from England.

13. A member in the service must report the birth of every child born alive; but if a child die before it is 30 days old, no payment in respect to it will be required. If the report of birth be not made within one month of the occurrence a fine of 12s. will be imposed, and an additional 2s. will be charged for each succeeding month's delay. After 12 months' delay medical evidence as to the state of the member's health must be furnished in order that it may be determined whether and, if so, on what terms, liability for orphan's pension shall be accepted.

14. If the report of a marriage be not made within one month of the occurrence, the donation payable will be increased 2½ per cent. and interest thereon charged from the date of marriage. After six months' delay the donation will be increased 5 per cent., and interest charged as above. After 12 months' delay medical evidence as to the state of the member's health must be furnished in order that it may be determined whether and, if so, on what terms, liability for widow's pension shall be accepted.

15. In the event of the report of a marriage or the birth of a child not being made by a member during his lifetime, in accordance with the rules, the widow or child will not be entitled to any benefits.

Note.—The provisions of Articles 14 and 15 are not to be read as implying an option of omitting or postponing any report that a subscriber is required to make under these Regulations. Intentional neglect to report is a breach of discipline.

Posthumous Child.

16. Provided the birth of a posthumous child is reported within one month of its occurrence and the contribution required by the regulations has been or is being paid for the father's youngest child, if any, living at the time of his death, a pension will be granted to the child without any payment if the child is born of a marriage contracted while the father was in the service. If however, the child is born of a marriage contracted after the father's retirement from the service, pension will only be granted if, in addition, the certificate of health required under Article 23 had been furnished by the father himself at the time of his marriage or subsequently, and the donation prescribed in Table VI paid as though the father were alive at the date of the child's birth.

Duration of Pensions.

17. If a widow re-marry she will retain half her pension during coverture, but if she again become a widow she will be entitled to revert to full pension as widow of her first husband, or if her last husband had been a contributor, to receive a pension at her option as his widow. A widow can only receive one pension. Reduction to the half rate takes effect from the commencement of the quarter following that in which the re-marriage occurred; the full pension is restored from the day following that on which the pensioner again becomes a widow.

18. The pension of a male orphan is payable until he attains the age of 24 years, unless he was admitted to pension with effect from a date prior to 1st April, 1914, in which case his pension is payable until he attains the age of 21 years only.

19. The Secretary of State for India in Council will be prepared to consider an application for the commutation of a portion of the pension of a son with a view to the proceeds being applied to his advancement in life, provided that he has attained the age of 16.

Each case will be decided on its merits.

When the pension is payable out of India an application should be addressed to the Director of Funds, India Office—by the mother or guardian, until the pensioner attains the age of 21, and thereafter by the pensioner himself.

When the pension is being drawn in India from a Government Treasury there, it will rest with the Government of India to deal with the application, which should be addressed to the Accountant-General, Central Revenues, Calcutta.

20. The pension of a female orphan continues until the end of the quarter in which she married, and then ceases absolutely. It does not revive on widowhood.

Good Conduct.

21. The pensions provided under these regulations shall in all cases be held during good behaviour only, and will be withheld if any pensioner is found to be leading an immoral life or on proof of any gross misconduct. In any such case the order of the Secretary of State for India in Council, or, when the pension is being drawn in India from a Government Treasury there, the order of the Government of India, shall be final and conclusive.

Alienation of Pension.

22. A pension paid under these regulations may not be transferred or assigned or in any way alienated from the pensioner to whom or for whose benefit it is payable.

Retired Members.

23. A member who marries after he has retired from the service on an annuity may, if he thinks fit, provide pension under these regulations for his widow or for his children resulting from such marriage, or for both, on the following conditions:—

- (1) That reports of occurrences are made in accordance with the requirements of Articles 12 and 13, and subject to Articles 14 and 15, as in the case of members in the service.
- (2) That a certificate of health, signed by two qualified medical practitioners, showing that he is free from any bodily complaint of a dangerous tendency, and that he is believed to be a good average life is furnished either—
 - (a) with the report of the marriage if he wishes to provide pension for his widow and for children resulting from the marriage, or for his widow only, or—
 - (b) with the report of the birth of the first child resulting from the marriage if he wishes to provide pension for his children only.
- (3) That the donations on marriage (*see* Tables IV and V), or on the births of children (*see* Table VI) are paid (*see* Articles 9 and 11, and as regards posthumous children, Article 16).

24. An annuitant may withdraw his name from the list of members; but he will not be entitled to any refund of his payments under these regulations.

Members who resign the Service before becoming entitled to an Annuity.

25. A member who resigns the service before becoming entitled to an annuity, will ordinarily cease, *ipso facto*, to be a contributor, and in that event he will have no claim to any refund, and his family will not be entitled to any pensions under these regulations; but the Secretary of State in Council may, in special cases, allow members who resign without annuities to continue their subscriptions. When such permission is granted the member will be required to subscribe until his 54th birthday.

Dismissed Members.

26. A subscriber who is dismissed the service by competent authority will cease, *ipso facto*, to be a contributor. He will have no claim to any refund, and his family will not be entitled to any pensions under these regulations.

Declarations.

27. Declarations as to continued widowhood and the survival of children must be furnished quarterly to the High Commissioner, India Office, or to the proper officer in India.

1. In these Rules, unless there is something repugnant in the subject or context,—

'Acting Chief Justice' means a Judge appointed under sec. 105 of Statute 5 & 6 Geo. 5, cap. 51, to perform the duties of Chief Justice of a High Court.

'Acting Judge' means a person appointed under the said sec. 105 to act as a Judge of a High Court.

'Additional Judge' means a person appointed by the Governor-General of India in Council under sec. 101, sub-sec. 2 (1), of Statute 5 and 6 Geo. 5, cap. 51, to act as additional Judge of a High Court.

'Judge' includes a Chief Justice and Acting Chief Justice, and an Acting Judge and an Additional Judge, except where the contrary is expressed.

'Actual Service' includes:—

- (a) Time spent by a Judge on duty as Judge, or in the performance of such other functions as he may be directed to discharge by the Governor-General of India in Council;
- (b) Time spent by a Judge on privilege or subsidiary leave;
- (c) Duly authorised vacations (provided that the Judge is not absent on furlough or on extraordinary leave under Rule 26).

SECTION I.—SALARIES.

2. The Chief Justice, or Acting Chief Justice, of the High Court at Calcutta, shall be paid a salary at the rate of Rs. 72,000 per annum.

3. The Chief Justice, or Acting Chief Justice, of the High Courts at Madras, Bombay, Allahabad, Patna, and Lahore respectively, shall be paid a salary at the rate of Rs. 60,000 per annum.

4. A Judge, or Acting Judge, of the High Courts at Calcutta, Madras, Bombay, Allahabad, Patna and Lahore respectively, shall be paid a salary at the rate of Rs. 48,000 per annum.

5. Every Judge shall be allowed to draw, in addition to his salary, any exchange compensation allowance which may be sanctioned for public servants generally, subject always to the conditions and limitations prescribed in the rules relating to such allowance.

SECTION II.—LEAVE.

6. One year's Furlough shall be placed to the credit of each Judge after the completion of the fourth, eighth, and twelfth years of actual service. Provided that the aggregate amount of all Furlough which can during the whole period of his service be granted to a Judge shall not exceed three years; provided further, that the maximum amount of Furlough which may be taken at any one time is fifteen months.

7. Except under Rules 9 and 11, no Furlough shall be granted until at credit under Rule 6. But any Judge already in the service of the Government at the time of being appointed to the High Court, who, when so appointed, had at his credit, under the rules applicable to the branch of the service to which he belonged, Furlough without Medical Certificate, may be granted Furlough for a term not exceeding the amount so at his credit: Provided that such Fur-

lough shall not be taken until the completion of two years' actual service in the High Court, and shall not exceed one year.

8. Except under Rules 9 and 11, Furlough shall not be granted until after the completion of three years' actual service from the date of the last return from Furlough or from Extraordinary Leave.

9. Under Medical Certificate Furlough may be granted before it is at credit under Rule 6, and although three years' actual service may not have been completed since the last return from Furlough or from Extraordinary Leave.

10. A Judge on long leave in Europe must, if the leave was granted or has been extended on account of ill-health, whether it be technically leave on medical certificate or not, satisfy the Medical Board at the India Office as to his fitness to return to duty. Ordinarily, he must attend at the India Office for examination by the Board, but, in special cases, particularly if he be residing at a distance of more than 60 miles from London, a certificate in a form to be obtained from the India Office from two medical practitioners may be accepted. On the required evidence of fitness being furnished, the Judge will receive from the India Office permission to return to India.

11. On urgent private affairs, Furlough may be granted to a Judge before it is at credit under Rule 6, and although three years of actual service have not been completed since the last return from Furlough or Extraordinary Leave: Provided that Furlough under this Rule shall not exceed six months, and shall be granted only once during the whole period of a Judge's service.

11A. Of the Furlough at credit under Rules 6 and 7, Furlough not exceeding one-twenty-fourth of the period of actual service as Judge, plus one-half of any credit allowed, under Rule 7, in respect of service prior to appointment as Judge, may be taken on double allowances, subject to the following conditions:—

- (a) For the purposes of Rule 6, Furlough on double allowances must be treated as equivalent to a period of Furlough of double its own length.
- (b) It must not be granted unless Furlough for double the period granted is at credit.
- (c) The maximum period which may be granted in any one period of leave is four months.
- (d) The total period taken during a Judge's complete service, including Furlough on average salary taken prior to his appointment as Judge, must not exceed one year.

12. Furlough taken in India shall be reckoned from the date on which the Judge quits his office to the date of his resuming duty. Furlough taken out of India shall be reckoned from the date of embarkation at the port of departure from India to the date of debarkation on return to India, except in a case falling under Rule 24.

13. If Furlough be taken partly in India and partly out of India, the commencement and termination of the Furlough shall be respectively determined under the provisions of Rule 12, according as the Furlough begins or ends in or out of India.

14. For the interval between the date of quitting his office and the commencement of Furlough out of India, and between the termination of Furlough out of India and resuming his office, a Judge may be allowed a Subsidiary Leave not ordinarily exceeding thirty days, which in special cases may be extended.

15.—(a) A Judge, when on Furlough, shall receive allowances at the monthly rate shown in the following table :—

	When resident in Asia. Rs.	When resident outside Asia Rs.
Furlough	1,110	111
Furlough on double allowances	2,220	222

(b) A Judge, when on Subsidiary Leave, shall receive allowances at the monthly rate of Rs. 1,110.

16. Except under Medical Certificate, the number of Furloughs to be granted at any one time, and the grant of Furlough to individual Judges, shall be subject to and limited by the exigencies of the service, which exigencies shall be determined exclusively by the authority with whom rests the question of granting the Furlough.

17. Applications for Furlough not supported by Medical Certificate shall be granted usually in the following order :—

The Judge who has the greatest amount of Furlough to his credit under Rule 6 shall have the preference. If two or more applicants are on an equality in this respect, preference shall be given to the applicant whose actual service in a High Court is longest, reckoning, in the case of a Judge who has not taken Furlough or Extraordinary Leave, from the date of the commencement of his service in the High Court, and in the case of a Judge who has taken Furlough, Subsidiary, or Extraordinary Leave, from the date of his last return from such Furlough or Extraordinary Leave. If two or more applicants are equal in both the above-mentioned respects, the preference shall be given to the senior in the Court.

18. Subject to the exigencies of the public service, a Judge who has completed eleven months' continuous duty, including the Vacation, may take Privilege Leave for one month in each year, but, except as provided in Clause (a), his salary will cease during such Leave. A Judge may not take Privilege Leave in instalments, or more than a month at a time; and, except as provided in Clause (b), Privilege Leave may not be combined with Vacation.

(a) A Judge who has been detained on duty as Vacation Judge may, provided that he has not in the meantime had any Furlough or Leave of any kind, during his next subsequent Privilege Leave draw his salary for any period not exceeding one month in the whole by which his Vacation may, by reason of his being on duty, have fallen short of one month.

(b) Once in three years, and not oftener, Privilege Leave may be prefixed or affixed to the Vacation.

19. Every Judge applying for Privilege Leave must sign a Declaration that he intends to return to duty on the expiration of the Leave applied for, and that he has no intention of resigning his office or retiring from the Service, or taking leave of any kind, within three months after his return to duty. Such declaration shall not be held absolutely to debar the person making it from applying for permission to resign his office or to retire from the Service, or to take Leave, within three months after his return to duty: but every such application must be accompanied by an explanation of the special circumstances under which it is made, and it shall be in the absolute discretion of the Government to grant or withhold the permission sought.

20. Privilege Leave may be prefixed but not affixed to Furlough.

21. Applications for Leave shall in all cases be submitted in such manner as the Government shall, from time to time, prescribe.

22. No substantive appointment shall be vacated merely by reason of Leave being granted under the Rules.

23. If a Judge overstates any Leave, he shall forfeit all salary during the time of his remaining so absent; and if he overstates his leave for more than one week, his office shall be liable to be declared vacant. But a Judge on Leave (other than Leave under Rule 18) is not obliged to return to duty on an authorised holiday, unless another Officer is officiating as Judge in consequence of his absence.

24. A Judge may be allowed to combine vacation on full pay with Leave, as shown in (A) and (B) below, provided that no acting allowance is sanctioned or additional expense is incurred by the State in consequence of his absence during the vacation :—

(A) Where the Vacation of the High Court consists of one period, a Judge may be allowed to combine Vacation on full pay with Leave, either at the beginning or end thereof, but not both.

(B) Where the annual long Vacation is not continuous, but is divided into two separate portions, a Judge may be allowed either :—

(a) to combine one part of a Vacation on full pay with Leave, either at the beginning or end thereof, but not both; or

(b) to combine both parts of one annual Vacation on full pay with Leave for the intervening period.

25. No Leave except Privilege Leave and Leave subsidiary to Furlough shall count as service for Pension.

26. If the Government in its discretion deems it necessary, in any special instance, to grant to any Judge Leave of Absence which is not expressly provided for in the foregoing Rules, such Leave shall be without pay: Provided always that in no case shall such Leave exceed six months, or be granted more than once in the whole course of the Judge's service.

SECTION III.—PENSIONS.*

27. Subject to the proviso hereinafter set out, a Judge of a High Court shall receive, according to the length of his actual service, a pension corresponding to the rates specified in the table that follows :—

Length of actual Service.	If Service includes Service as Chief Justice.					Judge who is not a member of the Indian Civil Service.	Judge who is a member of the Indian Civil Service.
	Not less than 5½ years.		Not less than 2½ years but less than 5½ years.				
	As Chief Justice, Calcutta High Court.	As Chief Justice in any other High Court.	As Chief Justice, Calcutta High Court (when previous service has been as Chief Justice in other High Courts).	As Chief Justice, Calcutta High Court (when previous service has been as Puisne Judge).	As Chief Justice in any other High Courts.		
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
(a) 6½ years but less than 8½ years	900	750	800	700	650	600	100
(b) 8½ years but less than 10 years	1,075	900	960	840	780	720	120
(c) 10 years but less than 11½ years	1,450	1,200	1,280	1,120	1,040	960	160
(d) 11½ years and over	1,800	1,500	1,600	1,400	1,300	1,200	200

* Pensions paid in India will be issued in rupees and converted at the rate of exchange declared to exist on the date on which payment falls due.

Provided that no Judge shall receive such pension who has not attained the age of 60 years, unless he either retires on medical certificate or has had an actual service of at least 11½ years.

28. Except in the case of a member of the Indian Civil Service, a Judge receiving a pension under the preceding rules will not be entitled to any other pension or retiring allowance.

29. When a Judge who, at the time of his appointment to a High Court, was a member of one of the Government Services in India, is permitted to retire without a pension under the preceding rules, he shall receive such a pension as he might receive under the rules applicable to the branch of the Service to which he belonged when so appointed, reckoning the period of his service as a Judge of a High Court towards service for that pension.

30. If a Judge who, at the time of his appointment to a High Court, was a member of one of the Government Services in India, is permitted to retire after six years and nine months of actual service as Judge, he shall have the option of taking his pension or retiring allowance either under these Rules or under the Rules applicable to the branch of the Service to which he belonged when appointed.

31. The words 'a member of one of the Government services in India' in Rules 29 and 30 include an acting member, and for the purpose of these Rules acting service in the appointment held at the time of appointment as a Judge of the High Court shall be regarded as substantive.

32. In the event of the appointment to be a Judge of a High Court of a retired Judge who is in receipt of a pension under the preceding Rules, the Secretary of State in Council shall decide in each case whether his salary shall be reduced by the amount of such pension, or by any part of such amount.

33. No Judge, selected from the Indian Civil Service, shall receive any pension under

these Rules unless he shall have fully complied with all the Rules and Regulations in force for the time being as to payments to be made by him as a member of the Indian Civil Service on account of the provision for his own pension or retiring allowance, and for pensions to his wife and children.

34. If a Judge is transferred from one High Court to another, the period he has served in each Court shall count towards his qualification for pension.

35. A Judge appointed under Statute 5 & 6 Geo. 5, cap. 61, sec. 105, to perform the duties of Chief Justice, is not a Chief Justice within the meaning of these Rules as to pension: Provided that, if such Judge be afterwards appointed to be a Chief Justice, the period during which he performed the duties of Chief Justice as aforesaid shall count as service for pension according to the table in Rule 27: Provided also, that the period during which a Judge performs (under Statute 5 & 6 Geo. 5, cap. 61, section 105) the duties of Chief Justice of the High Court at Calcutta shall not count towards pension at a rate exceeding £1,500 a year, unless such Judge is subsequently appointed to the office of Chief Justice of the said High Court at Calcutta.

36. The above Rules shall apply to every Judge now holding office, as well as to those who may be hereafter appointed.

SECTION IV.—EXPENSES FOR EQUIPMENT AND VOYAGE.

37. For the purpose of defraying the expenses of equipment and voyage from Europe on first appointment, there shall be allowed—

To a Chief Justice or Judge of any High Court, £300.

But no such allowance shall be made to any person who, being in India, is appointed to the office of Chief Justice or Judge, or who, having been in India, is in Europe at the time of his appointment with the intention of returning to India.

Examination for Promotion.

Officers of the Indian Army in military employ are required to pass an examination in the rank of Lieutenant for promotion to Captain, and again in the rank of Captain for promotion to Major. The tests are similar to those enjoined for Officers of the British Service, varied as may be necessary to suit the requirements of India.

The Staff College certificate exempts an officer from certain examinations.

Officers are not appointed to the command of regiments until they have obtained a satisfactory report after a course at a senior officers' school.

Leave out of India, for no longer period than one year at a time, capable of extension to two years' absence from duty on British pay of rank plus ration allowance, which amounts at present to:—

Leave in India, for no longer period than one year at a time, capable of extension to two years' absence from duty, on full military pay and half Staff pay of appointment.

Leave, either in or out of India, may be on private affairs or medical certificate, and may in either case be combined with privilege leave due.

No extension of leave involving absence from duty for more than two years, whether taken in or out of India, can be granted except on specially urgent grounds and without pay.

An officer who is prevented by ill-health from returning to duty within the maximum period of two years' absence, will, unless he is specially granted an extension of leave without pay, be placed on the temporary non-effective or the retired list, as the circumstances of the case may require. An officer will also be liable to be placed on the temporary non-effective list or the retired list should his health require an undue amount of leave, whether in or out of India. This power will be exercised by the Government of India, at the instance of the authority empowered to sanction the leave, if the officer be in India, or, if he be at home, by the Secretary of State in Council.

All leave, in or out of India, counts as service for pension.

Leave, whether in or out of India, does not involve forfeiture of appointment, and may be granted at any time, but solely at the discretion of the sanctioning authority, and subject to the conditions laid down in para. 241, Army Regulations, India, Vol. II.

An officer on leave, whether in India or out of India, will be required to rejoin at once on being recalled to duty, unless certified by a Medical Board as unfit to do so.

* In addition to pay of rank.

† Colonels and General Officers receive while on leave in England, pay plus ration allowances admissible to British service officers of corresponding rank. The rates shown are the maxima admissible.

INDIAN ARMY—continued.

These rules do not apply to—

Officers in permanent civil employ.

Officers commanding divisions or brigades or holding other appointments which are governed by special regulations in regard to leave of absence.

UNEMPLOYED PAY.

Officers of the Indian Army vacating their appointments, either by the expiration of the prescribed period of tenure or by attaining the age for vacation, will be granted unemployed pay until retirement or further employment as follows :—

Out of India.—Officers up to and including the rank of Lieutenant-Colonel will receive the rate of half-pay laid down for British Service Officers in Army Order 324 of 1919, as shown below, but an Indian allowance equal to the Indian element in the pension for which the officer has qualified at the time he becomes unemployed is issuable with the half-pay, except when the special rate of full pay for the first six months of unemployment is issuable to a Lieutenant-Colonel. The special rate for the first six months in the case of a Lieutenant-Colonel will only be issuable to an officer of that rank who has held command of an Indian regimental unit, or an equivalent appointment, for a period of four years.

Note.—Colonels who vacate command of an Indian Regimental unit after four years' full-pay service in that appointment will come under the above rule so far as their unemployed pay for the first six months of unemployment is concerned.

A Colonel, except those who become unemployed on vacating command of an Indian unit as provided in the preceding paragraph, will receive the half-pay of rank of a British Service

officer of corresponding rank, as laid down in Army Order 324 of 1919, with an Indian allowance of 200*l.* a year.

General Officers will receive the half-pay of rank of a British Service officer of corresponding rank, as laid down in Army Order 324 of 1919, but without any Indian allowance. But a General Officer definitely selected for further employment will receive an allowance at the rate of 125*l.* per annum in addition to the British half-pay of his rank for a period not exceeding two years, during the first period of unemployment in that rank. If he again becomes unemployed in the same rank, British half-pay only will be issuable, even though the full two years were not completed in the first period of unemployment. In the event of employment being offered to such an officer and refused, the special allowance of 125*l.* per annum referred to above will cease from the date of such refusal and British half-pay only be issued.

In India.—The rates of unemployed pay for officers remaining in India during such unemployment will be the same as those issuable in this country, converted into rupees at the same rates as sterling pensions are converted when the latter are payable in India.

Unemployed pay cannot be drawn for any period exceeding three years, and in no case will time on the unemployed list count as service for pension.

* Colonels and General Officers receive, while on leave in England, pay plus ration allowance admissible to British service officers of corresponding rank. The rates shown are the maxima admissible.

† This amounts to £50 a year after 15 years' service for pension, increasing by £12 10*s.* a year up to 24 years' service, and by £15 a year from 25 years' service up to a maximum of £200 a year after 29 years' service.

The half-pay of combatant Lieutenant-Colonels will be as follows:—

- (a) After four years on full pay as Lieutenant-Colonel—half-pay equal to full pay as a Lieutenant-Colonel for six months (*i.e.*, 47s. 6d. a day) without command pay and without

allowances, and subsequently half-pay at the rate of 23s. 9d. per day.

- (b) In all other circumstances—23s. 9d. per day.

Other Lieutenant-Colonels not specially provided for—23s. 9d. a day.

Conditions of Service on the Temporary Non-effective List.

An officer of the Indian Army or Indian Medical Service placed on the temporary non-effective list on the recommendation of the Medical Board of the India Office will be examined at intervals of not more than two years by the same Board as to his fitness to return to duty, if in the opinion of the Medical Board such periodical examination is necessary, and if still reported unfit after six years on the temporary non-effective list, he will be transferred to the retired list on permanent invalid pension, or on retiring pension if entitled to it. If, after two years on the temporary non-effective list he is reported unfit for duty, or if, at any time, he is reported to be permanently incapacitated for further service in India, he may be permitted to retire forthwith, if he wishes to do so, on permanent invalid pension, or on retiring pension if entitled to it.

Officers not resident in London when ordered to appear before the Medical Board for the periodical examinations above mentioned will, on application, be provided with travelling warrants, and will also be granted travelling allowance (to be claimed afterwards) in accordance with War Office Allowance Regulations, usually 15s. for each night of absence, and 3s. 6d. for a return journey completed in

one day. But an officer who, at other times than the periodical examinations, appears before the Board with a view to restoration to the active list or to being transferred to the retired list will do so at his own expense.

An officer who is unable to appear before the Board when ordered to do so will be required to furnish a certificate to that effect signed by two registered medical practitioners; if he is unable to appear for six years he will be placed on the retired list without further report.

If the removal to the temporary non-effective list is due to medical unfitness caused by duty, time spent on it, up to a maximum of one year, is reckoned as service for pension, and, after restoration to the active list, as service for promotion. An officer cannot be promoted* while on the temporary non-effective list, but if he completes the length of service which, without promotion qualifies for a higher rate of invalid pension, he will receive that rate from the date on which he completed such length of service.

Transfer to the temporary non-effective list involves the vacation of any regimental or other appointment.

An officer on the temporary non-effective list must not leave the United Kingdom without the permission of the India Office.

* Except promotion granted under the temporary provisions of Army Council Instructions, Nos. 644 and 1213 of 1918.

INDIAN ARMY—continued.

Retirement.

OFFICERS APPOINTED TO THE INDIAN ARMY AFTER 1ST JULY, 1881.

The following rules apply only to officers who entered the Indian Army on or after 1st July, 1881, and who rendered satisfactory paid military service during the Great War, or who were in civil employ during the War. The regulations applicable to officers who entered the Indian Army before that date can be ascertained from the Secretary, Military Department, India Office.

Retirement is compulsory at the following ages:—

Lieutenant-Colonels	55
Colonels	57
Major-Generals	62
Lieutenant-Generals	67
Generals	67

but an officer may be retained in the Service beyond these ages in the event of a national emergency. A General Officer who has been unemployed for three years is placed on the retired list, irrespective of his age.

An officer of the Indian Army may apply to retire on pension after 18 years' service, but if he entered the Indian Army after 9th January, 1892, he remains liable to be recalled for service in the event of a national emergency. Officers with less than 18 years' service are not entitled to any pension unless they are invalided on the report of a Medical Board.

In reckoning service for pension all commissioned or warrant service and half-service in ranks below that of warrant officer is included.

For officers of the substantive rank of Lieutenant-Colonel and under, the retired pay will consist of three elements: (a) a Service element, based on the officer's total service, (b) a rank element for the rank from which the officer retires, and (c) an Indian element according to the length of Indian service. In computing the Indian element, a period of service before the date of landing in India for the first time, up to a maximum of five years, may be reckoned.

The scale will be as follows:—

- (a) Service element: £150 a year after 15 years' service, with an increment of £15 for each completed year over 15.

- (b) Rank element:

Rank from which retired.	After completing One Year's Service in the Rank.	After completing each additional Year's Service.	Maximum Rank Element.
Major	12	12	120
Lieut.-Col.	150	30	240

- (c) Indian element: £50 a year after 18 years' service, increasing by £12 10s. a year up to 24 years' service, and by £15 a year from 25 years' service up to a maximum of £200 a year after 29 years' service.

For Colonels, the Service element will be calculated as above, but the rank element will be £200 after one year's service in the rank, increasing annually by £50 to a maximum of £390, with an Indian element of £100. The minimum pension for a Colonel will be £800, even though the officer at the time of retiring has less than one year's service in that rank; and in order to give a reasonable increase for service as Colonel, approval has been given to a minimum pension of £850 a year after one year's service as Colonel, and to the maximum pension of £900 a year after two or more years' service as Colonel.

For General Officers the rank element will be as follows:—

	After completing One Year's Service in the Rank.	After completing each additional Year's Service.	Maximum Rank Element.
Major-General	£ 440	£ 50	£ 540
Lieut.-Gen.	590	50	690
General	740	50	840

The Service element will in no case be less than the difference between the maximum pension of the rank and the maximum rank element irrespective of the length of the officer's service. For General Officers there will be no Indian element. The special service element for General Officers is admissible, even though the officer at the time of retiring has less than one year's service in the rank, and in such a case the officer's pension is not limited to the maximum of the rank below. Subject to these conditions, the officer is to be pensioned as though he had retired in the rank below if he has less than one year's service in his actual rank, and in these circumstances a Major-General would be entitled to the Colonel's Indian element of £100 a year.

(Thus a Major-General who has had three years' service as Colonel, and who retires with less than one year as Major-General, would be entitled to a pension of £950 a year.)

The minimum pension for a Major-General will be £900 a year with less than one year's service in the rank; £950 a year after one year's service as Major-General. The maximum of £1,000 a year will be admissible after two or more years' service as Major-General.

INDIAN ARMY—continued.

RETIREMENT—continued.

A Lieutenant-General who had three years' service as Major-General would be qualified for a pension of £1,050 if retiring within one year after promotion to Lieutenant-General; £1,100 after one year's service in the rank; £1,150 after two years; and £1,200 after three or more years' service in the rank.

Similarly, a full General, who had three years' service as Lieutenant-General would be qualified for £1,250 a year if retiring within one year after promotion to General; £1,300 after one year's service in the rank; £1,350 after two years; and £1,400 after three or more years' service in the rank. The maximum and minimum pensions for General Officers will thus be as follows:—

	Minimum.	Maximum.
Major-General	£900	£1,000
Lieutenant-General	1,000	1,200
General	1,200	1,400

An additional pension of £200 a year will be granted to military officers on the supernumerary list who have rendered approved ser-

vice for at least three years (including continuous officiating service) in civil posts which now carry a pay of Rs. 4,000 a month or more; and an additional pension of £100 a year subject to the same conditions where the post held now carries a pay of Rs. 3,000 to Rs. 4,000 a month. The total pensions admissible in such cases will be subject to maxima of £1,000 and £900 a year respectively.

