Spaces & Facilities

RICCC is a design-conscious plus high-tech facility with the auditorium and halls that are equipped with high end sound acoustics, Hi-speed internet and a world class audio visual (AV) setup that supports every meeting aspiration with convenience to the delegates.

The centre is amplified with assistance of external as well as internal CCTV surveillance, smoke detectors, sprinkler systems and fire alarm systems. The Emergency Response System & First Reaction Team consists of fully-trained fire fighters with strategically placed fire exits ensure easy and quick access. The security system structure consisting of the door frame metal detector, hand-held detector,

crowd control system, baggage scanner and traffic management system adheres to the international norms of quality and standard.

To further escalate the level of security; the centre also has easy access to the fire brigade, police and paramedics services. Additionally, we work closely with government agencies in order to keep upgrading our system whenever needed. Further details for proper event's security planning, can be obtained from our representative.

Do's and Dont's

Do's
