Bharat Pragyan Mahotsava is a collective endeavor to bring to the fore the scientific and spiritual traditions of India. It has initiated a discourse on Indian metaphysics, philosophy, Vedic rituals, art forms, architecture and Ayurveda with the purpose to revitalize the cultural life of Indians and bring a desirable change in human society.

For this purpose under the aegis of 'Healing Sublime' we are organizing a 'spiritual-cultural-function' at Indira Gandhi National Centre for the Arts, New Delhi on 1st October 2023. Later, major programme based on this experience will be organized in various countries where a significant number of people of Indian origin live.

As an instance, in the year 2024 we are going to organize a mega cultural event in Mauritius where exhibition on Indian art and architecture will be installed to disseminate true knowledge about our historic traditions and tangible achievements.

The exhibition organized there will have specific sessions on scientific knowledge tradition of India as well. Apart from that cultural festival having multiple programmes on dance and drama, will be organized for that already a team of senior artists has been formed. We have also formed a group of eminent scholars of Vedic sciences, art and architecture for commencing a worldwide discussion on substantial contribution of India to the world.

The proposed programme has glimpses of our grand schemata of cultural scenography we have crafted to project the glory of Indian culture abroad.