These rates of pension are subject to alteration, either upwards or downwards after 1st July, 1924.

INVALIDING.

Officers invalided from the Service with less than 18 years' service on account of disability attributable to or aggravated by service in the Great War, will be granted pension at the rates laid down in the Royal Warrant of 2nd July, 1920, with an additional Indian element, and an additional disability pension according to the degree of their disablement, as follows:—

	2 to 5	70	20

Officers retiring with the permanent rank of Major may be granted an addition of 1*l.* a year for each year's service in that rank.

These rates of invalid pension are liable to alteration after 1st April, 1923, according as the cost of living rises or falls.

The claims to pension of the widows and families of officers of the Indian Army are treated under the provisions of such Royal Warrant regulating the grant of pension to the widows and families of officers of His Majesty's British Forces, as may be in force for the time being.

The following are the rates of ordinary pension:—

while, in addition, in cases of pecuniary need, an education allowance may be granted by the Secretary of State to each child, not exceeding £35 a year, commencing at the age of 8 years (details to be obtained from the Military Department of the India Office). In such cases, furthermore, pensions may be granted to dependants of deceased officers, if they left neither widow nor children.

If the officer was killed in action or dies of wounds received in action (within 7 years of being wounded), a gratuity in addition to pension may be granted to his widow.

Widows and children are also entitled to pensions under the Regulations of either the Indian Military Service Family Pension Fund or the Indian Military Widows' and Orphans' Fund. Under one or other of these sets of Regulations all officers, according to the date of their entering the Service, must subscribe as a condition of their appointment to the Indian Army. The regulations will be found on page 340 *et seq.*

the above limits. A diminished pension cannot be granted of a lower amount than £10. This modification of the old rule has effect from 18th February, 1890.

MILITARY (LATE LORD CLIVE'S) FUND—continued.

4. The pension of a widow may be withheld or discontinued should her conduct be such as to render her, in the opinion of the Secretary of State, unworthy of it.

5. The pension is liable to be discontinued or reduced if at any time after the officer's death his widow receives any accession of property or income.

6. Pensions lapse on re-marriage and are not restored on a second widowhood.

7. Pensioners neglecting to claim the pension for three half-years will be considered as dead; and no arrears for a longer period than two years back from the date of application for admission or re-admission, as the case may be, will be allowed either to claimants or to pensioners after admission.

8. The widows of officers formerly of the Indian service, who have joined the British army, are permitted to make their choice between these pensions and Royal Warrant pensions.

9. *The widows of officers who have retired from the service are not eligible for the benefit of these pensions.**

10. The widows of officers who at the time of their death were pensioners on the Military (late Lord Clive's) Fund, are entitled to the benefits of the Fund provided they were married to their husbands prior to the latter becoming pensioners on the Fund.

11. The pensions are payable quarterly, on the 1st January, 1st April, 1st July, and 1st October.

12. In the event of any question arising concerning the qualifications of widows claiming these pensions, the decision rests with the Secretary of State in Council.

INDIAN MEDICAL SERVICE.

Memorandum regarding the position of officers appointed to His Majesty's Indian Medical Service.

1. This memorandum is based on the regulations in force at the present time. They are subject to any alterations that may be determined on.

PASSAGE TO INDIA.

2. Officers on appointment are, when possible, provided with passage to India by troop transport; when such accommodation is not available, passage at the public expense is provided by private steamer, or a passage allowance is granted, if preferred. The wives of officers who are married prior to the date of the officer's appointment to the Indian Medical Service will also be provided with passage to India at the public expense under the same conditions as those applicable to the officers themselves.

3. Any officer who may neglect or refuse to proceed to India if ordered to do so within two months from the date of terminating his course of instruction, or within two months of the date of his appointment if not required to undergo a course of instruction in the United Kingdom, will be considered as having forfeited his commission, unless special circumstances shall, in the opinion of the Secretary of State in Council, justify a departure from this regulation.

During the course of their service, officers of the Indian Medical Service in military employ are entitled to passage from India to the United Kingdom and back whenever they are granted sick leave by a medical board in India. If married, their wives will also be granted passage to and from India to accompany them.

When the families themselves are, upon the recommendation of a medical board in India, invalidated home for the preservation of life, they may also be granted free passage under the conditions of para. 72, A.R.I. Vol. X, but families will not in either case be provided with free passage, if, during the preceding five years they have received free passage in any circumstances.

PAY PREVIOUS TO ARRIVAL IN INDIA.

4. Up to the date of arrival in India newly appointed officers will draw pay at the leave rates set forth on page 328. Pay will accrue from the date of the letter of appointment.

(For rates subsequent to their landing in India, see para. 17 on page 334.)

Pay under the regulations referred to above is issued in this country up to the date of embarkation, and an advance of two months' pay at the same rate is also made before embarkation, if required. This advance will be recoverable from the officer's pay in India.

* Except in the case of the widows of General Officers compulsorily retired under the provisions of the Royal Warrants of 31st December, 1877, and 1st May, 1878.

If he again becomes unemployed in the same rank, this allowance will not be issuable.

In the case of officers remaining in India during such unemployment, the above rates will be converted into rupees at the same rates as sterling pensions are converted when the latter are payable in India.

and is payable on the 16th of each calendar month. The sum payable each month is approximately one-third of the quarterly sum, but only complete pounds are issued, the balance being made up at the end of each quarter.

REGULATIONS FOR THE COMMUTATION OF PENSIONS OF OFFICERS OF THE INDIAN SERVICE.

1. These Regulations are applicable only to officers retired on or after the 1st July, 1881, and who are in receipt of service pensions, or permanent wound, injury or disability pensions.

2. An officer may be allowed to commute a portion, not exceeding one-third, of his pension or pensions, provided that the amount left uncommuted is not less than £150 a year. An exception to this limit may be made in cases where the total amount of pension or pensions of an officer is less than £180 a year, in which cases pension not exceeding £30 may be commuted, provided that not less than £120 a year remains uncommuted.

3. In the case of service pensions, commutation may take place on retirement, or at any time subsequent thereto.

4. An officer who is still serving may commute such portion of his wound pension as is admissible under Rule 2, the amount of pension (or invalid pension) being calculated at the rate appropriate to his rank and length of service at the time of making application to commute.

5. An officer in Europe desirous of commuting must make application, in writing, to the Under Secretary of State for India, stating his desire so to commute, and furnishing information as to his age, rank, and the amount of his pension or pensions.

6. If the Secretary of State for India in Council shall approve the commutation, the officer will be so informed, and his application will be referred to the Medical Board at the India Office.

7. The Board will require the officer to give such information as to his health and habits as is usual in the case of persons proposing to assure their lives in assurance companies, and he will be required to submit himself for personal examination by the Board at the India Office.

8. An officer in India desirous of commuting must address the authorities in that country. He will be required to follow a similar procedure. He may appear before a Medical Board at any station in India that may be convenient, such Board being assembled under the orders of the Local Government and presided over (where practicable) by the Chief Civil Medical Administrative Officer of the Province.

An Officer residing in a Colony and desirous of commuting will be required to follow a procedure similar to that in the case of an officer residing in Europe except that he will apply to the Under Secretary of State for India through the official from whom he draws his pension. If the application is approved the officer will be informed accordingly, and a special civil medical board will be assembled under the orders of the Local Colonial Government.

The Medical Board will report in the following form:—

"We have carefully examined and are of opinion that he is (or is not) in good bodily health, and has (or has not) the prospect of an average duration of life. We therefore (or do not) recommend compliance with his application to be allowed to capitalise a portion of his pension."

COMMUTATION OF PENSIONS—continued.

In the case of impaired lives in which compliance with the officer's application is recommended, but with an addition of years of age, the following should be added:—"but as he is suffering his age for purposes of commutation should be taken to be years."

9. The basis of commutation, subject to an addition of years of age in the case of impaired lives, shall be the following table, the age of the officer being reckoned at the age he will attain on the birthday next succeeding the date upon which the capitalised sum will become payable—

These rates will be applicable to all applications for commutations received after 29th July, 1920.

NOTE.—In order to ensure payment at the rate shown for any specified age, it is essential that the application to commute should reach the India Office at least one month before the date on which the applicant will attain that age.

10. The commutation having been sanctioned by the Government of India in cases in which the applicant is residing there and by the Secretary of State in all other cases, the applicant will be informed accordingly, and will have the option of withdrawing his application within one week after receiving notice.

11. If the applicant shall not withdraw his application within that period, the decision will be considered final, and the commutation of pension will take place absolutely.

12. The capitalised sum will be payable in India if the commutation is effected there; in all other cases it will be payable in England. When commutation is effected in India by

officers residing temporarily in that country the commutation will be on the basis of the current rate of exchange, the rate adopted for this purpose by the Secretary of State being the rate of exchange for telegraphic transfers from Calcutta on London on the 20th of the month preceding that in which the capitalised sum is paid. Payment will be made at the expiration of one week from the date of the commutation being sanctioned. In each case the officer's pension will be issued in full up to the date of payment unless any delay has been caused by the officer's own fault or that of his agents. When the capitalised value of a commuted pension becomes payable under regulation on a Sunday or on an authorised holiday, payment shall be made on the last business day preceding the Sunday or holiday and the payment of the commuted portion of the pension will cease from the same date.

COMMUTATION OF PENSIONS—*continued.*

13. In any case in which a pensioner shall accept public employment involving the withholding of pension, a deduction will be made from the salary payable to him equal to the amount which would have been abated from the pension if it had not been commuted, and, in the event of his becoming entitled to a pension in

respect of such employment, the amount of such pension granted to him shall not exceed the amount which he might have received had his pension not been so commuted.

THE INDIAN MILITARY SERVICE FAMILY PENSION REGULATIONS.

SELECTIONS FROM THE REGULATIONS FOR THE PROVISION OF PENSIONS FOR THE WIDOWS AND ORPHANS OF MILITARY, MEDICAL, MARINE, AND ECCLESIASTICAL OFFICERS IN THE SERVICE OF THE GOVERNMENT OF INDIA.

[Established 1st January, 1873, closed to future entrants, 31st December, 1914. See page 343 for Regulations of the Indian Military Widows' and Orphans' Fund, established 1st January, 1915.]

The Secretary of State for India in Council has reserved to himself the absolute right to regulate from time to time the contributions to be required from officers, under these regulations, and to make any alterations in the regulations themselves that may appear to him equitable, provided always that the scale of pensions fixed thereby shall not be reduced in the case of actual incumbents.

1. Pensions will be provided under these regulations for the widows and orphans of the following officers on the Indian Establishment, not being entitled to the benefits of any of the late Military and Medical Funds:—

Officers of the Indian Army.*

Officers of the Indian Medical Service, including Indians who avail themselves of the option given to them of becoming subscribers.

Chaplains.

3. Every officer who enters the service on and after the 1st January, 1873, and up to and including the 31st December, 1914, must, as a condition of his appointment, provide pensions for his family under these regulations.

5. For the purposes of these regulations officers are classed as follows (for Marine officers see 5b):—

Class I.—Lieutenant-Colonels in receipt of Colonels' allowances and Major-Generals. (See Article 9).

No Officer of the Indian Medical Service will be compelled to subscribe in Classes II or III who has not attained the rank of Lieutenant-Colonel or Major as the case may be. In all such cases the subscriber must elect, within three months of the date of completing the qualifying service, whether he will (i) subscribe in the Class in which his length of service places him, or (ii) continue to subscribe in the lower Class. If he elects (i) he will be charged the donation and increased subscription from the date of completing the prescribed service; if (ii) he will, in the event of subsequent promotion, be charged the donation and increased subscription from the date of such promotion.

An Officer cannot enter a higher Class unless he has previously subscribed in the Class immediately below it.

The Archdeacons of Rangoon, Lucknow, and Nagpur, who receive no archidiaconal allowance, have the option of subscribing either in Class II or Class III, but the option must be exercised within three months of the date of appointment.

5A. Royal Artillery and Royal Engineer officers who have been selected, or who have elected, for continuous service in India have the option of subscribing under these regulations, in accordance with special conditions which are laid down in the Regulations.

Royal Engineer officers under the 1904 conditions of service must elect within three months of their arrival in India, whether they desire to subscribe for benefits under these Regulations, and they must submit a satisfactory medical certificate. On payment of the prescribed donations, according to their class at the time of their application, they will be allowed to subscribe for so long as they remain on the Indian Establishment. On reversion to the Imperial Establishment, such officers cannot continue subscribers. In the event of an officer retiring on a pension awarded under Indian Army Regulations, he may continue to subscribe or he may withdraw. On reversion to the Imperial Establishment, or on withdrawal, married officers and widows with children are entitled to the refunds as prescribed in Article 28 for retired officers, but no refund will be made in respect of unmarried subscriptions or of risks which have terminated by death or otherwise.

option of subscribing under these regulations from that date. Those who elected to do so will not be permitted to discontinue their subscription so long as they remain in the service, neither will those who declined to subscribe be allowed at any future time to become subscribers.

An officer who has elected to subscribe in a superior class will not subsequently be allowed to revert to a lower class.

6. The pensions provided under these regulations are paid as laid down in Article 6, page 345.

7. The amounts of the pensions provided are as laid down in Articles 7 and 7A, page 345.

Contributions.

9. The contributions for pensions under these Regulations, and the pensions of widows, will be regulated by the class of the contributing officer. An officer cannot secure a higher pension for his widow by contributing as if he belonged to a higher class.

As an exception to this rule, the option of subscribing in Class I is allowed as follows:—

- (i) To an officer of the Indian Army, also to an officer of the Royal Artillery or Royal Engineers who is a subscriber under these Regulations, at the time of completing 20 years' service on full pay from date of first commission, including any period spent on "unemployed pay," provided he has previously subscribed in Class II.

12. Donations payable under Tables V, VI and VIII become due from the date on which the liability is incurred, namely, in the case of those under Tables V and VI when a subscriber

* See Articles 20 and 21.

INDIAN MILITARY WIDOWS' AND ORPHANS' FUND—continued.

enters the service of the Government of India married or when he marries, or re-marries, and in the case of those under Table VIII when the subscriber is admitted to the Fund. These donations may be paid without interest in one sum within one month from the date of becoming due; or they may be paid in twelve equal monthly instalments, interest on the unpaid portion being levied at the rate of $5\frac{1}{2}$ per cent. per annum. The balance of any donation outstanding at the date of a subscriber's death will be recovered in accordance with Article 13.

13. Interest at the rate of $5\frac{1}{2}$ per cent. per annum will be levied on arrears. The balance of any contribution outstanding at the date of a subscriber's death will be recovered rateably without further interest from the pensions of his widow and orphans in twelve monthly instalments.

*Reports of Marriages, Births, and Deaths.**

14. An officer who is married at the date of his admission into the service must report the fact of his marriage at the time, and the names and dates of birth of his children, if any have been born to him. A member in the service must report his marriage, or the birth of a child born in wedlock, or the death of a wife or child within one month of the occurrence.

15. The birth of every child born alive must be reported; but if a child dies before it is 30 days old, no payment in respect of it will be required. If the report of birth be not made within one month, a fine of 10s. will be imposed, and an additional 2s. will be charged for each succeeding month's delay. After 12 months' delay, medical evidence as to the state of the member's health must be furnished, in order that it may be determined whether and, if so, on what terms, liability for orphan's pension should be accepted.

16. If the report of a marriage be not made within one month, any donation which may be payable under Tables V and VI will be increased 2½ per cent. and interest thereon charged from the date of marriage. After six months' delay donations will be increased to 5 per cent. and interest charged as above. Should no donation be payable under Tables V and VI, a fine of 10s. will be imposed if the report is not made within one month of the marriage, and an additional 2s. will be charged for each succeeding month's delay. In either case, after 12 months' delay, medical evidence as to the state of the subscriber's health must be furnished in order that it may be determined whether and, if so, on what terms, liability for widow's pension shall be accepted.

17. In the event of the report of a marriage or the birth of a child not being made by a subscriber during his lifetime, in accordance with

the rules, the widow or child will not be entitled to any benefits.

The absence of report, however, from an officer who dies between the date of his admission to the Indian Army and the date of the *Gazette of India* announcing it would not invalidate his widow's or child's claim to pension or involve the additional payments prescribed in Article 16.

Note.—The provisions of Articles 16 and 17 are not to be read as implying an option of omitting or postponing any report that a subscriber is required to make under these regulations. Intentional neglect to report is a breach of discipline.

Posthumous Child.

18. Provided the birth of a posthumous child is reported within one month and the contribution required by the regulations has been or was being paid for the father's youngest child, if any, living at the time of his death, a pension will be granted to the child without any payment if the child is born of a marriage in respect of which the prescribed payments have been made. The report must be made in a specified Form, and a certificate of the child's birth furnished.

Duration of Pensions.

19. If a widow re-marry, her pension will cease during coverture; but if she again become a widow she will be entitled to revert to her pension as widow of her first husband, or if her last husband have been a contributor, to receive a pension at her option as the widow of her last husband. A widow can only receive one pension.

20. The pension of a male orphan is payable until he attains the age of 21 years.

21. Subscribers can make special provision for pension to sons under the age of 21 years who may become permanently incapacitated from earning a livelihood.

The pensions so provided for will commence at the age of 21, if the son be then fatherless, or after that age on his becoming fatherless, and as regards the amount of such pensions and the subscriptions to be paid to secure them each case will be considered and determined on its merits.

22. The mother or guardian of a male orphan who has attained the age of 16 may, with the sanction of the Secretary of State for India in Council, at any time thereafter have the residue of his pension commuted into a single payment, for the due application of which the mother or guardian will be held responsible. When the pension is being drawn in India from a Government Treasury there, it will rest with the Government of India to give the required sanction. The following table gives the commuted value of such pensions:—

INDIAN MILITARY WIDOWS' AND ORPHANS' FUND—continued.

23. The pension of a female orphan continues until her marriage, and then ceases absolutely. It does not revive on widowhood.

Good Conduct.

24. The pensions provided under these Regulations shall, in all cases, be held during good behaviour only, and will be withheld if any pensioner is found to be leading an immoral life, or on proof of any gross misconduct. In any such case the order of the Secretary of State for India in Council or, when the pension is being drawn in India from a Government Treasury there, the order of the Government of India shall be final and conclusive.

Alienation of Pension.

25. A pension paid under these Regulations may not be transferred or assigned or in any way alienated from the pensioner to whom or for whose benefit it is payable.

Passage Money.

26. An officer may, by a special contribution, provide passage money from India for his widow and orphans. The amount so secured will be paid to the widow, or to any children of the deceased officer, for the provision of their passage money and contingent expenses.

If, however, the surviving members of the deceased officer's family are not in India, or do not wish to leave India for any other country, the money will be credited to the deceased officer's estate, and payment can be made in India in rupees, or in England at the market rate of exchange, according to the election of the person or persons entitled to receive the money. The amount secured must not exceed Rs. 3,000, and a health certificate must in every case be furnished by the subscriber.

27. This insurance may be effected by an immediate payment in one sum, or, if the subscriber so desires it, by instalments extending over four years subject to interest on arrears at the rate of 5½ per cent. per annum, and in the event of a subscriber dying before completion of the payment, the balance due at the date of his death will be deducted from the sum assured.

28. On the permanent departure of a subscriber from India with his family, or at any time thereafter, he may take the surrender value of the insurance effected under Article 26.

29. The following are the tables of premia and of surrender values referred to in Articles 26, 27 and 28:—

Officers transferred to the British Army and Officers who resign.

30. Officers who may be transferred from the Indian Army to the British Army, officers of the Indian Medical Service who may be transferred to the Royal Army Medical Corps, officers of the Royal Artillery and the Royal Engineers who revert to the Imperial Establishment, officers permanently transferred after 1st December, 1920, to the Royal Air Force, and officers who resign the Service, will be entitled, if married and with or without children, or on account of their children, if widowers, to receive back such portion of their contributions, if any, as may be in excess of the risk borne during their membership, but no refund will be made in respect of unmarried subscriptions, nor for risks that have terminated by death or otherwise. None of the above officers can continue subscribers.

As an exception to this rule, an officer who is granted a compassionate allowance on resigning the Service may continue to subscribe at the half rate of subscription.

Officers on the Temporary Non-effective List.

31. Married officers on the temporary non-effective list must continue to subscribe for full benefits, but while in receipt of temporary invalid pension, they will have the option of paying only half rates for their wives. In the latter case they will, on retirement, or reversion to full-pay, be required to pay arrears, with interest; and, in the event of the death of a subscriber while on the temporary non-effective list, or before the arrears have been paid, the amount due will be recovered from the pension granted to the widow. Unmarried officers must continue to subscribe at the half-rate of subscription.*

Retired Officers.

32. All officers, whether married or unmarried, who retire from the Service must continue to subscribe, paying the half-rate of subscription according to their class at the date of retirement. For children the full rate of subscription will be payable.

Any donation for which a retired officer may become liable will be payable at the full rates laid down in Article 11.

Refunds on Account of Deceased Unmarried Subscribers.

33. The whole of the subscription which has been paid by an officer who has remained unmarried up to the date of his death will be refunded, without interest, to his estate.

In the case of an officer who at his death was subscribing as a widower without surviving children eligible for pension, the subscriptions paid by him for the period during which he so subscribed, excluding any such period prior to a re-marriage, will be refunded, without interest, to his estate.

Dismissed Officers.

34. An officer who is dismissed the Service by sentence of a court-martial, or by other competent authority, will cease, *ipso facto*, to be a contributor to this Fund, and will have no claim to any refund. His family will not be entitled to any pensions from this Fund.

Declarations.

35. Declarations as to continued widowhood and the survival of children must be furnished to the Accountant-General, India Office, or to the proper officer in India.

Officers of the Royal Artillery and Royal Engineers.

Royal Artillery officers who have been selected and Royal Engineer officers who have elected, for continuous service in India, have the option of subscribing under these regulations in accordance with special conditions which are laid down in the Regulations.

Reports and applications under these Regulations should be made:—

1. To the Controller of Military Accounts, Calcutta, when the subscriber is drawing pay or pension in India or at a colonial station (including China) where a unit of the Indian Army is stationed.

2. To the Controller of Pension Funds, India Office, Whitehall, London, S. W. 1, if the subscriber is drawing his pay or pension elsewhere than above, or if the subscriber, after receiving in India or at a colonial station in advance the pay for the privilege leave portion of combined leave, proposes to draw his furlough pay elsewhere.

A complete copy of the rules can be obtained on application to the Controller of Pension Funds, India Office.

INDIA OFFICE,
March, 1922.

* This regulation applies only to officers and engineers of the Royal Indian Marine who are temporarily transferred to the Retired List.

DEPARTMENTAL OFFICERS WITH COMMISSIONED RANK, WARRANT OFFICERS OF DEPARTMENTS, AND ASSISTANT SURGEONS, INDIAN MEDICAL DEPARTMENT.

The grades and ranks of Commissioned Officers of Departments in India, as amended by Royal Warrants dated 2nd January, 1904, and 21st September, 1917, are as follows :—

<i>Grades.</i>	<i>Commissioned Rank.</i>
Commissary Major.
Deputy Commissary Captain.
Assistant Commissary Lieutenant.

Leave Rules.

A departmental officer with commissioned rank, warrant officer, senior assistant-surgeon, or assistant-surgeon, Indian Medical Department, subject to these rules may be granted—

- (a) Privilege leave under such regulations as may from time to time be in force.
- (b) Leave in or out of India for one year, capable of extension to two years' absence from duty on leave pay at the sterling rates admissible under the Royal Warrant to individuals of the same rank in the British Service under similar conditions, Assistant-Surgeons, 4th Class, being regarded for this purpose as staff sergeants. The rates for departmental Officers will be those in force for quarter-masters of the same length of commissioned service irrespective of rank.

Leave may be granted at any time at the discretion of the sanctioning authority.

Leave in or out of India in excess of one year cannot be claimed as a right, but extensions up to two years' absence from duty may be granted on medical certificate or on urgent grounds, at the discretion of the sanctioning authority. Extensions beyond two years' absence from duty will only be admissible in very special cases, and without pay.

A departmental officer with commissioned rank, warrant officer, senior assistant-surgeon, or an assistant-surgeon, Indian Medical Department, unable on account of ill-health to return to his duty within the maximum period of two years' absence will, unless specially granted leave without pay, be placed on temporary half-pay, or on the retired list, according to the circumstances of his case. An undue amount of leave, whether in or out of India, on account of ill-health will likewise render an officer liable to be transferred to half-pay or to the retired list, and the power of such transfer will be exercised by the Government of the Presidency or the Secretary of State for India, as the case may be.

Combined Leave.

Combined leave is admissible to departmental officers with commissioned rank, and warrant officers including members of the Assistant Surgeon Branch of the Indian Medical Department, under rules similar to those governing the grant of combined leave to commissioned officers. During such leave they receive full emoluments for the period which is on privilege leave, and for the remaining period the ordinary leave pay as detailed above.

Pension Regulations.

1. All Departmental Officers with commissioned rank, or Warrant Officers, of combatant departments, on the Establishment on 16th Sept., 1881, are allowed the option of electing the old or the new scale of pensions at any time previous to retirement, and are permitted, on one occasion only after retirement, the privilege of reconsidering their past decision on this point.

2. The periods of service entitling Departmental Officers with commissioned rank, or

Warrant Officers of Indian Army Departments, to retiring pensions are as follows :—

- 24 years' total service, including 16 years in the department.
- 26 years' total service, including 14 years in the department.
- 28 years' total service, including 12 years in the department.

3. The minimum rate of pension for each rank may be granted after 24 years' service, provided

8. A Sub-Conductor invalided from the service at 50 years of age will receive a pension of £75* a year in Europe or a colony, or Rs. 75 in India.

9. Retirement is compulsory for all classes at the age of 55 years.

11. Pensions are admissible to the widow and children of a Departmental Officer with commissioned rank, senior assistant surgeon and

a Departmental Warrant Officer who may die, either while in the service or on the Pension establishment, provided, in the latter case, that she married the deceased previously to his retiring from the army or being invalided.

REPORTS OF CASUALTIES AMONG OFFICERS SERVING IN INDIA.

A telegraphic report is immediately sent from India on the death of any officer serving in that country. In the case of officers of the British Service, the report is sent to the War Office; in

the case of officers of the Indian Army, the report is made to the India Office. The next-of-kin in this country is communicated with by the Department which receives the report.

ENQUIRIES REGARDING OFFICERS AND MEN KILLED, WOUNDED, OR SICK IN INDIA.

The following arrangements have been made with the Government of India with a view to securing early information for the relatives and friends of British officers and men killed or wounded in India:—

The Government of India will—

- (1) Telegraph, as promptly as possible, the names of officers and men killed or wounded in action, or in the performance of duty, or of those who may become seriously or dangerously ill, and will furnish weekly progress reports on dangerous cases.
- (2) Specify as to wounds whether they are dangerous, severe, or slight.
- (3) Telegraph the names of any officers or men who may die of wounds.
- (4) During a campaign, telegraph weekly a brief report of the condition of the wounded generally, specifying the names of any who may not be progressing favourably.

The Government of India will also telegraph the names of any officers who may be severely wounded by fanatics or others.

Special arrangements have been made with regard to the reporting of casualties to British, and officers of the various Expeditionary Forces.

"Indulgence" Passages to and from India.

Military officers, and officers of the Royal Indian Marine, Chaplains of the Ecclesiastical Establishment and their families, are eligible for the grant of "Not-Entitled" passages in government hired transports, when proceeding on or returning from furlough, provided there is vacant accommodation.

Should such passages be granted, the actual cost of the messing* on board will be charged, and is payable before embarkation.

Allotment takes place generally in the order of juniority of rank of the officers who desire passages for themselves or for members of their families.

Passages cannot be allotted until within a few days of the date of the sailing of the vessel, nor can any definite information be given beforehand of the likelihood of passages being allotted.

Applications from officers of the Indian Service for "Not-Entitled" passages to India should be addressed to the Secretary, Military Department, India Office. Officers of the British Service should address the War Office. Applications for passages from India should be made through the usual channels.

Leave.

Subject to the exigencies of the Service, officers of the Royal Indian Marine may be granted:—

- (1) Privilege leave, on full pay, for 60 days in each year, which may be taken in instalments.
- (2) Leave in or out of India, at the discretion of the authorities, for not more than one year, which, however, may subsequently be extended up to two years.

Leave out of India, not exceeding eight months, is allowed to the Director and Deputy Director of the Royal Indian Marine once during their five years' tenure of office with absentee allowance as follows, and subject in the case of the Director to a maximum of £1,332 and a minimum of £250 per annum, and in the case of the Deputy Director, to a maximum of £1,200 per annum:—

Temporary Retirement.

Officers of the Royal Indian Marine, who, after exhausting the furlough admissible to them are unfit for service, but not irremediably broken in health, may be temporarily transferred to the retired list. Temporary retirement is subject to

the condition that the disease which necessitates it must have been contracted in and by the service.

1. An officer granted temporary retirement will be permitted to remain in that position till his

TEMPORARY RETIREMENT—continued.

total continuous absence from duty on furlough and temporary retirement together amounts to four years. If then still unfit to return to duty, he must be placed on the permanent retired list, receiving the pension (if any) or gratuity for which he had qualified at the time of being granted temporary retirement.

