

Design Proposal invited for an Idol of Maryada Purushottam Ram Depicting Childhood

(Ramlala)

Pro-bono artistic creativity invited for the design depiction of childhood of Maryada Purushottam Ram respecting the description in the different Ramayan scriptures.

The design of the idol could be imagined in standing or sitting posture on an ornate pedestal. It is expected that the proposal would also suggest the colour and type of stone or any other material for sculpting the design including 'vastram and ornaments' distinctly in the description.

The size of the idol of child Ram(Ramlala) depicting the design could range vertically 3-5 feet and proportionate width. However, no rigidity is being indicated and it would largely be the art imagery of the personality.

The purpose of this international design idea participation is to initiate work leading to collection of artistic depiction of Lord Ram as a child (Ramlala) generating feeling of aura and worship.
