

Introduction:

There is a greater need to give importance to the library as the logical and "most happening place" to promote academic integrity and improve the quality of research. Library Professionals are well-connected to the research world and have a deep understanding of citations and how to avoid plagiarism. Accordingly, there is a need to create awareness on what is plagiarism, how to detect and avoid it to maintain Academic and Research Integrity. Since, the above contents are part of syllabus of various PG Diploma & Short Term Courses in 'Digital Library and Data Management', Open Access for Library and Information Science Professionals' and Research Methodology etc., being run by the Kalanidhi Division, we are organizing a Workshop on 'Plagiarism, Copyright and Reference Management Tools' to suffice the need of courses and also for greater awareness on plagiarism to maintain academic and research integrity.

Workshop Director:

Dr. Ramesh C. Gaur, Director & Head, Kalanidhi, IGNCA