II. No period spent on temporary retirement will count as service for pension, nor will an officer be eligible for promotion while he is in that position. An officer replaced on the effective list, on becoming fit to return to duty, will be restored to the rank from which he retired, and his name will be placed in the same numerical position in that rank which it occupied at the time of temporary retirement. When he returns to duty, the date of his arrival in India will be reckoned as that of his restoration to the active list.

III. Officers will be required to appear before a Medical Board at the expiration of one year on temporary retirement, and again, if retained in that position, before the end of the second year; and those who, in view to being restored to the effective list, may wish to appear before the Board at other times than those specified, may be permitted to do so. Officers ordered periodically to appear before the Board will be allowed, in the United Kingdom, their *bona fide* travelling expenses, and lodging allowance at the rates admissible under rule, but those appearing at other times, and at their own wish, must do so at their own expense.

IV. The rate of pension admissible to an officer during temporary retirement will be the same as that to which he would be entitled if permanently retired.

Pension Regulations.

1885 RULES, WITH SUBSEQUENT ALTERATIONS.

(The rates of pension are under revision.)

I. The service for pension of an officer of the Royal Indian Marine reckons from the date of his arrival in India if his appointment was confirmed in England, and from the date of joining for duty if it was made subject to a report of fitness by a medical board in India, provided that in either case he had attained the age of 19 on the date mentioned, otherwise his service reckons from the date on which he attained that age.

II. A superannuation pension or an invalid pension granted on account of incapacity for further service due to old age or natural decay from advancing years, shall, if the officer's qualifying service began after he attained the age of 30 years be reduced by one-fortieth for every year or part of a year by which his age

at the commencement of his qualifying service exceeded 30 years.

III. Retirement at the age of 55 years will be compulsory. But an officer holding the appointment of Director or Deputy Director, Royal Indian Marine who attains that age during his incumbency, may, with the approval of the Government of India, complete five years in the appointment. The amount of superannuation pension is that admissible as an invalid pension. [This rule will not be applicable to those officers who have already received special extension of tenure.]

The retirement of Royal Indian Marine Officers while on furlough or on leave in England will be carried out by the Secretary of State.

PENSION REGULATIONS—continued.

Note.—Retired officers of the Royal Indian Marine residing in India will have the above sterling rates of pensions converted into Indian currency at the official rate of exchange.

PENSION REGULATIONS—continued.

V. The following extra pension will be granted to an officer of the Royal Indian Marine if retired as Director or Deputy-Director:—

	Per annum.
	£
After five years' service as Director (including not more than eight months' absence on leave) ...	175
After five years' service as Deputy Director	88
After five years' service, partly as Deputy Director and partly as Director, of which not less than two years have been as Director	131

VI. Service in the Marine Survey, or in port or shore appointments, gives no claim to any higher pension than that fixed for an officer's rank in the Marine.

VII. The pensions of warrant officers will be calculated under the Civil Service Regulations, Rs. 60 per mensem (compensation in lieu of board and lodging) being added to their pay for the calculation of pension. This also applies in the case of gunners holding the appointments of master-rigger, Bombay Dockyard, boatswain, Kidderpore Dockyard, and the gunner in charge of arsenal's stores, Bombay Dockyard.

VIII. Pensions will be payable in rupees in India. If paid in any other country, the rules laid down in the Regulations will apply.

IX. An officer may be allowed to commute a portion, not exceeding one-third, of his pension, the commuted value being payable under rules which are identical with those for Military Officers (*see page 338*).

X. Compassionate allowance on the following scale are admissible to the families of officers killed in the execution of duty:—

	Widow.	Child.
Captain or Commander ...	£100 a year, or Rs. 100 a month.	£20 a year, or Rs. 20 a month.
Port Officer		
Engineer-Commander ...	£75 a year, or Rs. 75 a month.	£15 a year, or Rs. 15 a month.
Lieut.-Commander and Lieutenant		
Engineer-Lieut.-Commander and Engineer-Lieutenant	£50 a year, or Rs. 50 a month.	£10 a year, or Rs. 10 a month.
Sub-Lieutenant		
Engineer-Sub-Lieutenant		

The cases of the families of the Director or Deputy Director will be specially considered.

Subject to the approval of the Secretary of State, a compassionate allowance not exceeding in the aggregate the rate shown in the above table for a widow may be granted to the mother or sister of an officer who may be drowned, or meet with a violent death, in the execution of his duty, and who does not leave a widow or

child. To be eligible for such a compassionate allowance it must be shown that the mother or sisters were dependent on the officer, and are in distressed circumstances.

XI. The regulations and conditions under which all such compassionate allowances are to be awarded will be analogous to those prescribed for the military service.

INDIA.

The following article is compiled principally from the 'Imperial Gazetteer of India,' New Edition; the statistics have been brought up to date as far as possible.

In the following pages exchange is calculated at the rate of 15 rupees to the pound sterling, with the exception of the trade figures in the sections on Trade and Manufactures and Foreign Trade (pp. 429-431), which are converted at the rate of 10 rupees to the pound sterling.

Physical Features of India.—By India is meant not merely that great triangular peninsula, the base of which rests upon the Himalayan ranges and the sides of which are washed by the Arabian Sea on the west and the Bay of Bengal on the east, but also the vast entourage of mountainous plateaux across which, through all historic ages, its land approaches have been found. Physically, economically, and politically, the India of to-day is held to include those outlying territories over which Indian administration extends its control, even to the eastern and southern limits of Persia, Russia, Tibet and China.

Two great Divisions.—There are two great divisions of India—first, the extra-peninsular area of highland and lowland; second, the true peninsula. The former includes the more recently elevated plains and peaks of Baluchistan, Afghanistan, Kashmir, the Himalayas, and Burma; the latter, which includes the great depression of the Indo-Gangetic plain, is the ancient India of the dim geological past—the India of old-world fable and of English history.

Physical Aspects.—The continent of India extends from the eighth degree to the thirty-seventh degree of north latitude, that is to say, from the equatorial regions to within the temperate zone. It presents extraordinary variety in its physical aspects. In the north rise magnificent mountains bound by snowfield and glacier in eternal solitude. At their feet lie smooth wide spaces of depressed river-basins, either sandy, dry, and sun-scorched, or cultivated and water-logged under a steamy moisture-laden atmosphere. To the south spreads a great central plateau, where indigenous forest still hides the scattered clans of aboriginal tribes, flanked on the west by the broken crags and castellated outlines of the ridges overlooking the Indian Ocean, and on the south by gentle, smooth, rounded slopes of green upland.

Dimensions and Area.—Roughly speaking, the length from north to south is equal to the greatest breadth, about 1,900 miles. According to the revised areas adopted in the census of 1911, the Indian Empire contains 1,802,657 square miles of country, and is therefore greater by 40,000 square miles than the whole of Europe, excluding Russia.

The census of 1911 included within its scope, besides the agencies and tribal areas of the North-West Frontier Province, the whole of Baluchistan and several remote tracts in Burma that had not previously been dealt with; but the area covered by the census was still considerably less than the total area of the Empire, some 31,000 square miles of unadministered territory in Burma being excluded.

Sulaiman and Kirthar Mountains.—Westwards from the Indus Valley plains, and facing

the Aravalli Mountains, the Sulaiman Mountains shut off North Baluchistan from the Punjab. Stretching southwards from these the Kirthar range, dividing Sind from Baluchistan, presents for hundreds of miles to the Karachi frontier impassable walls of great natural strength. At points transverse lines of drainage open up ways more or less constricted; such are the passes of Mula, Mashkat and Bolan. At one point opposite to Jacobabad in Sind a deep indentation or bay, the Gandava Basin, opens the way to Quetta which lies in an open plain 5,500 feet above sea-level.

Pathan Frontier.—The Sulaiman ranges extend northward to the Gomal river which, politically, marks the northern limit of Baluchistan. Northwards stretch the narrow irregular border districts of the Pathan frontier, now known as the North-West Frontier Province. The country is all mountainous, and through it there run the chief passes into Afghanistan—the Gomal, the Tochi, the Kurram and the Khyber. Parting the Kurram and Khyber valleys almost at right angles runs the great transverse Safed Koh range, a southern offshoot of which separates the Kurram and the Tochi.

Afghanistan.—Behind and beyond these bands of border mountains lies Afghanistan, which slopes gently downwards from north-east to south-west but is never lower than 1,500 feet above sea-level. Four great river basins drain the country—the Kabul in the north-east, the Oxus on the north, the Helmand in the centre and south-west, and the tributaries of the Indus westwards. The country is in parts exceptionally fertile and some of its valleys are visions of luxuriant beauty. The northern hills are rich with verdure, their summits crowned with pines.

Hindu Kush Mountains.—The Hindu Kush mountains, flanking the northern province of Afghanistan, have several depressions which form comparatively easy byways between north and south, the most famous of which is the Hindu Kush ('dead Hindu'), leading from the Oxus basin to Kabul, over which Alexander the Great led his Greek soldiers. But the approaches to this range from the north are inconceivably difficult, thus forming the real northern mountain barrier of India in this direction. Near Herat, in the far west, there exists the only break in the otherwise continuous and formidable wall of mountains which traverses Asia from the Behring Straits to the Caspian Sea. Near Herat it is possible to pass from the Russian outposts and railway system into India without encountering any formidable altitude—and this is possible nowhere else.

The Pamirs.—The crest of the Hindu Kush pushes forward to the Little Pamiir, of which it

forms the southern boundary, and unites at the extreme eastern limits of the Pamir with two other gigantic mountain ranges; one, running northward, separates Russia from China; the other, running south-east (under the name of Muztagh), divides again into two mighty arms—the Kwen Lun range eastward and the Himalayas south-eastward. These enclose between them the rugged and elevated horn of North-Western Tibet, parting those desolate uplands from Chinese-Turkestan on the north and from the Trans-Indus borderlands of Kashmir on the south-west.

Kashmir and Jammu.—The mountainous Kashmir country is traversed from south-east to north-west by the Indus, which suddenly, near Gilgit, turns to the south-west towards the plains of Peshawar through wild unapproachable mountain districts as yet only partially explored. North-west of the bend are the passes from Gilgit into Chitral and to the Pamirs. Southwards are the valleys of Buner, Swat, and Bajaur. To the west stretch the long offshoots of the Hindu Kush; to the north the Muztagh and its extension the Karakoram.

The Himalaya Mountains.—The great bend of the Indus in Kashmir is caused by the initial peaks of the Himalaya Mountains, no part of which lies beyond the river either north or west. Literally the name is equivalent to 'the abode of snow'; the mountains were known to early geographers as Imaus or Himaüs and Hemodäs. From the great peak of Nanga Parbat (26,182 feet) in Kashmir, the Himalayas stretch in a broad mass, 100 miles wide, eastward for 1,500 miles through 20° of longitude, in a curve which has been compared to the blade of a scimitar, the edge facing the plains of India. Barely one-third of this vast range is known with any degree of accuracy.

Himalayan Passes.—The main passes across the Himalayas may be divided into three groups. The Shipki group, marked by the passage of the Sutlej River, makes the line of connection with Tibet and probably determined the position of Simla. There is a well-engineered road for a considerable part of the length, but as a trade route it has never proved a success. The Almora group which determined the position of Naini Tal and Almora forms a line of communication through which traffic is maintained chiefly by the agency of sheep as transport animals. A little to the east of this group the River Gogra effects an opening. The third group crosses the northern barriers of Sikkim from Darjeeling to Southern Tibet and Lhasa. None of these passes at present contributes anything material to the commercial prosperity of India.

Brahmaputra and Indus.—On the north-west the Himalayas are enclosed by the Indus river; on the north-east by the Brahmaputra, which rises from nearly the same central point as does the Indus. The two rivers form deep troughs at the back of the Himalayan system during their earlier and glacier-fed stages of existence. They are the natural drains of this gigantic ice-bound district, pouring their glacial floods in opposite directions to either side of India. Their deeply eroded valleys are, however, but scratches on the vast surface of the elevated region of which the Himalayas form the abutment.

Assam.—Between the Eastern Himalayan system and Northern Burma lie the Assam Hills and plateaux, the Garo, Khasi, Jaintia and Naga Hills, probably a part of the ancient mainland of Jurassic times which extended to Africa. There are comparatively wide undulating uplands with cliff-bound edges and spurs radiating from them in irregular formation. River and mountain combine to form an unending panorama of scenic beauty similar to that of Burma. Terraced gardens for the growth of tea climb the hillsides or fill up the undulations of the river bank; there are enormous tracts of waste country and vast impenetrable jungles.

Burmese Hills.—The Burmese Hills, which flank the Brahmaputra bend, and the Chindwin river, are of newer formation. Folding and curving like waves of the sea, the hills reach down the western coast of Burma till they terminate southwards in the Arakan Yoma which parts the Irrawaddy basin from the narrow littoral of the Bay of Bengal. So stiff, so steep, and so forest-covered are these solid waves that they have so far proved an insurmountable stumbling block to railway engineering.

Upper and Lower Burma.—Beyond them to the east the Chindwin, Irrawaddy and Salween rivers form delightful valleys full of cultivation. Orchid-bedecked forests and undulating wheat-covered plateaux are the chief characteristics; the intersecting drainage lines are deep and steeply enclosed, making it difficult to cross, and railway construction is almost impossible. Lower Burma, with a more humid atmosphere, is inimical to European existence; the productive soil of the great deltas of the Irrawaddy and Salween ensures its wealth on easy terms of agricultural labour.

Indo-Gangetic Depression.—In some respects the Indo-Gangetic Depression is the most important physical feature of India. Within the Ganges basin have ever been founded the chief kingdoms, the most ancient cities, the earliest centres of civilization, of industry, and of wealth. From the delta of the Ganges to the delta of the Indus stretches a strange wide depression within which is not to be found a boulder nor even a pebble, to break the monotony of its alluvial surface.

Basins of the Ganges and Mahanadi.—The total length of the Ganges is 1,500 miles. The heat-stricken plains of its basin have given India its colouring in history, and from them are derived the popular conception of the India of the last century. The thick humid atmosphere of the Gangetic basin makes all the land green with vegetation—rice-fields, mango groves, tamarinds, and palms—until the river widens out into the deadly swamps and flats of the Sundarbans. The basin of the Mahanadi is separated from the plains of Lower Bengal by a broad band of hill country, but it differs very little from them in most essential physical characteristics. The delta forms the chief feature of the fertile flats of Orissa.

Indus Basin.—The Indus plain presents an aspect of flat treeless landscape, a broad grey sea expanding to a level horizon, though not so very long ago forests grew on the Indus. The disappearance of the forests has greatly changed the meteorological conditions. Nowadays the

rainfall is scanty, and the heat from April to July is occasionally terrific. The hot dry climate prevents the growth of the vegetation which is found in the reeking atmosphere of Bengal; tamarisk and other scrub fringe the river banks. Irrigation is gradually changing this, and there are green spots which are once again surely altering the character of the landscape if not of the climate also. The frontier stations below Kohat form oases in the desert, but their humidity, born of excessive irrigation, renders them unhealthy even in the midst of the dry desert air.

Rivers of the Punjab.—All the rivers of the Punjab have their sources in the Himalayas, but the Indus and its most important tributary, the Sutlej, alone rise beyond the northern range. Between these two rivers are three other great tributaries of the Indus, the Jhelum, Chenab, and Ravi. These three rivers, with the Sutlej and its tributary, the Beas, all flow from the Kashmir Mountains, and form the five rivers which give the name Punjab to this district. From the natural reservoir in Kashmir these rivers roll down their mud-coloured flood in the snow-melting time, or wind in snaky twists about the floor of their wide beds in the cold season in ever-changing channels which completely baffle the restraint of engineering science.

The Indian Desert.—Between the Indus and the Aravalli Mountains lies the Thar or Indian Desert, extending for 300 miles in width, arid, hot and desolate, yet said to be bracing and wholesome beyond any other part of India. Sand-dunes from 50 to 100 feet high are ranged in curves which move in obedience to the westerly winds; there is little vegetation and only a single river-bed of any importance, that of the Luni, draining the northern slopes of the Aravallis. The desert terminates in the Rann of Cutch, a broad depression, once wholly covered by the sea, now chiefly dry land; a salt, barren, blinding waste of sand, where only the wild ass can thrive. These wastes are of recent formation and may again return to the sea. Kathiawar, which borders the Cutch is possibly of as ancient formation as the Aravallis, but south of it in the Gulf of Cambay, and northwards beyond the mouths of the Indus and on the coast of Makran, the process of silting is proceeding apace owing to the influence of the south-west monsoon currents and the action of the rivers. Parts of Kathiawar have yielded to the sea, especially in the neighbourhood of Dwarka, and there are traditions of islands, further south, fringing the coast, which have altogether disappeared.

Narbada and Tapti Rivers.—The Narbada and the Tapti further south, flowing into the Gulf of Cambay, form an exception to the general rule which governs the course of the rivers of the Peninsula, inasmuch as they flow from east to west in comparatively deep and narrow valleys. They only remain of the river-system of the submerged western continent. They divide the plains of the Vindhyan system from the Deccan traps and the central plateaux. The two rivers are separated from one another by the Satpura hills which are thickly clad with forest.

The Deccan.—South of the Tapti river commences the Deccan, a great three-cornered

upheaval, sloping gently from the Western Ghats (3,000 feet) to the Eastern Ghats, overlooking the Bay of Bengal. It consists of wide rust-coloured plains streaked and dotted with hills, with intervening bare patches or stunted forests. In the gneissic regions, granite tors and bosses, sometimes of immense size, frequently stud the plains. Black soil, locally known as 'cotton soil,' prevails near the rivers, and there is no more productive soil in India. The highlands are drained by the Godaveri, Kistna, Cauvery and Penner with their countless tributaries. Fringing this plateau on either side is a narrow strip of coast land comprising the lowlands of Bombay on the west and of Madras on the east, which form the India known to mediæval tradition, and it was on them that the sea-faring foreigner, pushing forward his commercial interests, first set his foot.

Western Coast.—The Western Ghats south of Bombay have their seaward slopes clothed with dense forests, and the intersecting valleys are filled with luxuriant vegetation nourished by sea-borne mists and vapours. The lowland coast strip is known as the Konkan, Kanara and Malabar. In the district of Malabar the Ghats merge into the Nilgiris (Blue Hills) 7,000 to 8,000 feet high, at the apex of the triangle of the Peninsula, then drop suddenly into the Palghat Gap. Beyond the Gap the Ghats continue southwards through the Anaimalai group to Cape Comorin. A warm climate and an abundant rainfall (80 to 100 inches annually in the neighbourhood of the Nilgiris) give an abundance of natural flower growth and an indigenous sub-tropical vegetation. Imported Australian trees, eucalyptus, wattle, &c., thrive here.

Eastern Coast.—From these hills to the eastern coast, known as the Coromandel coast, stretches an expanse of lowland 100 miles wide, which forms the richest section of the Madras Presidency. The western boundary is formed by the Eastern Ghats which start from the apex near the Nilgiris and conform to the bend of the coast line until they reach the watershed of the Narbada and Mahanadi basins. All the rivers of Central and Southern India break through the range on their way to the Indian Ocean; the deltas of the Godaveri and Kistna and of the Cauvery, with their systems of irrigation, form a remarkable feature in the economic geography of Madras. The rainfall is about 40 to 50 inches; rice and palms are cultivated and a highly developed system of irrigation is employed. Here are found busy centres of native culture and industry, where alone throughout the breadth and length of the continent are seen evidences of a really indigenous native art. The strip of maritime territory between Cape Comorin and the Mahanadi basin, known as the Carnatic, has a humid enervating atmosphere but faintly relieved by the freshness of the sea. The climate and easy abundance of food tell against physical development, and the swarming, indolent, rice-eating population contribute little to the strength of the Empire.

Southern Limits.—In the extreme south the Southern Ghats shut the districts of Tinnevely and Madura from the western maritime state of Travancore. Tinnevely and Madura consist mostly of open red, treeless plains, with isolated

hills and masses of rocks, presenting a desolate appearance. Groves of palmyra and coco-nut flourish near the coast and along the river-banks. Travancore is very picturesque with undulating country and magnificent primeval forests on the Ghats, and one unbroken mass of coco-nut and areca palms in the maritime lowland strip. The rainfall is abundant, giving effects of climate and scenery like those of Ceylon.

Ceylon.—The Southern Island of Ceylon is a Crown Colony, politically separated from India. It is geographically connected with the continent by Adam's Bridge, in which are two narrow passages for ships passing between Palk Strait on the north and the Gulf of Manaar on the south. The Manaar passage is navigable for small boats, the Pamban admits vessels drawing 10 feet of water. The Indian coast line is broken by shoals, rocks and reefs, with many evidences of the submergence which separated the Island from the mainland.

Andaman and Nicobar Islands.—The Andaman and Nicobar Islands with the Preparis and Cocos groups are formed by the summits of a submarine range extending in a curve for 700 miles, connected with the Arakan Yoma of Burma and Sumatra. The convict settlement of Port Blair in the Andamans forms the chief interesting feature.

Maldivé and Laccadive Islands.—The Maldivé and Laccadive Islands, with Minicoy lying midway between them, are the visible remains of a great submerged Indo-African continent. Between the Maldivé Islands and the Seychelle Islands, which are connected with Madagascar and Africa by comparatively shallow waters, there exists a submarine bank which cuts off the deep ice-cold currents of the Antarctic from the Arabian Sea. The Laccadive Islands are part of the Madras Presidency. The Maldivé Islands belong administratively to Ceylon.

Aden and its Dependencies.—The peninsula and isthmus of Aden on the south coast of the province of Yemen, Arabia, with the island of Sirah and the peninsula of Jebel Ihsan, or Little Aden, and Sheikh Othman, are British territory. Aden consists of a huge crater walled round by precipices, the highest peak being 1,775 feet above the sea. In spite of the high average temperature, Aden is not an unhealthy station for troops, and is exceptionally free from infectious diseases and epidemics; it is unfit for long residence. The rainfall varies from $\frac{1}{2}$ inch to 8 $\frac{1}{2}$ inches, with an irregular average of 3 inches. Water for drinking purposes is largely obtained by condensation. Attached to the settlement are the islands of Perim, a volcanic island in the Straits of Bab-el-Mandeb, Sokotra, a coaling station, in the Arabian Sea, and Kuria Muria, on which are large guano deposits.

Mergui Archipelago.—These Islands, which are of wild, fantastic and picturesque beauty, lie off the Mergui coast, Tenasserim. Mangroves grow extensively round the coasts of the northern islands; the pearl fisheries are important, and tin is believed to exist in some of the islands. Edible birds' nests are obtained on almost every rocky island.

Foreign Possessions.—The only possessions held in India by European powers, other than Great Britain, are (1) Goa, Daman and Diu Island,

on the west coast, belonging to Portugal, (2) Pondicherry, on the south-west coast, Chandernagore on the Hoogly, Karikal on the Cauvery, Yanam on the Godavari and Mahe on the west coast, belonging to France.

Ethnography.—India is a mosaic of races, religions and languages, having nothing in common with each other, and this segregation is carried to an indefinite extent by the isolating institution of caste. The differences between the countries of India are not less than those between the countries of Europe, and the diversities of religion and race are not less wide in India than in Europe. The Madrassi differs widely from the Sikh, and the languages of Southern India are quite as unintelligible in Lahore as they would be in London.

Seven Main Types.—The Ethnographic Survey of the peoples of India is still in progress, but analysis of the data up to the year 1905 renders it possible to distinguish provisionally three main classes—Aryan, Dravidian and Mongoloid—in opposition to the older theory that divided the population into two classes—Aryan and aboriginal. Composing these three great classes are seven main physical types—the Dravidian, Turko-Iranian, Indo-Aryan, Scytho-Dravidian, Aryo-Dravidian, Mongolo-Dravidian and Mongoloid.

Dravidian.—The Dravidians may be regarded as the earliest inhabitants of India of whom we have any knowledge. It is the oldest and most primitive of all the types, and occupies the oldest geological formation in India, Madras, Hyderabad, the Central Provinces, most of Central India, and Chota Nagpur. Labour is the birthright of the Dravidian; he is recognizable by his black skin, squat figure, long head, and the negro-like proportions of his nose.

Turko-Iranian.—The Turko-Iranians are represented by the Baloch, Brahui, and Afghans of Baluchistan and the North-West Frontier Province, and are the result probably of a fusion of Turki and Persian elements in which the former predominate. The stature is above the mean, complexion fair, eyes mostly dark, hair on face plentiful, head broad, nose moderately narrow, prominent and very long.

Indo-Aryan.—The Indo-Aryan type is represented by the Jats, Rajputs and Khattris of the Punjab, Rajputana, and Kashmir. The stature is mostly tall, skin a very light transparent brown, complexion fair, eyes dark, hair on face plentiful, head long, nose prominent and narrow but not specially long. Very slight physical differences exist between the higher and lower groups of the social scale, and the bonds of caste are less rigid than elsewhere. The type shows practically no signs of having been modified by contact with the Dravidians. It is supposed that the race advanced by slow degrees from the north-west as climatic conditions made it necessary, through tracts, once fertile but now desert, lying towards the south-east of Persia and Central Asia.

Scytho-Dravidian.—The Scytho-Dravidian type comprises the Maratha Brahmans, the Kunbis and the Coorgs of Western India, and is probably formed by a mixture of Dravidian elements with Scythian invaders from Central Asia westwards into the Punjab, Sind, Gujarat,

Rajputana and Central India. The type is clearly distinguished from the Turko-Iranian by a lower stature, a greater length of head, a higher nasal index, a shorter nose and a lower orbito-nasal index.

Aryo-Dravidian.—The Aryo-Dravidian or Hindustani type is found in the United Provinces, parts of Rajputana and in Bihar, and is probably the result of the intermixture, in varying proportions, of Indo-Aryans and Dravidians. The complexion varies from lightish-brown to black, the head-form is long, and the nose broader, and the stature less, than among the Indo-Aryans.

Mongolo-Dravidian or Bengali.—The Mongolo-Dravidians or Bengalis of Lower Bengal, and Orissa, comprise the Bengal Brahmans and Kayasths, the Muhammadans of Eastern Bengal, and other groups peculiar to this part of India. The type is probably a blend of Dravidian and Mongoloid elements with a strain of Indo-Aryan blood in the higher groups. The head is broad, complexion dark, stature and nose medium, and hair on face plentiful. This is one of the most distinctive types in India; the physical degeneration that has taken place may be due to a relaxing climate, enfeebling diet and early marriage.

Mongoloid.—The Mongoloid type of the Himalayas, Nepal, Assam and Burma is represented by the Kanets, Lepchas, Limbus, Murmis, and Gurungs, the Bodo of Assam and the Burmese. The head is broad, complexion dark with a yellowish tinge, hair on face scanty, stature short or below the average, nose fine and broad, face flat and eyelids often oblique.

The Operation of Caste.—There is a remarkable correspondence, in all parts of India except the Punjab, between variations of physical type and differences of grouping and social position. This is due to the operation of the caste system. Nowhere else in the world do we find the population of a large sub-continent broken up into an infinite number of mutually exclusive aggregates, the members of which are forbidden by an inexorable social law to marry outside the group to which they themselves belong. Whereas all the nations of Europe are the result of a fusion of a number of distinct tribal types into a more or less definable national type, in India the process of fusion was long ago arrested, and the degree of progress which it had made up to the point at which it ceased to operate is expressed in the physical characteristics of the groups which have been left behind. There is consequently no national type and no nation in the ordinary sense of the word.

Definition of Caste.—A caste may be defined as a collection of families or groups of families, bearing a common name, which usually denotes, or is associated with, a specific occupation; claiming common descent from a mythical ancestor, human or divine; and professing to follow the same calling. A member of the large circle denoted by the common name of the caste is invariably prohibited from marrying outside that circle, but within the circle there are usually a number of smaller circles to each of which the same prohibition applies.

Thus a Brahman cannot marry any woman who is a Brahman; his wife must be chosen from the same endogamous division of the Brahman caste.

Evolution of Caste.—The census of 1901 showed that there were 2,378 main castes and tribes. There is throughout India a tradition that originally there were four castes, and everywhere the Brahman or priest heads the list. The boundary of a caste may be said to be fixed by the rule restricting intermarriage, but its social status depends on the nature of the occupation of its members and their habits in respect to diet. Caste restrictions impose many disabilities, a sign of which is the energy with which a number of Hindu communities endeavour to improve their position in the social scale accorded to them by their co-religionists by imitating Brahman ways as far as possible. To facilitate the process, the name of the caste is changed, degrading callings are given up, vegetarianism is adopted and Brahmans of the less scrupulous kind are invited to officiate at domestic ceremonies. The members of the new sub-caste hold themselves aloof from former equals and look among other sub-castes for brides for their sons and husbands for their daughters. In this way new sub-castes and even new castes are constantly originating, and the almost insensible transformation, by various agencies, of tribes into castes can to-day be traced all over India.

Influence of Environment.—To the racial differences before described must be added variations due to environment which have been developed during the course of many centuries. In the north-west the dry climate and incessant struggles with man and nature have combined to produce a brave, hardy race of good physique, while the easy life in the steamy and fertile rice plains of the Gangetic delta, though encouraging a rapid increase in numbers, has sapped energy and stunted growth.

Condition of the People.—The native of India is, with a few marked exceptions, of slighter build and weaker frame than the European; his diet, often from choice and often from necessity, is wholly or mainly vegetarian; he is deficient in energy and capacity for sustained labour; his earnings are much smaller, but his wants are simpler and more easily met—food grains are cheap, rents low, houses inexpensive, and clothing is often a matter of decency rather than of necessity. The normal rate of mortality is high, especially among young children, owing to ignorance and prejudice, and in years of drought it rises still higher, not so much on account of direct deaths from starvation, as through dysentery and diarrhoea, due to the eating of improper food, general debility, and the epidemics of cholera so frequent in famine years.

Population and Area.—According to the revised areas adopted in the census of 1911, the Indian empire contains 1,802,657 square miles of country. The Provinces under British administration comprise 1,093,074 square miles, or 60.6 per cent. of the whole, and the aggregate area of the Indian States is 709,583 square miles, or 39.4 per cent. The population, as recorded on the night of March 10th, 1911, was 315,156,396

persons, or about one-fifth of that of the whole world, of whom 243,933,178 were enumerated in British territory and 71,223,218 in the Indian States. The provisional figures for the census taken in March, 1921, are:—total population, 319,075,132, viz., British territory, 247,138,396, and Indian States, 71,936,736.

Statistics relating to the population of India, including the Indian States, will be found in the Statistical Abstract published yearly.

Average Density.—As a whole, the average density (according to the census of 1911) is 175 persons to the square mile; 223 per square mile in British territory and 100 in the Indian States. There are great local variations. In nearly two-thirds of the districts and States the number of persons to the square mile is less than 200, and in about a quarter it ranges from 200 to 500. The units with less than 100 persons to the square mile cover two-fifths of the total area, but contain only one-eleventh of the population, while those with more than 500, though their area is only one-eleventh of the whole, contain one-third of the population.

Highest Density.—The greatest density of population is found in the great Gangetic plain, and the next greatest in the narrow maritime coast strips of the Peninsula. Rainfall and irrigation, tempered by the character of the land and the influence of climate, are the causes of the high density in certain areas. Overcrowding

is but a relative term, and one of the most prosperous and progressive tracts in the Empire is the densely inhabited portion of Eastern Bengal.

Urban Population.—Rather less than one-tenth of the people live in municipalities and cantonments of over 5,000 inhabitants, and of these more than one-half are found in places of over 20,000 inhabitants. Towns are undoubtedly growing in both number and population owing to the expansion of industries, such as cotton and jute mills and railway workshops, and the developments due to improved means of communication. Only 30 cities, however, have a population of more than 100,000, as compared with about 44 such towns in England.

Increase of Population.—Since the first systematic attempt to ascertain the population of India, between 1867 and 1872, the numbers have grown steadily by 23 per cent. in 1872–1881, 13 per cent. in 1881–1891, 2·5 per cent. in 1891–1901, 7·1 per cent. in 1901–1911, and 1·2 per cent. in 1911–1921, that is from 206,162,360 in 1867–1872 to 319,075,132 in 1921. In considering the proportional variations, allowance must be made for greater accuracy in later enumerations, and for the increase due to the inclusion of new areas within the scope of the operations. The population of the areas dealt with for the first time in 1921 is estimated at 86,145.

The following table compares the results of the census of 1911 with those of the census of 1921:—

	In 1911.	In 1921.	Increase or Decrease, 1911–1921.	Percentage, 1911–1921.
British Provinces	243,933,178	247,138,396	+3,205,218	+1·3
Indian States	71,223,218	71,936,736	+713,518	+1·0
Total	315,156,396	319,075,132	+3,918,736	+1·2

Internal Migration.—The large centres of modern trade and industrial enterprises attract people from other parts of the country, and the tea-gardens of Assam and the rice-fields of Burma are mainly worked by labourers from Bengal and Madras. In 1911, however, it was found that more than nine-tenths of the inhabitants of India were resident in the districts in which they were born. The comparatively small volume of migration is due mainly to the restrictions imposed by the caste system, and to the fact that a large proportion of the people depend for their support on one branch of industry, i.e., on agriculture. There is ordinarily little incentive to the tiller of the soil in India to leave his home in order to take up land elsewhere.

External Migration.—In 1911 there were 650,502 foreign settlers in India as compared with 525,521 twenty years earlier. Of these 280,000 were from Nepal, 92,000 from Afghanistan, 82,000 from China and Japan, and 23,000 from Arabia; the remainder were mostly of European origin, 123,000 coming from the United Kingdom. The demand for labour in Ceylon, the Straits Settlements and Malay States, British Guiana, Natal, Trinidad and Mauritius attracts a large number of emigrants

from India. Persons who recruit coolies are required by law to repatriate them on the expiration of the term of service.

Occupations.—According to the census of 1911, 71 per cent. of the actual workers of India are engaged in agricultural pursuits. The preparation and supply of material substances affords a means of livelihood to 19 per cent. of the population (actual workers), of whom 12 per cent. are employed in industries, 2 per cent. in transport, and 5 per cent. in trade. The extraction of minerals supports only 2 persons per mille, the civil and military services support 14, the professions and liberal arts 15, and domestic service 18 persons per mille. Division of labour is practically unknown in India; the devolution of occupation from father to son, so closely bound up with the caste system, is perhaps the most striking feature in the functional distribution of the people of India, though of late years the influence of heredity on function is growing weaker. All paths of employment are now open to high and low alike; education is no longer the prerogative of the higher castes, and people are thus beginning to desert the avocations of their ancestors in favour of others which they regard as more remunerative or more respectable.

Religions.—In the census of 1911 the population is classified as follows:—

		Adherents.
Indo-Aryan	Hindus	217,586,892
	Buddhists	10,721,453
	Sikhs	3,014,466
	Jains	1,248,182
Primitive	Animistic	10,295,168
Iranian	Zoroastrians	100,096
Semitic	Muslimans	66,647,299
	Christians	3,876,203
	Jews	20,980
Miscellaneous	Minor religions and religions not returned	37,101
Total		313,547,840*

These figures show the mass of the population to be divided between the Hindu and the Muhammadan religions, the proportion being about 1 Muhammadan (Muslim) to 3½ Hindus. Of the Buddhists nearly 97 per cent. are found in Burma. The numbers of the various religions in each province, State, and agency, and further statistics showing the distribution of the whole population according to religion will be found in the Statistical Abstract.

Languages.—Excluding the Gilgit Agency in Kashmir and the Tribal areas of the North West Frontier Province, where a language census was not taken, it was found in 1911 that there were 182 distinct languages recorded as vernacular in the Indian Empire. Of this number 123 belong to the Tibeto-Chinese family, 27 to the Indo-European, 15 to the Dravidian, 13 to the Austro-Asiatic, and 2 to the Malayo-Polynesian; the remainder are unclassified. The languages of the Tibeto-Chinese group are spoken by about 13 million persons, or about 4 per cent. of the population. They predominate in Burma, the Assam hills, and in a portion of the Himalayan area. The indigenous languages of the Indo-European family belong to the Aryan sub-family. This has two branches—the Indian and the Iranian. The languages of this group are spoken by nearly three-fourths of the total population of India. They are current everywhere except in Burma, the Assam hills, and the part of the peninsula which lies south of the line extending roughly from Kolhapur to Puri. The Indian branch includes the Sanskrit languages—Hindi, Bengali, Rajasthani, Gujarati, Panjabi, Oriya, Marathi, and others, spoken by nearly 230 million people. Baloch and Pashto are the chief languages belonging to the Iranian branch. In the south of the peninsula Dravidian languages are spoken almost universally. This group comprises Tamil, Malayalam, Kanarese, Telugu, and a number of others, spoken by nearly 63 million people. The Austro-Asiatic family claims about 4½ million speakers. It has two local sub-families, the Mon-Khmer and the Munda. The principal members of the former are Mon or Talaing in the neighbourhood of Rangoon, Khasi in the centre of the Assam range, and Palaung and its allied dialects in the neighbourhood of the Salwin—each with about one-fifth of a million speakers.

Of the Munda sub-family whose main habitat is the Chota Nagpur plateau, Kherwari (3.4 million speakers) is the most important language.

Hindustani.—Hindustani is spoken over the whole of the north and west of continental India as a second language, or *lingua franca*, used alike in the court and the market-place by every one with any claim to education. Urdu is that form of Hindustani which is written from right to left in the Persian character; it makes a free use of Persian (including Arabic) in its vocabulary. The Hindi form of Hindustani is written from left to right in the Devanagari characters. Rekhta is the form of Hindustani used in poetry; Dakhani is the form used by Muslims in the Deccan, it is written like Urdu, but is not so much Persianized.

Education.—In 1901 it was found that only 53 per thousand of the people could both read and write, viz., one male in ten, and one female in 144. In 1911, 59 per 1,000 were literate, 1 male in 9.5 and 1 female in 96. It is probable that these proportions are somewhat smaller than is really the case. Burma, with its extensive system of indigenous free education imparted by the monks, easily holds the first place, two-fifths of its male and one-sixteenth of its female population being able to read and write, but the number of really educated people is probably smaller here than in any other province. There are more literate persons among the people who speak the Dravidian and Mongolian languages than among those whose vernaculars belong to the Aryan family. The Parsis are the best educated, with nearly three-fourths of their total able to read and write. Then come the Jains with 27 per cent., then the Buddhists and the Christians with about 22 per cent. The Sikhs and Hindus have only 6 and 5 per cent. respectively, the Muhammadans 3 per cent., and the Animists only ½ per cent. Ninety-five males and ten females per 10,000 of the total population were literate in English in 1911 as compared with sixty-eight males and seven females per 10,000 in 1901.

The number of scholars in public and private institutions and fuller statistics showing the distribution of population according to religion and education will be found in the Statistical Abstract.

Meteorology.—India probably presents a greater variety of meteorological conditions, actions and features, than any area of similar size in the world. The normal annual rainfall varies from 426 inches at Cherrapunji, in the Assam Hills, and from between 300 and 400 inches at exposed positions on the Western Ghats and the Arakan and Tenasserim Hills, to less than 3 inches in Upper Sind. In 1861 a rainfall of 905 inches was measured at Cherrapunji, while at stations in Upper Sind it has been nil. A rainfall exceeding 25 inches in 24 hours is of occasional occurrence, and falls exceeding 15 inches are comparatively frequent.

The Monsoons.—The primary fact in the meteorology of India is the alternation of seasons known as the south-west and north-east monsoons. The former is a season of winds of oceanic origin, of high humidity, and

* Religion was not recorded in the case of 1,608,556 persons in the North-West Frontier Province.

of frequent and heavy rain over the whole area; the north-east monsoon is a season of winds of continental origin and great dryness. From this point of view the terms wet and dry monsoons seem to be more appropriate. The causes of the monsoons are many and complex, but the fundamental facts that underlie the explanation of their origin are the differences of temperature in the winter and summer months between Central and Southern Asia, and the Pacific and Atlantic Oceans in the same latitudes.

Dry Monsoon.—The dry monsoon lasts from about the middle of December to the end of May, and may be divided into two periods, one of comparatively low, the other of increasing and high, temperature. The former, the cold weather of Northern India, includes the months of January and February, the latter extends from March to May.

Wet Monsoon.—The wet monsoon may also be divided into two periods: the first, from June to September, is the monsoon proper, when general and heavy rain falls occasionally or frequently in nearly all parts of India; the second is the retreating monsoon period, lasting from October to December, when the area of rainfall contracts southwards and the intensity and volume of the fall diminish.

Normal Rainfall.—The following gives a statement of the mean or normal rainfall in India, derived from the average data of about 2,000 stations distributed somewhat unequally over the whole of the country:—

	Inches.
Cold weather (January–February) ...	0·99
Hot weather (March–May) ...	4·58
South-west monsoon (June–September) ...	34·65
Retreating south-west monsoon (October–December) ...	4·95

The rainfall of the first half of the wet monsoon is much less valuable and effective, on the whole, for agricultural purposes than the rainfall of the second half. It is essential that there should be occasional to frequent rain in August and September and occasional rain in October, in order to bring the chief food crops to perfection. An abrupt termination of the rains in August may cause the whole of the rice crop in a province to fail to come to maturity. In North-Western and Central India not only may the rains of the south-west monsoon fail more or less completely, but also the preceding or following cold-weather rains, and failure of the first is, in about two cases out of three, accompanied by failure of the second. This double drought is most disastrous.

Average Temperature.—Temperature is perhaps, next to rainfall, the most important feature of meteorological observation in India from the economic standpoint. The highest day temperatures usually occur in Northern India in the month of May. The hottest area is the Pat desert of Upper Sind, of which Jacobabad is imperfectly representative, and after that, the adjacent tracts including the South Western Punjab and North Western Rajputana. At Jacobabad, in seventeen out of twenty years, the highest day temperature ranged from 117° to 126°; the average mean temperature at this station for the year is

80°·4. The average mean temperature at other stations in the plains varies between that of Jacobabad and 71° at Rawal Pindi. In the hill stations the average mean varies from 42°·6 at Leh to 70°·4 at Pachmarhi.

Agriculture.—The soil of India for agricultural purposes may be divided into three great classes:—Alluvial tract, Deccan trap, and crystalline tract. The alluvial tracts are the most extensive and the most important; they occupy the greater portions of Sind, Gujerat, Rajputana, the Punjab, the United Provinces, Bengal, the Godaveri, Kistna, and Tanjore Districts of Madras, extensive parts of Assam and Burma, and the maritime strips and river courses of the Peninsula. Water is found at moderate depths, but in some parts of the Punjab and the United Provinces the wells are deep. Alluvial soils are generally suitable for irrigation; with moderate and well-distributed rainfall a great variety of autumn and spring crops can be grown.

The Trap Soils.—The Deccan trap covers the greater portion of Bombay, the whole of Berar, one-third of the Central Provinces, and one-half of Hyderabad. The fertility of the soil varies to an extraordinary degree; the rich black cotton-soil is highly retentive of moisture, and this is the only kind that is generally adaptable for irrigation purposes. Canals and tanks are not suitable for irrigation in the broken country of the Deccan trap areas, but a considerable area is cultivated under wells, and this represents some of the highest farming in the country.

Crystalline Tracts.—The crystalline tracts occupy the remainder of the Peninsula area, including Madras and Mysore, as well as a long strip along the coast of Southern Burma. The soils vary considerably; the more fertile districts are irrigated with advantage from tanks and wells, and will, under suitable conditions, repay the cost quite as well as the alluvial soils. Rice forms the chief product, though the best soils are suitable for a large variety of crops.

Conservation of Manures.—The chief obstacle to the improvement of Indian agriculture is the lack of manure, due to the use of dung as fuel, and the reluctance of the people, owing to their caste restrictions, to make use of many valuable manures. The Government have reserved areas where firewood may be looked for in the future, with a view to removing one of these obstacles; in the forests under State control timber and minor produce are granted free, or at reduced rates, to local residents. Improved sanitary methods, both for towns and villages, in the form of sewage farms, septic tank systems, or the poudrette system, have been the means of enormously increasing the size of crops in some districts, and the better conservation of manure will, with further extension of these systems, greatly benefit agriculture. Mineral manures are not plentiful in India and their cost is high.

Rotation of Crops.—The practice of regular rotation of crops is followed in many parts of India, whilst the common Indian system of mixed crops serves in many respects the same purposes. This latter practice is

undoubtedly successful and profitable, and it enables the cultivator in an unfavourable year to minimise the risk of total failure of his crops. The pulse crop is in every province mixed with other crops; it enriches the soil with nitrogen, and its long tap-roots enable it to withstand drought.

Principal Crops.—The principal crops are rice, wheat, millet (two types, jowar and bajra), pulse (gram or chick-pea), oil-seed (sesamum, linseed, rape, mustard, castor, ground-nut, poppy-seeds, and coco-nut seeds), sugar-cane, cotton, jute, tobacco, opium-yielding poppy, pepper, tea, coffee, cinchona (for quinine), indigo, and many kinds of vegetables and fruits. The areas under cultivation will be found in the Statistical Abstract.

Rice and Wheat.—Rice is grown on about one-third of the cropped area in British India. The quantity exported in 1920-21 was 1,095,000 tons, of which Burma contributed about 80 per cent. Wheat occupies about 10 per cent. of the whole cultivated area. The amount exported in 1920-21 was only about 238,000 tons as against 8,600 tons last year, and 476,100 tons in 1918-19.

Draught and Dairy Cattle.—In India cows are kept chiefly to produce work cattle, and milk is obtained largely from buffaloes. Camels are employed for tillage to some extent in Northern India, but agricultural operations as a whole, and also the transport of goods by road, mainly depend upon the draught power of bullocks and male buffaloes. In the forests elephants are utilized for removing timber. The sanctity of the cow among the Hindus and the general disinclination to take life results in the maintenance of a considerable number of old and decrepit animals which are the first to succumb during periods of scarcity and famine. Hay-making is not practised by the Indian cultivator and reserve stocks of fodder are not maintained. In the deltaic areas and in rice tracts generally the cattle are miserably weak. Grazing lands are here scarce, and rice straw, which provides little nourishment, is the only fodder available in any quantity. Hides are exported in very large quantities, but their quality is variable. The Government dairy farms and cantonment grass farms are gradually leading up to improved methods.

Sheep and Goats.—Sheep and goats are bred most successfully in areas receiving a moderate rainfall. In peninsular India the shepherds own large flocks with which they wander from place to place. The sheep are generally inferior both as mutton and as wool producers; they are clipped twice a year, and a fleece rarely weighs more than 1½ lbs. Goats are valued for their meat and milk, and in the Himalayas for their hair. The flesh of goats is largely used instead of mutton.

Horses and Mules.—Horses are bred mainly for sale to the Army Remount Department and the police. The purchase of remounts is facilitated, and horse-breeding has been gradually encouraged, by prizes offered at old-established fairs. For many years attention has been

given to the breeding of mules for military purposes.

Co-operative Credit Associations.—The agriculture of India is, generally speaking, in the hands of men with small holdings who work mostly on borrowed capital. To minimise the evils of borrowing from private money-lenders the Government has in some districts curtailed the peasant's right to raise money on his land, whilst credit associations of a co-operative character are encouraged. Sums are also advanced by Government for specific purposes at from 5 to 8 per cent. as against the ordinary rate of 24 to 37½ per cent. exacted by the village money-lender. In March, 1905, the year after the passing of the Co-operative Credit Societies Act*, there were altogether 41 societies; for the year 1918-19, there were 29,800 societies, with a membership of 1,234,930. The total working capital available in 1918-19 amounted to £10,763,700. The amount of State aid in loans from the Government in 1918-19 was £171,020.

Agricultural Researches.—Agricultural research and experiment in India are carried out by the Agricultural Departments in the Provinces. In 1901 an Inspector-General of Agriculture was appointed, but in 1912 the duties were amalgamated with those of the Director and Principal of the Agricultural Research Institute at Pusa under the title Agricultural Adviser to the Govt. of India and Director of the Agricultural Research Institute. A number of expert advisers are employed, such as cotton specialists, mycologists, entomologists and chemists. A Board of Agriculture was created in 1905, to meet annually for discussion of programmes. Crops are being improved or brought back into cultivation, land rendered infertile by alkali salts is being brought into profitable cultivation, and the confidence of cultivators is being won.

Mines and Minerals.—The high quality of native-made iron, the early manufacture of high-class steels, and artistic products in copper and brass gave India a prominent position in the ancient metallurgical world, while until about forty years ago the country was the chief source of the nitre used in the manufacture of explosives. The chemical manufacturer of Europe, armed with cheap supplies of sulphuric acid and alkali, has been enabled to stamp out, in all but remote localities, the once flourishing native manufactures of alum, alkaline compounds, blue vitriol, copperas, copper, lead, steel and iron, and seriously to curtail the export trade in nitre and borax. Practically nothing has been done to develop those minerals which are essential to modern metallurgical and chemical industries, while most striking progress has been made during recent years in opening out deposits from which products are obtained suitable for export, or for consumption in the country, by what may be called direct processes.

Coal.—Coal is the most valuable mineral product worked in India, and supports a larger body of labour than any other mining industry. In 1917, 167,000 persons were engaged in its

* Repealed and replaced by the Co-operative Societies Act, 1912.

production. The majority of the workmen follow the vocation of agriculture as well as mining, and return to their homes during the periods of sowing and reaping. The output has risen from 1,397,818 tons in 1884 to 17,962,000 tons in 1920. The chief sources of Indian coal are the Gondwana coalfields of the Peninsula, the remainder being obtained from seams of Tertiary age in Burma, Assam, the Punjab, and Baluchistan. Gondwana coal is found in the Darjeeling area and in Bhutan and Assam, but the seams are difficult to work. The Jherria coalfield in Bihar and Orissa, and the Raniganj field partly in Bengal and partly in Bihar and Orissa, produce between them 86 per cent. of the total output. Ceylon, the Straits Settlements and Sumatra are the chief buyers of Indian coal.

Mineral Oil.—The petroleum resources of India are confined to the systems of folded rocks at either end of the Himalayan arc; the Iranian system on the west, including the Punjab and Baluchistan and extending into Persia; and the Arakan system on the east, including Assam and Burma and extending into Sumatra, Java, and Borneo. In 1894 the production amounted to 1½ million gallons of crude oil; in 1919 it was estimated at 305 million gallons. India imports mineral oil in large quantities, the imports for 1920-21 being over 125 million gallons.

Amber, Graphite, and Mica.—Amber is found in very small quantities in Burma. Graphite is found in small quantities in various places, but little progress has been made in mining it. India has for many years been the leading producer of mica, turning out more than half of the world's supply.

Gold.—Gold is washed in small quantities in the river gravels of various parts of India, and it is mined from a rich reef on the Kolar field in the State of Mysore. In 1919 the production of gold amounted to 507,260 ozs., by far the greater part of which came from the Mysore goldfields. Electric power for working these mines is obtained from the Cauvery Falls. There are also gold mines at Hutti in Hyderabad and in the Anantpur district in Madras.

Tin, Copper, Silver, Lead and Antimony.—The only persistent attempt to mine tin is in Burma, but the output is insignificant. Copper is found in Southern India, in Bihar and Orissa, and in Burma. An attempt is being made to work lodes near Pangyang, in the Northern Shan States, for the production of silver and lead, and in Southern Burma for antimony.

Iron.—Iron ores are widely distributed in India, but smelting after European methods is confined to Bengal and Orissa where coal is found in proximity to the ore. The output of iron-ore has been rapidly increasing in recent years.

Manganese.—India takes the second place among the manganese producing countries of the world, the output in 1919 being 535,000 tons; 780,000 tons were exported in 1920-21, as against 382,000 tons in 1919-20. The deposits occur in the Central Provinces, and Central India, in

parts of Madras and Bombay, in Gwalior, and in Southern Burma. In some parts of the Nagpur area the deposits extend for 6 miles, and are 100 feet thick with pure ore.

Salt.—About 2,000,000 tons of salt are consumed annually in India, and of this rather more than two-thirds are manufactured locally. Of the manufactured salt, about 63 per cent. is produced by evaporation from sea water, 28 per cent. from sub-soil water and lakes, and 9 per cent. by mining and quarrying. Deposits of rock-salt are confined to the Punjab and the North-West Frontier Province, and about 150,000 tons a year are here obtained by mining or quarrying. The principal source of supply is the Mayo Mines, near Khewra, in the Salt Range, where the salt deposits have an aggregate thickness of 550 feet, 275 feet of which are of very pure material of a pink or light red colour. The Sambhar Lake in Rajputana is the most important inland source of supply by evaporation.*

Gem Stones.—The only precious and semi-precious stones at present mined in India are the diamond, ruby, sapphire, spinel, tourmaline, garnet, rock-crystal, agate, carnelian, jadeite and amber. Amber has already been referred to; of the rest only the ruby and jadeite attain any considerable value in production. The output of diamonds is comparatively unimportant. The ruby-mining industry of Burma has lately undergone a favourable change, but the value of the stones produced in 1919 was only about £72,000.

Famine in India.—India is, and always has been, mainly agricultural and agricultural under conditions peculiarly exposed to famine. The soil is parcelled out in minute farms. The farmers have no capital and depend to a large extent on unorganized local credit, which shrinks when harvests fail. Off the land, but dependent on it, are millions of agricultural labourers, the vast majority of whom have only casual employment and are thrown out of work when harvests fail. Thus, the masses of the Indian people depend upon the harvests, and these depend upon a periodic, but by no means regular, rainfall. But not every failure of the rains causes famine, since the people are not generally dependent upon the out-turn of a single harvest, and the spring harvest may be good although the autumn crops have failed.

Famine Relief.—Modern famine policy is thus a struggle against nature and has two objects, the one remedial the other protective; it seeks to relieve distress when droughts come and in many ways to fortify the people against drought. Under the stern but efficient teaching of experience, an elaborate system of relief has been worked out, which attempts to save life without inducing the population to rely upon Government aid rather than upon their own industry and thrift. Standing preparations are made on a large scale in ordinary times; the country is mapped out into relief-circles of convenient size, and programmes of suitable relief works are revised annually in every District, matters being so arranged that a telegram from head-quarters

* Some further particulars will be found under the head of "Salt Duty."

can mobilize relief. Precautions against possible outbreaks of cholera, &c., are also made in order that the disease may not be spread to the non-affected areas.

Famine Protection.—The efforts of the Government of India are, however, not confined to relief, but are mainly directed to ascertaining how far it is possible to diminish the severity of famines or to place the people in a better condition for enduring them. Most of these efforts will be found more fully described under other sections. With the introduction of the reforms scheme the annual appropriation of £1,000,000 made from Imperial revenues for famine relief and insurance disappears, and in future each Provincial Government will be required to set aside from its resources a fixed sum every year for famine insurance. The sums thus set aside will be devoted, in the first instance, to outlay in the construction of protective works, and, if necessary, in relief measures, the sum not required for these purposes being utilised in building up a famine insurance fund.

Railways have revolutionized the conditions, and an absolute dearth of food is now unknown; increased knowledge of the economic conditions of the country and the social conditions of the people, and an elaborate system of agricultural intelligence, enable the government to grapple with famine problems as never before. Irrigation works are undertaken, whether commercially profitable or not, to protect areas that are liable to drought. The land revenue is reduced or remitted, and co-operative credit societies have been founded in order to assist the landowners in times of scarcity; and attempts are made to draw the surplus population from agricultural pursuits to find a means of subsistence in manufactures or some such employment.

Forests of India.—Forests form the head-works of Nature's irrigation scheme in India, not only by storing rainfall water in the soil, but also by supplying moisture to the atmosphere by transpiration from the foliage. The grazing which they afford to countless herds in years of drought assumes a special value in conserving the cattle upon which the agriculture of the country depends. The supply of material for house building, fuel, &c., and the use of forest leaves as manure for the cultivator's fields, are sources of material wealth to the inhabitants in the vicinity, whilst the timber and other products which are utilized throughout the world are a valuable asset to the State.

State Forests.—The State forests, *i.e.*, lands administered as forests by the Forest Department, cover an area of about 250,000 square miles, or nearly one-fourth of the total area of British India. The proportion of forest area to total area varies considerably in the different provinces. Thus in Bihar and Orissa it is 3¼ per cent., in Assam 47 per cent., and in the Andamans, where it is highest, 70 per cent. The forests are divided into four classes—Reserved, Protected, Unclassed and Public—according to the degree in which they are given over to or protected from the use of the public. In Burma a forest estate is being built up, which in the future will be unique in organization and value.

Control and Revenue.—The duties of demarcation and survey, of protecting forests from men, cattle and fire, devolve upon the India Forest Department, comprising an Imperial and a Provincial Service. Subject to the general supervision of the Government of India, the control of Forest Administration rests with the Local Government in each province. Forest operations are subject to the control of the local executive officers in matters affecting the rights of the people. The gross revenue from Indian forests in 1919-20 was £3,578,386. The charges amounted to £2,140,638, leaving a surplus revenue of £1,437,748.

Irrigation and Canals.—Irrigation has been resorted to in India from time immemorial as a means of supplementing the natural rainfall and of storing water for use at critical periods. In general it may be said that the security of the harvest depends on the existence of some form of irrigation in almost all parts of India, except in tracts such as Eastern Bengal, Assam, or Lower Burma where the average rainfall is not less than 70 inches in the year. As an example of the magnitude of some of the works undertaken by the Government of India may be mentioned the Lower Chenab Canal which irrigates over 2,000,000 acres, equal to about two-fifths of the whole cultivable area of Egypt.

Types of Works.—Irrigation works are of three great types—lift, storage and river works—which are represented by wells, tanks, or reservoirs, and canals. About 30 per cent. of the irrigated area, or 14,200,000 acres are irrigated from wells; the average area irrigated by tanks is about 7,300,000 acres and over 21,000,000 acres are irrigated by canals. The wells and smaller tanks are often the property of private individuals, but the larger tanks and the canals are undertaken by the Government.

Financial Considerations.—With the introduction of the reforms scheme the old classification of irrigation works into "major" (*i.e.*, those undertaken from loan funds) and "minor" (*i.e.*, those undertaken out of ordinary revenues) has been replaced by a classification based on their productivity, and the receipts and charges relating to waterworks, navigable canals, embankments and other purely agricultural works are separated off from those relating to irrigation works proper. For the year ending 1919-20 there was a net profit on productive irrigation works, after taking into account working expenses and interest on capital outlay, of nearly 6½ per cent. Thus, having regard to the very remunerative character of the greater part of the outlay, and to the immense value in times of scarcity of the food supplies which can be relied on with confidence from the irrigated area, the policy of Government is to spare no efforts to make ample provision for irrigation works. The tracts in which the net revenue would probably exceed the expenditure on new works, namely, in Punjab, Sind and parts of Madras, are not usually liable to famine.

Navigable Canals.—Irrigation canals are not always suitable for navigation, and many canals have been constructed for navigation which do not irrigate a single acre. The great rivers are navigable by steamers all the year round, and

there are innumerable small rivers, tributaries, creeks and backwaters which are fully utilized by small native craft.

Railways.—Experience gained from the famines of 1866, 1868, and 1878, showed the imperative need for extending communications and the construction of protective railways has long been recognized as a leading feature in the policy of famine insurance. The intensity of the distress due to famine has been enormously reduced by railways, although the area of distress may have been somewhat extended. Railways have substituted famines which are of money only for famines in which both food and money were lacking, and by giving access to large markets they have undoubtedly increased the incomes of landowners and cultivators.

Guaranteed Companies.—Railway construction began in India about the year 1850, and was, for a number of years, carried out through the agency of joint stock companies under contract with the State. The companies were given a guarantee of 5 per cent. on their capital outlay, with half the surplus profits in addition. No capital expenditure beyond that involved by the grant of free land was entailed on the State, but the general revenues had to meet the amount by which the net receipts fell short of the guaranteed interest. The eight railways which were constructed on these terms have played an important part in the development of the country. Although British capital was thus attracted into India, without which these great works could hardly at that time have been constructed, yet for many years these railways imposed a considerable burden on Indian revenues. All the old guaranteed companies have now been purchased by the Government under their contracts, the last one, the Madras Railway, having been purchased on 31 Dec., 1907.

Direct State Agency.—In 1870 Government began to borrow money for railway developments by direct State agency, but expenditure was to be met by the receipts from the guaranteed railways, and no increased charge was to be thrown on the revenues. In 1879 this system ceased, and the capital outlay was limited to what the Government could borrow in India without unduly pressing the market or could spare from revenue.

Assisted Companies.—These restrictions would, however, have hampered the work of construction, and economic progress would have been severely checked, had not the Government in 1880-81 decided again to evoke the aid of private capital, which it was hoped, would be obtained on better terms than in the days of the old guaranteed companies. From that time onwards a number of companies have assisted in the development of Indian railways. The terms of their contracts vary considerably; some have a guaranteed rate of interest or rebates on traffic interchanged with trunk lines, others receive a subsidy, others have received no more than a free gift of the land required for the construction of the line.

Policy of Advance.—In 1883 the Government proposed a more ambitious programme; railways were to be made as required, but were, as a rule, to have a good prospect of repaying their interest charge, those for famine purposes

being paid for, with irrigation works, from the famine insurance grant. Since 1885, when the first programme under the new conditions was introduced, the annual expenditure on railways has constantly increased, with the exception of the war period, during which expenditure was necessarily much curtailed, with the result that in the immediate future practically all money available for expenditure on railways will have to be devoted to the improvement of existing lines.

Main Results.—As the net result of rather more than seventy years' construction policy, India on 31st March, 1920, had been provided with 36,735 miles of railway, of which 199 were opened in 1919-20. The capital outlay incurred by the Government in the purchase and construction of its railways, including the liability which remains to be discharged by means of Annuity and Sinking Fund payments, amounted in 1919-20 to £380,768,116. The net working profit from State railways, after meeting interest and other miscellaneous charges, and certain Annuity and Sinking Fund payments which go to the discharge of debt, amounted in the year 1919-20 to £6,663,817. Statistics relating to the number of passengers and weight of goods carried, average rates charged per mile, &c., in recent years, will be found in the Statistical Abstract.

Administration of Railways.—Up to 1905 the administration of the railways in India was controlled by the Public Works Department of the Government of India. In that year the control was transferred to an expert Railway Board, consisting of a chairman and two members. In October, 1908, the railway board became the railway department, distinct from and independent of the department of commerce and industry secretariat, though remaining in the administrative charge of the honourable member, commerce and industry department, as railway member. A Committee appointed in 1920 by the Secretary of State to inquire into the administration and working of Indian railways presented its Report in 1921 (Cmd. 1512), and its recommendations, some of which are of far-reaching importance in regard to the future administration of the Indian railway system, are now under consideration.

Political Division of India.—About two-fifths of the country still remains under the government of hereditary Indian chiefs, whose subjects number nearly 71 millions, or rather less than one-fourth of the whole Indian people. The British territories, therefore, comprise about three-fifths of the area of India, and over three-fourths of its inhabitants.

The Indian princes generally govern their states with the help and advice of political officers appointed by the British Government and residing at their courts. Some of them administer the internal affairs of their States with almost complete independence; in the case of others assistance and advice are required in varying degrees. These rulers possess revenues and armies of their own, and the more important exercise the power of life and death over their subjects; but the authority of each is limited by treaties or engagements, or recognised practice, by which their relations with the British

government are determined. That government, as suzerain in India, does not allow the Indian States to make war upon each other, or to form alliances with foreign countries. It interferes when any chief misgoverns his people; rebukes, and, if needful, removes the oppressor; protects the weak; and firmly imposes peace upon all.

The British possessions are divided into fifteen provinces, each with its own local government; but the whole is under the orders of the supreme government of India, consisting of the governor-general in council. The governor-general, who also bears the title of viceroy, holds his court and government at Delhi in the cold weather, and during summer at Simla, 7,000 feet up the Himalaya mountains. The viceroy of India, and the governors of the different presidencies and provinces are appointed by the Sovereign.

British Administration of India.—The act of 1858, which transferred India from the East India Company to the crown, also laid down the scheme of its government. Under the East India Company, the governor-general was only responsible to the distant court of directors. The court of directors was, in its turn, answerable to the shareholders, or court of proprietors, on the one hand; and, through the board of control, to the sovereign and to parliament on the other. The act of 1858 did away with these intermediary bodies between the governor-general and the British ministry. For the court of directors, the court of proprietors, and the board of control, it substituted a secretary of state, aided by a council who are now appointed by him. The secretary of state is a cabinet minister, who comes into and goes out of office with the other members of the ministry. Members of his council were originally appointed for life, but this system was modified in 1874, and up to the passing of the Council of India Act of 1907 the appointments were for ten years. Since 1907 members have been appointed for seven years only, but they may be reappointed for another five years for special reasons. In 1907 two Indians were appointed members of the secretary of state's council and in 1917 a third was appointed. The governor-general is appointed by the crown, and resides in India. His ordinary tenure of office is five years. Since the Queen's proclamation of 1st Nov., 1858, he has been styled viceroy when acting as personal representative of the Sovereign, and not in exercise of his powers as governor-general. Up to 1st April, 1912, the governor-general in council was governor of the presidency of Fort William in Bengal; on that date the presidency was made a province under a separate governor, and was placed on the same footing as the provinces of Madras and Bombay.

Great changes have been made in the system of government in British India by the Government of India Act, 1919, which came into operation in January, 1921. The following paragraphs are a brief outline of the present system of Indian administration.

Executive Control.—The supreme authority in India is vested in the governor-general in council, subject to the control of the secretary of state. The members of the governor-general's execu-

tive council are appointed by His Majesty, and three at least of them must be persons who have been for at least ten years in the service of the Crown in India. At present the council consists of eight members, of whom three are Indians. Every executive order of the Government proceeds from the governor-general and his council collectively and runs in the name of the "Governor-General in Council," though statutory "rules of business" obviate the necessity of an actual collective decision in many cases.

The *Indian Legislature* consists of two chambers. The upper chamber, or "Council of State," contains 60 members, of whom 34 are elected and 26 nominated. Of the latter not more than 20 may be officials. The lower chamber, or "Legislative Assembly," consists of 144 members, of whom 104 are elected. Of the 40 nominated members 26 are required to be officials. Any member of the governor-general's executive council may speak in either chamber, and each executive councillor has to be appointed a member of one or other chamber but can vote only in the chamber of which he is a member. The president of the Council of State is a nominee of the governor-general, as also for the first four years after the constitution of the chamber is the president of the legislative assembly. After that period the lower chamber is to elect its own president, and it elects its own deputy-president from the outset. The normal lifetime of each council of state is five years, and of each legislative assembly three years, but either chamber, or both simultaneously, may be dissolved at any time by the governor-general.

The method of election for both chambers is direct, although the number of electors is considerably smaller than for the provincial legislative councils. Generally speaking, the electoral scheme for the lower chamber is on the same model as that for the provincial councils, which is briefly described below, except that, first, the property qualification for voters, and consequently for candidates, is higher, and past service with the colours is not *per se* a qualification for the franchise; and, secondly, that the constituencies necessarily cover a considerably larger area than constituencies for the provincial council. The franchise for the council of state differs in character from that for the legislative assembly and for the provincial council. In addition, and as an alternative to a high property qualification, the rules admit as qualifications certain personal attributes which are likely to connote the possession of past administrative experience or a high standard of intellectual attainment, *e.g.*, past membership of either chamber of the legislature as now constituted, or of its predecessor or of the provincial council, the holding of high office in local bodies, membership of the governing bodies of universities, the holding of titles conferred in recognition of Indian classical learning and literature. The distribution of seats in both chambers and the arrangement of constituencies are on a provincial basis, that is, a fixed number of the elective seats in each chamber is assigned to representatives of each province, and these representatives are elected

by constituencies covering an assigned area of the province.

The following table shows the allotment of the elective seats:—

Provincial Governments.—British India, for administrative purposes, is divided into 15 provinces, each with its separate local government or administration. In eight of the provinces—the three presidencies of Madras, Bombay and Bengal, the United Provinces of Agra and Oudh, the Punjab, Bihar and Orissa, the Central Provinces and Assam—the local government consists of a governor, an executive council of not more than four members and two or more ministers. In these eight provinces the executive government is a dual organism which owes its unity to the governor. One-half consists of the governor and his executive council; the other half is the governor acting with the advice of his ministers. The former half is responsible for the administration of those subjects which are "reserved," and to the latter is entrusted the administration of "transferred" subjects.

No change has been made in the machinery and methods of administration by that part of the provincial government which consists of the governor in council; decisions are taken at the council board, as before, by a majority vote, and the governor is entitled to over-rule such a vote in certain specified circumstances if he disagrees with it. For such decisions the governor in council remains, as before, responsible, through the Government of India, to the Secretary of State and to Parliament, and on questions of legislation and supply he has the power, in certain circumstances, of enforcing them despite opposition by a majority of the legislative council.

With regard to transferred subjects the position is very different. Here there has been an actual transfer of control from the British elector and the British Parliament to the elector and the legislative council in the Indian province. The provincial subjects of administration are grouped into portfolios, and just as each member of the executive council has charge of a portfolio consisting of a specified list of "reserved" subjects or departments, so each minister is directly responsible for the administration of those particular "transferred" departments which are included in his portfolio. But his responsibility lies, not, as in the case of

a member of the executive council, to the Government of India, the Secretary of State and Parliament, but to the Provincial Legislative Council of which he is an elected member and from which he is selected by the Governor as having the support of the majority of that body. He holds office during the governor's pleasure, but his retention of office is contingent on his ability to retain the confidence not only of the governor but also of the legislative council. The rules under the Act prescribe a list of twenty subjects which are transferred to the administration of the governor acting with ministers, the more important of which are local self-government, medical administration, public health, education (with certain reservations), public works, agriculture, excise, and development of industries.

In one province—Burma—the local government consists, pending further legislation, of the lieutenant-governor, assisted by a secretariat and headquarters staff. The remaining six provinces are directly administered by chief commissioners. No change has been made by the Act of 1919 in the system of administration in these six minor provinces, but Burma has been given separate provincial revenues, along with the eight major provinces, and representation on the Indian legislature.

Provincial Legislative Councils.—The Act provides that at least 70 per cent. of the members of the provincial councils shall be elected, and that not more than 20 per cent. shall be official members. The following table shows the present strength and composition of each of the provincial councils:—

Province.	Elected.	Nominated and ex-officio.		Total.
		Officials.	Non-officials.	
Madras	98	23	6	127
Bombay	86	20	5	111
Bengal	113	20	6	139
United Provinces	100	18	5	123
Punjab	71	16	6	93
Bihar and Orissa	76	18	9	103
Central Provinces	53	10	5	68
Assam	39	9	5	53

The electorates in each province are arranged for the most part on a basis designed to give separate representation to the various races, communities, and special interests into which the diverse interests of the Indian population naturally range themselves, and the franchise rules have given the vote to about 5,000,000 of the adult male population. The qualifications for electors, as also for candidates, vary in detail from province to province, but, generally speaking, both in rural and urban areas the franchise is based on a property qualification as measured by the payment of a prescribed minimum of land revenue, income tax or municipal taxes. In all provinces retired, pensioned or discharged officers and men of the regular army are entitled to the vote irrespective of the amount of their income and property.

Greatly enhanced powers have been conferred on the provincial legislative councils by the Act of 1919. The more important of these are—

- (1) The power to vote, and consequently (subject, however, to certain safeguards) to withhold supplies;
- (2) A greatly increased freedom of initiation in the matter of legislation; and
- (3) Power to frame their own rules of procedure in matters of detail, subject to the concurrence of the governor.

A further right which the councils will acquire after 4 years from the time of their commencement is the right to elect their own president, but from the outset every council has an elected deputy-president. The governor, who formerly was *ex-officio* president of his legislative council, no longer has any direct connection with its proceedings. The lifetime of a governor's legislative council is 3 years, unless it is dissolved sooner.

Judicature.—The presidencies of Madras, Bombay and Bengal, the United Provinces, Bihar and Orissa, and the Punjab, have each a high court, supreme both in civil and criminal business, with an ultimate appeal to the judicial committee of the privy council in England. Lower Burma has a chief court with five judges; Oudh has a judicial commissioner, who has for several years, on account of the growth of business, been assisted by two additional judicial commissioners; the Central Provinces and Berar have also a judicial commissioner assisted by three additional judicial commissioners; Upper Burma and the North-West Frontier Province have each a judicial commissioner. In Assam the high court of Calcutta is the highest judicial authority, except in three hill districts, in which the governor is judge without appeal. In the Shan States of Upper Burma (which are British territory) in respect of all cases triable by officers appointed by the local government, the lieutenant-governor exercises similar powers.

Indian Law.—The law administered in the Indian courts consists mainly of—(1) the enactments of the Indian legislative councils (imperial and provincial), as above described, and of the bodies which preceded them; (2) statutes of the British Parliament which apply to India; (3) the Hindu and Muhammadan laws of inheritance, and their domestic law in causes affecting Hindus and Muhammadans; (4) the customary law affecting particular castes and races. Much has been done towards consolidating special sections of the Indian law; and in the Indian penal code, together with the codes of civil and criminal procedure, we have memorable examples of such efforts.

Non-Regulation Districts.—Another difference of administration, although now of less importance than in former times, derives its name from the old regulations, or rules of law and practice which preceded the present system of acts of the legislature. These regulations, and in some cases the acts of the legislature which succeeded them, have been from time to time withdrawn as regards certain tracts of country which, from their backward state of civilization or other causes, seem to require exceptional

treatment. In non-regulation territory, broadly speaking, a larger measure of discretion is allowed to the officials, both in the collection of revenue and in the administration of civil justice; strict rules of procedure yield to the local exigencies; and the judicial and executive departments are to a great extent combined in the same hands. Closely connected with this indulgence in favour of the personal element in administration, a wider field is also permitted for the selection of the administrative staff, which is not confined to the covenanted civil service, but includes military officers of the Indian Army and also uncovenanted civilians. The title of the highest executive official in a district of a regulation province is that of collector-magistrate. In a non-regulation district, the corresponding officer is styled the deputy commissioner. The Punjab, Central Provinces, Assam, and Burma are examples of non-regulation provinces; but non-regulation districts are to be found also in Bengal, Sind, and the United Provinces. Their character is always disclosed by the office of "deputy commissioner."

The District Officer.—Alike in regulation and in non-regulation territory, the unit of administration is the district—a word of very definite meaning in official phraseology. The district officer, whether known as collector-magistrate or as deputy commissioner, is the responsible head of his jurisdiction. Upon his energy and personal character depends ultimately the efficiency of Indian government. His own special duties are so numerous and so various as to bewilder the outsider; and the work of his subordinates, European and Indian, largely depends upon the stimulus of his personal example.

Duties of District Officers.—As the name of collector-magistrate implies, his main functions are two-fold. He is a fiscal officer, charged with the collection of the revenue from the land and other sources, with the administration of the land as between landlord and tenant, and, in *ryotwari* tracts, with the settlement of cultivation and the assessment of the government demand; he is also a criminal judge, both of first instance and in appeal. But his title by no means exhausts his multifarious duties. He does in his smaller local sphere all that the home secretary superintends in England, and a great deal more; for he is the representative of a paternal, and not of a constitutional, government. Police, jails, education, municipalities, roads, sanitation, dispensaries, the local taxation and the imperial revenues of his district, are to him matters of daily concern. He is expected to make himself acquainted with every phase of the social life of the Indians, and with each natural aspect of the country. He should be a lawyer, an accountant, a surveyor, and a ready writer of state papers. He ought also to possess no mean knowledge of agriculture, political economy, and engineering.

Number and Grouping of Districts.—British India contains some 267 districts. They vary greatly in size and number of inhabitants. The districts in Madras and Burma are generally speaking the largest in India. In every province but Madras, the districts are

grouped into larger areas, known as divisions, each under the charge of a commissioner. But these divisions are not properly units of administration, as the districts are. They are aggregates of units, formed only for convenience of supervision, so that an intermediate authority may exercise the universal watchfulness which would be impossible for a distant lieutenant-governor.

Sub-division of Districts.—The districts are again partitioned out into lesser tracts, called sub-districts, sub-divisions, *talukas*, or *tahsils*. The system of partitioning, and also the nomenclature, varies in the different provinces; but, generally, it may be said that the sub-division or *tahsil* is the ultimate basis of administration. Broadly speaking, the sub-division is characteristic of Lower Bengal, where revenue duties are less prominent; the *tahsil* or *taluk* of Madras, Bombay, and Northern India, where the land settlement requires attention year by year. There is usually no administrative unit below the sub-division and *tahsil*. The *thana*, or police division, only exists for police purposes. The *pargana*, or fiscal division under native rule, has now only an historical interest. The village is, in nearly all parts of the country, the ultimate administrative unit, with a staff of local officials for the conduct of its affairs. In many cases it is also the unit for the purposes of land revenue, joint responsibility for the Government demand resting upon the whole proprietary community. In Burma the township, with a *Myō-shē* to administer it, corresponds to the *tahsil* of Northern India.

Judicial Functions of District Officers.—The judicial jurisdictions coincide for the most part with the magisterial and fiscal boundaries. But, except in Madras, where the districts are large, a single civil and sessions judge, i.e., the chief judicial officer of the district, often exercises jurisdiction over more than one district. In "non-regulation" provinces the deputy commissioner and his assistants used to be charged with the administration of civil as well as criminal justice, and the commissioner took the place of the civil and sessions judge; but in all the larger "non-regulation" provinces (except Upper Burma), the commissioner has, during recent years, been relieved of his judicial functions, which have been committed to a separate staff of judges, and district officers generally have now little to do with civil litigation for which separate courts have been established.

Secretariats of Supreme and Provincial Governments.—The preceding sketch of Indian administration would be incomplete without a reference to the secretariat, or central bureau of each province, which controls and gives unity to the whole. From the secretariat are issued the orders that regulate, or modify, the details of administration; into the secretariat come the multifarious reports from the local officers, to be there digested for future reference. The secretariat of the supreme government of India consists of eleven branches, each of which deals with a special department of the administration. The officers who preside over them are named respectively, the political and foreign secretaries, the home secretary, the secretary in the department of revenue and agriculture, the financial secretary (ordinary branch and military

finance branch, respectively), the secretary in the army department, the public works secretary, the secretary in the legislative department, the secretary in the department of commerce and the secretary in the department of education and health. The remaining two departments are the Railway Board and the Board of Industries and Munitions. In the presidencies and provinces the provincial secretariat is formed on the same model, but the secretaries are only from one to three or four in number.

Civil Service.—The administration of India in its superior offices is mainly carried on by the Civil Service of India, which consists of about 1,400 persons, of whom about 65 are Indians filling some of the highest positions. In addition, about 50 superior offices are reserved for members of the Provincial Civil Service. This latter body consists of about 2,570 persons, of whom over 2,000 are Indians, the remainder being Eurasians or domiciled Europeans. With the exception of the 50 posts of high importance reserved for this Service, its members are all subordinate judges and magistrates. In 1879 a rule was adopted that all appointments made in India, carrying salaries of Rs. 200 a month and upwards, should ordinarily be reserved for natives of the country. Indians thus manage by far the greater part of the business connected with all branches of the revenue and with the multifarious interests in the land. They dispose of the greater part of the magisterial work, a large part of which is done by honorary Indian magistrates, while the management of local roads, streets, hospitals, schools, and other improvements is in the hands of local bodies.

Provincial Finance.—Under the system of decentralization of finance, begun by Lord Mayo in 1870 and subsequently developed by successive stages, the government of India assigned to the provincial governments a fixed share of the revenue collected by them under certain heads. From the revenue so assigned the provincial governments were required to meet the whole of the expenditure within their respective provinces under certain heads, and a portion of the expenditure under other heads. Under the Montagu-Chelmsford reforms, however, there will be from 1st April, 1921, an almost complete separation between the finances of the central government and those of the provinces, the latter retaining the whole income from land revenue, irrigation, stamps, excise, forests, &c., whilst the whole income from customs, railways, posts and telegraphs and income tax (subject to a small deduction) will go to the former. The central government will defray all expenditure on defence and on the various services allotted to it, and the provinces will similarly be wholly responsible for the charges of their own services and also for expenditure on famine. The provincial governments will frame their own budgets, and will have certain powers of raising loans, and of imposing additional taxation within the area of their jurisdiction.

Land Revenue.—The land furnishes the chief source of Indian revenue, and the assessment, revision and collection of the land-tax form one of the most important duties of

Indian administration.* During the past fifty years the total increase of the gross land revenue has been 60 per cent. measured in rupees, though if measured in gold sterling the increase is only 6 per cent. This increase has been concurrent with a very much greater increase in the value of the gross agricultural yield, and the land revenue in British India as a whole in 1910-11 represented an average charge of less than 1s. 8d. per head. In the year 1856 the land revenue was above one-half of the total public income of the country; it is now less than one-fourth. The gross land revenue of 1919-20 (excluding the portion due to irrigation) was £22,609,943. The growth of the land revenue is attributable to a variety of causes—to the bringing of new land under cultivation, as in Lower Burma, the Central Provinces, Sind, and the Punjab; to the inclusion of Berar since 1902; and to the effect of settlements and resettlements, which, owing to the generally enhanced value of land, usually result in additions to the land revenue demand.

Permanent Settlements.—Bengal, Bihar, and a few districts of the United Provinces, and of Madras, have a permanent settlement, dating from 1793, 1795, and 1802 respectively, by which the land revenue has been fixed in perpetuity, so no appreciable increase takes place under that head. Since the revenue was settled there has been a great increase in the area of cultivation, and in the value of the produce; but the amount of land revenue on these permanently-settled estates remains at the figure fixed over a hundred years ago, and represents in Bengal about one-fifth of the rental, or perhaps one twenty-fourth of the gross value of the produce. This system also applies to parts of Assam and some of the minor provinces, and, in all, about one-fifth of the area of British India is permanently settled. In this area the land revenue may be said to be nothing more than a rent-charge, the burden of which has long ago been discounted by the reduced selling price of the land which it affects.

Temporary Settlements.—The land revenue on temporarily settled estates is fixed periodically at intervals of ten to thirty years; the latter period has, however, been fixed as the ordinary term of settlement, excepting in the Punjab and Central Provinces and Burma, where twenty years is the general term, and in backward or exceptional tracts. At periodical settlements the rates of revenue per acre are revised in some proportion to the change in prices since the previous settlement, the extensions of cultivation, the variation of prices, and the change in rents since the last settlement. At present the land revenue on temporarily settled lands represents something less than one-half of the actual or estimated rental, and is probably about one-tenth to one-twelfth of the gross value of the produce.

Zamindari and Ryotwari tracts.—When the revenue is assessed by the State, permanently or temporarily, on an individual or community owning an estate, and occupying a position identical with or analogous to that of a landlord,

the assessment is known as *zamindari*; where the revenue is imposed on individuals who are, or who represent, the actual occupants of holdings, the assessment is known as *ryotwari*. Under either system there may be rent-paying sub-tenants. In the permanently settled districts all holdings are *zamindari*. In the temporarily settled districts the *zamindari* estates are chiefly found in the Punjab, the United Provinces, the Central Provinces, and Orissa; while in Bombay and Sind, Burma, Assam, Berar, and most of Madras, the system of *ryotwari*, or peasant proprietors, prevails.

Salt Duty.—Prior to the reductions in the rate of duty made in the period 1903-07, salt ranked next to the land revenue among the items of public income in India. Up to 1878, the tax levied upon salt varied very much in different parts of the country; and a numerous preventive staff was stationed along a continuous barrier hedge, which almost cut the Peninsula into two fiscal sections. The reforms of Lord Lytton's government in that year, by which the control of the sources of salt production in the Native States was acquired, and the duties on salt in different parts of India brought into close approximation, made the abolition of the customs line possible. Railway communication has much facilitated the trade in salt, and it has been found that prices have been lowered by bringing the consumer nearer to his market, irrespective of the rate of taxation. The salt and customs duties are the only imposts that fall upon an Indian of moderate means who neither owns land, nor goes to law, nor consumes liquor or opium.

Sources of Supply.—Broadly speaking, the salt consumed in India is derived from four sources—(1) Importation by sea, chiefly from England and the Red Sea and Aden; (2) solar evaporation in shallow tanks along the seaboard; (3) the salt lakes in Rajputana; (4) quarrying in the salt hills of the Northern Punjab. The salt lakes in Rajputana are leased by the Government of India from the rulers of the native states in which they lie, and the huge salt deposits of the Salt Range mines are worked under government control, as also are the brine works on the Runn of Cutch. But there is no salt monopoly in India, and the importation of salt from foreign countries is freely permitted. At the Kohat mines, and in the salt evaporation works on the sea coast, with the exception of a few of the Madras factories, the government does not come between the manufacturer and the merchant, except so far as is necessary in order to levy the duty from the salt as it issues from the factory.

Rate of Salt Duty.—The salt duty, which had for some years stood at Rs. 2 a maund of 82½ lbs. for all India, and at 3 annas a maund for Burma, was raised on the 19th Jan., 1888, to Rs. 2½ a maund in India, and to one rupee in Burma. The alteration in the duty for the time checked consumption, which fell in 1888-89 below the average of the two previous years; but it subsequently recovered. From March, 1903, the

* Statistics relating to the revenues and expenditure of the Government of India are given in the Statistical Abstract.

duty for India was reduced to Rs. 2 a maund, and from March, 1905, to Rs. 1½ a maund. In March, 1907, the rate was further reduced to R. 1 (16d.) per maund. This reduction made the rate uniform throughout India and Burma, except in regard to the salt produced in the small state of Mandi in the Punjab, where the duty was 3 annas (3d.) per maund. These successive reductions led to a large increase in the consumption of salt throughout India. With effect from 1st March, 1916, the duty was raised to Rs. 1½ per maund in India generally, and to 3½ annas per maund on Mandi salt.

Revenue from Salt.—In the year 1861 the net salt revenue was £2,933,000, with a duty ranging from Rs. 1½ to Rs. 3½ and averaging Rs. 2½. In the year 1875 the net salt revenue was £3,825,000, with the same rates of duty, and in the year 1886-87 it was £4,094,000, with a uniform rate of Rs. 2 all over India, except Burma. The following table shows the consumption of salt in India and the rate of duty in recent years:—

Year.	Consumption of Salt in Tons.	Duty per Maund of 82½ lbs. av.	Total Revenue from all sources.
1910-11	1,512,000	1	£ 3,176,000

1917-18	2,084,000		5,499,000

Excise and Customs.—Excise duties in India are levied with the twofold object of raising revenue and restricting the use of intoxicants and narcotics. Over the greater part of the country licensed distillers work under supervision and pay a still-head duty before issue, according to alcoholic strength, on all liquor they make. In tracts where the population is sparse, a distiller obtains a licence to work an out-still of limited size and capacity, on payment of a monthly duty computed to cover the probable output of the still. This out-still system is in process of abolition except in the feverish and inaccessible country between Chota Nagpur and the Godavari river, and in certain small and isolated areas where adequate control would be impracticable. The normal system which will eventually prevail over the greater part of British India is based on the grant by contract of the right of wholesale supply, and the sale by auction of the right of retail vend. Liquor shops are licensed at such places and in such numbers as the actual local demand may justify, such licences to occupy and to sell liquor at shops being usually sold to the highest bidder, subject to the conditions that the privileges of manufacture and vend

must be completely separate, and that large vend monopolies, where they exist, must be broken up.

Retailers' Licences.—Licensed retail dealers are bound to get their liquor from a licensed still, to refuse liquor to children under 14 years of age, and intoxicated persons, to sell for cash only, and to close at specified hours. The wishes of the residents are allowed full weight when a licence for a new shop is proposed, or the transfer of an old shop is intended. Licences to open a shop, or a limited number of shops, for the sale of fermented toddy (palm tree sap), rice beer, and other fermented drinks, are usually sold by auction; and usually no distiller's or dealer's licence runs for more than a year, unless it be renewed. Hill and forest tribes are allowed to brew fermented drinks for their own use without duty. Beer brewed after English fashion, chiefly for European customers, has to pay the same duty as imported beer.

Opium and other Narcotic Drugs.—The opium revenue is raised on opium consumed in India under the head of "Excise" and on that sent from India to other countries. Poppy cultivation in British territory is now practically confined to a permitted area in the United Provinces. In 1920-21 the area was about 143,000 acres. The Patna factory was closed in Decr., 1911, and the crude opium grown in the permitted area is now all prepared at the factory at Ghazipur. Narcotic drugs sold at licensed shops consist almost entirely of opium and ganja, or other kinds of hemp. Opium is consumed in all provinces of India, though opium smoking is practically non-existent, except in Burma, being considered bad form. The drug is largely used for medicinal purposes, usually in the form of pills, and is a common household remedy. Cocaine, which was found to be coming into use as a narcotic, has been placed under the strictest legal restrictions as to sale and limit of possession. Tobacco is grown in nearly every village, and is smoked by most men, and by very many women and children in India; cigars and cigarettes are subject to an import duty of 50 per cent. *ad valorem*, and other manufactured tobaccos to a duty of R. 1 8a. per lb.; unmanufactured tobacco pays an import duty of R. 1 per lb.

Limitation of Opium Exports.—Towards the end of the year 1906 edicts were issued by the Government of China having for their object the suppression within ten years of the habit of consuming opium, and of the growth of opium, in China. Proposals were made for the co-operation of the Government of India in this object by the gradual restriction of the amount of opium exported from India to China and at the beginning of 1908 an arrangement was entered into by which the total quantity of opium (including Malwa opium) exported from India beyond seas was reduced from the hitherto existing standard of 67,000 chests by 5,100 annually. Under an agreement signed in May, 1911, the cessation of the trade was to be accelerated if the native production of opium in China was suppressed before the expiry of the 10 years' period and a further limitation was placed on the

exports to Chinese ports. In the year 1912-13 the stringent anti-opium measures adopted by the Chinese authorities and the consequent accumulation of stocks at Shanghai and elsewhere, led to the suspension of sales of opium destined for China. In Jan. 1913 the Government of India gave notice that the sale of opium for China would be suspended in April, and fixed an enhanced price for sales before that date which in effect operated as an immediate suspension of sales. It has since been decided that the trade to China shall not be resumed, and no opium has been exported to China since 1913-14. The total net receipts have been as follows:—

	£
1910-11	6,275,305
1911-12	5,231,826
1912-13	4,524,863
1913-14	612,438
1914-15	918,129
1915-16	769,183
1916-17	2,247,611
1917-18	1,970,121
1918-19	1,981,226
1919-20	2,167,312

The high receipts during the years from 1910-11 to 1912-13, when the quantity of opium sold at Calcutta and exported from native states had been reduced, were due to a sharp advance in the China market, followed by a rise in prices at Calcutta. The reduced receipts from 1913-14 to 1915-16 reflect the loss due to the cessation of the China trade; the rise in later years is due chiefly to an enormous rise in the price realised at the Calcutta auction sales—this rise being connected with the abnormal conditions caused by the war—and to the export from India to the United Kingdom of opium required for the manufacture of morphine for the allied and associated armies and their civil populations. With the entry of Turkey into the war India became the only source from which opium could be obtained for this purpose. The price of opium sold at Calcutta for export to the East rose rapidly after 1916, and at one time reached the phenomenal figure of over Rs. 6,600 a chest, as compared with an average of about Rs. 1,600 a chest in 1914. Latterly, however, there has been a considerable fall both in prices obtained and in amounts sold.

Customs.—The scope and rates of the import duties vary in accordance with financial needs. Before the Mutiny there was a general tax on imports at the rate of 5 per cent. In 1859 the rate was raised to 10 per cent. to meet, in part, the financial difficulties consequent on the Sepoy mutiny. In 1864 it was lowered to 7½ per cent., and in 1875 to 5 per cent. Between 1875 and 1879 various changes in the tariff were made with the object of reducing the number of articles taxed and exempting cotton goods from taxation, and in 1882 the prosperous state of the finances enabled the Government to abolish the remaining import duties. Special import duties on arms, salt, opium, and alcoholic liquors, and an export duty on rice, were

retained, and to these, in 1888, was added an import duty on petroleum. In 1893 the heavy burden thrown upon the finances by the fall of exchange made it necessary to reimpose a general duty of 5 per cent. *ad valorem* on imports. Cotton piece goods and yarns were at first exempted, but in 1894 these articles were made subject to the 5 per cent. tax, a corresponding excise duty being imposed at the same time on yarns spun in power mills in British India, in order to deprive the tax of any protective character. In 1896 a further revision of the cotton duties took place; cotton yarns or threads, whether imported or manufactured in India, were freed from duty, while a uniform tax of 3½ per cent. *ad valorem* was imposed on all woven goods imported from abroad or manufactured in India at power mills, the product of hand looms being exempted. From 1896 to 1916 there were few changes in the tariff, among the more important being increases in 1906 and in 1910 in the duties levied on spirits, and the imposition in the latter year of a special tariff on silver and tobacco. In March, 1916, however, an extensively revised scheme took effect. The general rate of 5 per cent. on imported articles was raised to 7½ per cent., special increased duties were levied on arms and ammunition, beer, wines and spirits, manufactured tobacco, sugar and other manufactures, and the number of articles on the free list was considerably curtailed. In addition, export duties, previously levied on rice only, were placed on jute and tea. The position as regards cotton remained, in the meantime, unaffected; but, in March of the following year, the import duty on cotton goods was raised from 3½ per cent. to 7½ per cent., the cotton excise duty being continued at 3½ per cent. In 1920 the import duty on silver was removed. With effect from the 1st March, 1921, the general *ad valorem* tariff rate on imported articles, which had stood at 7½ per cent. since March, 1916, was raised to 11 per cent., and an import duty of 20 per cent. was imposed on certain articles of luxury. The special rates of duty on imported liquors, foreign sugar and tobacco, other than manufactured tobacco, were increased.

Excise and Customs Revenues.—The total of the excise and customs revenues on liquors and drugs in 1919-20 was in round figures £12,700,000. This total gives an average of about tenpence a head on the whole population of British India as the revenue charge on the drink and drugs consumed during the year.

Income Tax.—Fifty years ago the trading and professional classes contributed little or nothing to the national burdens, and the Court of Directors reported in 1858 that "nearly two-thirds of the revenue of India consisted of the rent of land." In 1860 a tax was introduced on trading and professional incomes, and incomes derived from investments. Since that time, with short intervals, during which the impost was foregone, an income tax in one shape or another has formed part of the fiscal system of India. Under the present law no incomes below Rs. 2,000 a year are taxed, and incomes from land or agriculture, being otherwise taxed, are exempt. With effect from 1st April, 1921, incomes between Rs. 2,000 and Rs. 5,000 a year

pay five pies in the rupee (about $\frac{1}{2}$ per cent.), whilst those of Rs. 5,000 a year and upwards pay from six pies to one anna four pies in the rupee, according to a graduated scale. A super-tax ranging from one anna to four annas in the rupee is levied, in addition, on incomes in excess of Rs. 50,000 a year. The gross revenue from Income Tax, Super Tax and Excess Profits Duty in 1919-20 was £15,471,896. The excess profits duty was imposed from 1st April, 1919, for a period of one year only.

Stamp Duties.—Stamp duties before 1858 were levied mainly on litigation and on legal documents, and they yielded in the year 1859 a revenue of less than £750,000. In the year 1860 the stamp law was revised and placed more nearly on the system followed in England. Duties were imposed on trading and commercial documents. Since that year the rates of duty have been periodically revised, and the original scale of duties has been reduced in many respects. These duties now yield a net revenue of over £7,000,000, of which about two-thirds are levied from litigants in courts of justice and about one-third on trading and other documents. The judicial stamp revenue may be regarded in the light of payment for service rendered by the costly judicial establishment rather than a tax in the proper sense of the word.

Trade and Manufactures.—The extension of roads, railways, and canals, the improvement of seaports, the increase of the cultivated area, and the abolition of internal and reduction of external customs duties have caused a great expansion of Indian trade. The exchange of commodities between one province or one district and another has increased vastly, but we have no record of the internal trade of India before 1858. In that year the Court of Directors reported that the exports and imports of merchandise by sea from and into India were valued at 25½ and 14½ millions sterling respectively, or 39½ millions for the total foreign trade. The corresponding totals for the year 1920-21 were about 256 millions worth of exports and 336 millions worth of imports, making a total sea-borne trade, exclusive of Government transactions, of 592 millions sterling.

In all parts of the world a large and regularly expanding trade is rightly regarded as a sign of national prosperity. While India's external trade has gone on increasing, there has arisen within her borders a great cotton spinning and weaving industry, which already competes successfully with European manufactures in Eastern markets; there has grown up a great and rapidly increasing production of Indian coal; at the same time, new and valuable agricultural staples have been naturalised in the country. The next generation may, perhaps, see iron-works and the production of machinery in India on a large scale.

In old times India was a self-contained country, where every tract, more or less, made its own clothes from its own cotton, produced its own iron and made its own tools, grew and consumed its own food. Yarn was spun, cloth was

woven, iron was smelted, and tools were made on a small scale by individual workmen after rude methods. The domestic industries on India such as weaving and spinning, pottery, brass-work, iron-work, and art work of many kinds, continue to be practised after ancient methods all over the continent of India, but even before 1858 the old order was changing, and the change has been still more rapid since.

In recent years there has been much discussion in India regarding the advantages of encouraging manufactures for the purpose of securing greater diversity of occupation in a country that so largely depends on agriculture. The movement for promoting home industries, known as the *swadeshi* movement, has, in its legitimate forms, received official support. There are standing orders that stores required by Government shall, as far as practicable, be purchased in India and that purchasing officers shall in all cases give preference to articles manufactured in India from Indian materials (or from imported materials), provided that the quality is sufficiently good and the price not unfavourable.

Textiles.—Indian fabrics, made on a small scale by workers at their homes, have for years past been giving way before the cheaper cotton yarn and fabrics of British and Indian mills. On the other hand, without any advantage, other than is afforded by cheap Indian labour, and by the production of raw materials in India, an important manufacturing industry has been springing up, and steam-power factories are at work for spinning and weaving cotton, wool, and jute. There were at the end 1918-19 235 cotton mills in British India, containing 108,059 looms and 6,175,676 spindles. They employed a daily average number of over 260,000 persons. The cotton industry is to a large extent in the hands of Indians, and the capital employed is almost entirely rupee capital. The industry has increased more than fourfold since the year 1879. There has also been great progress in the jute industry; at the end of the year 1918-19 there were 76 jute mills at work, employing 275,500 hands. There were also six woollen mills at work, employing nearly 8,000 hands, making blankets, serges, and cloths for the Army and Police.

Other large industries.—There were eight paper mills at work in 1918; the development of paper-making in India has for the time being been checked by competition from cheap wood-pulp paper made in Europe. Printing presses, including government works, employed nearly 30,000 persons; iron, steel, and brass works, 28,000. In 1918 there were 16 breweries at work, which produced during the year over 8,000,000 gallons of beer; the principal customer for this malt liquor is the commissariat department, which buys for the use of European soldiers. Besides these, the rice mills, for husking and cleaning rice, and saw mills, most of which are in Burma, employ a large number of hands.

Foreign Trade.*—Exclusive of transactions in government stores and in treasure, the sea-borne foreign trade of India for the year 1920-21 stood in round numbers thus :—

<i>Exports :—</i>		£
Indian merchandise	238 millions.
Foreign merchandise, re-exported	18 "
Total	£256 millions.
<i>Imports :—</i>		
Merchandise	£336 millions.

The grand total of £592 millions was £56 millions less than the corresponding total of the previous year.

Exports.—The following table shows the chief articles of the export trade :—

	1919-20.	1920-21.
	£	£
Jute, raw, valued at	24,700,000	16,360,000
Jute manufactures	50,015,000	52,994,000

Barley ...	27,000	137,000
Rubber, raw	1,688,000	1,551,000

It will be seen that India's premier export is manufactured jute. The trade in cotton stands next in order of importance. Indian raw cotton, which is largely exported to Japan, is generally of an inferior grade, but it supplies the material for producing coarse, cheap goods for which there is always a great demand. The chief markets for Indian piece goods are Persia, the Straits Settlements, and Aden.

Imports.—The chief items of the import trade are :—

	1919-20.	1920-21.
	£	£
Cotton goods (including twist and yarn) valued at	59,080,000	102,120,000
Sugar ...	22,993,000	18,503,000
Iron and steel "	16,326,000	31,297,000
Machinery and millwork "	9,018,000	23,376,000
Mineral oil "	9,265,000	8,341,000

The special feature of the import trade is the great demand for cotton manufactures. The total imports of cotton piece goods in 1920-21 amounted to 1,491 million yards, valued at over £82,000,000, or about 25 per cent. of the aggregate value of all the merchandise imported. Sugar, of which India is a large producer, was imported to the extent of 237,000 tons, chiefly from Java, Mauritius, and the Straits Settlements. Mineral oil is chiefly imported from the United States, Borneo and Persia.

Of India's total seaborne trade in 1920-21, exclusive of treasure and Government stores, 44·1 per cent. was with the United Kingdom, 8·6 per cent. with Japan, and 12·4 per cent. with the United States. The total shipping entered and cleared to foreign countries at Indian ports during the same year was 15,473,221 tons compared with 12,999,992 tons in the previous year.

The frontier states or regions which have the largest land trade with India are :—

	1919-20.	1920-21.
	£	£
Nepal, with exports and imports of merchandise valued at...	8,106,000	8,790,000
Afghanistan "	5,374,000	2,872,000
Shan States "	7,986,000	9,158,000
Dir, Swat and Bajaur "	1,194,000	1,238,000
Tibet "	978,000	927,000
Western China "	1,892,000	1,677,000
Siam "	726,000	741,000

There was on the whole in 1920-21 a total trans-frontier trade in merchandise and treasure amounting to nearly 34 million pounds sterling.

Army.—At the end of 1856 the Indian Army consisted of 40,000 European soldiers and 215,000 native soldiers, besides 32,000 men in contingents paid by and serving in native states. At that time a large proportion of the Indian artillery consisted of native gunners. The

* In the sections on Trade and Manufactures and Foreign Trade, the trade figures for 1919-20 and 1920-21 are converted at the rate of 10 rupees to the pound sterling.

army of India consists ordinarily of about 75,000 British troops and a native army of about 160,000 troops. The field and horse artillery are now manned by Europeans. The armament of the troops has been changed by successive advances from smooth-bore muskets to breech-loading magazine rifles, and the horse and field artillery are armed with 12½ and 18½-pounder quick-firing guns instead of 6 and 9-pounder smooth-bore muzzle-loaders. Railways have made the concentration of troops within India or on its frontier ten times easier than it was in 1857. Transport and supply services have been organized, factories established for the manufacture of munitions of war, reserves of equipments and stores provided, and all arrangements made for the mobilization at short notice and maintenance in the field of a force of any strength that an emergency might require.

Officers and men, arms and horses, ammunition and *materiel*, commissariat and land transport, barracks and fortifications, all cost more than they did before the mutiny; while, therefore, for the year 1856 the cost of the army in India was £12,700,000, for the year 1919-20 the net charge was no less than £52,999,725. There was also a charge of £3,884,507 for military works, including special defences. The re-armament and military progress of other countries have compelled the Indian Government to increase the efficiency and strength of its army, as well as to augment the defensive works of the country; but within the borders of India the need for troops is less than it was; the peace of the oldest provinces is secured by a moderate garrison. The proportion of soldiers drawn from unwarlike races has been greatly reduced, while the proportion of Gurkha regiments and of soldiers from the martial races of northern India has been increased.

It may be mentioned that the health of the troops has been greatly improved by better barrack accommodation, by quartering a far larger proportion of Europeans at hill stations, and by careful sanitary precautions. For many years before the mutiny the average death-rate among European troops in India was 69 per thousand, and among native troops 20 per thousand. During the 5 years ending 1912 the death-rate averaged 6·1 per thousand among European and 5·4 per thousand among Indian troops. From 1913 to 1915, the average was, for British troops, 4·5 per thousand, and for Indian troops, 5·6 per thousand. The number of British soldiers invalided from India per thousand for the 6 years ended 1909 was

23 on the average; from 1910 to 1913 it was 7·3. In 1913 the mortality from enteric fever was the lowest on record, the number of deaths being only 18 (0·25 per thousand), as compared with 267 in 1904.

There are ordinarily in addition to the regular army 39,470 volunteers of European blood. The reserve of the Indian army numbers about 39,000 men, and will be increased gradually to 50,000. The Imperial Service troops, which are maintained for the defence of the Empire by the Indian Princes, number, in ordinary times, about 21,000 men, besides six transport corps. These troops are available for Imperial service when placed by the Chiefs at the disposal of the British Government, but otherwise belong absolutely to the States. They have reached a high standard of excellence and have done service in several campaigns.

Statistics relating to the army in India will be found in the Statistical Abstract.

Debt, Liabilities and Assets.—The total permanent debt is classified in the Accounts as (1) Public Works Debt, and (2) Ordinary Debt. The amount entered as belonging to the former category is the equivalent of the total capital expenditure which has been incurred by the State on Railways and Irrigation Works, including the amount advanced to Railway Companies for capital expenditure; the "Ordinary Debt" consists of the difference between the total debt in existence and the amount entered as Public Works Debt. The effect of this system of classification is to decrease the amount of the Ordinary Debt, with a corresponding increase in the Public Works Debt, in any year in which the capital expenditure on Public Works exceeds the amount of Debt incurred in the year, *e.g.*, owing to the use of surplus revenue or deposits for construction.

In the following table the sterling and rupee debts of India have been combined at the rate of Rs. 10 = £1, and for comparative purposes the same basis has been used for previous years. It will be seen from the table that on this basis of calculation the ordinary debt of India in the year 1916-17 had, by the process already described, been reduced to a minus quantity, *i.e.*, the total outstanding debt was then less than the total sum which had been spent by the Government of India on Railways and Irrigation. This position was altered in subsequent years owing to a portion of the first Indian War Loan being raised in 1916-17, and owing to the contribution of £100,000,000 made by India in 1917-18 towards the cost of the war.

There are also other obligations of the Government of India, including Post Office Cash Certificates, Savings Bank balances, Judicial and Departmental deposits, balances of Service Funds, &c., amounting on 31st March, 1921, to Rs. 80,96,40,609, and the various railway annuities, representing in 1920-21 an expenditure of Rs. 3,83,71,000. But of this last-mentioned sum, Rs. 1,09,07,000 was devoted to redemption of capital liabilities. The total liability redeemed by these annual payments amounted on 31st March, 1921, to Rs. 18,21,76,150.

On that date also the Government of India had lent Rs. 8,74,50,626 (net) to Native States, Corporations, Agriculturists, &c. Other assets were the Gold Standard Reserve, consisting of sterling securities of an estimated value of £38,951,416, and £4,883 in cash at short notice in London; the cash balances in India, Rs. 13,87,65,000; and the cash (Treasury) balances in England, £7,092,787.

DELHI.

The province of Delhi was created on 30th September, 1912, in pursuance of the policy announced by H.M. the King Emperor at the Delhi Durbar on 12 December, 1911, to move the capital of India and its seat of government from Calcutta to Delhi.

The province lies on the right bank of the River Jumna, and consists of that portion of the District of Delhi (in the Province of the Punjab) comprising the Tahsil of Delhi and Mahrauli Thana. It covers about 528 square miles, its area varying slightly from year to year with the changes in the deep stream of the river Jumna. Its population in 1921 was 486,741. It forms an Imperial *enclave*, of which the city of Delhi forms the principal feature.

The government of the province is conferred upon a chief commissioner, but certain powers and duties are reserved to the governor-general in council, and others are exercised by the governor of the Punjab [see the Delhi Laws Act, 1912 (xiii of 1912), and govt. of India

Notification, Home Dept., No. 1008, dated 1st Oct., 1912]. The chief commissioner exercises the functions of a commissioner of a division, financial commissioner, registrar-general of births, &c., and of joint stock companies, inspector-general of registration, and inspector-general of police. Other offices are performed by officials of the Punjab government.

MADRAS.

Extent and Area.—The Madras Presidency, officially known as the Presidency of Fort St. George, is the southernmost Province of the Indian Empire. With the five Indian States of Travancore, Cochin, Pudukkottai, Banganapalle, and Sandur, the State of Mysore and the small British Province of Coorg, it occupies the whole of the southern portion of the Peninsula. The Madras Presidency is washed by the sea on every side but the north. From south-west to north-east it reaches for nearly 1,200 miles along the Bay of Bengal from Cape Comorin to Lake Chilka; on the west it extends northwards for 450 miles along the Indian Ocean. The northern boundaries from east to west are Bihar and Orissa, the Central Provinces, the State of Hyderabad and the southernmost districts of the Bombay Presidency. Excluding the Indian States, the area is 142,330 square miles; the Indian States occupy an additional area of 10,549 square miles. The Amini Divi and Laccadive Islands form, for administrative purposes, a part of the Presidency.

Harbours.—In all its 1,700 miles of coast line, the Presidency does not possess a single natural harbour capable of accommodating ocean-going vessels; except Madras City, which has an artificial harbour, the ports are merely open roadsteads where ships lie at anchor and discharge their cargoes into surf-boats. Near the mouths of the great rivers these roadsteads are in constant danger of being silted up.

Rainfall.—Nearly the whole of the rainfall is carried by two chief currents, and its distribution

* Figures for 1920-21 are subject to revision.

is determined by the conformation of the hill ranges. The chief rain-bearing current is the south-west monsoon, which blows from the Indian Ocean from the end of May to the end of September, but the Western Ghats keep most of the moisture within the limits of the coast strip, where the rainfall, due to the monsoon, varies from 100 to 150 inches. On the landward side of the range the rainfall is generally less than 25 inches, and in many places even less than 5 inches. As the force of the south-west monsoon in north-eastern India dies away the current moves and drives inland from the Bay of Bengal during October, November and December, forming the north-east monsoon. The rainfall due to this current decreases from east to west as the clouds drift inland, ranging from 25 inches near the Pulicat Lake to less than 10 inches in the Deccan.

Cyclones.—At the change of the monsoons cyclones are common along the eastern coast. In 1864 a cyclone was accompanied by a storm wave which swept 17 miles inland over 80 miles of the low coast and drowned 30,000 people. The Kistna and Ponnaiyar rivers are liable to heavy floods. Earthquakes of a mild character are fairly frequent.

Population.—The population of the British territory in 1921 was 42,322,270, and of the Indian States 5,460,029. The great majority are of Dravidian stock, as is shown by the following table of languages spoken—compiled from the census figures for 1911:—

<i>Dravidian—</i>			<i>Spoken by</i>
Tamil	17,692,954
Telugu	15,799,936
Malayalam	6,755,940
Kanarese	1,609,334
<i>Indo-Aryan—</i>			
Oriya	1,663,272
Western Hindi	981,970
Others	1,713,839

In every 100 of the people 87 are Hindus, 7 are Mussulmans, and 5 are Christians. Sixty-six per cent. of the population are engaged in agriculture.

Agricultural Conditions.—The climate and solar heat are tropical, and, excluding the West Coast and the great deltas, the rainfall and water supply are generally uncertain and variable and often scanty, and atmospheric humidity is frequently slight. The deltas and river margins are of rich alluvial mould, and the retentive black cotton soil is found over large tracts, but owing to their geological origin and position, the soils of vast areas, including some of the black soil, are shallow and inferior. On the West Coast irrigation is unnecessary, but on the East Coast innumerable tanks and wells are scattered throughout the country. The chief staples of the Presidency are rice, cholam (a kind of maize), cumbu (a kind of millet), ragi and varagu amongst food-grains; gingelly amongst oil-seeds; and chillies, tobacco, sugarcane, plantains and betel-leaf amongst garden crops. Cotton is also largely cultivated.

Manufactures.—Madras is pre-eminently an agricultural province, and its factories are, for the most part, engaged in the working up of agricultural produce. Rice mills are found in large numbers in the great deltas of the Northern Circars and in Tanjore. Cotton spinning, weaving and ginning give employment to a large number of workers, and dyeing is carried on in almost every place where there are weavers. Tiles and earthenware of good quality are manufactured on the West Coast, and are sold inland and exported to Ceylon and Australia. Silk spinning and weaving, rope making, tanning, and the manufacture and refining of vegetable and mineral oils are other important industries.

Revenue Settlement.—Zamindari settlements cover about one-fifth of the whole Presidency; the remainder of the land consists mainly of Ryotwari settlements. The assessment for land revenue is nominally one-half of the estimated net produce, but as vast areas are subleased at a half or larger share of the actual full crop, or at from twice to five times the assessment, it is clear that the nominal assessment is often one-fourth, and on richer lands a sixth or less of the net produce. There are certain deviations in the assessment in favour of the cultivators, and about 15 to 25 per cent. is deducted for vicissitudes of seasons. The average rate for "wet" land is Rs. 5-9 per acre, for which Government supplies water; for "dry" land, including gardens, the average rate is R. 1. These rates have decreased 25 per cent. since 1855, although during that period the prices of grains have doubled.

Administration.—The Madras Government consists of the governor, an executive council of four members—of whom two are Indians—and three Indian ministers for transferred subjects. The members of the governor's executive council are appointed by the Crown, and one at least of them must have been in the service of the Crown in India for at least 12 years. There is the usual secretariat, and a board of revenue, consisting of four members, relieves Government of the detailed control of a large proportion of the revenue administration. The board is also a court of wards. The legislative council numbers 127, of whom 98 are elected and 29 nominated members; of the latter the maximum number of officials is fixed at 25. The four members of the executive council are *ex officio* members of the legislative council.

Sub-Divisions.—The Presidency is divided for purposes of administration into 26 districts or collectorates; the chief executive and magisterial officer of each is the collector and magistrate. Each district, with one or two exceptions, is again divided into a number of sub-divisions under the charge of deputy collectors, the majority of whom belong to the Indian Provincial Civil Service and are recruited in India. These sub-divisions again are divided into *taluks* in charge of native *tahsildars*. *Taluks* are divided into *firkas*, and the ultimate unit for all fiscal and administrative work is the village under a headman, an accountant, and a number of menial servants under their orders.

BOMBAY.

Boundaries and Area.—Bombay Presidency is bounded on the north-west, north, and north-east by Baluchistan, the Punjab, and the Indian State of Rajputana; on the east by the States of the Central India Agency, the Central Provinces, Berar, and Hyderabad; on the south by Madras and Mysore; and on the west by the Arabian Sea. Its area is 122,979 square miles. With the Indian States the total area is 186,923 square miles. Within the geographical limits of the Presidency are included the Portuguese Possessions of Goa, Daman, and Diu, with an aggregate area of 1,638 square miles, and the State of Baroda, with an area of 8,182 square miles.

Main Divisions.—In the north of the Presidency lies Sind, the lower valley of the Indus, cut off from the rest of the Presidency by the desert and the sea. Cultivation is, as a rule, possible only where irrigation exists, and the surface of the land is a monotonous desert. The plains of Gujarat, in the centre, are watered by many rivers, including the Narbada and the Tapti, and are the richest in the Presidency. Towards the Rann of Cutch the rich plains pass into salt and sandy waste, with a brackish subsoil. Cutch is an island cut off from the mainland by the great salt waste known as the Rann. Kathiawar Peninsula is connected with Gujarat by a neck of low-lying land partly covered by a large lagoon, the Nal. Southwards lie the coast strip of the Konkan, and the Western Ghats with the elevated regions behind the range.

Islands and Harbours.—There are numerous islands scattered along the coast; Cutch, Salsette, and Bombay, the most important, are separated from the mainland by creeks of salt desert or tidal mud. Anjidiv, a Portuguese possession near the port of Karwar, was one of the first places on the coast known to the ancients. The harbours of Bombay, Karachi, and Karwar alone are sufficiently landlocked to protect vessels from the south-west monsoon.

Rainfall and Temperature.—The rainfall, with the exception of occasional thunderstorms, is confined to the months between June and November, during which the south-west monsoon strikes the line of the west coast. Sind is almost rainless with a rainfall of about 2 inches; Gujarat has a more ample rainfall of 20 to 30 inches. The Konkan tracts receive 100 to 150 inches of rain, but the Deccan districts receive only 20 or 30 inches. The temperature is subject to great fluctuations in consequence of the variations in the rainfall, and ranges from a maximum of 126 degrees at Jacobabad in Sind to a mean of 58 degrees at the same station.

Bombay City.—The seven islands of which Bombay once consisted were ceded to the Portuguese in 1534, by Sultan Bahadur of Gujarat. In 1626, Bombay was partly burnt by the Dutch and English, but remained a Portuguese possession until 1661, when it came into the possession of the English under the terms of the marriage treaty between Charles II. and the Infanta of Portugal. In 1665, Humphrey Cooke took possession of the place on behalf of King Charles, and in 1668 it was

transferred to the East India Company. In 1708, Bombay became the headquarters of the Governor, and it soon became the naval base of the Company on the west coast. The Great Indian Peninsular Railway was commenced in 1850, and in 1864 the Bombay, Baroda, and Central India Railway was completed from the north. In 1855 the first contract was made for a fortnightly mail service, which became a weekly one in 1857.

Population.—The population of the presidency as enumerated in 1921 gave a total of 26,750,927 persons, of whom 19,338,586 were found in British territory and 7,412,341 in the Indian States. The settlement of Aden, which includes Sheikh Othman and the Island of Perim, has a population of 54,923. Between 1891 and 1901, owing to the ravages of famine and plague, the population of Bombay decreased by nearly 13 millions, or 5.5 per cent. During the next ten years the population increased by 1,616,108 persons, or 6.4 per cent.; but in this period also the mortality from plague was very heavy, the recorded deaths numbering 1,414,000. Of the total population in 1911 77 per cent. were Hindus, 18 per cent. Muhammadans, 1 per cent. Jains, and less than 1 per cent. Christians. The classification of the people in 1911 is shown by the following table of the languages spoken:—

Indo-Aryan—		Spoken by
Marathi	10,742,040
Gujarati	7,627,034
Sindi	3,495,554
Western Hindi	1,032,551
Dravidian—		
Kanarese	3,011,836

Agriculture.—Sixty-four per cent. of the population of the Presidency are engaged in or dependent on agriculture, and very little cultivable land remains uncultivated. The principal food crops are rice, *bajra*, *jowar*, and wheat. Of non-food crops cotton is the most important, about 9,000 square miles in the British districts being, in 1918-19, devoted to this crop. In Sind tillage depends on the rise of the Indus from March to August, the fields being watered by innumerable canals and water-courses. Wells are the chief source of irrigation in the rest of the Presidency, but canals are also in use; tanks are mainly found in the South. "Reserved" forests cover about 12,000 square miles.

Manufactures.—By far the most important industry in the Presidency is the cotton industry, which centres chiefly in Bombay and Ahmedabad. Hand-loom weaving is still extensively carried on, despite the competition of mills. In 1911, in the Presidency as a whole, there were 460,831 cotton workers, of whom 193,112 were mill-hands, and 267,719 home-workers. Besides these there were 26,344 silk spinners and weavers, of whom only 2,509 were mill-hands. The districts in which the silk industry is most flourishing are Surat, Ahmedabad, Bijapur and Dharwar. The raw material is imported from China, Bengal, Persia and Bangalore. Very beautiful, silk bordered *saris*, or women's robes, are made on hand-looms at

various places in the Bijapur, Dharwar, and Belgaum districts. The embroidery of articles with gold, silver and silk thread for the use of the Muhammadan and Parsi communities, and for the European market, is carried on in Sind, in Kathiawar, and at Baroda, Surat, and Bombay. Blankets are made in most districts, and saddle covers for camels and horses, shoes, leggings and accoutrements in Sind. The pottery made locally is mostly of the commonest description, but some very fine ware is produced in Sind. Ahmedabad and Surat are famous for carved wood-work. Carving in sandal wood, ebony and blackwood is carried on in Bombay and Surat.

Mines.—Mining in the Presidency has hitherto chiefly been confined to the production of gold and manganese, but the industry has never reached any very serious proportions. Iron-ore is found in many parts of the Western Ghats and among the hills that divide Gujarat from Malwa, but scarcity of fuel prevents operations on a large scale. Good building stone is found in the Thana district, and there are other important quarries at Kolaba, Hyderabad and Karachi. Fuller's earth is found in Sind.

Administration.—The government of the Presidency of Bombay consists of the governor, an executive council of four members, two of whom are Indians, and three Indian ministers. The members of the executive council are appointed by the Crown and one at least of them must have been for at least 12 years in the service of the Crown in India. There is the usual secretariat. The Presidency is administered by four commissioners—one in Sind, and one in each of the Northern, Central, and Southern Divisions. The divisions are split up into 25 districts under the charge of collectors, deputy collectors, and assistant collectors. The legislative council consists of 111 members, of whom 86 are elected and 25 nominated; of the latter the maximum number of officials is fixed at 20. The four members of the executive council are *ex-officio* members of the legislative council. There is a High Court at Bombay; and in Sind a Court of the Judicial Commissioner, over which the Bombay High Court has no jurisdiction.

Land Revenue.—In the Presidency, outside Sind, the land revenue system is, with few exceptions, *ryotwari*, and the term of settlement is 30 years. Practically the whole of Sind is under what is known as the irrigational settlement which includes the charge for irrigation water under land revenue. The term of settlement in Sind is 10 years. The rates vary from Rs. 1 per acre in Sind to Rs. 16-9 for garden land in the Northern Division, and form about 8 to 12 per cent. of the gross out-turn from the land. Extensive remissions are made in years of famine or other natural calamities.

BENGAL.

Boundaries and Area.—The Presidency of Bengal is bounded on the south by the Bay of Bengal; on the east by Assam, the Lushai Hills District and northern Arakan; on the north by

Sikkim and Bhutan; and on the west by the Province of Bihar and Orissa. The whole forms a governorship with an area of 78,699 square miles and a population of 45,483,077 persons. With the Indian States of Cooch Behar and Tripura the area is 84,092 square miles and the total population (1911) 46,305,642.

Climate and Rainfall.—Although Bengal is almost entirely outside the tropical zone, its climate for about two-thirds of the year, from the middle of March to the end of October, is tropical, the mean temperature being 83°. During the other months the temperature is much lower, about 64°, and the rainfall generally scanty. The south-west monsoon begins to strengthen from about the middle of May, bringing an increasingly heavy rainfall, and reaches its full strength by the middle of June. From the beginning of September the monsoon begins to fall off in strength, and has ceased by the end of October, when cool, dry, northerly land winds set in. The rainfall is unevenly distributed, the average annual fall ranging between 50 and 75 inches in the south-west, centre and west, and between 75 and 120 in most places in the south-east, east and north. On 25th September, 1899, a fall of 19½ inches occurred at Darjeeling, causing numerous landslips and some loss of life. Cyclones and storm waves from time to time sweep over the estuary of the Meghna, and in 1876 a great part of Backergunge and the adjoining districts was submerged to a depth of from 10 to 45 feet. Nearly 74,000 persons were drowned in Backergunge alone, and nearly 50,000 more died from the cholera epidemic that followed. In 1897 Chittagong district was similarly devastated; nearly 14,000 persons were drowned, and nearly three times that number died of the diseases that followed. Earthquakes of considerable severity have taken place in the past, by far the worst being that of 1897.

Population.—The population of Bengal (including the Indian States) on 18th March, 1921, was 47,549,350. In 1911 Muhammadans constituted 52 per cent., Hindus 45 per cent., and other religions 3 per cent. The people belong for the most part to the Bengali type. The main divisions, according to language, are as follows (1911 census figures):—

Indo-Aryan family—

Hindi	1,740,177
Bengali	42,565,828
Oriya	294,944

Agriculture.—A regular and copious rainfall, a fertile soil, and a dense population subsisting on the produce of the land are the distinguishing agricultural conditions in Bengal, but the factors of rainfall, soil and surface vary widely in different localities. Irrigation is not necessary in a great part of Bengal, but is resorted to for winter rice and a few other crops in the hill districts. In the Burdwan division rice cannot be grown without irrigation. The tracts in which periodical deposits of river silt maintain a perfectly level surface are eminently suitable for rice cultivation; in other alluvial districts the land is made suitable for rice by an elaborate

system of low embankments for holding up the rain water. Jute is grown in central Bengal at considerable profit, as it can be grown in addition to other crops. Other important crops are maize, wheat, barley, gram, millet, oilseeds, sugar-cane, tobacco and poppy (opium). Tea is cultivated in Darjeeling and Chittagong.

Manufactures.—Fine muslin is made at Santipur, and cotton goods are manufactured at Serampore. Jute is worked up into gunny-bags, sails and quilts on the banks of the Hooghly, and in small quantities in many parts among the Kapali caste. Raw silk is exported from Murshidabad. There are skilled workers in silver filigree work in Calcutta. Brass and copper utensils are made in most places, the metal being usually imported in sheets from Europe. Good earthenware is made in the Burdwan District. Mats of reed and bamboo and baskets are made everywhere. Hides are largely exported. Dacca was once famous for its fine muslins, but the trade has been killed by the introduction of European goods. A bleached white cloth is still, however, manufactured by the weavers of Dacca, as is also a cloth made of silk and cotton, and jute is here worked up into gunny-bags, sails, and quilts. Silk piece goods are manufactured in the Rajshahi Division, and at Murshidabad and Bishnupur. Cotton carpets are made in Rangpur. Dacca is noted for filigree gold and silver work; domestic utensils of brass and copper are made everywhere, and blacksmiths and workers in iron are found in all villages. The chief port is Calcutta on the Hooghly. Chittagong, 12 miles up the Karnaphuli river, on the east side of the Bay of Bengal, is older than Calcutta, but has until lately served a limited area, the chief business being the shipment of jute, rice, and tea. Dacca lies inland on a branch of the Meghna.

Administration.—Bengal (which formerly included Eastern Bengal and Assam, Orissa, Chota Nagpur and Bihar) was under the immediate control of the governor-general of India until 1854, when a lieutenant-governor of Bengal was appointed. Assam was made a separate Province in 1874, and in 1905 a further distribution took place, when the Province of Eastern Bengal and Assam was formed. Certain districts were transferred to this new Province, Bengal receiving other areas from the Central Provinces, the net result being a decrease in the area of Bengal from about 190,000 to 148,592 square miles. The province as thus rearranged was governed by a lieutenant-governor up to November, 1910, when an executive council was created to assist him. On the 1st of April, 1912, the province was reconstituted. The governor-general in council ceased to be governor of the Presidency of Fort William in Bengal, and a separate governor was appointed for the Presidency, to whom was committed the charge of the whole province.

The government of the Bengal presidency consists of the governor, an executive council of four members, of whom two are Indians, and three Indian ministers. The members of the executive council are appointed by the Crown and one at least of them must have been for at least 12 years in the service of the Crown in India. The legislative council numbers 139,

of whom 113 are elected members and 26 nominated members. The four members of executive council are *ex-officio* members of the legislative council.

Land Revenue.—The Land Revenue of Bengal is but a small fraction, representing about 4 per cent., of the value of the produce. Most of it was permanently settled at the end of the eighteenth century, and the *zamindars* and tenants have shared the benefit of the enormous increase in the value of the produce since that time, including that of land since brought under cultivation. As a result of the permanent settlement, Bengal pays a lower revenue than most of the other Provinces.

BIHAR AND ORISSA.

Extent and Boundaries.—The Province of Bihar and Orissa consists of Bihar, Chota Nagpur and Orissa. It is bounded on the north by Nepal, on the south by the Bay of Bengal, on the east by Bengal and on the west by the United Provinces and the Central Provinces. Its area is 83,181 square miles, and its population 34,490,084. With the Indian States the total area is 111,829 square miles and the total population 38,435,293.

Meteorological Conditions.—The mean annual temperature ranges from 82° at Cuttack to 75° at the elevated stations of Hazaribagh and Ranchi. May is the warmest month of the year, with mean temperatures between 85° and 94°. On the setting in of the rains in June a slight fall in temperature occurs, and the weather continues to become cooler until December, when the temperature nowhere exceeds 71°, while in Bihar and Chota Nagpur it is generally below 64°. The annual rainfall averages nearly 58 inches in Orissa, 53 inches in Chota Nagpur, and 50 inches in Bihar. Orissa has on more than one occasion suffered from disastrous famines, and it was devastated by the calamity of 1865-7. Earthquakes of considerable violence occurred in 1835 and 1897. Cyclones occasionally do great damage on the Orissa coast.

Population.—The total population of the Province (including its States) on 18th March, 1921, was 37,964,209. The census of 1911 shows that Hindus constitute 82 per cent. of the population, Muhammadans 10 per cent., Animists 7 per cent., and other religions 1 per cent. The people of the Province belong to three types: Dravidians in Chota Nagpur, Aryan-Dravidians in Bihar, and Mongolo-Dravidians or Bengalis in Orissa. The main divisions of the people, according to language, are as follow (1911 census figure):—

Indo-Aryan family—

Hindi	24,250,570
Bengali	2,274,944
Oriya	7,820,258

Munda family—

Santali	1,419,357
----------------	-----------

Agriculture.—Copious and regular rainfall renders irrigation far less essential in the province than in some parts of India. In Orissa irrigation works exist but are seldom used. In

Chota Nagpur rice cannot, however, be grown without irrigation, and rice is also irrigated in North Bihar at the foot of the Himalayas. Wheat and barley are commonly grown without irrigation. Rice is the principal crop, Patna being the centre of the great rice-growing areas; maize, wheat and barley are largely grown, and various other cereals and pulses. Sugar-cane is grown in North-west Bihar, and indigo, though the area under cultivation of the latter crop is shrinking. Jute is grown in Purnea. Tea is produced in Ranchi and Hazaribagh, and tobacco is grown more or less extensively for local consumption in every district. In Darbhanga, Purnea and Muzaffarpur it is also grown for trade and export. An agricultural research institute has been opened at Pusa, an agricultural college at Sabour, and experimental farms are established at various places in the Province.

Minerals.—Coal is the chief mining industry. The mines furnish over 60 per cent. of the total output of coal in India. The coal seams lie mainly in the Barakar and Damodar river valleys, the principal fields at present worked being at Giridih (Karharbari) in the Barakar valley, and at Jherria and in the Raiganj district in the valley of the Damodar, all within 200 miles of Calcutta. The output of coal in 1919 was 15,119,812 tons, valued at £4,107,952. Iron and copper ore are found in Singhbhum, and large iron works have been established there. Mica is found in the Gaya, Hazaribagh and Monghyr districts; saltpetre in Patna and Monghyr, and slate in Monghyr.

Manufactures.—Sugar is widely manufactured in the Tirhut and Patna Divisions. In these divisions also the manufacture of saltpetre is an important industry. Tobacco, guns, and articles of ebony inlaid with ivory and horn, are made in Monghyr, and silk and mixed silk and cotton fabrics at Bhagalpur. Leathers are tanned and leather goods manufactured at Jobra. The gold and filigree work of Cuttack has a high reputation. Bell-metal and brass utensils, carpets, coarse cotton cloths and blankets are manufactured in many districts throughout the Province.

Administration.—The Province of Bihar and Orissa was created on 1st April, 1912, and consists of the Bhagalpur, Monghyr, Purnea and Santal Parganas Districts of the former Bhagalpur Division of Bengal, and the Patna, Tirhut, Chota Nagpur and Orissa Divisions of the former Province of Bengal. It was formerly governed by a lieutenant-governor, with an executive council of three members—created in August, 1912.

The present government of Bihar and Orissa consists of the governor, an executive council of three members, and two Indian ministers. The legislative council numbers 103 members, of whom 76 are elected and 27 nominated; of the latter the maximum number of officials is fixed at 18. There is a High Court of Judicature at Patna.

ASSAM.

Extent and Boundaries.—The Province of Assam includes the Assam Valley Division, the

Surma Valley and Hills Division and the State of Manipur. It is bounded on the east by the hill tracts of Upper Burma, on the north by Bhutan and Tibet and the Himalayas, and on the west by Bengal and Hill Tippera. The total area is 61,471 square miles, of which 8,456 square miles are in the Native State of Manipur.

Meteorological Conditions.—The Province is freely open to moisture-laden winds from the Bay of Bengal, and lies beyond the influence of the dry air current which frequently blows down the Gangetic plain into Bengal during periods of hot weather; its climate is therefore notoriously damp. Cherrapunji, in the Khasi Hills, is one of the wettest places in the world, having a rainfall of 426 inches. The temperature ranges from 59° at Sibsagar in January to 84° in July. Earthquakes of considerable severity have taken place, by far the worst being that which occurred in 1807.

Population.—The total population in 1921 was 7,982,533, of whom only 383,672 were in Manipur. Of the total population in 1911, nearly two millions were Muhammadans, 3½ millions Hindus, and 1½ millions Animists.

Agricultural Products.—The Province enjoys agricultural advantages for which it would be difficult to find a parallel in any part of India, climate, soil, rainfall, and river systems all alike being favourable to cultivation. Rice is the staple food crop, about 4½ million acres being devoted to this crop. Except in the Himalayan Tarai irrigation is unnecessary. Jute and tea are the most important crops grown for export; the area under jute being generally about 95,000 acres, that under tea about 350,000 acres. Cotton, rubber and tobacco are also grown, and about 56 square miles are devoted to sugar cane. The total area of "reserved" forest is about 4,381 square miles, and the unclassified State forests cover about 18,401 square miles.

Mines and Minerals.—The only minerals in Assam worked on a commercial scale are coal, limestone, and petroleum oil. The most extensive coal measures are in the Naga Hills district, where about 300,000 tons are raised annually and used mainly by the river steamers and in the tea gardens. Limestone is quarried in the Khasi and Jaintia Hills, in Sylhet, and in the Garo Hills. Petroleum is worked only in Lakimpur; the oil is rich in paraffin, and the chief products are light naphthas, kerosene and wax. The oil is sold locally, and the wax is exported, mainly to England.

Manufactures.—Silk is manufactured in the Assam Valley, the weaving being done by the women. Cotton weaving is also largely practised by the women, and almost every house contains a loom; the cloth is being gradually displaced by imported goods of finer texture and colour. Boat building, the making of brass and metal and earthen wares, tea manufacture and limestone burning are the other chief industries apart from agriculture, which itself supports about 86 per cent. of the population.

Administration.—The Province of Eastern Bengal and Assam was formed on 16th October, 1905, and consisted of Assam, the Dacca, and Chittagong Divisions, the Districts of Rajshahi, Dinajpur, Jalpaiguri, Rangpur, Bogra, Panna,

and Malda, and the States of Tripura and Manipur. Up to 1st April, 1912, the province was governed by a lieutenant-governor, with the assistance of the usual secretariat and a revenue board. On that date the Chittagong, Dacca and Rajshahi Divisions, and the administration of the State of Tripura were transferred to the new Presidency of Bengal, while the Assam Valley Districts Division, and the Surma Valley and Hill Districts Division, together with the State of Manipur, were taken under the immediate authority of the governor-general in council and formed into the chief commissionership of Assam.

From the 1st January, 1921, Assam became a governor's province. The government now consists of the governor, an executive council of three members, and two Indian ministers. The legislative council numbers 53, of whom 39 are elected members.

THE UNITED PROVINCES OF AGRA AND OUDH.

Extent and Boundaries.—A Presidency of Agra was first formed in 1834; in 1836 its name was changed to the lieutenant-governorship of the North-Western Provinces. Oudh was annexed in 1856, and became a chief commissionership with a separate administration. In 1877 these two Provinces were brought together under the lieutenant-governor of the North-Western Provinces and chief commissioner of Oudh, and in 1902 the name of the Provinces was changed, and the title of chief commissioner dropped. In 1911 the State of Benares was formed by the transfer of certain areas from British to States territory. The Provinces cover a total area of 105,402 square miles; the area of the three Indian States, Benares, Rampur and Tehri, is 5,944 square miles more. On the north the Provinces are bounded by Tibet, on the north-east by Nepal, on the east and south-east by districts of Bihar and Orissa, on the south by the Central Provinces and Central India Agency, and on the west by Gwalior, Dholpur, Bharatpur, and the Punjab.

Meteorological Conditions.—The monsoon rainfall in the plains is about 40 inches, in the outer Himalayas about 100 inches, and beyond the outer Himalayas about 30 inches. The monsoon rains may come from either the Bengal or the Bombay current, and the heaviest rain is caused by the meeting of the two currents. The average temperature varies from 47 or 48 degrees in January to 107 degrees in May. The highest maximum was 120 degrees at Agra in 1878, but temperatures of 115 to 116 degrees are reached at one place or another nearly every year. Destructive storms and cyclones are rare, and none of importance have been recorded. Earthquake shocks are occasionally felt, but are not serious.

Population.—The total population in 1921 was 45,590,945, and with the Indian States 46,725,770. The pressure on the soil is greater than in any other Province of India, excepting Bengal, the number of persons per square mile in 1911 being 427. The three chief

languages are Western Hindi, spoken by 45 per cent. of the population, Eastern Hindi (of which the official language, Urdu or Hindustani, is a dialect), spoken by 32 per cent.; and Bihari, spoken by 20 per cent. In 1911 Hindus numbered 40·8 millions, or more than 85 per cent. of the total population, and Mussulmans 6·9 millions, or 14 per cent. The three main physical types are Dravidian, Mongoloid, and Aryan. The majority of the people show a mixture of the first and last types. The Mongoloid type is found in the sub-Himalayan and Himalayan districts.

Agriculture.—About 72 per cent. of the people of the Provinces are dependent on agriculture. Rice is grown during the rains, and occupies about 20 per cent. of the cultivated area of the Provinces. Wheat is grown during the winter, and occupies about 25 per cent. of the cropped area, while gram occupies 15 per cent. and barley 13 per cent. Other crops are *jowar*, *bajra*, maize, pulse, and oilseeds. Cotton occupies 3 per cent. of the cropped area, and hemp is also grown. Opium is grown in irrigated areas. Sugar-cane occupies 4 per cent. of the area under cultivation, and is usually irrigated. Indigo cultivation is declining. The irrigated area is about one-fourth of the total area under cultivation, about one-fifth being irrigated from canals, and four-fifths from wells, tanks, and other sources. In the British districts there are about 13,000 square miles of forest lands.

Mineral Products and Industries.—Iron and copper are found in the Himalayan districts, but mining operations are not a commercial success. Gold is found in minute quantities in some of the rivers near the hills. Limestone is found in the Himalayas, but is used only locally. *Kankar*, a form of calcium carbonate, is found in beds a few feet below the surface in most parts of the plains, and is used for metalling roads and for lime making, and sometimes for building. A fine sandstone, used for dock building, municipal drains and private houses, is largely quarried in Mirzapur district. Peat is found in the Upper Doab, and coal is known to exist in Southern Mirzapur, though its extraction has not so far been commercially profitable. Salt is manufactured during the process of refining saltpetre, which is prepared from nitrous earth. Cotton weaving is carried on in most districts as a home industry. Muslin and silk are made in several towns. Blankets, cotton carpets and woollen carpets, are made in many districts. Embroidery is done everywhere, but chiefly in Lucknow (where it represents the famous *chikan* work of silk or cotton on muslin) and Benares (where it consists of gold or silver work on velvet, silk, crape and sarsenet). At Cawnpore there are large cotton and woollen mills, tanneries which produce all kinds of feather goods, and sugar refineries. Cotton mills are also working in Agra, Mirzapur, and Hathras. At Lucknow there are a brewery and a paper mill.

Administration.—The government of the United Provinces consists of the governor, an executive council of two members and two Indian ministers. There is the usual secretariat and a board of revenue. There are 10 divisions,

divided into 48 districts, 36 of which are in Agra and 12 in Oudh. The legislative council numbers 123, of whom 100 are elected and 23 nominated members. There is a High Court in the Province of Agra, and a Court of the Judicial Commissioner in Oudh.

The settlement for land revenue purposes is ordinarily for a period of 30 years, and the Government share of the rental "assets," on which assessment is based, is one-half.

PUNJAB.

Extent and Boundaries.—The Punjab, or land of the five rivers, is the country enclosed by the Jhelum, Chenab, Ravi, Beas and Sutlej; but the Province includes also the table-land of Sirhind between the Sutlej and the Jumna, the Sind-Sagar Doab, between the Jhelum and the Indus, Dera Ghazi Khan and part of Mianwali District. The total area, including Delhi, is 136,330 square miles, of which 36,551 square miles belong to Indian States. The Himalayas divide the Punjab from Kashmir and the North West Frontier Province. On the west the Indus forms its main boundary with the latter Province; and the Sulaiman Mountains divide it from Baluchistan. On the south-west the Punjab adjoins Sind, and the Rajputana Desert forms its southern border. On the east the Jumna and its tributary, the Tons, divide it from the United Provinces of Agra and Oudh, its frontiers north of the latter river being contiguous with Chinese Tibet.

Meteorological Conditions.—Over the greater part of the Punjab the climate is of the most pronounced continental character, extreme heat alternating with great winter cold; but its diversified surface modifies very largely the temperature, weather and climate in different parts of the Province. There are two well-defined rainy seasons in normal years; the first, or period of the north-east monsoons, includes the "Christmas" rains which fall between the end of December and the middle of March; the second is that of the south-west monsoon from the end of June to the middle of September. The highest average rainfall is 117 inches at Dharmasala, and the average is probably nowhere less than 55 inches in the Punjab Himalayas. In the plains the average is from 30 to 40 inches, but in the west and south-west lies a dry area characterized by an extremely light and variable rainfall, and extreme heat and dryness. For four months of the year nothing can be more perfect than the Punjab climate, with its bright sun and invigorating air. Severe cyclonic storms are practically unknown; hailstorms are fairly frequent, and often cause considerable damage to the crops. Earthquakes of a severe character are not uncommon, especially in the region of the "main boundary fault" of the Himalayas. In the Kangra earthquake of 1905 about 20,000 people perished.

Population.—The total population of the Province in 1921, including Delhi, and the Baloch tribes on the border of the Dera Ghazi Khan District, was 25,580,535, of whom 4,415,401 were in the Indian States. The ethnical type is

distinctly Aryan, there being few traces of aboriginal or foreign blood, if the Tibetan element in the extreme north-west be excluded. Socially the landed classes stand high, and of these the Jats, numbering in 1911, 4,956,536, are the most important. By religion the Jats are essentially Hindus, and they also comprise the great mass of the Sikhs, the Sikh Jats being mainly confined to the Central Districts of the Punjab. There are nearly two million Muhammadan Jats. The Rajputs (1,635,432) are next in importance to the Sikhs; the majority of them are Muhammadans, and they furnish many recruits to the Indian army under the general designation of Punjabi Muhammadans. The Hindu Rajputs are found mainly in the north-east corner of the Punjab.

Agriculture.—Agriculture affords the main means of subsistence to 58 per cent. of the total population. The Punjab is essentially a country of peasant proprietors, landholders and tenants and their families numbering nearly 14 millions. The principal crops are wheat, gram, and barley in the spring, and maize, *jowar*, *bajra* and rice in the autumn. Cotton is grown in increasing quantities; oilseeds, hemp, sugar-cane, poppy, tobacco, tea and indigo, are other crops. The development of canals has led to a great expansion of the area under spring crops, especially wheat, rather more than half the area under this crop being irrigated. Of the whole area under cultivation 42 per cent. is irrigated, mainly from wells and canals, and 7 per cent. more is subject to inundation from the rivers. Further areas are being placed under cultivation as the irrigation scheme sanctioned in 1905 comes into operation. There are about 8,700 square miles of State forest land, the surplus revenue from which produces about £30,000 a year. The main source of wealth of the Province lies in its export of wheat, of which about 500,000 tons are exported annually.

Mineral Products and Industries.—The Punjab is not rich in minerals. Saltpetre, carbonate of soda, sal-ammoniac and nodular limestone (for metallurgical roads), are the principal products of the plains. Saltpetre is exported to Europe. Rock-salt from the Salt Range is the most valuable mineral. Coal is mined near Dandot, in the Jhelum District, and attempts have been made to work seams in other parts. Gold-washing is carried on at various places in the upper reaches of most of the rivers, but the industry is not remunerative. Iron of the best quality and copper ores are plentiful, but difficulties of carriage and absence of fuel have hitherto prevented smelting on a large scale. Cotton-spinning is the great domestic industry of the Province, coarse cotton cloth being woven by hand in almost every village. Finer qualities are also made, and cotton rugs, and cotton-pile carpets. Blankets and woollen rugs are produced in large quantities. Silk is imported from China, and woven along with cotton or wool, or in its pure state. The carpets of Amritsar, made of *pashm*, the fine hair of the Tibetan goat, are exported to all parts of the world. The number of workers in gold and silver goods far outnumber those in iron and steel. Brass-ware, copper-ware and earthenware are manufactured for domestic use. Ivory

carving is carried on in Amritsar, Delhi and Patiala.

Administration.—The government of the Punjab consists of the governor, an executive council of two members, and two Indian ministers. There is the usual secretariat. The civil administration is carried on by the Punjab Commission, a body now exclusively recruited from the Indian Civil Service, though before the formation of the North-West Frontier Province one-fourth of the cadre was drawn from the Indian Army. There are 5 Divisions, 29 Districts, and 34 Indian States. The legislative council numbers 93, of whom 71 are elected members.

Land Revenue.—The settlements of land for the purpose of assessing the land revenue are usually in force for a term of 20 years, and assessments have generally been noted for their moderation. The land is divided into two main classes, irrigated and unirrigated; and in the latter is included moist (*sailab*) land, not actually irrigated, in river valleys and on the banks of hill torrents. Sailab land on hill torrents is sometimes assessed at Rs. 4 per acre; other unirrigated land pays from 3 or 4 annas to Rs. 2 or Rs. 2-8 per acre. The assessment of canal-irrigated land varies according to the value of the advantages conferred by the canal. Land irrigated by wells pays 12 annas to Rs. 6 or Rs. 7 per cultivated acre.

CENTRAL PROVINCES.

Extent and Boundaries.—The Central Provinces comprise a large portion of the broad belt of hill and plateau country which lies between the plains of Hindustan and the Deccan. The area is 113,231 square miles, of which 82,057 are British territory, the remainder held by feudatory chiefs. The Province is bounded on the north and north-west by the Central India States and the United Provinces; on the west by the States of Bhopal and Indore and by a part of Bombay; on the south by Berar, the Nizam's Dominions and part of Madras; and on the east by Madras and the Tributary States of Bihar and Orissa. They are thus enclosed on nearly every side by Indian States. Berar, with an area of 17,766 square miles, is leased in perpetuity from the Nizam of Hyderabad, and has been administered by the chief commissioner of the Central Provinces since 1st October, 1903, but this descriptive account generally treats of the Central Provinces without Berar.

Population.—The population of the districts now comprised in the Province was, in 1921, 15,976,996, including 2,068,482 in Indian States. The main divisions of the people, according to language (1911 figures), are:—

Indo-Aryan—		Spoken by
Hindi	...	7,506,164
Marathi	...	5,012,099
Eastern Hindi	...	1,033,483
Oriya	...	302,635

Dravidian—

Gond	...	1,167,015
------	-----	-----------

In 1911 about 12½ millions, or 80 per cent. of the total population, were Hindus, 2½ millions were Animists, 385,000 Musalmans, 73,000 Christians, and 71,000 Jains.

Agriculture.—The Province is essentially agricultural, about 75 per cent. of the total population being either wholly or partly maintained by agricultural labour. Wheat, linseed and grain are largely grown in the heavy black soil of the Nerbada Valley and the level portions of the Vindhyan and Setpura plateaux. Cotton and *jowar* are grown in the shallow black soil lying over the surface of basaltic rock, while in the sandy and stony uplands only cheap millets can be produced. Rice is the most important crop in the Province, covering over 7,000 square miles, or 26 per cent. of the total cropped area, in the level plains near the rivers from which the rice fields can be irrigated. "Reserved" forests cover about 20,000 square miles, or 20 per cent. of the total area of the Province, and produce a surplus revenue of about £82,000 per year.

Mineral Products and Industries.—Coal measures occur in various parts of the Province in the Barakar group of Gondwana rocks, and mining operations take place in the Mohpani field near Gadawara, in Chhindwara, and at Bandar, near Warora. Iron ores of good quality occur in various places, the best known centres being Sihora in Jubbulpore, and Tendukheda in Narsinghpur. Manganese ores are found in several districts, the most important mines being in the Ramtek *tahsil* of Nagpur district. Limestone, fullers' earth and building stone are found in several places. The principal manufactures are silk-weaving, cotton-weaving, &c., gold and silver work, brass, copper and bell-metal work, and the making of glass bangles. Pottery, bamboo work and blanket-weaving are of somewhat less importance. There are cotton mills at Nagpur, Hinganghat, Jubbulpore, Pulgaon, and Raj-Nandgaon in the Nandgaon State. Jubbulpore possesses also a brewery, some pottery works, and the central gun carriage factory, which was opened in 1905. There is a match factory at Kota, in Bilaspur, and a brick and tile factory belonging to the Government at Warora.

Administration.—The government of the Central Provinces consists of the governor, an executive council of two members, and two Indian ministers. There is the usual secretariat. The Province is divided into four divisions and 18 districts. The legislative council, which came into being in January, 1921, numbers 68, of whom 53 are elected members. The judicial commissioner is the highest court of appeal; he is assisted by an additional commissioner for the Central Provinces, and another for Berar. The period now adopted for land revenue settlements is 20 years, but settlements have been made for various terms. In *zamindari* estates the revenue is fixed at a favourably low rate, as a rule not exceeding 40 per cent. of the "assets"; in *ryotwari* settlements the whole of the ryot's payment is taken as the Government revenue, subject to a small drawback to the managing headman for the trouble of collection.

BURMA.

Area and Boundaries.—Burma is the name given to the country stretching along the western edge of that portion of the Continent of Asia which lies between the Bay of Bengal and the China Sea and is known generally as Indo-China. It has an area of approximately 230,839 square miles. Due north, the boundary between Burma, Tibet, and China has not been precisely determined. Assam, Manipur, the Lushai Hills, and the Chittagong Hill tracts hem it in on the north-west, and its western border is the Bay of Bengal. Its north-eastern and eastern frontiers march with the Chinese Province of Yunnan, the Chinese-Shan and the Lao States, the French possessions in Indo-China, and the kingdom of Siam; and on the south it is bounded by that portion of Siam which forms part of the Malay Peninsula. Its extreme width is about 575 miles, and its extreme length about 1,200 miles. The Chinese name for Burma is "Mien," and the Burmese name is written "Myanma," though ordinarily pronounced "Bama."

Meteorology.—Burma has long enjoyed an unenviable notoriety in the matter of climate, but is slowly outgrowing its reputation as an irredeemably pestilential region. Malarial diseases are very prevalent in certain localities, but jungle-clearing and conservancy have worked wonders in the past few years, and the majority of places inhabited by Europeans are as salubrious as average stations in the East. The rainy season extends from May to October. The average annual rainfall varies from 200 inches at Tavoy and 187 inches at Akyab to 31 inches at Mandalay and 44 inches at Maymyo. The average mean temperature ranges from 88° at Mandalay in May to 70° in January at the same station. At Maymyo (a hill station) the mean temperature ranges from 71° in May to 53° in January. Storms and cyclones occur during the rainy season, being most frequent in May.

Population.—The total population of the province in 1921 was 13,205,564. In the year 1911, 1,127,075 persons dwelt in towns, and 10,987,242 in rural areas. The indigenous languages of Burma belong to the Mon-Khmer and Tibeto-Chinese families of languages, except Dainnet, a corrupt form of Bengali, spoken in Akyab district, and Salon (Selung), the speech of the sea-gypsies of the Mergui Archipelago, which is said to belong to the Malay group of languages. Caste is unknown as an indigenous institution in Burma. In 1911, 86 per cent. of the people were Buddhists; the remainder were Animists, Muhammadans, Hindus, and Christians.

Agricultural Products.—The great majority of the people are agriculturists. Rice is grown wherever there is suitable land and sufficient moisture. In the dry zone of Upper Burma, sesamum, maize, *jowar*, cotton, beans, wheat, and grain are grown largely in place of rice. Wheat and grain are grown in the better kinds of lowland soil, and beans and maize are sown in the rich alluvial soil left behind by the flood waters of the rivers. Cotton is grown in some

tracts of the dry zone, as is also the toddy-palm. Tobacco is grown in the alluvial land; chillies, sugar cane, onions, plantains, mango trees, pineapples, and oranges are also widely grown. In certain of the hill tracts tea and coffee are cultivated with moderate success. Rubber is also grown on a commercial scale in various districts. Irrigation by canals, wells, and tanks is necessary for the cultivation of rice crops in Upper Burma.

Fisheries and Forests.—The fisheries of Burma are important, financially and otherwise. From time immemorial the exclusive right of fishing in certain classes of inland waters has belonged to the Government, and is usually sold by auction. Here and there along the coast are turtle banks, which yield a profit to Government. The waters of the Mergui Archipelago abound with fish. Pearl fishing is carried on by the natives. The forests of Burma yield a surplus of about £450,000 a year. Teak is the most valuable timber exported.

Mineral Products and Industries.—Petroleum is extracted in Arakan, and tin in Tavoy and Mergui districts, but hardly anything in the shape of regular mining operations is carried on in the rest of Lower Burma. The principal oil-bearing areas are in the dry zone of Upper Burma; gold, rubies, jade, amber, and coal have been found in paying quantities only north of the 22nd parallel of latitude. Coal has been found in the Northern and Southern Shan States, and to the west of the Chindwin River, in the Upper Chindwin district, in Thayetmyo, in Mergui, and in Shwebo district. Iron is found in the Shan States, Mergui, and elsewhere, but it is not systematically dealt with, and iron-smelting is a purely local village industry. Mogok is the headquarters of the ruby mining area; the mines are situated in the hills, 60 miles east of the Irrawaddy, and about 90 miles from the city of Mandalay. The domestic industries of the people include cotton-weaving, silk-weaving, gold and silversmiths' work, brasswork, the making of earthen vessels or cooking, lacquer work, the making of sandals, matmaking, and cart and boat building.

Administration.—Burma was constituted a lieutenant-governorship in 1897. There are 8 commissioners' divisions and 37 districts. A legislative council, consisting of 9 members, with the lieutenant-governor as president, was constituted in 1897. In 1909 the number of members was raised, under the provisions of the Indian Councils Act, 1909, to 15. One member is elected by the Burma Chamber of Commerce, and 14 members are nominated by the lieutenant-governor with the sanction of the governor-general, of whom not more than six are officials; the rest are non-officials, of whom not less than four are selected from the Burmese population, and one from the Indian, and one from the Chinese communities. The lieutenant-governor may also nominate two members having expert knowledge of subjects connected with proposed or pending legislation, but the official members must not be in the majority in the council.

NORTH-WEST FRONTIER PROVINCE.

Boundaries and Area.—This Province was constituted on 9th Nov., 1901, and, as its name denotes, is situated in the North-West Frontier of the Indian Empire. On the north it is shut off from the Pamirs by the mountains of the Hindu Kush, on the south it is bounded by Baluchistan and the Dera Ghazi Khan District of the Punjab, on the east by Kashmir and the Punjab, and on the west by Afghanistan. The approximate area is 38,918 square miles, of which only 13,418 are British territory, the remainder being occupied by tribes under the political control of the agent to the governor-general in the five political charges of Dir, Swat and Chitral, Khaibar, Kurram, Tochi and Wana.

Meteorology.—Climatic conditions are extremely diversified, the Dera Ismail Khan District being one of the hottest areas in India, while in the northern mountain region the weather is temperate in summer and intensely cold in winter. The air is generally dry and the daily and annual ranges of temperature are frequently very large. There are two wet seasons: one the monsoon, the other in winter when storms from Mesopotamia, Persia and the Caspian districts bring widespread rain and snowfall. Both sources of supply are precarious, and not infrequently one of them fails. The lightest annual rainfall is that of Dera Ismail Khan (9 inches), the heaviest that of Hazara, Abbottabad having a rainfall of 46 inches. The temperature in Dera Ismail Khan rises during the hottest part of the year to between 113° and 118°; in Peshawar it is between 113° and 119°. In the cold weather it is about 55° at Peshawar, and 58° at Dera Ismail Khan.

Population and Agriculture.—The population of the districts and administered territories in 1921 was 2,247,696; of the agencies and tribal areas, 2,828,055. The Pathans are the most numerous and important class; next in order come the Awans, Gujars, Jats, Saiyids, Tanaolis, Malliars, Dhunds, Balochs, Rajputs, &c. Pathan denotes status, and is not now a racial term; the Pathan tribes are mainly of Iranian origin. It is estimated that over 90 per cent. of the people of the Province are Muhammadans. The majority are agriculturists; other occupations are cotton weaving, leather working, iron and wood work, and the making of earthenware. The principal crops are—in the cold weather, maize and bajra; in the spring, wheat, barley, and gram. Rice and sugarcane are largely grown on the irrigated tracts of the Hazara, Peshawar and Bannu districts, and the well and canal irrigated tracts of the Peshawar district produce fine crops of cotton and tobacco. Of the total area cultivated 25 per cent. is irrigated by canals and 2 per cent. by perennial streams. Larger areas are about to be brought under irrigation by the waters of the Swat, by tunnelling under the Malakand Pass, and of the Indus.

Border Trade.—The Province owes its commercial importance to the fact that it lies across the great trade routes which connect India with trans-border tribal territories and the

markets of Afghanistan and Central Asia. The Malakand Pass is the main route for imports from Buner and Bajaur which go to Naushahra. The bulk of the commerce with Afghanistan comes down the Khyber Pass to Peshawar, and some of it reaches Kohat by the Gomal and Tochi Valleys or by the Peiwar Kotal and the Kurram Valley. The Chuhar Khel Dhana and Vihowa Kharr routes, once important, are being abandoned for the railway route through Baluchistan. The trade with Bokhara, once important and lucrative, has steadily declined and is being diverted to the Batoum-Bombay sea route. The main articles of import are sheep, goats, grain, pulses, hides and skins, cordage, mats, oil, timber, silk, wool, fruit and vegetables. The chief exports across the border are cotton piece goods, twist and yarn, salt, sugar, tea, tobacco, hardware, metals, leather, dyeing materials, silver and coin.

Administration.—The Province is in the control of a chief commissioner who is also, in the political areas, agent to the governor-general. There are five districts and five political agencies administered by officers of the Indian Civil Service, military officers of the Political Department of the Government of India, and the Punjab Commission. The canals of the Peshawar District are under the control of the Punjab Irrigation Department; the control of the finances is exercised by the accountant-general of the Punjab. There is no legislative council, the Province having been withdrawn on its formation from the jurisdiction of the legislative council of the Punjab. The court of the judicial commissioner also then took the place of the chief court of the Punjab. The revenue and expenditure of the Province are wholly Imperial.

The character of the land tenures in the Settled Districts resembles those of the Punjab, and the method and standard of assessments are the same, but in some districts, for political reasons, they are lighter. Of the agencies only Kurram and the Tochi Valley pay land revenue to the British Government.

BALUCHISTAN.

A tract of mountainous country, whose coast is continuous with the north-western seaboard of the Indian Peninsula; bounded on the north by Afghanistan, on the east by Sind, on the south by the Arabian sea, and on the west by Persia. It extends from lat. 24° 50' to 30° 20' N., and from long. 60° 40' to 69° 45' E.; total area, 134,638 square miles; population 834,703. The country is inhabited by two distinct races, the Brahui and the Baluch. These are each divided into numerous classes, and although Baluchistan derives its name from the latter, the Brahuis are considered the dominant people, and from amongst them the rulers of the country are always selected. The population of British Baluchistan in 1921 was 421,679, and of the Baluchistan States, 378,999.

The first occasion of British intercourse with Baluchistan was when, in 1839, the British Army advanced through the Bolan Pass towards Afghanistan. Owing to the hostile attitude of its ruler, it was found necessary to occupy Kalat, the Khan himself being killed in the

assault. Three treaties have been concluded with the Baluchis (in 1841, 1854, and 1876), the two last binding them to subordinate co-operation with the government of India. By the terms of the treaty of 1876, the Quetta district was leased to that government, and has been administered by British officers since 1877. British Baluchistan was incorporated with British India in 1887, and was divided into two districts—Quetta-Pishin and Thal-Chotiali. Quetta is joined to the railway system of India by a loop of the Sind-Pishin railway running from Sibi through the Bolan Pass to Bostan, and is the headquarters of a division of the Indian Army. Other areas under direct British administration are Zhob, Bolan, and Chagai. The rest of the country is occupied by the states of Kalat and Las Bela, and by the Marri and Bugti tribes.

INDIAN STATES.

The territories of the Indian States occupy approximately two-fifths of the entire Indian peninsula, and contain over one-fifth of the whole population of the country. The names of the principal chiefs, and the salutes allowed to each will be found at pages 202-208A.

The Chamber of Princes, which was inaugurated in February, 1921, is a permanent consultative body which meets periodically for the discussion of matters affecting the Indian States generally, or of common concern to the states and to British India or the Empire at large.

Many of the states are governed almost independently by their own rulers, but they are all subject in a greater or less degree to supervision and guidance at the hands of the British Government. They may be divided into two main heads: (1) states having political relations with the government of India; and (2) states having political relations with the several local governments of India.

STATES HAVING POLITICAL RELATIONS WITH THE GOVERNMENT OF INDIA.

1. *Hyderabad*.—The Hyderabad State is roughly co-extensive with the Deccan or central plateau of Southern India, and takes its name from its capital city. The total area of the territory governed by the Nizam is 82,698 square miles, containing (1921) a population of 12,453,627, about one-tenth being Muhammadans. The ruling dynasty is of Turkoman origin, the name of the first sovereign being Chin Kilich Khan, also known as Asaf Jah, who was appointed to be Viceroy of the Deccan with the title of Nizam-ul-Mulk in the year 1712. During the dissensions in the empire subsequent to the death of Aurungzeb, Asaf Jah succeeded in asserting his own independence. The Assigned Districts of Berar were assigned to the British Government in 1853 to meet the cost, including arrears of pay, of the Hyderabad Contingent, an auxiliary force of four cavalry regiments, four batteries of field artillery, and six regiments of infantry. The *raison d'être* of this force was primarily that it might be of use to the Nizam, but it was available also under treaty for general service with British troops when required. In 1903 it was delocalised and incorporated into the native army of India.

The surplus revenue derived from Berar, after paying for the cost of the administration, was paid to the Nizam's government. In 1903, however, the permanent administrative control of Berar was acquired by the British Government on a perpetual lease, by agreement with the Nizam, and for administrative purposes the Districts were incorporated in the Central Provinces. Revenue of Hyderabad, about £3,334,000.

2. *Mysore*.—The Mysore State is situated in Southern India, between 11° 40' and 15° N. lat., and between 74° 40' and 78° 30' E. long., and is surrounded on all sides by British territory. Its total area, including the civil and military station of Bangalore, which is under British administration, is 29,475 square miles, and it contains (1921) a population of 5,976,600. The inhabitants are almost exclusively Hindus, who constitute more than 92 per cent. of the whole population. In early times Mysore was the principal seat of the Jains, who have left many interesting memorials of their occupation. The state has always been under Hindu rulers, except during the short interval caused by the usurpation of power during the 18th century by Haidar Ali and his son, Tipu Sultan. After the death of the latter, at the capture of Seringapatam in 1799, the English restored a representative of the ancient line in the person of Krishna Raj, son of Chama Raj of Arakotara. His subsequent misrule, when admitted to power on attaining his majority, led to the resumption of the administrative control of the province by the British government in the year 1831. The government, however, continued to be carried on in the name of the native prince, and at his death an adopted son was recognised as successor. This chief, since dead, was duly installed on coming of age in 1881. The British chief commissioner thereupon handed over office to the native diwan, and a political resident was appointed to represent British interests. Revenue of Mysore, about £2,230,000.

3. *Baroda*.—This state includes all the territories of his Highness the Gaekwar. Its total area is 8,182 square miles, and it contains (1921) a population of 2,121,375 souls, the great majority of whom are Hindus. The province of Gujarat was at one time included in the Mughal empire, but, in the early part of the eighteenth century, the Mahrattas, under the leadership of Damaji Gaekwar, and afterwards of his son, Pilaji, succeeded in wresting all power out of the hands of the Mughal officers. From that time Baroda has remained continuously under the sway of the Gaekwar family, who held it in the first instance under the Mahratta Peshwa subject to a tributary payment, but afterwards threw off their allegiance and became feudatory to the British government under the guarantee of a treaty executed in the year 1817. The British government is represented at the court of the Baroda State by a political officer, called the resident and agent to the governor-general. Revenue of Baroda about £1,624,000.

4. *Kashmir and Jammu*.—This state includes, in addition to the district of Kashmir proper, Jammu, Poonch, and the governorships of Ladakh and Gilgit. Subordinate to it are the petty chiefships of Hunza and Nagar. The area is estimated to

be 84,432 square miles. The population, according to the census of 1921, amounts to 3,322,030. Kashmir became part of the Mughal empire in 1586 A.D., but it was afterwards subjugated both by the Afghans and the Sikhs. At the time of the Sikh war the state was under the government of Gulab Singh, a Sikh officer, who ruled as a feudatory of the Maharaja of the Punjab. After the victory of the British forces in 1846, the possession of the kingdom was confirmed to Gulab Singh, under certain specified conditions of alliance and subordinate co-operation, by a separate treaty executed at Amritsar in the same year. A political resident is permanently stationed in Kashmir. The ruling family is Hindu, but about three-quarters of the inhabitants of the country are Muhammadans, and chiefly of the Sunni sect. Revenue, about £1,167,000.

5. *Baluchistan Agency*.—In this Agency are included the native states of Kalat, Kharan, and Las Bela. The Khanate of Kalat, which formerly comprised the whole of the country known as Baluchistan, now occupies only about two-thirds of it. Its area is approximately 55,000 square miles. The country is sparsely populated, the total population in 1921 being 328,302. The Khan of Kalat is under a treaty obligation of subordinate co-operation with the British government. The governor-general's agent in Baluchistan conducts the relations between the government of India and the Khan, and exercises a general political supervision over the district. Revenue, about £60,000. Kharan extends in a westerly and south-westerly direction from near Nushki and Kalat to the Persian Border. Its area is 14,210 square miles, it had a population in 1911 of

22,663, and an average annual revenue of about £7,000. Las Bela is a small state occupying the valley and delta of the Purali river, about 50 miles west of the Sind boundary. Area, 7,132 square miles; population (1921), 50,697, chiefly Sunni Muhammadans; estimated revenue about £27,000.

6. *Rajputana Agency*.—Rajputana is the name of a great territorial circle, situated between 23° and 30° N. lat., and between 69° 30' and 78° 15' E. long. Within these limits are twenty-one states, having each its own autonomy and separate chief, together with the British district of Ajmer-Merwara. Of the states, 17 are Rajput, 2 are Jat (Bharatpur and Dholpur), and 1 only is Muhammadan (Tonk). Their combined area is 128,987 square miles, and they contain a population (1921) of 9,857,012. Ajmer-Merwara has a population (1921) of 495,899. The chief administrative control of the British district is vested *ex officio* in the political officer, who holds the post of governor-general's agent for the supervision of the relations between the several states of Rajputana and the government of India. For administrative purposes they are divided into the following groups: Eastern Rajputana States Agency, 4 states (Alwar, Bharatpur, Dholpur, Karauli); Haroti and Tonk Agency (Bundi and Tonk); Jaipur Residency, 3 states (principal state, Jaipur); Kotah and Jhalawar Agency, 2 states; Mewar Residency; Western Rajputana States Residency, 4 states (Bikanir, Marwar, Jaisalmer and Sirohi).

The following table gives a detailed statement of the estimated area and population (including forest tribes) and the approximate revenues of the states in the Rajputana Agency:—

7. *Central India Agency*.—Central India is the name given to the country occupied by the states grouped together under the supervision of the political officer in charge of the Central India Agency. These states lie between 21° 24' and 26° 32' N. lat., and between 74° 0' and 83° 0' E. long. The British districts of Jhansi and Lalitpur divide the Agency into two main

divisions—Native Bundelkhand and Baghelkhand lying to the east, and Central India proper to the west. The total area covered is 77,367 square miles, and the population (1921) amounts to 9,180,403. The great majority of the people are Hindus. The principal states are eight in number—Gwalior, Indore, Bhopal, Rewa, Dhar, Jaora, Datia,

and Orcha, of which two, Bhopal and Jaora, are Muhammadan, and the rest are Hindu. Besides these there are a multitude of petty states held by their rulers under the immediate guarantee of the British government, but having feudal relations with one or other of the larger states. The total number of states amounts to 151. For administrative purposes they are divided into the following groups: Baghelkhand Agency, 12 states (principal state, Rewa); Bhopal Agency, 17

states (principal state, Bhopal); Southern States Agency, 21 states (principal state, Dhar); Bundelkhand Agency, 22 states (principal states, Datia and Orcha); Gwalior Residency, 32 states (principal state, Gwalior); Indore Residency, 9 states (principal state, Indore); Malwa Agency, 38 states (principal state, Jaora).

The following list gives the approximate size, population, and revenue of the eight principal states above mentioned:—

8. *Sikkim* is bounded on the north and north-east by Tibet, on the south-east by Bhutan, on the south by the British district of Darjiling, and on the west by Nepal. The population consists of the races of Lepcha and Bhoti, and the Nepali tribe, Limbu. It forms the direct route to the Chumbi valley in Tibet. Previously under the government of Bengal, it was brought under the direct supervision of the governor-general in Council in 1906. Area, 2,818 square miles; population, (1921) 81,722, about two-thirds Buddhists and one-third Hindus; approximate revenue, £23,700.

9. *Bhutan*.—Bhutan extends for a distance of approximately 190 miles east and west along the southern slopes of the central axis of the Himalayas, adjacent to the northern borders of Bengal and Assam. Its area is about 18,000 square miles and its population, consisting of Buddhists and Hindus, has been estimated at 350,000. The country formerly belonged to a tribe called Tek-pa, but was wrested from them by some Tibetan soldiers about the middle of the seventeenth century. Relations with the Government of India are regulated by treaties

concluded in 1865 and 1910. The average annual revenue is estimated at £20,000.

10. *North-West Frontier Province*.—The Indian states of the North-West Frontier Province are Amb, Chitral, Dir, Nawagai (Bajaur), and Phulera. The total area is about 7,704 square miles, and the population, mainly Muhammadan, was about 375,000 in 1911. The average annual revenue of the first four is about £31,000; that of Phulera is unknown.

STATES HAVING POLITICAL RELATIONS WITH THE LOCAL GOVERNMENTS AND ADMINISTRATIONS.

1. *Government of Madras*.—The Madras Presidency includes five Indian states covering an area of 10,549 square miles, with a population (1921) of 5,460,029 souls.

Of these states, Travancore and Cochin represent ancient Hindu dynasties. Pudukkottai is the inheritance of a chieftain called Tondman. Banganapalle and Sandur, two petty states, of which the first is ruled by a Nawab, lie in the centre of two British districts. The principal states are:—

Name.	Area.	Population, 1921.	Approximate Revenue.

Cooch Behar is inhabited by a mongoloid people, the Cooch. It has an area of 1,307 square miles, a population (1921) of 592,372, and a revenue of about £215,000. Tripura, previously under this government, was, in October, 1905, transferred to the government of the newly-constituted province of Eastern Bengal and Assam, and again transferred to Bengal in 1912. Tripura is the home of a mongoloid race, partly drawn from the Eastern Himalayas, and allied to the Kachari of Assam.

Its area is 4,086 square miles, and its population (1921), 303,801. Its revenue is about £169,000.

The remaining states, including the Sikh principalities of Patiala, Jind, Nabha, Kapurthala, Faridkot and Kalsia, and the Muhammadan chiefships of Maler Kotla, Pataudi, Loharu and Dujana, lie east of Lahore, and,

The Shan States are, properly speaking, not Indian States, the territory being part of British India. They are administered, however, through the Sawbwas or hereditary chiefs.

Province includes Manipur with an area of 8,456 square miles, and a population (1921) of 383,672, of which about 58 per cent. are Hindus, 38 per cent. animistic forest tribes, and 4 per cent. NEPAL.

The kingdom of Nepal, the land of the Gurkhas, is a narrow tract of country extending for about 520 miles along the southern slope of the central axis of the Himalayas. It has an area of 54,000 square miles, with a population of about 5,640,000, chiefly Hindus. The country was conquered during the Newar dynasty by the Gurkhas under Prithvi Narayan, who became Raja of Nepal. In 1846 the head of the Jung

family obtained from the sovereign the perpetual right to the office of Prime Minister of Nepal, and the right is still enjoyed by his descendant. The relations of Nepal with the Government of India are regulated by a treaty signed in 1814 and ratified in 1815, and by subsequent agreements. The average annual revenue is estimated at about £1,000,000.

CURRENCY.

The silver rupee (containing 165 grains of fine silver and 15 grains of alloy and weighing in all 180 grains troy or 1 tola) was the sole standard of value until the 26th June, 1893, when the Indian mints were closed to the unrestricted coinage of silver into rupees and it was notified that gold coin and bullion would be received at the mints in exchange for Government rupees at the rate of 7·53344 grains of fine gold for 1 rupee, being equivalent to a rate of exchange of 15 rupees per £1. In 1899 British gold coins were made legal tender side by side with rupees at that rate. From 1899 to 1917 the exchange value of the rupee remained steady at about 1s. 4d.; but on the 29th August, 1917, it rose to 1s. 5d. Subsequent successive increases led to a rate of 2s. 4d. on 12th December, 1919. The question of Indian exchange and currency was considered in 1919 by an authoritative committee, whose members, with one exception, recommended that the exchange value of the rupee should be fixed in terms of gold at the rate of 1 rupee for 11·30016 grains of fine gold, i.e., 10 rupees = 1 sovereign. This policy has been accepted by the Government of India who, on 2nd February, 1920, announced that they would be prepared to buy imported gold at this rate. Circumstances have hitherto prevented the stabilisation of exchange at the ratio referred to above, and the rupee has at present a fluctuating value which is to be ascertained by reference to the daily press. In September, 1920, the sovereign was made legal tender as the equivalent of Rs. 10. Silver, nickel, bronze and copper coins of fractional values of a rupee are also in circulation.

The Indian denominations are :—

Pie.
Pice (3 pies).
Anna (12 pies).
Rupee (16 annas).

A lakh (lac) is 100,000 rupees and a crore is 100 lakhs.

The denominations of currency notes in circulation are 1, 2½, 5, 10, 20, 50, 100, 500, 1,000, and 10,000 rupees.

WEIGHTS AND MEASURES.

The weights adopted in Government transactions and by the railway companies are as follows :—

1 tola	= 180 grains.	= 11·66 grams.
1 chittak (5 tolas)	= 900 "	= 58·32 "
1 ser (16 chittaks)	= 2½ troy lbs. (or 2½ lbs. avoirdupois)	= 933·10 "
1 maund (40 sera)	= 100 " (or 82½ " ")	= 37·32 kilograms.

In Bombay a maund of 28 lbs. avoirdupois is in use; in Madras a maund of 25 lbs. avoirdupois.

In Burma a viss of 3½ lbs. avoirdupois is used.

The gaz in Bengal is equivalent to 1 yard.
